

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics are correct as at COB 09 January 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	217	0	1	218
West Lorengau Haus ²	121	0	2	123
Hillside Haus	0	0	104	104
Location to be confirmed	0	0	0	0
Port Moresby Medical	31	0	17	48
Port Moresby (R & R) ³	3	0	3	6
Port Moresby (Nauru EOI)	14	0	3	17
Port Moresby (Third Country) ⁴	30	0	0	30
PNG Community ⁵	56	0	1	57
Total in PNG	472	0	131	603
Australia (Medical)	51	4	6	61

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICISA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	2	1	2	5
Nauru Community	342	73	21	436
Total in Nauru²	344	74	23	441
Australia (Medical)	717	91	1	809
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	3	1	0	4
Total Medical Transfers	720	92	1	813
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	NA

Total	368	923	1,291	1,330	1,600		

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Key Observations

The following incidents occurred between 3 January and 9 January 2019:

s47F

Released by Department of Home Affairs
under the Freedom of Information Act 1982

Home Affairs Weekly Statistics

IMA Removals & Returns

Monthly statistics are correct as at COB 30 November 2018 unless specified

Onshore IMA Removals & Returns¹

Onshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Onshore Returns and Removals	410	463	53	200	191	(9)
Voluntary Removals	95	135	40	52	47	(5)
Involuntary Removals	18	28	10	13	16	3
Voluntary Returns	290	297	7	135	127	(8)
Onshore Crew Removals	7	3	(4)	0	1	1

Offshore IMA Removals & Returns

Offshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Offshore Returns and Removals	68	402	334	105	168	63
Voluntary Returns	62	95	33	48	10	(38)
Involuntary Removals	4	14	10	2	0	(2)
Third Country Settlement ²	2	293	291	55	158	103

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at 12 November 2018.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services (as at 31 December 2018)

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	177	152	(25)	\$587,303	\$487,578	(\$99,725)
Offshore	54	8	(46)	\$1,350,000	\$200,000	(\$1,150,000)
Nauru	4	2	(2)	\$100,000	\$50,000	(\$50,000)
Manus	50	6	(44)	\$1,250,000	\$150,000	(\$1,100,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Departures from the Community ¹¹	7,645	6,857	(788)	3,247	2,647	(600)
Removals from Detention ¹²	6,948	7,083	135	3,851	2,854	(997)

¹ Figures were extracted from Departmental systems on 8 January 2019. As data has been drawn from a live systems environment, the figures provided may differ slightly in previous or future reporting. Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

² Figure includes General field actions and Employer Awareness visits.

³ Some non-citizens may have been located more than once in any given program year. Each location event is counted.

⁴ Employer Awareness activities includes field visits and administrative actions - Employer awareness field visits are also included as part of 'Field Actions - Visited/Executed'.

⁵ This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

⁶ The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled, and the cancellation is subsequently revoked or set aside (this may occur for a number of reasons, including further legal proceedings, and administrative or jurisdictional errors, etc.), and then the visa is cancelled again. Duplicates may also exist.

⁷ s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This includes s501F visa cancellations.

⁸ This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

⁹ Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of Unlawful Non-Citizens and numbers are provided as an estimate only. Numbers are rounded which can result in rounding errors.

¹⁰ Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

¹¹ Figures include IMA returns from the community.

¹² Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

Total Major Drugs	6,219.75	11,817.19	5,597.44	6,096.00	2,761.23	(3,334.77)

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

^a Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

^b ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

^c PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

^d On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 30 November 2018)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
s47E(d)						
Number of detections*	743	800	57	242	358	116
Value (\$m)	17.03	16.31	(0.72)	6.02	7.82	1.80

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Tobacco Detections

	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Total						
Number of detections [^]	61,304	112,124	50,820	27,754	112,613	84,859
Tobacco (tonnes)	169.13	217.90	48.78	98.83	89.49	(9.34)
Cigarette sticks (millions)	233.83	238.43	4.60	97.12	148.47	51.35
Duty Evaded (\$m) (ex GST)	268.81	356.84	88.03	148.24	203.72	55.48
Equivalent Weight (tonnes)**	356.19	406.45	50.26	50.13	203.67	153.54

*s47E(d)

Equivalent weight represents the total weight of loose leaf tobacco detections together with the total weight of cigarette sticks (calculated using an average weight per stick).

[^] The number of detections may be more than stated due to current recording practices. For example, one detection could be a 'bin' or a 'pallet' etc.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year		Year to Date	
--	----------------	--	--------------	--

s47E(d)

s47E(d)

Total Detections	1,712	2,011	299	762	912	150
Released	1,066	985	(81)	558	295	(263)
Re-Exported	0	2	2	0	2	2
Disposed	485	172	(313)	136	59	(77)
Still in Store	161	852	691	68	556	488

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics are correct as at COB 16 January 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	215	0	1	216
West Lorengau Haus ²	117	0	1	118
Hillside Haus	0	0	104	104
Location to be confirmed	0	0	0	0
Port Moresby Medical	32	0	18	50
Port Moresby (R & R) ³	4	0	3	7
Port Moresby (Nauru EOI)	14	0	3	17
Port Moresby (Third Country) ⁴	30	0	0	30
PNG Community ⁵	58	0	1	59
Total in PNG	470	0	131	601
Australia (Medical)	53	4	6	63

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	2	1	2	5
Nauru Community	336	74	21	431
Total in Nauru²	338	75	23	436
Australia (Medical)	723	90	1	814
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	4	0	0	4
Total Medical Transfers	727	90	1	818
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	1	2	3	0
USA	173	276	449	0
Germany	1	0	1	0
Switzerland	0	1	1	0
Total	175	286	461	0

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

Total	374	925	1,299	1,330	1,600		

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Home Affairs Weekly Statistics

IMA Removals & Returns

Monthly statistics are correct as at COB 31 December 2018 unless specified

Onshore IMA Removals & Returns¹

Onshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Onshore Returns and Removals	410	463	53	246	217	(29)
Voluntary Removals	95	135	40	73	51	(22)
Involuntary Removals	18	28	10	17	16	(1)
Voluntary Returns	290	297	7	156	149	(7)
Onshore Crew Removals	7	3	(4)	0	1	1

Offshore IMA Removals & Returns

Offshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Offshore Returns and Removals	68	402	334	111	169	58
Voluntary Returns	62	95	33	54	10	(44)
Involuntary Removals	4	14	10	2	0	(2)
Third Country Settlement ²	2	293	291	55	159	104

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at 8 January 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	177	152	(25)	\$587,303	\$487,578	(\$99,725)
Offshore	54	8	(46)	\$1,350,000	\$200,000	(\$1,150,000)
Nauru	4	2	(2)	\$100,000	\$50,000	(\$50,000)
Manus	50	6	(44)	\$1,250,000	\$150,000	(\$1,100,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Non-citizens leaving the SR Population¹⁰						
Departures from the Community ¹¹	7,645	6,857	(788)	3,247	2,647	(600)
Removals from Detention ¹²	6,948	7,083	135	3,851	2,854	(997)

¹ Figures were extracted from Departmental systems on 8 January 2019. As data has been drawn from a live systems environment, the figures provided may differ slightly in previous or future reporting. Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

² Figure includes General field actions and Employer Awareness visits.

³ Some non-citizens may have been located more than once in any given program year. Each location event is counted.

⁴ Employer Awareness activities includes field visits and administrative actions - Employer awareness field visits are also included as part of 'Field Actions - Visited/Executed'.

⁵ This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

⁶ The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled, and the cancellation is subsequently revoked or set aside (this may occur for a number of reasons, including further legal proceedings, and administrative or jurisdictional errors, etc.), and then the visa is cancelled again. Duplicates may also exist.

⁷ s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This includes s501F visa cancellations.

⁸ This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

⁹ Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of Unlawful Non-Citizens and numbers are provided as an estimate only. Numbers are rounded which can result in rounding errors.

¹⁰ Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

¹¹ Figures include IMA returns from the community.

¹² Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

Final Weight (kg)	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Total Major Drugs	6,219.75	11,817.19	5,597.44	7,141.46	3,067.84	(4,073.62)

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 31 December 2018)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Number of detections*	743	800	57	345	418	73
Value (\$m)	17.03	16.31	(0.72)	7.79	8.85	1.06

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Tobacco Detections

s47E(d)	Financial Year			Year to Date			s47E(d)
	2016-17	2017-18	Variance	2017-18	2018-19	Variance	
Total							
Number of detections [^]	61,304	112,124	50,820	32,429	137,911	105,482	
Tobacco (tonnes)	169.13	217.90	48.78	101.66	151.45	49.79	
Cigarette sticks (millions)	233.83	238.43	4.60	120.04	171.50	51.47	
Duty Evaded (\$m) (ex GST)	268.81	356.84	88.03	166.80	288.80	122.00	
Equivalent Weight (tonnes)**	356.19	406.45	50.26	60.30	283.06	222.76	

s47E(d)

** Equivalent weight represents the total weight of loose leaf tobacco detections together with the total weight of cigarette sticks (calculated using an average weight per stick).

[^] The number of detections may be more than stated due to current recording practices. For example, one detection could be a 'bin' or a 'pallet' etc.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
s47E(d)						
s47E(d)						
Total Detections	1,712	2,011	299	798	1,013	215
Released	1,066	985	(81)	568	363	(205)
Re-Exported	0	2	2	0	2	2
Disposed	485	172	(313)	146	65	(81)
Still in Store	161	852	691	84	583	499

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Involuntary Removals	4	14	10	2	0	(2)
Third Country Settlement ²	2	293	291	55	159	104

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at 8 January 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	177	152	(25)	\$587,303	\$487,578	(\$99,725)
Offshore	54	8	(46)	\$1,350,000	\$200,000	(\$1,150,000)
Nauru	4	2	(2)	\$100,000	\$50,000	(\$50,000)
Manus	50	6	(44)	\$1,250,000	\$150,000	(\$1,100,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Non-citizens leaving the SR Population¹⁰						
Departures from the Community ¹¹	7,645	6,857	(788)	3,247	2,647	(600)
Removals from Detention ¹²	6,948	7,083	135	3,851	2,854	(997)

¹ Figures were extracted from Departmental systems on 8 January 2019. As data has been drawn from a live systems environment, the figures provided may differ slightly in previous or future reporting. Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

² Figure includes General field actions and Employer Awareness visits.

³ Some non-citizens may have been located more than once in any given program year. Each location event is counted.

⁴ Employer Awareness activities includes field visits and administrative actions - Employer awareness field visits are also included as part of 'Field Actions - Visited/Executed'.

⁵ This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

⁶ The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled, and the cancellation is subsequently revoked or set aside (this may occur for a number of reasons, including further legal proceedings, and administrative or jurisdictional errors, etc.), and then the visa is cancelled again. Duplicates may also exist.

⁷ s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This includes s501F visa cancellations.

⁸ This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

⁹ Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of Unlawful Non-Citizens and numbers are provided as an estimate only. Numbers are rounded which can result in rounding errors.

¹⁰ Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

¹¹ Figures include IMA returns from the community.

¹² Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

Total Major Drugs	6,219.75	11,817.19	5,597.44	7,141.46	3,067.84	(4,073.62)

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 31 December 2018)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
s47E(d)						
Number of detections*	743	800	57	345	418	73
Value (\$m)	17.03	16.31	(0.72)	7.79	8.85	1.06

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Tobacco Detections

s47E(d)	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Total						
Number of detections [^]	61,304	112,124	50,820	32,429	137,911	105,482
Tobacco (tonnes)	169.13	217.90	48.78	101.66	151.45	49.79
Cigarette sticks (millions)	233.83	238.43	4.60	120.04	171.50	51.47
Duty Evaded (\$m) (ex GST)	268.81	356.84	88.03	166.80	288.80	122.00
Equivalent Weight (tonnes)**	356.19	406.45	50.26	60.30	283.06	222.76

s47E(d)

** Equivalent weight represents the total weight of loose leaf tobacco detections together with the total weight of cigarette sticks (calculated using an average weight per stick).

[^] The number of detections may be more than stated due to current recording practices. For example, one detection could be a 'bin' or a 'pallet' etc.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
s47E(d)						

Total Detections	1,712	2,011	299	798	1,013	215
Released	1,066	985	(81)	568	363	(205)
Re-Exported	0	2	2	0	2	2
Disposed	485	172	(313)	146	65	(81)
Still in Store	161	852	691	84	583	499

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics are correct as at COB 30 January 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	215	0	1	216
West Lorengau Haus ²	116	0	1	117
Hillside Haus	0	0	104	104
Location to be confirmed	0	0	0	0
Port Moresby Medical	32	0	18	50
Port Moresby (R & R) ³	4	0	3	7
Port Moresby (Nauru EOI)	15	0	3	18
Port Moresby (Third Country) ⁴	23	0	0	23
PNG Community ⁵	58	0	1	59
Total in PNG	463	0	131	594
Australia (Medical)	53	4	6	63

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	2	1	2	5
Nauru Community	327	72	21	420
Total in Nauru²	329	73	23	425
Australia (Medical)	746	80	1	827
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	4	0	0	4
Total Medical Transfers	750	80	1	831
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Offshore Returns and Removals	68	402	334	111	169	58
Voluntary Returns	62	95	33	54	10	(44)
Involuntary Removals	4	14	10	2	0	(2)
Third Country Settlement ²	2	293	291	55	159	104

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at 8 January 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	177	152	(25)	\$587,303	\$487,578	(\$99,725)
Offshore	54	8	(46)	\$1,350,000	\$200,000	(\$1,150,000)
Nauru	4	2	(2)	\$100,000	\$50,000	(\$50,000)
Manus	50	6	(44)	\$1,250,000	\$150,000	(\$1,100,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Removals from Detention ¹²	6,948	7,083	135	3,851	2,854	(997)

¹ Figures were extracted from Departmental systems on 8 January 2019. As data has been drawn from a live systems environment, the figures provided may differ slightly in previous or future reporting. Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

² Figure includes General field actions and Employer Awareness visits.

³ Some non-citizens may have been located more than once in any given program year. Each location event is counted.

⁴ Employer Awareness activities includes field visits and administrative actions - Employer awareness field visits are also included as part of 'Field Actions - Visited/Executed'.

⁵ This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

⁶ The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled, and the cancellation is subsequently revoked or set aside (this may occur for a number of reasons, including further legal proceedings, and administrative or jurisdictional errors, etc.), and then the visa is cancelled again. Duplicates may also exist.

⁷ s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This includes s501F visa cancellations.

⁸ This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

⁹ Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of Unlawful Non-Citizens and numbers are provided as an estimate only. Numbers are rounded which can result in rounding errors.

¹⁰ Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

¹¹ Figures include IMA returns from the community.

¹² Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

Home Affairs Weekly Statistics

Illicit Goods

Monthly statistics are correct as at COB 31 December 2018 unless specified

Drugs

Detections	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Total Major Drugs	24,101	27,710	3,609	11,990	12,537	547
Total Drugs	43,415	43,251	(164)	19,604	19,897	293

Final Weight (kg)	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Total Major Drugs	6,219.75	11,817.19	5,597.44	7,545.97	9,465.52	1,919.55

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

** s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Number of detections*	743	800	57	345	418	73
Value (\$m)	17.03	16.31	(0.72)	7.79	8.85	1.06

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

** s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Tobacco Detections

s47E(d)	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Total						
Number of detections [^]	61,304	112,124	50,820	32,429	137,911	105,482
Tobacco (tonnes)	169.13	217.90	48.78	101.66	151.45	49.79
Cigarette sticks (millions)	233.83	238.43	4.60	120.04	171.50	51.47
Duty Evaded (\$m) (ex GST)	268.81	356.84	88.03	166.80	288.80	122.00
Equivalent Weight (tonnes)**	356.19	406.45	50.26	60.30	283.06	222.76

s47E(d)

** Equivalent weight represents the total weight of loose leaf tobacco detections together with the total weight of cigarette sticks (calculated using an average weight per stick).

[^] The number of detections may be more than stated due to current recording practices. For example, one detection could be a 'bin' or a 'pallet' etc.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance

s47E(d)

s47E(d)

Total Detections	1,712	2,011	299	798	1,013	215
Released	1,066	985	(81)	568	363	(205)
Re-Exported	0	2	2	0	2	2
Disposed	485	172	(313)	146	65	(81)
Still in Store	161	852	691	84	583	499

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics are correct as at COB 06 February 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	213	0	2	215
West Lorengau Haus ²	117	0	1	118
Hillside Haus	0	0	103	103
Location to be confirmed	0	0	0	0
Port Moresby Medical	32	0	18	50
Port Moresby (R & R) ³	4	0	3	7
Port Moresby (Nauru EOI)	15	0	3	18
Port Moresby (Third Country) ⁴	23	0	0	23
PNG Community ⁵	58	0	1	59
Total in PNG	462	0	131	593
Australia (Medical)	53	4	6	63

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	2	1	2	5
Nauru Community	326	68	21	415
Total in Nauru²	328	69	23	420
Australia (Medical)	747	84	1	832
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	4	0	0	4
Total Medical Transfers	751	84	1	836
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	1	2	3	0
USA	180	276	456	0
Germany	1	0	1	0
Switzerland	0	1	1	0
Total	182	286	468	0

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Offshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Offshore Returns and Removals	68	402	334	154	176	22
Voluntary Returns	62	95	33	57	10	(47)
Involuntary Removals	4	14	10	2	0	(2)
Third Country Settlement ²	2	293	291	95	166	71

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at 8 January 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	177	152	(25)	\$587,303	\$487,578	(\$99,725)
Offshore	54	8	(46)	\$1,350,000	\$200,000	(\$1,150,000)
Nauru	4	2	(2)	\$100,000	\$50,000	(\$50,000)
Manus	50	6	(44)	\$1,250,000	\$150,000	(\$1,100,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Removals from Detention ¹²	6,948	7,083	135	3,851	2,854	(997)

¹ Figures were extracted from Departmental systems on 8 January 2019. As data has been drawn from a live systems environment, the figures provided may differ slightly in previous or future reporting. Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

² Figure includes General field actions and Employer Awareness visits.

³ Some non-citizens may have been located more than once in any given program year. Each location event is counted.

⁴ Employer Awareness activities includes field visits and administrative actions - Employer awareness field visits are also included as part of 'Field Actions - Visited/Executed'.

⁵ This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

⁶ The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled, and the cancellation is subsequently revoked or set aside (this may occur for a number of reasons, including further legal proceedings, and administrative or jurisdictional errors, etc.), and then the visa is cancelled again. Duplicates may also exist.

⁷ s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This includes s501F visa cancellations.

⁸ This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

⁹ Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of Unlawful Non-Citizens and numbers are provided as an estimate only. Numbers are rounded which can result in rounding errors.

¹⁰ Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

¹¹ Figures include IMA returns from the community.

¹² Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

Total Major Drugs	6,219.75	11,817.19	5,597.44	7,545.97	9,465.52	1,919.55

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller)

Inbound	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
s47E(d)						
Total	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Number of detections*	743	800	57	345	418	73
Value (\$m)	17.03	16.31	(0.72)	7.79	8.85	1.06

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

** s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Tobacco Detections

s47E(d)	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
s47E(d)						
Total						
Number of detections [^]	61,304	112,124	50,820	39,444	165,536	126,092
Tobacco (tonnes)	169.13	217.90	48.78	109.37	162.93	53.56
Cigarette sticks (millions)	233.83	238.43	4.60	141.21	247.95	106.75
Duty Evaded (\$m) (ex GST)	268.81	356.84	88.03	188.53	362.87	174.33
Equivalent Weight (tonnes)**	356.19	406.45	50.26	69.62	357.15	287.53

^{*} Preliminary detections are based on indicative uncleaned data which may be subject to further revision. The figures may not fully reflect detections by the ABF across illicit goods classes as the Department does not currently report on pre or post-border detections.

^{**} Equivalent weight represents the total weight of loose leaf tobacco detections together with the total weight of cigarette sticks (calculated using an average weight per stick).

[^] The number of detections may be more than stated due to current recording practices. For example, one detection could be a 'bin' or a 'pallet' etc.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance

s47E(d)

s47E(d)

Total Detections	1,712	2,011	299	798	1,013	215
Released	1,066	985	(81)	568	363	(205)
Re-Exported	0	2	2	0	2	2
Disposed	485	172	(313)	146	65	(81)
Still in Store	161	852	691	84	583	499

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics are correct as at COB 13 February 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	214	0	2	216
West Lorengau Haus ²	116	0	1	117
Hillside Haus	0	0	103	103
Location to be confirmed	0	0	0	0
Port Moresby Medical	33	0	18	51
Port Moresby (R & R) ³	4	0	3	7
Port Moresby (Nauru EOI)	9	0	0	9
Port Moresby (Third Country) ⁴	23	0	0	23
PNG Community ⁵	57	0	1	58
Total in PNG	456	0	128	584
Australia (Medical)	53	4	6	63

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	1	7	5	13
Nauru Community	325	68	21	414
Total in Nauru²	326	75	26	427
Australia (Medical)	753	80	1	834
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	4	0	0	4
Total Medical Transfers	757	80	1	838
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	1	2	3	0
USA	180	276	456	0
Germany	1	0	1	0
Switzerland	1	1	2	1
Total	183	286	469	1

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

Children in Nauru

	6-Feb	13-Feb	Weekly Movement

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Onshore Crew Removals	7	3	(4)	1	1	0

Offshore IMA Removals & Returns

Offshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Offshore Returns and Removals	68	402	334	154	176	22
Voluntary Returns	62	95	33	57	10	(47)
Involuntary Removals	4	14	10	2	0	(2)
Third Country Settlement ²	2	293	291	95	166	71

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at 5 February 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	200	176	(24)	\$663,903	\$568,178	(\$95,725)
Offshore	57	8	(49)	\$1,425,000	\$200,000	(\$1,225,000)
Nauru	4	2	(2)	\$100,000	\$50,000	(\$50,000)
Manus	53	6	(47)	\$1,325,000	\$150,000	(\$1,175,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 05 February 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 14 February 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

Final Weight (kg)	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Total Major Drugs	6,219.75	11,817.19	5,597.44	7,545.97	9,465.52	1,919.55

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

** s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 31 January 2019)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Number of detections*	743	800	57	425	467	42
Value (\$m)	17.03	16.31	(0.72)	8.91	9.56	0.65

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Tobacco Detections

	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Total						
Number of detections [^]	61,304	112,124	50,820	39,444	165,536	126,092
Tobacco (tonnes)	169.13	217.90	48.78	109.37	162.93	53.56
Cigarette sticks (millions)	233.83	238.43	4.60	141.21	247.96	106.75
Duty Evaded (\$m) (ex GST)	268.81	356.84	88.03	188.53	362.87	174.34
Equivalent Weight (tonnes)**	356.19	406.45	50.26	69.62	357.15	287.53

s47E(d)

** Equivalent weight represents the total weight of loose leaf tobacco detections together with the total weight of cigarette sticks (calculated using an average weight per stick).

