Anyone recall parliament sitting all night to debate legislation to deal with climate change? The aged care crisis? An anti-corruption body? But the legislature, which sits rarely, just debated all night on a completely unnecessary 'reform' dreamed up as a wedge by the far right.

Things that warrant an offer of resignation in the Morrison govt:

1) calling Scott names

Things that don't

1) calling a woman making rape accusations a 'lying cow'

2) fabricating documents to undermine Mayor of Sydney

3) being accused of rape while being AG
