Attachment A	9
Attachment B	14

Introduction

- 1 The Secretary of the Senate Select Committee on Health (the Committee) wrote to the Parliamentary Budget Officer on 16 December 2015 requesting the preparation of a submission to the Committee in relation to Commonwealth funding of public hospitals. A copy of this request is provided at [Attachment A](#).
- 2 In response to this request the PBO has provided the following information:
 - [Table 1](#)
Aggregate and State breakdown of the difference in Commonwealth hospital funding under current Government policy (indexation by Consumer Price Index (CPI) and population growth, see Table B1 at [Attachment B](#)) and the scenario where Commonwealth hospital funding was to be provided in accordance with the *National Health Reform Agreement 2011* (the 2011 Agreement, see Table B2 at Attachment B),¹ over 2014–15 to 2024–25.
 - [Table 2](#)
Aggregate and State breakdown of the difference between Commonwealth hospital funding with and without the funding guarantee specified in clauses A67 to A79 of the 2011 Agreement in place, over 2014–15 to 2017–18.
 - [Table 3](#)
Aggregate and State breakdown of the difference in Commonwealth funding under current Government policy and the scenario where the National Partnerships terminated in the 2014–15 Budget were still in effect, over 2014–15 to 2024–25.

Background

National Health Reform

- 3 On 2 August 2011 the Council of Australian Governments (COAG) agreed to the 2011 Agreement, replacing the former National Healthcare Specific Purpose Payment (SPP).
- 4 Under the 2011 Agreement, from 1 July 2014 Commonwealth funding for public hospitals would use an activity based funding (ABF) approach with a national efficient price for hospital services. The Commonwealth agreed to meet 45 per cent of the efficient growth in activity based funding initially, rising to 50 per cent after 1 July 2017.
- 5 The 2011 Agreement also set out an approach for hospital services and functions where block funding was deemed appropriate (such as those provided in rural/small hospitals). As per the ABF approach, the Commonwealth agreed to meet 45 per cent of the efficient growth in block grant funding based on the national efficient cost initially, rising to 50 per cent after 1 July 2017.

1 Note the 2011 Agreement profile used to derive these amounts did not include the funding guarantees.

- 6 Further, the 2011 Agreement provided a guarantee that the Commonwealth funding under the ABF approach would provide at least an additional \$16.4 billion in growth in funding between 2014–15 and 2019–20. As such, in the event the ABF approach resulted in additional funding of less than \$16.4 billion over the period, the Commonwealth would provide the remainder to States as top-up funding.
 - a Of the \$16.4 billion guarantee up to \$9.5 billion in top-up funding (referred to as the state specific guarantee) was to be provided to states based on an annual reconciliation of what was provided under the ABF approach and what would have been provided under the former National Health Care SPP.
 - b An assessment of the amount of the remaining top-up funding under the national guarantee (\$6.9 billion) was to occur in 2017 at which time decisions regarding the quantum and timing of the remaining guarantee funding would be made (refer to clause A75 of the 2011 Agreement).
- 7 In May 2015 the Government announced that from 1 July 2017 the Commonwealth’s contribution would grow in line with CPI and population growth.
- 8 The 2014–15 Budget included two measures ceasing the National Partnership on Preventive Health and the National Partnership on Improving Public Hospital Services.

Table 1: PBO projections—Aggregate and State breakdown of the difference in Commonwealth hospital funding under current Government policy (indexation by CPI and population growth) and the scenario where Commonwealth hospital funding was to be provided in accordance with the 2011 Agreement, over 2014–15 to 2024–25² (a)(b)(c)(d)(e)(f)

(\$m)	2014–15	2015–16	2016–17	2017–18	2018–19	2019–20	2020–21	2021–22	2022–23	2023–24	2024–25	Total
New South Wales	-	-	-	-371	-801	-1,265	-1,782	-2,359	-2,988	-3,679	-4,436	-17,681
Victoria	-	-	-	-272	-589	-952	-1,356	-1,806	-2,298	-2,838	-3,430	-13,541
Queensland	-	-	-	-199	-464	-752	-1,074	-1,433	-1,824	-2,254	-2,726	-10,726
Western Australia	-	-	-	-168	-308	-474	-658	-863	-1,087	-1,333	-1,602	-6,493
South Australia	-	-	-	-103	-206	-312	-429	-559	-701	-858	-1,029	-4,197
Tasmania	-	-	-	-20	-53	-83	-117	-154	-195	-240	-289	-1,151
Australian Capital Territory	-	-	-	-84	-113	-145	-180	-218	-260	-306	-356	-1,662
Northern Territory	-	-	-	-30	-46	-63	-82	-103	-125	-150	-178	-777
Total	-	-	-	-1,247	-2,580	-4,046	-5,678	-7,495	-9,478	-11,658	-14,046	-56,228

a The impacts are on a fiscal balance basis.

b Figures presented are based on economic and fiscal parameters as at the 2015–16 MYEFO.

c Note the 2011 Agreement profile used to derive these amounts did not include the funding guarantees (this is addressed in Table 2).

d Amounts may not sum due to rounding.

e The aggregate financial implications are considered to be of **medium** reliability. The estimates for hospital funding under the current policy setting (where growth is based on population and CPI) are considered reliable particularly given that population is relatively stable and has predictable growth. The estimates for hospital funding based on the 2011 Agreement are less reliable as they are based on estimated total hospital expenditure (Commonwealth and state governments) which are less predictable as there is limited historical data (particularly for growth in efficient prices).

f The state breakdowns are of **medium** reliability as the estimates are calculated based on state proportions of the total in the last known year of available data, and the future distribution of the Australian population across states and territories may differ, particularly as the projection period increases.

