

## Note 1: Summary of Significant Accounting Policies

### 1.1 Objectives of the Department of Parliamentary Services

The Department of Parliamentary Services (the department) is an Australian Government controlled entity. It is a not-for-profit entity. The objective of the department is to support the work of the Parliament, maintain Parliament House, and ensure that the building and parliamentary activity is accessible.

The department is structured to meet the following outcome:

Outcome 1: Occupants of Parliament House are supported by integrated services and facilities, Parliament functions effectively and its work and building are accessible to the public.

The Australian Government continues to have regard to developments in case law, including the High Court's most recent decision on Commonwealth expenditure in *Williams v Commonwealth* (2012) 288 ALR 410, as they contribute to the larger body of law relevant to the development of Commonwealth programs. In accordance with its general practice, the Government will continue to monitor and assess risk and decide on any appropriate actions to respond to risks of expenditure not being consistent with constitutional or other legal requirements.

The continued existence of the department in its present form and with its present programs is dependent on Government policy and on continuing funding by Parliament for its administration and programs.

The department's activities contributing toward these outcomes are classified as either departmental or administered. Departmental activities involve the use of assets, liabilities, income and expenses controlled or incurred by the department in its own right. Administered activities involve the management or oversight by the department, on behalf of the Government, of items controlled or incurred by the Government.

The department conducts the following administered activities on behalf of the Government:

Parliament House Works Program - supports the operation of Parliament into the future, while preserving the design integrity of the architecture, engineering systems, art and landscape that make up Parliament House.

### 1.2 Basis of Preparation of the Financial Statements

The financial statements are general purpose financial statements and are required by section 49 of the *Financial Management and Accountability Act 1997*.

The financial statements have been prepared in accordance with:

- a) Finance Minister's Orders (FMOs) for reporting periods ending on or after 1 July 2012; and
- b) Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that apply for the reporting period.

The financial statements have been prepared on an accrual basis and in accordance with the historical cost convention, except for certain assets and liabilities at fair value. Except where stated, no allowance is made for the effect of changing prices on the results or the financial position.

The financial statements are presented in Australian dollars and values are rounded to the nearest thousand dollars unless otherwise specified.

Unless an alternative treatment is specifically required by an accounting standard or the FMOs, assets and liabilities are recognised in the balance sheet when and only when it is probable that future economic benefits will flow to the department or a future sacrifice of economic benefits will be required and the amounts of the assets or liabilities can be reliably measured. However, assets and liabilities arising under executor contracts are not recognised unless required by an accounting standard. Liabilities and assets that are unrecognised are reported in the schedule of commitments or the schedule of contingencies.

Unless alternative treatment is specifically required by an accounting standard, income and expenses are recognised in the Statement of Comprehensive Income when and only when the flow, consumption or loss of economic benefits has occurred and can be reliably measured.

### **1.3 Significant Accounting Judgements and Estimates**

In the process of applying the accounting policies listed in this note, the department has made the following judgements that have a significant impact on the amounts recorded in the financial statements:

- The fair value of land has been taken to be the market value of similar properties with consideration of the impact of the restricted use clause, as determined by an independent valuer (see Note 1.17 for further information);
- The fair value of Parliament House (buildings), a specialised building, has been based on depreciated replacement cost as determined by an independent valuer (see Note 1.17 for further information); and
- The calculation of leave provisions involved actuarial assumptions based on the likely tenure of existing staff, patterns of leave claims and payouts, future salary movements and future discount rates (see Note 1.8 for further information).

No other accounting assumptions and estimates have been identified that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next reporting period.

### **1.4 New Australian Accounting Standards**

#### *Adoption of New Australian Accounting Standard Requirements*

No accounting standard has been adopted earlier than the application date as stated in the standard.

The following revised standard was issued prior to the sign-off date, was applicable to the current reporting period and had a financial impact on the department:

*AASB 101 Presentation of Financial Statements*

Other new standards, revised standards, interpretations and amending standards that were issued prior to the sign-off date and are applicable to the current reporting period did not have a financial impact, and are not expected to have a future financial impact on the department.

#### *Future Australian Accounting Standard Requirements*

The following new standards, revised standards, interpretations and amending standards were issued by the Australian Accounting Standards Board prior to the sign-off date, were applicable to future reporting periods and are expected to have a financial impact on the department for future reporting periods:

*AASB 9 Financial Instruments*

*AASB 13 Fair Value Measurement*

*AASB 1055 Budgetary Reporting*

Other new standards, revised standards, interpretations and amending standards that were issued prior to the sign-off date and are applicable to future reporting periods are not expected to have a financial impact on the department.

## 1.5 Revenue

Revenue from the sale of goods is recognised when:

- a) the risks and rewards of ownership have been transferred to the buyer;
- b) the department retains no managerial involvement or effective control over the goods;
- c) the revenue and transaction costs incurred can be reliably measured; and
- d) it is probable that the economic benefits associated with the transaction will flow to the department.

