4	Community	NSW	Mid-Western Regional Council	Mudgee Riverside Walking Track Playground Construction	CATEGORY: Playgrounds and Skate parks. Construction of a new outdoor play space alongside the Mudgee Riverside Walking Track at the recreational precinct of the Glen Willow Regional Sporting Complex. The project will be constructed in line with Stages 3 and 4 of the endorsed Complex Master Plan. Scope of works include design and consultation; site establishment and preparation; pathway construction; installation of new play space equipment, soft fall surface, and shade sail; landscaping; and completion, site clean-up and remediation. The recreational precinct of the Glen Willow Regional Sporting Complex currently has a dog park, seating and shared pathways which attract hundreds of residents and visitors each day including families with young children. The recreational precinct does not have a play space, and requires one so young children of families attending the precinct for recreation can play on modern, accessible, inclusive, and engaging equipment. The play space will provide increased play opportunities and experiences at the precinct for children. The project will additionally support, and be supported by, future development in the precinct including the construction of a pump track facility, public toilet facility, and outdoor gym/bootcamp. These recreation facilities will attract additional people (including parents with children) to the precinct, and they will require a play space for their younger children to play at whilst the older children use the pump track facility and outdoor gym. The play space will allow young families to attend, stay, and play at the recreation precinct for longer, and will increase the amenity of the precinct and overall Complex. 4	Community	NSW	Muswellbrook Shire Council	Construction of an extension at Denman Children’s Centre, Ogilvie Street Denman NSW 2328	The project is to provide an additional 25 pre-school places for families with young children. The extension includes an additional pre-school play area, staff room, office space, covered veranda, storage spaces, toilets, kitchenettes and associated amenities. Minor landscaping, including tree planting locations, boundary and internal fencing, and interfacing with the existing outdoor play area is also to be undertaken as part of the works. The Denman Children’s Centre (DCC) is a community based not for profit organisation managed by a volunteer committee made up of parents and members of the local community. The DCC is currently licensed for 39 children per day from 6 weeks of age until school age. The centre is currently operating at capacity, and there is a need for expansion of the facilities to continue to effectively cater services for families in Denman and surrounds.	Under construction	\$337,084	Aug-24	Jun-25
4	Community	NSW	Muswellbrook Shire Council	Replacement/refurbishment of sand filters and associated improvements at the Muswellbrook Water Treatment Plant, Scott Street, Muswellbrook NSW 2333	Project management, preparation of tender schedules and other documents for the project, engineering design, awarding tender (advertising, submission, Council decision and contracting), source media (possibly USA), site preparation, removal of existing media including backwash modification, underdrain clean and repair, install new air scour grill, media replacement, filtered access points, and commissioning. The cost of Project management will be covered by the Regional NSW Infrastructure Betterment Fund. The filters at Muswellbrook Water Treatment Plant are older style filters designs that do not meet typical modern design standards. The Plant’s sand filters are therefore challenged in achieving Health Critical Control Limit targets in the water treatment process, particularly during heavy rain events when the ‘run of river’ raw water supply becomes high in turbidity. There are several areas which could be upgraded to improve their operation/performance: •Launders: The filters are not equipped with launders. The travel distance between the walls of the filter cell to the washout gullet is much longer than typical design targets. •Media configuration: low L/d ratio and limited backwash bed expansion. •Underdrains: nozzle density is low. •Backwash and air scour rates: backwash rates insufficient to achieve bed expansion and there is no control of air scour rate. The refurbishment of the sand filters will provide an efficient barrier to the removal of chlorine resistant pathogens such as Cryptosporidium from the water supply, reducing health risks, which were identified in a recent Drinking Water Management System risk assessment review for high priority investigation and rectification. Project includes minor landscaping. Need for community facility for benefit of families with young children (safe water play) – both locals and visitors – to the Nambucca River Foreshore	Under construction	\$183,865	Jul-24	Jun-25
4	Road	NSW	Narrabri Shire Council	Drainage Narrabri Bowen Street, Narrabri (65m) – Between Maitland Ln and Barwan Street (LHS) Hinds Street, Narrabri (340m) – Between Wilga and Violet Street (LHS)	Replacement kerb and guttering Improve kerb and guttering to protect the road from water entering under the surface by improving drainage. This means the road condition is improved and there will be less potholes and defects in the road surface.	Under construction	\$225,176	May-24	Jun-25
4	Community	NSW	Narrabri Shire Council	Lighting at sport field ovals (three locations) •Collins Park, Narrabri •Jubilee Oval, Boggabri •Cook Oval, Wee Waa	Install LED lighting at sports field ovals Upgrade to multi-level lighting for increased participation on two ovals for local and regional activities at Collins Park Narrabri and Jubilee Oval Boggabri. Providing adequate lighting increases sport participation, especially in winter when it is becomes darker earlier in the evening. In Summer, the lighting will allow for sports to be played later in the evening when the temperature has dropped.	Under construction	\$900,000	May-24	Jun-25
4	Community	NSW	Narrabri Shire Council	Boggabri Court House (historical significance)	Stage 2 – kitchen renovation, plaster, painting, toilet upgrades, verandah improvements Manage and renovate infrastructure and other assets on public reserves to optimise value to the community and comply with regulatory obligations, to ensure public safety and work health and safety is maintained. The former courthouse is now Boggabri’s only community centre. Similarly, to a town hall, it is not open for anyone to wander around, instead community groups can book to use it. Currently, only two groups are using it a couple of hours, four days per week. More groups are keen to use the facility, if the 50 years old kitchen and toilets were in usable condition. Council is keen to improve the facility so it can be more widely used and occupied fully every day.	Under construction	\$90,000	May-24	Jun-25
4	Community	NSW	Narrabri Shire Council	Drainage - Narrabri Lawn Cemetery	Replacement kerb and guttering (1400m) Improve kerb and guttering to protect the road from water entering under the road surface by improving drainage. This means the road condition is improved and there will be less potholes and defects in the road surface.	Under construction	\$200,000	May-24	Jun-25
4	Community	NSW	Narrandera Shire Council	Destination & Discovery Hub interpretative fit out	Interpretative fit out in accordance with the masterplan, including interactive displays and audio visual experience. The joinery and associated works are all fixed items as per the attached drawing set and costings. This includes: • 1 x Intro panel - with digitally printed graphics • Wall Mounted Interpretive Panels with digitally printed graphics - 4 x 2140mm H x 1160mm and 3 x 3 smaller panels, each panel is 1550mm H x 1100mm. • Island display unit with incorporates an interactive 'touch/feel' area - 2890mm L x 2200mm W x 2400mm H. • Touchscreen Interactive Table Unit - 1700mm L x 1185mm W x 850mm H. • (4D Immersive Experience) – The Fish Trap - This experience is created to enrich the significance of the Murrumbidgee River and in particular, its connection to First Nations Peoples. The "Fish Trap" provides us with a perfect structural form to deliver the Murrumbidgee story. With controlled lighting, projected imagery, and interesting sound effects, the visitor becomes part of the river itself. In traditional theatre the audience, the "fourth wall", merely observe the show. A visitor walking through the fish trap has the Murrumbidgee story delivered in three dimensions, creating a memorable immersive experience. • (It was decided that the fish tank posed significant potential operational risk long-term, with the management of live fish, cleaning and maintenance requirements of the tank. It was also felt that this would dissuade people from visiting the John Lakes Learning Centre as they will have already experienced a native fish tank, rather than encourage them to visit. In its place we anticipate a 4D immersive experience that engages the public, and reflects our culture and how it naturally entwines with our waterways and with a feature on the surrounding wildlife including fish. This will provide the community and visitors with a wholistic historic and informative experience that showcases the Council area and surrounds. The project is to be located within the new Destination and Discovery Hub (see attached photo) and be used at no charge by the whole community, schools, and associated groups and definitely not for the sole benefit of tourists.	Under construction	\$250,000	Nov-24	Jun-25
