## List of areas that changed status under the 2019 DPA update

### SUMMARY OF CHANGE:

From 1 July 2019, the Distribution Priority Area (DPA) replaced Districts of Workforce Shortages.

- The methodology for assessing need changed from a simple GP to population ratio to a more accurate picture of where patients access their services, taking account of a range of demographics (gender/age) and socio-economic factors.
- There are two DPA layers for GPs; one for General Practitioners and one for Bonded Medical Students.

### Legend:

Title	Explanation
<b>GP Catchment</b>	New geographic boundaries developed by the Department that better captures the relationship between doctor location and where patients live to access the GP services.
<b>UCL</b>	Australian Bureau of Statistics Urban Centres and Localities 2016 geography which the Department uses to describe towns and communities.
<b>MMM</b>	Modified Monash Model 2019 is the Department's preferred remoteness geography for health policies and programs, ranging from MM 1 (major city areas) to MM 7 (very remote areas).
<b>DPA 2019 GPs</b>	Distribution Priority Areas (DPA) as determined by comparing GP services in a GP Catchment to the benchmark calculated for GP services in Modified Monash Model (MM) 2 areas only.
<b>DPA 2019 Bonded</b>	Distribution Priority Areas (DPA) as determined by comparing GP services in a GP Catchment to the benchmark calculated for GP services across Australia.
<b>DWS 2018</b>	District of Workforce Shortage (DWS) status using Full-time Service Equivalent (FSE) methodology, which is the current method used in 2018.

## **Rural Bulk Billing Incentive**

From 1 January 2020, the rural classification system used to determine eligibility for rural Bulk Billing Incentives changed. Rural Bulk Billing Incentives will be targeted to ensure that doctors in metropolitan areas will no longer have access to incentives intended for rural and remote areas.

As part of the 2018–19 Budget Measure, *Stronger Rural Health Strategy*, the Government announced it would update the geographic eligibility criteria for Medicare Benefits (MBS) items 10991, 64991 and 74991 from Rural Remote and Metropolitan Areas (RRMA) 3-7 to Modified Monash Model (MMM) remoteness classification MM 2-7, aligning it to other health programs.

Areas previously considered metropolitan under the RRMA classification, such as Kiama (NSW), Russell Island (Qld), and Jam Jerrup (Vic), will now be recognised as rural and practitioners in those areas will gain access to the Rural Bulk Billing Incentives.

Areas with some of the highest concentration of doctors in Australia, and that have had significant population growth since 1991 (i.e. population greater than 20,000) will no longer be eligible. These include: Canberra (ACT), Gosford-Wyong (NSW), Maitland (NSW), Newcastle (NSW), Queanbeyan (NSW), Sunshine Coast (Qld), Gawler (SA), Geelong (Vic), Melton (Vic), Mornington Peninsula (Vic), Pakenham (Vic), Baldivis (WA), Ellenbrook (WA), Mandurah (WA).

All doctors who bulk bill, regardless of their location will continue to be eligible for a Bulk Billing Incentive. The changes relate to the higher **Rural Bulk Billing Incentive** only.

### **LISTS of changing areas:**

List A: - Areas within capital cities losing access to RBBI

List B: - Other areas losing access to RBBI (Urban Centres and Localities)

List C: - Areas that were RRMA 1-2 that were given an exemption and listed on the MBS schedule as eligible to access the RBBI

List D: - Areas that have gained access to RBBI as they are now classified MM 2-7

### **Impact to Patients - Rural Bulk Billing Incentive**

1. Under this measure, GPs in metropolitan areas will continue to have incentives to bulk-bill vulnerable patients, at the standard rate:
  - MBS 10990 with a fee of \$6.40 as opposed to \$9.65 for 10991;
  - MBS 64990 with a fee of \$6.00 as opposed to \$9.10 for 64991; and
  - MBS 74990 with a fee of \$6.00 as opposed to \$9.10 for 74991.
2. The reason for the differential in rates is that city/metropolitan areas have a higher concentration of GPs, and therefore there are higher competitive pressures on them to bulk bill. As such, the baseline items (10990, 64990 and 74990) are considered to be sufficient incentives to encourage providers to bulk bill vulnerable patient groups. However, in rural areas the concentration of GPs is less, and to compensate for the lack of competitive pressure, the higher rural Bulk Billing Incentives provide an additional reason to bulk bill vulnerable patient groups.
3. It is expected that GPs will continue to bulk bill vulnerable patient groups in the areas affected, as they are all considered to be in the major city category.