2 Timeframe as requested by the Committee.

Table 2: PBO projections—Aggregate and State breakdown of the difference between Commonwealth hospital funding with and without the funding guarantee specified in clauses A67 to A79 of the 2011 Agreement in place, over 2014–15 to 2017–18³ (a)(b)(c)(d)(e)

(\$m)	2014–15	2015–16	2016–17	2017–18	Total
New South Wales	-	-	-	-	-
Victoria	-	23	109	3	135
Queensland	17	92	160	87	356
Western Australia	-	43	74	58	174
South Australia	-	-	21	-	21
Tasmania	-	-	7	-	7
Australian Capital Territory	-	1	1	-	2
Northern Territory	-	-	-	-	-
Total	17	158	371	148	695

- a The impacts are on a fiscal balance basis.
- b Figures presented are based on economic and fiscal parameters as at the 2015–16 MYEFO.
- c Amounts may not sum due to rounding.
- d The aggregate financial implications are considered to be of **low** reliability. The estimates for the withdrawal of the funding guarantee were derived using the estimates for Commonwealth hospital funding, based on the 2011 Agreement, and estimates for the National Healthcare SPP, and a state breakdown of the funding guarantee amounts outlined in the 2011 Agreement. The reliability of estimates for funding based on the 2011 Agreement are outlined in notes to Table 1, and the estimates for the National Healthcare SPP are slightly more reliable as they are based on the formula specified in the *2009 Intergovernmental Agreement on Federal Financial Relations*. As the aggregate implications are dependent on the two series of estimates mentioned, they are rated as low reliability as the margins for error compound.
- e The state breakdowns are of **medium** reliability as the estimates are calculated based on state proportions of the total in the last known year of actual data and may differ particularly as the projection period increases.

3 Timeframe as requested by the Committee.

Table 3: PBO projections—Aggregate and State breakdown of the difference in Commonwealth funding under current Government policy and the scenario where the National Partnerships terminated in the 2014–15 Budget were still in effect, over 2014–15 to 2024–25⁴ (a)(b)(c)(d)

(\$m)	2014–15	2015–16	2016–17	2017–18	2018–19	2019–20	2020–21	2021–22	2022–23	2023–24	2024–25	Total
New South Wales	17	49	74	42	-	-	-	-	-	-	-	182
Victoria	13	38	56	32	-	-	-	-	-	-	-	139
Queensland	11	32	48	27	-	-	-	-	-	-	-	117
Western Australia	6	16	24	14	-	-	-	-	-	-	-	60

THE SENATE

SELECT COMMITTEE ON HEALTH

16 December 2015

Mr Phil Bowen PSM FCPA
Parliamentary Budget Officer
Parliamentary Budget Office
By email: pbo@pbo.gov.au

Dear Mr Bowen

Request for submission – Senate Select Committee on Health

I am writing on behalf of the Senate Select Committee on Health. The committee has agreed to request from the Parliamentary Budget Office a submission in relation to Commonwealth funding of public hospitals.

The committee has recently held public hearings on this topic in Melbourne, Cairns, Rockhampton, and Sydney.¹ Further to the evidence received during these hearings, the secretariat has been researching funding figures for states and territories, particularly for the period 2017-18 to 2024-25 during which Commonwealth funding will change from activity-based funding to block funding indexed to CPI and population growth. There does not appear to be a single comprehensive source of this information. The secretariat's broad findings are at Attachment A.

Drawing information from different sources may create difficulties, including the possibility that groups may be calculating the change in Commonwealth funding differently. In order to obtain reliable information, the committee has agreed to request the following information from the Parliamentary Budget Office:

1. The reductions in Commonwealth hospital funding for 2017-18 to 2024-15 as a result of funding changing to indexation by CPI and population growth (by state) as part of the cancellation of the National Health Reform Agreement (NHRA)
2. The reductions in Commonwealth hospital funding from 2014-15 to 2017-18 caused by the removal of funding guarantees under the NHRA (by state)
3. The reductions in overall Commonwealth health funding between 2014-15 and 2024-25 caused by the cancellation of health-related National Partnership Agreements (by state).

¹ For transcripts from the committee's hearings between 4 and 27 November, see the committee's website: www.aph.gov.au/Parliamentary_Business/Committees/Senate/Health/Health/Public_Hearings
