The Committee Secretary  
Parliamentary Standing Committee on Public Works  
PO Box 6100  
Parliament House  
CANBERRA ACT 2600

Dear Secretary

**HMAS Moreton Unit Project**

I am writing to the Committee in relation to the HMAS *Moreton* Unit Relocation Project in support of the submissions made by local community organisations, the Bulimba District Historical Society and the Easy and Sustainable Transport Bicycle Users Group Incorporated (EaStBUG). I would ask the Committee to respectfully consider the issues raised by these two groups, particularly with regard to the cultural and heritage significance of the area in question.

Both the Bulimba District Historical Society and EaStBUG are wonderful volunteer organisations within the Bulimba electorate that I represent. They are passionate in ensuring that the HMAS Moreton site as well as the broader Bulimba Barracks Precinct are recognised and preserved for their important associations with our local, as well as national identity.

Further, both groups are committed to ensuring that the public has access to the Brisbane River at this location by way of an easement for a pedestrian and bicycle corridor as the waterway is an iconic feature shaping the lifestyle of the residents living in and around the area. I strongly support their endeavours to advocate for this to occur.

If I can provide any further support for their submissions, please do not hesitate to contact me on 07 3914 2100 or [bulimba@parliament.qld.gov.au](mailto:bulimba@parliament.qld.gov.au).

Kind regards,

**Di Farmer MP**  
**Member for Bulimba**