4	Community	NSW	Narrandera Shire Council	Maree Bashir Park – Playground Upgrade Stage 1	Adventure playground (toddlers) as per the masterplan, including: •'Bluey' inspired play house + tree house •Frisbee spinner •Chill out hammock •Accessible see saw, and more play equipment. •Playground softfall replacement with rubberised softfall where required, •40m of pedestrian fencing to be placed on the park boundary. Replace aged infrastructure and provide age appropriate recreation equipment for 0-8 years old.	Under construction	\$297,363	Nov-24	Jun-25
4	Community	NSW	Narrandera Shire Council	Trangie Library Extension	The scope of this extension project is to extend the library by 43 m ² (at the rear of the building) i) demolish the existing bathroom facilities; ii) create a storage area that does not exist currently at the Library, and iii) construct a new disabled toilet that will have both internal and external access, using the same construction materials (brick) of the current Library. There is no storage space at Trangie Library premises, this construction project will allow for additional space that will include a storage area and a new disabled bathroom. There is no storage space at Trangie library under the current footprint and the bathrooms are dated and difficult to access for patrons in wheelchairs.	Under construction	\$220,000	Apr-24	Jun-25

4	Road	NSW	Narromine Shire Council	Gainsborough Road intersections (Tullamore Road and Tomingley Road)	To allow for a slip lane at both intersections for turning traffic Under LRCIP funding Round 1, Council has upgraded Gainsborough Road to a Hierarchy 1 Road, ensuring the road can be used as a heavy vehicle bypass. To meet Australian Road Standards and Transport for NSW guidelines, Council must construct new intersections at the entrances to Gainsborough Road. The new intersections will be expanded from one lane with turning lanes and slip-lanes incorporated. On Tomingley Road an additional three lanes will be added, a left and right turn on the southbound carriageway and an acceleration lane on the northbound carriageway. The additional lanes have a chainage of 210 metres. On Tullamore road an additional two lanes will be added over a chainage of 200 metres, left turn lanes on both the southbound and northbound carriageways. At the completion of the intersection upgrade Council will classify the route as an official heavy vehicle bypass, significantly reducing traffic into the town's centre, reducing dust, noise, odour and risk to the residents of Narromine. 4	Community	NSW	Snowy Monaro Regional Council	Lake Jindabyne Foreshore Lighting Improvements	Replacement of 20 existing light poles on the path along the Jindabyne Foreshore with fit-for-purpose LED solar lighting, targeting the areas prone to water inundation The existing lights are past their useful life in terms of function and, due to the lower height of the legacy poles, the lights are often vandalised. Foreshore amenity and pedestrian safety will be greatly improved through the installation. As the new lights will be positioned on significantly higher poles, the risk of vandalism will be lessened which will reduce the repair cost burden to Council & the broader community.	Under construction	\$120,000	Feb-25	Jun-25
4	Community	NSW	Snowy Monaro Regional Council	Jindabyne Claypits Carpark Sealing and Upgrade	Upgrade of the Claypits Carpark in Jindabyne with improved drainage, sealing the surface and formalising parking. The existing carpark is prone to damage due to the weather extremes and requires ongoing significant maintenance. By improving drainage and sealing the carpark it will decrease maintenance burden and improve user experience at the site. By formalising parking it will ensure that more vehicles are able to safely access & utilise the site, thus supporting community use demand in this high profile public recreation location at Lake Jindabyne. *The subject lights are, and will remain, Council infrastructure functionally. The foreshore section is owned by Snowy Hydro Limited (SHL is a government business enterprise), under lease to Council for community purposes - with the current lease tenure through to 2067. 4	Road	NSW	Transport for NSW	Drainage (Floodway restoration) – Umberumberka Causeway	Works will include repairing downstream damage at Umberumberka Causeway due to erosion caused by Umberumberka Reservoir overflows. Works will include extensive earthworks to rehabilitate the downstream batter to a 6:1 grade and construct a 180m long concrete flume structure to prevent further erosion. The current road condition poses a significant safety risk to motorists. The overflow from the Umberumberka Reservoir has eroded the road towards the travel lane and has caused a drop-off of over two metres high. Transport for NSW has installed nightline and other precautionary measures to ensure the safety of the public until repairs are undertaken.	Not Started	\$969,769	Apr-25	Jun-25
4	Community	NSW	Tweed Shire Council	Dry Dock Road Boat Ramp – Sailability	Undertake a significant upgrade of the Dry Dock Road boat ramp and associated facilities in Dry Dock Park. The upgrade would include provision of a new pontoon, small craft launch ramp and fish cleaning table, as well as improvements to landscape, scour protection and pathways. This project will benefit the public generally. Specifically, it will benefit, users of the Tweed River for recreational boating, fishing, Dry Dock Park users. 4	Community	NSW	Tweed Shire Council	Bilambil Heights Sports Field – On Site Waster Water	This project will install a licenced on-site wastewater management system (septic system) at Bilambil Heights Sports Field. The Bilambil Heights Sports Field is a public access sports field which caters for open space demands for the Tweed Heads, Tweed Heads West, and Bilambil Heights urban areas. It is not located within a sewer reticulation catchment area and as such has a licenced on site waste water infrastructure (ie. septic system). The current system has most likely failed because of flood inundation. The system services the onsite public access toilets, club house and change rooms.	Under construction	\$100,000	Feb-24	Jun-25
4	Community	NSW	Tweed Shire Council	Mooball Creek / Pottsville Beach - Sea Wall Repair	Restoration and reconditioning of the north and south seawalls at the mouth of Mooball Creek, Pottsville. The current seawalls are in dilapidated condition and was built in the 1960s to keep the lagoon open. This project will repair both the north and south sections of the seawall. The seawall is an integral part to maintain public access to both the north and south sea walls of Pottsville Beach as well as public access areas of Mooball Creek. Repairing the seawall will also have an environmental benefit by reducing the frequency of the IOCLI (intermittently opened and closed lagoons) and protect water quality.	Under construction	\$450,000	Feb-24	Jun-25
4	Community	NSW	Tweed Shire Council	Pottsville Environment Park	Removal of 4 x deteriorating timber walkways (totalling approx. 50 linear metres) and replacement with new footings, structure and decking constructed using longer lasting more durable composite material (50-100 year life span estimate) similar to new walkways recently constructed at Casuarina. Cost includes survey, design, approvals, supply of all materials and construction. The Pottsville Environment Park is a public access park within a wetland reserve. This project will upgrade the access infrastructure allowing for a safer nature based recreation experience. These upgrades have been identified through recent community engagement. The upgraded assets will be higher quality with a longer expected life.	Under construction	\$150,000	Feb-24	Jun-25
4	Community	NSW	Walgett Shire Council	Improved access – Lightning Ridge Indigenous Gardens	This project will deliver gravel paths. 4B	Road	NSW	Griffith City Council	Thorne Road - GSIL Stage 4a (i)	Reconstruct, Upgrade and Widen Thorne Road for a length of 530m from Murrumbidgee Avenue to Sidlow Road, including reconstruction, widening and drainage Industry has expanded in this area of the Griffith LGA, as a direct result of construction of a heavy vehicle bypass adjacent to the section of Thorne Road. The proposed section of Thorne Road Stage 4a(i) is currently in less than ideal condition due to poor drainage, and narrow and sub-standard pavement for use by heavy vehicles. This leads to frequent patching and high maintenance and repair costs. The following issues will be addressed with the upgrade of this section of Thorne Road; 1.Increase capacity of the road network in the transport and industry sectors to cater for HML (Heavy mass limit) vehicles on the Griffith Southern Industrial Link Road (Heavy Vehicle Bypass). 2.Remove heavy vehicles from the Griffith CBD and recreational precincts. 3.Provide an alternative route for general vehicles. 4.The upgrade of Stage 4a (i) will provide a suitable pavement for HML transport to reduce travel time and bypass urban environs; from farm gate to processing facilities, transport hubs and ports in NSW, Victoria and South Australia.	Under construction	\$594,496	Jul-24	May-25
