2023-24 Supplementary Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

Information on the progress status, LGA, project name, and description of projects is as at 16 October 2023.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where LGA information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Supplementary Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

Information on the progress status, LGA, project name, and description of projects is as at 16 October 2023.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where LGA information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

The interchange will also improve access to the Western Sydney International (Nancy-Bird Walton) Airport (WSI Airport) from Sydney's motorway network, and will increase road capacity to support the growth of Western Sydney and increased traffic volume to the new Airport. |
| NSW | Macquarie Park Precinct and Bus Interchange | Off-Network - Road - States | 100.0 | 80.0 | 80 | 6.9 | 25.0 | 35.7 | 7.1 | 1.0 | 68.7 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | Council of the City of Ryde | The project will plan and upgrade the Macquarie Park Precinct and Bus Interchange, optimising bus operations and pedestrian access to and from the interchange precinct, as well as future proofing transport operations in the area. |
| NSW | Mandalong Road Upgrade | Investment Roads | 94.0 | 56.0 | 60 | 0.0 | 3.0 | 10.0 | 13.0 | 13.0 | 39.0 | 17.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 17.0 | Lake Macquarie City Council | This project will deliver new roundabouts at the Gateway Boulevard and Wye Road intersections and a dual carriageway link in between. |
| NSW | Manns Road - Intersection Upgrades at Narara Creek Road and Stockyard Place | Investment Roads | 66.0 | 52.8 | 80 | 0.0 | 0.0 | 11.0 | 27.0 | 14.8 | 52.8 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | Central Coast Council (NSW) | This project involves intersection upgrades along Manns Road, including two key intersection upgrades at Manns Road and Stockyard Place, West Gosford and Manns Road and Narara Creek Road, Narara. Manns Road connects the Central Coast Highway to the industrial area of West Gosford and Pacific Highway at Narara. The section of Manns Road proposed for upgrade has a history of crashes mainly near intersections and driveways. This project supports improved road safety, improved pedestrian and cyclist safety, reduced travel times and reduced congestion on the Central Coast. |
| NSW | Middleton Drive Extension - M7 Underpass | Investment Roads | 9.0 | 6.0 | 67 | 0.0 | 4.0 | 2.0 | 0.0 | 0.0 | 6.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | Liverpool City Council | The project will construct a new road extending Middleton Drive, Middleton Grange, to connect with Aviation Road, Austral, under the M7 Motorway. Includes the construction of a shared path overbridge parallel to the M7 Motorway. |
| NSW | Milton Ulladulla Bypass | Off-Network - Road - States | 940.0 | 752.0 | 80 | 0.0 | 22.0 | 96.0 | 160.0 | 200.0 | 478.0 | 200.0 | 71.5 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 271.5 | Shoalhaven City Council | The project is expected to construct a bypass of Milton and Ulladulla. The scoping phase will involve preliminary data collection, consultation, strategic design works, corridor planning and strategic options development and analysis. |
| NSW | Mount Ousley Interchange | Investment Roads | 300.0 | 240.0 | 80 | 10.0 | 48.0 | 65.8 | 55.0 | 35.0 | 203.8 | 5.0 | 21.2 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 26.2 | Wollongong City Council | This project involves the upgrade of the intersection of the Princes Motorway and Mount Ousley Road. The interchange will replace the existing intersection, which is a significant pinch point of the Motorway network, and currently experiences long queues and delays during peak periods. As the primary access point to Wollongong and Port Kembla, issues at this intersection also create significant flow-on effects across the transport network. This project will improve travel times, as well as access to the Wollongong central business district and the University of Wollongong. It will ensure safer access to and from the Motorway to Mount Ousley Road, and improve safety by separating cars and heavy vehicles travelling down Mount Ousley. |
| NSW | Mt Lindsley Road - Legume to Woodenborg | Off-Network - Road - States | 24.0 | 12.0 | 50 | 0.0 | 0.5 | 0.0 | 0.0 | 0.0 | 0.5 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | Tenterfield Shire Council | - This approved project includes realignment, widening and upgrade of a number of sections of Mount Lindsley Road between Legume and Woodenborg. - 14.4km of road and one intersection will be upgraded. This includes strengthening and upgrade of Koreah Creek Bridge. |
| NSW | Mulgoa Road Stage 2 - Glenmore Parkway to Jeanette Street, Stage 5A Blakie Road to Jamison Road and Stage 5B Jamison Road to Union Road | Investment Roads | 465.0 | 232.5 | 50 | 0.0 | 10.0 | 62.5 | 50.0 | 45.0 | 167.5 | 65.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 65.0 | Penrith City Council | The Mulgoa Road Stage 2 - Glenmore Parkway to Jeanette Street upgrade will widen approximately 850 metres of Mulgoa Road from an undivided four lane carriageway to a divided six lane carriageway with medians and active transport facilities. The Mulgoa Road Stage 5A - Blakie Road to Jamison Road upgrade and Mulgoa Road Stage 5B - Jamison Road to Union Road upgrade will widen both sections from a divided four lane carriageway to a divided six lane carriageway with medians and active transport facilities. |
| NSW | Mulgoa Road Upgrade | Investment Roads | 226.3 | 171.2 | 76 | 21.5 | 61.0 | 56.0 | 7.1 | 1.2 | 125.3 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | Penrith City Council | The project will upgrade road capacity from four lanes to six lanes, upgrade Wolsley Street, Glenbrook Street, and Blakie Road intersections, construct a noise wall and decommission the Wolsley street tunnel. The project also includes providing the concept design, a detailed design, a review of environmental factors and property acquisition. |

