1	SQ21-000796	AUS POST - Parcel volume breakdowns	Catryna Bilyk	AUS POST - Parcel volume breakdowns	Please provide the number of parcels Australia Post has delivered in the year to date in 2021 and the past four calendar years, broken down by the following categories: (a)Year (b)Service type (eg. regular, express post) (c)Intrastate, interstate and international (d)Delivery performance, including: - Delivered within service standard - Failed to meet service standard (and the number of days the parcel was late) - Lost, damaged or destroyed in transit	26/10/2021	Written
2	SQ21-000797	AUS POST - Parcel timelines breakdowns	Catryna Bilyk	AUS POST - Parcel timelines breakdowns	For parcel deliveries that did not meet the service standard, please provide the number of deliveries broken down by the following data: (a) Year (b) Service type (eg. regular, express post) (c) Intrastate, interstate and international (d) Reason for failure to meet the delivery service standard	26/10/2021	Written
3	SQ21-000798	AUS POST - Delayed Hobart to Sydney Express	Catryna Bilyk	AUS POST - Delayed Hobart to Sydney Express	I am aware of an express post parcel that was recently delivered from Hobart to Sydney that arrived at a processing centre in Sydney the day after it was posted but took another 14 days to reach the recipient. I also understand that circumstances that delayed this parcel caused delays to other parcel deliveries. Is Australia Post aware of this incident? If so: (a) What caused the delay? (b) How many parcels were affected?	26/10/2021	Written

					<p>(c) Have there been similar incidents impacting the delivery of express post parcels either at the same processing centre or across the delivery network? How many parcels have been affected by these?</p> <p>(d) What procedures are being examined to ensure that this incident is (or these incidents are) not repeated?</p> <p>(e) Why is Australia Post accepting express post fees from customers if they cannot deliver within expected time frames? If customers pay for a premium service that isn't delivered how can they be compensated?</p>		
4	SQ21-000799	AUS POST - Parcel delivery by contractors	Catryna Bilyk	AUS POST - Parcel delivery by contractors	Does Australia Post use contractors in the delivery of its parcels? What arrangements are in place to ensure quality control of the parcel delivery processes that are undertaken by contractors?	26/10/2021	Written
5	SQ21-000800	AUS POST - Parcel delivery by employees	Catryna Bilyk	AUS POST - Parcel delivery by employees	What arrangements are in place to ensure quality control of parcel delivery processes that are undertaken by directly-employed Australia Post employees?	26/10/2021	Written
6	SQ21-000801	AUS POST - Parcel delivered per parcel delivery employee	Catryna Bilyk	AUS POST - Parcel delivered per parcel delivery employee	From 2016 to the present, please indicate by year how many parcel deliveries were completed for each full time equivalent employee involved in parcel delivery.	26/10/2021	Written
7	SQ21-000802	AUS POST - Parcel delivery employee numbers	Catryna Bilyk	AUS POST - Parcel delivery employee numbers	How does Australia Post assure itself and its customers that the number of staff employed to deliver parcels is adequate?	26/10/2021	Written
8	SQ21-000803	AUS POST - COVID-19 impact on parcel delivery services	Catryna Bilyk	AUS POST - COVID-19 impact on parcel delivery services	In what ways has the COVID pandemic impacted on the performance of Australia Post's parcel delivery services?	26/10/2021	Written
9	SQ21-000804	ABC - Fines for journalists	Gerard Rennick	ABC - Fines for journalists	Why is the ABC paying fines on behalf of journalists if they are expressing a private view? I am referring to the damages paid on behalf of Louise Milligan in the defamation case brought against her Andrew Laming.	26/10/2021	Written

10	SQ21-000805	ABC - Kevin Rudd Pfizer conflict of interest	Gerard Rennick	ABC - Kevin Rudd Pfizer conflict of interest	Was Norman Swan, in saying that the government could sign up Pfizer last August aware that Kevin Rudd as president of the Asian Society Policy Institute receives almost a \$1 million dollars a year from in that role and that a donor to that organisation is Pfizer - a product that Kevin Rudd has been trying to get the Australian Government to buy? Is the ABC colluding with Kevin Rudd and if so why was no conflict of interest disclosed?	26/10/2021	Written
11	SQ21-000806	ABC - Norman Swan's comments on COVID-19 in children	Gerard Rennick	ABC - Norman Swan's comments on COVID-19 in children	On the 3/7/2021 Norman Swan posted on Twitter - "My prediction is that unless we vaccinate kids under 12, within 18 months or sooner, depending on 12 yrs and older vaccination rates, COVID will be a childhood disease. And not a trial one. " Given no children under 12 have died from Covid why is Norman Swan posting such alarming rhetoric?	26/10/2021	Written
12	SQ21-000891	Number of NBN frontline staff who received a bonus	Anthony Sheldon	Number of NBN frontline staff who received a bonus	Senator SHELDON: I'm going to go to the department, because we'll be able to deal with some aspects of it now, and then I'll ask you again for a comment. Did the department provide Minister Fletcher with any advice on the number of frontline NBN staff who did receive a bonus? Mr Atkinson: I'm not aware of that, but Mr Windeyer may have more detail. Mr Windeyer: I'm not aware that we provided specific information about frontline staff. We may have, but I'd have to take on notice, provided information about the number of staff who were paid- who that pool of money was paid to. But I'd have to take it on notice.	26/10/2021	4
13	SQ21-000893	Allocation of RISE funding	Sarah Hanson-Young	Allocation of RISE funding	Senator HANSON-YOUNG: So questions have been raised about where the RISE funding is actually going. One of the examples I'm sure you're aware of, Dr Arnott, is a couple who own a spa retreat, Mudstone Spa Retreat. They had no track record in the arts at all and have received \$621,000 to run a weekly music night for an audience of 200. How was that approved? ... Senator HANSON-YOUNG: Out of that \$620,000, what percentage	26/10/2021	11-12

