Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

| 112827-20NT-RTR | NT | Katherine Town Council | Gory Road, Cossack NT | The present seal is a complete write-off. There is no benefit in patching or sealing the shoulders. The bitumen has lost its flexibility and bonding capacity. The original design allowed for a single vehicle to travel on a sealed surface. Traffic numbers were low and oncoming traffic could pass by putting a single wheel on the unsealed shoulder. Today, traffic count, as well as axle loads, have increased. The seal has deteriorated severely, and gravel shoulders were worn away, resulting in sharp edges and potholes in the bitumen. In addition, the bitumen has lost its flexibility and has become brittle. The design life span is normally 20-25 years, it is understood this has been well exceeded. Pritchard Francis recommends the bitumen to be milled and removed. We have allowed for a standard rural road design of a 6m wide sealed cross-section, with drainage on both sides. The damaged existing seal is to be cold-milled and worked into the pavement, which then becomes the subbase. A new basecourse pavement layer is to be constructed on top. The following will be the scope of works Chainage 0-550 o Install new hazard sign at Florina Road opposite Gory road termination o Reprofile the road, mill, and mix the defunct seal into the subbase. o Construct 150mm basecourse layer and profile o Construct 10mm bitumen single seal o Tie into the floodway o Cut V-drains on both sides along the entire road alignment, following the natural contour. • Chainage 550-650 o Construct floodway as per Tonkin design, with appropriate signage. o Inspect edge beams and assess on-site extend of scope to be | 2021-22 | \$226,177 | \$226,177 | Apr-21 | Dec-21 |

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

| 114728-21WA-RTR | WA | Shire of Mingenew | Yandanooka North East Road (rural road) | Improve sight distance to the intersection on both Mingenew-Morawa Rd and Yandanooka NE Rd by relocating the intersection on Mingenew-Morawa Rd from Straight Line Kilometre 22.4 to Straight Line Kilometre 23.0 on Mingenew Morawa Road. This is to be achieved by realigning the final 500m of Yandanooka NE Rd approaching Mingenew-Morawa Rd. Detail the drainage provisions to ensure that runoff is effectively managed so that the road formation is not compromised. This includes pipe culverts, table drains and off-shoot drainage. Detail a sealed pavement of minimum 8.0m width with additional pavement width as necessary through curves to accommodate the RAV Network 7 design vehicle. Detail a new intersection with sufficient pavement width to allow for the swept path of the RAV Network 7 design vehicle. Provide sufficient clear zone width on Yandanooka NE Rd for the relevant design speed. Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

| 116376-21SA-RTR | SA | South Australian Local Government Grants Commission | Gerald Roberts Road (Rural Road) | Existing Gerald Roberts Road has a nominal width of 7.0 metres, which consists of a 3.0 metres wide unsealed carriageway plus 0.5 metres unsealed shoulder in each direction. The upgrade will widen the overall road formation width of Gerald Roberts Road to 9.6 metres, which includes a 3.3 metre sealed carriageway lane, and a 1.0 metre sealed shoulder and 0.5 metres unsealed shoulder in each direction. Road pavements will be strengthened with stabilisation of 150mm existing pavement and construction of an additional 150mm compacted rubble overlay to accommodate heavy vehicles up to PBS Level 2B (30m Road Train) with a minimum of 2 coats of spray seal wearing course. Some segments of Gerald Roberts Road where the site condition could be challenging for the proposed road widening, such as embankment cuttings or steep slopes, major utility services, native and/or significant vegetation. In those instances, the roadside hazards will be mitigated through various means most appropriate to the conditions, which may include the installation of safety barriers, vegetation removal and signage. As part of the upgrade, selected intersections will be also improved by sealing up to 20m on the side road approaches to Gerald Roberts Road, as well as realignment of some tight curves for better sightlines when required. This ensures safe turning movements for large vehicles and reduce future maintenance requirement. Furthermore, the proposed sealing of Gerald Roberts Road would significantly reduce the dust/air pollution, and vibration currently experienced by residents, and reduce the requirements for regular maintenance grading by the Council in the future. | 2021-22 | \$990,000 | \$1,573,000 | Oct-21 | Sep-22 |
| 116377-21SA-RTR | SA | South Australian Local Government Grants Commission | Alexander Avenue (Playford) | The work proposed includes widening and reconstructing of the 3320m road length of Alexander Avenue with a new pavement, seal, increased shoulder width, new ling marking and signage. At completion of the works, the sealed section will be increased from 6.0 m to 7.0m. The existing unformalised shoulder will be formalised (well compacted) at a width of 1.0 m each side. | 2021-22 | \$1,105,000 | \$2,209,000 | Sep-21 | May-23 |
| 116378-21SA-RTR | SA | South Australian Local Government Grants Commission | Kulkami Road (Rural Road) | The proposed works includes widening and reconstructing 16km of road shoulder to Kulkami Road and will consist of new pavement incorporating crushed rock base coarse to a depth of 300mm and a 2 coat bitumen spray seal . There will be an increase to the sealed width of Kulkami Road from 6 meters to 7.2 meters with a 1 meter unsealed shoulder giving an overall carriageway width of 9.2 meters. | 2021-22 | \$1,000,000 | \$1,500,000 | Oct-21 | Sep-22 |
| 116379-21SA-RTR | SA | South Australian Local Government Grants Commission | Duthy Street (Unley) | The work proposed includes re-kerbing both sides of the road, as most of the kerbing is in poor condition which causes surface water to pool, contributing to the pavement and surface failures. These kerbing works will alleviate the water pooling issues currently and will also assist in creating a safer environment for pedestrians, cyclists and vehicles. Therefore, proposed works will be new kerbing both sides of the road (including better crossing access points), followed by a deeplift reseal of the road surface (including dedicated bike lanes) | 2021-22 | \$388,000 | \$766,000 | Oct-21 | Oct-22 |