2023-24 Supplementary Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

Information on the progress status, LGA, project name, and description of projects is as at 16 October 2023.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where LGA information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Supplementary Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

Information on the progress status, LGA, project name, and description of projects is as at 16 October 2023.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where LGA information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

| NSW | Port Stephens Cutting upgrade | Investment Roads | 25.0 | 20.0 | 80 | 0.0 | 2.0 | 15.0 | 3.0 | 0.0 | 20.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | In Planning | Tamworth Regional Council | The project involves the upgrade of Port Stephens Cutting. Port Stephens cutting is a 6km section of the Dungowan to Duri Road (total length of around 55km) that connects Tamworth to the Thunderbolts Way at Nowendoc. This road is very narrow and currently in poor condition, with local road users raising safety concerns. The project will deliver targeted upgrades to Port Stephens Cutting. To achieve the benefits/outcomes of improve road safety for all road users, increase regional connectivity, improve accessibility and improve freight productivity. The updates required along this road include: -Rock removal to widen the road to two lanes wide -Approximately 2km road widening to facilitate safety fence -Safety Fence Improvements -Pavement upgrade with High friction wearing course. |
| NSW | Princes Highway and Waratah Street Intersection Upgrade | Investment Roads | 15.2 | 7.6 | 50 | 0.0 | 3.3 | 4.0 | 0.1 | 0.0 | 7.4 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | In Planning | Sutherland Shire Council | Duplication of eastbound right turn lanes on Waratah Street into Princes Highway and provision of a northbound high entry angle left turn slip lane on Princes Highway into Waratah Street. The project will in the first stage undertake investigations to prepare strategic detailed design options and the preparation and submission of a Strategic Business Case. |
| NSW | Princes Highway Corridor (NSW) - Jervis Bay Road Intersection | Investment Roads | 176.8 | 100.0 | 57 | 5.0 | 35.0 | 25.0 | 20.0 | 5.0 | 85.0 | 5.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 5.0 | In Planning | Shoalhaven City Council | This project will upgrade the Jervis Bay Road intersection, including: - a bridge for highway traffic to cross Jervis Bay Road to travel North and South on the Princes Highway - longer entry and exit lanes on and off the highway to improve safety and efficiency and reduce congestion - improved services for pedestrians, cyclists and public transport users - improved access to local roads - the construction of two roundabouts to enter/exit highway to reduce congestion and improve safety. |
| NSW | Princes Highway Corridor (NSW) - Jervis Bay Road to Hawken Road | Investment Roads | 500.0 | 400.0 | 80 | 0.0 | 10.0 | 45.0 | 60.0 | 100.0 | 215.0 | 115.0 | 60.0 | 10.0 | 0.0 | 0.0 | 0.0 | 185.0 | In Planning | Shoalhaven City Council | This project involves upgrades along the Princes Highway between Jervis Bay Road and Hawken Road. It will form part of broader upgrades to the 20 kilometre section of the highway between Jervis Bay Road and Sussex Inlet Road, which is predominantly an undivided road, one lane in each direction, with limited overtaking opportunities and significant increases in traffic volumes during peak tourist periods. This situation has resulted in a poor safety history – with 126 crashes, including five fatal crashes and 42 serious injury crashes, on this section of the highway between 2014 and 2018. These upgrades will provide a safer corridor for all transport users, and support increased capacity and traffic efficiency. |

