1	Community	WA	Town of Claremont	Claremont Aquatic Centre works Renewal of the Town's aquatic centre disabled change room and toilet facility and the addition of a family change room, improvements to the associated universally accessible access ramp, and the retaining and landscaping of the surrounding garden area.	The existing disabled facilities at the aquatic centre are in a poor condition and require renewal. The original aquatic centre complex was constructed in 1960. The change rooms and toilets that are still in use today were constructed in 1971 without dedicated disabled facilities. Around 2004 a demountable disabled toilet and change room was added to the south of the change rooms with a short access ramp connection provided. Having originally been constructed as a temporary measure, this disabled toilet and change facility is still in use today and is in urgent need of renewal. The disabled access path to this area is also in need of enlargement and improvements. Due to the vertical grades of the site, retaining of the land will be required to accommodate this work. The community facility also lacks a dedicated family change room with some patrons instead using the disabled change room in this capacity. New family change rooms will be added adjacent to the disabled facilities. All proposed renewals and upgrades will be designed to comply with universal access requirements in accordance with the Town's Disability Access and Improvement Plan.	Complete	\$104,010	Jul-20	Jun-21

2	Road	NSW	Lake Macquarie City Council	The Weir, Barnsley – replacement bridgeWeir Road, Barns	The existing Weir Road crossing over Cockle Creek is a single lane, two-way concrete causeway constructed in the 1920's. Barnsley Weir is closed to all traffic and freight vehicles during moderate rainfall events. The alternative route of 13.5km includes a number of signalised intersections and adds considerable travel time and costs to residents and businesses. The proposal is to construct a new bridge to address safety issues regarding the approach on both sides of the creek to the bridge. This plan will provide increased safety and ability for residents to use Weir Road to travel between local centres. The project will improve freight routes in the west of Lake Macquarie, supporting local jobs and underpinning economic growth. It will also enable all in the community to reach their destination safer and sooner.	Complete	\$2,771,018	Aug-21	Mar-23

As a response to community feedback during the exhibition of the Masterplan, it was proposed that the existing public toilets in Townhead Park would be replaced with new toilets. The project entails the demolition of the existing public toilet block located in Townhead park and the construction of new accessible facilities. The existing toilets do not meet current accessibility guidelines, are dated and are not in keeping with the surrounding structures and the high profile nature of the site, being the gateway to the town and a rest stop for visitors	Complete	\$295,957	Dec-21	Jun-22

2	Community	NSW	Strathfield Municipal Council	Fragrant GardenStrathfield District ParkMitchell Street, St	Community – Landscaping Improvements Community Infrastructure – other The Strathfield District Park is an area that was formerly a golf course and is being converted to meet the active and passive recreational needs of residents and visitors from surrounding areas. The Park is surrounded by medium and high density housing. To date, the community needs for active recreation are being met through walking and bicycle routes through the park, extensive parkland areas that allow for personal exercise and “workouts” and it is planned that in the future, there will be a number of hard courts constructed for mainly ball sports. The park also adjoins Council’s Golf Driving range that is constantly patronised. In terms of areas for passive recreation such as family gatherings there are extensive lawn and BBQ areas, a feature lake and currently under construction with Federal funding support is an amenities facility that will allow for extended stays. For children with disability and their carers Council is constructing a Maze and play area that will be available to all children, regardless of their abilities. The missing component of this park is an area for singular, quiet passive recreation that would appeal to older residents or those needing to access a peaceful and stimulating area. The Fragrant Garden will provide this space and allow Strathfield District Park to respond to the health and wellbeing needs of all residents	Complete	\$801,335	Sep-21	Apr-22

2	Road	QLD	City of Gold Coast	New Proposed Project Ron Penhalogin Way, Robina (Cheltonham Drive to Manly Drive)	The Road Rehabilitation and Reseal Program is the primary renewal program to address surface renewal demand. This program identifies roads in accordance with the Traffic Assets Management Plan and the Sustainable Road Pavement Management Plan. Preventive maintenance is the single most influential component in the network strategy that allows the Council to manage pavement condition. It creates the ability to postpone costly reconstruction or rehabilitation activities, by extending the remaining service life of the original pavement. The effectiveness of long-term preventive maintenance and rehabilitation is based on asset life cycle performance, asset rehabilitation program and life cycle costing. A significant benefit of a comprehensive pavement preservation and proactive maintenance program is that it manages future network condition and funding requirements, thus reducing whole of life pavement construction and management costs. Condition assessment undertaken in March 2019 on a 375-metre section of Ron Penhalogin Way, Robina identified heavy ravelling, wheel path cracking and rutting with an average PCI of <5. Given this result and applying the prioritisation criteria detailed above, this road is priority for immediate intervention. The proposed section for rehabilitation is between Cheltonham Drive and Manly Drive, is 10m in width with two active traffic lanes and a small width shoulder. Ron Penhalogin Way is a residential collector road and facilitates a bus route. The proposed rehabilitation scope is 4,250m ² of asphalt consisting of a 50mm structural layer and a 50mm wearing course (total depth 100mm).	Complete	\$331,247	Oct-21	Oct-21

