

**TO THE HONOURABLE THE SPEAKER AND MEMBERS OF THE HOUSE OF
REPRESENTATIVES**

This Petition of citizens and visitors of Wantabadgery NSW 2650.

Draws to the attention of the House to our request for mobile phone and broadband coverage for our village. Our reasons for this are firstly safety (Fires and flood being our main concerns here), but also we are a growing residential area, and also attract many visitors to our beach on the Murrumbidgee, and we have annual events which bring large numbers of visitors to the village. We also have plenty of farmers in the area who also desperately need access to broadband and mobile services to carry on their business which in these modern times need all the available technology. Full sheet attached.

We therefore ask the house to consider our request for coverage as we feel in modern times it is a necessity, and feel that we should be a serious contender for a share of the Government's pledge of \$100,000,000 for mobile and broadband black spots