					<p>actually goes to the artists?</p> <p>Mr Arnott: I'm not sure I have that precisely to hand. I don't have the budget here.</p> <p>Senator HANSON-YOUNG: Could you take that on notice?</p> <p>Mr Arnott: Yes, I could answer that this evening, at the arts session.</p>		
14	SQ21-000894	Facebook deal with SBS	Louise Pratt	Facebook deal with SBS	<p>Senator PRATT: Has the minister contacted Facebook about this apparent refusal of Facebook to do a deal with SBS?</p> <p>Mr Windeyer: I'm not aware, but I could take that on notice.</p>	26/10/2021	13
15	SQ21-000895	AUS POST - Parcel volume impacted by first TWU strike	Benjamin Small	AUS POST - Parcel volume impacted by first TWU strike	<p>Senator SMALL: Good morning, folks. I'll address my questions broadly, and whoever is best placed can answer them. I want to ask about what impact the first strike by the TWU had on the Australia Post business?</p> <p>Mr Graham: I will refer that comment to Rod Barnes, who's the head of our national network and operations and is directly involved, obviously, in providing that service to our customers.</p> <p>Mr Barnes: In the first period of industrial action that we had some weeks ago, I think approximately 500 to 600 staff chose to participate in that action that day. We did have some delays. We recovered all of those delays within two business days. Victoria was probably our most challenged. We did suffer some impact to some critical shipments we weren't able to isolate. It was a pretty challenging period, but we got through that after about three business days.</p> <p>Senator SMALL: Can you outline exactly what you mean by that sort of business 'impact'? How many parcels were delayed? When you said 'critical shipments', what were you referring to?</p> <p>Mr Barnes: Medical shipments and foodstuffs-items that are traditionally consigned by business, such as pharmaceuticals, medicines and items for hospitals and so forth. The items in question that were delayed-and I'll take the exact number on notice-were about 74,000 parcels in Victoria and approximately 13,000 parcels in New South Wales for that day.</p>	26/10/2021	19

16	SQ21-000896	AUS POST - Incentives in Q4 FY20	Kimberley Kitching	AUS POST - Incentives in Q4 FY20	<p>Senator KITCHING: That is correct? Can you confirm that over the course of COVID-19, from March 2020 until today, Australia Post has paid out \$171.4 million in bonuses?</p> <p>Mr Boys: Thank you very much for that question. Over the two years Australia Post paid salary at risk STI payments, across those years a sales incentive scheme and also bonuses, the thank you bonuses that we've referred to several times. As per the provisions set down in the annual report-I will turn to that page in the annual report-there was \$92.4 million in FY20 and \$79 million in FY21. The payments would have been approximately those same numbers. I think we have responded to your question on notice for FY20 and FY21 to that effect.</p> <p>Senator KITCHING: Thank you. It's not quite two years, though, is it? It's March 2020 until today-so a year and as half.</p> <p>Mr Boys: I've quoted you the numbers as per the annual report for the full year FY20 and the full year FY21. We would have only paid a very small amount-I would need to check that-in the period between March 2020 and 30 June 2020.</p> <p>Senator KITCHING: If you can come back to me that would be helpful, Mr Boys. Mr Graham, do you have that exact figure yet?</p> <p>Mr Graham: No. We're chasing that figure up. It's just being compiled now. I'll get it for you as soon as possible.</p>	26/10/2021	28
17	SQ21-000897	IVE Group donations	Louise Pratt	IVE Group donations	<p>Senator PRATT: Minister Hume, has Minister Fletcher received any donations from the IVE Group since 2019?</p> <p>Senator Hume: All donations would be on the register, but I will take the detail on notice.</p>	26/10/2021	30
18	SQ21-000898	AUS POST - Local Government Elections - Complaints	Kimberley Kitching	AUS POST - Local Government Elections - Complaints	<p>Senator KITCHING: Did you have any complaints, where there was redress that you had to make for not delivering mail in council elections? My understanding is that there were some complaints, from a variety of tickets, in some of the Victorian local government elections. For example, how-to-vote mail across different parties, which is an important piece of mail in an election, was not delivered in time. In fact, they were delivered, in some cases, two</p>	26/10/2021	30-31