[^] The number of detections may be more than stated due to current recording practices. For example, one detection could be a 'bin' or a 'pallet' etc.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date			s47E(d)
	2016-17	2017-18	Variance	2017-18	2018-19	Variance	
s47E(d)							
Total Detections	1,712	2,011	299	798	1,013	215	
Released	1,066	985	(81)	568	363	(205)	
Re-Exported	0	2	2	0	2	2	
Disposed	485	172	(313)	146	65	(81)	
Still in Store	161	852	691	84	583	499	

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics are correct as at COB 27 February 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	188	0	2	190
West Lorengau Haus ²	97	0	1	98
Hillside Haus	1	0	102	103
Location to be confirmed	0	0	0	0
Port Moresby Medical	36	0	19	55
Port Moresby (R & R) ³	3	0	3	6
Port Moresby (Nauru EOI)	9	0	0	9
Port Moresby (Third Country) ⁴	41	0	0	41
PNG Community ⁵	59	0	1	60
Total in PNG	434	0	128	562
Australia (Medical)	57	4	6	67

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	1	1	2	4
Nauru Community	287	71	24	382
Total in Nauru²	288	72	26	386
Australia (Medical)	774	81	1	856
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	4	0	0	4
Total Medical Transfers	778	81	1	860
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	1	2	3	0
USA	198	295	493	37
Germany	1	0	1	0
Switzerland	1	1	2	0
Total	201	305	506	37

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

Children in Nauru

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Offshore IMA Removals & Returns

Offshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Offshore Returns and Removals	68	402	334	154	176	22
Voluntary Returns	62	95	33	57	10	(47)
Involuntary Removals	4	14	10	2	0	(2)
Third Country Settlement ²	2	293	291	95	166	71

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at 5 February 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	200	176	(24)	\$663,903	\$568,178	(\$95,725)
Offshore	57	8	(49)	\$1,425,000	\$200,000	(\$1,225,000)
Nauru	4	2	(2)	\$100,000	\$50,000	(\$50,000)
Manus	53	6	(47)	\$1,325,000	\$150,000	(\$1,175,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on **05 February 2019**. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on **14 February 2019**.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

^a Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

^b ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

^c PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

^d On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 31 January 2019)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
s47E(d)						
Number of detections*	743	800	57	425	467	42
Value (\$m)	17.03	16.31	(0.72)	8.91	9.56	0.65

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Tobacco Detections

s47E(d)	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Total						
Number of detections [^]	61,304	112,124	50,820	39,444	165,536	126,092
Tobacco (tonnes)	169.13	217.90	48.78	109.37	162.93	53.56
Cigarette sticks (millions)	233.83	238.43	4.60	141.21	247.96	106.75
Duty Evaded (\$m) (ex GST)	268.81	356.84	88.03	188.53	362.87	174.34
Equivalent Weight (tonnes)**	356.19	406.45	50.26	69.62	357.15	287.53

s47E(d)

** Equivalent weight represents the total weight of loose leaf tobacco detections together with the total weight of cigarette sticks (calculated using an average weight per stick).

[^] The number of detections may be more than stated due to current recording practices. For example, one detection could be a 'bin' or a 'pallet' etc.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Disposed	485	172	(313)	152	89	(63)
Still in Store	161	852	691	289	672	383

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections, not seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics are correct as at COB 06 March 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	187	0	2	189
West Lorengau Haus ²	99	0	1	100
Hillside Haus	0	0	102	102
Location to be confirmed	0	0	0	0
Port Moresby Medical	39	0	19	58
Port Moresby (R & R) ³	3	0	3	6
Port Moresby (Nauru EOI)	9	0	0	9
Port Moresby (Third Country) ⁴	37	0	0	37
PNG Community ⁵	59	0	1	60
Total in PNG	433	0	128	561
Australia (Medical)	58	4	6	68

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	1	1	2	4
Nauru Community	275	70	24	369
Total in Nauru²	276	71	26	373
Australia (Medical)	792	76	1	869
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	4	0	0	4
Total Medical Transfers	796	76	1	873
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	1	2	3	0
USA	198	295	493	0
Germany	1	0	1	0
Switzerland	1	1	2	0
Total	201	305	506	0

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

Children in Nauru

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Offshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Offshore Returns and Removals	68	402	334	261	214	(47)
Voluntary Returns	62	95	33	61	10	(51)
Involuntary Removals	4	14	10	2	0	(2)
Third Country Settlement ²	2	293	291	198	204	6

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at 5 February 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	200	176	(24)	\$663,903	\$568,178	(\$95,725)
Offshore	57	8	(49)	\$1,425,000	\$200,000	(\$1,225,000)
Nauru	4	2	(2)	\$100,000	\$50,000	(\$50,000)
Manus	53	6	(47)	\$1,325,000	\$150,000	(\$1,175,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on **05 February 2019**. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on **14 February 2019**.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller)

Total	Financial Year			Year to Date

Value (\$m)	17.03	16.31	(0.72)	8.91	9.56	0.65

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
s47E(d)						
s47E(d)						
Total Detections	1,712	2,011	299	1,173	1,181	8
Released	1,066	985	(81)	732	418	(314)
Re-Exported	0	2	2	0	2	2
Disposed	485	172	(313)	152	89	(63)
Still in Store	161	852	691	289	672	383

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics are correct as at COB 13 March 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	188	0	2	190
West Lorengau Haus ²	102	0	1	103
Hillside Haus	0	0	101	101
Location to be confirmed	0	0	0	0
Port Moresby Medical	42	0	18	60
Port Moresby (R & R) ³	3	0	3	6
Port Moresby (Nauru EOI)	8	0	0	8
Port Moresby (Third Country) ⁴	30	0	0	30
PNG Community ⁵	59	0	1	60
Total in PNG	432	0	126	558
Australia (Medical)	59	4	8	71

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	276	71	26	373
Total in Nauru²	276	71	26	373
Australia (Medical)	793	76	1	870
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	4	0	0	4
Total Medical Transfers	797	76	1	874
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	1	2	3	0
USA	198	295	493	0
Germany	1	0	1	0
Switzerland	1	1	2	0
Total	201	305	506	0

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Home Affairs Weekly Statistics

IMA Removals & Returns

Monthly statistics are correct as at COB 28 February 2019 unless specified

Onshore IMA Removals & Returns¹

Onshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Onshore Returns and Removals	410	463	53	306	272	(34)
Voluntary Removals	95	135	40	87	59	(28)
Involuntary Removals	18	28	10	19	18	(1)
Voluntary Returns	290	297	7	198	194	(4)
Onshore Crew Removals	7	3	(4)	2	1	(1)

Offshore IMA Removals & Returns

Offshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Offshore Returns and Removals	68	402	334	261	214	(47)
Voluntary Returns	62	95	33	61	10	(51)
Involuntary Removals	4	14	10	2	0	(2)
Third Country Settlement ²	2	293	291	198	204	6

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at 7 March 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	217	196	(21)	\$720,003	\$634,178	(\$85,825)
Offshore	61	8	(53)	\$1,525,000	\$200,000	(\$1,325,000)
Nauru	4	2	(2)	\$100,000	\$50,000	(\$50,000)
Manus	57	6	(51)	\$1,425,000	\$150,000	(\$1,275,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on **07 March 2019**. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on **14 March 2019**.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

Total Major Drugs	7,619.75	11,817.19	4,197.44	7,930.58	10,201.80	2,271.22

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 28 February 2019)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
s47E(d)						
Number of detections*	743	800	57	512	540	28
Value (\$m)	17.03	16.31	(0.72)	10.20	10.63	0.43

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Tobacco Detections

s47E(d)	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Total						
Number of detections [^]	61,304	112,124	50,820	45,497	184,257	138,760
Tobacco (tonnes)	169.13	217.90	48.78	118.20	190.05	71.85
Cigarette sticks (millions)	233.83	238.43	4.60	158.23	268.92	110.69
Duty Evaded (\$m) (ex GST)	268.81	356.84	88.03	208.46	408.99	200.53
Equivalent Weight (tonnes)**	356.19	406.45	50.26	74.66	392.13	317.47

s47E(d)

** Equivalent weight represents the total weight of loose leaf tobacco detections together with the total weight of cigarette sticks (calculated using an average weight per stick).

[^] The number of detections may be more than stated due to current recording practices. For example, one detection could be a 'bin' or a 'pallet' etc.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date			s47E(d)
	2016-17	2017-18	Variance	2017-18	2018-19	Variance	
s47E(d)							
Total Detections	1,712	2,011	299	1,396	1,302	(94)	
Released	1,066	985	(81)	796	500	(296)	
Re-Exported	0	2	2	0	2	2	
Disposed	485	172	(313)	172	103	(69)	
Still in Store	161	852	691	428	697	269	

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics are correct as at COB 20 March 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	190	0	2	192
West Lorengau Haus ²	101	0	1	102
Hillside Haus	0	0	102	102
Location to be confirmed	0	0	0	0
Port Moresby Medical	42	0	16	58
Port Moresby (R & R) ³	3	0	3	6
Port Moresby (Nauru EOI)	8	0	0	8
Port Moresby (Third Country) ⁴	29	0	0	29
PNG Community ⁵	58	0	1	59
Total in PNG	431	0	125	556
Australia (Medical)	60	4	9	73

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	273	69	25	367
Total in Nauru²	273	69	25	367
Australia (Medical)	799	76	1	876
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	4	0	0	4
Total Medical Transfers	803	76	1	880
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	1	2	3	0
USA	198	295	493	0
Germany	1	0	1	0
Switzerland	1	1	2	0
Total	201	305	506	0

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

Children in Nauru

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Home Affairs Weekly Statistics

IMA Removals & Returns

Monthly statistics are correct as at COB 28 February 2019 unless specified

Onshore IMA Removals & Returns¹

Onshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Onshore Returns and Removals	410	463	53	306	272	(34)
Voluntary Removals	95	135	40	87	59	(28)
Involuntary Removals	18	28	10	19	18	(1)
Voluntary Returns	290	297	7	198	194	(4)
Onshore Crew Removals	7	3	(4)	2	1	(1)

Offshore IMA Removals & Returns

Offshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Offshore Returns and Removals	68	402	334	261	214	(47)
Voluntary Returns	62	95	33	61	10	(51)
Involuntary Removals	4	14	10	2	0	(2)
Third Country Settlement ²	2	293	291	198	204	6

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at 7 March 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	217	196	(21)	\$720,003	\$634,178	(\$85,825)
Offshore	61	8	(53)	\$1,525,000	\$200,000	(\$1,325,000)
Nauru	4	2	(2)	\$100,000	\$50,000	(\$50,000)
Manus	57	6	(51)	\$1,425,000	\$150,000	(\$1,275,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on **07 March 2019**. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on **14 March 2019**.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 28 February 2019)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
s47E(d)						
Number of detections*	743	800	57	512	540	28
Value (\$m)	17.03	16.31	(0.72)	10.20	10.63	0.43

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Total Detections	1,712	2,011	299	1,396	1,287	(109)
Released	1,066	985	(81)	796	500	(296)
Re-Exported	0	2	2	0	2	2
Disposed	485	172	(313)	172	88	(84)
Still in Store	161	852	691	428	697	269

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics are correct as at COB 27 March 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	190	0	2	192
West Lorengau Haus ²	102	0	1	103
Hillside Haus	0	0	102	102
Location to be confirmed	0	0	0	0
Port Moresby Medical	42	0	16	58
Port Moresby (R & R) ³	1	0	3	4
Port Moresby (Nauru EOI)	7	0	0	7
Port Moresby (Third Country) ⁴	23	0	0	23
PNG Community ⁵	58	0	1	59
Total in PNG	423	0	125	548
Australia (Medical)	60	4	9	73

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	262	69	25	356
Total in Nauru²	262	69	25	356
Australia (Medical)	808	71	1	880
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	4	0	0	4
Total Medical Transfers	812	71	1	884
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	1	2	3	0
USA	206	302	508	15
Germany	1	0	1	0
Switzerland	1	1	2	0
Total	209	312	521	15

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Home Affairs Weekly Statistics

IMA Removals & Returns

Monthly statistics are correct as at COB 28 February 2019 unless specified

Onshore IMA Removals & Returns¹

Onshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Onshore Returns and Removals	410	463	53	306	272	(34)
Voluntary Removals	95	135	40	87	59	(28)
Involuntary Removals	18	28	10	19	18	(1)
Voluntary Returns	290	297	7	198	194	(4)
Onshore Crew Removals	7	3	(4)	2	1	(1)

Offshore IMA Removals & Returns

Offshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Offshore Returns and Removals	68	402	334	261	214	(47)
Voluntary Returns	62	95	33	61	10	(51)
Involuntary Removals	4	14	10	2	0	(2)
Third Country Settlement ²	2	293	291	198	204	6

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at 7 March 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	217	196	(21)	\$720,003	\$634,178	(\$85,825)
Offshore	61	8	(53)	\$1,525,000	\$200,000	(\$1,325,000)
Nauru	4	2	(2)	\$100,000	\$50,000	(\$50,000)
Manus	57	6	(51)	\$1,425,000	\$150,000	(\$1,275,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on **07 March 2019**. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on **14 March 2019**.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

Total Major Drugs	7,619.75	11,817.19	4,197.44	8,460.21	12,346.41	3,886.19

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
s47E(d)

Value (\$m)	17.03	16.31	(0.72)	10.20	10.63	0.43

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Disposed	485	172	(313)	172	88	(84)
Still in Store	161	852	691	428	697	269

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections, not seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics are correct as at COB 03 April 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	171	0	2	173
West Lorengau Haus ²	95	0	1	96
Hillside Haus	0	0	101	101
Location to be confirmed	0	0	0	0
Port Moresby Medical	42	0	16	58
Port Moresby (R & R) ³	1	0	3	4
Port Moresby (Nauru EOI)	7	0	0	7
Port Moresby (Third Country) ⁴	47	0	0	47
PNG Community ⁵	60	0	1	61
Total in PNG	423	0	124	547
Australia (Medical)	60	4	10	74

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	261	69	25	355
Total in Nauru²	261	69	25	355
Australia (Medical)	809	71	1	881
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	4	0	0	4
Total Medical Transfers	813	71	1	885
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	1	2	3	0
USA	206	302	508	0
Germany	1	0	1	0
Switzerland	1	1	2	0
Total	209	312	521	0

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

IMA Removals & Returns

Monthly statistics are correct as at COB 28 February 2019 unless specified

Onshore IMA Removals & Returns¹

Onshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Onshore Returns and Removals	410	463	53	306	272	(34)
Voluntary Removals	95	135	40	87	59	(28)
Involuntary Removals	18	28	10	19	18	(1)
Voluntary Returns	290	297	7	198	194	(4)
Onshore Crew Removals	7	3	(4)	2	1	(1)

Offshore IMA Removals & Returns (as at 31 March 2019)

Offshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Offshore Returns and Removals	68	402	334	315	229	(86)
Voluntary Returns	62	95	33	71	10	(61)
Involuntary Removals	4	14	10	10	0	(10)
Third Country Settlement ²	2	293	291	234	219	(15)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at 7 March 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	217	196	(21)	\$720,003	\$634,178	(\$85,825)
Offshore	61	8	(53)	\$1,525,000	\$200,000	(\$1,325,000)
Nauru	4	2	(2)	\$100,000	\$50,000	(\$50,000)
Manus	57	6	(51)	\$1,425,000	\$150,000	(\$1,275,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on **07 March 2019**. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on **14 March 2019**.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

** s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
s47E(d)						
Number of detections*	743	800	57	512	540	28
Value (\$m)	17.03	16.31	(0.72)	10.20	10.63	0.43

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Total Detections	1,712	2,011	299	1,396	1,287	(109)
Released	1,066	985	(81)	796	500	(296)
Re-Exported	0	2	2	0	2	2
Disposed	485	172	(313)	172	88	(84)
Still in Store/Transferred	161	852	691	428	697	269

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics are correct as at COB 10 April 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	138	0	2	140
West Lorengau Haus ²	81	0	1	82
Hillside Haus	0	0	101	101
Location to be confirmed	0	0	0	0
Port Moresby Medical	43	0	15	58
Port Moresby (R & R) ³	0	0	3	3
Port Moresby (Nauru EOI)	1	0	0	1
Port Moresby (Third Country) ⁴	96	0	0	96
PNG Community ⁵	59	0	1	60
Total in PNG	418	0	123	541
Australia (Medical)	61	4	11	76

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	4	0	4
Nauru Community	259	69	24	352
Total in Nauru²	259	73	24	356
Australia (Medical)	811	71	2	884
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	3	0	0	3
Total Medical Transfers	814	71	2	887
Port Moresby (R & R)	1	0	0	1

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	1	2	3	0
USA	206	302	508	0
Germany	1	0	1	0
Switzerland	1	1	2	0
Total	209	312	521	0

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Offshore Returns and Removals	68	402	334	315	229	(86)
Voluntary Returns	62	95	33	71	10	(61)
Involuntary Removals	4	14	10	10	0	(10)
Third Country Settlement ²	2	293	291	234	219	(15)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at **8 April 2019**.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services (as at 28 February 2019)

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance

Manus	57	6	(51)	\$1,425,000	\$150,000	(\$1,275,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

¹ Includes IMAs who are 'in the review window' where relevant.

² Includes protection outcomes since 19 September 2013.

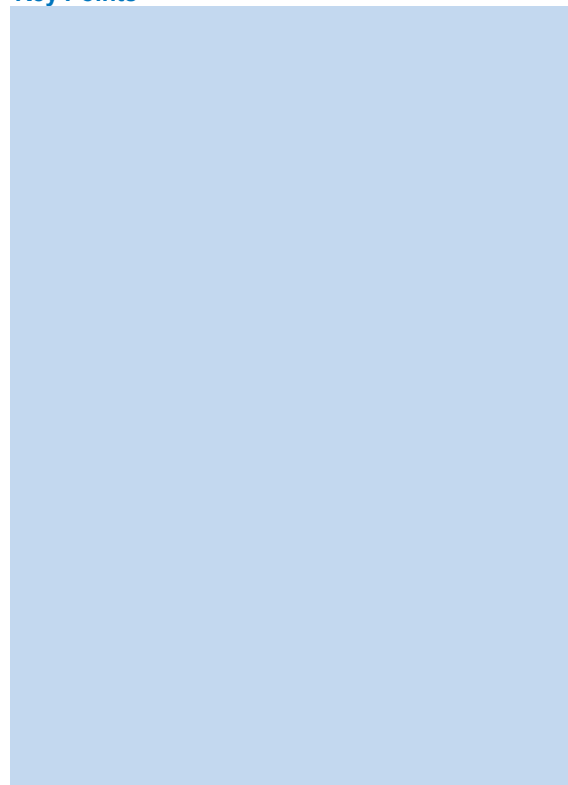

³ Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

⁴ Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

⁵ BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

⁶ Includes IMAs who are in correctional facilities.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 08 April 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 11 April 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 31 March 2019)

Duty Evaded (\$m) (ex GST)	268.81	356.84	88.03	237.79	457.78	219.99
Equivalent Weight (tonnes)**	356.19	406.45	50.26	274.22	440.51	166.30

s47E(d)

** Equivalent weight represents the total weight of loose leaf tobacco detections together with the total weight of cigarette sticks (calculated using an average weight per stick).

[^] The number of detections may be more than stated due to current recording practices. For example, one detection could be a 'bin' or a 'pallet' etc.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Disposed	485	172	(313)	243	151	(92)
Still in Store/Transferred	161	852	691	400	641	241

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics are correct as at COB 17 April 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	139	0	2	141
West Lorengau Haus ²	80	0	1	81
Hillside Haus	0	0	100	100
Location to be confirmed	0	0	0	0
Port Moresby Medical	43	0	16	59
Port Moresby (R & R) ³	0	0	3	3
Port Moresby (Nauru EOI)	1	0	0	1
Port Moresby (Third Country) ⁴	96	0	0	96
PNG Community ⁵	57	0	1	58
Total in PNG	416	0	123	539
Australia (Medical)	63	4	11	78

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	259	73	24	356
Total in Nauru²	259	73	24	356
Australia (Medical)	811	71	2	884
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	3	0	0	3
Total Medical Transfers	814	71	2	887
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	1	2	3	0
USA	206	302	508	0
Germany	1	0	1	0
Switzerland	1	1	2	0
Total	209	312	521	0

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

Total	374	905	1,279	1,792	2,144		

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Offshore Returns and Removals	68	402	334	315	229	(86)
Voluntary Returns	62	95	33	71	10	(61)
Involuntary Removals	4	14	10	10	0	(10)
Third Country Settlement ²	2	293	291	234	219	(15)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at 8 April 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	239	216	(23)	\$794,703	\$700,878	(\$93,825)
Offshore	70	8	(62)	\$1,598,100	\$200,000	(\$1,398,100)
Nauru	4	2	(2)	\$100,000	\$50,000	(\$50,000)
Manus	66	6	(60)	\$1,498,100	\$150,000	(\$1,348,100)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

¹ Includes IMAs who are 'in the review window' where relevant.

² Includes protection outcomes since 19 September 2013.

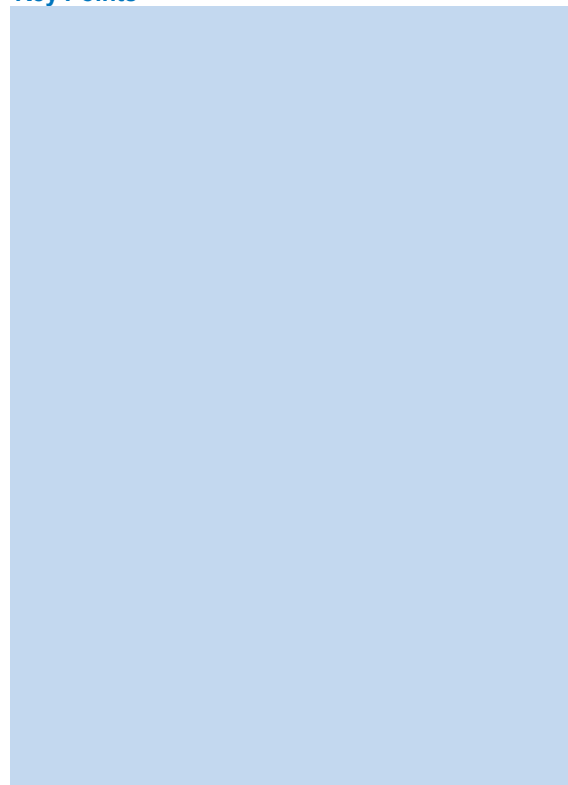

³ Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

⁴ Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

⁵ BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

⁶ Includes IMAs who are in correctional facilities.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 08 April 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 11 April 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Equivalent Weight (tonnes)**	356.19	406.45	50.26	274.22	440.51	166.30

s47E(d)

** Equivalent weight represents the total weight of loose leaf tobacco detections together with the total weight of cigarette sticks (calculated using an average weight per stick).

[^] The number of detections may be more than stated due to current recording practices. For example, one detection could be a 'bin' or a 'pallet' etc.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Still in Store/Transferred	161	852	691	400	641	241

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Manus & Nauru - Population Statistics

Weekly statistics are correct as at COB 24 April 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	140	0	2	142
West Lorengau Haus ²	79	0	1	80
Hillside Haus	0	0	100	100
Location to be confirmed	0	0	0	0
Port Moresby Medical	43	0	16	59
Port Moresby (R & R) ³	0	0	3	3
Port Moresby (Nauru EOI)	1	0	0	1
Port Moresby (Third Country) ⁴	96	0	0	96
PNG Community ⁵	57	0	1	58
Total in PNG	416	0	123	539
Australia (Medical)	63	4	11	78

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	257	73	24	354
Total in Nauru²	257	73	24	354
Australia (Medical)	820	63	2	885
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	3	0	0	3
Total Medical Transfers	823	63	2	888
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	1	2	3	0
USA	206	302	508	0
Germany	1	0	1	0
Switzerland	1	1	2	0
Total	209	312	521	0

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Voluntary Returns	62	95	33	71	10	(61)
Involuntary Removals	4	14	10	10	0	(10)
Third Country Settlement ²	2	293	291	234	219	(15)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at 8 April 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	239	216	(23)	\$794,703	\$700,878	(\$93,825)
Offshore	70	8	(62)	\$1,598,100	\$200,000	(\$1,398,100)
Nauru	4	2	(2)	\$100,000	\$50,000	(\$50,000)
Manus	66	6	(60)	\$1,498,100	\$150,000	(\$1,348,100)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

¹ Includes IMAs who are 'in the review window' where relevant.

² Includes protection outcomes since 19 September 2013.

