SCOTT MORRISON IS FUELLING CLIMATE DAMAGE

LAST CHANCE: LET'S FUND THIS AD!

Every Australian deserves a safe and healthy future.

But Scott Morrison and the climate-wreckers are fuelling climate damage by putting coal before the health and safety of everyday Australians.

If we can get this hard-hitting television advertisement on air during parliament budget week, we can make sure the stories of everyday Australians get heard.

Together we will:

- Bombard the Coalition with hard-hitting online advertising they won't be able to avoid;
- Produce a gut wrenching yet earnest 'Fuelling the Fire' television commercial, and get it in front of politicians during budget week;
- Fly bushfire survivors from Tasmania to Canberra to meet with Ministers and law-makers to keep the climate wreckers accountable.

It's time we begin the transition to a clean and sustainable Australia powered by renewables.

Authorised by Dom Rowe, Greenpeace Australia Pacific Sydney.

SCOTT MORRISON WANTS TO WASTE \$2B PAYING BIG POLLUTERS

STOP SCOTT MORRISON'S COAL FUND!

Scott Morrison plans to sink \$2b of public money into Tony Abbott's Emissions Reduction Fund - a 'climate policy' that gives money to big polluters.

Thanks to over 1,000 people who chipped in, we got the poll commissioned and out into the world - and climate change was the number one issue for Australian voters!

Chip in now to help make coal history this federal election - and beyond!

WE DID IT!

Greenpeace Australia Pacific · Posted 4 Mar 2019

Over 1,100 people chipped in to get independent polling commissioned. The story was covered in over 100 media publications. Here's the results: - 2 in every 3 Australian voters say...