| NSW | Richmond Road Stage 1 - Elara Boulevard to Heritage Road, Marsden Park | Investment Roads | 50.0 | 25.0 | 50 | 0.0 | 0.0 | 5.0 | 10.0 | 10.0 | 25.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | In Planning | Blacktown City Council | The project will duplicate Richmond Road from two lanes to four lanes between Elara Boulevard and near Heritage Road (Cydese Farm Road) and build a new four-way signalised intersection about 800 metres north of Elara Boulevard. The signalised intersection will provide access to Marsden Park Precinct (MPP) to the west and Marsden Park North Precinct (MPNP) to the east. There is an increasing demand on Richmond Road to provide connectivity for the North West region. Current access to the MPP via Elara Boulevard is heavily congested and without additional access points to the development areas, congestion is expected to increase. This project will help alleviate congestion in Western Sydney and support the current Hawkesbury River Third Crossing project. |

2023-24 Supplementary Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

Information on the progress status, LGA, project name, and description of projects is as at 16 October 2023.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where LGA information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Supplementary Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

Information on the progress status, LGA, project name, and description of projects is as at 16 October 2023.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where LGA information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Supplementary Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

Information on the progress status, LGA, project name, and description of projects is as at 16 October 2023.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where LGA information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Supplementary Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

Information on the progress status, LGA, project name, and description of projects is as at 16 October 2023.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where LGA information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Supplementary Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

Information on the progress status, LGA, project name, and description of projects is as at 16 October 2023.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where LGA information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Supplementary Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

Information on the progress status, LGA, project name, and description of projects is as at 16 October 2023.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where LGA information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Supplementary Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

Information on the progress status, LGA, project name, and description of projects is as at 16 October 2023.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where LGA information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Supplementary Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

Information on the progress status, LGA, project name, and description of projects is as at 16 October 2023.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where LGA information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Supplementary Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

Information on the progress status, LGA, project name, and description of projects is as at 16 October 2023.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where LGA information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Supplementary Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

Information on the progress status, LGA, project name, and description of projects is as at 16 October 2023.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where LGA information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Supplementary Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

Information on the progress status, LGA, project name, and description of projects is as at 16 October 2023.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where LGA information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Supplementary Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

Information on the progress status, LGA, project name, and description of projects is as at 16 October 2023.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where LGA information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

This first stage of an ultimate route of dedicated bike facilities lanes will extend east-west for about 1.75 km of a total 2.1 km, ultimately connecting Barrack Street Bridge along the southern side of the rail line to Moore Street. This stage will implement the section from the rail line through to Lord Street and along Wittenoom and Nile Streets to Matagarup Bridge. |

2023-24 Supplementary Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

Information on the progress status, LGA, project name, and description of projects is as at 16 October 2023.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where LGA information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Supplementary Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

Information on the progress status, LGA, project name, and description of projects is as at 16 October 2023.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where LGA information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Supplementary Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

Information on the progress status, LGA, project name, and description of projects is as at 16 October 2023.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where LGA information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Supplementary Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

Information on the progress status, LGA, project name, and description of projects is as at 16 October 2023.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where LGA information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Supplementary Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

Information on the progress status, LGA, project name, and description of projects is as at 16 October 2023.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where LGA information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

Information on the progress status, LGA, project name, and description of projects is as at 16 October 2023.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where LGA information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

It will also include intersection upgrades at Dumas Street, Owen Dixon Drive and Chucuba Crescent. |
| ACT | Inner Canberra Corridor Planning Package | Investment Roads | 3.0 | 1.5 | 50 | 0.0 | 0.9 | 0.7 | 0.0 | 0.0 | 1.5 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | In Planning | Not applicable / allocated | This planning project will investigate options to upgrade key corridors that feed into Canberra, diverting traffic away from Civic, both during the construction of Light Rail Stage 2A and in the longer term. Key corridors to be included in the study include Fairbairn Avenue, Moul Street and Clunies Ross Street. |

2023-24 Supplementary Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 Budget, and implementation is subject to discussions with states, territories and local governments.