					<p>weeks after the close of the ballots.</p> <p>Mr Starr: From time to time, there are issues raised, and we work closely with MPs and the electoral commissions to address those issues.</p> <p>Senator KITCHING: Sorry, not MPs; I'm talking about local government elections, so they would be councillors.</p> <p>Mr Starr: For local government elections? I beg your pardon, Senator. Yes, in all the cases that I mentioned, the 10 election events, we work closely with the Electoral Commission and with councillors, or MPs if they're state elections, and where issues are raised we address them quickly and make sure that we do deliver. But from time to time there are issues with delivery and we work through those.</p> <p>Senator KITCHING: On notice, are you able to give me an anonymised list of complaints for all 10 election events?</p> <p>Mr Starr: I'd have to check what we can provide, but we will endeavour to-</p>		
19	SQ21-000899	AUS POST - Letter On-Time Delivery & Letters Frequency Performance	Louise Pratt	AUS POST - Letter On-Time Delivery & Letters Frequency Performance	<p>Senator PRATT: In relation to preparations for the upcoming federal election, has Australia Post been complying with its regulated service standards for mail delivery frequency and mail delivery time frames?</p> <p>Mr Graham: I will refer that question and the detail to Rod Barnes, who is our head of network operations.</p> <p>Mr Barnes: We're very aware of our serious obligations, which we managed to achieve last year. The situation at the moment with the relevant COVID challenges does make that particularly difficult- and we are doing our best-in some locations. That service is varying depending on the traffic lane and the conditions we face. We're operating under eight different state health orders and requirements to comply, and we're doing our best to work that through. I can send you the detail on notice, if you like, with the specific performance by month across the products. That will show it. We are looking towards an improvement, and, with the recent</p>	26/10/2021	31

					changes not only in New South Wales but also in Victoria, we are confident that we'll be able to recover that service.		
20	SQ21-000900	AUS POST - Post-Election Reviews (Federal and WA)	Louise Pratt	AUS POST - Post-Election Reviews (Federal and WA)	<p>Senator PRATT: Do you do a report at the end of an election to see whether there were any particular electoral impacts? Do you talk to the Electoral Commission about that?</p> <p>Mr Barnes: Yes, we do, and we have regular reviews, as we did with the census, where we had a regular fortnightly and six-week catch-up at a senior level.</p> <p>Senator PRATT: Are you able to table the review from the last federal election?</p> <p>Mr Barnes: To Gary's previous answer, we will find the information we have around those performances for local council. We also have feedback from the relevant commissions that we could share.</p> <p>Senator PRATT: I'd be interested any feedback from the WA election as well, noting the size of the state.</p> <p>Mr Barnes: Certainly.</p>	26/10/2021	32
21	SQ21-000901	eSafety - Spike in online harms reports	David Van	eSafety - Spike in online harms reports	<p>Senator VAN: Ms Inman Grant, it's lovely to see you again. Thank you for all your great work. You say that the surges that we've seen in past months are quite significant. Do they vary state by state, or was it uniform across the country?</p> <p>Ms Inman Grant: I don't think we kept state-by-state data in this case. I would say it's relatively uniform. In the past, the preponderance of reports generally reflected the size of the population. So New South Wales tends to report the most, followed by Victoria et cetera.</p> <p>Senator VAN: Would you be able to take that question on notice and come back to me on that?</p> <p>Ms Inman Grant: Sure.</p>	26/10/2021	35
22	SQ21-000904	Section 240 of the Online Safety Act 2021	Anthony Sheldon	Section 240 of the Online Safety Act 2021	Senator SHELDON: Thank you for that. I want to direct a question to the minister and the secretary. Section 240 of the Online Safety Act 2021 empowers a minister to make legislative rules as necessary or convenient for carrying out or giving effect to the act, and the definition of cyberabuse targeted at an Australian adult in	26/10/2021	42

					<p>section 7 includes: such other conditions ... as are set out in the legislative rules. Why was the provision for the minister to make legislative rules included in the definition of cyberabuse targeted at an Australian adult? Mr Windeyer: I would have to take it on notice to check what the intent behind that provision was. If I had to comment, I'd suspect it was to ensure that there is some flexibility in the scheme into the future to keep pace with or keep track of emerging trends or concerns.</p>		
23	SQ21-000905	Legislative rules for the purpose of the Adult Cyber Abuse Scheme	Anthony Sheldon	Legislative rules for the purpose of the Adult Cyber Abuse Scheme	<p>Senator SHELDON: Minister, what matters does the department contemplate where the minister might make legislative rules for the purpose of the Adult Cyber Abuse Scheme? Senator Hume: I think it would entirely depend on the issue that arose. Senator SHELDON: So how that's to operate still hasn't been worked out? Senator Hume: The emerging issues haven't arisen yet, so it's hard to speculate on what the response would be. Senator SHELDON: Will the minister make rules with respect to the level of evidence required to establish harm to a person's mental health? Senator Hume: I'm not entirely sure that that's necessary, but I'll take the question on notice</p>	26/10/2021	42
24	SQ21-000906	Adult Cyber Abuse Scheme - legislative rules	Anthony Sheldon	Adult Cyber Abuse Scheme - legislative rules	<p>Senator SHELDON: Will the minister make legislative rules to clarify the application of the Adult Cyber Abuse Scheme to safeguard the role of journalists, comedians and satirists? Senator Hume: I'm not aware of any changes to that effect, but I'm happy to take it on notice. Senator SHELDON: Is section 233, on the implied freedom of political communication, sufficient for the Adult Cyber Abuse Scheme not to be misused to censor the fourth estate? Senator Hume: Again, I think you've just repeated the same</p>	26/10/2021	42