Revenue from rendering of services is recognised by reference to the stage of completion of contracts at the reporting date. The revenue is recognised when:

- a) the amount of revenue, stage of completion and transaction costs incurred can be reliably measured; and
- b) the probable economic benefits associated with the transaction will flow to the department.

The stage of completion of contracts at the reporting date is determined by reference to:

- a) surveys of work performed;
- b) services performed to date as a percentage of total services to be performed; or
- c) the proportion that costs incurred to date bear to the estimated total costs of the transaction.

Receivables for goods and services, which have 30 day terms, are recognised at the nominal amounts due less any impairment allowance account. Collectability of debts is reviewed at end of the reporting period. Allowances are made when collectability of the debt is no longer probable.

Interest revenue is recognised using the effective interest method as set out in AASB 139 *Financial Instruments: Recognition and Measurement*.

### Resources Received Free of Charge

Resources received free of charge are recognised as revenue when, and only when, a fair value can be reliably determined and the services would have been purchased if they had not been donated. Use of those resources is recognised as an expense. Resources received free of charge are recorded as either revenue or gains depending on their nature.

Contributions of assets at no cost of acquisition or for nominal consideration are recognised as gains at their fair value when the asset qualifies for recognition, unless received from another Government agency or authority as a consequence of a restructuring of administrative arrangements (refer to Note 1.7).

### Revenue from Government

Amounts appropriated for departmental appropriations for the year (adjusted for any formal additions and reductions) are recognised as Revenue from Government when the department gains control of the appropriation, except for certain amounts that relate to activities that are reciprocal in nature, in which case revenue is recognised only when it has been earned. Appropriations receivable are recognised at their nominal amounts.

## 1.6 Gains

### Resources Received Free of Charge

Resources received free of charge are recognised as gains when, and only when, a fair value can be reliably determined and the services would have been purchased if they had not been donated. Use of those resources is recognised as an expense.

Resources received free of charge are recorded as either revenue or gains depending on their nature.

Contributions of assets at no cost of acquisition or for nominal consideration are recognised as gains at their fair value when the asset qualifies for recognition, unless received from another Government entity as a consequence of a restructuring of administrative arrangements (refer to Note 1.7).

### Sale of Assets

Gains from disposal of assets are recognised when control of the asset has passed to the buyer.

## 1.7 Transactions with the Government as Owner

### Equity Injections

Amounts appropriated which are designated as 'equity injections' for a year (less any formal reductions) and departmental Capital Budgets (DCBs) are recognised directly in contributed equity in that year.

### Restructuring of Administrative Arrangements

Net assets received from or relinquished to another Government entity under a restructuring of administrative arrangements are adjusted at their book value directly against contributed equity.

### Other Distributions to Owners

The FMOs require that distributions to owners be debited to contributed equity unless it is in the nature of a dividend.

## 1.8 Employee Benefits

Liabilities for 'short-term employee benefits' (as defined in AASB 119 *Employee Benefits*) and termination benefits due within twelve months of the end of reporting period are measured at their nominal amounts.

The nominal amount is calculated with regard to the rates expected to be paid on settlement of the liability.

Other long-term employee benefits are measured as net total of the present value of the defined benefit obligation at the end of the reporting period minus the fair value at the end of the reporting period of plan assets (if any) out of which the obligations are to be settled directly.

### Leave

The liability for employee benefits includes provision for annual leave and long service leave. No provision has been made for sick leave as all sick leave is non-vesting and the average sick leave taken in future years by employees of the department is estimated to be less than the annual entitlement for sick leave.

The leave liabilities are calculated on the basis of employees' remuneration at the estimated salary rates that will be applied at the time the leave is taken, including the department's employer superannuation contribution rates to the extent that the leave is likely to be taken during service rather than paid out on termination.

The liability for long service leave has been determined by reference to the work of an actuary (using the short-hand method) as at 30 June 2013. The estimate of the present value of the liability takes into account attrition rates and pay increases through promotion and inflation.

#### Separation and Redundancy

Provision is made for separation and redundancy benefit payments. The department recognises a provision for termination when it has developed a detailed formal plan for the terminations and has informed those employees affected that it will carry out the terminations.

#### Superannuation

The department's staff are members of the Commonwealth Superannuation Scheme (CSS), the Public Sector Superannuation Scheme (PSS), the PSS accumulation plan (PSSap) or other superannuation funds held outside the Commonwealth.

The CSS and PSS are defined benefit schemes for the Australian Government. The PSSap is a defined contribution scheme.

The liability for defined benefits is recognised in the financial statements of the Australian Government and is settled by the Australian Government in due course. This liability is reported in the department of Finance and Deregulation's administered schedules and notes.

The department makes employer contributions to the employees' superannuation scheme at rates determined by an actuary to be sufficient to meet the current cost to the Government. The department accounts for the contributions as if they were contributions to defined contribution plans.

The liability for superannuation recognised as at 30 June represents outstanding contributions for the final fortnight of the year.