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

| 120410-22SA-RTR | SA | South Australian Local Government Grants Commission | Moculta Road (Rural road) | The planned upgrade work is for widening of the Moculta Road pavement between west of Perry Road and Truro Road, a distance of 4.9 kilometres, with improved signage and, line marking and associated infrastructure and replacement upgrade of the narrow creek bridge located midway between Gruenberg Road and Bastion Hill Road, to safely accommodate the required vehicle movements. The existing sealed road width of nominal 5.8 metres is proposed to be increased to the desired road formation width of Moculta Road is 9.6 metres - with 3.3 metre sealed carriageway lane plus 1.0 metre sealed shoulder and 0.5 metre unsealed shoulder in both directions. The road pavement is to have a 2 coat bituminous spray seal pavement wearing course. The design objective is to safely accommodate the mix of community access vehicles and regular large heavy vehicles, including PBS Level 1 over size / over mass vehicles frequently used by local agricultural and farming enterprises. The road widening will be designed and constructed with a consideration of appropriate vehicle types and alignment constraints. | 2022-23 | \$1,200,000 | \$2,400,000 | Dec-22 | Jun-23 |

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

|------------------|--------------------|-----------------------------|----------------------------------|--|----------------|---|--------------------|------------|----------|
| 122474-23QLD-RTR | QLD | Brisbane City Council | Butterfield Street, Herston | The project is proposed to upgrade the intersection with the construction of a roundabout. The design will allow for reduction in the road width/lanes and geometry of the roundabout will promote reduced vehicle speeds. The introduction of the roundabout will negate many of the issues faced by cyclists and pedestrians will deliver a solution which provides an improvement to safety and function for all road users. | 2024-25 | \$1,200,000 | \$1,500,000 | Feb-24 | May-24 |
| 122475-23QLD-RTR | QLD | Brisbane City Council | Kelvin Grove Road, Red Hill | The project will upgrade the intersection of Kelvin Grove Road and Lower Clifton Terrace by removing the signalised left turn from Lower Clifton Terrace onto Kelvin Grove Road reducing the time requirement for signal phasing thereby resulting in additional green time for Kelvin Grove Road, improving travel time reliability for motorists. The project will also involve modifications to the pedestrian crossing on Lower Clifton Terrace and change the left turn in only from Hale Street ramp to a left turn out only onto the Hale Street ramp. | 2023-24 | \$1,300,000 | \$1,500,000 | Nov-23 | Feb-24 |
| 122476-23QLD-RTR | QLD | Brisbane City Council | Dandenong Road, Jamboree Heights | Brisbane City Council is upgrading the Dandenong Road and Sirocco Street intersection at Jamboree Heights by installing traffic lights at the intersection with pedestrian crossing facilities to improve safety for road users, enhance the overall operation of the intersection, and improve pedestrian and cyclist connectivity. | 2023-24 | \$2,800,000 | \$2,900,000 | Dec-23 | May-24 |
| 122478-23QLD-RTR | QLD | Brisbane City Council | Butterfield Street, Herston | The project is proposed to implement traffic calming and increase pedestrian safety by constructing speed platforms on Clyde Road and a pedestrian splitter island at its intersection with Butterfield Street. | 2023-24 | \$250,000 | \$800,000 | Nov-23 | Jan-24 |
| 122483-23NSW-RTR | NSW | Upper Lachlan Shire Council | Kangaloolah Road, Binda | It is proposed to rectify the problems with this section of road by installing additional mitre drains and cleaning the existing drains. The road will then be trimmed and re-shaped. Following this new gravel will be imported, spread and compacted. The road will then be trimmed to its final shape. | 2024-25 | \$100,000 | \$100,000 | Mar-24 | Jun-24 |
| 122485-23NSW-RTR | NSW | Upper Lachlan Shire Council | Cuddiyong Road, Binda | It is proposed to rectify the problems with this section of road by installing additional mitre drains and cleaning the existing drains. The road will then be trimmed and re-shaped. Following this new gravel will be imported, spread and compacted. The road will then be trimmed to its final shape. | 2023-24 | \$100,000 | \$100,000 | Aug-23 | Nov-23 |
| 122487-23NSW-RTR | NSW | Upper Lachlan Shire Council | Church Street, Taralga | It is proposed to rectify the problems with this section of road by removing the existing seal and gravel, replacing with gravel and compacting, installing new seal. | 2023-24 | \$80,000 | \$80,000 | Nov-23 | Dec-23 |