					<p>question. I'm not aware of any of those changes, but I will certainly take it on notice.</p> <p>Senator SHELDON: For example, if a politician is concerned that a particular journalist, comedian or satirist is focusing on them too much and menacing, harassing or offending them with critical content, should the politician be able to complain to the eSafety Commissioner to have the content taken down? I might include the word 'thuggery' as well.</p> <p>Senator Hume: I don't think that's the intention of this act at all, but I'm happy to take that question on notice and get you an answer directly from the minister.</p>		
25	SQ21-000907	eSafety - list of stakeholders that were engaged during each submission process	Anthony Sheldon	eSafety - list of stakeholders that were engaged during each submission process	<p>Senator SHELDON: Would you please table a list of which stakeholders you have engaged with in each process, the dates of the meetings and the attendees?</p> <p>Ms Inman Grant: Sure. Absolutely. Most of that, at least for the restricted access system, is already online. We're just going through the process of going through the 33 submissions on age verification.</p>	26/10/2021	43
26	SQ21-000908	eSafety - Takedown notices under the Broadcasting Services Act	Anthony Sheldon	eSafety - Takedown notices under the Broadcasting Services Act	<p>Senator SHELDON: It wasn't quite clear. How often has the eSafety Commissioner used its powers under the existing restricted access systems declaration in the past?</p> <p>Mr Dagg: I'm not aware of any recent takedown notices under the Broadcasting Services Act that have relied on me to impose a restricted access systems declaration on providers. Since 2015, the eSafety Commission has issued a very limited number of takedown notices. We issued a takedown notice last year and that was complied with, but that was complied with through the removal of content rather than the imposition of a restricted access systems declaration. It is a rarely used power but, through the course of our submissions, industry said that it had had little effect on their businesses and it's had little regulatory impact. But I can take that on notice for you, Senator.</p> <p>Senator SHELDON: Thank you</p>	26/10/2021	45

27	SQ21-000909	Release of ACMA report to Government on the code development process	Nita Green	Release of ACMA report to Government on the code development process	<p>Senator GREEN: Ms O'Loughlin, according to ACMA's website, ACMA provided a report to government on the code development process, the adequacy of voluntary code on disinformation and the broader impacts of misinformation in Australia. Do you have an update on when the report will be released?</p> <p>Ms O'Loughlin: Yes, we were asked by the government to provide a report on disinformation and on the performance of the new voluntary misinformation code. That was provided to the government on 30 June this year. That's under consideration by the government and its release would be a matter for the minister.</p> <p>Senator GREEN: Has the minister contacted you about the report, since you provided it, to get more feedback or provide-</p> <p>Ms O'Loughlin: No. We had a discussion with the minister in his office about our report and the context in which it was undertaken and what we'd looked at, for further information. That was a little while ago now. My understanding is that it's being considered by the minister through the normal processes.</p> <p>Senator GREEN: Minister, do you know when that report will be released?</p> <p>Senator Hume: I do not. I can take it on notice. I assume it is another report that is for discussion and deliberation of cabinet. I will find that out.</p>	26/10/2021	47
28	SQ21-000910	ACMA - Number of small publishers that have been through the assessment process	Sarah Hanson-Young	ACMA - Number of small publishers that have been through the assessment process	<p>Senator HANSON-YOUNG: I've got you. Thanks for that explanation. How many of those that have been through the assessment process were considered to be small publishers?</p> <p>Ms O'Loughlin: I'm not sure I have that before me at the moment. We might need to take the number on notice, but there are a number of small publishers. I'll defer to my colleague Creina.</p> <p>Ms Chapman: We can take the precise number on notice, but, if I look at the register, the majority are small. In fact, nearly all are.</p>	26/10/2021	49
29	SQ21-000911	ACMA - Key categories of misinformation	Louise Pratt	ACMA - Key categories of misinformation	<p>Senator PRATT: Thank you. We were talking about terms of use and categories in the codes. In general terms, what key categories of misinformation are prohibited on Facebook and YouTube?</p>	26/10/2021	56

		prohibited on Facebook and Youth Tube		prohibited on Facebook and Youth Tube	<p>Ms O'Loughlin: We might have a bit of a stab at that, but we might need to take it on notice to give you something more comprehensive. I'm looking at my colleagues and we're all flicking through our briefings.</p> <p>Ms Rainsford: I think we should take that question on notice for you, because each of the platforms has a range of different policies that go to your question. If we can take that on notice and give you a fulsome response about our views on their policies.</p>		
30	SQ21-000912	Correspondence to the Minister regarding implementation of proposals under Mr Julian Leaser's MP Private Members Bill	Nita Green	Correspondence to the Minister regarding implementation of proposals under Mr Julian Leaser's MP Private Members Bill	<p>Senator GREEN: On the same issues that are raised in the bill, on 30 September the shadow minister wrote to the minister asking whether the department had undertaken any preliminary assessment of how much mobile prices, including for regional consumers, would increase if the proposals were implemented. I think that request has been sent to the minister and, hopefully, passed on to the department. The minister hasn't provided a response yet, but has the department started that work?</p> <p>Mr Windeyer: I am not aware, but I will see if anyone does know the answer to that question. I imagine that we have had the correspondence passed to us, but I will see if I can find out. We haven't yet. We're not yet undertaking any work specifically in relation to that question.</p> <p>Senator GREEN: Sorry, so the minister received correspondence almost a month ago. Has the correspondence been sent to the department or have you just-</p> <p>Mr Windeyer: I will check.</p> <p>Senator GREEN: Is it a matter of the minister not forwarding it on or it just that they've said, 'Look, we've got this correspondence but don't bother looking at it'?</p> <p>Mr Windeyer: We will find out. We will have to check. The officers here can't recall seeing the correspondence, so we will check whether it's been forwarded and get back to you.</p>	26/10/2021	57-58