### **1.9 Leases**

A distinction is made between finance leases and operating leases. Finance leases effectively transfer from the lessor to the lessee substantially all the risks and rewards incidental to ownership of leased assets. An operating lease is a lease that is not a finance lease. In operating leases, the lessor effectively retains substantially all such risks and benefits.

Where an asset is acquired by means of a finance lease, the asset is capitalised at either the fair value of the lease property or, if lower, the present value of minimum lease payments at the inception of the contract and a liability is recognised at the same time and for the same amount.

The discount rate used is the interest rate implicit in the lease. Leased assets are amortised over the period of the lease. Lease payments are allocated between the principal component and the interest expense.

Operating lease payments are expensed on a straight-line basis which is representative of the pattern of benefits derived from the leased assets.

#### **1.10 Borrowing Costs**

All borrowing costs are expensed as incurred.

#### **1.11 Cash**

Cash is recognised at its nominal amount. Cash and cash equivalents includes:

- a) cash on hand; and
- b) demand deposits in bank accounts with an original maturity of 3 months or less that are readily convertible to known amounts of cash and subject to insignificant risk of changes in value.

#### **1.12 Financial Assets**

The department classifies its financial assets in the following categories:

- a) financial assets at fair value through profit or loss;
- b) held-to-maturity investments;
- c) available-for-sale financial assets; and
- d) loans and receivables.

The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. Financial assets are recognised and derecognised upon trade date.

##### Effective Interest Method

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset, or, where appropriate, a shorter period.

Income is recognised on an effective interest rate basis except for financial assets that are recognised at fair value through profit or loss.

##### Financial Assets at Fair Value Through Profit or Loss

Financial assets are classified as financial assets at fair value through profit or loss where the financial assets:

- a) have been acquired principally for the purpose of selling in the near future;
- b) are derivatives that are not designated and effective as a hedging instrument; or
- c) are parts of an identified portfolio of financial instruments that the department manages together and has a recent actual pattern of short-term profit-taking.

Assets in this category are classified as current assets.

Financial assets at fair value through profit or loss are stated at fair value, with any resultant gain or loss recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest earned on the financial asset. Interest earned on financial assets at FVPL is included in line item 'Change in fair value through profit and loss'.

#### Available-for-Sale Financial Assets

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories.

Available-for-sale financial assets are recorded at fair value. Gains and losses arising from changes in fair value are recognised directly in reserves (equity) with the exception of impairment losses. Interest is calculated using the effective interest method and foreign exchange gains and losses on monetary assets are recognised directly in profit or loss. Where the asset is disposed of or is determined to be impaired, part (or all) of the cumulative gain or loss previously recognised in the reserve is included in surplus and deficit for the period.

Where a reliable fair value cannot be established for unlisted investments in equity instruments, these instruments are valued at cost.

#### Held-to-Maturity Investments

Non-derivative financial assets with fixed or determinable payments and fixed maturity dates that the group has the positive intent and ability to hold to maturity are classified as held-to-maturity investments. Held-to-maturity investments are recorded at amortised cost using the effective interest method less impairment, with revenue recognised on an effective yield basis.

#### Loans and Receivables

Trade receivables, loans and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'loans and receivables'. Loans and receivables are measured at amortised cost using the effective interest method less impairment. Interest is recognised by applying the effective interest rate.

#### Impairment of Financial Assets

Financial assets are assessed for impairment at the end of each reporting period.

*Financial assets held at amortised cost* - if there is objective evidence that an impairment loss has been incurred for loans and receivables or held to maturity investments held at amortised cost, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the asset's original effective interest rate. The carrying amount is reduced by way of an allowance account. The loss is recognised in the Statement of Comprehensive Income.

*Available for sale financial assets* - if there is objective evidence that an impairment loss on an available-for-sale financial asset has been incurred, the amount of the difference between its cost, less principal repayments and amortisation, and its current fair value, less any impairment loss previously recognised in expenses, is transferred from equity to the Statement of Comprehensive Income.

*Financial assets held at cost* - if there is objective evidence that an impairment loss has been incurred, the amount of the impairment loss is the difference between the carrying amount of the asset and the present value of the estimated future cash flows discounted at the current market rate for similar assets.

### **1.13 Financial Liabilities**

Financial liabilities are classified as either financial liabilities 'at fair value through profit or loss' or other financial liabilities. Financial liabilities are recognised and derecognised upon 'trade date'.

#### Financial Liabilities at Fair Value Through Profit or Loss

Financial liabilities at fair value through profit or loss are initially measured at fair value. Subsequent fair value adjustments are recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liability.

#### Other Financial Liabilities

Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs. These liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period.

Supplier and other payables are recognised at amortised cost. Liabilities are recognised to the extent that the goods or services have been received (and irrespective of having been invoiced).