4B	Road	NSW	Hay Shire Council	Lachlan Street Shoulder Pavement Upgrade	Upgrade the shoulder pavement on Lachlan Street, Hay CBD. The project is both sides of Lachlan Street, Brunker Street to Leonard Street – a total of 500m of shoulders (2 sides) equating to 1800 sqm of heavy patching, 9750 sqm of reseat, 172 m of K&G replacement, and linemarking. Lachlan Street (Cobb Highway) is the main street through Hay and is the parking area to access the retail and business district of town. The project is to improve the pavement (through general road maintenance), parking access and amenity of the main street. Works to occur between Brunker and Leonard Streets, Hay. 4B	Road	NSW	Bourke Shire Council	Reform West Culgoa Road	The road surface has been lowered by many years of grading the surface down to reduce deformation. Consequently, the road surface holds water during and for a long time after precipitation or inundation. It is proposed to completely reform the shape of the road formation using in situ materials. This would create deeper table drains (with associated mitre drains) and a raised level of road surface. It is proposed to then stabilise the re-formed road surface to a depth of 150mm so that it is less reactive under wet conditions. The stabilisation material, slag/cement or similar, is to be chosen to best match the specific conditions at the location. Increased accessibility for rural residents and motorists traversing between Bourke and Weilmoringle. Construction and maintenance of west Culgoa road.	Under construction	\$592,131	Jan-25	Jun-25
4B	Road	NSW	Broken Hill City Council	Wills Street between Graphite St and Gypsum Street – Rehabilitation	Heavy Patching work is required at various locations on Wills Street between Gypsum Street and Graphite Street. The road section has undergone a transformation in its shape due to the presence of crocodile cracking at various points along the street. To restore the road to its original form, it is necessary to carry out extensive heavy patching. This approach will ensure the road's usability for several more years, leading to cost savings in regular maintenance and postponing the need for reconstruction.	Not Started	\$12,500	Apr-25	Jun-25

4B	Road	NSW	Cobar Shire Council	Bore placement program	Council will sink 5 bores in five different locations within Cobar Shire and purchase 7 water tanks for bore sites. Water plays a big role in maintaining roads and ensuring all of the road networks within the shire are up to standard and safe for all road users. Cobar shire has a large, unsealed road network these bores will help improve the quality of these roads.	Under construction	\$275,000	Sep-23	Jun-25
4B	Road	NSW	Cobar Shire Council	Footpath reinstatement in Marshall Street Cobar	Council will remove approximately 120m of existing concrete footpath and replace with a concrete design that matches the existing pavers in Marshall Street. There will be localised adjustments to the concrete levels to accommodate for the level differential between the existing path level and the shop front levels. The footpath between 27 Marshall Street (Harvey Norman, Cobar) and 3 Marshall Street (vacant block opposite the Cobar Memorial Services Club) northern side of Marshall Street requires improvements. The current footpath is cerement and does not match the rest of the main CBD red pavers on the southern side. However, the bigger problem is the footpath is uneven, splitting and is causing a safety risk to pedestrians. This footpath is in the main CBD area which is used frequently with 10 shops fronts along the northern side and a new development of a supermarket in planning stages on the vacant corner at 3 Marshall Street. This new development will increase the pedestrian traffic and increase the urgency to improve this footpath for the community. The footpath upgrades will invest in a safer footpath, which directly links to the NSW Active Transport plan action of providing safer, and better precincts and main streets.	Under construction	\$350,974	Sep-23	Jun-25
4B	Road	NSW	Coffs Harbour City Council	Carey Way Extension	Emergency flood egress route from Eyre Road (Lakes Estate) to Carey Way. 4	Community	NT	Victoria Daly Regional Council	Pine Creek Storm Water Management and Drainpipe Repair	Phase 1: Develop a storm water management plan and detailed design drawings to upgrade the storm water drainage system in Pine Creek Community, ensuring effective water flow and preventing future issues, including the repair of a collapsed underground stormwater drainpipe. Phase 2: Implement the repair and restoration of the collapsed underground stormwater drainpipe and other related work based on the upgraded storm water management plan and design. The Pine Creek Community is in need of a comprehensive storm water management upgrade, including the repair of a collapsed underground stormwater drainpipe. The storm water management system has become inadequate to handle the community's needs, and a collapsed underground drainpipe poses safety and environmental risks. The project will be divided into two phases: Storm Water Management Upgrade with Drainage System Design (Phase 1) and Upgrade the stormwater management drain and Underground Drainpipe Repair (Phase 2). 4	Road	NT	Department of Logistics and Infrastructure	Fleming Road Upgrade to Seal from 2.9 to 8.5 km	The proposed work is to upgrade the section from 2.9 to 8.5 km from unsealed to sealed standards. Fleming Road is a key access road for Douglas Daly region cattle and agriculture industry to transport livestock and timber to interstate and Darwin Port. Fleming road is unsealed after 2.9 km from the intersection with Ooloo Road. The unsealed section of the Fleming Road gets bogged down and underwater during wet, obstructing livestock transport mainly access to trade destinations. The road also get restrictions for vehicle mass and/or weight. Upgrading the road surface to sealed standards will improve the access for heavy vehicles, thus optimising the economic benefits and providing better access for local communities, agriculturalists and pastoralists to major towns and port.	Under construction	\$4,969,766	Oct-23	Jun-25
4	Road	NT	Department of Logistics and Infrastructure	Duncan Road Gravel Resheet between 7km – 8.5km and 47.50 – 52.44km	The proposed treatment is to lift and gravel re-sheet. Duncan Road connects the remote town of Katherine to Western Australia and is used by pastoral properties and tourism. The road caters to movement of cattle to Katherine and Darwin port. The proposed sections are corrugated and have lost the gravel surface. Resulting in poor surface to trucks and light vehicles.	Not Started	\$1,100,000	Mar-25	Jun-25
4	Road	NT	Department of Logistics and Infrastructure	Nathan River Road Gravel Resheet various sections between 10 – 60 KM	The proposed treatment is to lift and gravel re-sheet. Nathan River Road is used by various communities, and pastoralists and tourists. There are sections between the proposed locations with significant corrugation and loss of the gravel. This is resulting in poor surface to heavy and light vehicles.	Not Started	\$500,000	Mar-25	Jun-25
4	Community	NT	East Arnhem Regional Council	Galiwinku Community Sports Hall and Cyclone shelter Lot 607 Galiwinku internal sound proofing noise reduction Project - This Project aligns with the Annual Plan 24/25	Engineered internal Court area noise reduction / sound proofing, the project is to lower the internal sound bouncing and echoing in the facility which impact on sports and spectators' comfortability. Addressing this issue will greatly improve the comfort and usability of the area and see an increase in youth activities within the facility. Appropriate Sporting and public amenity through a more enjoyable setting.	Under construction	\$300,000	Sep-24	Jun-25
4	Community	NT	East Arnhem Regional Council	Gapuwiyak Transmission tower replacement Project. This Project aligns with the Annual Plan 24/25	The replacement of the old central Community area lattice Bracs tower, with a new hinged 20 mtr engineered pole. Project involves the full removal of all associated tower components and guide wires and concrete footings. The installation of the new tower pole, redirecting all current over head services underground linking community meeting room and other centralised facilities. Fit for purpose transmission infrastructure for community connectivity, increased public safety with the elimination of and climb and fall risk dated infrastructure, the installation will also see the positioning of a free community WIFI system on the new installation for community connectivity and access. In addition the installation will host CCTV fo the central reserve and public area	Under construction	\$185,000	Sep-24	Jun-25