2	Road	QLD	Townsville City Council	Hammond Way Culverts (73A)	Drainage: Construct new concrete wingwalls required to maintain the integrity of culvert to mitigate safety risks. Upon a routine site inspection of construction works at 73A Hammond Way, several defects were noted on the culvert legs. This warranted further investigation and consultancy Premise were engaged to undertake a structural assessment of the culverts. Results of this assessment revealed the culvert legs were overstressed and nearing the end of their serviceable/design life. Specific defects include lack of horizontal reinforcement in the culvert legs, horizontal cracking, corrosion of exposed reinforcement, blocked weepholes and insufficient cover. Given the age and condition of the culverts at 58 & 73A, Premise recommend that TCC replace the existing culverts with a new structure in the near future. With the additional scope of replacing the culverts, identified non-compliant guardrail and unstable embankment, to maintain budget constraints, TCC request to remove all work related to 58 Hammond Way from the scope and utilise the remaining budget toward complete rectification of 73A Hammond Way. Construction of 58 Hammond Way never commenced, and the structure remains untouched. A design will be completed for replacement of the culverts at 58 Hammond Way with construction to commence in future financial years. With the additional scope of custom cast culverts, compliant guardrail in the approach and departure lanes, embankment stabilisation due to steep batters, new road, asphalt and line marking, combined with a third La Nina event, TCC would like to design and construct the project in FY23/24. The reserve development will aim to redevelop a partially developed reserve that has high community value and this was emphasised through the recent community consultation process. The Park is a 9500m2 reserve that is underutilised with very little activation, there is existing tree canopy that is nearing is end of useful life, along with play equipment and a toilet facility that are at the end of life. The proposed development is to activate the space with landscaping, seating, pathways, vegetation and stormwater management. The overall beautification of the site will provide safe passage for pedestrians, play space for local children, a connection between the eastern entrance to the CBD of Streaky Bay. The reserve shall consider stormwater mitigation measures such as swales and rain gardens. It will provide a valued recreational space that is currently unavailable to residents on the Eastern section of town and as a key to a welcoming entrance and place to gain bearings for visitors coming into the township. 2	Combination	SA	Wattle Range Council	Penola to Coonawarra Walking / Cycling Track	The concept of a walking and cycling trail from Penola to the Coonawarra was developed following investigations into a regional trails network that was completed in 2015. With the increasing awareness of the value of outdoor recreation in relation to health and wellbeing, and the Coonawarra Wine Region being acknowledged as an excellent tourism attraction, the development of a multi-use walking and riding trail would add strongly to the region. A well planned and constructed trail network in this area would cater to a range of users including recreational walkers and runners, cyclists, and tourists wanting to visit wineries and other destinations. The section of trail proposed for development runs for approximately 16km (excluding links to wineries and tourist attractions) from the town of Penola through several vineyards and wineries to Coonawarra. Additionally, Naracoorte Lucindale Council is currently developing a 16km connecting the Naracoorte township and the world-heritage listed Naracoorte Caves to strengthen the high-quality visitor experiences offered in the region. This Stage 2 of the project, to link the caves to cabernet via a shared-use rail trail, will be managed directly by the Naracoorte Lucindale Council.	Complete	\$736,052	Oct-21	Mar-22

2	Community	VIC	City of Greater Shepparton	Victoria Park lake Power Upgrade[NEW PROJECT]	It is proposed to install permanent power supply boxes to the open space area at Victoria Park Lake, Wyndham Street, Shepparton. Costs to Council's Events Team for electrical/generator/electrician services and hire were \$90,094.86 over the past 5 years. This does not include community and private event company costings and having in excess of 18 annually events where they all have to source power, there is a need to address and implement improved infrastructure for availability, consistency, and safety of all users. Having this upgrade in place will also improve the capacity for the location to be marketed appropriately to a broader range of events organisers and companies as this area will have the capacity to deliver event needs without the requirement of temporary infrastructure inclusions, which all come at a cost to either Council or event organisers, thus giving the site improved capabilities and attractiveness for events and reducing the outlay for temporary infrastructure. 2	Community	WA	Shire of Bruce Rock	Bruce Rock Supermarket. Corner of Johnson and Bath Street	The only supermarket in the Bruce Rock town site burnt down as a result of arson in March 2020. The Shire seeks to construct a new supermarket building to ensure residents have access to a secure food supply. This is paramount for vulnerable community members who are unable to travel 40km to the next town for grocery shopping with no support system present. Currently, the Shire are operating a temporary supermarket from the Town Hall, resulting in the hall being unavailable for community events and sporting activities. A retail consultant determined that the Shire of Bruce Rock would be extremely unlikely to attract a retailer to operate a grocery store if the retailer had to also construct a building. The Shire intend to build the supermarket, fit it out, and lease it to an independent retailer. Building a new supermarket contributes to the local economy by creating jobs during construction and ensuring the continued future of the local retail economy. At present, many retail businesses in Bruce Rock have been negatively impacted by people travelling out of town for grocery shopping, as the current supermarket is unable to stock all the stock lines they require. Specific components of the construction of the Supermarket Phase 2 funding will be used for include: substructure, trenching and conducting for Electrical and Communication Services, and power supply head works. 3	Community	IOT	Shire of Christmas Island	Foreshore Precinct, Christmas Island, -Lingiari Electorate NT	Project Name: Foreshore Artwork - Category: Painting / Improvement to Community Facilities - Brightening up the 40m blank wall looking over the Foreshore Padang Park area with colour, creativity and community stories. The Shire has just completed a successful public art program 'Our Streets Are Our Museums' which featured 7 walls around the township depicting images from local history. We were looking to continue this public art theme with the LRCI grant by beautifying the Foreshore Padang, which is a leisure and recreation precinct of some size on the Foreshore. The site used to be an outdoor cinema in the past, so we were looking at some creative documentation of that in the artworks to interpret that history onsite. It is also the precinct where the historical Chinese Literary Association resides. Thus the artist will be given a brief to not only make the art fit a rec/leisure precinct, but to also add the dimension of local history and culture to the place.	Complete	\$40,000	Nov-22	Dec-22