### **1.14 Contingent Liabilities and Contingent Assets**

Contingent liabilities and contingent assets are not recognised in the balance sheet but are reported in the relevant schedules and notes. They may arise from uncertainty as to the existence of a liability or asset or represent an asset or liability in respect of which the amount cannot be reliably measured. Contingent assets are disclosed when settlement is probable but not virtually certain and contingent liabilities are disclosed when settlement is greater than remote.

### **1.15 Financial Guarantee Contracts**

Financial guarantee contracts are accounted for in accordance with AASB 139 *Financial Instruments: Recognition and Measurement*. They are not treated as a contingent liability, as they are regarded as financial instruments outside the scope of AASB 137 *Provisions, Contingent Liabilities and Contingent Assets*.

### **1.16 Acquisition of assets**

Assets are recorded at cost on acquisition except as stated below. The cost of acquisition includes the fair value of assets transferred in exchange and liabilities undertaken. Financial assets are initially measured at their fair value plus transaction costs where appropriate.

Assets acquired at no cost, or for nominal consideration, are initially recognised as assets and income at their fair value at the date of acquisition, unless acquired as a consequence of restructuring of administrative arrangements. In the latter case, assets are initially recognised as contributions by owners at the amounts at which they were recognised in the transferor's accounts immediately prior to the restructuring.

### 1.17 Property, Plant and Equipment

#### Asset Recognition Threshold

Purchases of property, plant and equipment are recognised initially at cost in the balance sheet, except for purchases costing less than \$2,000 (excluding GST), which are expensed in the year of acquisition (other than where they form part of a group of similar items which are significant in total).

The initial cost of an asset includes an estimate of the cost of dismantling and removing the item and restoring the site on which it is located.

#### Revaluations

Fair values for each class of asset are determined as shown below:

<i>Asset Class</i>	<i>Fair Value Measurement</i>
Land	Market selling price
Buildings	Depreciated replacement cost
Infrastructure, plant and equipment	Market selling price
Heritage and cultural assets	Market selling price

Following initial recognition at cost, property, plant and equipment were carried at fair value less subsequent accumulated depreciation and accumulated impairment losses. Valuations were conducted with sufficient frequency to ensure that the carrying amounts of assets did not differ materially from the assets' fair values as at the reporting date. The regularity of independent valuations depended upon the volatility of movements in market values for the relevant assets.

Revaluation adjustments were made on a class basis. Any revaluation increment was credited to equity under the heading of asset revaluation reserve except to the extent that it reversed a previous revaluation decrement of the same asset class that was previously recognised in the surplus/deficit. Revaluation decrements for a class of assets were recognised directly in the surplus/deficit except to the extent that they reversed a previous revaluation increment for that class.

Any accumulated depreciation as at the revaluation date is restated proportionately with the change in the gross carrying amount of the asset so that the carrying amount of the asset after revaluation equals its revalued amount.

#### Depreciation

Depreciable property, plant and equipment assets are written-off to their estimated residual values over their estimated useful lives to the department using either the straight-line method or the diminishing value method of depreciation.

Depreciation rates (useful lives), residual values and methods are reviewed at each reporting date and necessary adjustments are recognised in the current, or current and future reporting periods, as appropriate.

Depreciation rates applying to each class of depreciable asset are based on the following useful lives:

	2013	2012
Buildings (excluding leasehold improvements)	5 - 200 years	20 - 200 years
Infrastructure, plant and equipment	2 - 47 years	3 - 50 years

#### Impairment

All assets were assessed for impairment at 30 June 2013. Where indications of impairment exist, the asset's recoverable amount is estimated and an impairment adjustment made if the asset's recoverable amount is less than its carrying amount.

The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use. Value in use is the present value of the future cash flows expected to be derived from the asset. Where the future economic benefit of an asset is not primarily dependent on the asset's ability to generate future cash flows, and the asset would be replaced if the department were deprived of the asset, its value in use is taken to be its depreciated replacement cost.

#### Derecognition

An item of property, plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal.

#### Heritage and cultural assets

The department has a number of stand-alone collections, collectively managed as the Parliament House Art Collection (PHAC) including:

- the rotational collection, consisting largely of contemporary Australian artworks;
  - the architectural commissions, consisting of artworks that were commissioned as an integrated part of the architectural design of the building (including commissioned artist-made furniture);
  - the historic memorials collection, consisting of historical portraits and paintings of significant events;
  - the gift collection, consisting of gifts that have been made to the Parliament;
  - the constitutional documents, a group of significant archival documents managed as part of the PHAC;
- and
- the archive, a range of historic and archival materials about Parliament, the PHAC and the construction of Parliament House.

The department has adopted appropriate curatorial and preservation policies in respect of the PHAC, which are available via the following link:

[http://www.aph.gov.au/About\\_Parliament/Parliamentary\\_departments/department\\_of\\_Parliamentary\\_Services/policies](http://www.aph.gov.au/About_Parliament/Parliamentary_departments/department_of_Parliamentary_Services/policies)

### **1.18 Intangibles**

The department's intangibles comprise software (purchased and internally developed for internal use) and other intangibles (digitised Hansard records). These assets are carried at cost less accumulated amortisation and accumulated impairment losses.