4	Community	NT	East Arnhem Regional Council	Youth BMX Track	Construction of a new youth BMX Track for increased youth activities of interest, the installation will form part of a new youth and sport precinct which will have a large scale water park (already funded) in addition to a ninja style playground. – having multiple options for Youth will enable infrastructure that promotes healthy living and community inclusion and are a common installation across towns in all states. 4	Community	NT	Litchfield Council	Mira Square BBQ facilities and shade	Installation of a 6m x 6m shade structure with 1x BBQ facility under. Southport is a close knit community on the outskirts of Litchfield Council area. Mira Square is the community building that services this small, slightly isolated community and provides a social and community facility. The facility currently has a community building and playground.	Under construction	\$60,000	Apr-24	Jun-25
4	Community	NT	Litchfield Council	Knuckey Lagoon Recreation Reserve Adventure play equipment.	Installation of all age adventure play equipment with 8x3m sand soft fall. Knuckey Lagoon Recreation Reserve is a volunteer run facility that has several community buildings used by various community user groups. The facility has a basketball court, but no playground. The proposed adventure playground will provide the facility with additional features to continue to encourage community use across all age demographics.	Under construction	\$50,000	Apr-24	Jun-25
4	Community	NT	Litchfield Council	Wi-Fi & CCTV – Council Building	Installation of 5x 4K LED CCTV cameras to the Litchfield Council Office building A community benefit of installing closed-circuit television (CCTV) in council offices is improved security. CCTV cameras can help deter criminal activities such as theft, vandalism, and trespassing. Cameras can act as a deterrent, preventing potential wrongdoers from targeting the council offices and ensuring the safety of staff, visitors, and public property. If any incidents occur, CCTV footage can provide evidence for investigations and assist in apprehending the individuals involved. Sadly, the council has recently had an incident of dog theft from our dog enclosure area. Installing CCTV systems can also enhance public confidence in local government by promoting transparency and accountability. The cameras can monitor the activities within council offices, ensuring that all interactions are conducted appropriately and transparently. This transparency helps build trust between council and the community, demonstrating a commitment to integrity and responsible governance. Also, CCTV installation can contribute to the overall well-being and liveability of the community. By securing council offices, CCTV systems indirectly protect the services and resources vital for the community's welfare. This includes essential records, documents, and equipment that might be housed in the council offices. Protecting these assets ensures that the council can operate efficiently, delivering essential services to the community without disruption.	Under construction	\$100,000	Apr-24	Jun-25
4	Community	NT	Litchfield Council	Whitewood Road Shared Path	Construct new shared path 1.1km in length from Hillier Road to Hicks Road to enable the safe and efficient movement of bike riders of all ages and abilities. This project is a new shared path link that will connect two areas where heavy pedestrian traffic has been observed. The shared path will provide safe and accessible transportation and recreation opportunities separating pedestrians from motor vehicle traffic.	Under construction	\$682,628	Apr-24	Jun-25

4	Community	NT	West Daly Regional Council	Net Zero Secure Vehicle Parking	Construction of six secure vehicle parking utilising net zero building materials, low carbon concrete, perforated metal sheets and installation of solar panels. The Net Zero secure vehicle parking facility serves as a critical solution to the longstanding issue of secure overnight parking for community stakeholders, government agencies, and visitors in the Wadeye community. By incorporating environmentally conscious practices, the facility aims to utilise up to 40% recycled materials in its construction, encompassing recycled concrete mix material and repurposed scrap metal for reinforced steel. The installation of solar panels will revolutionise the facility's energy consumption, providing sustainable power for security lighting and cameras. Beyond its security features, the structure will offer sun protection to users and facilitate a rainwater capture system, contributing to water conservation efforts. The harvested rainwater will be utilised in the adjacent vehicle washing bay, promoting resource efficiency and assisting in the reduction of localised flooding. The overall community benefit lies in creating a secure, eco-friendly, and sustainable parking facility that addresses pressing parking needs while minimising environmental impact and enhancing community resilience. 4B	Road	NT	Department of Logistics and Infrastructure	Gorrie Dry River Road Seal Jump Up section 181.0 to 182.5 kilometres	The proposed work is to upgrade from unsealed to seal the jump up section from 181.0 to 182.5 km. Gorrie Dry River Road is located between Stuart and Victoria Highways. The road runs through the Sturt Plateau region and has several pastoral leases along the route. This region also produces hay and other growing products. The number of heavy vehicles has significantly increased over time due to increase in production on Sturt Plateau region. The unsealed road section with the jump up on Gorrie Dry River Road is a steep gradient (8% to 10% grade). Road trains have the potential to lose traction on the gravel surface and become stuck causing road block to other vehicles. Road train is required to break up each trailer resulting in trailer haulage on the jump up section that become hazardous to other road users. There are also several tight curves at the bottom of the jump up that restrict road trains to gain reasonable speed to avoid becoming stuck halfway up the jump up and trailers have potential to go over the edges. The proposed work is to seal the jump up section from 181.0 to 182.5 km, providing better access to heavy vehicles and eliminating road safety risk for motorists.	Under construction	\$2,000,000	Aug-24	Jun-25
4B	Road	NT	Department of Logistics and Infrastructure	Kintore Road Gravel Resheet 241.0 to 254.0 km	The proposed treatment is to lift and gravel re-sheet and improve drainage. The Croydon pump track is made of asphalt with hard gravel batters. Installation of rubber sofffall surfacing (OneSafe wet pour) around the track will create a deceleration zone and absorb impact thus reducing damage to push bikes and injury to riders using the track.	Complete	\$209,921	Nov-20	Jun-21
1	Community	QLD	Croydon Shire Council	Croydon Heritage Precinct - upgraded fencing	Croydon's renowned Heritage Precinct is a hot spot tourist attraction comprising of an original Court House, Town Hall, Police Residence and Police Station with Gaol House. The buildings are maintained to preserve their historical accuracy and are complemented, at the eastern end, by a traditional white picket fence with working replica lamp posts and original sandstone kerbing. The rear area of the buildings, at the eastern end, are secured with high colourbond fencing which provides privacy for neighbouring residential buildings. Whilst the working replica lamp posts and original sandstone kerbing continues to the western end of the precinct the fence does not. The current western end fencing is dilapidated and does not complement the existing eastern end fencing which supports the heritage look and feel of these beautiful old buildings, whilst ensuring privacy to the adjoining residences. The western end fence upgrade will promote tourism to the entire precinct whilst completing and preserving the history and heritage of the town of Croydon.	Complete	\$145,000	Oct-20	Jun-21