| 122488-23NSW-RTR | NSW | Upper Lachlan Shire Council | Court Street, Taralga | It is proposed to rectify the problems with this section of road by removing the existing seal and gravel, replacing with gravel and compacting, installing new seal. | 2024-25 | \$81,001 | \$81,001 | Jan-24 | Mar-24 |
| 122489-23NSW-RTR | NSW | Upper Lachlan Shire Council | Kangaloolah Road, Binda | Works proposed to be undertaken for this project is to seal 1000m of the road, which will complete the missing link between two sealed sections of road. This will involve drainage improvements and importing, spreading, shaping and compacting gravel and applying a bituminous seal to the 1000m of the newly formed road pavement. | 2023-24 | \$250,000 | \$250,000 | Sep-23 | Dec-23 |
| 122490-23NSW-RTR | NSW | Upper Lachlan Shire Council | Gurrundah Road, Gurrundah | Works proposed to be undertaken for this project is to rehabilitate 2km of the road. Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

| 124406-23SA-RTR | SA | South Australian Local Government Grants Commission | Magazine Road (Rural Road) | The work proposed includes widening and reconstructing the whole section of Magazine Road with a pavement that is suitable for long term (future projections with growth) heavy vehicle loading of adequate width and shoulders/clear zones. The road surface suffers from heavy rutting and poor drainage. All road requires full reconstruction. The overall carriageway width will be increased from 6m to 8.6m with pavement to be surfaced to a thicker from 300mm to 335mm. | 2023-24 | \$899,000 | \$1,796,000 | Sep-23 | Jun-24 |
| 124407-23SA-RTR | SA | South Australian Local Government Grants Commission | Seppeltsfield Road (Rural Road) | The proposed project works include pavement rehabilitation/reconstruction including localised road widening. Kerb and gutter reconstruction in areas. Local Area Traffic Management devices to manage the contrast between speed and road dimensions to promote a safer road environment. The pavement rehabilitation/reconstruction is proposed to include pavement thickening to accommodate the current traffic loadings and those anticipated in conjunction with the approved developments of the Seppeltsfield Winery, including heavy vehicle movements. The typical desired cross-section for the upgrade is proposed to include: 3.5 m wide lanes with 2 m wide shoulders (1 m sealed, 1 m unsealed) in each direction, or on-street parking and kerb and gutter, where applicable adjacent Seppeltsfield Winery as is existing. The preliminary pavement design indicating a pavement thickness with a thin bituminous surface of between 440 and 470 mm and a 40 mm asphalt wearing surface is proposed. The desired road widening, to the full desired width will prove challenging in some areas of this proposed section of Seppeltsfield Road, due to the State Heritage Date Palms lining Seppeltsfield Road. As such, in these width limited areas the use of Local Area Traffic Management devices is proposed, promoting a lower speed environment. Allowing the utilisation of 3.0 m wide traffic lanes. It is also proposed to request the Department for Infrastructure and Transport to approve the lower posted speed limit in these areas to 50 km/hr. The inclusion of formal stormwater management infrastructure, such as kerb and gutter is also proposed to be installed in areas of high flow rates and limited existing infrastructure. | 2023-24 | \$1,400,000 | \$2,100,000 | Sep-23 | Jun-24 |
| 124408-23SA-RTR | SA | South Australian Local Government Grants Commission | Billiatt Road (Rural Road) | The work proposed includes stabilisation 3m wide, 150mm deep on each side of Koolunga Road from the centre of the travel lane. The seal will be widened from the existing 7m to 8.5m by applying a two coat 14/7mm C170 spray seal on the 5.05km section of Koolunga Road from the end of the kerb and water table at the Brinkworth township heading north to Boucaut Road. Line marking will include centre and edge lines to help prevent heavy vehicles from straying off the sealed surface. | 2023-24 | \$535,000 | \$810,000 | Sep-23 | Jun-24 |
| 124409-23SA-RTR | SA | South Australian Local Government Grants Commission | Koolunga Road (Rural Road) | The work proposed includes stabilisation 3m wide, 150mm deep on each side of Koolunga Road from the centre of the travel lane. The seal will be widened from the existing 7m to 8.5m by applying a two coat 14/7mm C170 spray seal on the 5.05km section of Koolunga Road from the end of the kerb and water table at the Brinkworth township heading north to Boucaut Road. Line marking will include centre and edge lines to help prevent heavy vehicles from straying off the sealed surface. | 2023-24 | \$750,000 | \$1,500,000 | Sep-23 | Jun-24 |