Software is amortised on a straight-line basis over its anticipated useful life. The useful lives of the department's software are 2 to 14 years (2012: 3 to 10 years). Other intangibles are amortised on a straight line basis over its anticipated useful life. The useful lives of the department's other intangibles is 100 years (2012: 100 years).

All software and other intangible assets were assessed for indications of impairment as at 30 June 2013.

### **1.19 Inventories**

Inventories held for sale are valued at the lower of cost and net realisable value.

Inventories held for distribution are valued at cost, adjusted for any loss of service potential.

Costs incurred in bringing each item of inventory to its present location and condition are assigned as follows:

- a) raw materials and stores – purchase cost on a first-in-first-out basis; and
- b) finished goods and work-in-progress – cost of direct materials and labour plus attributable costs that can be allocated on a reasonable basis.

Inventories acquired at no cost or nominal consideration are initially measured at current replacement cost at the date of acquisition.

### **1.20 Taxation/Competitive Neutrality**

The department is exempt from all forms of taxation except Fringe Benefits Tax (FBT) and the Goods and Services Tax (GST).

Revenues, expenses and assets are recognised net of GST except:

- a) where the amount of GST incurred is not recoverable from the Australian Taxation Office; and
- b) for receivables and payables.

### **1.21 Reporting of Administered Activities**

Administered revenues, expenses, assets, liabilities and cash flows are disclosed in the administered schedules and related notes.

Except where otherwise stated below, administered items are accounted for on the same basis and using the same policies as for departmental items, including the application of Australian Accounting Standards.

#### **Administered Cash Transfers to and from the Official Public Account**

Revenue collected by the department for use by the Government rather than the entity is administered revenue. Collections are transferred to the Official Public Account (OPA) maintained by the Department of Finance and Deregulation. Conversely, cash is drawn from the OPA to make payments under Parliamentary appropriation on behalf of Government. These transfers to and from the OPA are adjustments to the administered cash held by the entity on behalf of the Government and reported as such in the schedule of administered cash flows and in the administered reconciliation schedule.

Revenue

All administered revenues are revenues relating to ordinary activities performed by the department on behalf of the Australian Government. As such, administered appropriations are not revenues of the department that oversees distribution or expenditure of the funds as directed.

Loans and Receivables

Where loans and receivables are not subject to concessional treatment, they are carried at amortised cost using the effective interest method. Gains and losses due to impairment, derecognition and amortisation are recognised through profit or loss.

**1.22 Restatements**

Where required, immaterial changes to prior year comparatives have been made.

## Note 2: Events After the Reporting Period

### Departmental

There was no subsequent event that had the potential to significantly affect the ongoing structure and financial activities of the entity.

### Administered

There was no subsequent event that had the potential to significantly affect the ongoing structure and financial activities of the entity.

## Note 3: Expenses

	2013 \$'000	2012 \$'000
<b>Note 3A: Employee Benefits</b>		
Wages and salaries	51 158	48 999

Total security infrastructure	<u>13 266</u>	<u>16 916</u>
<b>Total property, plant and equipment</b>	<b><u>78 114</u></b>	<b><u>85 907</u></b>

No indicators of impairment were found for property, plant and equipment.

A number of items of property, plant and equipment are expected to be sold or disposed of within the next 12 months.

All revaluations were conducted in accordance with the revaluation policy stated at Note 1. On 30 June 2013, an independent valuer (the Australian Valuation Office) conducted the revaluations.

A revaluation increment of \$3,253,326 for plant and equipment (2012: \$414,482) was credited to the asset revaluation reserve by asset class and included in the equity section of the balance sheet; no decrements were expensed (2012: \$nil expensed).

## **Note 10: Contingent Assets and Liabilities**

### **Quantifiable Contingencies**

The department had no quantifiable contingencies as at 30 June 2013 (2012: nil).

### **Unquantifiable Contingencies**

The department had no unquantifiable contingencies as at 30 June 2013. (2012: The department had one legal claim relating to workplace arrangements. It was not possible to estimate amounts of any eventual payments that may have been required in relation to that claim).

### **Significant Remote Contingencies**

The department had no significant remote contingencies as at 30 June 2013 (2012: nil).

## Note 11: Senior Executive Remuneration

<b>Total</b>	<b>15</b>						<b>15</b>					

Notes:

1. This table reports substantive senior executives who received remuneration during the reporting period. Each row is an averaged figure based on headcount for individuals in the band.
2. 'Reportable salary' includes the following:
  - a) gross payments (less any bonuses paid, which are separated out and disclosed in the 'bonus paid' column);
  - b) reportable fringe benefits (at the net amount prior to 'grossing up' to account for tax purposes);
  - c) exempt foreign employment income; and
  - d) salary sacrificed benefits.
3. The 'contributed superannuation' amount is the average actual superannuation contributions paid to substantive senior executives in that reportable remuneration band during the reporting period.
4. 'Reportable allowances' are the average actual allowances paid as per the 'total allowances' line on individuals' payment summaries.
5. 'Bonus paid' represents average actual bonuses paid during the reporting period in that reportable remuneration band. The 'bonus paid' within a particular band may vary between financial years due to various factors such as individuals commencing with or leaving the entity during the financial year.