2	Road	QLD	City of Gold Coast	New Proposed Project Ron Penhaligon Way, Robina (Cheltenham Dr to Manly Dr)	The Road Rehabilitation and Reseal Program is the primary renewal program to address surface renewal demand. This program identifies roads in accordance with the Traffic Assets Management Plan and the Sustainable Road Pavement Management Plan. Preventive maintenance is the single most influential component in the network strategy that allows the Council to manage pavement condition. It creates the ability to postpone costly reconstruction or rehabilitation activities, by extending the remaining service life of the original pavement. The effectiveness of long-term preventive maintenance and rehabilitation is based on asset life cycle performance, asset rehabilitation program and life cycle costing. A significant benefit of a comprehensive pavement preservation and proactive maintenance program is that it manages future network condition and funding requirements, thus reducing whole of life pavement construction and management costs. Condition assessment undertaken in March 2019 on a 375-metre section of Ron Penhaligon Way, Robina identified heavy ravelling, wheel path cracking and rutting with an average PCI of <5. Given this result and applying the prioritisation criteria detailed above, this road is priority for immediate intervention. The proposed section for rehabilitation is between Cheltenham Drive and Manly Drive, is 10m in width with two active traffic lanes and a small width shoulder. Ron Penhaligon Way is a residential collector road and facilitates a bus route. The proposed rehabilitation scope is 4,250m2 of asphalt consisting of a 50mm structural layer and a 50mm wearing course (total depth 100mm).	Complete	\$331,247	Oct-21	Oct-21

3	Community	QLD	Pormpuraaw Aboriginal Shire Council	Admin Store Compound (Marranthan St) – Stage 2	<p>Concrete Seal of Heavy Vehicle Access for Road Transport Vehicles. All Community supplies are delivered to the Admin Store on a weekly basis by Road Transport and Unload and Distributed. The unload area is currently shell grit and dirt and in the rain often becomes quite boggy for the heavy vehicles. Concreting this area will ensure all weather access for heavy vehicles. Sealing this area will also minimise the dust that is lifted and spread into adjoining Community businesses such as: PUBSC, Kiosk & Contractors Camp.</p> <p>The project will provide an all-weather access into the Admin Store Freight Shed, which is the loading and unloading point for Heavy Vehicles that bring the freight requirements for the community into Pormpuraaw. Our Admin Store unloads the freight and distributes the freight to community members.</p> <p>Stage 1 – Admin Store Project consists of concrete driveway from Wirran Street to the Admin Store Freight Shed Heavy Vehicle Loading Area. This project also has an element of paving on Wirran St. This project is being funded under R2R funding for the amount of \$168,000.</p> <p>Stage 2 – Admin Store Project consists of the second stage of the concrete driveway (385m2 approx.) which will be from the Admin Store Freight Heavy Vehicle Loading Area through to Marranthan Street. This project is being requested to be approved under our LRCI Phase 3 for the amount of \$108,860.</p> <p>Attached is a map of Pormpuraaw showing the location of the project and indicating Stage 1 and Stage 2 sections.</p>	Complete	\$108,860	Jun-22	Aug-22

3	Community	QLD	McKinlay Shire Council	Mini Golf	Design and construct of new mini-golf course adjacent to Caravan Park for community and tourist use. The main aim is to provide an activity for families of our community to enjoy and be active. Further we believe the facility will attract visiting families to the town which will enhance tourism and have many economic benefits to the entire community. We are an isolated community, and we endeavour to provide facilities to our families to lead an active lifestyle and also connect as a family. Due to the size of our population, it is not intended to be a profit-making facility and we expect potentially the operational costs will outweigh the revenue received. Though will have in-direct benefits to the liveability of the community and flow on benefits to the people it attracts.	Complete	\$263,352	Feb-23	Jun-23

3	Community	QLD	Goondiwindi Regional Council	Texas Reservoir Mixer Installation Texas town reservoir, Stanthorpe-Texas Road, Texas	Installation of a WEARS reservoir mixing system and chlorine dosing system to the Texas town reservoir. During low demand periods, the treated water reservoir experiences very low turnover which leads to the degradation of treated water quality and causes difficulty in maintaining the residual chlorine concentration required to ensure effective disinfection and safe drinking water. Disinfection is currently achieved by dosing chlorine immediately downstream of the WTP filtration stage and prior to treated water entering the town reservoir. Because of the need to ensure adequate chlorine residual in water leaving the reservoir during low demand periods, chlorine is dosed at a higher rate than would otherwise be required. This leads to potential consumer complaints during high demand periods, when the chlorine rapid reservoir turnover means that water with higher than usual chlorine concentration can enter the reticulation system, as well as the increased potential for the formation of disinfection by products during low turnover periods, and increased cost due to excessive chlorine consumption.	Complete	\$175,000	Mar-22	May-24
3	Community	QLD	Goondiwindi Regional Council	Inglewood Reservoir Mixer Installation Inglewood town reservoirs	Installation of a WEARS reservoir mixing system and chlorine dosing system to the Inglewood town water reservoirs. The combined storage capacity of Inglewood's two reservoirs is 2.45 ML and serves a population of approximately 850, with an average daily water demand of approximately 420 kL/day. During low demand periods, the treated water reservoirs can experience very low turnover, leading to a degradation of the stored treated water quality and causing difficulty in maintaining the residual chlorine concentration required to ensure effective disinfection and safe drinking water. Disinfection is currently achieved by dosing chlorine at the WTP, immediately downstream of the point where filtered surface water and bore water are blended. Because of the need to maintain chlorine residual in the potable water rising main and ensure adequate chlorine residual in water leaving the reservoir during low demand periods, chlorine is dosed at a higher rate than would otherwise be required. This leads to potential consumer complaints during high demand periods, when the chlorine rapid reservoir turnover means that water with higher than usual chlorine concentration can enter the reticulation system, as well as the increased potential for the formation of disinfection by-products during low turnover periods, and increased cost due to excessive chlorine consumption. Previous remediation works, involving replacement of the substructure, were undertaken 12 years ago to extend the life of the timber structure. In early 2021, temporary protection works were undertaken to protect part of the structure from scouring of the creek bank. Recent condition assessments have shown the structure is approaching the end of its useful life. The project will upgrade the boardwalk to a more suitable standard to improve its capacity and align with future works in the area, including the GC Light Rail off-corridor active transport projects. The replacement boardwalk will be widened from 2 to 4 metres and will include a viewing platform along part of the boardwalk to allow users to step to the side of the pathway to experience views of the creek, Burleigh Headland and the ocean. 3	Road	QLD	Maranoa Regional Council	Road Maintenance improvements in Various locations within Maranoa Regional Council	Road maintenance on lower order unsealed rural roads. The intent of this project is to undertake additional road maintenance in addition to, and above, typical annual budget allocations. Council manages the third largest road network (by length) of all the Local Governments in Queensland. Of the 5800+ kms of rural roads (managed by Maranoa), over 50% are low order roads which service rural properties. The funds are intended to be allocated across over 250 individual roads to provide an increase level of maintenance and help improve the condition of these roads. Three key coordinate points located at the main service centres where these additional road maintenance activity will be coordinated from have been supplied. (Return the roads to its original standard, pothole repairs, vegetation clearing and grading which will improve safety for all road users)	Complete	\$1,670,334	Nov-22	Jun-24

3	Community	QLD	McKinlay Shire Council	McIntyre Park Facility Enhancement	McIntyre Park is a community facility which supports a range of community groups and events including thoroughbred racing, campdrafting, rodeo and horse sports. It is essentially the local Show grounds. The facility will undergo a number of upgrades including: Refurbishment of Amenities blocks – replacing of existing damaged floor tiles, re-painting of interior, replacement of toilets and tapware to meet standards and improving accessibility. For large events, crowds can often reach nearly 1000 people and the current state of the facility is not well equipped to handle these demands. Upgrade Arena Lighting – The current lighting used is dated and expensive to run and maintain. The lights will be upgraded to new energy efficient LED lights. The works will involve the removal of the original Halogen lighting to be replaced by new LED lights. Council has had discussions with a sporting lighting specialist to create lighting plans to ensure there is sufficient lighting in the arena to ensure safety for all users. Yard Improvement – enhance the stock yards to ensure easy handling of stock for volunteers and also ensure welfare of the stock.. Phase 1, Project 9 (McIntyre Park): The works undertaken in Phase one were shade sails, the planned works in this phase do not involve any similar works.	Complete	\$639,497	Aug-22	Jun-24