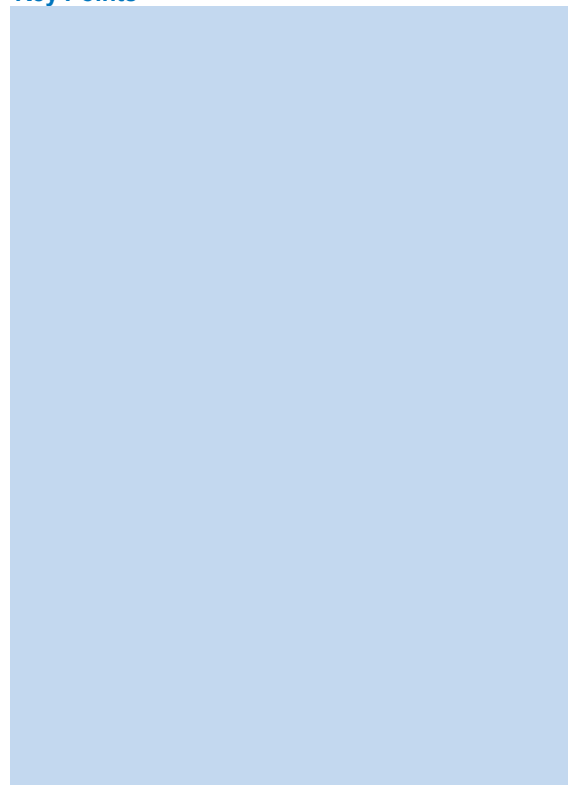

³ Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

⁴ Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

⁵ BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

⁶ Includes IMAs who are in correctional facilities.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 08 April 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 11 April 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Equivalent Weight (tonnes)**	356.19	406.45	50.26	274.22	440.51	166.30

s47E(d)

** Equivalent weight represents the total weight of loose leaf tobacco detections together with the total weight of cigarette sticks (calculated using an average weight per stick).

[^] The number of detections may be more than stated due to current recording practices. For example, one detection could be a 'bin' or a 'pallet' etc.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Disposed	485	172	(313)	243	151	(92)
Still in Store/Transferred	161	852	691	400	641	241

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics are correct as at COB 01 May 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	137	0	3	140
West Lorengau Haus ²	78	0	1	79
Hillside Haus	0	0	98	98
Location to be confirmed	0	0	0	0
Port Moresby Medical	47	0	17	64
Port Moresby (R & R) ³	0	0	3	3
Port Moresby (Nauru EOI)	1	0	0	1
Port Moresby (Third Country) ⁴	90	0	0	90
PNG Community ⁵	57	0	1	58
Total in PNG	410	0	123	533
Australia (Medical)	63	4	11	78

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	251	73	24	348
Total in Nauru²	251	73	24	348
Australia (Medical)	825	63	2	890
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	3	0	0	3
Total Medical Transfers	828	63	2	893
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	1	2	3	0
USA	212	303	515	7
Germany	1	0	1	0
Switzerland	1	1	2	0
Total	215	313	528	7

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at 8 April 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	239	216	(23)	\$794,703	\$700,878	(\$93,825)
Offshore	70	8	(62)	\$1,598,100	\$200,000	(\$1,398,100)
Nauru	4	2	(2)	\$100,000	\$50,000	(\$50,000)
Manus	66	6	(60)	\$1,498,100	\$150,000	(\$1,348,100)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

¹ Includes IMAs who are 'in the review window' where relevant.

² Includes protection outcomes since 19 September 2013.

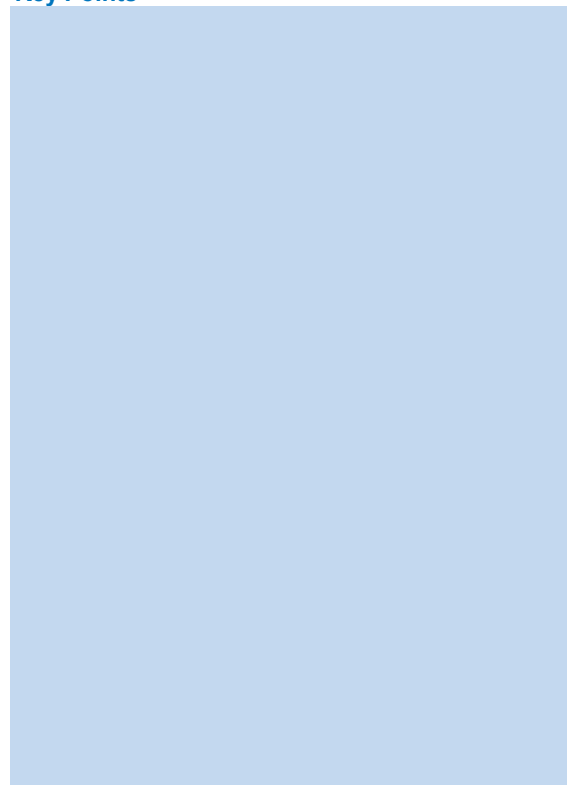

³ Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

⁴ Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

⁵ BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

⁶ Includes IMAs who are in correctional facilities.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 08 April 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 11 April 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

Total Major Drugs	7,619.75	11,817.19	4,197.44	10,038.47	13,535.53	3,497.06

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

§47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Number of detections*	743	800	57	559	613	54
Value (\$m)	17.03	16.31	(0.72)	11.18	11.54	0.36

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

§47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Total Detections	1,712	2,011	299	1,563	1,396	(167)	
Released	1,066	985	(81)	920	602	(318)	
Re-Exported	0	2	2	0	2	2	
Disposed	485	172	(313)	243	151	(92)	
Still in Store/Transferred	161	852	691	400	641	241	

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections, not seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Manus & Nauru - Population Statistics

Weekly statistics are correct as at COB 08 May 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	132	0	4	136
West Lorengau Haus ²	76	0	1	77
Hillside Haus	0	0	94	94
Location to be confirmed	0	0	0	0
Port Moresby Medical	52	0	20	72
Port Moresby (R & R) ³	0	0	3	3
Port Moresby (Nauru EOI)	1	0	0	1
Port Moresby (Third Country) ⁴	90	0	0	90
PNG Community ⁵	57	0	1	58
Total in PNG	408	0	123	531
Australia (Medical)	65	4	11	80

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	251	73	24	348
Total in Nauru²	251	73	24	348
Australia (Medical)	827	63	2	892

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

IMA Removals & Returns

Monthly statistics are correct as at COB 30 April 2019 unless specified

Onshore IMA Removals & Returns¹

Onshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Onshore Returns and Removals	410	463	53	395	335	(60)
Voluntary Removals	95	135	40	116	74	(42)
Involuntary Removals	18	28	10	26	24	(2)
Voluntary Returns	290	297	7	251	236	(15)
Onshore Crew Removals	7	3	(4)	2	1	(1)

Offshore IMA Removals & Returns

Offshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Offshore Returns and Removals	68	402	334	356	237	(119)
Voluntary Returns	62	95	33	92	11	(81)
Involuntary Removals	4	14	10	14	0	(14)
Third Country Settlement ²	2	293	291	250	226	(24)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at **7 May 2019**.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	270	233	(37)	\$892,803	\$756,678	(\$136,125)
Offshore	78	9	(69)	\$1,798,100	\$225,000	(\$1,573,100)
Nauru	9	3	(6)	\$225,000	\$75,000	(\$150,000)
Manus	69	6	(63)	\$1,573,100	\$150,000	(\$1,423,100)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Onhand Primary	7,601	37	5
Remitted Awaiting Decision	116	22	0
Finally Determined Refusal	5,199	134	14

¹ Includes IMAs who are 'in the review window' where relevant.

² Includes protection outcomes since 19 September 2013.

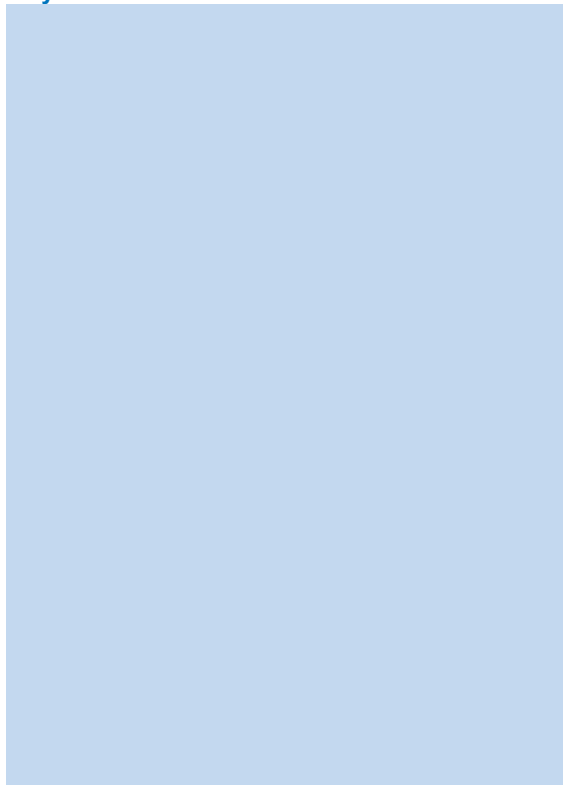

³ Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

⁴ Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

⁵ BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

⁶ Includes IMAs who are in correctional facilities.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on **07 May 2019**. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on **07 May 2019**.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance

Value (\$m)	17.03	16.31	(0.72)	11.18	11.54	0.36

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Total Detections	1,712	2,011	299	1,563	1,396	(167)
Released	1,066	985	(81)	920	602	(318)
Re-Exported	0	2	2	0	2	2
Disposed	485	172	(313)	243	151	(92)
Still in Store/Transferred	161	852	691	400	641	241

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics are correct as at COB 15 May 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	133	0	4	137
West Lorengau Haus ²	75	0	1	76
Hillside Haus	0	0	93	93
Location to be confirmed	0	0	0	0
Port Moresby Medical	48	0	20	68
Port Moresby (R & R) ³	1	0	3	4
Port Moresby (Nauru EOI)	1	0	0	1
Port Moresby (Third Country) ⁴	89	0	0	89
PNG Community ⁵	57	0	1	58
Total in PNG	404	0	122	526
Australia (Medical)	69	4	12	85

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	263	59	24	346

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

UMA Removals & Returns

Monthly statistics are correct as at COB 30 April 2019 unless specified

Onshore UMA Removals & Returns¹

Onshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Onshore Returns and Removals	410	463	53	395	335	(60)
Voluntary Removals	95	135	40	116	74	(42)
Involuntary Removals	18	28	10	26	24	(2)
Voluntary Returns	290	297	7	251	236	(15)
Onshore Crew Removals	7	3	(4)	2	1	(1)

Offshore UMA Removals & Returns

Offshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Offshore Returns and Removals	68	402	334	356	237	(119)
Voluntary Returns	62	95	33	92	11	(81)
Involuntary Removals	4	14	10	14	0	(14)
Third Country Settlement ²	2	293	291	250	226	(24)

¹ Please note that reporting in relation to UMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on UMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at 7 May 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	270	233	(37)	\$892,803	\$756,678	(\$136,125)
Offshore	78	9	(69)	\$1,798,100	\$225,000	(\$1,573,100)
Nauru	9	3	(6)	\$225,000	\$75,000	(\$150,000)
Manus	69	6	(63)	\$1,573,100	\$150,000	(\$1,423,100)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Grants	11,716	3,770	15,486
TPV Grant	2,096	3,285	5,381
SHEV Grant	9,620	485	10,105
Refusals	4,841	1,885	6,726
At Judicial Review	3,764	338	4,102
Not at Judicial Review	1,077	1,547	2,624
Excluded Fast Track³	50	0	50

Notes:

All eligible UMAs have had pre-application processing completed, including s46A bar lifts and invitations to apply letters sent. Statistics relating to UMA Legacy Caseload differ from the statistics relating to UMAs generally. The IMS Legacy Caseload excludes cohorts such as those finally determined to be granted or refused a visa.

Additional Information (cumulative)

	Fast Track	Non-Fast Track	Total
Born to UMA	1,535	132	1,667
Removal>Returns	485	1,219	1,704
Voluntary Removals	61	330	391
Involuntary Removals	15	93	108

Deceased	25	36	61

Detention Status⁴

	BVE in Community ⁵	Held Detention ⁶	Residence Determination
Onhand Primary	7,527	35	5
Remitted Awaiting Decision	115	22	0
Finally Determined Refusal	5,213	132	14

1 Includes UMAs who are 'in the review window' where relevant.

2 Includes protection outcomes since 19 September 2013.

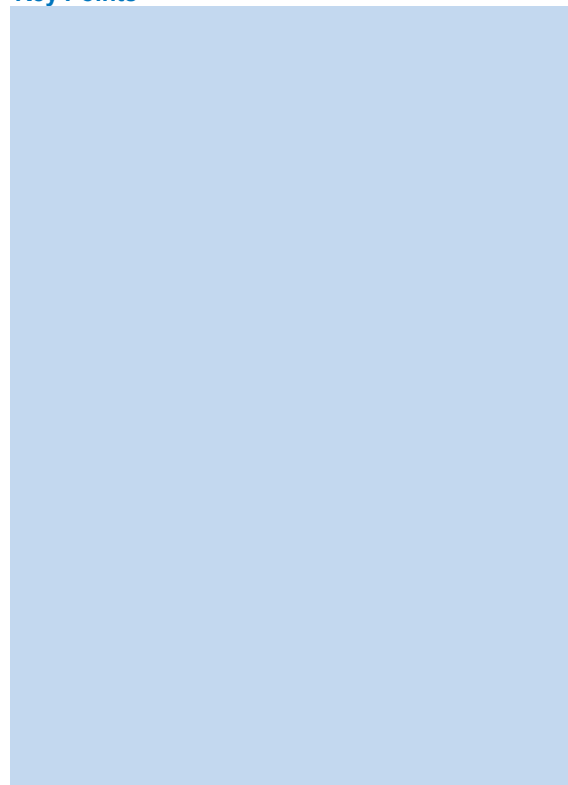

3 Excluded Fast Track represents UMAs at various stages of processing who have been excluded from merits review.

4 Excludes a small number of UMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of UMAs that do not form part of the UMA Legacy Caseload.

5 BVE in community includes UMAs who previously held a BVE and are now undergoing a re-grant process.

6 Includes UMAs who are in correctional facilities.

Removals from Detention ¹²	6,948	7,083	135	5,972	4,585	(1,387)

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on **07 May 2019**. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on **07 May 2019**.

8 This figure excludes UMAs, UMA crew, UMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No UMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include UMA returns from the community.

12 Figures include UMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

§47E(d)						
Total Major Drugs	7,619.75	11,817.19	4,197.44	10,038.47	13,535.53	3,497.06

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

§47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 30 April 2019)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
§47E(d)						
Number of detections*	743	800	57	657	659	2
Value (\$m)	17.03	16.31	(0.72)	12.77	12.28	(0.49)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

§47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Tobacco Detections

s47E(d)	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Total						
Number of detections [^]	61,304	112,124	50,820	58,946	243,284	184,338
Tobacco (tonnes)	169.13	217.90	48.77	144.66	246.49	101.83
Cigarette sticks (millions)	233.83	238.43	4.60	201.50	365.48	163.98
Duty Evaded (\$m) (ex GST)	268.81	356.84	88.03	263.38	549.33	285.95
Equivalent Weight (tonnes)**	356.19	406.45	50.26	302.13	525.03	222.89

s47E(d)

** Equivalent weight represents the total weight of loose leaf tobacco detections together with the total weight of cigarette sticks (calculated using an average weight per stick).

[^] The number of detections may be more than stated due to current recording practices. For example, one detection could be a 'bin' or a 'pallet' etc.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Total Detections	1,712	2,011	299	1,687	1,434	(253)
Released	1,066	985	(81)	943	610	(333)
Re-Exported	0	2	2	2	2	0
Disposed	485	172	(313)	259	257	(2)
Still in Store/Transferred	161	852	691	483	565	82

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	137	0	5	142
West Lorengau Haus ²	69	0	1	70
Hillside Haus	0	0	90	90
Location to be confirmed	0	0	0	0
Port Moresby Medical	52	0	22	74
Port Moresby (R & R) ³	1	0	3	4
Port Moresby (Nauru EOI)	1	0	0	1
Port Moresby (Third Country) ⁴	86	0	0	86
PNG Community ⁵	58	0	1	59
Total in PNG	404	0	122	526
Australia (Medical)	69	4	12	85

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	259	58	24	341
Total in Nauru²	259	58	24	341
Australia (Medical)	841	56	2	899
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	2	0	0	2
Total Medical Transfers	843	56	2	901
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Involuntary Removals	4	14	10	14	0	(14)
Third Country Settlement ²	2	293	291	250	226	(24)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at 7 May 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	270	233	(37)	\$892,803	\$756,678	(\$136,125)
Offshore	78	9	(69)	\$1,798,100	\$225,000	(\$1,573,100)
Nauru	9	3	(6)	\$225,000	\$75,000	(\$150,000)
Manus	69	6	(63)	\$1,573,100	\$150,000	(\$1,423,100)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Excluded Fast Track³	50	0	50

Notes:

All eligible IMAs have had pre-application processing completed, including s46A bar lifts and invitations to apply letters sent. Statistics relating to IMA Legacy Caseload differ from the statistics relating to IMAs generally. The IMS Legacy Caseload excludes cohorts such as those finally determined to be granted or refused a visa.

Remitted Awaiting Decision	116	22	0
Finally Determined Refusal	5,212	131	14

¹ Includes IMAs who are 'in the review window' where relevant.

² Includes protection outcomes since 19 September 2013.

³ Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

⁴ Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

⁵ BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

⁶ Includes IMAs who are in correctional facilities.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on **07 May 2019**. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on **07 May 2019**.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

Total Major Drugs	7,619.75	11,817.19	4,197.44	10,038.47	13,535.53	3,497.06

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

^a Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

^b ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

^c PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

^d On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 30 April 2019)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Number of detections*	743	800	57	657	659	2
Value (\$m)	17.03	16.31	(0.72)	12.77	12.28	(0.49)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Tobacco Detections

s47E(d)	Financial Year			Year to Date			s47E(d)
	2016-17	2017-18	Variance	2017-18	2018-19	Variance	
Total							
Number of detections [^]	61,304	112,124	50,820	58,946	243,284	184,338	
Tobacco (tonnes)	169.13	217.90	48.77	144.66	246.49	101.83	
Cigarette sticks (millions)	233.83	238.43	4.60	201.50	365.48	163.98	
Duty Evaded (\$m) (ex GST)	268.81	356.84	88.03	263.38	549.33	285.95	
Equivalent Weight (tonnes)**	356.19	406.45	50.26	302.13	525.03	222.89	

\$
4

** Equivalent weight represents the total weight of loose leaf tobacco detections together with the total weight of cigarette sticks (calculated using an average weight per stick).

[^] The number of detections may be more than stated due to current recording practices. For example, one detection could be a 'bin' or a 'pallet' etc.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Total Detections	1,712	2,011	299	1,687	1,434	(253)
Released	1,066	985	(81)	943	610	(333)
Re-Exported	0	2	2	2	2	
Disposed	485	172	(313)	259	257	(2)
Still in Store/Transferred	161	852	691	483	565	82

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Manus & Nauru - Population Statistics

Weekly statistics as at COB 29 May 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	134	0	4	138
West Lorengau Haus ²	69	0	1	70
Hillside Haus	0	0	91	91
Location to be confirmed	0	0	0	0
Port Moresby Medical	54	0	22	76
Port Moresby (R & R) ³	1	0	3	4
Port Moresby (Nauru EOI)	1	0	0	1
Port Moresby (Third Country) ⁴	86	0	0	86
PNG Community ⁵	58	0	1	59
Total in PNG	403	0	122	525
Australia (Medical)	70	4	12	86

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	244	58	24	326
Total in Nauru²	244	58	24	326

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Home Affairs Weekly Statistics

IMA Removals & Returns

Monthly statistics as at COB 30 April 2019 unless specified

Onshore IMA Removals & Returns¹

Onshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Onshore Returns and Removals	410	463	53	395	335	(60)
Voluntary Removals	95	135	40	116	74	(42)
Involuntary Removals	18	28	10	26	24	(2)
Voluntary Returns	290	297	7	251	236	(15)
Onshore Crew Removals	7	3	(4)	2	1	(1)

Offshore IMA Removals & Returns

Offshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Offshore Returns and Removals	68	402	334	356	237	(119)
Voluntary Returns	62	95	33	92	11	(81)
Involuntary Removals	4	14	10	14	0	(14)
Third Country Settlement ²	2	293	291	250	226	(24)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at 7 May 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	270	233	(37)	\$892,803	\$756,678	(\$136,125)
Offshore	78	9	(69)	\$1,798,100	\$225,000	(\$1,573,100)
Nauru	9	3	(6)	\$225,000	\$75,000	(\$150,000)
Manus	69	6	(63)	\$1,573,100	\$150,000	(\$1,423,100)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Not at Judicial Review	1,103	1,553	2,656
Excluded Fast Track³	50	0	50

Notes:

All eligible IMAs have had pre-application processing completed, including s46A bar lifts and invitations to apply letters sent. Statistics relating to IMA Legacy Caseload differ from the statistics relating to IMAs generally. The IMS Legacy Caseload excludes cohorts such as those finally determined to be granted or refused a visa.

Additional Information (cumulative)

	Fast Track	Non-Fast Track	Total
Born to IMA	1,537	132	1,669
Removal>Returns	492	1,221	1,713
Voluntary Removals	62	330	392
Involuntary Removals	15	93	108
Voluntary Returns	415	798	1,213
Deceased	26	36	62

Detention Status⁴

	BVE in Community ⁵	Held Detention ⁶	Residence Determination
Onhand Primary	7,442	32	5
Remitted Awaiting Decision	117	22	0
Finally Determined Refusal	5,209	134	12

1 Includes IMAs who are 'in the review window' where relevant.

2 Includes protection outcomes since 19 September 2013.

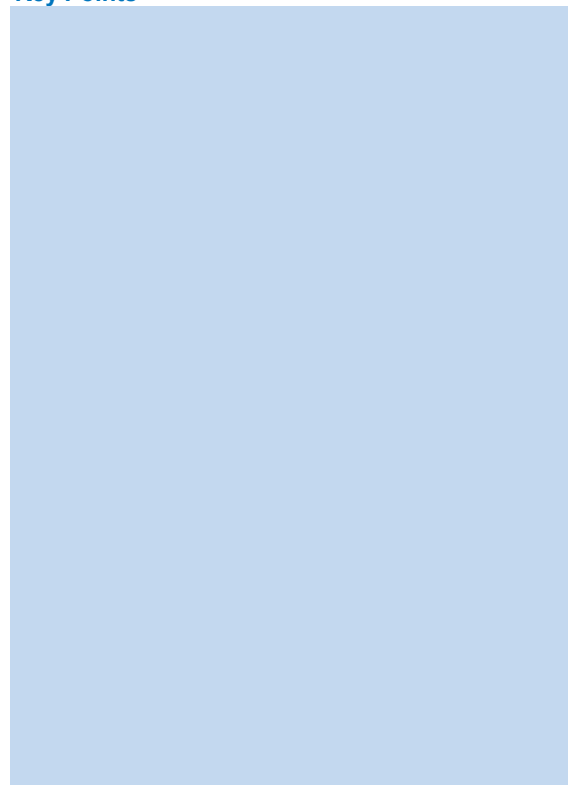

3 Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

4 Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

5 BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

6 Includes IMAs who are in correctional facilities.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 07 May 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 07 May 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 30 April 2019)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance

Value (\$m)	17.03	16.31	(0.72)	12.77	12.28	(0.49)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Tobacco Detections

s47E(d)	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Total						
Number of detections [^]	61,304	112,124	50,820	58,946	243,284	184,338
Tobacco (tonnes)	169.13	217.90	48.77	144.66	246.49	101.83
Cigarette sticks (millions)	233.83	238.43	4.60	201.50	365.48	163.98
Duty Evaded (\$m) (ex GST)	268.81	356.84	88.03	263.38	549.33	285.95
Equivalent Weight (tonnes)**	356.19	406.45	50.26	302.13	525.03	222.89

s47E(d)

** Equivalent weight represents the total weight of loose leaf tobacco detections together with the total weight of cigarette sticks (calculated using an average weight per stick).