31	SQ21-000913	Alternative Voice Services Trials program report	Nita Green	Alternative Voice Services Trials program report	<p>Senator GREEN: I have another question from the same budget estimates, No. 13, so it's probably related to the same thing. The department provided information about the seven technical criteria against which grantees are required to report. These included network uptime, network downtime, call drop rates and mean opinion scores. Can you explain what survey questions underpin the qualitative feedback about the mean opinion score, or provide it on notice?</p> <p>Mr P Mason: The criteria that we provided in the answer, from memory, are the technical criteria that we asked the service providers to report on. They monitor that within their networks, using different technologies. We also do an independent survey which is necessarily brief because we figured that customers weren't too happy to be called every month and asked a long series of questions. It's a fairly high-level question about how they feel about the quality of the voice service, so the survey is quite qualitative. The more technical side of it is dependent on information from the service provider.</p> <p>Mr Paterson: It is our intention shortly to publish a short report on the trials as they are at the moment, and to make that publicly available on our website.</p> <p>Senator GREEN: Can you table a copy of the survey?</p> <p>Mr Paterson: I think that would probably comprise a part of the report. I'll take that on notice.</p>	26/10/2021	61
32	SQ21-000914	Parameters of collection of data	Nita Green	Parameters of collection of data	<p>Senator GREEN: One of the things that isn't being considered is latency in packet loss not being measured for grantees who are delivering voice as part of their alternative voice trials. Am I correct in saying that those things are not being measured, and wouldn't latency be a useful technical measure for voice experience?</p> <p>Mr P Mason: I'll take that on notice because I want to check the answer. I think the information provided may have been focused on the voice component. To the extent that providers are also providing broadband, I think that we had those parameters so, yes,</p>	26/10/2021	61-62

					<p>they are relevant to providing voiceover internet. I do think we're collecting that; it just depends on what products the providers are providing.</p> <p>Mr Paterson: My recollection is the same as Mr Mason's, but we'll take that on notice.</p>		
33	SQ21-000915	Community Television Stations reporting requirements	Marielle Smith	Community Television Stations reporting requirements	<p>Senator MARIELLE SMITH: I'm just interested in these years of uncertainty. What have they actually cost the department? Community television stations have had to prepare statements and report after report. Those would have been analysed by officers in the departments. There was rent paid. Regulatory burden was imposed on the broadcasters. Many staff, I assume, were involved in preparing all of this. What's the cost been to the department?</p> <p>Mr Atkinson: I don't have any cost for this type of activity. Management of spectrum, working with stakeholders and implementing government policy decisions are part of our ongoing business as part of a department.</p> <p>Senator MARIELLE SMITH: But it's work that's specific, right? Because each time we come to this community television [inaudible] work you do as a department, there's no cost involved in that for your officers or for your agency?</p> <p>Mr Atkinson: There is no net additional cost. It's in the scope of normal business that we would be asked to do by the government of the day.</p> <p>Senator MARIELLE SMITH: How many departmental staff were involved in assessing these reports which community television was required to provide?</p> <p>Mr Atkinson: I'll ask Ms Sullivan if she has any further comments on how many staff were involved.</p> <p>Ms Sullivan: There was primarily one officer who was responsible for leading the work reviewing the reports.</p> <p>Senator MARIELLE SMITH: And were those reports done quarterly, yearly?</p> <p>Ms Sullivan: The reporting requirements came in for the last 12</p>	26/10/2021	62-63

					<p>months and they were due quarterly.</p> <p>Senator MARIELLE SMITH: Can you take on notice if you can estimate any costs in this process?</p> <p>Ms Sullivan: Sure. I'm certainly happy to take that on notice.</p>		
34	SQ21-000916	Mobile Black Spot Program and Regional Connectivity Program - Northern Australia Initiative	Nita Green	Mobile Black Spot Program and Regional Connectivity Program - Northern Australia Initiative	<p>Senator GREEN: That's fine. With the projects for the northern Australia initiative being selected as part of the mechanisms for the Mobile Black Spot Program and Regional Connectivity Program, do they have their own processes? How are they being selected?</p> <p>Mr Paterson: We're consulting on the Regional Connectivity Program around two guidelines at the moment. The way the northern Australia component has been put into it is that it's encapsulated within the program and all the existing criteria, but when you do the assessment you assess the northern Australia program components separately. The reason we do that is because, as you would be aware, the infrastructure builds in northern Australia can often be very expensive, because of the distances of power, backhaul and so forth.</p> <p>So we would get an application, and then look at the northern Australia components separately from the rest of the program. If you exhausted the funding for the northern Australia component, and there were still value-for-money ones, there's the potential they would be picked up with the rest of the program. So they would be assessed separately but as part of the same process.</p> <p>Senator GREEN: In terms of the nature of the projects and connectivity solutions that are being funded, how does it differ from southern parts of regional and remote Australia? You've already touched on some of the specific needs for northern regions, but what are the main differences?</p> <p>Mr Paterson: The main differences are the distances, the costs, and the lack of general backhaul. I'm going to ask Phil Smurthwaite to give you one or two examples out of Regional Connectivity Program round 1 which we funded in northern Australia, which will give you an indication as to the costings and the sorts of things we</p>	26/10/2021	64

