

AS10QW: Details of arrangements for the temporary or permanent use for corporate venue hire (including corporate boxes), including additional non-hire costs such as catering, at sporting venues over the past five years.

Answer:

AustralianSuper has used several sporting venues to hold a range of meetings and briefings over the last five years. The hire of these venues does not include any corporate boxes and no sporting activities were being undertaken at the time of their use. The purpose of hiring room/s at the venue was in its capacity as a function centre not because the hire coincided or was in conjunction with, any sporting, or otherwise, events being held at the venue.
