| 1                    | Ayres          | ASD cohort exit for public sector | Senator AYRES: It's also a barrier to staying there, isn't it? Presumably it's the shift backwards and forwards between ASD roles and roles in the private sector. I heard you say you didn't agree it was nine per cent but, presumably, whatever the number is, that cohort trained by the ASD is leaving every year for jobs largely in the private sector. | Hansard                | 53                        | 20/05/2022     |
| 2                    | Ayres          | Classification of workforce       | Senator AYRES: If we take those three categories—top secret, secret and below—and the 1,900 new roles, can you give us a sense of how many of those roles fall into each of those categories?  | Hansard                | 54                        | 20/05/2022     |