3	Community	NSW	Carrathool Shire Council	Refurbishment of Hillston Water Tower Project location: 197 High Street, Hillston NSW 2675 Work category: Other	Hillston Water Tower provides water to the regional community of Hillston. The water tower has exhibited vertical and horizontal cracking which has led to a leak, approximately three quarters of the way up the tower. To alleviate the leak, the tower has been set to not fill past the leak which has resulted in a noticeable loss of pressure in the water distribution network. To rectify the issue and to prolong the effective life of the water tower, the Scope of Works consists of high-pressure water blasting of the interior surfaces, sandblasting of the cracks, the application of relining material and sealing of the interior of the water tower. These rehabilitation works are essential in ensuring the continued operation of this critical water infrastructure component in the Hillston community. Council would like to request a following variation. In addition to the abovementioned works, the contractor has determined that additional essential repairs are needed in order to preserve the water tower and ensure its usability in the future. The additional essential works include replacing damaged pipework, removing internal and external access ladders and fixing the roof structures to prevent any future water contamination. 3	Combination	NSW	Lord Howe Island Board	Depot pavement renewal	<p>Lord Howe Island is a remote island in the south Pacific with the local Authority being the Lord Howe Island Board (LHIB) and a community population of around 400 people. LHIB manages numerous Civil Infrastructure Services streams from its operational depot and well as providing community mechanics services from the same space.</p> <p>LHIB depot pavement area is in immediate need of renewal and requires hard stand and resealing to make safe for depot operations – enabling various service delivery streams to operate from this facility such as civil infrastructure reconstructions, maintenance works and vehicle maintenance services. Large failures in the pavement area have expanded over time causing the area to become difficult to manoeuvre machinery such as forklifts in a safe and efficient manner as well as other mobile plant such as cranes, excavators and general light vehicles – all used to delivery works for the local community. The depot is used to house numerous materials and equipment to enable delivery and construction of community assets such a facilities, roads and walkways across the island. It is also used to store both public and private and community building materials that would otherwise be exposed to harsh marine conditions. Other works undertaken at the depot include providing community services such as car registration checks and community vehicle maintenance works - LHIB is the only vehicle registration mechanic operating on the island servicing the populations’ vehicle and machinery maintenance needs. If the depots pavement area is not treated soon it may pose safety risks to the local community users. The depot is a multi-purpose facility that without it operating effectively a reduction in infrastructure delivery and maintenance service delivery across the island could occur rapidly.</p> <p>The project proposed consists of designing a treatment option for the existing depot pavement area to increase hardstand area as well resealing its existing aged flexible pavement. An adjoining section of road and community carpark is</p>	Complete	\$102,858	Jul-22	Jun-23

3	Road	NSW	Orange City Council	Southern Feeder Road (Stage 4 – Anson St to Pinnacle Rd)	The Southern Feeder Road (Stage 4 - Anson St to Pinnacle Rd) is the next stage in a six stage process to develop Orange's Southern Economic Development Corridor, a strategic east-west link to, from and around the city. The Corridor is vital to Orange City's future economic growth and regional strength. The Southern Feeder Road (Stage 4), will increase freight and traffic efficiencies. Safety, connectivity and productivity for the city and region more broadly will be improved. The road will take traffic off indirect and inefficient routes through residential streets or the heavily congested Mitchell Highway/main street. It will improve access and connection to key employment precincts and the city's newest 1800-lot residential suburb.	Under Construction	\$1,241,618	Apr-23	May-24

3	Community	NSW	Orange City Council	Glenroi Oval playground -	Council is creating a district level playground within Glenroi Oval. In line with a district level playground, the equipment has been selected to provide a variety of play options across a wide range of age groups. This places the Glenroi Oval playground at the same level as the popular facilities at Elephant Park and Gosling Creek Reserve. The materials used in the design are generally more robust than standard play equipment so we certainly hope that the playground will be able to withstand a lot of the vandalism that occurs in our parks from time to time. We have included rubber softfall in higher wear areas (e.g. under swings and slide exits) to reduce maintenance requirements. Total investment for supply and install is \$170K. Council is contributing \$120k to the project.	Complete	\$50,000	Jul-22	Dec-22

3	Community	NSW	Singleton Council	Singleton Rugby League – Clubhouse Development – New Amenities and Function Area	Improving the clubhouse facilities are desirable to support both the functional requirements of the game as well as enhancing the player, member, supporter, and sponsor experience. The key outcome of the development extension is not only social but economic. The social benefits are derived from the improved involvement of women in the sport of Rugby League in Singleton, the Clubhouse amenities extension development will be ready to welcome growth in not only the club but the surrounding community. The development for the ground floor facilities will introduce an additional female change facility as well as a female officials’ room. Developing female change rooms will continue the encouragement of more women in Rugby League. The upgrade will not only allow for female ground-level change room facilities but also for an upstairs function/meeting room, which will consist of a fully functional and sustainable meeting/function room. The development will pioneer the way for additional female involvement and increased registration in the sport of Rugby League and the overall clubhouse upgrade will incorporate many other requirements and desirability’s for the club in the long term. 3	Community	QLD	Central Highlands Regional Council	Tip Shop external roof	<p>Painting/Improvements to Community Facilities</p> <p>Construct a roof over the outside storage area of the tip shop. The tip shop is a facility that allows the region to recycle their own household goods. The roof will be put in place to protect these items for resale. The tip shop is a community facility that has an operational lease and runs as a loss for Council. The objective of the facility allows the region to recycle their own household goods as Council strives for greater sustainability in our region. The roof is necessary to provide greater storage capability of second-hand goods as otherwise goods must be disposed of, preventing Council from achieving a more sustainable operation.</p>	Complete	\$19,326	Nov-22	Jun-23

