DIR 19 0063

25 February 2019

Senator Jonathan Duniam  
Chair  
Senate Environment and Communications Legislation Committee  
Parliament House  
CANBERRA ACT 2600

Dear Senator Duniam

On 18 February 2019, I appeared as a witness before the Senate Environment and Communications Legislation Committee Estimates Hearing.

During the hearing Senator Whish-Wilson asked, in relation to the Bureau of Meteorology's Public Facing Services Transformation business case:

*Will that business case be available for public consumption on 27 February?*

In response I said:

*Absolutely. [...]*

The business case will be considered by the Bureau's Executive Team on 27 February 2019. If the business case is approved, it will be made publicly available thereafter.

Yours sincerely

**Dr Andrew Johnson FTSE FAICD**  
CEO and Director of Meteorology
