Red imported fire ants in Australia – FINAL REPORT – April 2024

In the report:

Page ix and page 33, paragraph 2.75, delete:

2.75 The committee recommends that the Australian Government in consultation with state and territory governments, work to review the current level of funding for the National Fire Ant Eradication Program and whether this is efficient to eradicate red imported fire ants by 2032, and if not sufficient, investigate the appropriate level of funding required for eradication.

Page ix and page 33, paragraph 2.75, insert:

2.75 The committee recommends that the Australian Government in consultation with state and territory governments, work to review the current level of funding for the National Fire Ant Eradication Program and whether this is sufficient to eradicate red imported fire ants by 2032, and if not sufficient, investigate the appropriate level of funding required for eradication.