3	Community	QLD	City of Gold Coast	Pedestrian Access from Pimpama Sports Hub Overflow Carpark	Improved Accessibility of Community Facilities and Areas Funding is required to bring forward the establishment of an accessibility pedestrian footpath from a completed overflow car park (approximately 300 car spaces, with 140 sealed) at the soon to be completed Pimpama Sports Hub. Currently the car park is not able to be safely accessed directly from within the parklands with access having to be managed under traffic control down Bull Road (local road). Minor Change to Conditions has currently been submitted and a concept plan has been developed by Landscape Architects Place Design. This project will support safe access to car parking for major events and activities in the new Regional Hub that is anticipated to have close to a million visitors a year once fully operational. Includes an allowance to formalise sealed car parking arrangements.	Complete	\$930,000	Jan-23	Jun-23
3	Community	QLD	City of Gold Coast	Parkwood & Arundel Community Centre Improvements	Painting/Improvements to community facilities The Parkwood and Arundel Community Centre was established in 2001 and is operated by a community organisation to provide a diverse range of activities and programs to the local community. The internal facilities are reaching end of life resulting in high maintenance and cleaning costs as well as reduced visitor experience. The scope of work is to refurbish the kitchen and amenities, replace the flooring and other minor upgrade works to modernise the centre, extend the asset life and improve the customer experience.	Complete	\$280,000	Jan-23	Apr-23
3	Community	QLD	City of Gold Coast	Safety Camera Network Urban Villages CCTV Project	Closed Circuit TV (CCTV) This project involves installation of 10 (ten) new CCTV cameras and supporting infrastructure to meet community needs in expanding urban villages, including Palm Beach and Robina. Project activities will also involve upgrades to existing CCTV equipment in urban villages across the city, to enhance the overall effectiveness of the Safety Camera Network and respond to emerging safety issues and growth, including increases in activation. The project will provide for the introduction of new technology, increased reliability and connection to the City's optical fibre communications network where available.	Under Construction	\$320,000	May-23	Jun-24
3	Community	QLD	City of Gold Coast	Runaway Bay Precinct East Soccer New Lighting Project	Sporting and recreation facilities (Sports Lighting) Funding is required to bring forward this new lighting project due to an increase in community demand & growing membership rates due to population growth. This lighting project will provide additional junior playing space for night time use. Council has funded preliminary design studies and gained Land Use approval for the new lighting infrastructure however there is no budget identified to deliver these works. If funding is provided, construction will be able to commence immediately after the Winter season.	Complete	\$500,000	Mar-23	Jul-23
3	Road	QLD	City of Gold Coast	42 Marine Parade, Southport Footpath Renewal	Renewal of Footpath (including equitable access for all users) Renewal of the footpath directly outside the eastern frontage of Australia Fair shopping centre to address the asset's end of life renewal and accessibility standards. The project is 240 metres long along the full eastern frontage of Australia Fair Shopping centre and includes replacement of the hardstand that fills the full width of the verge, width varies from 2.5 metres to 5 metres. The path will comply with AS1428.1 for Access and Mobility to provide equitable access for all users. The existing brick pavement is in poor condition, presenting loose and cracked bricks which over time have become difficult for City Maintenance to replace when damaged. This asset does not meet current pathway standards and is not DDA Compliant, limiting access and use for those with a disability.	Under Construction	\$1,200,000	Apr-23	Apr-24

3	Combination	QLD	City of Gold Coast	Tallebudgera Creek Boardwalk Renewal and Upgrade	<p>Renewal and upgrade of boardwalk</p> <p>The project will renew and upgrade the boardwalk on the southern bank of Tallebudgera Creek which forms a connection between the Oceanway and the shared path that runs through the Tallebudgera Creek Park. Previous remediation works, involving replacement of the substructure, were undertaken 12 years ago to extend the life of the timber structure. In early 2021, temporary protection works were undertaken to protect part of the structure from scouring of the creek bank. Recent condition assessments have shown the structure is approaching the end of its useful life.</p> <p>The project will upgrade the boardwalk to a more suitable standard to improve its capacity and align with future works in the area, including the GC Light Rail off-corridor active transport projects. The replacement boardwalk will be widened from 2 to 4 metres and will include a viewing platform along part of the boardwalk to allow users to step to the side of the pathway to experience views of the creek, Burleigh Headland and the ocean. Permanent scour protection works will be installed at the location of the recent temporary works.</p>	In Planning	\$2,473,650	Feb-24	Jun-24

3	Community	QLD	Goondiwindi Regional Council	Inglewood Rising Water Main Replacement Corner of Chilcott and Callandoon Streets, Inglewood	<p>The project is to replace a non-serviceable existing potable water rising main which is one of a pair connecting the Inglewood WTP with the storage reservoirs, and the storage reservoirs with the reticulation system. The replacement potable water rising main will be 680 m in length, constructed from 250 mm HDPE and will be bored under Macintyre Brook.</p> <p>The project will significantly reduce the major risk of water supply interruption due to failure of the single remaining main; as well as allowing GRC to pump to the reservoirs and release to reticulation simultaneously, addressing GRC's current limited ability to maintain supply under high demand conditions or to meet firefighting demand if required.</p>	Complete	\$600,000	Mar-22	Aug-22
3	Community	QLD	Goondiwindi Regional Council	Texas Reservoir Mixer Installation Texas town reservoir, Stanthorpe-Texas Road, Texas	<p>Installation of a WEARS reservoir mixing system and chlorine dosing system to the Texas town reservoir.</p> <p>During low demand periods, the treated water reservoir experiences very low turnover which leads to the degradation of treated water quality and causes difficulty in maintaining the residual chlorine concentration required to ensure effective disinfection and safe drinking water. Disinfection is currently achieved by dosing chlorine immediately downstream of the WTP filtration stage and prior to treated water entering the town reservoir. Because of the need to ensure adequate chlorine residual in water leaving the reservoir during low demand periods, chlorine is dosed at a higher rate than would otherwise be required. This leads to potential consumer complaints during high demand periods, when the chlorine rapid reservoir turnover means that water with higher than usual chlorine concentration can enter the reticulation system, as well as the increased potential for the formation of disinfection by products during low turnover periods, and increased cost due to excessive chlorine consumption.</p>	Complete	\$175,000	Mar-22	Feb-23

