Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

The present road pavement width will be retained, with kerb to kerb distance of 10 metres - plus compacted rubble footpath verge and 1.5 metre wide sealed footpath on both sides. The road pavement is to be a bituminous hotmix pavement wearing course. Works will include consideration of a range of construction techniques such as full depth pavement reconstruction, subgrade conditioning and use of mechanical Geogrid technology. The road horizontal alignment will be maintained along the straight. At the intersection of Basedow Road and Menge Road, the wings will be widened as required to accommodate the PBS level 2B design vehicle, to provide a consistent speed environment commensurate to the vehicle type and local physical constraints such as boundaries and stobie pole infrastructure. This project will upgrade Basedow Road to a level of service sufficient to accommodate its designated freight and community access level of service requirements. | 2020-21 | \$600,000 | \$1,200,000 | Sep-20 | Oct-21 |

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

| 109965-20SA-RTR | SA | South Australian Local Government Grants Commission | One Tree Hill Road (Playford) | The work proposed includes widening and reconstructing of the 2.6km section of One Tree Hill Road with a new pavement, seal, increased shoulder width, new line marking and signage, including the intersections of One Tree Hill Road and Shillabeer Road, One Tree Hill Road and Melville Road and One Tree Hill Road and Hannaford Hump Road. The works identified as part of this project will appropriately mitigate the items raised through the Road Safety Audit. At the completion of the works this section of road will be increased from 6.50m to 7.40m, 3.20m lane widths with 1.0m shoulders (0.5m sealed and 0.5m unsealed) Works also include, review guidepost location, alignment and spacing and removing redundant posts behind beams/barriers. Install double barrier line and yellow RRPMS to standards along the road section. Install edge lines and RRPMS. Remove/trim roadside vegetation to improve approach sight distance and visibility to and from property accesses. Improve property access transition to roadway. Grading verge areas where possible to reduce ponding and scouring; Improve clear zone by trimming/removing vegetation encroachment/overhang along the roadside and clear roadside debris. | 2020-21 | \$1,100,000 | \$2,200,000 | Sep-20 | Feb-22 |
| 109966-20QLD-RTR | QLD | Croydon Shire Council | Croydon Richmond Road (rural road) | Gravel overlay, compact and trim followed by two coat seal. New road will be 7m wide seal width. | 2020-21 | \$464,921 | \$859,921 | Sep-20 | Dec-20 |
| 109967-20SA-RTR | SA | South Australian Local Government Grants Commission | Duthy Street (Unley) | The work proposed includes re-kerbing both sides of the road, as most of the kerbing is in poor condition and surface water pools in many locations, contributing to the pavement and surface failures. This will alleviate the water pooling issues currently and will also assist in creating a safer environment for pedestrians, cyclists and vehicles. Therefore, new kerbing will be laid both sides of the road, followed by a deeplift reseal of the road surface. | 2020-21 | \$336,000 | \$953,000 | Sep-20 | Sep-21 |

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.

Roads to Recovery Program (updated 31 August 2023, data extracted 17 October 2023)

Eligible proponents - State, Territory or Local Government Entities.

Scope: Compliant Roads to Recovery Projects within the 2019-2024 Program Life.

Objectives: Roads to Recovery (RTR) supports the construction and maintenance of the nation's local road infrastructure assets, which facilitates greater accessibility and improves safety, economic and social outcomes for Australians. The Government commits \$500 million each year to this ongoing program. For the current program life from 2019-20 to 2023-24, the Australian Government will provide \$2.6 billion of RTR funding. The next program life will commence in 2024-25. The program operates uniformly across Australia by providing funding to all local governments, and to state and territory government in unincorporated areas. Flexibility is built into the program, with funding recipients having responsibility for choosing road projects on which to spend their RTR funding, based on their local priorities.