					<p>expect will flow through.</p> <p>Senator GREEN: Do you want to provide that on notice?</p> <p>Mr Paterson: I'm happy to do that.</p>		
35	SQ21-000917	ACCC final report on the Digital Platforms Inquiry - list of 12 local government areas without coverage	Nita Green	ACCC final report on the Digital Platforms Inquiry - list of 12 local government areas without coverage	<p>Senator GREEN: It's been 12 months. Somebody has the information. It's just a list. Can we have the list?</p> <p>Mr Atkinson: The difficulty is compiling the list. Our Bureau of Communications, Arts and Regional Research is trying to pull together a similar database for us. To begin with, when trying to understand print, we don't have a database of information just on print media. Because the government regulates broadcasting, we have information on the broadcasters, whether they're radio or television. What we don't have and no-one actually has is a set database of online and print newspapers. We're trying to pull together, through our bureau, a database of that information, but it's actually quite time-intensive and difficult to get hold of. I'm happy to come back to you. I'll get an update on where we're up to, because I do actually want the work done, and I'll come back to you with where that work's up to and what we can provide you with.</p> <p>Senator GREEN: Let's not wait till the next estimates, because we don't know when that will be.</p> <p>Ms Sullivan: No.</p> <p>Senator GREEN: You can provide it on notice.</p> <p>Ms Sullivan: I'm happy to provide on notice what we have. It's probably not going to be a perfect list. It's probably not going to be what you're after, to that level of detail, because it is quite hard to get this information. 37	SQ21-000920	ABC - defamation case against Ms Milligan	Eric Abetz	ABC - defamation case against Ms Milligan	<p>Senator ABETZ: Mr Laming settled each and every other matter in relation to these tweets with a simple apology, because that is all he had sought-exactly what he had sought as well from Ms Milligan. She refused to apologise. In those circumstances, why did the ABC, using taxpayers' money, seek to support Ms Milligan rather than say to her, 'Just apologise and be done with it,' as with all the other cases that Dr Laming had started in relation to this matter?</p> <p>Mr Anderson: I don't know how many other people were served concerns notices over this. That is No. 1. So, I don't know whether they were in the same situation that we were. I will say that when we receive a concerns notice there's a procedure here. We assess it. There are 28 days that sit there.</p> <p>Senator ABETZ: Wait a minute-but you didn't receive the notice, did you? This was only for Ms Milligan. She was the one who was served with the concerns notice. The ABC wasn't.</p> <p>Mr Anderson: I can confirm, on notice, exactly where the concerns notice came to. I believe that it actually came into the ABC addressed to Ms Milligan. But when it comes to-</p> <p>Senator ABETZ: In a private capacity.</p>	26/10/2021	79
38	SQ21-000921	ABC - Legal advice received regarding Dr Laming	Eric Abetz	ABC - Legal advice received regarding Dr Laming	<p>Senator ABETZ: I'm not asking about Mr Porter. I'm asking about Dr Laming.</p> <p>Mr Anderson: Yes, I did inform the board. General counsel informs the board of all legal matters in a privileged capacity at every board meeting. This matter did come up before the board, on 9 June. The circumstances by which we provided indemnity to Ms Milligan were explained-that with regard to vicarious liability, the potential for the ABC to be joined in proceedings and the potential financial exposure for the ABC, unless we created common-interest privilege and took hold of those proceedings to be able to settle them as fast as we could.</p>	26/10/2021	80

					<p>Senator ABETZ: Are you able to table all of the legal advice that you received in relation to this matter?</p> <p>Mr Anderson: I can't table the initial advice that I had from general counsel. I did get subsequent external advice after this with regard to vicarious liability for the whole of the ABC. I have that with me. Normally I couldn't just table all of this advice; there are reasons for that, which exposes the ABC in other ways. I could work to, on notice, try to table elements of it. I can read out one piece which I think would be useful-</p>		
39	SQ21-000922	ABC - Obligations under the PGPA	Eric Abetz	ABC - Obligations under the PGPA	<p>Senator ABETZ: Well, when the ABC wasn't being sued at all, that is an astounding assertion. But can I ask: was the board's permission sought, or was the board just informed?</p> <p>Mr Anderson: The board was just informed. I had made that decision. I did not seek the board's approval, nor would I in matters of a similar nature where I am duty bound to discharge my duties with regard to the obligations under the PGPA. Effectively, I made that decision on protecting the ABC's financial position into the future.</p> <p>Senator ABETZ: Can you table your board delegation-the delegation from the board?</p> <p>Mr Anderson: I think I can. The board is the authority here, and, yes, I have delegated authority under a delegation policy and a delegation framework.</p> <p>Senator ABETZ: Can you table it?</p> <p>Mr Anderson: And, yes, I can table information on that.</p> <p>Senator ABETZ: Good, thank you. And then can you explain how this meets the PGPA duties?</p> <p>Mr Anderson: Well, I think under sections 15 and 16, with relation to me being a member of the board, and 25, 26, and 27, when it comes to reducing risk, making decisions that protect the ABC, I will confirm that with you on notice.</p> <p>Senator ABETZ: Thank you.</p>	26/10/2021	80

