^{5.} This is the number of joint committee inquiries administered by the Senate department.

Chart 1: Number of inquiries (actual)

	43rd Parl	44th Parl	45th Parl (to 15/2/18)
Time (in weeks)	149	130	63

As an indicator of the level of committee activity, the following chart averages the number of inquiries referred over the duration of each parliament. For instance, there were fewer references in the 44th Parliament than the 43rd, however, the 44th Parliament was 19 weeks (4 and a half months) shorter in duration so the level of activity over time was higher. Similarly, the figures for the 45th Parliament cover approximately 18 months to February 2018, but as can be seen the rate at which matters have been referred is higher than in the previous two parliaments.

Chart 2: Number of inquiries (pro rata)
