### Notes

1. Any variance from data reported prior to 28 August 2015 is due to a change in reporting method for the IM program to conform to the Australian Statistical Geography Standard (ASGS). The data represent the current residential address of income managed customers within designated statistical area(s). Any inconsistencies from data reported previously can be attributed to the fact that customers may have moved from the location where they were originally triggered onto the program.
2. To prevent customers from being identified, numbers below 5 (<5), or numbers that would identify groups of less than 5, are not provided (n.p.).
3. Full time students receiving ABSTUDY or Austudy are not included in the granted exemptions, full-time student data, as those payments are not subject to the Disengaged Youth or Long Term Welfare Payment Recipient Measures of IM.
4. The Family Responsibilities Commission considers when participants in Cape York region commence and cease to participate in the CDC Program. As such, information on exits (Section 124PHB) or wellbeing exemptions (Section 124PHA) are not presented in the applicable tables.

<sup>1</sup> These data reflect the number of people who identify as an Indigenous Australian to Services Australia. People who do not identify as an Indigenous Australian or choose not to respond to this question are not included.

<sup>2</sup> Geographical boundaries for each CDC region are defined in section 124PD of the *Social Security (Administration) Act 1999*.

<sup>3</sup> The total number of cards is defined as both initial and replacement cards. A card is provided to participants upon commencement of the CDC program. Replacement cards are provided if a card is lost by a participant. The figure does not include temporary cards given to participants as an interim measure while replacement cards are being sent by Indue.

<sup>4</sup> Individuals are exempted from the CDC program where the Secretary (or their delegate) is satisfied that being a participant “would seriously risk that person’s mental, physical or emotional wellbeing”.

<sup>5</sup> The Wyndham Panel only approves reductions to 70% on the quarantined percentage placed onto participants’ cards.

<sup>6</sup> A person can apply to exit the program if they can demonstrate reasonable and responsible management of their affairs, including financial affairs, in accordance with the criteria set out in the legislation.

<sup>1</sup> Customers with 'Unknown' locations did not have an allocated address at the time of data extraction. This often occurs because a customer is in the process of moving address.

<sup>2</sup> The percentage of participants who identify as Indigenous is not provided where this refers to a small number of participants, or where necessary to ensure that other figures cannot be derived.

Note: Numbers less than 5 have been withheld for privacy reasons. Numbers have not been provided (n.p.) to ensure figures cannot be derived from totals.

<sup>1</sup> The BasicsCard is one voluntary payment option available to customers on IM. Most customers choose to use a BasicsCard to access their income-managed funds due to the convenience and ease of use of the BasicsCard. A small number of customers choose to use other available payment options to access their income managed funds, such as direct deductions or BPay payments.
