Dear Secretariat

We wanted to update the Senate Standing Committees on Environment and Communications following eSafety's evidence at the public hearing on 14 February 2023 in relation to questions around industry codes. Following eSafety's evidence:

- a. The industry associations published the draft industry codes and related documents submitted to eSafety on 18 November 2022, on their website on 22 February 2023 ([codes | Online Safety](#))
- b. eSafety's website was updated immediately following the update to the industry associations' website. Our website contains a link to this material and also published eSafety's preliminary concerns in relation to each draft industry code ([Industry codes | eSafety Commissioner](#))

We would be grateful if you could provide this advice to the Committee.

Kind regards

Ross Anderson

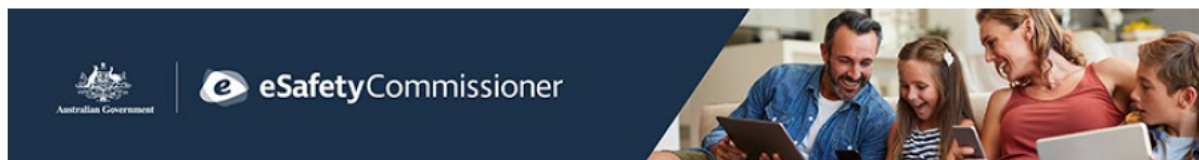

A/ Senior Executive Officer

 eSafety Commissioner
