Senator Wendy Askew  
Chair  
Senate Community Affairs Legislation Committee  
Parliament House  
CANBERRA ACT 2600

Dear Senator

**Correction to evidence provided at the 2020-21 Budget Estimates Hearing  
on 28 October 2020**

I am writing to correct evidence provided to the Committee during its examination of the Social Services portfolio in relation to Outcome 3 Disability and Carers.

In answering a question from Senator Katy Gallagher regarding whether Boston Consulting Group made any recommendations to the Department of Social Services, I said:

“They identified a number of areas that we should do some further work on in terms of possible improvements to the program.”

I would like to correct the statement by changing it to:

“Yes. They identified a number of areas that we should do some further work on in terms of possible improvements to the program.”

Yours sincerely