3	Community	QLD	Goondiwindi Regional Council	Inglewood Reservoir Mixer Installation Inglewood town reservoirs	<p>Installation of a WEARS reservoir mixing system and chlorine dosing system to the Inglewood town water reservoirs.</p> <p>The combined storage capacity of Inglewood's two reservoirs is 2.45 ML and serves a population of approximately 850, with an average daily water demand of approximately 420 kL/day. During low demand periods, the treated water reservoirs can experience very low turnover, leading to a degradation of the stored treated water quality and causing difficulty in maintaining the residual chlorine concentration required to ensure effective disinfection and safe drinking water. Disinfection is currently achieved by dosing chlorine at the WTP, immediately downstream of the point where filtered surface water and bore water are blended. Because of the need to maintain chlorine residual in the potable water rising main and ensure adequate chlorine residual in water leaving the reservoir during low demand periods, chlorine is dosed at a higher rate than would otherwise be required. This leads to potential consumer complaints during high demand periods, when the chlorine rapid reservoir turnover means that water with higher than usual chlorine concentration can enter the reticulation system, as well as the increased potential for the formation of disinfection by-products during low turnover periods, and increased cost due to excessive chlorine consumption.</p>	Complete	\$255,000	Mar-22	Feb-23
3	Community	QLD	Goondiwindi Regional Council	Wild Dog Check Fence Replacement As per coordinates	<p>This project is to replace sections of the wild dog check fence in key strategic locations within the Goondiwindi Region.</p> <p>Our local economy benefits from a diverse agricultural sector, and invasive animal pests have a wide variety of impacts on the economy, the environment and society. The Goondiwindi area has witnessed increasing agricultural losses because of vertebrate pests such as wild dogs.</p> <p>The Wild Dog Check Fence is strategic infrastructure which is pivotal in protecting our Landholders from the potential impacts of Wild Dogs. It gives them the confidence to still run small stock in our region, adding to the diversified nature of our agricultural sector. The ongoing maintenance costs associated with the check fence's deteriorating condition is increasing, along with the risk of wild dogs breaching the fence line. This will result in significant impact to local livestock producers.</p>	Complete	\$381,106	Mar-22	Feb-23
3	Community	QLD	Goondiwindi Regional Council	Talwood Recreation Grounds Improvements Recreation St, Talwood	<p>The Talwood Recreation Grounds is a hub for community activity for that area. 3	Community	QLD	McKinlay Shire Council	McIntyre Park Facility Enhancement	McIntyre Park is a community facility which supports a range of community groups and events including thoroughbred racing, campdrafting, rodeo and horse sports. It is essentially the local Show grounds. The facility will undergo a number of upgrades including: Refurbishment of Amenities blocks – replacing of existing damaged floor tiles, re-painting of interior, replacement of toilets and tapware to meet standards and improving accessibility. For large events, crowds can often reach nearly 1000 people and the current state of the facility is not well equipped to handle these demands. Upgrade Arena Lighting – The current lighting used is dated and expensive to run and maintain. The lights will be upgraded to new energy efficient LED lights. The works will involve the removal of the original Halogen lighting to be replaced by new LED lights. Council has had discussions with a sporting lighting specialist to create lighting plans to ensure there is sufficient lighting in the arena to ensure safety for all users. Yard Improvement – enhance the stock yards to ensure easy handling of stock for volunteers and also ensure welfare of the stock.. 3	Community	QLD	McKinlay Shire Council	Mini Golf	Design and construct of new mini-golf course adjacent to Caravan Park for community and tourist use. The main aim is to provide an activity for families of our community to enjoy and be active. Further we believe the facility will attract visiting families to the town which will enhance tourism and have many economic benefits to the entire community. We are an isolated community, and we endeavour to provide facilities to our families to lead an active lifestyle and also connect as a family. Due to the size of our population, it is not intended to be a profit-making facility and we expect potentially the operational costs will outweigh the revenue received. Though will have in-direct benefits to the liveability of the community and flow on benefits to the people it attracts.	Under Construction	\$200,000	Sep-22	Nov-23

3	Community	SA	City of Port Adelaide Enfield	Barker Inlet Tidal Gates Upgrade	Drainage/Other/Improved accessibility to community facilities: The Barker Inlet Wetland receives stormwater from the approximately 50% of the City of Port Adelaide Enfield Council area as well as water from City of Charles Sturt, City of Prospect and City of Salisbury Councils. The wetlands are a crucial piece of infrastructure which provides habitat for flora and fauna, walking paths, bike paths and also provides stormwater flood storage. The tidal gates form an integral part of the sea wall between the Barker Inlet Wetlands and North Arm Creek and allow stormwater out and limit the ingress of seawater. Currently the tidal gates are in extremely poor working condition and require significant upgrade works. Due to the inability to operate the tidal gates the wetlands are currently holding an additional 300mm of water. This has meant that the Northern Connector shared use path and the internal walking paths are often under water and unable to be used. With sea levels rising there is also significant concerns that rising water levels will also increase flooding in the commercial/industrial areas of Wingfield and Dry Creek. This project requires the replacement of the dilapidated tidal gates including automation and upgrade of the access ways to ensure the gates can be maintained and operated within work health and safety guidelines. This will ensure better stormwater management and protection of councils infrastructure including bike, pedestrian paths and significant vegetation.	Complete	\$2,100,000	Oct-22	Jun-23

