January 2022 had no payment cancellations. This was because all payment suspensions were lifted as part of the temporary suspension of mutual obligations for the Christmas and New Year period. Mutual Obligations resumed on 4th January 2022 and any payment suspensions applied since then (that required cancellation of payment) would not have been cancelled until February 2022.

NOTES: From 20 March 2020 JobSeeker Payment replaced Newstart. Any non-compliance recorded where the payment type at the time was Newstart has now been converted to JobSeeker Payment

#P means job seekers in jobactive and participants in ParentsNext

[^]Job Seekers can belong to more than one demographic cohort.

^AA Capability Interview is triggered after 3 demerits are accrued by a job seeker within a six month period. A Capability Assessment is triggered after 5 demerits are accrued within six months. Once the job seeker has been found capable of meeting their requirements at a Capability Assessment, they will enter the Penalty Zone.

Job seekers with a Demerit Count of 5 in the above table have had a Capability Assessment triggered which had yet to be finalised as at the report date. Job Seekers with a Penalty Count of 0 were in the Penalty Zone but had not incurred a penalty as at the report date - may include those who had a Capability Assessment Finalised or were recommenced in the Penalty Zone after serving a preclusion period, prior to the report date.

Due to rounding, percentages may not add up to 100%

Where a number is less than 10 this is indicated by '<10'. To prevent these numbers from being reverse engineered some other numbers are not published (indicated by 'np').

NOTES:
 From 20 March 2020 JobSeeker Payment replaced Newstart. Any non-compliance recorded where the payment type at the time was Newstart has now been converted to JobSeeker Payment.
 #P means job seekers in jobactive and participants in ParentsNext.
 #E means non-compliance events. A job seeker or participant may experience more than one non-compliance event of the same type in the period.
 ^Job Seekers/Participants can belong to more than one demographic cohort.
 When a Capability Interview or Capability Assessment is finalised with a result of Not Capable, the Employment Services System will assign a single reason for this result for reporting purposes. This reason is assigned by the System using a hierarchical matrix. While the system will only suggest one reason for the job seeker/participant being found not capable, the capability review may reveal more than one reason for the job seeker/participant being found not capable e.g. there may be errors in the Job/Participation Plan and the job seeker/participant may have disclosed new information.
 Due to rounding, percentages may not add up to 100%.
 Where a number is less than 10 this is indicated by '<10'. To prevent these numbers from being reverse engineered some other numbers are not published (indicated by 'np').

NOTES: From 20 March 2020 JobSeeker Payment replaced Newstart. Any non-compliance recorded where the payment type at the time was Newstart has now been converted to JobSeeker Payment

#P means job seekers in jobactive and participants in ParentsNext

[^]Job Seekers can belong to more than one demographic cohort.

[`]A Capability Interview is triggered after 3 demerits are accrued by a job seeker within a six month period. A Capability Assessment is triggered after 5 demerits are accrued within six months. Once the job seeker has been found capable of meeting their requirements at a Capability Assessment, they will enter the Penalty Zone.

Job seekers with a Demerit Count of 5 in the above table have had a Capability Assessment triggered which had yet to be finalised as at the report date. Job Seekers with a Penalty Count of 0 were in the Penalty Zone but had not incurred a penalty as at the report date - may include those who had a Capability Assessment Finalised or were recommenced in the Penalty Zone after serving a preclusion period, prior to the report date.

Due to rounding, percentages may not add up to 100%

Where a number is less than 10 this is indicated by '<10'. To prevent these numbers from being reverse engineered some other numbers are not published (indicated by 'np').

Data as at 31 January 2022. Individuals may belong to more than one demographic cohort

Please note the department does not collect specific reasons for payment cancellations

January 2022 had no payment cancellations. This was because all payment suspensions were lifted as part of the temporary suspension of mutual obligations for the Christmas and New Year period. Mutual Obligations resumed on 4th January 2022 and any payment suspensions applied since then (that required cancellation of payment) would not have been cancelled until February 2022.