4	Community	QLD	Southern Downs Regional Council	Replacement of 3x CCTV (Closed Circuit TeleVision) NVR (Network Video Recorder) at 64 Fitzroy Street, Warwick QLD, Replacement of 1x CCTV (Closed Circuit TeleVision) NVR (Network Video Recorder) at 61 Marsh Street, Stanthorpe QLD, Replacement of 2x CCTV Cameras in Stanthorpe CBD, replacement of two rust-damaged data cabinets in Warwick CBD, replacement of two Canopy wireless network bridge units in Warwick CBD.- Closed Circuit TV (CCTV)	To conduct a renewal program that will replace out-of-date CCTV cameras, recorders and associated communications hardware The replacement of 4x CCTV recorders, components with a condition assessment of poor & 2 weather-damaged PTZ cameras. CCTV can sometimes be used in court as evidence to prove someone was in a certain place or that they committed an offence. It can also improve community safety and prevent crime. For example, you may deter someone from committing a crime (like robbery) if they know CCTV will record their actions. These upgrade works will be of direct benefit to the community by ensuring that incidents that occur within the CCTV precincts are captured at a sufficient frame size, frame rate and retained for a sufficient period so as to allow the law enforcement agencies to investigate, extract footage and prosecute. For example, at present the current NVR records at 8 frames-per-second. This frame rate is below the standard of 30 frames-per-second, which could mean the difference between obtaining a positive identification or license plate, or a motion blur. In addition, the current NVR retains the footage for only 30 days which is often insufficient time for investigation requests. This in turn will provide safer community spaces through better security.	Complete	\$50,000	May-24	May-24

4	Community	QLD	Moreton Bay Regional Council	Deception Bay - Boama Park - Park Upgrade (Playgrounds and Skate Parks)	The project is located at Boama Park foreshore, adjoining Esplanade South, between Seaview Parade and Webster Road, Deception Bay. The project scope comprises upgrade of existing foreshore embellishments and reduction in car park area to improve safety. The objective of the project is to include more comprehensive play facilities and exercise equipment upgrade in one of few locations where sufficient space exists along the relatively narrow foreshore. This project has originated as a result of the Urban Recreation Park Plan 2012-2031 identifying the need for park embellishments in the short term as per Appendix E. The existing deficiencies include the park embellishments not meeting Council's Desired Standard of Service and the community expectations. The expected outcome of the project is to enhance the foreshore facilities to service the existing community and cater for population growth with increased residential densities in the local area.	Complete	\$132,000	Jul-24	Sep-24
4	Community	QLD	North Burnett Regional Council	Swimming pool electrical bonding	Replace or install electrical bonding to eliminate the risk of electrocution from electrical wiring in and around pool decks and buildings at Monto Eidsvold and Biggenden swimming pools. Statutory requirement. Completion of this work at Monto, Eidsvold and Biggenden swimming pools will bring the pools into compliance and allow for continued service to the community. The swimming pools provide learn to swim, swimming club activities, fitness, and therapy services for the communities of Monto, Eidsvold and Biggenden.	Complete	\$50,000	Aug-24	Sep-24
4	Community	QLD	North Burnett Regional Council	Eidsvold Hall – repair and paint	Repair and repaint the entire external and internal hall (including roof). Repair to the internal and external paintwork that is aged and showing signs of deterioration. Externally, paint is faded and patchy. Internal paintwork is peeling from ceilings and walls. The benefit will be the provision of a clean well-presented venue for use by the community that has the potential to increase utilisation and ensure the hall remains viable and functional for the long term	Complete	\$100,000	Aug-24	Sep-24
4	Road	QLD	City of Gold Coast	Intersection Upgrade Mebbin Street, Old Pacific Highway, Pimpama Project Work Category – Traffic Improvement, Widening	The proposed project is an upgrade of the Mebbin Street, Old Pacific Highway, three-way priority-controlled intersection, to traffic signals. Scope of work include: -Installation of new traffic signals controlling a 3-way road intersection -pedestrian crossings on the north-eastern and south-eastern approaches -a signalised left turn slip lane from Mebbin Street into Old Pacific Highway -a 60-metre left turn lane from Old Pacific Highway into Mebbin Street -extended right turn lane from 35 metres to 45 metres on Old Pacific Highway into Mebbin Street -extend pedestrian footpath on the southern side of the Old Pacific Highway to meet the pedestrian crossing -raise/relocate/protect 11kV power cable and 380mm diameter water main -capacity for a 4th leg to be built in the south-west of the intersection without having to shift the then existing traffic signal assets. There are high volumes of vehicles turning right out of Mebbin Street during peak times when Old Pacific Highway is busy. Increased traffic through the Mebbin Street and Old Pacific Highway intersection is leading to risky driver behaviour. The risk of a collision has increased significantly in the last three years due to the completion of the new residential catchment. There is also a lack of pedestrian crossing facilities at this intersection. The upgrade will improve safety and:- -improve traffic flow out of Mebbin Street -reduce risky driver behaviour through the intersection -provide safe road crossing opportunities -encourage active travel by improving connections between footpaths. 4	Community	QLD	Hinchinbrook Shire Council	Rehabilitation of CBD footpath – Herbert Street	Rehabilitation of CBD footpath – Herbert Street between Francis Street and Palm Terrace The key components of this project include: Aesthetic Upgrades: Implementing visually appealing design elements, such as decorative paving, improved lighting, greenery, and street furniture, to create an attractive and vibrant pedestrian environment. Project Description: Enhancing the Footpath Adjacent to Rotary Park, Ingham The footpath adjacent to Rotary Park, while experiencing high traffic, currently lacks the appeal and functionality that befits its location in the Central Business District (CBD). To address this issue and ensure the safety and convenience of pedestrians, we propose a comprehensive beautification and upgrade project for the footpath.	Complete	\$378,323	Apr-24	Oct-24
4	Road	QLD	Hope Vale Aboriginal Council	Sandy Creek Bridge, Cooktown Mclvor Road Deck Replacement Category: Bridge works -Any work involving bridges or culverts	Replacement of the Sandy Creek Bridge Deck Unit. Problems Addressed & Community Benefit Structural Integrity: •The aging and deteriorating bridge decks poses a safety hazards due to cracks, spalling, and structural weaknesses. A new deck unit will restore the bridge's load-carrying capacity and ensure safe usage. Maintenance Costs: •The older bridge decks requires frequent repairs, leading to high maintenance costs. A new deck unit will reduce these costs by providing a longer-lasting solution. Load Capacity: •The older bridge is no longer able to handle heavy traffic loads. A new deck will increase the load capacity to accommodate heavier vehicles, including trucks and emergency vehicles. Safety Enhancement •A new bridge deck enhances the safety for all users, by providing a structurally sound and reliable surface. Resilience to Natural Disasters: •The modern bridge decks has been designed to be more resilient to natural disasters such as floods and extreme weather, ensuring long-term reliability and safety. Job Creation: •The construction of a new bridge deck unit generates jobs, both during the construction phase and in the ongoing maintenance and operation of the improved infrastructure. By addressing critical structural, economic, and environmental issues, constructing a new bridge deck unit provides tangible benefits that enhance the overall well-being and development of the community. 