[^] The number of detections may be more than stated due to current recording practices. For example, one detection could be a 'bin' or a 'pallet' etc.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Disposed	485	172	(313)	259	257	(2)
Still in Store/Transferred	161	852	691	483	565	82

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 05 June 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	132	0	7	139
West Lorengau Haus ²	68	0	1	69
Hillside Haus	0	0	87	87
Location to be confirmed	0	0	0	0
Port Moresby Medical	54	0	24	78
Port Moresby (R & R) ³	1	0	3	4
Port Moresby (Nauru EOI)	1	0	0	1
Port Moresby (Third Country) ⁴	86	0	0	86
PNG Community ⁵	59	0	0	59
Total in PNG	401	0	122	523
Australia (Medical)	72	4	12	88

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	243	58	24	325
Total in Nauru²	243	58	24	325
Australia (Medical)	847	52	2	901

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Home Affairs Weekly Statistics

IMA Removals & Returns

Monthly statistics as at COB 30 April 2019 unless specified

Onshore IMA Removals & Returns¹

Onshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Onshore Returns and Removals	410	463	53	395	335	(60)
Voluntary Removals	95	135	40	116	74	(42)
Involuntary Removals	18	28	10	26	24	(2)
Voluntary Returns	290	297	7	251	236	(15)
Onshore Crew Removals	7	3	(4)	2	1	(1)

Offshore IMA Removals & Returns (as at 31 May 2019)

Offshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Offshore Returns and Removals	68	402	334	376	251	(125)
Voluntary Returns	62	95	33	94	11	(83)
Involuntary Removals	4	14	10	14	0	(14)
Third Country Settlement ²	2	293	291	268	240	(28)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at 7 May 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	270	233	(37)	\$892,803	\$756,678	(\$136,125)
Offshore	78	9	(69)	\$1,798,100	\$225,000	(\$1,573,100)
Nauru	9	3	(6)	\$225,000	\$75,000	(\$150,000)
Manus	69	6	(63)	\$1,573,100	\$150,000	(\$1,423,100)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Deceased	27	36	63

Detention Status⁴

	BVE in Community ⁵	Held Detention ⁶	Residence Determination
Onhand Primary	7,394	31	5
Remitted Awaiting Decision	122	22	0
Finally Determined Refusal	5,205	133	12

¹ Includes IMAs who are 'in the review window' where relevant.

² Includes protection outcomes since 19 September 2013.

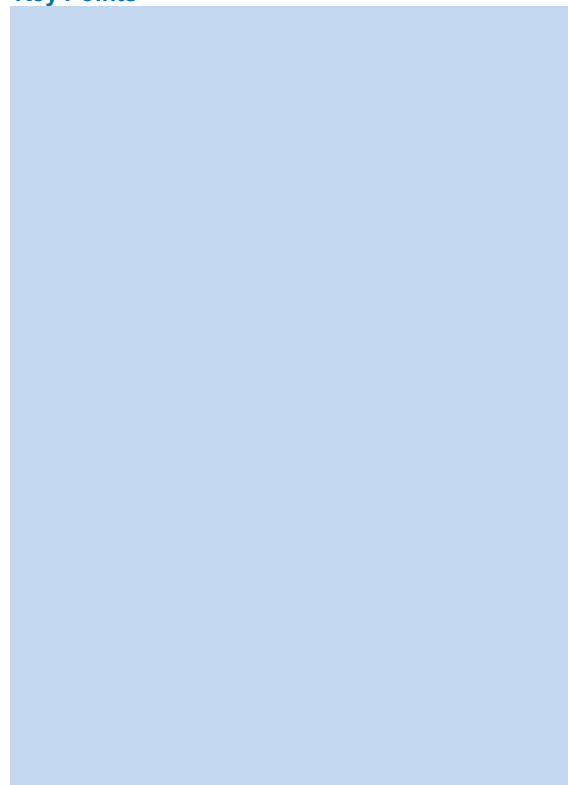

³ Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

⁴ Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

⁵ BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

⁶ Includes IMAs who are in correctional facilities.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on **07 May 2019**. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on **07 May 2019**.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance

Value (\$m)	17.03	16.31	(0.72)	12.77	12.28	(0.49)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Disposed	485	172	(313)	259	257	(2)
Still in Store/Transferred	161	852	691	483	565	82

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 12 June 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	131	0	6	137
West Lorengau Haus ²	67	0	1	68
Hillside Haus	0	0	83	83
Location to be confirmed	0	0	0	0
Port Moresby Medical	51	0	24	75
Port Moresby (R & R) ³	1	0	3	4
Port Moresby (Nauru EOI)	1	0	0	1
Port Moresby (Third Country) ⁴	86	0	4	90
PNG Community ⁵	60	0	0	60
Total in PNG	397	0	121	518
Australia (Medical)	76	4	13	93

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICASA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	240	58	24	322
Total in Nauru²	240	58	24	322
Australia (Medical)	849	52	2	903

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Released by Department of Home Affairs under the Freedom of Information Act 1982

Onshore Crew Removals	7	3	(4)	3	1	(2)

Offshore IMA Removals & Returns

Offshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Offshore Returns and Removals	68	402	334	376	251	(125)
Voluntary Returns	62	95	33	94	11	(83)
Involuntary Removals	4	14	10	14	0	(14)
Third Country Settlement ²	2	293	291	268	240	(28)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at 7 May 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	287	252	(35)	\$950,303	\$820,778	(\$129,525)
Offshore	80	9	(71)	\$1,848,100	\$225,000	(\$1,623,100)
Nauru	9	3	(6)	\$225,000	\$75,000	(\$150,000)
Manus	71	6	(65)	\$1,623,100	\$150,000	(\$1,473,100)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

¹ Includes IMAs who are 'in the review window' where relevant.

² Includes protection outcomes since 19 September 2013.

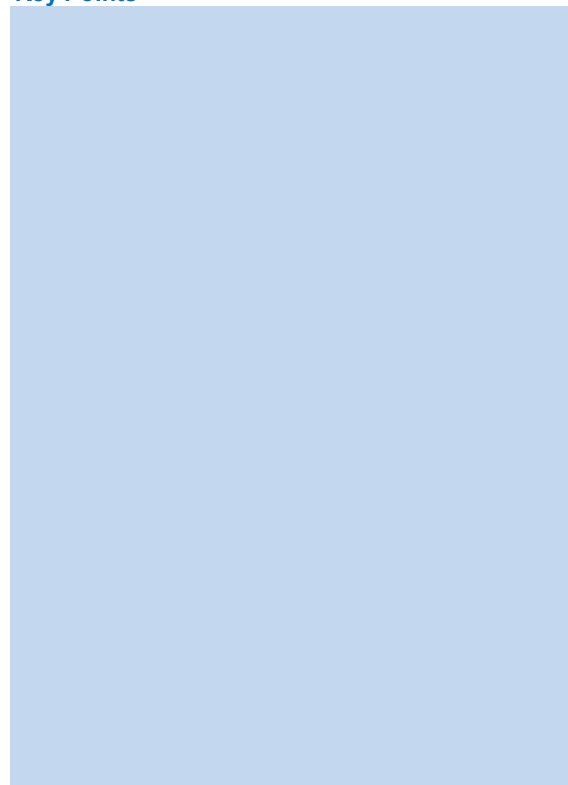

³ Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

⁴ Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

⁵ BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

⁶ Includes IMAs who are in correctional facilities.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 07 Jun 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 03 Jun 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance

Value (\$m)	17.03	16.31	(0.72)	12.77	12.28	(0.49)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Total Detections	1,712	2,011	299	1,687	1,434	(253)
Released	1,066	985	(81)	943	610	(333)
Re-Exported	0	2	2	2	2	0
Disposed	485	172	(313)	259	257	(2)
Still in Store/Transferred	161	852	691	483	565	82

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Manus & Nauru - Population Statistics

Weekly statistics as at COB 19 June 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	122	0	7	129
West Lorengau Haus ²	60	0	1	61
Hillside Haus	0	0	82	82
Location to be confirmed	0	0	0	0
Port Moresby Medical	47	0	22	69
Port Moresby (R & R) ³	1	0	3	4
Port Moresby (Nauru EOI)	1	0	0	1
Port Moresby (Third Country) ⁴	102	0	4	106
PNG Community ⁵	60	0	0	60
Total in PNG	393	0	119	512
Australia (Medical)	80	4	15	99

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	240	56	24	320
Total in Nauru²	240	56	24	320

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Offshore IMA Removals & Returns

Offshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Offshore Returns and Removals	68	402	334	376	251	(125)
Voluntary Returns	62	95	33	94	11	(83)
Involuntary Removals	4	14	10	14	0	(14)
Third Country Settlement ²	2	293	291	268	240	(28)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at **07 Jun 2019**.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	287	252	(35)	\$950,303	\$820,778	(\$129,525)
Offshore	80	9	(71)	\$1,848,100	\$225,000	(\$1,623,100)
Nauru	9	3	(6)	\$225,000	\$75,000	(\$150,000)
Manus	71	6	(65)	\$1,623,100	\$150,000	(\$1,473,100)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Remitted Awaiting Decision	114	20	0
Finally Determined Refusal	5,227	133	12

¹ Includes IMAs who are 'in the review window' where relevant.

² Includes protection outcomes since 19 September 2013.

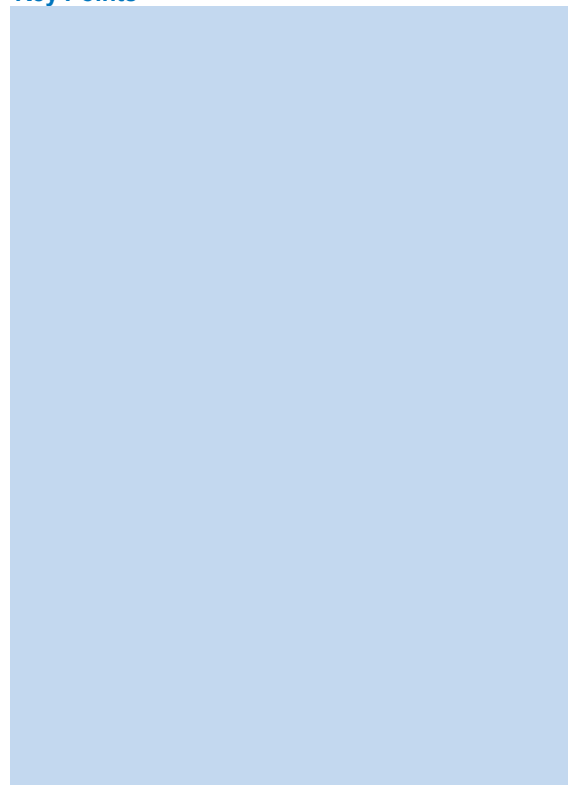

³ Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

⁴ Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

⁵ BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

⁶ Includes IMAs who are in correctional facilities.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 07 Jun 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 03 Jun 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 31 May 2019)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance

Value (\$m)	17.03	16.31	(0.72)	13.99	13.27	(0.73)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Total Detections	1,712	2,011	299	1,727	1,650	(77)
Released	1,066	985	(81)	955	683	(272)
Re-Exported	0	2	2	2	2	0
Disposed	485	172	(313)	263	280	17
Still in Store/Transferred	161	852	691	507	685	178

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 26 June 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	121	0	6	127
West Lorengau Haus ²	57	0	1	58
Hillside Haus	0	0	83	83
Location to be confirmed	0	0	0	0
Port Moresby Medical	48	0	26	74
Port Moresby (R & R) ³	1	0	3	4
Port Moresby (Nauru EOI)	1	0	0	1
Port Moresby (Third Country) ⁴	89	0	0	89
PNG Community ⁵	57	0	0	57
Total in PNG	374	0	119	493
Australia (Medical)	84	4	15	103

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	246	51	22	319
Total in Nauru²	246	51	22	319
Australia (Medical)	858	46	2	906
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	2	0	0	2
Total Medical Transfers	860	46	2	908
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Released by Department of Home Affairs under the Freedom of Information Act 1982

Offshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Offshore Returns and Removals	68	402	334	376	251	(125)
Voluntary Returns	62	95	33	94	11	(83)
Involuntary Removals	4	14	10	14	0	(14)
Third Country Settlement ²	2	293	291	268	240	(28)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at **07 Jun 2019**.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	287	252	(35)	\$950,303	\$820,778	(\$129,525)
Offshore	80	9	(71)	\$1,848,100	\$225,000	(\$1,623,100)
Nauru	9	3	(6)	\$225,000	\$75,000	(\$150,000)
Manus	71	6	(65)	\$1,623,100	\$150,000	(\$1,473,100)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Onhand Primary	7,277	30	5
Remitted Awaiting Decision	117	21	0
Finally Determined Refusal	5,242	129	12

¹ Includes IMAs who are 'in the review window' where relevant.

² Includes protection outcomes since 19 September 2013.

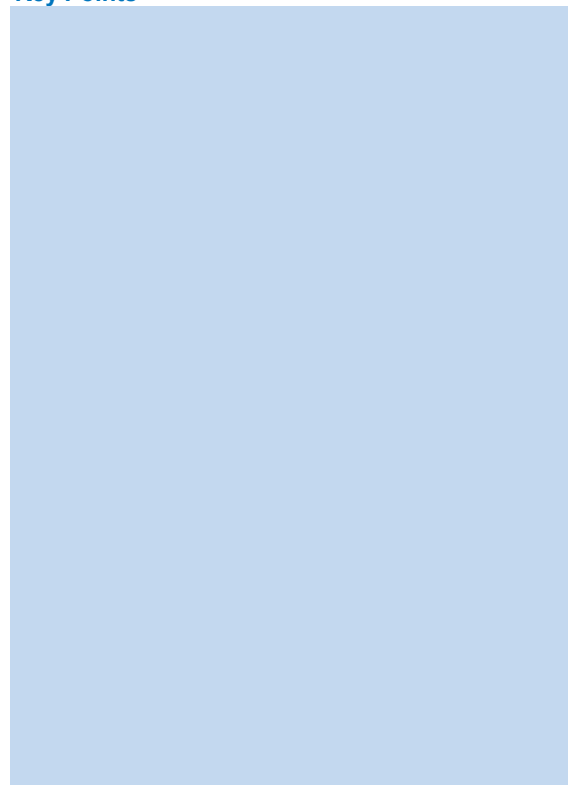

³ Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

⁴ Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

⁵ BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

⁶ Includes IMAs who are in correctional facilities.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 07 Jun 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 03 Jun 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 31 May 2019)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Number of detections*	743	800	57	725	724	(1)
Value (\$m)	17.03	16.31	(0.72)	13.99	13.27	(0.73)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
s47E(d)						
Total Detections	1,712	2,011	299	1,727	1,650	(77)
Released	1,066	985	(81)	955	683	(272)
Re-Exported	0	2	2	2	2	0
Disposed	485	172	(313)	263	280	17
Still in Store/Transferred	161	852	691	507	685	178

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Manus & Nauru - Population Statistics

Weekly statistics as at COB 03 July 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	120	0	6	126
West Lorengau Haus ²	58	0	1	59
Hillside Haus	0	0	83	83
Location to be confirmed	0	0	0	0
Port Moresby Medical	45	0	25	70
Port Moresby (R & R) ³	1	0	3	4
Port Moresby (Nauru EOI)	0	0	0	0
Port Moresby (Third Country) ⁴	72	0	0	72
PNG Community ⁵	55	0	1	56
Total in PNG	351	0	119	470
Australia (Medical)	84	4	15	103

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	245	50	22	317
Total in Nauru²	245	50	22	317
Australia (Medical)	858	46	2	906

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.
² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.
³ All figures within this report are based on DIBP operational data.
⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.
⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Released by Department of Home Affairs under the Freedom of Information Act 1982

IMA Removals & Returns

Monthly statistics as at COB 31 May 2019 unless specified

Onshore IMA Removals & Returns¹

Onshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Onshore Returns and Removals	410	463	53	431	375	(56)
Voluntary Removals	95	135	40	129	99	(30)
Involuntary Removals	18	28	10	28	24	(4)
Voluntary Returns	290	297	7	271	251	(20)
Onshore Crew Removals	7	3	(4)	3	1	(2)

Offshore IMA Removals & Returns (as at 30 June 2019)

Offshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Offshore Returns and Removals	68	402	334	402	268	(134)
Voluntary Returns	62	95	33	95	11	(84)
Involuntary Removals	4	14	10	14	0	(14)
Third Country Settlement ²	2	293	291	293	257	(36)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at **07 Jun 2019**.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	287	252	(35)	\$950,303	\$820,778	(\$129,525)
Offshore	80	9	(71)	\$1,848,100	\$225,000	(\$1,623,100)
Nauru	9	3	(6)	\$225,000	\$75,000	(\$150,000)
Manus	71	6	(65)	\$1,623,100	\$150,000	(\$1,473,100)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

² Includes protection outcomes since 19 September 2013.

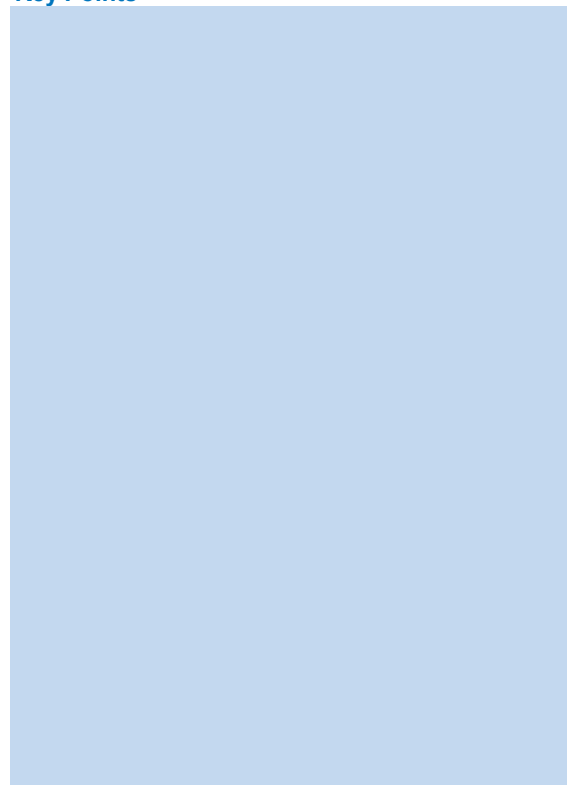

³ Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

⁴ Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

⁵ BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

⁶ Includes IMAs who are in correctional facilities.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 07 Jun 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 03 Jun 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

§47E(d)						
Total Major Drugs	7,619.75	11,817.19	4,197.44	11,143.39	17,603.88	6,460.49

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

** Preliminary detections are based on indicative uncleaned data which may be subject to further revision. The figures may not fully reflect detections by the ABF across illicit goods classes as the Department does not currently report on pre or post-border detections.

§ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

§ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

§ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

§ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
§47E(d)

Value (\$m)	17.03	16.31	(0.72)	13.99	13.27	(0.73)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

§47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Disposed	485	172	(313)	263	280	17
Still in Store/Transferred	161	852	691	507	685	178

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Manus & Nauru - Population Statistics

Weekly statistics as at COB 10 July 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	103	0	2	105
West Lorengau Haus ²	48	0	1	49
Hillside Haus	0	0	21	21
Location to be confirmed	0	0	0	0
Port Moresby Medical	65	0	37	102
Port Moresby (R & R) ³	1	0	3	4
Port Moresby (Nauru EOI)	0	0	0	0
Port Moresby (Third Country) ⁴	69	0	0	69
Port Moresby (Temporary Relocation)	0	0	52	52
PNG Community ⁵	54	0	1	55
Total in PNG	340	0	117	457
Australia (Medical)	95	4	17	116

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	239	49	22	310
Total in Nauru²	239	49	22	310

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Released by Department of Home Affairs under the Freedom of Information Act 1982

Offshore IMA Removals & Returns (as at 30 June 2019)

Offshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Offshore Returns and Removals	68	402	334	402	268	(134)
Voluntary Returns	62	95	33	95	11	(84)
Involuntary Removals	4	14	10	14	0	(14)
Third Country Settlement ²	2	293	291	293	257	(36)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at **07 Jun 2019**.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	287	252	(35)	\$950,303	\$820,778	(\$129,525)
Offshore	80	9	(71)	\$1,848,100	\$225,000	(\$1,623,100)
Nauru	9	3	(6)	\$225,000	\$75,000	(\$150,000)
Manus	71	6	(65)	\$1,623,100	\$150,000	(\$1,473,100)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Finally Determined Refusal	5,311	128	12

¹ Includes IMAs who are 'in the review window' where relevant.

² Includes protection outcomes since 19 September 2013.

³ Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

⁴ Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

⁵ BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

⁶ Includes IMAs who are in correctional facilities.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 07 Jun 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 03 Jun 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 30 June 2019)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance

Value (\$m)	17.03	16.31	(0.72)	16.31	14.06	(2.25)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Tobacco Detections

s47E(d)	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Total						
Number of detections [^]	61,304	112,287	50,983	112,287	286,659	174,372
Tobacco (tonnes)	169.13	233.56	64.43	233.56	310.61	77.05
Cigarette sticks (millions)	233.83	253.55	19.72	253.55	426.27	172.72
Duty Evaded (\$m) (ex GST)	268.81	381.86	113.05	381.86	668.96	287.10
Equivalent Weight (tonnes)**	356.19	431.37	75.18	431.37	631.80	200.43

s47E(d)

** Equivalent weight represents the total weight of loose leaf tobacco detections together with the total weight of cigarette sticks (calculated using an average weight per stick).

[^] The number of detections may be more than stated due to current recording practices. For example, one detection could be a 'bin' or a 'pallet' etc.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Total Detections	1,712	2,011	299	1,727	1,650	(77)
Released	1,066	985	(81)	955	683	(272)
Re-Exported	0	2	2	2	2	0
Disposed	485	172	(313)	263	280	17
Still in Store/Transferred	161	852	691	507	685	178

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 17 July 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	97	0	8	105
West Lorengau Haus ²	39	0	2	41
Hillside Haus	0	0	0	0
Location to be confirmed	0	0	0	0
Port Moresby Medical	70	0	39	109
Port Moresby (R & R) ³	1	0	3	4
Port Moresby (Nauru EOI)	0	0	0	0
Port Moresby (Third Country) ⁴	70	0	0	70
Port Moresby (Temporary Relocation)	0	0	64	64
PNG Community ⁵	53	0	1	54
Total in PNG	330	0	117	447
Australia (Medical)	95	4	17	116

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	238	49	22	309
Total in Nauru²	238	49	22	309
Australia (Medical)	860	46	2	908

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Released by Department of Home Affairs under the Freedom of Information Act 1982

Offshore Returns and Removals	68	402	334	402	268	(134)
Voluntary Returns	62	95	33	95	11	(84)
Involuntary Removals	4	14	10	14	0	(14)
Third Country Settlement ²	2	293	291	293	257	(36)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at **09 Jul 2019**.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services (as at 31 May 2019)

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	287	252	(35)	\$950,303	\$820,778	(\$129,525)
Offshore	80	9	(71)	\$1,848,100	\$225,000	(\$1,623,100)
Nauru	9	3	(6)	\$225,000	\$75,000	(\$150,000)
Manus	71	6	(65)	\$1,623,100	\$150,000	(\$1,473,100)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

¹ Includes IMAs who are 'in the review window' where relevant.

² Includes protection outcomes since 19 September 2013.