40	SQ21-000923	ABC - outcome of review on documentary Exposed: The Ghost Train Fire series	Anthony Sheldon	ABC - outcome of review on documentary Exposed: The Ghost Train Fire series	<p>Senator SHELDON: Thank you. I put this to Mr Anderson: Mr McMurtrie said that we've accepted the outcome; I gather that's still your assessment. Are you going to take out that section that's been highly critical, highly defamatory, of Neville Wran, highly critical about what has occurred, and the allegations in that series? Again, I'll reiterate: I appreciate the other work you've done. But it does not make sense to me when your own internal review is saying that there are issues and serious concerns, no merit to the allegations, but you keep those allegations in the story. Have you got any intention of turning around and taking those allegations out?</p> <p>Mr McMurtrie: No. We are comfortable with the decision we've made because we have published the independent review and it is all available there on the public record.</p> <p>Senator SHELDON: You have told me that the ABC considers that the existence of the report, the independent review, is enough by way of response. Did the ABC issue a media statement in response to the report before the report was released?</p> <p>Mr Anderson: I don't believe so. I think the ABC issued a statement as the report was released. I think it was meant to be at the same time. We can check for you on notice.</p>	26/10/2021	81

Are you able to table all of that information, including any invoices supplied to the ABC and the deed of settlement between Ms Milligan and Dr Laming?</p> <p>Mr Anderson: I'll take that on notice, Senator. I can tell you that, in terms of the settlement to Dr Laming, the orders were made on 11 August for \$79,000 to be payable as damages to Dr Laming. There were \$30,000 in Dr Laming's legal costs. With regard to the other costs incurred, so far, that's approximately \$75,000. Yes, I'll be able to table what I can for you on notice.</p> <p>Senator SMALL: You're satisfied that represents the total cost to</p>	26/10/2021	82

When the ABC had indemnified Louise, it was made very clear to us that an apology would not settle the matter.</p> <p>Senator SMALL: On what basis?</p> <p>Mr Anderson: The only way this matter was going to be settled was by the offer-</p> <p>Senator SMALL: If you can clarify for me on notice on what basis that contention was made, that would be very helpful.</p>	26/10/2021	84
43	SQ21-000926	ABC - Release of report	Anthony Sheldon	ABC - Release of report	<p>Senator SHELDON: There were others, as I've already named, that were able to give substantive conflicting evidence, including people of high reputation in the New South Wales and, I'd argue, the Australian community, in a number of those circumstances. I just want to be really clear. Why did the ABC issue a response to the report on Sunday 29 August, which was reported in the Sydney Morning Herald and the Guardian, but did not release the actual report until Monday 30 August?</p> <p>Mr McMurtrie: It is my understanding that some reporters approached the ABC with some information-I'm not sure how they got hold of that information-and so questions were answered, but the independent review was always scheduled to be released the following day.</p> <p>Senator SHELDON: So people were giving advice. What was the</p>	26/10/2021	87

					<p>circulation of the report as of 29 August? Who had access to it?</p> <p>Mr McMurtrie: It was a very small group. I'd have to come back to you in terms of exactly who knew, but it was very closed. It wasn't widely distributed at all, but we had journalists who came to us with questions, and those questions, as far as we were able to, were answered.</p> <p>Senator SHELDON: So, besides, of course, those that carried out the review, the small group is the leadership of the ABC-is that correct? People in leading positions?</p> <p>Mr McMurtrie: Yes.</p> <p>Senator SHELDON: Can you narrow down anyone that was involved. Were you involved?</p> <p>Mr McMurtrie: Yes. How can you settle a matter without knowing what the full exposure may be to the organisation? Did you tell the board this?</p>	26/10/2021	90

					<p>Mr Anderson: Actually, I believe the issue of fringe benefit did come up with the board, which was something that we needed to settle. But I will tell you that the advice I was provided when it came to accepting the offer of compromise was that total exposure to the ABC was in the order of some \$700,000. So, even with fringe benefit-if it turns out like that-we are still settling the matter for less than what the potential exposure was at that particular point in time.</p> <p>Senator ABETZ: Can you table that legal advice? That would be very interesting-how the total potential exposure for Dr Laming's case was \$700,000. He'll be very disappointed that he settled for \$79,000 instead of \$700,000.</p> <p>Mr Anderson: I don't know if I can table that advice, but I'll provide you some undertaking in some way, shape or form.</p>

When it comes to media inquiries, that was put in place. There was separation such that the head of communications didn't deal at all with matters related to Ms Milligan. As per the conflict of interest, there are what the board sees and what I see. The board is not actively involved in every issue of conflict of interest,</p>	26/10/2021	93

