2023-24 Additional Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 MYEFO, and implementation is subject to discussions with states, territories and local governments. All other information is at 7 February 2024.

The table includes projects with funding from 2023-24 only.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget and the 2023-24 MYEFO (relating to the newly established Corridors). It does not list projects in the following programs: Roads to Recovery, Black Spot Projects, Heavy Vehicles Safety and Productivity, Bridges Renewal Programs and Safer Local Roads and Infrastructure Program.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Additional Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 MYEFO, and implementation is subject to discussions with states, territories and local governments. All other information is at 7 February 2024.

The table includes projects with funding from 2023-24 only.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget and the 2023-24 MYEFO (relating to the newly established Corridors). It does not list projects in the following programs: Roads to Recovery, Black Spot Projects, Heavy Vehicles Safety and Productivity, Bridges Renewal Programs and Safer Local Roads and Infrastructure Program.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

Figures reflect profiles as at the 2023-24 MYEFO, and implementation is subject to discussions with states, territories and local governments. All other information is at 7 February 2024.

The table includes projects with funding from 2023-24 only.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget and the 2023-24 MYEFO (relating to the newly established Corridors). It does not list projects in the following programs: Roads to Recovery, Black Spot Projects, Heavy Vehicles Safety and Productivity, Bridges Renewal Programs and Safer Local Roads and Infrastructure Program.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

The table includes projects with funding from 2023-24 only.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget and the 2023-24 MYEFO (relating to the newly established Corridors). It does not list projects in the following programs: Roads to Recovery, Black Spot Projects, Heavy Vehicles Safety and Productivity, Bridges Renewal Programs and Safer Local Roads and Infrastructure Program.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

 Table provides Major Projects that were committed to in the 2022-23 October Budget and the 2023-24 MYEFO (relating to the newly established Corridors). It does not list projects in the following programs: Roads to Recovery, Black Spot Projects, Heavy Vehicles Safety and Productivity, Bridges Renewal Programs and Safer Local Roads and Infrastructure Program.
 Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.
 Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.
 Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.
 Completed projects are included where final payments are to be made (awaiting project closure report).
 Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expended in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Additional Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 MYEFO, and implementation is subject to discussions with states, territories and local governments. All other information is at 7 February 2024.

The table includes projects with funding from 2023-24 only.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget and the 2023-24 MYEFO (relating to the newly established Corridors). It does not list projects in the following programs: Roads to Recovery, Black Spot Projects, Heavy Vehicles Safety and Productivity, Bridges Renewal Programs and Safer Local Roads and Infrastructure Program.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Additional Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects
 Figures reflect profiles as at the 2023-24 MYEFO, and implementation is subject to discussions with states, territories and local governments. All other information is at 7 February 2024.
 The table includes projects with funding from 2023-24 only.
 All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.
 Table provides Major Projects that were committed to in the 2022-23 October Budget and the 2023-24 MYEFO (relating to the newly established Corridors). It does not list projects in the following programs: Roads to Recovery, Black Spot Projects, Heavy Vehicles Safety and Productivity, Bridges Renewal Programs and Safer Local Roads and Infrastructure Program.
 Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.
 Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.
 Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.
 Completed projects are included where final payments are to be made (awaiting project closure report).
 Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Additional Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 MYEFO, and implementation is subject to discussions with states, territories and local governments. All other information is at 7 February 2024.

The table includes projects with funding from 2023-24 only.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget and the 2023-24 MYEFO (relating to the newly established Corridors). It does not list projects in the following programs: Roads to Recovery, Black Spot Projects, Heavy Vehicles Safety and Productivity, Bridges Renewal Programs and Safer Local Roads and Infrastructure Program.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Additional Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 MYEFO, and implementation is subject to discussions with states, territories and local governments. All other information is at 7 February 2024.

The table includes projects with funding from 2023-24 only.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget and the 2023-24 MYEFO (relating to the newly established Corridors). It does not list projects in the following programs: Roads to Recovery, Black Spot Projects, Heavy Vehicles Safety and Productivity, Bridges Renewal Programs and Safer Local Roads and Infrastructure Program.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Additional Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects
 Figures reflect profiles as at the 2023-24 MYEFO, and implementation is subject to discussions with states, territories and local governments. All other information is at 7 February 2024.
 The table includes projects with funding from 2023-24 only.
 All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.
 Table provides Major Projects that were committed to in the 2022-23 October Budget and the 2023-24 MYEFO (relating to the newly established Corridors). It does not list projects in the following programs: Roads to Recovery, Black Spot Projects, Heavy Vehicles Safety and Productivity, Bridges Renewal Programs and Safer Local Roads and Infrastructure Program.
 Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.
 Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.
 Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.
 Completed projects are included where final payments are to be made (awaiting project closure report).
 Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Additional Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 MYEFO, and implementation is subject to discussions with states, territories and local governments. All other information is at 7 February 2024.

The table includes projects with funding from 2023-24 only.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget and the 2023-24 MYEFO (relating to the newly established Corridors). It does not list projects in the following programs: Roads to Recovery, Black Spot Projects, Heavy Vehicles Safety and Productivity, Bridges Renewal Programs and Safer Local Roads and Infrastructure Program.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Additional Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 MYEFO, and implementation is subject to discussions with states, territories and local governments. All other information is at 7 February 2024.