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Response to Senator Canavan Request

The following information is provided in relation to the Domestic Aviation and Reform Division and the International Aviation, Technology and Services Division in response to Senator Canavan's request in correspondence to the Department for the following programs of interest:

- Western Sydney Airport
- Regional Airline Network Support
- Managing PFAS at Australian Airports
- Regional Airports Program
- Regional Airports Screening Infrastructure (Enhanced Regional Security Screening)
- Emerging Aviation Technology Partnerships
- Remote Airstrip Upgrade

Not all requested data is captured by the Department, or captured in an easily reportable, reliable, and consistent format.

In the Program overview tables below:

- Budget figures align with the 2023-24 Budget.
- Contracted, committed but not yet contracted and unallocated figures are as at end of 31 August 2023.
- Figures in the tables below are dollars with rounding.

Underspends go back into an unallocated pool to be committed. The total unallocated pool is managed at a program level within the financial year allocations, how individual underspends get repurposed is not tracked.

Additional project level information is included at:

- Regional Airports Program project-level listings are detailed at **Attachment A**.
- Managing PFAS at Australian Airports project-level listings are provided at **Attachment B**.
- Remote Airstrip Upgrade Program project-level listings are detailed at **Attachment C**.
- Emerging Aviation Technologies Programs project-level listings are detailed at **Attachment D**.

Response to Senator Canavan Request dated 13 October 2023

Q2-3. Changes since the previous 2023-24 Budget estimates

Revised project completion dates are reflected in **Attachment A** which have been provided in a format that allows for comparison of changes. Generally, changes to completion dates are to take account of administration to close projects or variations for extensions.

Q4, 5, 6. Projects discontinued, completed, scheduled for completion

Details for projects by program (i) discontinued since 9 May 2022, including projects that have been contractually committed, and committed but not yet contracted, (ii) completed in 2023 calendar year; and (iii) scheduled for completion in the current (2023-24) financial year are reflected in **Attachment A**.

Q8. Details of how any underspends have been repurposed

Underspends go back into an unallocated pool to be committed or returned to consolidated revenue. The total unallocated pool is managed at a program level within the financial year allocations - how individual underspends get repurposed is not tracked.

All IIOC projects withdrawn or failed to supply information by the due date

The due date for IIOC project applications is 30 November 2023. No projects have been withdrawn.

All PCIP projects withdrawn or failed to supply information by the due date

The due date for PCIP project applications is 30 November 2023. No projects have been withdrawn.

A list of all Building Better Regions Fund – Round 5 projects that: (i) were granted extensions enabling completion beyond 31 December 2023; (ii) approached the department seeking an extension of time but were declined; (iii) were declined an extension of time and have been withdrawn.

On 8 September 2023, a one year extension to Round 5 was approved, with projects now required to complete by 31 December 2024 and acquit by 30 June 2025.

The Business Grants Hub (the Hub) informed IP (Infrastructure Project) stream grantees of the extension on Friday 15 September 2023 and CI (Community Investments) stream grantees of the extension on Monday 18 September 2023.

The Hub is currently engaging with these grantees to discuss variations and changes in scope.