3	Community	SA	District Council of Coober Pedy	CCTV Hutchison Street (Highway to Drive In)	Closed Circuit TV (CCTV) This project will purchase and install an integrated CCTV system from the Stuart Highway to the Coober Pedy Drive-In, travelling the length of Hutchison Street (main street). Multiple groups across the community (including business, tourism, and residents) have been calling for an upgrade to the current system for a long time. The current CCTV system is faulty and inadequate. A partnership is being developed with SA Police, that will see the CCTV system used in the best way possible, and in accordance with all legal obligations. The project will deliver a sense of safety and security to the community, both locals and visitors alike. Increased safety and security leads to greater economic outcomes for the hospitality and tourism industry within the community and ensures that a more positive word of mouth is shared by visitors on various online platforms. It is essential for a remote community.	Complete	\$90,100	Aug-22	Apr-23
3	Community	SA	District Council of Coober Pedy	Improving Safety and Engagement – Coober Pedy Community Playground	Playgrounds and Skate parks There is a need to begin replacing outdated or broken components of the playground. Components of the asset range from 9-25 years of age and are showing signs of disrepair. This project will replace the swing module, replace the climbing module whilst adding a slide, and add a dancing snake module and musical play module to the existing playground. The current swing module is broken and inadequate. The current climbing module is aging and needs repairs. The dancing snake module will add a new challenging element, and the musical play module a new engagement element to the existing playground. The playground is a key community asset, utilised by locals and visitors alike. It is the first stop for many tourists as they arrive in town. This project will compliment other projects in the precinct, including confirmed greening (planting of trees and shrubs), the creation of swales and wind breaks, and improvements (lighting, resealed benches) that council are already working on. The other project listed to take place in LRCIP Phase 3, as listed in this nomination form, have financial contingencies built into its plans. 3	Combination	SA	District Council of Robe	Esplanade, Robe	Reconstruction/Off Road carparks/Traffic Improvement/ Improved Accessibility of Community Facilities and Areas: Existing carparks along the Esplanade are short, which means users are standing on the road when unloading and loading vehicles from the rear. This was identified as a risk in the 2020 traffic study. 50 Carparks are being deepened by encroaching 3m into the grass on the Long Beach park. A section of parallel parking is also being realigned to 10 90 degree parks to match the rest. Significant usability, safety improvements will be the result. Carparks can now also accommodate the length of a motorhome.	Complete	\$20,000	Jan-22	Mar-22
3	Community	SA	District Council of Robe	Cooper Street, Robe	Improved Accessibility of Community Facilities and Areas /Bicycle and Walking Paths/ Traffic improvement: Pedestrian access to the Robe Medical Centre is not possible from the centre of town along footpaths, or from most of the street parking that isn't immediately fronting the facility. A 55m section of block paved footpath along with pram ramps will be installed to provide safe access. Currently people, gophers and other assistance devices walk on the road. These works align with our Disability Access and Inclusion Plan 2020	Complete	\$10,000	May-22	Jun-22
3	Community	SA	District Council of Robe	Robe Street, Robe	Street Lighting/ Off car Parks: Installation of 2 solar powered LED lights in the main off street carpark on the corner of Robe and Victoria streets. After sunset this carpark is dark and difficult to negotiate due to the distance from mains street lighting, Equipment Lighting Robe. Street carpark. These works align with our Disability Access and Inclusion Plan 2020	Complete	\$8,000	Jun-22	Aug-22
3	Community	SA	District Council of Robe	Town Beach - Lake Butler Marina, Robe	Bicycle and Walking Paths/ Improved Accessibility of Community Facilities and Areas/ Resealing: The Foreshore walks in Robe are very popular. At the town beach the existing old and dilapidated path does not reach the main street and public toilets, meaning people who need wheels, or a smooth walking surface can access these areas. A new section of path will be built where it is required (65m) and the old path will be resealed from the new section all the way from the foreshore to Marina entrance (412m) & Marina entrance to Arthur Fennell Way boardwalk (300m) and a (32m) new path from Arthur Fennell Way to boat ramp carpark. These works align with our Disability Access and Inclusion Plan 2020	Complete	\$73,000	Jun-22	Sep-22
3	Community	SA	District Council of Robe	Seafarers Crescent, Robe	Sealing/Bicycle and Walking Paths/ Improved Accessibility of Community Facilities and Areas/ Street lighting equipment: Sealing of the Drain L to Seafarers Crescent walking trail 1,114m long and installation new solar lighting for safety. This popular walking trail has historically been limestone road base and dirt and is responsible for an increasing number of injuries and issues, along with silt and soil erosions in the waterway. Providing a sealed connection from the large, long beach residential area, beaches and parks is a key action in the Disability Access and Inclusion Plan 2020. Currently people who are not fit and able bodied need to walk in the bicycle lanes of the Department of Transports main road to access town. The lack of seal on the path means children, families pushing prams, children on small bikes and people who use disability aids can't enjoy a safe and scenic walk.	Complete	\$230,000	Jun-22	Sep-22
3	Combination	SA	District Council of Robe	Victoria Street, Robe	Traffic Improvement/ Improved Accessibility of Community Facilities and Areas: Council will establish additional parking off the main street in side streets of Robe through the realignment and line marking of existing parking and the use of one way sections. In the main street we will replace carparks with 2 loading zones (there aren't any currently) and an additional disabled carpark. Currently main street parking is at capacity and delivery vehicles double park and block the street. The use of the existing disabled parks indicates and additional one is required. This work will create 20 additional parks. These works align with our Disability Access and Inclusion Plan 2020	Complete	\$41,534	Feb-22	Mar-22