I do not know the exact amount but not much to date. I will see if I can get the answer to that. I'd say it's \$10 million, but let me just check. It is that sort of range. 55	SQ21-000938	ABC - Negotiations with supplier	Rex Patrick	ABC - Negotiations with supplier	<p>Mr Anderson: It's obviously a negotiation with the one supplier. They were up-front that that was the minimum cost for them. I wasn't part of that negotiation. I was kept abreast of it at that point in time. I didn't get the impression that there was any belief that there was any gouging going on here on behalf of the ABC; rather, it was a negotiation held in good faith to ensure those services could continue through those elements of regional Australia.</p> <p>Senator PATRICK: I wasn't in any way suggesting you haven't achieved value for money; it was really about the process by which you go through. Do you compare with perhaps similar services overseas? A lot of Commonwealth contracts, for example, if there</p>	26/10/2021	94

					<p>is a sole-source arrangement or limited tender arrangement, there's the ability to look at the books to make sure there is no gouging. Is that the case with the ABC?</p> <p>Mr Anderson: I'll respond to you on notice. We do have a similar provider in BAI, which provides other transmission services for us. We would have had that comparison; although that's a massive contract. But there were the components within that. I will confirm that on notice with you.</p>		
56	SQ21-000939	NBN Co - Co-investment Fund - Project transparency	Anthony Chisholm	NBN Co - Co-investment Fund - Project transparency	<p>Senator CHISHOLM: In terms of transparency, will NBN Co be publishing details about how much it will invest and how many premises will benefit on a project-by-project basis?</p> <p>Mr Rue: I haven't thought that through. I'll have to think about that. Certainly, when it comes to transparency with the states, no program will be more transparent with the states. At the end of the day, we're using NBN money and state money, and the states would expect full transparency-timing of the programs, what premises are being built et cetera. In terms of making it available outside of the states, I haven't thought that through, but certainly within the state it absolutely would be. I would expect there to be teams from NBN and teams from the state that would be very much involved in governing the programs.</p> <p>Senator CHISHOLM: We'd certainly be expecting some transparency as well.</p> <p>Mr Rue: Yes. How many project applications have been approved to date?</p> <p>Mr Rue: There are two types. There are specific agreements between NBN and the states, and, as you're probably aware, we have come to arrangements with the Victorian government whereby the Victorian government has committed just over \$70 million to co-investment with NBN on a range of programs over a period of multiple years, which we announced a few months ago. I can't remember the exact month, but it was a few months ago. So that's one program.</p> <p>On top of that, there's also what's called the RCIF. That's where there is investment with the Commonwealth government, NBN and councils, for example. I thought you might ask, so I looked this up earlier. We've made 174 estimates, there have been 11 quote requests, and we've committed around \$29 million to date. That's on a range of projects across a range of states. I can send the committee the details rather than bore you by reading them all out now.</p>	26/10/2021	108

So I'd like to ask the question again now. Given NBN Co believes it has answered this, I'm sure you will be in a position to tell me: in what year will all brownfield premises have access to a minimum speed of 25 megabits per second as required by Australian law and the statement of expectations?</p>	26/10/2021	109

					Mr Rue: I will ask one of my team to send me the question on notice. I guess when I look at that I'm probably going to respond, 'I'll take that on notice,' again, to answer the question. What was the cost of Agile training for 2020? My understanding is that it was over \$200,000. Was the training cut short early, and, if yes, why? Were field based safety workers involved in this training, and how many?</p> <p>How many were flown in from different parts of Australia to take part in the training? Were any complaints or displeasure from this cohort recorded regarding the training? My understanding is that some people were unimpressed that they were playing with Lego. How many field based safety workers were there at the start of 2020 and how many are there currently?</p>

On 16 August the department requested that NBN accept transfer of the FOI and NBN accepted. On 3 September NBN advised the applicant they would reject the FOI request on the basis that the letter was in respect of NBN's commercial activities and is exempt. The applicant requested an internal review of that decision. NBN undertook the internal review and said, 'Having reviewed the request, we're satisfied that it wholly refers to NBN's commercial activities and that the document was brought into existence in the course of the carrying out of NBN's commercial activities.' It's an email that explains NBN's reasons for using certain access methods, 'for example, fibre on demand and G.fast in relation to FTTC, depending on the premises and wholesale access speed. 					<p>Australia and the third episode focused on separating students into what were called 'affinity groups'. I think the fourth episode talked about attitudes of racism. Is it the ABC's position that Australia needs this sort of television program because it's a racist country?</p> <p>Mr Anderson: I'm quite proud to be Australian. I think Australia is one of the most successful multicultural countries in the world. That said, it doesn't mean that we are without our problems. Yes, I do think racism does exist in this countr I think we're much better than many other countries across the world. I think any society can improve. There are many things I can quote to you on notice that would otherwise suggest that we do have racism in our country. That has come either from our own survey on Australia Talks or from other research that has happened. I think that what the program tried to do, in a very responsible and controlled way, with parents' participation and being part of the project, was allow kids in schools to have a conversation around race. I think the aim of the program was really to celebrate the differences that we have in our community.</p>

In our StarTrack premium business, for example, we saw less than 20 staff take action. Across our StarTrack express business, it was about 450. But I can get the exact numbers on notice. Again, Victoria was probably our most challenged area. This particular time, the business caught up in a day. Again, we did suffer delays to some of those shipments, but to all businesses. As I say, with the Saturday and the weekend recovery, and using the Australia Post network, we were able to mitigate some of the challenges.</p>	26/10/2021	20
