Inquiry into the regulation of auditing in Australia

KPMG responses to Questions on Notice, received 23 December 2019

I. Government contracts

Question 1:

For each of the last ten years, what is the total value of Australian Government contracts, or any other fee-for-service arrangement, that KPMG received?

Response:

The Public Sector in Australia is world class and we are proud of the work we do. Both the public and private sectors have found that to respond to the pace and scale of change, specialist skills and capabilities are often needed to address and deliver on complex projects, and augment existing resources- so it is usual practice to procure this capability. Our work with the Australian Government is awarded through a competitive tender process.

KPMG has extracted the total value of Australian Government contracts made available through the AusTender website using the relevant KPMG ABNs.