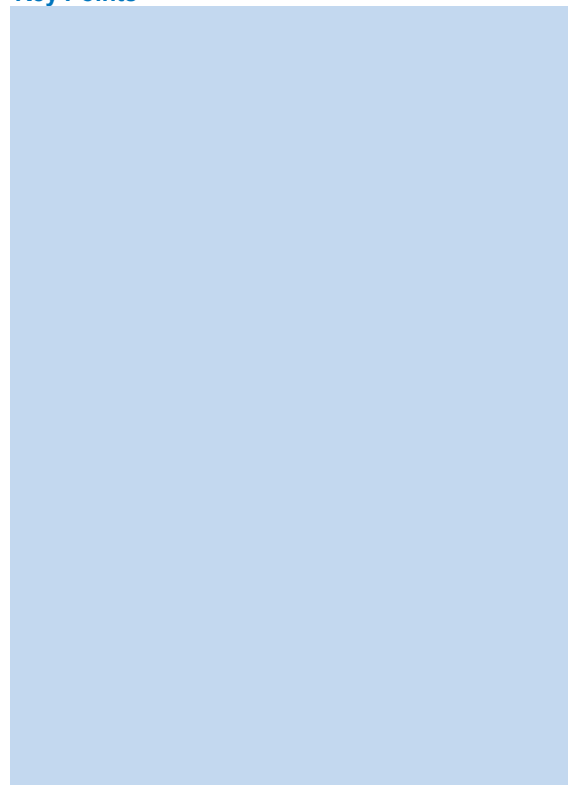

³ Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

⁴ Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

⁵ BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

⁶ Includes IMAs who are in correctional facilities.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 09 Jul 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 09 Jul 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 30 June 2019)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance

Value (\$m)	17.03	16.31	(0.72)	16.31	14.06	(2.25)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Disposed	485	277	(208)	277	309	32
Still in Store/Transferred	161	521	360	521	1,249	728

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 24 July 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	92	0	8	100
West Lorengau Haus ²	38	0	2	40
Hillside Haus	0	0	0	0
Location to be confirmed	0	0	0	0
Port Moresby Medical	70	0	34	104
Port Moresby (R & R) ³	1	0	3	4
Port Moresby (Nauru EOI)	0	0	0	0
Port Moresby (Third Country) ⁴	70	0	0	70
Port Moresby (Temporary Relocation)	0	0	61	61
PNG Community ⁵	52	0	1	53
Total in PNG	323	0	109	432
Australia (Medical)	104	2	25	131

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	237	49	22	308
Total in Nauru²	237	49	22	308
Australia (Medical)	863	46	2	911

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Released by Department of Home Affairs under the Freedom of Information Act 1982

Offshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Offshore Returns and Removals	68	402	334	402	268	(134)
Voluntary Returns	62	95	33	95	11	(84)
Involuntary Removals	4	14	10	14	0	(14)
Third Country Settlement ²	2	293	291	293	257	(36)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at 09 Jul 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	314	270	(44)	\$1,040,411	\$880,878	(\$159,533)
Offshore	81	9	(72)	\$1,873,100	\$225,000	(\$1,648,100)
Nauru	9	3	(6)	\$225,000	\$75,000	(\$150,000)
Manus	72	6	(66)	\$1,648,100	\$150,000	(\$1,498,100)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

2 Includes protection outcomes since 19 September 2013.

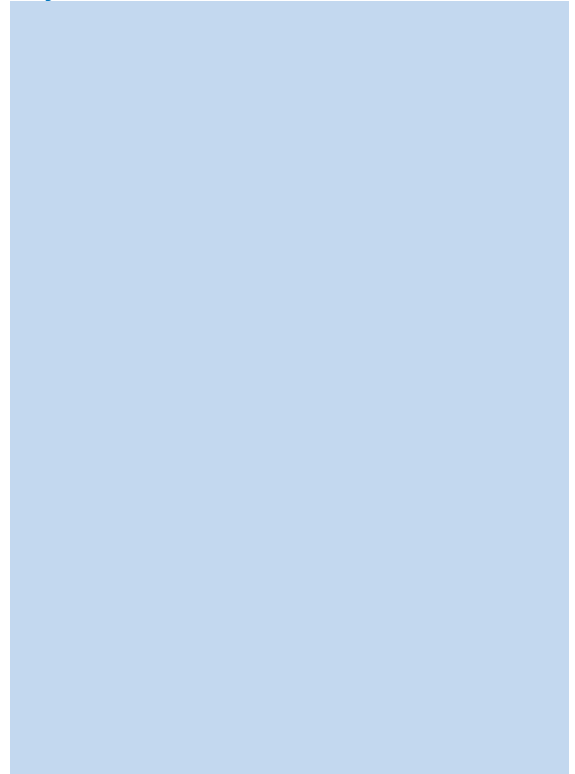

3 Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

4 Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

5 BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

6 Includes IMAs who are in correctional facilities.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 09 Jul 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 09 Jul 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

⁹ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

¹⁰ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

¹¹ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

¹² On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 30 June 2019)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance

Value (\$m)	17.03	16.31	(0.72)	16.31	14.06	(2.25)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Disposed	485	277	(208)	277	309	32
Still in Store/Transferred	161	521	360	521	1,249	728

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 31 July 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	91	0	8	99
West Lorengau Haus ²	38	0	2	40
Hillside Haus	0	0	0	0
Location to be confirmed	0	0	0	0
Port Moresby Medical	62	0	30	92
Port Moresby (R & R) ³	1	0	3	4
Port Moresby (Nauru EOI)	0	0	0	0
Port Moresby (Third Country) ⁴	64	0	0	64
Port Moresby (Temporary Relocation)	0	0	59	59
PNG Community ⁵	50	0	1	51
Total in PNG	306	0	103	409
Australia (Medical)	111	2	31	144

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	233	49	22	304
Total in Nauru²	233	49	22	304

Total	421	921	1,342	1,835	2,194		

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Involuntary Removals	18	28	10	28	24	(4)
Voluntary Returns	290	298	8	298	267	(31)
Onshore Crew Removals	9	3	(6)	3	1	(2)

Offshore IMA Removals & Returns

Offshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Offshore Returns and Removals	68	402	334	402	268	(134)
Voluntary Returns	62	95	33	95	11	(84)
Involuntary Removals	4	14	10	14	0	(14)
Third Country Settlement ²	2	293	291	293	257	(36)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from DIBP systems as at 09 Jul 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	314	270	(44)	\$1,040,411	\$880,878	(\$159,533)
Offshore	81	9	(72)	\$1,873,100	\$225,000	(\$1,648,100)
Nauru	9	3	(6)	\$225,000	\$75,000	(\$150,000)
Manus	72	6	(66)	\$1,648,100	\$150,000	(\$1,498,100)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

2 Includes protection outcomes since 19 September 2013.

3 Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

4 Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

5 BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

6 Includes IMAs who are in correctional facilities.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 09 Jul 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 09 Jul 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

§47E(d)						
Total Major Drugs	7,619.75	11,817.19	4,197.44	11,143.39	17,603.88	6,460.49

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

§47E(d)

⁹ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

¹⁰ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

¹¹ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

¹² On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 30 June 2019)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
§47E(d)

Value (\$m)	17.03	16.31	(0.72)	16.31	14.06	(2.25)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

§47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Tobacco Detections

	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
s47E(d)						
Total						
Number of detections [^]	61,304	112,287	50,983	112,287	286,659	174,372
Tobacco (tonnes)	169.13	233.56	64.43	233.56	310.61	77.05
Cigarette sticks (millions)	233.83	253.55	19.72	253.55	426.27	172.72
Duty Evaded (\$m) (ex GST)	268.81	381.86	113.05	381.86	668.96	287.10
Equivalent Weight (tonnes)**	356.19	431.37	75.18	431.37	631.80	200.43

s47E(d)

** Equivalent weight represents the total weight of loose leaf tobacco detections together with the total weight of cigarette sticks (calculated using an average weight per stick).

[^] The number of detections may be more than stated due to current recording practices. For example, one detection could be a 'bin' or a 'pallet' etc.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
s47E(d)						
Total Detections	1,712	2,007	295	2,007	2,266	259
Released	1,066	1,207	141	1,207	706	(501)
Re-Exported	0	2	2	2	2	0
Disposed	485	277	(208)	277	309	32
Still in Store/Transferred	161	521	360	521	1,249	728

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 07 August 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	92	0	8	100
West Lorengau Haus ²	37	0	2	39
Hillside Haus	0	0	0	0
Location to be confirmed	0	0	0	0
Port Moresby Medical	54	0	28	82
Port Moresby (R & R) ³	1	0	3	4
Port Moresby (Nauru EOI)	0	0	0	0
Port Moresby (Third Country) ⁴	63	0	0	63
Port Moresby (Temporary Relocation)	0	0	58	58
PNG Community ⁵	50	0	1	51
Total in PNG	297	0	100	397
Australia (Medical)	120	1	35	156

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	230	49	22	301
Total in Nauru²	230	49	22	301
Australia (Medical)	861	46	2	909
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	1	1	0	2
Total Medical Transfers	862	47	2	911
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	1	2	3	0
USA	270	334	604	0

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Home Affairs Weekly Statistics

IMA Removals & Returns

Monthly statistics as at COB 30 June 2019 unless specified

Onshore IMA Removals & Returns¹

Onshore	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
Onshore Returns and Removals	423	465	42	465	388	(77)
Voluntary Removals	106	136	30	136	96	(40)
Involuntary Removals	18	28	10	28	24	(4)
Voluntary Returns	290	298	8	298	267	(31)
Onshore Crew Removals	9	3	(6)	3	1	(2)

Offshore IMA Removals & Returns (as at 31 July 2019)

Offshore	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Offshore Returns and Removals	402	269	(133)	85	57	(28)
Voluntary Returns	95	11	(84)	5	1	(4)
Involuntary Removals	14	0	(14)	0	0	0
Third Country Settlement ²	293	258	(35)	80	56	(24)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from Departmental systems as at 09 Jul 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2017-18	2018-19	Variance	2017-18	2018-19	Variance
Onshore	314	270	(44)	\$1,040,411	\$880,878	(\$159,533)
Offshore	81	9	(72)	\$1,873,100	\$225,000	(\$1,648,100)
Nauru	9	3	(6)	\$225,000	\$75,000	(\$150,000)
Manus	72	6	(66)	\$1,648,100	\$150,000	(\$1,498,100)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

1 Includes IMAs who are 'in the review window' where relevant.

2 Includes protection outcomes since 19 September 2013.

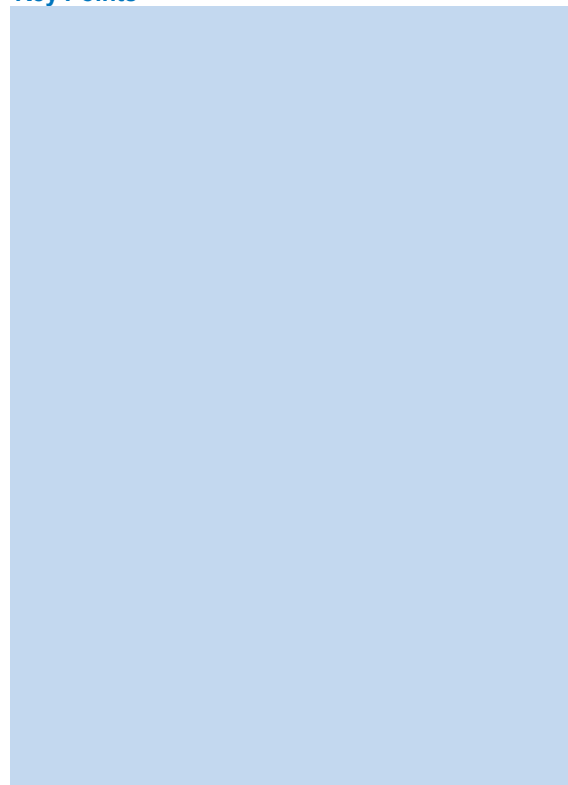

3 Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

4 Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

5 BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

6 Includes IMAs who are in correctional facilities.

	Target	Current %
Persecuted Minorities	90%	91.8%
Regional Resettlement*	40%	7.2%

* Currently includes applicants proposed by a relative residing in regional Australia; and CSP applicants that intend to settle in a regional location. Data is at time of visa grant.

Notes:

- This information is provided by the Department of Home Affairs and was extracted from departmental systems on the dates outlined above. As data has been drawn from a dynamic system environment, the information is correct at the time of publication and figures may differ slightly from previous or future reporting.
- Visas counted include subclass 200 (Refugee), 201 (In-Country Special Humanitarian Program), 202 (Global Special Humanitarian Program), 203 (Emergency Rescue) and 204 (Woman at Risk).
- Onshore visas counted include subclass 866 (Permanent Protection).

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 09 Jul 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 09 Jul 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

Total Major Drugs	7,619.75	11,982.17	4,362.41	11,982.17	19,312.79	7,330.62

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller)

Total	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance

Value (\$m)	17.03	16.31	(0.72)	16.31	14.06	(2.25)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Tobacco Detections

	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
§47E(d)						
Total						
Number of detections [^]	61,304	112,287	50,983	112,287	286,659	174,372
Tobacco (tonnes)	169.13	233.56	64.43	233.56	310.61	77.05
Cigarette sticks (millions)	233.83	253.55	19.72	253.55	426.27	172.72
Duty Evaded (\$m) (ex GST)	268.81	381.86	113.05	381.86	668.96	287.10
Equivalent Weight (tonnes)**	356.19	431.37	75.18	431.37	631.80	200.43

§47E(d)

** Equivalent weight represents the total weight of loose leaf tobacco detections together with the total weight of cigarette sticks (calculated using an average weight per stick).

[^] The number of detections may be more than stated due to current recording practices. For example, one detection could be a 'bin' or a 'pallet' etc.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Disposed	485	277	(208)	277	309	32
Still in Store/Transferred	161	521	360	521	1,249	728

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections, not seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 14 August 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	79	0	9	88
West Lorengau Haus ²	31	0	1	32
Hillside Haus	0	0	0	0
Location to be confirmed	0	0	0	0
Port Moresby Medical	62	0	26	88
Port Moresby (R & R) ³	1	0	3	4
Port Moresby (Nauru EOI)	0	0	0	0
Port Moresby (Third Country) ⁴	69	0	0	69
Port Moresby (Temporary Relocation)	0	0	3	3
PNG Community ⁵	50	0	2	52
Total in PNG	292	0	44	336
Australia (Medical)	125	1	39	165

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Note: Does not include 52 Failed Asylum Seekers currently detained by the Immigration and Citizenship Authority (ICA). The policy position between Home Affairs and ICA is that once a failed asylum seeker in PNG is detained by ICA then they are no longer considered part of the Regional Resettlement Arrangement (RRA)

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	229	49	22	300
Total in Nauru²	229	49	22	300
Australia (Medical)	862	46	2	910
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	1	1	0	2
Total Medical Transfers	863	47	2	912
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	1	2	3	0
USA	270	334	604	0
Germany	1	0	1	0
Switzerland	1	1	2	0
Total	273	344	617	0

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Home Affairs Weekly Statistics

IMA Removals & Returns

Monthly statistics as at COB 31 July 2019 unless specified

Onshore IMA Removals & Returns¹

Onshore	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Onshore Returns and Removals	465	388	(77)	55	27	(28)
Voluntary Removals	136	96	(40)	15	4	(11)
Involuntary Removals	28	24	(4)	5	2	(3)
Voluntary Returns	298	267	(31)	34	21	(13)
Onshore Crew Removals	3	1	(2)	1	0	(1)

Offshore IMA Removals & Returns

Offshore	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Offshore Returns and Removals	402	269	(133)	85	57	(28)
Voluntary Returns	95	11	(84)	5	1	(4)
Involuntary Removals	14	0	(14)	0	0	0
Third Country Settlement ²	293	258	(35)	80	56	(24)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from Departmental systems as at 08 Aug 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2018-19	2019-20	Variance	2018-19	2019-20	Variance
Onshore	35	19	(16)	\$106,500	\$64,100	(\$42,400)
Offshore	6	0	(6)	\$150,000	\$0	(\$150,000)
Nauru	0	0	0	\$0	\$0	\$0
Manus	6	0	(6)	\$150,000	\$0	(\$150,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

LGBTQI Pilot	100	0	100	0.0%
Unaccompanied Humanitarian Minor (UHM) (with no links to Australia) Pilot	10	0	10	0.0%

Women as a proportion of:	Target	Current %
Regionally allocated places	50%	48.4%
CSP	50%	56.6%
Vulnerable Woman and Children (VWC)*	100%	100.0%
Total offshore component	60%	52.0%

* includes all applicants granted visa towards the VWC allocation

	Target	Current %
Persecuted Minorities	90%	91.8%
Regional Resettlement*	40%	7.2%

* Currently includes applicants proposed by a relative residing in regional Australia; and CSP applicants that intend to settle in a regional location. Data is at time of visa grant.

Notes:

- This information is provided by the Department of Home Affairs and was extracted from departmental systems on the dates outlined above. As data has been drawn from a dynamic system environment, the information is correct at the time of publication and figures may differ slightly from previous or future reporting.
- Visas counted include subclass 200 (Refugee), 201 (In-Country Special Humanitarian Program), 202 (Global Special Humanitarian Program), 203 (Emergency Rescue) and 204 (Woman at Risk).
- Onshore visas counted include subclass 866 (Permanent Protection).

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on **08 Aug 2019**. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on **08 Aug 2019**.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

Total Major Drugs	7,619.75	13,982.17	6,362.41	13,982.17	19,321.36	5,339.19

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 31 July 2019)

Total	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Number of detections*	800	767	(33)	103	97	(6)
Value (\$m)	16.31	14.06	(2.25)	2.51	1.02	(1.50)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Illicit Goods

Monthly statistics as at COB 31 July 2019 unless specified

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Total Detections	2,007	2,271	264	144	360	216
Released	1,207	727	(480)	23	14	(9)
Re-Exported	2	2	0	1	0	(1)
Disposed	471	449	(22)	43	0	(43)
Still in Store/Transferred	327	1,093	766	77	346	269

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections, not seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 21 August 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	71	0	7	78
West Lorengau Haus ²	28	0	1	29
Hillside Haus	0	0	0	0
Location to be confirmed	0	0	0	0
Port Moresby Medical	66	0	29	95
Port Moresby (R & R) ³	1	0	1	2
Port Moresby (Nauru EOI)	0	0	0	0
Port Moresby (Third Country) ⁴	62	0	0	62
Port Moresby (Temporary Relocation)	0	0	2	2
PNG Community ⁵	49	0	0	49
Total in PNG	277	0	40	317
Australia (Medical)	130	1	41	172

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Note: Does not include 53 Failed Asylum Seekers currently detained by the Immigration and Citizenship Authority (ICA). The policy position between Home Affairs and ICA is that once a failed asylum seeker in PNG is detained by ICA then they are no longer considered part of the Regional Resettlement Arrangement (RRA)

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	220	49	22	291
Total in Nauru²	220	49	22	291

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Released by Department of Home Affairs under the Freedom of Information Act 1982

Offshore IMA Removals & Returns

Offshore	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Offshore Returns and Removals	402	269	(133)	85	57	(28)
Voluntary Returns	95	11	(84)	5	1	(4)
Involuntary Removals	14	0	(14)	0	0	0
Third Country Settlement ²	293	258	(35)	80	56	(24)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from Departmental systems as at 08 Aug 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2018-19	2019-20	Variance	2018-19	2019-20	Variance
Onshore	35	19	(16)	\$106,500	\$64,100	(\$42,400)
Offshore	6	0	(6)	\$150,000	\$0	(\$150,000)
Nauru	0	0	0	\$0	\$0	\$0
Manus	6	0	(6)	\$150,000	\$0	(\$150,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on **08 Aug 2019**. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on **08 Aug 2019**.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

Final Weight (kg)	Financial Year			Year to Date		
	2016-17	2017-18	Variance	2017-18	2018-19	Variance
s47E(d)						
Total Major Drugs	7,619.75	13,982.17	6,362.41	13,982.17	19,321.36	5,339.19

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 31 July 2019)

Total	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Number of detections*	800	767	(33)	103	97	(6)
Value (\$m)	16.31	14.06	(2.25)	2.51	1.02	(1.50)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

under the Freedom of Information Act 1982

Tobacco Detections

	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Total						
Number of detections [^]	112,584	286,663	174,079	16,027	19,670	3,643
Tobacco (tonnes)	235.05	311.99	76.94	9.82	24.07	14.25
Cigarette sticks (millions)	253.55	426.27	172.72	12.83	16.97	4.14
Duty Evaded (\$m) (ex GST)	383.16	670.46	287.30	18.12	40.12	22.01
Equivalent Weight (tonnes)**	432.86	633.18	200.32	19.76	36.80	17.04

s47E(d)

** Equivalent weight represents the total weight of loose leaf tobacco detections together with the total weight of cigarette sticks (calculated using an average weight per stick).

[^] The number of detections may be more than stated due to current recording practices. For example, one detection could be a 'bin' or a 'pallet' etc.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Total Detections	2,007	2,271	264	144	360	216
Released	1,207	727	(480)	23	14	(9)
Re-Exported	2	2	0	1	0	(1)
Disposed	471	449	(22)	43	0	(43)
Still in Store/Transferred	327	1,093	766	77	346	269

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 28 August 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	41	0	6	47
West Lorengau Haus ²	17	0	1	18
Hillside Haus	0	0	0	0
Location to be confirmed	0	0	0	0
Port Moresby Medical	61	0	24	85
Port Moresby (R & R) ³	1	0	1	2
Port Moresby (Nauru EOI)	0	0	0	0
Port Moresby (Third Country) ⁴	62	0	1	63
Port Moresby (Relocation)	41	0	2	43
PNG Community ⁵	48	0	0	48
Total in PNG	271	0	35	306
Australia (Medical)	136	1	46	183

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Note: Does not include 53 Failed Asylum Seekers currently detained by the Immigration and Citizenship Authority (ICA). The policy position between Home Affairs and ICA is that once a failed asylum seeker in PNG is detained by ICA then they are no longer considered part of the Regional Resettlement Arrangement (RRA)

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	216	48	22	286
Total in Nauru²	216	48	22	286
Australia (Medical)	876	40	2	918
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	1	1	0	2
Total Medical Transfers	877	41	2	920
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Offshore Returns and Removals	402	269	(133)	85	57	(28)
Voluntary Returns	95	11	(84)	5	1	(4)
Involuntary Removals	14	0	(14)	0	0	0
Third Country Settlement ²	293	258	(35)	80	56	(24)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from Departmental systems as at 08 Aug 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2018-19	2019-20	Variance	2018-19	2019-20	Variance
Onshore	35	19	(16)	\$106,500	\$64,100	(\$42,400)
Offshore	6	0	(6)	\$150,000	\$0	(\$150,000)
Nauru	0	0	0	\$0	\$0	\$0
Manus	6	0	(6)	\$150,000	\$0	(\$150,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 08 Aug 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 08 Aug 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

Total Major Drugs	14,082.17	19,439.74	5,357.57	236.85	947.54	710.69

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller)

Total	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Number of detections*	800	767	(33)	103	97	(6)
Value (\$m)	16.31	14.06	(2.25)	2.51	1.02	(1.50)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Illicit Goods

Monthly statistics as at COB 31 July 2019 unless specified

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Total Detections	2,007	2,271	264	144	360	216
Released	1,207	727	(480)	23	14	(9)
Re-Exported	2	2	0	1	0	(1)
Disposed	471	449	(22)	43	0	(43)
Still in Store/Transferred	327	1,093	766	77	346	269

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 04 September 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	38	0	6	44
West Lorengau Haus ²	7	0	1	8
Hillside Haus	0	0	0	0
Location to be confirmed	0	0	0	0
Port Moresby Medical	64	0	20	84
Port Moresby (R & R) ³	1	0	3	4
Port Moresby (Nauru EOI)	0	0	0	0
Port Moresby (Third Country) ⁴	100	0	2	102
Port Moresby (Relocation)	11	0	1	12
PNG Community ⁵	48	0	1	49
Total in PNG	269	0	34	303
Australia (Medical)	138	1	47	186

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Note: Does not include 53 Failed Asylum Seekers currently detained by the Immigration and Citizenship Authority (ICA). The policy position between Home Affairs and ICA is that once a failed asylum seeker in PNG is detained by ICA then they are no longer considered part of the Regional Resettlement Arrangement (RRA)

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	213	48	22	283
Total in Nauru²	213	48	22	283
Australia (Medical)	880	39	2	921
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	1	1	0	2
Total Medical Transfers	881	40	2	923
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	2	2	4	0
USA	280	339	619	0
Germany	1	0	1	0
Switzerland	1	1	2	0
Malaysia	1	0	1	0
Norway	1	0	1	0
Total	286	349	635	0

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Home Affairs Weekly Statistics

IMA Removals & Returns

Monthly statistics as at COB 31 July 2019 unless specified

Onshore IMA Removals & Returns¹

Onshore	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Onshore Returns and Removals	465	388	(77)	55	27	(28)
Voluntary Removals	136	96	(40)	15	4	(11)
Involuntary Removals	28	24	(4)	5	2	(3)
Voluntary Returns	298	267	(31)	34	21	(13)
Onshore Crew Removals	3	1	(2)	1	0	(1)

Offshore IMA Removals & Returns (as at 31 August 2019)

Offshore	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Offshore Returns and Removals	402	269	(133)	98	75	(23)
Voluntary Returns	95	11	(84)	5	3	(2)
Involuntary Removals	14	0	(14)	0	0	0
Third Country Settlement ²	293	258	(35)	93	72	(21)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from Departmental systems as at 08 Aug 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2018-19	2019-20	Variance	2018-19	2019-20	Variance
Onshore	35	19	(16)	\$106,500	\$64,100	(\$42,400)
Offshore	6	0	(6)	\$150,000	\$0	(\$150,000)
Nauru	0	0	0	\$0	\$0	\$0
Manus	6	0	(6)	\$150,000	\$0	(\$150,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Onhand Primary	6,510	29	4
Remitted Awaiting Decision	97	17	0
Finally Determined Refusal	5,345	132	10

¹ Includes IMAs who are 'in the review window' where relevant.

