No. 191

WEDNESDAY, 12 SEPTEMBER 2007

2 **QUARANTINE AMENDMENT (COMMISSION OF INQUIRY) BILL 2007**

Mr McGauran (Minister for Agriculture, Fisheries and Forestry), pursuant to notice, presented a Bill for an Act to amend the *Quarantine Act 1908*, and for other purposes.

*Document*

Mr McGauran presented an explanatory memorandum to the bill.

Bill read a first time.

Mr McGauran moved—That the bill be now read a second time.

Debate adjourned (Mr Crean), and the resumption of the debate made an order of the day for the next sitting.

3 **HIGHER EDUCATION ENDOWMENT FUND BILL 2007**

The order of the day having been read for the resumption of the debate on the question—That the bill be now read a second time—*And on the amendment moved thereto by Mr S. F. Smith, viz.*—That all words after “That” be omitted with a view to substituting the following words: “whilst not declining to give the bill a second reading the House:

- (1) welcomes the fact that the Higher Education Endowment Fund, like the Future Fund, is for investment in Australia’s long-term national interests;
- (2) notes that:
  - (a) by the Government’s own analysis there exists a significant backlog of deferred infrastructure maintenance, estimated at \$1.5 billion for the university sector;
  - (b) the Group of Eight Universities estimated that total deferred maintenance liabilities were \$1.53 billion in 2006 across Go8 universities alone;
  - (c) the principal reason behind this backlog is the fact that since it came to power more than 11 years ago the Government has undermined the higher education sector by cutting university operating grants, starting with its 1996 Federal Budget; and
  - (d) as a proportion of total revenue, Commonwealth grants to universities have decreased from 57% of their revenue in 1996 to 41% in 2004, while university revenue derived from fees and charges has increased from 13% in 1996 to 24% in 2004;
- (3) condemns the Government for the adverse impact these factors have had on Australia’s universities, including that:
  - (a) since 1995 student-staff ratios have increased from 14.6 to 20.4 today, with adverse implications for the quality of teaching and learning;
  - (b) Australia’s education system now relies more on private financing than all other OECD countries except for the United States, Japan and South Korea;
  - (c) university revenue derived from fees and charges has increased from 13% in 1996 to 25% in 2004, with the result that more than half of the cost of tertiary education today is met from

private sources—with dependence on private sources increasing to 52% in 2004 from 35% in 1995;

- (d) the average amount of Commonwealth funding per student in real terms has declined by nearly \$1,500, while student HECS contributions have increased by nearly \$2,000, and fees and charges have increased by over \$3,000; and
  - (e) the deferment of essential expenditure on the maintenance of University buildings and facilities will have long term consequences for the quality of essential infrastructure; and
- (4) notes widespread concerns that:
- (a) over time, the HEEF could be used to replace existing capital and infrastructure programs in higher education, notably the Capital Development Pool, the Institutional Grants Scheme, the Research Infrastructure (Block Grants) Scheme and the National Collaborative Research Infrastructure Scheme; and
  - (b) the Government's actions in this package highlight the inadequacy of its approach to national infrastructure needs, whether in the education sector or in services which impact on the sector, such as a national broadband network"—

Debate resumed.