4	Community	QLD	Burdekin Shire Council	Clare Pool Facilities Upgrade Project	The Clare Swimming Pool amenities block requires upgrades to ensure it complies with all safety standards and associated codes of practice. This project will involve repairing and replacing key components within the amenities block to ensure the facility is functional and meets the needs of the community. The works will include replacing toilets, urinals, handbasins and all tapware. Rusted seating within the changerooms will be replaced along with all damaged tiles. The existing shade structure that provides shade to the only bench seat and table is unsafe and the timber has rotted. This project will replace the shade structure with a purpose-built structure rated to be used in a pool environment. The Clare community has limited entertainment precincts or infrastructure that can be used by families or children. The swimming pool is therefore an important asset for the community and requires upgrades to ensure it complies with all Australian standards and codes. This project will compliment other work Council is undertaking at the facility that is focusing on ensuring the quality of the pool water meets guidelines and is of a high standard. It is envisaged that community usage will increase following the upgrade of the facility. The Clare Pool also supports two schools with school based learn to swim classes. 4	Road	QLD	Moreton Bay Regional Council	Ferny Hills - Gordon Road and Ferny Way - Intersection Upgrade (Reconstruction)	This project is located at the intersection of Ferny Way and Gordon Road, Ferny Hills. The scope of work includes installation of traffic signals and other intersection improvements designed to reduce congestion and delay and to improve safety, particularly for pedestrians. The project includes modifying and reconstructing the existing left turn slip lanes, footpaths, electricity poles and street lights. The objective of this project is to improve safety for all road users and to increase the capacity of the intersection and provide safer manoeuvring when exiting Gordon Road and turning right into Ferny Way. The project will ensure continued intersection operation within an acceptable level of service, and significantly improve the walkability and safety for pedestrians at this location. The current layout is assessed as acceptable for current traffic volumes, however, an assessment of the intersection performance into the future shows that the Level of Service (LoS) will continue to fall and the degree of saturation will continue to increase to unacceptable levels. In addition, concerns have been raised regarding the safety for pedestrians crossing at or near the intersection. It is noted that significant pedestrian demand exists at this site due to proximity to the nearby Ferny Grove rail station and commercial/business opportunities close by. No crossing facilities across Gordon Road currently exist and the existing pedestrian crossing on Fern Way is not considered the most suitable crossing facility given the function and traffic volume on Ferny Way. The installation of signals is recommended to address the capacity and safety issues prior to 2023 to improve motorist and pedestrian safety and retain the operation of signals within acceptable operating parameters. 4	Combination	QLD	Sunshine Coast Regional Council	Mountain View Road Maleny Lookout Area Parking – Francisco	Creation of a 950 m2 sealed car park area including drainage, 1 x shelter and seats, landscaping and approximately 100 metres of balustrade. There is a current “informal” lookout gravel carpark used by the community and visitors that looks towards the Glass House Mountains. There is evidence of cars pulling up from both ways of the road to get into this gravel lookout, this creates a safety issue for the road users as cars may pull in and out of the gravel carpark at any point throughout the length of it and in both directions. This project will help improve the safety in the area for all road users. Apart from the safety improvements, this project will create a formal lookout spot with a beautiful view of the Glass House Mountains, as well as a nice rest area for road users with amenities such as picnic tables, seats and accessible parking.	Under construction	\$500,000	May-24	Feb-25

4	Community	QLD	City of Gold Coast	Helensvale Pedestrian Tunnel Safety Improvement Project – Gold Coast Highway, Helensvale Community – Closed Circuit TV (CCTV)	The Helensvale Pedestrian tunnel is a heavily utilised accessway connecting two major shopping centres as well as being adjacent to the Helensvale heavy and light rail stations. This project will involve installation of 4 permanent CCTV cameras, as part of the City’s Safety Camera Network public safety program, along with an urban art mural which will prevent graffiti and improve amenity. The mural has been proposed as part of this project as a complementary community safety measure, alongside the installation of the CCTV cameras. Monitored CCTV cameras, public art (mural) and associated signage is a combined strategy to strengthen community safety outcomes near and in the Helensvale Pedestrian Tunnel. The installation of a mural will further enhance safety by facilitating community pride and ownership and reduce crime in the space including graffiti vandalism. The tunnel is a connection point from the Helensvale area to public transport including bus, and heavy and light rail. Residents along with visitors to the city are likely to travel through the space to access the public transport options. A mural will support positive perceptions of safety and enhance City reputation supporting community wellbeing. The Queensland Police Service are supportive of safety improvements in this location. A temporary mobile CCTV unit was previously deployed in this location with anti-social behaviour and crime issues being detected. This project will reduce crime, including graffiti, and improve perceptions of safety due to the presence of monitored CCTV cameras and public art (mural).	Under construction	\$348,800	May-24	Mar-25
4	Combination	QLD	Gladstone Regional Council	Turtleway Bikeway and Footpath – Pedestrian Bridge Replacement	Design and construct two pedestrian and light vehicle bridges to replace two of the existing timber bridges along the Turtleway Bikeway and Footpath Following the replacement of the pedestrian bridges, Council can guarantee that this vital asset continues to service the community.	Under construction	\$1,609,377	Sep-24	Mar-25
4	Community	QLD	Goondiwindi Regional Council	Texas Apex Park Sewerage Connection	Remove aged concrete septic tank, replace with new tank and pump station. Lay 120m of 64mm poly sewerage rising main to connect the site to the town sewerage system. Reinstate disturbance. The existing toilets regularly face maintenance problems as the ageing septic system requires replacement. The site is close to a creek and there is insufficient appropriate space to install an on-site disposal system.	Under construction	\$85,000	Oct-23	Mar-25
4	Community	QLD	Goondiwindi Regional Council	Goondiwindi PCYC Amenities Upgrade	Renewal of male and female toilets and showers in the Council Recreation Centre comprising 3 male toilets and showers and large changeroom and 5 female toilets and 3 showers and changeroom. Replace walls, plumbing, floor and wall tiles, all plumbing fittings and lighting. Facilities are aged and have developed leaks that are impacting the walls of the facility and are creating hazards that impact community use of the facility.	Under construction	\$100,000	Jan-24	Mar-25
4	Community	QLD	Goondiwindi Regional Council	Moffat / McDougall Street Footpath Link	Construct 150 metres of concrete footpath 2m wide This path will link a significant residential area, including the Aged Care Facility with paths to access commercial areas. 4	Road	QLD	Moreton Bay Regional Council	Burpengary - Aquatic Centre Drive - Road Rehabilitation (Rehabilitation)	The project is located on Aquatic Centre Drive, largely servicing the Moreton Bay Central Sports Complex, Burpengary. The scope of works involves the rehabilitation of a 1242 m long and 8.5 m wide section of road. The objective of this project is to bring the road pavement, which is showing signs of age, to a desirable level of service. The design of the street will be reviewed consistent with the principles of complete streets which may include improved active transport facilities and street tree planting. Road asset management database, condition data and visual inspection have identified that this road has fallen below its desired level of service and rehabilitation is required	Under construction	\$762,000	Jul-24	Mar-25
4	Combination	QLD	Moreton Bay Regional Council	Kallangur - Kallangur State School - Active School Travel Infrastructure (Traffic Improvement)	The project is located along the Active School Travel routes for Kallangur State School, Kallangur. The project scope includes the upgrade and installation of critical infrastructure improvements around Kallangur State School. These projects include transport upgrades such as, pedestrian priority crossings, ‘Park and Go’ alterations, satellite parking, cycling infrastructure, and signage and line marking improvements. The objective of the project is to upgrade and deliver infrastructure to promote walking and cycling to schools resulting in fewer car trips, and provide positive health and well-being outcomes in-line with the Integrated Transport Strategy Outcome 1 and Outcome 2, and the draft Active Transport Plan. This project has originated as a result of investigating the identified Active Travel Route’s at Kallangur State School, Kallangur. The existing deficiencies include a lack of critical safety infrastructure for people accessing schools close to where they live. The expected outcome of the project is to increase the amount people accessing the school by active or public transport, resulting in fewer car trips. The project will deliver outcomes with the measure of success being in line with the ITS, Outcome 1; Community participation in public and active transport.	Under construction	\$512,000	Jul-24	Mar-25