The table includes projects with funding from 2023-24 only.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget and the 2023-24 MYEFO (relating to the newly established Corridors). It does not list projects in the following programs: Roads to Recovery, Black Spot Projects, Heavy Vehicles Safety and Productivity, Bridges Renewal Programs and Safer Local Roads and Infrastructure Program.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Additional Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 MYEFO, and implementation is subject to discussions with states, territories and local governments. All other information is at 7 February 2024.

The table includes projects with funding from 2023-24 only.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget and the 2023-24 MYEFO (relating to the newly established Corridors). It does not list projects in the following programs: Roads to Recovery, Black Spot Projects, Heavy Vehicles Safety and Productivity, Bridges Renewal Programs and Safer Local Roads and Infrastructure Program.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

2023-24 Additional Budget Estimates: Infrastructure Investment Program - Australian Government Committed Projects

Figures reflect profiles as at the 2023-24 MYEFO, and implementation is subject to discussions with states, territories and local governments. All other information is at 7 February 2024.

The table includes projects with funding from 2023-24 only.

All figures are in \$ million and prepared on a cash basis. Funding profiles are informed by project start and end dates, which are subject to change following discussions with states, territories and local governments.

Table provides Major Projects that were committed to in the 2022-23 October Budget and the 2023-24 MYEFO (relating to the newly established Corridors). It does not list projects in the following programs: Roads to Recovery, Black Spot Projects, Heavy Vehicles Safety and Productivity, Bridges Renewal Programs and Safer Local Roads and Infrastructure Program.

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Where there are changes to projects between economic updates, they will be reflected at the next economic update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Completed projects are included where final payments are to be made (awaiting project closure report).

Where Local Government Area (LGA) information is not provided for a project, the LGA information is either not applicable for the project, not known at this time, or in progress with being updated with LGA information.

1	Community	NSW	Dubbo Regional Council	Dubbo Aquatic Leisure Centre - Upgrades	<p>The Dubbo Aquatic Leisure Centre (DALC) is a well-loved community recreation facility, however it is aging facility and is in need of an upgrade. Recent audits of the Centre's security, lighting and pump room facilities, as well as a number of security breaches that have occurred have highlighted major deficiencies in the safety and security of the site.</p> <p>As previous upgrades have been completed in an ad-hoc manner, parts of the existing lighting and security infrastructure are obsolete and do not meet current environmental standards.</p> <p>Lighting: A December 2020 audit of lighting at the DALC highlighted a safety concern for after-hours use of the Centre. At least half of the current floodlights are inoperative and there is no lighting directed at the public car park, staff car park, splash park or waterslide. No lighting exists outside the entrance to the DALC's new foyer and the current floodlights directed at the 50m pool are insufficient for evening events and carnivals.</p> <p>Replacing the existing Metal Halide Flood Lights with LED Flood Lights will reduce the existing energy use by up to 70% and reduce operational costs - every \$100 it costs to run the existing metal halide lights will be reduced to \$30 if replaced by an LED equivalent. Maintenance costs will be significantly reduced as the proposed LED fittings have a three year replacement warranty excluding labour and have a life span of approximately 35,000 hours.</p> <p>2. Security: A November 2020 audit of security at the DALC, as well as two concurrent break-ins, theft and damage to the centre, highlighted major gaps in the current security measures. The audit found that the facility has insufficient, incompatible and outdated security systems, with major sections of the facility (such as the club room and outdoor spaces) lacking even the most rudimentary alarms or monitoring.</p> <p>An integrated, comprehensive and custom-installed security system would</p>	Complete	\$150,000	May-21	Aug-21

The CHC upgrade project will result in improved functionality of the building and exhibition opportunities, incorporation of our Aboriginal Heritage, and improved accessibility and appreciation of the natural surroundings and view of the Castlereagh River. The proposed expenditure items are all eligible under the LRCI funding including:</p> <ul style="list-style-type: none"> * labour costs * material to construct the car parking spaces, establish driveable access, landscaping and irrigation systems. 1	Community	NSW	Parkes Shire Council	Cooke Park - Improvements	Cooke Park is Parkes' premium event Park. One of the challenges that we face during events is if there has been rain the Park can be very wet and we have had to bring in bark chip in the past to allow events to go ahead. Additionally the irrigation system in the park is nearly 20 years old, the aging infrastructure is prone to leaks and breakages and is not as water efficient as it could be. Additionally Council is constructing a new Multipurpose stage facility in the Park which will create the opportunity for water to be captured off the roof and reused in the Park. It is timely that Council upgrades the irrigation system to minimise water usage in the park and allow for the preparation of events in the Park (including the Parkes Elvis Festival) but also help with the recovery of the park after events. 1	Community	SA	Corporation of The City of Unley	Landscaping of an important walking and cycle corridor, following path widening to be undertaken by the State Government. The works involve vegetation clearance, soil improvements, irrigation and extensive planting of shrub, grasses and ground covers, as well as advanced trees. In addition to the corridor greening, improved way finding signage and upgrade LED path lighting will be installed.	The Mike Turtur is the most popular off-road cycle route for daily commuters into the CBD. Over time, the popularity has placed increased pressure on the path width and its capacity to accommodate increased cyclists and pedestrians. The State Government has chosen to increase the path width to improve the safety and efficiency of the route, between Musgrave Street, Goodwood and King William Road, Wayville. The Bikeway runs parallel to the existing tram corridor and adjoining side and rear fences of residential homes. To enable the construction of a wider path, extensive vegetation clearance is required. Much of the existing planting is old, self-seeded and overgrown, and inappropriate along the bikeway due to sightlines, CPTED, form or seed drop. The LRCI Program allows Council to invest in a new corridor landscaping to improve the safety, amenity and biodiversity for all users, and adjacent residents. A sustainable palette of predominantly native plants will be carefully chosen to ensure long term sightlines are maintained along the corridor, support the Council's long term tree canopy growth targets, and increase local biodiversity. Once established, the Council will take the longer term maintenance responsibility of the bikeway and corridor greening.	Complete	\$340,054	Feb-21	Jun-22

