

## **Electric vehicle sales and light vehicle emissions**

1. What percentage of new car sales are EVs?

Over the first 6 months of 2021, electric vehicles made up 1.5% of car sales.

[This is based on the EV Council State of Electric Vehicles data for EV sales, and FCAI VFACTS data for overall sales]

2. What are current emissions from light vehicles?

60 Mt CO<sub>2</sub>e