- **Program 4.3:** Pharmaceutical Benefits Advisory Committee recommendations– Please provide an updated list of outstanding Pharmaceutical Benefits Advisory Committee (PBAC) recommendations since 2013 (noting the new “Medicine Status Website” does not include any recommendations made before July 2019).

Please see **Attachment X**

**Medicines recommended by the PBAC which are being progressed by the Department of Health**

The Medicine Status website (MSW) now contains all PBAC recommendations from July 2019 onwards. The Department of Health is negotiating with sponsors who have received a positive recommendation to reach an agreement that is consistent with the PBAC recommendation. This website is updated regularly so that the public can monitor the listing steps. The MSW can be accessed at [www.pbs.gov.au/medicinesstatus/home.html](http://www.pbs.gov.au/medicinesstatus/home.html)

The table below outlines medicines recommended by the PBAC prior to July 2019 PBAC meeting, and therefore not listed on the MSW, and where the sponsor company has indicated that they wish to proceed to a listing but that listing is not finalised.

# Response for Senator McCarthy | February 2020

## 6.2 – Home Care Services

### **1. Number of Aged Care Assessment Team employees as a total and by state and territory for the years 2017-18 and 2018-19**

This data is not collected from states and territories who are responsible for managing their workforce effectively to deliver activities to the required performance and quality requirements. The Department has data from 2017 collected through a one-off exercise (covering July-December 2017). Based on those figures, the 80 Aged Care Assessment Teams comprised a workforce of around 970 FTE assessors.

### **2. Home care package data as at 4 March 2020 including the number of packages currently in the system as well as the number of older Australians waiting for their approved home care package at each level by state and territory.**

The table below shows the estimated total number of home care packages allocated across the forward estimates.

Package level	2019-20	2020-21	2021-22	2022-23
Level 1	11,240	11,915	13,119	13,453
Level 2	64,974	67,536	67,536	67,536
Level 3	33,689	35,689	35,689	35,689

<b>Total</b>	<b>150,756</b>	<b>156,492</b>	<b>157,697</b>	<b>158,030</b>

The Department published its most recent data report on the Home Care Packages program in December 2019. The next report is currently being compiled.

The latest information is available at [https://gen-agedcaredata.gov.au/www\\_ahwgen/media/Home\\_care\\_report/Home-Care-Data-Report-1st-qtr-2019-20.PDF](https://gen-agedcaredata.gov.au/www_ahwgen/media/Home_care_report/Home-Care-Data-Report-1st-qtr-2019-20.PDF) and provides an update on key home care performance indicators such as the number of:

- people accessing care,
- people waiting in the National Prioritisation System (NPS) who have not been offered an interim level package
- home care approvals
- approved home care providers, and
- packages released.

The following table provides a breakdown of people in the NPS at 30 September 2019, lived in each state and territory, by approved package level. Of these people, 97.8 per cent had been provided with the opportunity to connect to Commonwealth subsidised home care support through a Home Care Package or Commonwealth Home Support Program service.

#### Update on transition of CHSP

The Extension of CHSP funding agreements from 1 July 2020 to 30 June 2022 is currently being progressed in five tranches by the Department of Social Services' Community Grants Hub. The first two tranches will be offered by the end of March. Remaining grant agreements will be offered between April and June 2020.

#### **4. Total funds anticipated not being distributed to service providers under changes relating to the Aged Care Legislation Amendment (Improved Homecare Payment Administration No.1) 2020.**

There will be no change to the amount of funding available to a care recipient from their package as a result of this change.