Projects with no future funding from 2022-23 are omitted.

Information on the progress status, LGA, project name, and description of projects is as at 16 October 2023.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget. It does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs.

Black Spot Program

- Eligible proponents - State, Territory or Local Government Entities.
- Scope: Black Spot Projects approved since 2021-22. Data is as reported by jurisdictions in August 2023 (ACT - May 2023). As reports are received quarterly, project status and dates may not reflect current status as of October 2023.
- Program Objectives: The Black Spot Program provides up to \$2 million per project in Australian Government funding for the treatment of road locations where known vehicle crashes are occurring or at risk of occurring.
- Eligible projects include traffic signals, roundabouts, turning lanes, safety barriers and lighting.
- Nominations for Black Spot locations are invited from state and territory governments, local councils, community groups and associations, road user groups, industry and individuals.
- On receipt of a completed Black Spot nomination form, the relevant state and territory transport agency will examine the nominated site's eligibility for funding.
- Eligible projects are assessed and prioritised by Consultative Panels in each jurisdiction. The Panels consists of representatives from community and road user groups, industry, Australian and local government, and state road and transport agencies. Only projects that have been recommended for funding by a Consultative Panel are provided to the Minister for funding approval

1. Details on the funding of projects by program that have been contractually committed, committed but not yet contracted, and any funding that has not been allocated.

All projects within the table have had funding committed.

2. Details of any changes that have occurred since details reported to the previous 2023-24 Budget Estimates hearings on 22nd and 23rd May 2023.

Projects approved since the previous hearing are in blue text and can be filtered accordingly.

3. Where there have been changes (particularly delays) in scheduled project completion times, a list of projects by program which at the time of the 2023-24 Budget Estimates (May 2023) hearings were scheduled for completion in 2023-24 and the corresponding revised completion date, as well as explanation for the change in scheduled completion time.

The Department does not record changes to project end dates as these do not require approval. Where a Project will not be complete within the financial year for which it was approved, the Notes on Administration direct that funding Recipients should discuss the circumstances of the delay with their State road authority.

4. A list of projects by program that have been discontinued since 9 May 2023, including projects that have been contractually committed, and committed but not yet contracted.

There are two projects within the scope of the report that have been withdrawn at the request of the jurisdiction since 9 May 2023. These are in red text and can be filtered accordingly, or by selecting 'withdrawn' from the project status filter.

5. A list of completed projects by program for the 2023 calendar year.

These can be identified by filtering Columns F (physical status) and I (end date)

Bridges Renewal Program

Eligible proponents - State, Territory or Local Government Entities.

Scope: Approved projects since 2015, as at 31 August 2023

Caveat: Construction start and end dates are the most recent as provided by the proponent

Responses:

1. Details on the funding of projects by program that have been contractually committed, committed but not yet contracted, and any funding that has not been allocated.

All projects within the table have had funding committed.

2. Details of any changes that have occurred since details reported to the previous 2023-24 Budget Estimates hearings on 22nd and 23rd May 2023.

There have not been projects approved since the last Senate Estimates hearings on 22nd and 23rd of March.

3. Where there have been changes (particularly delays) in scheduled project completion times, a list of projects by program which at the time of the 2023-24 Budget Estimates (May 2023) hearings were scheduled for completion in 2023-24 and the corresponding revised completion date, as well as explanation for the change in scheduled completion time.

In line with the Notes on Administration, variations to the timing or payment of a milestone for a particular Project may be requested by either the Department or Funding Recipient. Unless the timing is outside of the timeframes stipulated in the guidelines, the department does not record these changes.

4. A list of projects by program that have been discontinued since 9 May 2023, including projects that have been contractually committed, and committed but not yet contracted.

Projects have not been formally discontinued since the last Estimates.

