

**HOUSE OF REPRESENTATIVES STANDING COMMITTEE ON ECONOMICS**

**REVIEW OF THE FOUR MAJOR BANKS (FIFTH HEARINGS)**

**Commonwealth Bank of Australia**

**CBA13QON:** Page 33

CHAIR: My question is about the impact on the bank and whether it's going to have any impact. From your answer, you've accepted that there may be a consequence to the bank and the amount of shares that are held in it, particularly those held by self-funded superannuants?

Mr Comyn: It may influence an individual investor's preference for which shares they may hold over another or for which asset classes et cetera, as opposed to the underlying performance or stability of the bank.

CHAIR: But you're going to provide on notice the information you have about the shareholdings that you're aware of?

Mr Comyn: To the extent that we can, I would be happy to do so.

**Answer:** See answer to CBA07QON.
