OFFICIAL

Hi, presentation and suggested intro speaking notes attached.

Apologies for the "blank" slide formatting – some issues with the editing software which we're fixing but wanted to get you the essence.

I've suggested that you cover the first slide on the Better Connectivity Plan (formerly known as the BCRRAP), but I'm happy to cover that if you prefer and you can just do the speaking notes – whichever suits best.

I'll be doing the school run between 815-9 then in CPO to make any changes.

Cheers

Dan

OFFICIAL

Hi, revised presentation attached.

It's back in the original blank template as the network doesn't like the editing application, so Pnina will circulate a fancy-looking version in the morning (many thanks Pnina).

You'll see I've removed the individual site list and directed questions to Sean (apologies in advance!). Anything else to add in that section?

And included a broad outline of the Department's processes. I've kept that a bit general as they will run very different processes across the different projects as some are likely to be equipment from a panel of suppliers through to complex multi-operator processes.

Cheers

Dan