1	Community	SA	The Berri Barmera Council	<p>The revitalisation of Berri's Colin Jennings Apex Park (Apex Park) will incorporate improvements including an upgrade of the previous BMX track to a versatile pump track which can be used by bike riders, skateboarders and scooter riders of all abilities. Complimenting this will be an off-grid solar BBQ shelter and associated amenities so park users can spend extended time enjoying this space and the additional play equipment that will accompany it. Concrete connecting footpaths, that double as a junior scooter track meander through the native vegetation to connect the different zones of the park. Finalising the upgrades is new fencing for the current dog park, bringing the whole area together to deliver a unique and enjoyable public open space that provides positive health and wellbeing opportunities for the Berri and wider Riverland community.</p>	<p>The Berri township does not currently have a suitable community open space that provides adequate facilities for people to connect and enjoy together, while meeting the needs for families that are transport disadvantaged and unable to access other facilities within the district. Additionally, Berri has no free active public facilities for older age groups (pre-teens and teens) such as a skate park.</p> <p>This project will provide a pump track (amongst other infrastructure) which caters for a variety of ages and wheeled users. This is a community facility that is not currently provided by any of the other Riverland Councils and will be a distinctive point of difference for the park.</p> <p>The space currently has ad-hoc infrastructure including; a dog park, two small pieces of playground equipment, asphalt multi-use court and shaded gazebo. The existing layout lacks connectivity between the current facilities which reduces the appeal of the area. By teaming the pump track up with dedicated concrete connecting footpaths, that double as a junior scooter track, provides the safe connectivity required for the individual areas and is the perfect combination for families with children of varying ages.</p> <p>To ensure that the new features of the park are fully maximised, complimentary facilities such as; a fully solar BBQ, solar lighting, seating and drinking fountain will be installed to enable visitors to extend their time and utilise all that the park has to offer leading to enhanced positive health and wellbeing for our residents and other users..</p> <p>Given that much of the groundwork is already in place within the site, the additional enhancements will enable the Berri Barmera Council to provide a quality green space which offers a range of passive and active opportunities for our community which differ from the traditional playground layout.</p>	Complete	\$299,755	Apr-21	Dec-21

These issues will be addressed by installing shade sails over playgrounds and it is widely recognised shade provides beneficial outcomes for the community to encourage active play at times when they may not have played due to hot weather conditions. Council has three existing other playgrounds with shade sails over them, and due to these beneficial outcomes, is seeking to expand these over more playgrounds as part of this community infrastructure program. 1	Community	TAS	Central Coast Council (TAS)	Ulverstone Skate Park Redevelopment Major redevelopment of c.1970s existing skate park to provide modern activity hub with the adjacent, new MTB pump'n'jump courses. Includes new 'street' style skate elements, with proper zoned design to allow all-ages and wheelchair access, separate parkour obstacle area, new outdoor ball arena (half-court basketball and futsal), and refurbishment of existing picnic shelter area, including new bicycle parking. 1	Community	TAS	Hobart City Council	Queens Domain The project consists of the complete development of a whole new cycleway along with car park and associated infrastructure. The cycleway will be constructed on a steep gradient of land by the side of the old Tas rail line which is currently unused. The project rectifies many ongoing issues/complaints about the surface of the car park and road ways in this area.	The project brings together the "missing link" the missing connection of cycleway between the Regatta grounds car park and the Macquarie point development. Currently the cycleway ends requiring riders and other users to travel through an active car park and thoroughfare to the water. The potential conflict for users currently poses significant risk to public safety. The lack of connectivity to the new cycleway at Macquarie point often causes confusion throughout the cycling community and this is often addressed through our network / stakeholders meetings with cycling groups as a major area for improvement. The project will allow you to enter the cycleway throughout Glenorchy providing a continuous, safe path away from traffic directly into the heart of the Hobart central district.