5. A list of completed projects by program for the 2023 calendar year.

These can be identified by filtering Columns K (program status) and J (end date)

6. A list of projects by program scheduled for completion in the current (2023-24) financial year.

These can be identified by filtering Column J (end date)

7. Details of any variations since 9 May 2023 to how funding is to be allocated by each program for each year over the Forward Estimates, how funding will be distributed (including whether any co-funding arrangements apply), and, for projects approved since 1 July 2022, details on recipients have been identified.

There have been no changes to funding for the program over the forward estimates since 9 May 2023. Funding recipients for new projects since 1 July 2022 can be identified in column A (subprogram) by selecting any of the 'tranche' programs that have a project ID (column B) where the middle starts with '22' or '23'.

8. Details of how any underspends in completed projects and programs have been repurposed.

Underspends in completed projects are made available to jurisdictions to use for unexpected cost increases in approved projects.

Program Objectives:

The Bridges Renewal Program funds the upgrade and replacement of bridges to enhance access for local communities and facilitate better vehicle access leading to higher productivity.

Eligible projects include bridge replacements, bridge upgrade proposals and new bridges replacing an existing water crossing.

New project selection:

- Applications undergo a four stage process within the Department including: eligibility assessment, merits assessment, input from states and territory road authorities and a quality assurance.
- Only proposals which are eligible and provide the Australian Government value for money are recommended to the approving Minister for funding.
- Ministers do not approve recommended proposals in their own electorate / jurisdiction.

Heavy Vehicle Safety and Productivity Program

Eligible proponents - State, Territory or Local Government Entities

Scope: Approved projects since 2015, as at 31 August 2023

Caveats: Construction start and end dates are the most recent as provided by the proponent

Responses:

1. Details on the funding of projects by program that have been contractually committed, committed but not yet contracted, and any funding that has not been allocated.

All projects within the table have had funding committed.

2. Details of any changes that have occurred since details reported to the previous 2023-24 Budget Estimates hearings on 22nd and 23rd May 2023.

There have not been projects approved since the last Senate Estimates hearings on 22nd and 23rd of March.

3. Where there have been changes (particularly delays) in scheduled project completion times, a list of projects by program which at the time of the 2023-24 Budget Estimates (May 2023) hearings were scheduled for completion in 2023-24 and the corresponding revised completion date, as well as explanation for the change in scheduled completion time.

In line with the Notes on Administration, variations to the timing or payment of a milestone for a particular Project may be requested by either the Department or Funding Recipient. Unless the timing is outside of the timeframes stipulated in the guidelines, the department does not record these changes.

4. A list of projects by program that have been discontinued since 9 May 2023, including projects that have been contractually committed, and committed but not yet contracted.

Projects have not been formally discontinued since the last Estimates.

5. A list of completed projects by program for the 2023 calendar year.

These can be identified by filtering Columns K (program status) and J (end date)

6. A list of projects by program scheduled for completion in the current (2023-24) financial year.

These can be identified by filtering Column J (end date)

7. Details of any variations since 9 May 2023 to how funding is to be allocated by each program for each year over the Forward Estimates, how funding will be distributed (including whether any co-funding arrangements apply), and, for projects approved since 1 July 2022, details on recipients have been identified.

There have been no changes to funding for the program over the forward estimates since 9 May 2023. Funding recipients for new projects since 1 July 2022 can be identified in column A (subprogram) by selecting any of the 'tranche' programs that have a project ID (column B) where the middle starts with '22' or '23'.

8. Details of how any underspends in completed projects and programs have been repurposed.

Program Objectives:

The Heavy Vehicle Safety and Productivity Program funds infrastructure projects that improve the productivity and safety outcomes of heavy vehicle operations across Australia.

Eligible projects include rest areas, parking/decoupling bays, technology trials, road enhancements, livestock vehicle effluent collection and treatment facilities.

New project selection:

- Applications initially undergo a four stage process within the Department including: eligibility assessment, merits assessment, input from states and territory road authorities and a quality assurance.

- Only proposals which are eligible and provide the Australian Government value for money are recommended to the approving Minister for funding.

- Ministers do not approve recommended proposals in their own electorate / jurisdiction.