² Includes protection outcomes since 19 September 2013.

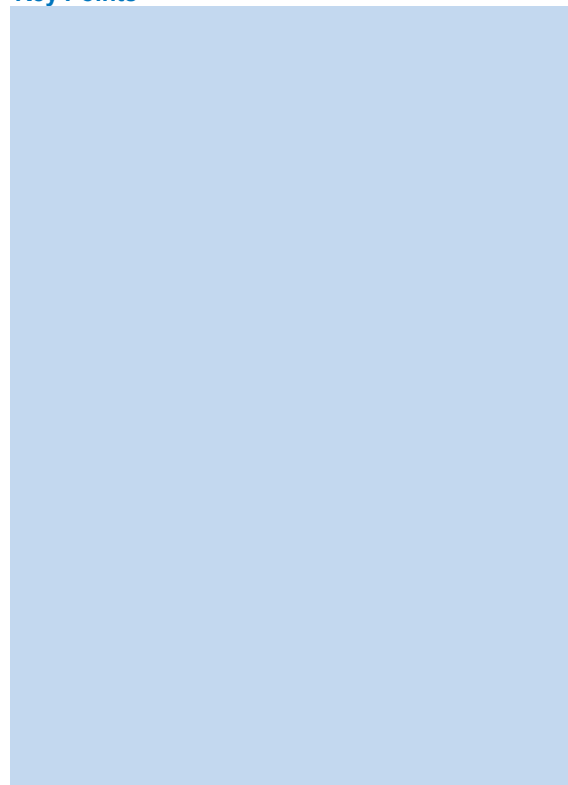

³ Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

⁴ Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

⁵ BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

⁶ Includes IMAs who are in correctional facilities.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on **08 Aug 2019**. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on **08 Aug 2019**.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

Home Affairs Weekly Statistics

Illicit Goods

Monthly statistics as at COB 31 July 2019 unless specified

Drugs

Detections	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Total Major Drugs	27,718	21,133	(6,585)	2,192	1,073	(1,119)
s47E(d)						
Total Drugs	43,278	35,763	(7,515)	3,535	2,157	(1,378)

Final Weight (kg)	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Total Major Drugs	14,082.17	19,439.74	5,357.57	236.85	947.54	710.69

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller)

Total	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Number of detections*	800	767	(33)	103	97	(6)
Value (\$m)	16.31	14.06	(2.25)	2.51	1.02	(1.50)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Tobacco Detections

	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Total						
Number of detections [^]	112,584	286,663	174,079	16,027	19,670	3,643
Tobacco (tonnes)	235.05	311.99	76.94	9.82	24.07	14.25
Cigarette sticks (millions)	253.55	426.27	172.72	12.83	16.97	4.14
Duty Evaded (\$m) (ex GST)	383.16	670.46	287.30	18.12	40.12	22.01
Equivalent Weight (tonnes)**	432.86	633.18	200.32	19.76	36.80	17.04

s47E(d)

** Equivalent weight represents the total weight of loose leaf tobacco detections together with the total weight of cigarette sticks (calculated using an average weight per stick).

[^] The number of detections may be more than stated due to current recording practices. For example, one detection could be a 'bin' or a 'pallet' etc.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Total Detections	2,007	2,271	264	144	360	216
Released	1,207	727	(480)	23	14	(9)
Re-Exported	2	2	0	1	0	(1)
Disposed	471	449	(22)	43	0	(43)
Still in Store/Transferred	327	1,093	766	77	346	269

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 11 September 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	5	0	1	6
West Lorengau Haus ²	0	0	0	0
Hillside Haus	0	0	0	0
Location to be confirmed	0	0	0	0
Port Moresby Medical	65	0	22	87
Port Moresby (R & R) ³	1	0	3	4
Port Moresby (Nauru EOI)	0	0	0	0
Port Moresby (Third Country) ⁴	101	0	2	103
Port Moresby (Relocation)	44	0	3	47
PNG Community ⁵	48	0	1	49
Total in PNG	264	0	32	296
Australia (Medical)	142	1	49	192

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Note: Does not include 53 Failed Asylum Seekers currently detained by the Immigration and Citizenship Authority (ICA). The policy position between Home Affairs and ICA is that once a failed asylum seeker in PNG is detained by ICA then they are no longer considered part of the Regional Resettlement Arrangement (RRA)

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	213	48	22	283
Total in Nauru²	213	48	22	283
Australia (Medical)	880	39	2	921
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	1	1	0	2
Total Medical Transfers	881	40	2	923
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	2	2	4	0
USA	280	339	619	0
Germany	1	0	1	0
Switzerland	1	1	2	0
Malaysia	1	0	1	0
Norway	1	0	1	0
Total	286	349	635	0

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

Total	435	895	1,330	1,806	2,162

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Onshore Crew Removals	3	1	(2)	1	0	(1)

Offshore IMA Removals & Returns

Offshore	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Offshore Returns and Removals	402	269	(133)	98	75	(23)
Voluntary Returns	95	11	(84)	5	3	(2)
Involuntary Removals	14	0	(14)	0	0	0
Third Country Settlement ²	293	258	(35)	93	72	(21)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from Departmental systems as at 10 Sep 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2018-19	2019-20	Variance	2018-19	2019-20	Variance
Onshore	62	42	(20)	\$196,300	\$142,100	(\$54,200)
Offshore	6	2	(4)	\$150,000	\$50,000	(\$100,000)
Nauru	0	2	2	\$0	\$50,000	\$50,000
Manus	6	0	(6)	\$150,000	\$0	(\$150,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Removals from Detention ¹²	7,103	5,496	(1,607)	1,030	773	(257)

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 10 Sep 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 13 Sep 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 31 August 2019)

Total	Financial Year			Year to Date

Monthly statistics as at COB 31 August 2019 unless specified

Tobacco Detections

s47E(d)	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Total						
Number of detections [^]	112,584	286,663	174,079	37,778	40,857	3,079
Tobacco (tonnes)	235.05	311.99	76.94	43.39	87.17	43.79
Cigarette sticks (millions)	253.55	426.27	172.72	59.59	47.93	(11.66)
Duty Evaded (\$m) (ex GST)	383.16	670.46	287.30	82.11	134.24	52.13
Equivalent Weight (tonnes)**	432.86	633.18	200.32	89.57	123.12	33.55

s47E(d)

** Equivalent weight represents the total weight of loose leaf tobacco detections together with the total weight of cigarette sticks (calculated using an average weight per stick).

[^] The number of detections may be more than stated due to current recording practices. For example, one detection could be a 'bin' or a 'pallet' etc.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Total Detections	2,007	2,271	264	353	651	298
Released	1,207	727	(480)	135	53	(82)
Re-Exported	2	2	0	1	0	(1)
Disposed	471	449	(22)	80	3	(77)
Still in Store/Transferred	327	1,093	766	137	595	458

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections, not seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 18 September 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	4	0	1	5
West Lorengau Haus ²	0	0	0	0
Hillside Haus	0	0	0	0
Location to be confirmed	0	0	0	0
Port Moresby Medical	63	0	21	84
Port Moresby (R & R) ³	1	0	3	4
Port Moresby (Nauru EOI)	0	0	0	0
Port Moresby (Third Country) ⁴	101	0	2	103
Port Moresby (Relocation)	45	0	4	49
PNG Community ⁵	49	0	1	50
Total in PNG	263	0	32	295
Australia (Medical)	144	0	49	193

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSEA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Note: Does not include 53 Failed Asylum Seekers currently detained by the Immigration and Citizenship Authority (ICA). The policy position between Home Affairs and ICA is that once a failed asylum seeker in PNG is detained by ICA then they are no longer considered part of the Regional Resettlement Arrangement (RRA)

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	218	42	22	282
Total in Nauru²	218	42	22	282
Australia (Medical)	881	39	2	922
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	1	1	0	2
Total Medical Transfers	882	40	2	924
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	2	2	4	0
USA	280	339	619	0
Germany	1	0	1	0
Switzerland	1	1	2	0
Malaysia	1	0	1	0
Norway	1	0	1	0
Total	286	349	635	0

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

Total	430	890	1,320	2,473	2,946

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Offshore Returns and Removals	402	269	(133)	98	75	(23)
Voluntary Returns	95	11	(84)	5	3	(2)
Involuntary Removals	14	0	(14)	0	0	0
Third Country Settlement ²	293	258	(35)	93	72	(21)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from Departmental systems as at 10 Sep 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2018-19	2019-20	Variance	2018-19	2019-20	Variance
Onshore	62	42	(20)	\$196,300	\$142,100	(\$54,200)
Offshore	6	2	(4)	\$150,000	\$50,000	(\$100,000)
Nauru	0	2	2	\$0	\$50,000	\$50,000
Manus	6	0	(6)	\$150,000	\$0	(\$150,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Finally Determined Refusal	5,324	125	10

¹ Includes IMAs who are 'in the review window' where relevant.

² Includes protection outcomes since 19 September 2013.

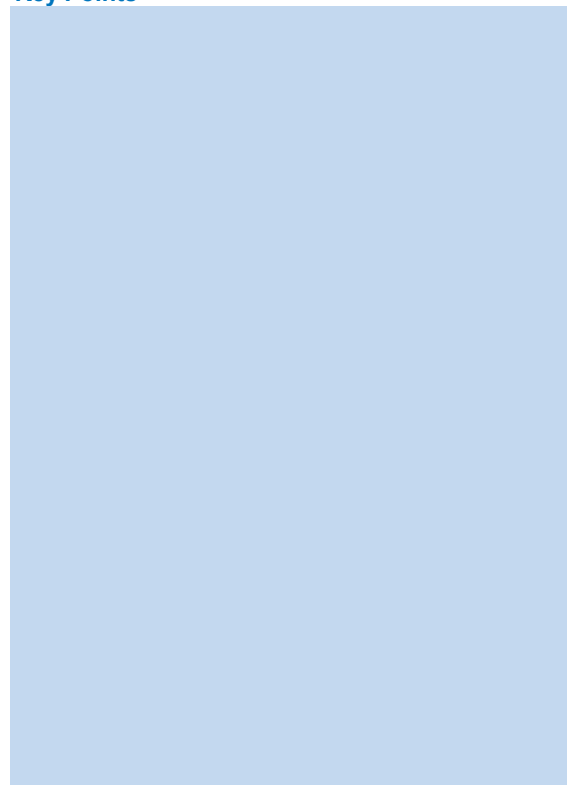

³ Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

⁴ Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

⁵ BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

⁶ Includes IMAs who are in correctional facilities.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 10 Sep 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 13 Sep 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

Total Major Drugs	14,082.17	19,439.74	5,357.57	236.85	947.54	710.69

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 31 August 2019)

Total	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance

Value (\$m)	16.31	14.06	(2.25)	3.33	1.73	(1.61)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Tobacco Detections

	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
§47E(d)						
Total						
Number of detections [^]	112,584	286,663	174,079	37,778	40,857	3,079
Tobacco (tonnes)	235.05	311.99	76.94	43.39	87.17	43.79
Cigarette sticks (millions)	253.55	426.27	172.72	59.59	47.93	(11.66)
Duty Evaded (\$m) (ex GST)	383.16	670.46	287.30	82.11	134.24	52.13
Equivalent Weight (tonnes)**	432.86	633.18	200.32	89.57	123.12	33.55

§47E(d)

** Equivalent weight represents the total weight of loose leaf tobacco detections together with the total weight of cigarette sticks (calculated using an average weight per stick).

[^] The number of detections may be more than stated due to current recording practices. For example, one detection could be a 'bin' or a 'pallet' etc.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Total Detections	2,007	2,271	264	353	651	298
Released	1,207	727	(480)	135	53	(82)
Re-Exported	2	2	0	1	0	(1)
Disposed	471	449	(22)	80	3	(77)
Still in Store/Transferred	327	1,093	766	137	595	458

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 25 September 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	4	0	1	5
West Lorengau Haus ²	0	0	0	0
Hillside Haus	0	0	0	0
Location to be confirmed	0	0	0	0
Port Moresby Medical	63	0	21	84
Port Moresby (R & R) ³	1	0	3	4
Port Moresby (Nauru EOI)	0	0	0	0
Port Moresby (Third Country) ⁴	96	0	2	98
Port Moresby (Relocation)	44	0	4	48
PNG Community ⁵	47	0	1	48
Total in PNG	255	0	32	287
Australia (Medical)	142	0	49	191

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Note: Does not include 53 Failed Asylum Seekers currently detained by the Immigration and Citizenship Authority (ICA). The policy position between Home Affairs and ICA is that once a failed asylum seeker in PNG is detained by ICA then they are no longer considered part of the Regional Resettlement Arrangement (RRA)

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	218	42	22	282
Total in Nauru²	218	42	22	282
Australia (Medical)	885	34	2	921
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	1	1	0	2
Total Medical Transfers	886	35	2	923
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	2	2	4	0
USA	289	340	629	10
Germany	1	0	1	0
Switzerland	1	1	2	0
Malaysia	1	0	1	0
Norway	1	0	1	0
United Kingdom	1	0	1	1
Total	296	350	646	11

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

Total	425	906	1,331	2,473	2,946

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Offshore Returns and Removals	402	269	(133)	98	75	(23)
Voluntary Returns	95	11	(84)	5	3	(2)
Involuntary Removals	14	0	(14)	0	0	0
Third Country Settlement ²	293	258	(35)	93	72	(21)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from Departmental systems as at 10 Sep 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2018-19	2019-20	Variance	2018-19	2019-20	Variance
Onshore	62	42	(20)	\$196,300	\$142,100	(\$54,200)
Offshore	6	2	(4)	\$150,000	\$50,000	(\$100,000)
Nauru	0	2	2	\$0	\$50,000	\$50,000
Manus	6	0	(6)	\$150,000	\$0	(\$150,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Remitted Awaiting Decision	102	15	0
Finally Determined Refusal	5,355	126	12

¹ Includes IMAs who are 'in the review window' where relevant.

² Includes protection outcomes since 19 September 2013.

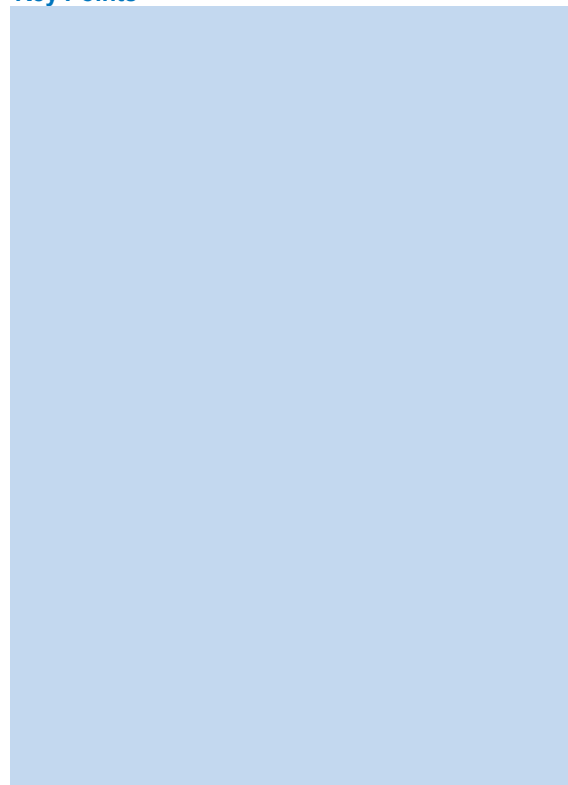

³ Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

⁴ Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

⁵ BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

⁶ Includes IMAs who are in correctional facilities.

Total	12,490	1,615	10,875	12.9%
Middle East*	6,450	864	5,586	13.4%
Asia	2,930	347	2,583	11.8%
Africa	2,670	394	2,276	14.8%
Americas	440	10	430	2.3%

* includes 0 grants to Oppressed Woman

Cohort Specific Allocations	Annual Allocation	Grants	Balance	% of allocation delivered
Total	4,610	315	4,295	6.8%
Community Support Program (CSP)	1,000	152	848	15.2%
Vulnerable Woman and Children (VWC)	3,500	149	3,351	4.3%
LGBTQI Pilot	100	9	91	9.0%
Unaccompanied Humanitarian Minor (UHM) (with no links to Australia) Pilot	10	5	5	50.0%

Women as a proportion of:	Target	Current %
Regionally allocated places	50%	48.5%
CSP	50%	51.3%
Vulnerable Woman and Children (VWC)*	100%	100.0%
Total offshore component	60%	49.6%

* includes all applicants granted visa towards the VWC allocation

	Target	Current %
Persecuted Minorities	90%	92.9%
Regional Resettlement*	40%	7.7%

* Currently includes applicants proposed by a relative residing in regional Australia; and CSP applicants that intend to settle in a regional location. Data is at time of visa grant.

Notes:

- This information is provided by the Department of Home Affairs and was extracted from departmental systems on the dates outlined above. As data has been drawn from a dynamic system environment, the information is correct at the time of publication and figures may differ slightly from previous or future reporting.
- Visas counted include subclass 200 (Refugee), 201 (In-Country Special Humanitarian Program), 202 (Global Special Humanitarian Program), 203 (Emergency Rescue) and 204 (Woman at Risk).
- Onshore visas counted include subclass 866 (Permanent Protection).

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 10 Sep 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 13 Sep 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 31 August 2019)

Total	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance

Number of detections*	800	767	(33)	159	154	(5)
Value (\$m)	16.31	14.06	(2.25)	3.33	1.73	(1.61)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Disposed	471	449	(22)	80	3	(77)
Still in Store/Transferred	327	1,093	766	137	595	458

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections', not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 02 October 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	3	0	1	4
West Lorengau Haus ²	0	0	0	0
Hillside Haus	0	0	0	0
Location to be confirmed	0	0	0	0
Port Moresby Medical	61	0	19	80
Port Moresby (R & R) ³	1	0	2	3
Port Moresby (Nauru EOI)	0	0	0	0
Port Moresby (Third Country) ⁴	96	0	2	98
Port Moresby (Relocation)	43	0	4	47
PNG Community ⁵	47	0	1	48
Total in PNG	251	0	29	280
Australia (Medical)	145	0	52	197

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Note: Does not include 53 Failed Asylum Seekers currently detained by the Immigration and Citizenship Authority (ICA). The policy position between Home Affairs and ICA is that once a failed asylum seeker in PNG is detained by ICA then they are no longer considered part of the Regional Resettlement Arrangement (RRA)

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	215	42	22	279
Total in Nauru²	215	42	22	279

Total	434	919	1,353	2,473	2,946

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

IMA Removals & Returns

Monthly statistics as at COB 31 August 2019 unless specified

Onshore IMA Removals & Returns¹

Onshore	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Onshore Returns and Removals	465	388	(77)	89	54	(35)
Voluntary Removals	136	96	(40)	19	9	(10)
Involuntary Removals	28	24	(4)	6	2	(4)
Voluntary Returns	298	267	(31)	63	43	(20)
Onshore Crew Removals	3	1	(2)	1	0	(1)

Offshore IMA Removals & Returns (as at 30 September 2019)

Offshore	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Offshore Returns and Removals	403	269	(134)	133	89	(44)
Voluntary Returns	94	11	(83)	5	3	(2)
Involuntary Removals	14	0	(14)	0	0	0
Third Country Settlement ²	295	258	(37)	128	86	(42)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from Departmental systems as at 10 Sep 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2018-19	2019-20	Variance	2018-19	2019-20	Variance
Onshore	62	42	(20)	\$196,300	\$142,100	(\$54,200)
Offshore	6	2	(4)	\$150,000	\$50,000	(\$100,000)
Nauru	0	2	2	\$0	\$50,000	\$50,000
Manus	6	0	(6)	\$150,000	\$0	(\$150,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Regionally allocated places	50%	48.5%
CSP	50%	51.3%
Vulnerable Woman and Children (VWC)*	100%	100.0%
Total offshore component	60%	49.6%

* includes all applicants granted visa towards the VWC allocation

	Target	Current %
Persecuted Minorities	90%	92.9%
Regional Resettlement*	40%	7.7%

* Currently includes applicants proposed by a relative residing in regional Australia; and CSP applicants that intend to settle in a regional location. Data is at time of visa grant.

Notes:

- This information is provided by the Department of Home Affairs and was extracted from departmental systems on the dates outlined above. As data has been drawn from a dynamic system environment, the information is correct at the time of publication and figures may differ slightly from previous or future reporting.
- Visas counted include subclass 200 (Refugee), 201 (In-Country Special Humanitarian Program), 202 (Global Special Humanitarian Program), 203 (Emergency Rescue) and 204 (Woman at Risk).
- Onshore visas counted include subclass 866 (Permanent Protection).

