Dear Committee Secretary

**Request to clarify testimony in Senate Estimates – 26 October 2020**

I wish to clarify a piece of evidence in my testimony of 26 October 2020 to the Senate Standing Committee on Education and Employment. As recorded on page 45 of the Hansard, I stated that 32 working group meetings took place. I also provided a breakdown of the number of meetings for each working group. The total when adding up the breakdown is 33.

In my breakdown of the compliance and enforcement working group, I stated that eight meetings took place. This included seven formal working group meetings, and an additional workshop, which was an informal meeting.

I wish to confirm that my original statement is correct, that 32 working group meetings took place.

Yours sincerely