3	Community	SA	District Council of Streaky Bay	Wirrulla Oval Playground Development	Playgrounds and Skate parks (including all ability playgrounds). The existing playground has become outdated and in need of replacement. The playground will be replaced with a new built to standard, modern, fit for purpose facility and equipment. The Playground is located at the Wirrulla Oval Sporting Precinct and is regularly utilised by the community and visitors. The Wirrulla Oval is the major recreational precinct for the district and the main play space location. The grounds supports netball, football, tennis, social gatherings and community events. The nearest play facility of this nature is located in Streaky Bay a 65km drive. The development will provide a space for members of this remote community to gather whilst also continuing to support its recreational and sporting activities.	Under Construction	\$35,000	Mar-23	Dec-23
3	Community	SA	District Council of Streaky Bay	Streaky Bay Youth Precinct Development	Playgrounds and Skate parks (including all ability playgrounds). The current skate park facility is dated, limited to a certain demographic of users and reaching its end of useful life and is in need of repairs. There are limited facilities at the site including no toilets. The scope of the works is to complete landscape the site, refurbished and expanded skate park, shelters, seating, BBQ, greened areas, nature play space, pump track and toilets installed. Concept planning has been completed. The revised concept will provide a safe and inclusive community youth precinct where the youth of the district and our visitors can play, engage and connect with each other.	Complete	\$300,000	Apr-23	Sep-23
3	Community	SA	District Council of Streaky Bay	Streaky Bay Township Entrance Statements	Landscaping Improvements. The township of Streaky Bay currently does not have in place any kind of welcoming or identity branding into the township. The project would involve design of a number of concepts, followed by community consultation to ensure the design meets the need of the community. The entrance statements to be located at each entrance to the township will include reference to local traditional custodians, whilst also providing the entire community with an entrance that provides them with a place of identify and welcoming. Entry statements can grow tourism, attract investment and even become a destination on their own right. Then entry signs will showcase the region, convey the vibrancy of the local culture and maintain a strong harmony with the surrounding environment. In total there will be two (2) entrance statements constructed. The entrance statements will be permanent fixed structures.	Complete	\$150,000	Apr-23	Aug-23
3	Combination	SA	District Council of Streaky Bay	Streaky Bay – Bay Road Streetscape Development	Landscaping Improvements. The Bay Road (reserve development) will aim to develop an undeveloped nature reserve that runs adjacent to Dodgson Drive and Bay Road (between Wallshutzky and Centenary Road) in Streaky Bay. The reserve is a 30m wide x 600m wide nature reserve with existing tree canopy and stormwater catchments. The proposed development is to activate the space with landscaping, seating, pathways, vegetation and stormwater management. The overall beautification of the site will provide safe passage for pedestrians, play space for local children, a connection between the southern entrance to the CBD of Streaky Bay. The reserve shall consider stormwater mitigation measures such as swales, rain gardens and physical infrastructure that will alleviate flooding that is sometimes prevalent in the area.	Complete	\$618,146	Apr-23	Oct-23
3	Community	SA	District Council of Tumby Bay	Port Neill Jetty Maintenance Work Category: Sporting and recreational facilities	Recreational Jetties: Renewal works to replace end of life structural components including piles, crossheads, bearers to maintain safe and accessible community recreational facility. 3	Community	SA	Yorke Peninsula Council	Arthurton Main Street beautification. Category: Bicycle and Walking Paths	Arthurton's main street features an impressive sporting complex that hosts a variety of sporting and recreational activities, as well as the fast-growing Arthurton Pop-up Markets, which are this year nominated for our region's Event of the Year. This section of the main street has a sealed footpath, but it does not continue down to where the actual businesses are. The poor condition of the unsealed footpath in this section means visitors often track mud and dirt in to the markets, making a mess of the courts and indoor clubrooms. This project proposes to create a sealed footpath from the current footpath site along to the main street businesses. Arthurton Progress Association, a volunteer group working to improve the town, also plans to beautify the section with some lawn and planter boxes, although that will be funded from the community and not the LRCIP. 3	Community	SA	Yorke Peninsula Council	Various Southern Yorke Peninsula Water Tower Upgrades. Category: Bicycle and Walking Paths	Installation of recycled plastic interpretive signage near each water tower. These signs will feature information about the individual murals including key aspects relating to each town, and the recovery effort from the '19 bushfires which spawned the mural trail project. The community benefit will be added interest for tourists (increasing the tower visitation experience, with added visitors more likely to result in spending in towns) and preserving local history (background of project/bushfires etc.) for improved community connectedness. The signs will be fixed in place and complement the towers which are our biggest non-coastal tourism drawcard.	Under Construction	\$10,000	Nov-22	Dec-23
3	Community	SA	Yorke Peninsula Council	Bulbacowie & Wool Bay -Southern Yorke Peninsula water tower extension project. Category: Painting/Improvements to community facilities	Painting of water tower and tank with murals and associated works that include car parking, pathways, fencing, and signage to extend the Water Tower Mural Trail and offer further tourism benefits. This project will continue Yorke Peninsula Council's Southern Yorke Peninsula Water Tower Mural Trail project. This is community/public art as part of a project that has already proven to bring tourism to the region and boost community pride (https://www.ypct.com.au/news/towering-project-officially-launched and https://www.ypct.com.au/news/tours-of-port-vincent-water-tower-mural-1). The artwork will be viewable to all and help attract visitation to Bulbacowie/Minlacowie as well as Wool Bay. The exact artwork will be dependent upon community consultation and artist EOI concepts, but will continue the theme established by the existing tower and tank murals of showcasing the region and, when possible, the township itself. Please see https://yorke.sa.gov.au/discover/things-to-do/southern-yorke-peninsula-mural-trail-yorke-peninsula-art-trail/ which details the process undertaken to ensure the community directed the artwork concept and how it represents their town/local area. 3	Community	TAS	Glenorchy City Council	Construction of Montrose Skate Park	This Project has 2 phases, one for design and the second for the construction phase. These additional funds are for the construction phase for a project. The majority of the project is already grant funded, but a shortfall has been created by Covid-19 cost escalations and a poor sub-base. The construction work being carried out in connection with the development of the new skate park located within Montrose Foreshore Community will include: -Initial set out of the area including the confirmation of services. - Excavation and shaping of an area, which will cover approximately 700sqm – this is completely within Council owned land. - Installation of drainage lines which will be connected to various locations / features within the final skate park e.g. the ‘bowl’ - Importation of structural sub-base material to form a stable base – the present ground has through geotechnical assessment been assessed as unstable. - Following the importation of stabilizing material, a base layer of concrete will be laid, this will form the initial foundation on which the skate park will be constructed. - Form work forming the features as showing in the design along with final connection to drainage system. - Concrete pours and installation of exposed steel elements - Apply the finishing concrete across the site (this is fine grained coating which is designed to withstand the impact of skaters)- The whole of the skate park is then treated with an anti- graffiti coating. - Re-instatement of the surrounding ground / landscaping works. -Addition funds are required to stabilize the area prior to construction – the unstable nature of the site was identified during the geotechnical investigation as part of the design process. 3	Combination	TAS	Hobart City Council	New Town Retail Precinct Upgrade - Cross Street and Salvation Army Zones. - Reconstruction; Bicycle and Walking Paths; Other (Bus Shelter), Landscaping Improvements.	Streetscape upgrade of New Town retail precinct to create a more vibrant, inviting and accessible local shopping area along New Town Road. The project scope has been developed through an extensive community participatory planning (co-design) process to promote a sense of local ownership amongst community and business stakeholders in the evolving, mixed use main-street environment. Improvements to pedestrian access, safety and amenity are prioritised. Anticipated health and wellbeing benefits and the improved local business environment delivered by the project, will enhance local community resilience in a post COVID-19 context. The Project will: Deliver improved active travel outcomes, especially walking, further enhancing connectivity throughout New Town, with a focus on pedestrian safety, access and amenity. -Enhance liveability of the precinct with greening including a new 'pocket urban park', and new trees and ground level plantings, which will support the growing population. -Upgrade mobility and public transport support infrastructure, including bicycle lanes, improved bus shelters and lighting. - Improved digital connectivity future proofing. -Feature engaging and enduring public artwork that reflects the identity of the area. - This zone will reinvigorate New Town's heart at the junction of Cross and Valentine streets with a flexible, traffic calmed space that will improve pedestrian safety and can also be used for temporary events, markets and other community activities. This area will feature: - a raised pedestrian threshold, new footpaths and reconfigured intersection to calm traffic and improve pedestrian access. - Removable bollards will allow for occasional community events. -Raised pedestrian thresholds on side streets to assist pedestrian access and safety. - A high quality public bus shelter and landscaping adjacent to the new 'community hub' on New Town road, delivering improved DAA access, lighting, weather protection and safety outcomes for bus passengers. - Addition of greening and amenity with new trees, plants, art and street furniture. - Complementing the above works and funded separately will be a new pedestrian crossing facility on New Town Road with kerb buildings and median island, North of Cross Street. 3	Road	TAS	King Island Council	Second Seal Programme	Sealing. The project involves placing the second seal on approximately 13.5 kilometres of road. These roads were previously gravel roads and had a first seal applied circa 2017. In accordance with good road construction practice a second seal should be applied to complete the works. This usually takes place some after the initial seal and this work is now overdue to be completed. The roads involved are Old Grassy Road, Cape Wickham Road and South Road. A significant difference with this project and other projects undertaken by Council is that it will be utilising external contractors who will bring machinery and workforce to the island. This approach is due to the scale of the works involved and the resulting efficiency that they can achieve with their equipment resources. Also, to attract contractors to the island there has to be a substantial body of works to make it attractive to them at a reasonable price. Smaller projects are able to be undertaken by the Council utilising its internal resources	Complete	\$599,062	Mar-22	Apr-22
3	Combination	TAS	King Island Council	Recreation Complex	The Recreation complex is used for horse racing, equestrian events, the local Show and other community events. 3	Community	TAS	Launceston City Council	Launceston Aquatic Centre Air Handling Unit Replacement	Sporting and recreation facilities - Air Handling Unit (AHU) Replacement in Leisure & 50M Pool Halls Benefits: • Existing AHUs are approaching end of life and need replacing. • New AHU reduces load on new heat pumps, therefor extending their useful life. • New AHU will give more redundancy / capacity during winter • Includes return air bypass which has huge reduction on amount of air heating needing to be done, therefore increasing efficiency and reducing energy costs • Self-contained AHUs re-use waste heat for their internal heat pumps and are more energy efficient than the bluebox heat pumps. The project will improve the air quality within the centre thereby increasing the amenity and overall comfort of users. The upgraded air handling system will also continue to support public health guidance regarding appropriate ventilation in buildings.	Under Constructio	\$870,000	Jul-23	Mar-24
3	Community	TAS	Launceston City Council	Asbestos Removal	Other - Removal of asbestos from community facilities, updating of asbestos registers as required. Preliminary investigations indicate that building structures within the St Leonards Sports Precinct, and several Memorial Halls within the municipality contain asbestos. Whilst compliance checks have indicated the sites are compliant, Council would like to reduce any risk to negligible by removing the asbestos. Updating asbestos registers are a legislative requirement. The final outcome will mean any future renewal or maintenance works can be completed with a higher degree of certainty and be more cost effective to execute. The resultant risk of exposure to users will be negligible as the asbestos will no longer be present. The nominated locations are: 1. Dilston Memorial Hall 2. Soldiers Memorial Hall 3. Royal Park Rugby Change Rooms	Under Constructio	\$83,000	Sep-22	Jun-24

