Additional Home Care Packages	30-Jun-25
Revised Approach to Home Care Services	30-Jun-25
Paediatric Emergency Departments for Geelong, Maroondah, Frankston and Casey	30-Jun-25

**The number of Australians who accessed a mental health session through the Better Access Program by electorate for the months January 2022 and January 2025.**

**Notes:**

Monthly Medicare data can be volatile. It displays seasonal trends and is influenced by the timing of weekends or public holidays and whether the holiday falls on a weekend or weekday.

The timing of weekends or public holidays can make significant differences in the number of work days in the period and result in material differences to the number of services processed, even without underlying utilisation changes.

Includes patients who claimed at least one MBS service provided under the Better Access initiative.

### Date of Data Extraction:

Original obtained on 24 October 2023  
Updated on 18 February 2025

### Notes on the Analysis:

Table 1 shows registered and employed health practitioners with:  
- Total headcounts and FTE,  
- Split by those working in Aged Care and have indicated they work in a Residential Aged Care Settings,  
- Split further by those that indicated they work in Disability in a residential Aged Care Setting.

Registered Nurses shows all Registered Nurses including dual registrations.

Enrolled Nurses Only shows Enrolled Nurses who were not also a Registered Nurse. The nursing job area is used to allocate to aged care and disability.

\* Note: Nurses in Aged Care & Disability includes nurses who may have worked in rehabilitation in 2015 to 2020, as survey responses did not differentiate between rehabilitation and disability until 2021.

Medical Practitioners excl GPs shows medical practitioners who did not indicate their main job area as General Practice. Their job setting is used to allocate to aged care and disability.

Primary Care GPs headcount is a workforce specific method which uses elements from the MBS data set to count when, where and by what type of GP services are being delivered

Allied Health includes: ATSI Health Practitioners; Chinese Medicine Practitioners; Chiropractors; Dental Practitioners; Medical Radiation Practitioners; Occupational Therapists; Optometrists; Osteopaths; Paramedicine Practitioners; Pharmacists; Physiotherapists; Podiatrists; and Psychologists. Their job setting is used to allocate to aged care and disability.

Full-Time Equivalent (FTE) is based on 38 hours per week for Allied Health, 38 nursing hours per week for Nurses, and 40 hours per week for Medical Practitioners and Primary Care GPs.

Full-time Equivalent for GPs is a workforce specific method to estimate the workload of GPs providing primary care services. The method calculates a GP's workload based on the MBS services claimed as well as patient and doctor factors that affect the duration of a consultation. One GP FTE represents a 40 hour week per week for 46 weeks of the year. For each Medicare provider, the measure attributes an estimate of the amount of time they have spent on their claims compared to what would be worked by a full-time GP, including billable time, non-billable time, and non-clinical time. GP FTE measures presented here are different to the GP Full-time Service Equivalent (FSE) measures published on the MBS Online website.

For more information on how Primary Care GPs are classified and how GP FTE is calculated, see <https://hwd.health.gov.au/resources/information/methods-gp-workload.html>

NA means unavailable. Data is not available for that period.

## REQUEST

While I understand that you and your Department will attend Senate Estimates with detailed information regarding the operations of the Department of Health and Aged Care and portfolio agencies, I write to request that the Department provides the following specific information prior to your attendance before the Community Affairs Committee.

### GP Clinics

- The location of all GP clinics that have opened and closed since FY 2022-23.

## RESPONSE

The most comprehensive and reliable information available to the Department of Health and Aged Care relating to the opening and closing of general practices is the Practice Incentives Program (PIP) practice data.

A general practice included in the PIP is one that has applied to participate in the program and has met eligibility criteria. Currently there are 6,338 general practices registered for the program. The PIP general practice cohort accounts for approximately 85% of general practices in Australia.

The definition of a closed practice for the PIP is a practice that has advised Services Australia that they will no longer participate in the program as a result of the general practice closing.

There are two tables below which collectively provide the information requested.

- **Table 1** provides the numbers of practices which were approved for the PIP in the financial years following 1 July 2022.
- **Table 2** provides the numbers of practices that closed (based on PIP program data) in the financial years following 1 July 2022.

The information below is aggregated at a state/territory level. If you are seeking more granular location information which could identify the specific practices, the Department would need to consider seeking consent from these practices to provide the information.

All information provided for the current financial year (2024-25) is correct as of 18 February 2025.

**Table 1: Practices that were approved to receive PIP for the first time**

*Note: These figures are projected workforce supply based on the Department of Health and Aged Care's Aged Care Workforce Model. Figures include all workers in the aged care sector, including agency staff. "Direct care workers" include enrolled nurses, registered nurses, nurse practitioners and personal care workers. "All workers" include nurses, personal care workers, Aboriginal and Torres Strait Islander health workers, management and administration, allied health and ancillary care workers.*

## REQUEST

### Aged Care

1. The number of Australians on the National Priority System by federal electorate at January 2025.
2. The number of Australians on the National Priority System who have not been offered a lower home care package, by federal electorate, at January 2025.
3. The median and mean time wait time in days, for an Australian to receive a home care package at their approved level in 2022, 2023 and 2024, by federal electorate.
4. The number of Australians waiting to be assessed under the Single Assessment System, Aged Care Assessment Team and Regional Assessment Team, by federal electorate, at January 2025.
5. The number of Commonwealth Home Support Providers who have closed, or been advised to close, their access portal through My Aged Care, by federal electorate at January 2025.

## RESPONSE

1. There were 81,194 people in the National Priority System waiting for a home care package (HCP) at their approved levels at 31 January 2025. A breakdown of this data by federal electorate can be found at [Attachment A](#).
2. There were 64,002 people in the National Priority System waiting for a HCP at their approved levels who had not been offered a lower level HCP at 31 January 2025. A breakdown of this data by federal electorate can be found at [Attachment B](#).
3. The median and mean wait time in days from HCP approval to package assignment at approved levels in 2021-22, 2022-23 and 2023-24 for high and medium priorities and by federal electorate can be found at [Attachment C](#).
4. On 9 December 2024, the Single Assessment System workforce were brought together and replaced the Regional Assessment Service, Aged Care Assessment Teams and independent Australian National Aged Care Classification (AN-ACC) assessment organisations.

On 31 January 2025, there were 13,298 older people waiting longer than the KPI timeframe of 21 days for a home support (simple) assessment and 44,639 older people waiting longer than the KPI timeframe of 40 days for a comprehensive (complex) assessment. A breakdown of this data by federal electorate can be found at [Attachment D](#).

5. Commonwealth Home Support Providers (CHSP) providers whose My Aged Care (MAC) portal became inactive since January 2024 can be found at Attachment E.

## Breakdown of NPS individuals

A breakdown of individuals in the National Priority System waiting for a HCP at their approved levels by electorate as at 31 January 2025 is provided in the table below.
