

Administrative Appeals Tribunal

20 December 2021

Committee Secretary
Senate Legal and Constitutional Affairs Committee
PO Box 6100
CANBERRA ACT 2600

Dear Secretary

At the Supplementary Budget Estimates hearing on 26 October 2021 I undertook to provide every member named in the AAT's responses to questions on notice tabled on 8 October 2021 with an opportunity to provide additional contextual information.

Following the hearing, the AAT has emailed current and former members referred to in responses to the questions on notice, other than 7 former members for whom the AAT does not have a current email address and a former member where there was a request that they not be contacted, attaching tabled responses and asking them to advise whether there are any errors or omissions they consider require correction or any additional information they would like to share regarding the matters covered in the AAT's responses to the questions on notice.

The attachment to this letter contains the additional contextual information provided by members in response to my invitation. A small number of errors were identified through the consultation process, and those have been dealt with through the preparation of revised responses to questions on notice.

I acknowledge your letter of 17 December 2021 and the request to forward it to members of the Tribunal named in responses to those same questions on notice. I can confirm that the letter has been forwarded, with a cover note explaining that the information attached here is being provided to the Committee through this separate process.

Yours sincerely

Sian Leatham
Registrar