**11C: Other Highly Paid Staff**

There were no other highly paid staff (2012: nil).

**Note 12: Remuneration of Auditors**

	2013	2012
	\$'000	\$'000

Financial statement audit services were provided free of charge to the department by the Australian National Audit Office (ANAO).

**Fair value of the services provided**

Financial statement audit services	<u>141</u>	<u>141</u>
<b>Total</b>	<u>141</u>	<u>141</u>

No other services were provided by the auditors of the financial statements.

**Note 13: Financial Instruments**

	2013	2012
	\$'000	\$'000

**Note 13A: Categories of financial instruments****Financial assets****Loans and receivables**

Cash and cash equivalents	223	306
Trade receivables	<u>1 878</u>	<u>409</u>
<b>Total</b>	<u>2 101</u>	<u>715</u>
<b>Carrying amount of financial assets</b>	<u>2 101</u>	<u>715</u>

**Financial liabilities****At amortised cost**

Supplier payables	<u>6 807</u>	<u>2 604</u>
<b>Total</b>	<u>6 807</u>	<u>2 604</u>
<b>Carrying amount of financial liabilities</b>	<u>6 807</u>	<u>2 604</u>

**Note 13B: Credit Risk**

The department was exposed to minimal credit risk as its financial assets consist only of cash and trade receivables. The maximum exposure to credit risk was the risk that arose from potential default of a debtor. This amount is equal to the total amount of trade receivables.

**The following table illustrates the department's gross exposure to credit risk, excluding any collateral or credit enhancements.**

	2013	2012
	\$'000	\$'000
<b>Financial assets</b>		
<b>Loans and receivables:</b>		
Cash and cash equivalents	223	306
Trade receivables	1 878	409
<b>Total</b>	<b>2 101</b>	<b>715</b>
<b>Financial liabilities</b>		
<b>At amortised cost:</b>		
Supplier payables	6 807	2 604
<b>Total</b>	<b>6 807</b>	<b>2 604</b>

In relation to the department's gross credit risk and the financial effect in respect of the amount that best represents the maximum exposure to credit risk, no collateral is held.

**Credit quality of financial instruments not past due or individually determined as impaired**

	Not past due nor impaired 2013	Not past due nor impaired 2012	Past due or impaired 2013	Past due or impaired 2012

	0 to 30 days \$'000	31 to 60 days \$'000	61 to 90 days \$'000	90+ days \$'000	Total \$'000
<b>Loans and receivables:</b>					
Trade receivables	3	-	54	48	105
<b>Total</b>	<b>3</b>	<b>-</b>	<b>54</b>	<b>48</b>	<b>105</b>

**Note 13C: Liquidity risk**

The department's financial liabilities are payables. The exposure to liquidity risk is based on the notion that the department will encounter difficulty in meeting its obligations associated with financial liabilities. This was highly unlikely due to receiving appropriation funding aimed at ensuring there are appropriate resources to meet financial obligations as and when they fall due. In addition, the department has policies in place to ensure timely payments are made when due and has no past experience of default.

**Maturities for non-derivative financial liabilities 2013**

	On demand \$'000	within 1 year \$'000	1 to 2 years \$'000	2 to 5 years \$'000	>5 years \$'000	Total
<b>At amortised cost:</b>

<b>Total</b>	-	2 604	-	-	-	2 604

The department had no derivative financial liabilities in either 2013 or 2012.

**Note 13D: Market Risk**

The department holds basic financial instruments that do not expose the department to significant market risks. The department was not exposed to "interest rate risk" or "other price risk" and was exposed to foreign exchange "currency risk" through undertaking certain transactions in denominated foreign currency.

<b>Total other property, plant and equipment</b>	<b>5 986</b>	<b>6 378</b>
<b>Total property, plant and equipment</b>	<b>90 048</b>	<b>84 490</b>

No indicators of impairment were found for property, plant and equipment.

A number of items of property, plant and equipment are expected to be sold or disposed of within the next 12 months.

All revaluations were conducted in accordance with the revaluation policy stated at Note 1. On 30 June 2013, an independent valuer (the Australian Valuation Office) conducted the revaluations.

A revaluation increment of \$80,855,469 for buildings (2012: nil) and \$5,569,638 for heritage and cultural assets (2012: nil) were credited to the asset revaluation surplus by asset class and included in the equity section of the balance sheet; no decrements were expensed (2012: nil).

<b>Total financial liabilities at amortised cost</b>	<u>669</u>	<u>450</u>
<b>Carrying amount of financial liabilities</b>	<u>669</u>	<u>450</u>

**Note 22B: Credit Risk**

The department was exposed to minimal credit risk as its financial assets consist only of trade receivables. The maximum exposure to credit risk was the risk that arose from potential default of a debtor. This amount is equal to the total amount of trade receivables.