3	Road	VIC	City of Greater Shepparton	Fryers Street / Thompson Street Upgrade	The key focus of this project is to improve the safety of the intersection and this comes hand in hand with increasing the capacity of the intersection and the flow of traffic. The traffic modelling report completed by Stantec (2021) demonstrates that the existing T intersection will hit capacity due to the increase in traffic in 2022. Therefore, a new roundabout on the eastern side of the railway has been recommended to bring significant traffic flow and safety benefits. Without the intersection improvements the northeast approach will perform very poorly, resulting in long queues and motorists trying to turn into smaller gaps in the oncoming traffic flow, challenging geometry for vehicles, limited queuing space, level-crossing and introduction of the SCC. All these factors, demonstrate that this project will provide a crucial safety upgrade and will reduce risks of accidents occurring in the future.	Complete	\$1,000,000	Jul-22	May-23

3	Community	VIC	East Gippsland Shire Council	Old Slipway, Lakes Entrance	<p>The Old Slipway is a historic site situated on the Esplanade in Lakes Entrance and overlooks the stunning Cunninghame Arm waterway. It is a high-profile site but has remained largely unused for the past 15 years due to it being inaccessible and unsafe for public use.</p> <p>This project will redevelop the iconic Old Slipway site in Lakes Entrance by constructing a flexible public open space in the form of a 600 square meter terraced deck and staging area atop the existing slipway surface. The deck will create a community area that is enjoyable, safe, and universally accessible. It will enable the Old Slipway site to become an idyllic waterfront location for events, gatherings and recreation.</p>	Under Constructio	\$400,000	Sep-22	Jun-24
3	Community	VIC	East Gippsland Shire Council	Nowa Nowa Boat Ramp	<p>The township of Nowa Nowa has one boat ramp facility which caters for all recreational boating activities in the area. The timber jetty is in poor condition due to its age and nearing the end of its useful life. Furthermore, it is at times unusable for many months of the year due to extreme high and low water levels encountered at the site.</p> <p>This project will improve this important community facility through replacement of the existing fixed timber jetty with a universally accessible floating pontoon jetty, installation of a solar light and rehabilitation of the gravel carpark area. These improvements will greatly improve the functionality, accessibility and safety of the site as well as stimulate economic growth and recovery though increased visitation and spending.</p>	Complete	\$75,000	Jan-22	Jun-22
3	Community	VIC	East Gippsland Shire Council	Genoa Tennis Court Upgrade	<p>Rebuild the two community tennis courts, and replace them with two compliant tennis courts that will also provide opportunities for informal netball and basketball use</p> <p>Rebuild the courts with a sustainable foundation for longevity, which will be further aided by the installation of a root barrier to protect the courts from an invasive Poplar adjacent to the court enclosure</p> <p>Update courts with line marking for netball and basketball</p>	Complete	\$148,643	Jan-22	May-22
