

**TO THE HONOURABLE THE SPEAKER AND MEMBERS OF
THE HOUSE OF REPRESENTATIVES**

This petition of Gail Ann KELLY

draws to the attention of the House : that the Family Law Act needs to be reviewed.

We therefore ask the House to: review the Archaic Family Law Court Acct/Laws

This is 2015 not 1975 these laws are archaic. The entire system of the Family Law Court is unfair and unjust, with laws that have far too many inconsistencies that contradict and overlap existing laws and legal statutes. There is no justice unless we create it, with new laws that reflect the changing times.

Court representatives should be held accountable for making poor decisions on real people's lives, with laws that should, but do not, reflect, what in reality, does go on, inside a court of law. These laws should protect children, mothers and fathers from potential abuse. They should not prevent capable and fit parents from having appropriate access to their children.

One law should cover all people all Australians regardless of race, creed or colour. Under the law of our land no one person should receive special rights and dispensation inside this court of law where all peoples rights should be equal.

We therefore ask the House to: review all laws and accountability measures relating to family law to create a more level playing field for the family unit.