**The following table illustrates the department's gross exposure to credit risk, excluding any collateral or credit enhancements.**

	2013	2012
	\$'000	\$'000
<b>Financial assets</b>		
<b>Loans and receivables:</b>		
Trade receivables	-	21
<b>Total</b>	-	21
<b>Financial liabilities</b>		
<b>At amortised cost:</b>		
Supplier payables	669	450
<b>Total</b>	669	450

In relation to the department's gross credit risk and the financial effect in respect of the amount that best represents the maximum exposure to credit risk, no collateral is held.

**Credit quality of financial instruments not past due or individually determined as impaired**

	Not past due nor impaired	Not past due nor impaired	Past due or impaired	Past due or impaired
	2013	2012	2013	2012
	\$'000	\$'000	\$'000	\$'000
<b>Loans and receivables:</b>

**Ageing of financial assets that were past due but not impaired for 2013**

	0 to 30 days \$'000	31 to 60 days \$'000	61 to 90 days \$'000	90+ days \$'000	Total \$'000
<b>Loans and receivables:</b>					
Trade receivables	-	-	-	-	-
<b>Total</b>	-	-	-	-	-

**Ageing of financial assets that were past due but not impaired for 2012**

	0 to 30 days \$'000	31 to 60 days \$'000	61 to 90 days \$'000	90+ days \$'000	Total \$'000
<b>Loans and receivables:</b>					
Trade receivables	21	-	-	-	21
<b>Total</b>	21	-	-	-	21

**Note 22C: Liquidity risk**

The department's financial liabilities are payables. The exposure to liquidity risk was based on the notion that the department will encounter difficulty in meeting its obligations associated with financial liabilities. This was highly unlikely due to receiving appropriation funding aimed at ensuring there are appropriate resources to meet financial obligations as and when they fall due. In addition, the department has policies in place to ensure timely payments were made when due and has no past experience of default.

**Maturities for non-derivative financial liabilities 2013**

	On demand \$'000	within 1 year \$'000	1 to 2 years \$'000	2 to 5 years \$'000	>5 years \$'000	Total \$'000
<b>At amortised cost:</b>						
Supplier payables	-	669	-	-	-	669
<b>Total</b>	-	669	-	-	-	669

Maturities for non-derivative financial liabilities 2012

	On demand \$'000	within 1 year \$'000	1 to 2 years \$'000	2 to 5 years \$'000	>5 years \$'000	Total
<b>At amortised cost:</b>						
Supplier payables	-	450	-	-	-	450
<b>Total</b>	-	450	-	-	-	450

The department had no derivative financial liabilities in either 2013 or 2012.

**Note 22D: Market Risk**

The department holds basic financial instruments that do not expose the department to significant market risks. The department was not exposed to "interest rate risk" or "other price risk" and was exposed to foreign exchange "currency risk" through undertaking certain transactions in denominated foreign currency.

<b>Total administered</b>	<b>12 896</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>12 896</b>	<b>1 261</b>

**Notes:**

- (1) Appropriations reduced under Appropriation Acts (No. 1.3.5) 2012-13; sections 10, 11, 12 and 15 and under Appropriation Acts (No. 2.4.6) 2012-13; sections 12,13, 14 and 17. Departmental appropriations and administered non-operating appropriations do not lapse at financial year-end. However, the Presiding Officers may decide that part or all of a departmental appropriation is not required and request the Finance Minister to reduce that appropriation. The reduction in the appropriation is effected by the Finance Minister's determination and is disallowable by Parliament. In 2013, there was no reduction in departmental and non-operating departmental appropriations.
- As with departmental appropriations, the Presiding Officers may decide that part or all of an administered appropriation is not required and request that the Finance Minister reduce that appropriation. For administered appropriations reduced under section 11 of Appropriation Acts (Nos. 1.3.8.5) 2012-13 and section 12 of Appropriation Acts (Nos. 2.4.6) 2012-13, the appropriation is taken to be reduced to the required amount specified in Table F of this note once the annual report is tabled in Parliament. All administered appropriations may be adjusted by a Finance Minister's determination.
- (2) Advance to the Finance Minister (AFM) - Appropriation Acts (Nos.1&3) 2012-13; section 13 and Appropriation Acts (Nos.2&4) 2012-13; section 15.
- (3) The following adjustments occurred that met the recognition criteria of a formal addition or reduction in revenue (in accordance with FMO Div 101) but at law the appropriations had not been amended before the reporting period:
  - a. an addition of \$85,000 for the 25th anniversary of Parliament House
  - b. a reduction of \$381,000 for targeted savings measures
  - c. a reduction of \$536,500 for a change in Comcover payment arrangements
- (4) The \$1.26m variance between administered appropriation provided and applied relates to timing differences in administered asset purchases and projects, and reflects the non-lapsing nature of administered non-operating appropriations.