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 10 Sep 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 13 Sep 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

Total Major Drugs	14,082.17	19,439.84	5,357.67	779.85	2,028.40	1,248.55

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 31 August 2019)

Total	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Number of detections*	800	767	(33)	159	154	(5)
Value (\$m)	16.31	14.06	(2.25)	3.33	1.73	(1.61)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Total Detections	2,007	2,271	264	353	651	298
Released	1,207	727	(480)	135	53	(82)
Re-Exported	2	2	0	1	0	(1)
Disposed	471	449	(22)	80	3	(77)
Still in Store/Transferred	327	1,093	766	137	595	458

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 09 October 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	3	0	1	4
West Lorengau Haus ²	0	0	0	0
Hillside Haus	0	0	0	0
Location to be confirmed	0	0	0	0
Port Moresby Medical	58	0	19	77
Port Moresby (R & R) ³	1	0	2	3
Port Moresby (Nauru EOI)	0	0	0	0
Port Moresby (Third Country) ⁴	96	0	2	98
Port Moresby (Relocation)	43	0	4	47
PNG Community ⁵	46	0	1	47
Total in PNG	247	0	29	276
Australia (Medical)	149	0	52	201

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Note: Does not include 53 Failed Asylum Seekers currently detained by the Immigration and Citizenship Authority (ICA). The policy position between Home Affairs and ICA is that once a failed asylum seeker in PNG is detained by ICA then they are no longer considered part of the Regional Resettlement Arrangement (RRA)

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	216	42	22	280
Total in Nauru²	216	42	22	280

Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	0	0	0	0
Total Medical Transfers	884	33	2	919
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	2	5	7	3
USA	289	343	632	0
Germany	1	0	1	0

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

IMA Removals & Returns

Monthly statistics as at COB 31 August 2019 unless specified

Onshore IMA Removals & Returns¹

Onshore	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Onshore Returns and Removals	465	388	(77)	89	54	(35)
Voluntary Removals	136	96	(40)	19	9	(10)
Involuntary Removals	28	24	(4)	6	2	(4)
Voluntary Returns	298	267	(31)	63	43	(20)
Onshore Crew Removals	3	1	(2)	1	0	(1)

Offshore IMA Removals & Returns (as at 30 September 2019)

Offshore	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Offshore Returns and Removals	403	269	(134)	133	89	(44)
Voluntary Returns	94	11	(83)	5	3	(2)
Involuntary Removals	14	0	(14)	0	0	0
Third Country Settlement ²	295	258	(37)	128	86	(42)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from Departmental systems as at 10 Sep 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2018-19	2019-20	Variance	2018-19	2019-20	Variance
Onshore	62	42	(20)	\$196,300	\$142,100	(\$54,200)
Offshore	6	2	(4)	\$150,000	\$50,000	(\$100,000)
Nauru	0	2	2	\$0	\$50,000	\$50,000
Manus	6	0	(6)	\$150,000	\$0	(\$150,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 10 Sep 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 13 Sep 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

Total Major Drugs	14,082.17	19,439.84	5,357.67	779.85	2,028.40	1,248.55

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

§47E(d)

^a Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

^b ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

^c PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

^d On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 30 September 2019)

Total	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
§47E(d)						
Number of detections*	800	767	(33)	219	211	(8)
Value (\$m)	16.31	14.06	(2.25)	4.28	2.53	(1.74)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

§47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Total Detections	2,007	2,271	264	445	1,118	673
Released	1,207	727	(480)	167	190	23
Re-Exported	2	2	0	2	0	(2)
Disposed	471	449	(22)	114	3	(111)
Still in Store/Transferred	327	1,093	766	162	925	763

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 16 October 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	2	0	1	3
West Lorengau Haus ²	0	0	0	0
Hillside Haus	0	0	0	0
Location to be confirmed	0	0	0	0
Port Moresby Medical	58	0	20	78
Port Moresby (R & R) ³	1	0	2	3
Port Moresby (Nauru EOI)	0	0	0	0
Port Moresby (Third Country) ⁴	96	0	2	98
Port Moresby (Relocation)	44	0	3	47
PNG Community ⁵	46	0	1	47
Total in PNG	247	0	29	276
Australia (Medical)	149	0	52	201

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Note: Does not include 53 Failed Asylum Seekers currently detained by the Immigration and Citizenship Authority (ICA). The policy position between Home Affairs and ICA is that once a failed asylum seeker in PNG is detained by ICA then they are no longer considered part of the Regional Resettlement Arrangement (RRA)

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	215	42	22	279
Total in Nauru²	215	42	22	279
Australia (Medical)	885	33	2	920
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	0	0	0	0
Total Medical Transfers	885	33	2	920
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Offshore Returns and Removals	403	269	(134)	133	89	(44)
Voluntary Returns	94	11	(83)	5	3	(2)
Involuntary Removals	14	0	(14)	0	0	0
Third Country Settlement ²	295	258	(37)	128	86	(42)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from Departmental systems as at 8 Oct 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2018-19	2019-20	Variance	2018-19	2019-20	Variance
Onshore	93	76	(17)	\$294,400	\$258,800	(\$35,600)
Offshore	6	2	(4)	\$150,000	\$50,000	(\$100,000)
Nauru	0	2	2	\$0	\$50,000	\$50,000
Manus	6	0	(6)	\$150,000	\$0	(\$150,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Removals from Detention ¹²	7,103	5,496	(1,607)	1,560	1,176	(384)

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 8 Oct 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 9 Oct 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

Total Major Drugs	14,082.17	19,439.84	5,357.67	779.85	2,028.40	1,248.55

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 30 September 2019)

Total	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Number of detections*	800	767	(33)	219	211	(8)
Value (\$m)	16.31	14.06	(2.25)	4.28	2.53	(1.74)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Total Detections	2,007	2,271	264	445	1,165	720
Released	1,207	727	(480)	167	352	185
Re-Exported	2	2	0	2	0	(2)
Disposed	471	449	(22)	114	3	(111)
Still in Store/Transferred	327	1,093	766	162	810	648

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 23 October 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	2	0	1	3
West Lorengau Haus ²	0	0	0	0
Hillside Haus	0	0	0	0
Location to be confirmed	0	0	0	0
Port Moresby Medical	56	0	18	74
Port Moresby (R & R) ³	1	0	2	3
Port Moresby (Nauru EOI)	0	0	0	0
Port Moresby (Third Country) ⁴	96	0	2	98
Port Moresby (Relocation)	44	0	4	48
PNG Community ⁵	46	0	1	47
Total in PNG	245	0	28	273
Australia (Medical)	151	0	53	204

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Note: Does not include 53 Failed Asylum Seekers currently detained by the Immigration and Citizenship Authority (ICA). The policy position between Home Affairs and ICA is that once a failed asylum seeker in PNG is detained by ICA then they are no longer considered part of the Regional Resettlement Arrangement (RRA)

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	215	42	21	278
Total in Nauru²	215	42	21	278
Australia (Medical)	885	33	2	920
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	0	0	0	0
Total Medical Transfers	885	33	2	920
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	2	5	7	0
USA	289	343	632	0
Germany	1	0	1	0
Switzerland	1	1	2	0
Malaysia	1	0	1	0
Norway	1	0	1	0
United Kingdom	1	0	1	0
Total	296	356	652	0

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

Children in Nauru

Total	444	922	1,366	2,473	2,946

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Offshore Returns and Removals	403	269	(134)	133	89	(44)
Voluntary Returns	94	11	(83)	5	3	(2)
Involuntary Removals	14	0	(14)	0	0	0
Third Country Settlement ²	295	258	(37)	128	86	(42)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from Departmental systems as at 8 Oct 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2018-19	2019-20	Variance	2018-19	2019-20	Variance
Onshore	93	76	(17)	\$294,400	\$258,800	(\$35,600)
Offshore	6	2	(4)	\$150,000	\$50,000	(\$100,000)
Nauru	0	2	2	\$0	\$50,000	\$50,000
Manus	6	0	(6)	\$150,000	\$0	(\$150,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Onhand Primary	5,989	29	4
Remitted Awaiting Decision	85	12	2
Finally Determined Refusal	5,471	139	12

¹ Includes IMAs who are 'in the review window' where relevant.

² Includes protection outcomes since 19 September 2013.

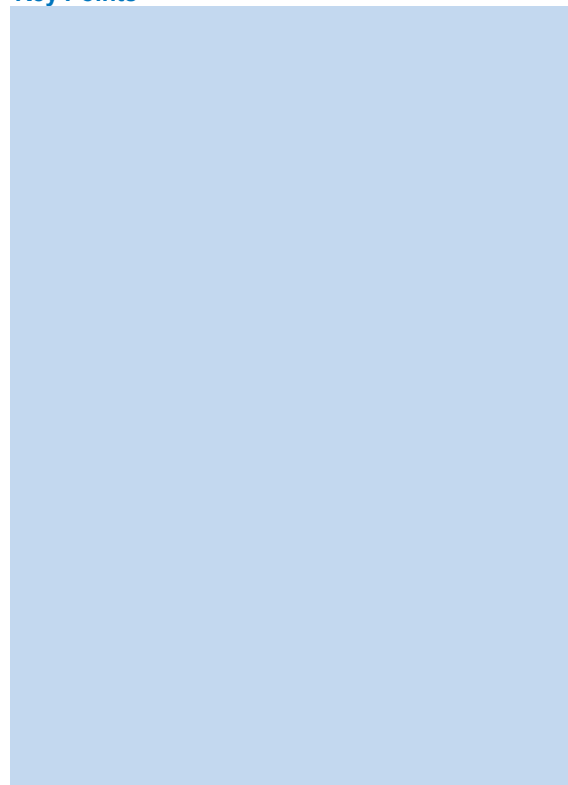

³ Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

⁴ Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

⁵ BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

⁶ Includes IMAs who are in correctional facilities.

Removals from Detention ¹²	7,103	5,496	(1,607)	1,560	1,176	(384)

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 8 Oct 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 9 Oct 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller)

Total	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Number of detections*	800	767	(33)	219	211	(8)
Value (\$m)	16.31	14.06	(2.25)	4.28	2.53	(1.74)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Total Detections	2,007	2,271	264	445	1,165	720
Released	1,207	727	(480)	167	352	185
Re-Exported	2	2	0	2	0	(2)
Disposed	471	449	(22)	114	3	(111)
Still in Store/Transferred	327	1,093	766	162	810	648

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections', not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 30 October 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	2	0	1	3
West Lorengau Haus ²	0	0	0	0
Hillside Haus	0	0	0	0
Location to be confirmed	0	0	0	0
Port Moresby Medical	54	0	17	71
Port Moresby (R & R) ³	1	0	2	3
Port Moresby (Nauru EOI)	0	0	0	0
Port Moresby (Third Country) ⁴	96	0	2	98
Port Moresby (Relocation)	44	0	5	49
PNG Community ⁵	46	0	1	47
Total in PNG	243	0	28	271
Australia (Medical)	152	0	53	205

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Note: Does not include 53 Failed Asylum Seekers currently detained by the Immigration and Citizenship Authority (ICA). The policy position between Home Affairs and ICA is that once a failed asylum seeker in PNG is detained by ICA then they are no longer considered part of the Regional Resettlement Arrangement (RRA)

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	210	40	20	270
Total in Nauru²	210	40	20	270
Australia (Medical)	893	35	3	931
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	0	0	0	0
Total Medical Transfers	893	35	3	931
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	2	5	7	0
USA	289	343	632	0
Germany	1	0	1	0
Switzerland	1	1	2	0
Malaysia	1	0	1	0
Norway	1	0	1	0
United Kingdom	1	0	1	0
Total	296	356	652	0

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Offshore	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Offshore Returns and Removals	403	269	(134)	133	89	(44)
Voluntary Returns	94	11	(83)	5	3	(2)
Involuntary Removals	14	0	(14)	0	0	0
Third Country Settlement ²	295	258	(37)	128	86	(42)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from Departmental systems as at 8 Oct 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2018-19	2019-20	Variance	2018-19	2019-20	Variance
Onshore	93	76	(17)	\$294,400	\$258,800	(\$35,600)
Offshore	6	2	(4)	\$150,000	\$50,000	(\$100,000)
Nauru	0	2	2	\$0	\$50,000	\$50,000
Manus	6	0	(6)	\$150,000	\$0	(\$150,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Onhand Primary	5,911	28	4
Remitted Awaiting Decision	86	12	2
Finally Determined Refusal	5,503	136	11

1 Includes IMAs who are 'in the review window' where relevant.

2 Includes protection outcomes since 19 September 2013.

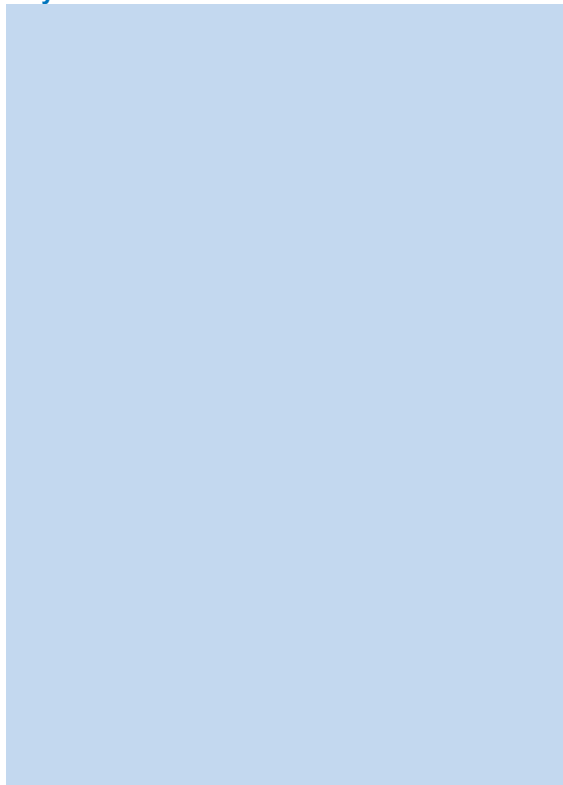

3 Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

4 Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

5 BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

6 Includes IMAs who are in correctional facilities.

Removals from Detention ¹²	7,103	5,496	(1,607)	1,560	1,176	(384)

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 8 Oct 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 9 Oct 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Disposed	471	449	(22)	114	3	(111)
Still in Store/Transferred	327	1,093	766	162	810	648

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 06 November 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
East Lorengau Refugee Transit Centre (ELRTC) ¹	2	0	1	3
West Lorengau Haus ²	0	0	0	0
Hillside Haus	0	0	0	0
Location to be confirmed	0	0	0	0
Port Moresby Medical	54	0	17	71
Port Moresby (R & R) ³	1	0	2	3
Port Moresby (Nauru EOI)	0	0	0	0
Port Moresby (Third Country) ⁴	91	0	2	93
Port Moresby (Relocation)	43	0	4	47
PNG Community ⁵	44	0	1	45
Total in PNG	235	0	27	262
Australia (Medical)	155	0	53	208

¹ Includes settled refugees who have subsequently returned to the ELRTC voluntarily.

² Includes settled refugees who have subsequently returned to the West Lorengau Haus voluntarily.

³ Includes persons actively pursuing Assisted Voluntary Returns and involuntary removal case(s) managed by PNG ICSA.

⁴ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

⁵ Refers to Failed Asylum Seeker(s) who are residing in the PNG community after being discharged from service provider's care due to long-term absence from allocated accommodation.

Note: Does not include 53 Failed Asylum Seekers currently detained by the Immigration and Citizenship Authority (ICA). The policy position between Home Affairs and ICA is that once a failed asylum seeker in PNG is detained by ICA then they are no longer considered part of the Regional Resettlement Arrangement (RRA)

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	206	39	20	265
Total in Nauru²	206	39	20	265
Australia (Medical)	895	36	3	934
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	0	0	0	0
Total Medical Transfers	895	36	3	934
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	3	5	8	1
USA	293	345	638	6

Alternate Place of Detention	1	1	2	0	0
Total	457	942	1,399	2,473	2,946

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Involuntary Removals	28	24	(4)	14	3	(11)
Voluntary Returns	298	267	(31)	92	81	(11)
Onshore Crew Removals	3	1	(2)	1	0	(1)

Offshore IMA Removals & Returns (as at 31 October 2019)

Offshore	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Offshore Returns and Removals	403	269	(134)	159	95	(64)
Voluntary Returns	94	11	(83)	10	5	(5)
Involuntary Removals	14	0	(14)	0	0	0
Third Country Settlement ²	295	258	(37)	149	90	(59)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from Departmental systems as at 8 Oct 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Remitted Awaiting Decision	85	13	2
Finally Determined Refusal	5,520	135	10

¹ Includes IMAs who are 'in the review window' where relevant.

² Includes protection outcomes since 19 September 2013.

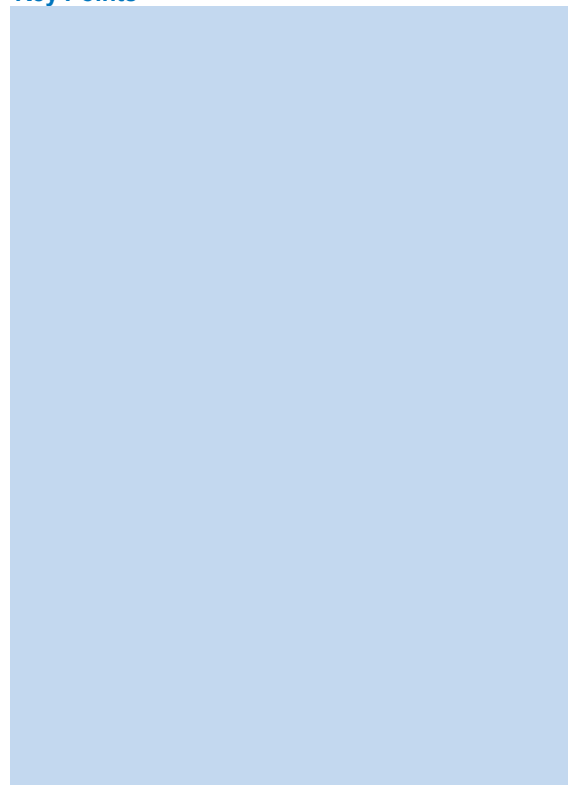

³ Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

⁴ Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

⁵ BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

⁶ Includes IMAs who are in correctional facilities.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 8 Oct 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 9 Oct 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 31 October 2019)

Total	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance

Value (\$m)	16.31	14.06	(2.25)	6.32	3.42	(2.90)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Total Detections	2,007	2,271	264	445	1,165	720
Released	1,207	736	(471)	167	352	185
Re-Exported	2	2	0	2	0	(2)
Disposed	474	536	62	115	3	(112)
Still in Store/Transferred	324	997	673	161	810	649

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections', not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 13 November 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
Manus	2	0	1	3
Port Moresby (Third Country) ¹	105	0	2	107
Port Moresby (Relocation)	0	0	21	21
Port Moresby (Community Placement)	61	0	0	61
PNG Settlement	40	0	0	40
Total in PNG	208	0	24	232
Australia (Medical)	179	0	55	234

¹ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

Note: Does not include 53 Failed Asylum Seekers currently detained by the Immigration and Citizenship Authority (ICA). The policy position between Home Affairs and ICA is that once a failed asylum seeker in PNG is detained by ICA then they are no longer considered part of the Regional Resettlement Arrangement (RRA)

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	206	39	19	264
Total in Nauru²	206	39	19	264
Australia (Medical)	894	36	3	933
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	0	0	0	0
Total Medical Transfers	894	36	3	933
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	5	5	10	2
USA	295	347	642	4
Germany	1	0	1	0
Switzerland	1	1	2	0
Malaysia	1	0	1	0
Norway	1	0	1	0
United Kingdom	1	0	1	0
Total	305	360	665	6

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

Total	487	952	1,439	2,473	2,946

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Onshore Crew Removals	3	1	(2)	1	0	(1)

Offshore IMA Removals & Returns (as at 31 October 2019)

Offshore	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Offshore Returns and Removals	403	269	(134)	159	95	(64)
Voluntary Returns	94	11	(83)	10	5	(5)
Involuntary Removals	14	0	(14)	0	0	0
Third Country Settlement ²	295	258	(37)	149	90	(59)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from Departmental systems as at 8 Nov 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2018-19	2019-20	Variance	2018-19	2019-20	Variance
Onshore	107	102	(5)	\$341,300	\$345,300	\$4,000
Offshore	8	3	(5)	\$200,000	\$75,000	(\$125,000)
Nauru	2	3	1	\$50,000	\$75,000	\$25,000
Manus	6	0	(6)	\$150,000	\$0	(\$150,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Onhand Primary	5,778	28	4
Remitted Awaiting Decision	80	13	2
Finally Determined Refusal	5,524	137	10

¹ Includes IMAs who are 'in the review window' where relevant.

² Includes protection outcomes since 19 September 2013.

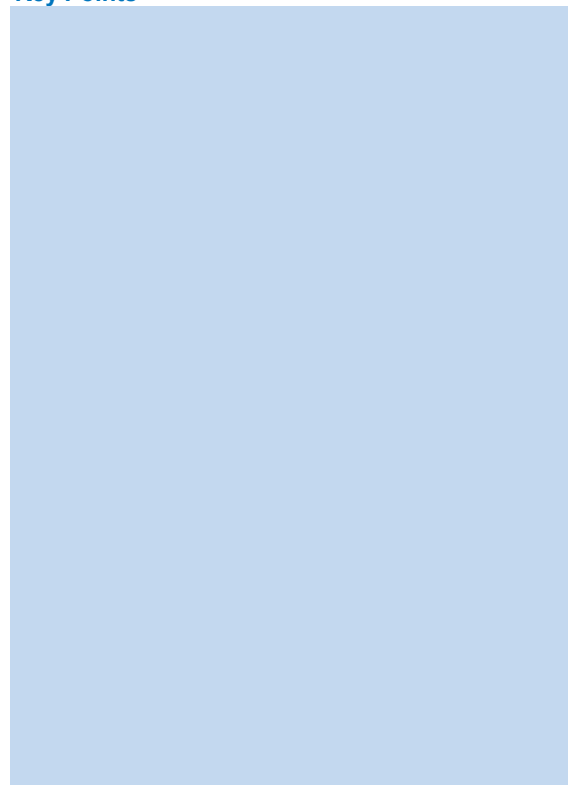

³ Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

⁴ Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

⁵ BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

⁶ Includes IMAs who are in correctional facilities.

Humanitarian Program

Monthly statistics as at COB 31 October 2019 unless specified

2019-20 Humanitarian Program

	Annual Allocation	Grants	Balance	% of allocation delivered
Total Humanitarian Program	18,750	5,103	13,647	27.2%
Offshore	17,100	4,465	12,635	26.1%
Onshore	1,650	638	1,012	38.7%

Offshore Component

Regionally Allocated Places	Annual Allocation	Grants	Balance	% of allocation delivered
Total	12,490	3,780	8,710	30.3%
Middle East*	6,450	2,401	4,049	37.2%
Asia	2,930	632	2,298	21.6%
Africa	2,670	734	1,936	27.5%
Americas	440	13	427	3.0%

* includes 3 grants to Oppressed Woman

Cohort Specific Allocations	Annual Allocation	Grants	Balance	% of allocation delivered
Total	4,610	685	3,925	14.9%
Community Support Program (CSP)	1,000	235	765	23.5%
Vulnerable Woman and Children (VWC)	3,500	433	3,067	12.4%
LGBTQI Pilot	100	11	89	11.0%
Unaccompanied Humanitarian Minor (UHM) (with no links to Australia) Pilot	10	6	4	60.0%

Women as a proportion of:	Target	Current %
Regionally allocated places	50%	48.1%
CSP	50%	49.7%
Vulnerable Woman and Children (VWC)*	100%	100.0%
Total offshore component	60%	49.5%

* includes all applicants granted visa towards the VWC allocation

	Target	Current %
Persecuted Minorities	90%	94.3%
Regional Resettlement*	40%	9.2%

* Currently includes applicants proposed by a relative residing in regional Australia; and CSP applicants that intend to settle in a regional location. Data is at time of visa grant.

Notes:

- This information is provided by the Department of Home Affairs and was extracted from departmental systems on the dates outlined above. As data has been drawn from a dynamic system environment, the information is correct at the time of publication and figures may differ slightly from previous or future reporting.
- Visas counted include subclass 200 (Refugee), 201 (In-Country Special Humanitarian Program), 202 (Global Special Humanitarian Program), 203 (Emergency Rescue) and 204 (Woman at Risk).
- Onshore visas counted include subclass 866 (Permanent Protection).

