

## **Explanatory Statement 10 of 2022**

### **Rectification of Australia's World Trade Organization Schedule of Tariff Concessions (Schedule I – Australia) HS2007 to HS2012 Transposition**

#### **Practical and legal effect**

1. The purpose of the proposed treaty action is to amend Australia's schedule of tariff concessions annexed to the *General Agreement on Tariffs and Trade 1994* (GATT), in Annex 1A to the *Marrakesh Agreement Establishing the World Trade Organization* (WTO Agreement). The proposed treaty action is consistent with Australia's obligations under Article II of the GATT, and in line with the World Trade Organization (WTO) General Council decision of 23 November 2021 (WT/L/1126).
2. Australia is a signatory to the *International Convention on the Harmonized Commodity Description and Coding System* which entered into force on 1 January 1988 (Convention). Annex 2 of the Convention provides for the Harmonized Commodity Description and Coding System (HS). Since 1988, the HS has formed the basis of Australia's commodity classification for import and export goods, including for the purposes of determining the tariff applicable to an imported good. The HS is amended by the World Customs Organization every five years to reflect changes in the types of goods that are traded in the international market.
3. Australia's WTO bound schedule of tariff concessions sets out the maximum duties that Australia can apply to goods imported from other WTO members. In practice, the duties Australia levies at the border are generally significantly lower than our bound duties.
4. Australia's schedule of tariff concessions is consistent with the nomenclature and numbering of tariff lines in the WTO's HS and is currently in the HS2007 version of the nomenclature. This proposed rectification would update Australia's bound tariff concessions from HS2007 to HS2012. The update would not lead to any change to how goods are treated at the Australian border. The change will have no discernible practical, legal or financial effect on Australia.

#### **Nature and timing of proposed treaty matter**

5. The update of Australia's WTO bound schedule from HS2007 to HS2012 involves a reclassification – or 'transposition' – of goods, and their associated bound tariffs, into the HS2012 nomenclature.
6. Australia's proposed HS2012 transposition was circulated to the WTO membership for review on 7 April 2022. In accordance with the procedures for rectification, WTO members had three months from the date of circulation to raise an objection to the proposed rectification. Given no objections were raised during the three month period, the changes will be certified by the WTO Director-General upon notification by Australia that it has completed its domestic procedures.

#### **Reasons for Australia to take the proposed action relating to the treaty matter**

7. Australia is obligated under WTO rules to update Australia's schedule of concessions to reflect domestic changes to commodity classifications which implement the updated HS nomenclature. A WTO General Council decision of 23 November 2021 (WT/L/1126) suspends the application of that obligation to Australia (along with certain other WTO Members) until 31 December 2022, extending the timeframe for Australia to rectify its schedule of concessions to the HS2012 nomenclature.

8. The use of updated HS nomenclature supports the transparency of Australia's trading system. Transparency of trade regulation, including the application of tariffs to specific goods, is a key principle of international trade facilitation, which Australia supports. In the absence of these rectifications, Australia's reputation in the WTO may be negatively impacted, and our ability to advocate for transparency at the WTO may be hampered.

### **Implementing Legislation**

9. No implementing legislation or domestic legislative changes are required as a result of this treaty action.