**Table A (Cont'd): Annual Appropriations ('Recoverable GST exclusive')**

(1) Departmental and Administered Capital Budgets are appropriated through Appropriation Acts (No.1.3.5). They form part of ordinary annual services, and are not separately identified in the Appropriation Acts. For more information on ordinary annual services appropriations, please see Table A: Annual appropriations.

(2) Appropriations reduced under Appropriation Acts (No.1.3.5) 2011-12: sections 10, 11, 12 and 15 or via a determination by the Finance Minister.

(3) Payments made on non-financial assets include purchases of assets, expenditure on assets which has been capitalised, costs incurred to make good an asset to its original condition, and the capital repayment component of finance leases.

**Table C: Unspent Annual Appropriations ('Recoverable GST exclusive')**

	<b>2013</b>	2012
	<b>\$'000</b>	\$'000
<b>DEPARTMENTAL</b>		
Appropriation (Parliamentary Departments) Act (No. 1) 2012-13	<b>21 751</b>	-
Appropriation (Parliamentary Departments) Act (No. 1) 2011-12	-	21 712
<b>Total</b>	<b>21 751</b>	21 712
<b>ADMINISTERED</b>		
Appropriation (Parliamentary Departments) Act (No. 1) 2012-13	<b>1 457</b>	-
Appropriation (Parliamentary Departments) Act (No. 1) 2011-12	-	195
<b>Total</b>	<b>1 457</b>	195

**Table D: Disclosure by Agent in Relation to Annual and Special Appropriations ('Recoverable GST exclusive')**

	<b>Department of Finance and Deregulation Provides access to a special appropriation for the provision of electorate office IT services</b>
<b>2013</b>	<b>\$'000</b>
Total receipts	13 713
Total payments	( 13 713)
	Department of Finance and Deregulation Provides access to a special appropriation for the provision of electorate office IT services
<b>2012</b>	<b>\$'000</b>
Total receipts	12 529
Total payments	( 12 529)

## **Note 25: Compensation and Debt Relief**

### **Compensation and Debt Relief - Departmental**

Property, plant and equipment	78 114	85 907
Intangibles	25 255	32 525
Inventories	173	188
Other non-financial assets	3 849	2 162
<b>Total</b>	<b>131 130</b>	<b>144 087</b>
<b>Liabilities</b>		
Suppliers payable	6 807	2 604
Other payables	2 129	2 658
Employee provisions	20 047	20 900
<b>Total</b>	<b>28 983</b>	<b>26 162</b>

<b>Note 27C: Major Classes of Administered Expense, Income, Assets and Liabilities by Outcome</b>		
	<b>Outcome 1</b>	
	<b>2013</b>	<b>2012</b>
	<b>\$'000</b>	<b>\$'000</b>
<b>Expenses</b>		
Depreciation and amortisation	<b>27 093</b>	26 645
Losses from asset sales	<b>4</b>	537
<b>Total</b>	<b>27 097</b>	27 182
<b>Income</b>		
Other revenue	<b>9</b>	43
Other gains	<b>68</b>	2
<b>Total</b>	<b>77</b>	45
<b>Assets</b>		
Trade and other receivables	<b>69</b>	655
Land and buildings	<b>2 136 016</b>	2 070 352
Property, plant and equipment	<b>90 048</b>	84 490
<b>Total</b>	<b>2 226 133</b>	2 155 497
<b>Liabilities</b>		
Suppliers payable	<b>669</b>	450
Other payables	<b>24</b>	636
<b>Total</b>	<b>693</b>	1 086

#### **Note 28: Net Cash Appropriation Arrangements**

	<b>2013</b>	<b>2012</b>
	<b>\$'000</b>	<b>\$'000</b>
<b>Total comprehensive income/(loss) less depreciation/ amortisation expenses previously funded through revenue appropriations<sup>1</sup></b>	<b>( 932)</b>	1 846
Plus: depreciation/amortisation expenses previously funded through revenue appropriation	<b>( 24 593)</b>	( 23 595)
<b>Total comprehensive loss - as per the Statement of Comprehensive Income</b>	<b>( 25 525)</b>	( 21 749)

1. From 2010-11, the Government introduced net cash appropriation arrangements, where revenue appropriations for depreciation/amortisation expenses ceased. Entities now receive a separate capital budget provided through equity appropriations. Capital budgets are to be appropriated in the period when cash payment for capital expenditure is required.

**Note 29: Section 83 of the Constitution**

During 2012-13 additional legal advice was received that indicated there could be breaches of Section 83 under certain circumstances with payments for long service leave, goods and services tax and payments under determinations of the Remuneration Tribunal. The department will review its processes and controls over payments for these items to minimise the possibility for future breaches as a result of these payments. The department has determined that there is a low risk of the certain circumstances mentioned in the legal advice applying to the department and is not aware of any specific breaches of Section 83 in respect of these items.