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 8 Nov 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 8 Nov 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 31 October 2019)

Total	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance

Value (\$m)	16.31	14.06	(2.25)	6.32	3.42	(2.90)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Disposed	474	536	62	211	105	(106)
Still in Store/Transferred	324	997	673	201	727	526

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections', not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 20 November 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
Manus	2	0	1	3
Port Moresby (Third Country) ¹	102	0	2	104
Port Moresby (Relocation)	0	0	17	17
Port Moresby (Community Placement)	57	0	0	57
PNG Settlement	40	0	0	40
Total in PNG	201	0	20	221
Australia (Medical)	185	0	59	244

¹ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

Note: Does not include 53 Failed Asylum Seekers currently detained by the Immigration and Citizenship Authority (ICA). The policy position between Home Affairs and ICA is that once a failed asylum seeker in PNG is detained by ICA then they are no longer considered part of the Regional Resettlement Arrangement (RRA)

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	205	39	19	263
Total in Nauru²	205	39	19	263
Australia (Medical)	896	36	3	935
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	0	0	0	0
Total Medical Transfers	896	36	3	935
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	5	5	10	0
USA	295	347	642	0
Germany	1	0	1	0
Switzerland	1	1	2	0
Malaysia	1	0	1	0
New Zealand	1	0	1	1
Norway	1	0	1	0
United Kingdom	1	0	1	0
Total	306	360	666	1

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

Total	496	949	1,445	2,473	2,946

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Home Affairs Weekly Statistics

IMA Removals & Returns

Monthly statistics as at COB 31 October 2019 unless specified

Onshore IMA Removals & Returns¹

Onshore	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Onshore Returns and Removals	465	388	(77)	167	133	(34)
Voluntary Removals	136	96	(40)	44	20	(24)
Involuntary Removals	28	24	(4)	15	4	(11)
Voluntary Returns	298	267	(31)	107	109	2
Onshore Crew Removals	3	1	(2)	1	0	(1)

Offshore IMA Removals & Returns (as at 31 October 2019)

Offshore	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Offshore Returns and Removals	403	269	(134)	159	95	(64)
Voluntary Returns	94	11	(83)	10	5	(5)
Involuntary Removals	14	0	(14)	0	0	0
Third Country Settlement ²	295	258	(37)	149	90	(59)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from Departmental systems as at 8 Nov 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2018-19	2019-20	Variance	2018-19	2019-20	Variance
Onshore	107	102	(5)	\$341,300	\$345,300	\$4,000
Offshore	8	3	(5)	\$200,000	\$75,000	(\$125,000)
Nauru	2	3	1	\$50,000	\$75,000	\$25,000
Manus	6	0	(6)	\$150,000	\$0	(\$150,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 8 Nov 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 8 Nov 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller)

Total	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Number of detections*	800	767	(33)	262	263	1
Value (\$m)	16.31	14.06	(2.25)	6.32	3.42	(2.90)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Illicit Goods

Monthly statistics as at COB 31 October 2019 unless specified

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Total Detections	2,007	2,271	264	658	1,407	749
Released	1,207	736	(471)	244	575	331
Re-Exported	2	2	0	2	0	(2)
Disposed	474	536	62	211	105	(106)
Still in Store/Transferred	324	997	673	201	727	526

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections', not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 27 November 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
Manus	2	0	1	3
Port Moresby (Third Country) ¹	94	0	2	96
Port Moresby (Relocation)	0	0	17	17
Port Moresby (Community Placement)	57	0	0	57
PNG Settlement	40	0	0	40
Total in PNG	193	0	20	213
Australia (Medical)	185	0	59	244

¹ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

Note: Does not include 53 Failed Asylum Seekers currently detained by the Immigration and Citizenship Authority (ICA). The policy position between Home Affairs and ICA is that once a failed asylum seeker in PNG is detained by ICA then they are no longer considered part of the Regional Resettlement Arrangement (RRA)

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Offshore IMA Removals & Returns (as at 31 October 2019)

Offshore	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Offshore Returns and Removals	403	269	(134)	159	95	(64)
Voluntary Returns	94	11	(83)	10	5	(5)
Involuntary Removals	14	0	(14)	0	0	0
Third Country Settlement ²	295	258	(37)	149	90	(59)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from Departmental systems as at 8 Nov 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2018-19	2019-20	Variance	2018-19	2019-20	Variance
Onshore	107	102	(5)	\$341,300	\$345,300	\$4,000
Offshore	8	3	(5)	\$200,000	\$75,000	(\$125,000)
Nauru	2	3	1	\$50,000	\$75,000	\$25,000
Manus	6	0	(6)	\$150,000	\$0	(\$150,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Removals from Detention ¹²	7,103	5,496	(1,607)	2,019	1,580	(439)

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 8 Nov 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 8 Nov 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

s47E(d)

³ Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

⁴ ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

⁵ PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

⁶ On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller)

Total	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)

Value (\$m)	16.31	14.06	(2.25)	6.32	3.42	(2.90)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

s47E(d)

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Total Detections	2,007	2,271	264	658	1,407	749
Released	1,207	736	(471)	244	575	331
Re-Exported	2	2	0	2	0	(2)
Disposed	474	536	62	211	105	(106)
Still in Store/Transferred	324	997	673	201	727	526

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

*** Preliminary detections are based on indicative uncleaned data which may be subject to further revision. The figures may not fully reflect detections by the ABF across illicit goods classes as the Department does not currently report on pre or post-border detections.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 04 December 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
Manus	2	0	1	3
Port Moresby (Third Country) ¹	97	0	2	99
Port Moresby (Relocation)	0	0	1	1
Port Moresby (R & R)	0	0	11	11
Port Moresby (Community Placement)	52	0	2	54
PNG Settlement	40	0	0	40
Total in PNG	191	0	17	208
Australia (Medical)	186	0	62	248

¹ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

Note: Does not include 53 Failed Asylum Seekers currently detained by the Immigration and Citizenship Authority (ICA). The policy position between Home Affairs and ICA is that once a failed asylum seeker in PNG is detained by ICA then they are no longer considered part of the Regional Resettlement Arrangement (RRA)

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	201	38	19	258
Total in Nauru²	201	38	19	258
Australia (Medical)	898	37	3	938
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	0	0	0	0
Total Medical Transfers	898	37	3	938
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	5	5	10	0
USA	304	350	654	1
Germany	1	0	1	0
Switzerland	1	1	2	0
Malaysia	1	0	1	0
New Zealand	1	0	1	0
Norway	1	0	1	0
United Kingdom	1	0	1	0
Total	315	363	678	1

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

Children in Nauru

	27-Nov	4-Dec	Weekly Movement

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Offshore	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Offshore Returns and Removals	403	269	(134)	169	119	(50)
Voluntary Returns	94	11	(83)	10	5	(5)
Involuntary Removals	14	0	(14)	0	0	0
Third Country Settlement ²	295	258	(37)	159	114	(45)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from Departmental systems as at 8 Nov 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2018-19	2019-20	Variance	2018-19	2019-20	Variance
Onshore	107	102	(5)	\$341,300	\$345,300	\$4,000
Offshore	8	3	(5)	\$200,000	\$75,000	(\$125,000)
Nauru	2	3	1	\$50,000	\$75,000	\$25,000
Manus	6	0	(6)	\$150,000	\$0	(\$150,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Removals from Detention ¹²	7,103	5,496	(1,607)	2,019	1,580	(439)

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 8 Nov 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 8 Nov 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

s47E(d)						
Total Major Drugs	14,082.17	19,439.84	5,357.67	2,842.22	4,685.01	1,842.79

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

^a Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

^b ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

^c PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

^d On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller)

Total	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Number of detections*	800	767	(33)	262	263	1
Value (\$m)	16.31	14.06	(2.25)	6.32	3.42	(2.90)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Tobacco Detections

s47E(d)	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Total						
Number of detections [^]	112,584	286,663	174,079	83,981	64,308	(19,673)
Tobacco (tonnes)	235.05	311.99	76.94	74.11	134.71	60.60
Cigarette sticks (millions)	253.55	426.27	172.72	131.30	107.72	(23.58)
Duty Evaded (\$m) (ex GST)	383.16	670.46	287.30	173.07	251.63	78.56
Equivalent Weight (tonnes)*	432.86	633.18	200.32	174.08	214.38	40.31

* Equivalent weight represents the total weight of loose leaf tobacco detections together with the total weight of cigarette sticks (calculated using an average weight per stick).

[^] The number of detections may be more than stated due to current recording practices. For example, one detection could be a 'bin' or a 'pallet' etc.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Total Detections	2,007	2,271	264	658	1,407	749
Released	1,207	736	(471)	244	575	331
Re-Exported	2	2	0	2	0	(2)
Disposed	474	536	62	211	105	(106)
Still in Store/Transferred	324	997	673	201	727	526

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 11 December 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
Manus	2	0	1	3
Port Moresby (Third Country) ¹	93	0	2	95
Port Moresby (R & R)	0	0	14	14
Port Moresby (Community Placement)	56	0	0	56
PNG Settlement	40	0	0	40
Total in PNG	191	0	17	208
Australia (Medical)	186	0	62	248

¹ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

Note: Does not include 53 Failed Asylum Seekers currently detained by the Immigration and Citizenship Authority (ICA). The policy position between Home Affairs and ICA is that once a failed asylum seeker in PNG is detained by ICA then they are no longer considered part of the Regional Resettlement Arrangement (RRA)

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	198	38	19	255
Total in Nauru²	198	38	19	255
Australia (Medical)	903	33	3	939
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	2	0	0	2
Total Medical Transfers	905	33	3	941
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	6	5	11	1
USA	304	350	654	0
Germany	1	0	1	0
Switzerland	1	1	2	0
Malaysia	1	0	1	0
New Zealand	1	0	1	0
Norway	1	0	1	0
United Kingdom	1	0	1	0
Total	316	363	679	1

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

Total	501	937	1,438	2,473	2,946

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

IMA Removals & Returns

Monthly statistics as at COB 30 November 2019 unless specified

Onshore IMA Removals & Returns¹

Onshore	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Onshore Returns and Removals	465	388	(77)	192	160	(32)
Voluntary Removals	136	96	(40)	47	27	(20)
Involuntary Removals	28	24	(4)	16	5	(11)
Voluntary Returns	298	267	(31)	128	128	0
Onshore Crew Removals	3	1	(2)	1	0	(1)

Offshore IMA Removals & Returns

Offshore	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
Offshore Returns and Removals	403	269	(134)	169	119	(50)
Voluntary Returns	94	11	(83)	10	5	(5)
Involuntary Removals	14	0	(14)	0	0	0
Third Country Settlement ²	295	258	(37)	159	114	(45)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from Departmental systems as at 10 Dec 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2018-19	2019-20	Variance	2018-19	2019-20	Variance
Onshore	129	121	(8)	\$415,100	\$410,100	(\$5,000)
Offshore	8	3	(5)	\$200,000	\$75,000	(\$125,000)
Nauru	2	3	1	\$50,000	\$75,000	\$25,000
Manus	6	0	(6)	\$150,000	\$0	(\$150,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Onhand Primary	5,465	28	4
Remitted Awaiting Decision	82	13	2
Finally Determined Refusal	5,585	136	11

¹ Includes IMAs who are 'in the review window' where relevant.

² Includes protection outcomes since 19 September 2013.

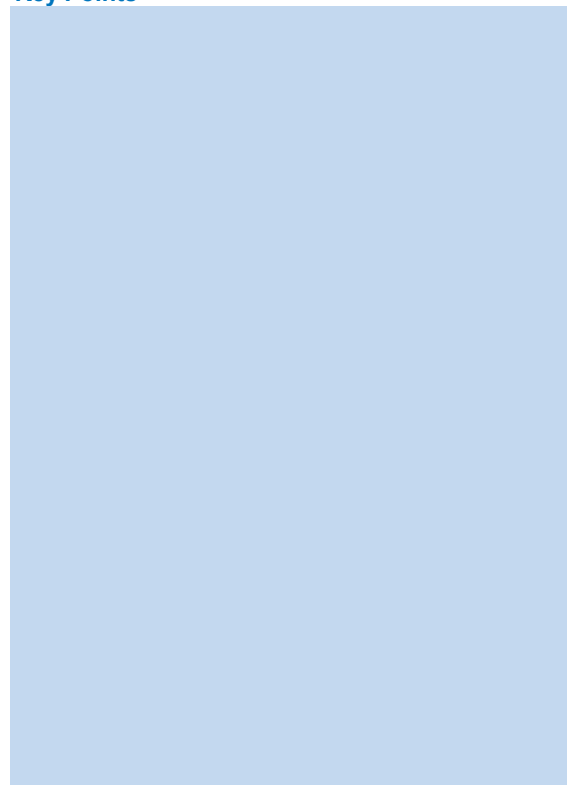

³ Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

⁴ Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

⁵ BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

⁶ Includes IMAs who are in correctional facilities.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 10 Dec 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 8 Nov 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

^a Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

^b ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

^c PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

^d On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 30 November 2019)

Total	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Number of detections*	800	767	(33)	358	307	(51)
Value (\$m)	16.31	14.06	(2.25)	7.82	4.26	(3.56)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Detections* of Undeclared Conventional** Firearms, Parts & Accessories

	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)						
Total Detections	2,007	2,271	264	898	1,480	582
Released	1,207	736	(471)	405	646	241
Re-Exported	2	2	0	2	0	(2)
Disposed	474	536	62	266	271	5
Still in Store/Transferred	324	997	673	225	563	338

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Overview

The Home Affairs Weekly Statistics is produced by the Data Division of the Department of Home Affairs.

The intention of the report is to provide a regular snapshot of metrics and trends covering certain key aspects of the Department. The report will also highlight emerging or prominent issues.

The report is developed in consultation with program owners across the Department. Any clarification on figures within the report can be provided directly by the relevant business area.

The content of the report has been produced specifically for the Minister's Office. All other parties who wish to republish the statistics or commentary contained in this document must seek permission from the relevant business areas. Requests for additional statistics should also be directed at the relevant business areas. The Data Division can assist in facilitating these requests.

Home Affairs Weekly Statistics

Manus & Nauru - Population Statistics

Weekly statistics as at COB 18 December 2019 unless specified

Population Statistics by Refugee Status & Location - Manus

Location	Refugees	Still in RSD Process	Failed Asylum Seekers	Total
Manus	2	0	1	3
Port Moresby (Third Country) ¹	89	0	2	91
Port Moresby (R & R)	0	0	14	14
Port Moresby (Community Placement)	52	0	0	52
PNG Settlement	36	0	0	36
Total in PNG	179	0	17	196
Australia (Medical)	192	0	62	254

¹ Includes refugees attending US resettlement appointments or awaiting departure to the US. Also includes refugees progressing their own third country resettlement. Not all refugees in this cohort are necessarily on a departure pathway.

Note: Does not include 53 Failed Asylum Seekers currently detained by the Immigration and Citizenship Authority (ICA). The policy position between Home Affairs and ICA is that once a failed asylum seeker in PNG is detained by ICA then they are no longer considered part of the Regional Resettlement Arrangement (RRA)

Population Statistics by Refugee Status & Location - Nauru

Location	Refugees	Still in RSD Process	Failed Asylum Seekers ¹	Total
Regional Processing Centre (RPC)	0	0	0	0
Nauru Community	195	38	19	252
Total in Nauru²	195	38	19	252
Australia (Medical)	904	34	3	941
Port Moresby (Medical)	0	0	0	0
Taiwan (Medical)	2	0	0	2
Total Medical Transfers	906	34	3	943
Port Moresby (R & R)	0	0	0	0

¹ Figures include transferees who have gone through the requisite appeals processes and are now considered to be failed asylum seekers by the government of Nauru. Official confirmation of these cases was received on 02 May 2018.

² Excludes two PNG determined refugees who were transferred to Nauru voluntarily.

Third Country Resettlements

Country	Manus	Nauru	Total	Weekly Movement
Cambodia ¹	0	7	7	0
Canada ²	6	5	11	0
USA	310	353	663	9
Germany	1	0	1	0
Switzerland	1	1	2	0
Malaysia	1	0	1	0
New Zealand	1	0	1	0
Norway	1	0	1	0
United Kingdom	1	0	1	0
Total	322	366	688	9

¹ Cambodia figures include four previously settled refugees who have subsequently returned to their country of origin voluntarily.

² Resettlements in Canada were attained through refugee self-arrangements.

Children in Nauru

Total	508	930	1,438	2,473	2,946

¹ Immigration detention centres operate in a dynamic environment. It can take several days for action taken on the ground to be reflected in DIBP systems. All figures are subject to change on a daily basis.

² Capacity information can change depending on the configuration of accommodation and the cohorts within a facility.

³ All figures within this report are based on DIBP operational data.

⁴ Some children may be reported in an IDC as recorded in DIBP systems, although they are technically accommodated in an APOD.

⁵ This field represents the expected occupancy rate (determined by the Department) for the current month. The contract provides sufficient bandwidth to cover all facilities at their maximum 'contingency capacity' utilisation.

Involuntary Removals	14	0	(14)	0	0	0
Third Country Settlement ²	295	258	(37)	159	114	(45)

¹ Please note that reporting in relation to IMA assisted or managed departures (including returns from the community and removals from immigration detention) has changed. As part of its program of statistical improvement, the Department has automated its production of statistics on IMA returns/removals. The transition has resulted in a change to the previously reported figures. The reported figures were extracted from Departmental systems as at 10 Dec 2019.

² Third country settlement includes refugees settled in Cambodia, Canada and the United States of America.

Note that the historical figures for previous financial years have been refreshed and updated at the commencement of the current program year. As a result, due to retrospective data entries or systems corrections; and recent improvement to methodologies in the extraction of system data, the figures will differ from those previously reported.

Return Services

	Departures (No.) - YTD			Re-Integration Assistance (\$) - YTD		
	2018-19	2019-20	Variance	2018-19	2019-20	Variance
Onshore	129	121	(8)	\$415,100	\$410,100	(\$5,000)
Offshore	8	3	(5)	\$200,000	\$75,000	(\$125,000)
Nauru	2	3	1	\$50,000	\$75,000	\$25,000
Manus	6	0	(6)	\$150,000	\$0	(\$150,000)

Key Observations

Rapid Departure Assistance service (RDA)

The Rapid Departure Assistance service, delivered by the International Organisation for Migration as part of their existing returns services, is only available to transferees in the Regional Processing Centres and was implemented on 30 May 2014. This service provides an increased amount of financial assistance for individuals, compared to the assistance available to those returning from an onshore location. The increased costs associated with the implementation of RDA offshore accounts for the increase in costs across the program, despite a drop in the number of comparative returns from Manus Island and Nauru. Allowances are provided on a GDP per capita, country-specific basis and consist of cash and in-kind assistance.

Voluntary Departure Assistance service (VDA)

The Voluntary Departure Assistance service is only available to transferees in the Regional Processing Centres, and was implemented on 11 July 2014. This is a departmental service and facilitates departure for those transferees who wish to return home, but who the International Organization for Migration are unable to assist. Voluntary Departure Assistance allowances are cash allowances only and are structured on a GDP per capita, country-specific basis. Therefore, the amount of assistance provided through VDA is less than that which is offered under RDA due to the unavailability of in-kind assistance.

Finally Determined Refusal	5,606	137	11

¹ Includes IMAs who are 'in the review window' where relevant.

² Includes protection outcomes since 19 September 2013.

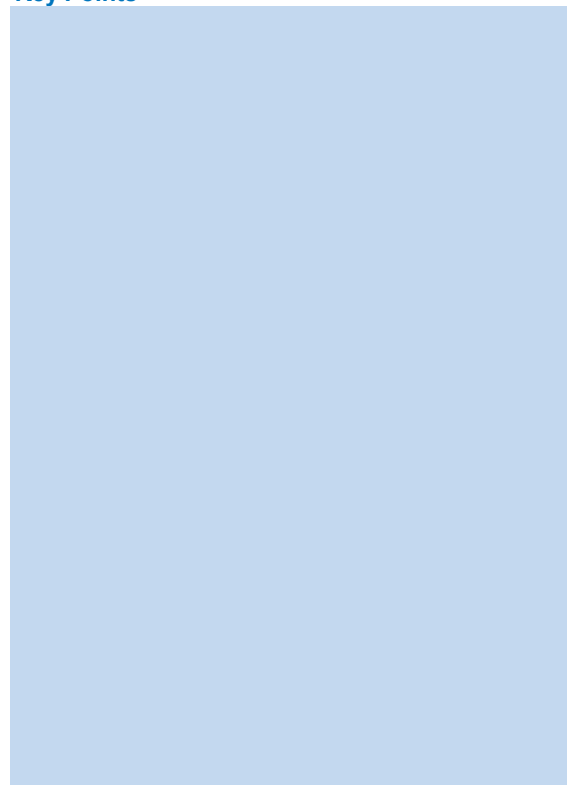

³ Excluded Fast Track represents IMAs at various stages of processing who have been excluded from merits review.

⁴ Excludes a small number of IMAs on Temporary Humanitarian Stay (subclass 449) or Temporary Humanitarian Concern (subclass 786) visas who have not yet lodged, are currently in the process or have already been finally determined. Figures exclude certain cohorts of IMAs that do not form part of the IMA Legacy Caseload.

⁵ BVE in community includes IMAs who previously held a BVE and are now undergoing a re-grant process.

⁶ Includes IMAs who are in correctional facilities.

1 Figures for 2018-19 (Jul-Jan) were extracted from Departmental systems on 10 Dec 2019. As data has been drawn from a dynamic source, any historical figures provided may differ slightly in previous or future reporting.

2 Figure includes General field actions and Employer Awareness visits. Field Operations activity has focussed on higher threat targets in 2017-18, including businesses and individuals who pose a significant risk to the Australian community. While this has resulted in a slight reduction in overall activity, Field Operations in 2018-19 will continue to focus activity according to the ABF Priorities.

3 Some non-citizens may have been located more than once in any given program year. Each location event is counted.

4 Employer Awareness activities includes field visits and administrative actions - Employer awareness activity statistics are also included as part of 'Field Actions - visited/executed'

5 This does not include all persons entering the SR Population as there are other factors and cohorts that lead into the SR Population aren't reflected

6 The figures include all onshore/offshore visa cancellations. A visa may be recorded as cancelled more than once: An example of a visa being recorded as cancelled more than once is if the visa is cancelled and the cancellation is subsequently revoked or set aside, and then the visa is cancelled again. A cancellation may be revoked or set aside for a number of reasons; including, further legal proceedings and administrative or jurisdictional errors. Duplicates may also exist.

7 s501 visa cancellation statistics have been derived from corporate frozen data and may not match other operational or live reporting. This excludes s501F visa cancellations. These figures have been provided by Complex & Controversial Cases section and was extracted on 10 Dec 2019.

8 This figure excludes IMAs, IMA crew, IMA BVEs, Illegal Foreign Fishers and other unauthorised arrivals.

9 Due to data availability this figure can only be provided yearly. There are known errors in the Estimate of UNC and numbers provided are an estimate only and are rounded. The Estimate of UNC is reported annually. No IMA are included in the UNC data

10 Please note that SRS reporting in relation to assisted/managed departures and resolutions populations has changed, due to recently implemented improvements to methodologies for producing these datasets. As a result, historical figures will differ from those previously reported. Figures in this table account for onshore assisted/managed departure only and does not include departures of non-citizens from Offshore Processing Centres.

11 Figures include IMA returns from the community.

12 Figures include IMAs, illegal foreign fishers (IFFs) and border turnarounds (sea and air arrivals who were not immigration cleared).

* A detection may be determined from either confirmatory or presumptive tests. This information is sourced from transactional systems.

^a Precursor detections refer to detections of chemical substances that are prohibited imports / exports that may be used in the manufacture of illicit drugs. Some precursors detected were likely not intended for the manufacture of illicit drugs but were active ingredients in health supplements, cold and flu preparations, herbal medicines and weight-loss products purchased on the internet.

^b ATS detections include methamphetamine and amphetamine but excludes MDMA (ecstasy).

^c PIED detections include steroids, DHEA (dehydroepiandrosterone / prasterone) and hormones.

^d On 5 September 2015, legislation amendments came into force which allows Border Force officers to search for and seize New Psychoactive Substances (NPS) and Substances Represented as Serious Drug Alternatives (SDA).

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Undeclared Currency (Traveller) (as at 30 November 2019)

Total	Financial Year			Year to Date		
	2017-18	2018-19	Variance	2018-19	2019-20	Variance
s47E(d)

Value (\$m)	16.31	14.06	(2.25)	7.82	4.26	(3.56)

* Detections of undeclared currency do not include instances of detections under \$10,000; fines issued as well as where no value amounts have been recorded. This information is sourced from transactional systems. The value of detections include all monies on a person such as pockets, wallet, carry-on bags, envelopes and checked-in bags. All foreign currencies are converted to AUD. All amounts are totalled and recorded.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.

Disposed	474	536	62	266	271	5
Still in Store/Transferred	324	997	673	225	563	338

* A detection relates to the number of items actually detected. This information is sourced from transactional systems. Undeclared conventional firearms, parts and accessories detections are 'undeclared detections' not 'seizures'. An imported firearm is considered an 'undeclared detection' when it has been detected and identified by the ABF as a prohibited or restricted firearm and where it has not been declared to the ABF in accordance with the import requirements.

** The term 'conventional' firearms excludes firearm categories such as imitations, airguns, BB guns and paintball guns but includes all other firearms.

Note: Data is taken from live systems and may vary from previously reported figures. Data is typically available 1 month after the end of each reporting period.