4	Road	QLD	Moreton Bay Regional Council	Bray Park - De Havilland Drive - Road Rehabilitation (Rehabilitation)	The project is located on De Havilland Drive, Bray Park and extends from Catalina Avenue to Baker Street and Auster Avenue. The project scope includes the rehabilitation of the subject section of road over a length of 440m. The existing pavement is currently showing signs of significant cracking, rutting and pavement fails. The project objective is to renew the pavement and achieve the required level of service. Both Road Asset Database and visual inspection have identified that this road has fallen below its desired level of service and rehabilitation is required.	Under construction	\$182,000	Jul-24	Mar-25
4	Community	QLD	Moreton Bay Regional Council	Eatons Hill - Drapers Road - Pathway Construction (Bicycle and Walking Paths)	The project is located over a 950m section of Drapers Road, from Bunya Crossing Road to Bunya Pine Circuit, Eatons Hill. The project scope includes the construction of a 1.5m - 2.0m wide reinforced concrete pathway on the southern side of the road. The objective of the project is to create a high quality walking environment and to encourage increased levels of walking in and around Eatons Hill. This project has originated as a result of a network wide review of missing pathway links in residential areas. This review identified deficiencies in the existing pedestrian pathway network (i.e. missing links), which included Drapers Road. The expected outcome of the project is to improve pedestrian connectivity and accessibility in Eatons Hill.	Under construction	\$262,000	Jul-24	Mar-25

4	Community	QLD	Sunshine Coast Regional Council	Kawana Waters Regional Aquatic Centre – Nathan Walker-Edwards	New main administration building will include changing places change room to maximise inclusive opportunities, offices, kiosk, reception area, staff meeting room, community meeting space, unisex change area and gender specific change rooms. The current Aquatic Centre is not keeping up with demand owing to the growing population and increased use of the facility. The facility also does not meet current accessible standards. The project will provide increased active and passive recreation facilities as well as expanded amenity facilities. Access facilities will also be updated to meet modern building standards for people with mobility issues. The upgraded facilities will be available to all populations including children, elderly, First Nations and people with mobility challenges. There are fees associated with the use of the facility, but subsidies are offered for concessional card holders.	Under construction	\$938,532	Jul-24	Mar-25
4	Community	QLD	Goondiwindi Regional Council	Goondiwindi Cinema & Civic Centre Upgrades	Build 3.5 x 1.8 storage area with seamless roller door with wheel in capability to provide for greater use of cinema and art space. Replace digital projector. The facility is a community space that is used for meetings and displays. The space has limited storage which hampers users of the facility in that users need to move exhibit packaging off site during displays. Chairs and tables for meetings and events are bought from off site. Storage would make the space more accessible for community users. The projector is aged and fails. The projector is used to show movies, stream events and show images and supporting information for performances in the space.	Under construction	\$135,000	Oct-23	Apr-25

4	Community	QLD	Maranoa Regional Council	Wallumbilla Community Precinct Development	Construction of new community centre, including upgraded library, visitor information services, upgraded Calico Cottage and professional service spaces. The project will also include carparking, landscaping and parklands open space area. LRCI Project work categories include: Landscaping improvements, off-road carparks, improvements to community facilities & toilet blocks The new development will enhance the capacity of community facilities, including increased library amenity for the community, as well as supporting local businesses with the development of a professional service space servicing a variety of purposes (e.g. training and education opportunities/workshops/ meetings etc). The existing Wallumbilla Calico Cottage is a significant source of pride for the community. The new facility will provide significant improvements including off road car parks and toilet blocks. The development of the precinct will encourage tourists to stop and support the small rural town including supporting local community run businesses, as well as volunteer organisations such as Calico Cottage & the Wallumbilla Heritage Association. Landscaping improvements around the precinct will increase green spaces within the community, improved shade and beautification through garden plantings. The off-road carpark will also improve parking amenity to the precinct, including formalised disability parking & separate spaces for car and caravan parking. New public amenities will be constructed that will be available for community use outside of the facilities operating hours.	Under construction	\$2,576,007	Aug-24	Apr-25

4	Road	QLD	Moreton Bay Regional Council	Morayfield - William Berry Drive - Intersection Upgrade (Reconstruction)	The project is located at William Berry Drive, at the intersection with Dickson Road, Morayfield. The project scope includes the reconfiguration of intersection approaches to improve lane designations, widening of Dickson Road to provide a left and right turn lane from Dickson Road into William Berry Drive, reconfiguration of the existing zebra crossing, installation of three pedestrian refuges (one on William Berry Drive and two on Dickson Street), removal and reconstruction of the retaining wall on the western side of Dickson Road, construction of a 2.0 m wide concrete pathway, associated plantings of shade/street trees and street lighting. The objective of the project is to improve pedestrian connectivity between retail centres, improve intersection capacity, increase safety for all road users (with an emphasis on safety improvements for pedestrians), meet the streetscape objective of the Caboolture/Morayfield Activity Centre Master Plan and to bring the road pavement to a desirable level of service. Previous investigation of this intersection included a review of factors including the growth of commercial and retail businesses in the area, history of requests from the community about the intersection, current and projected traffic volumes, crash history and observations on site. Deficiencies identified with the existing layout include: <ul style="list-style-type: none"> •Capacity is limited by no provision of turning lanes; •Vehicle turning movements not accommodated for the types of vehicle expected to use the intersection to access the existing retail and light industrial land uses on Dickson Road; •No provision of pedestrian crossing facilities on Dickson Road; and •The pedestrian zebra crossing on William Berry Drive is located very close to the intersection and is not supplemented with street lighting. Concerns have been raised by various members of the community relating to pedestrian safety and vehicle corner cutting, consistent with the deficiencies noted above. Crash data obtained from the Department of Transport and Main Roads WebCrash database indicated that there were two reported crashes between 2009 and 2014 relevant to the project. The first crash in February 2009 occurred between a vehicle travelling along William Berry Drive and another vehicle turning right out of the northern access to Morayfield Shopping Centre. The second crash in January 2010 occurred as a result, of a vehicle crossing the centreline of Dickson Road while making a turning manoeuvre. The proposed layout restricts right turns out of the Morayfield Shopping Centre access in order to reduce the number of conflicts and includes the installation of a splitter island at the intersection. 4	Combination	QLD	South Burnett Regional Council	Maidenwell Transfer Station Access	The project scope for which funding is being sought under LRCI Phase 4 involves the design and construction of the Maidenwell Waste Transfer site access crossover and accessway on the Kingaroy-Cooyar Road, including but not limited to clearing of trees and vegetation, erosion and sediment control, earthworks, table drain realignment, culvert pipe extension, rock scour protection, pavement works for the shoulder widening and new access road to the property boundary, two-coat chip seal, signs, pavement markings, and traffic management / control. The current Transfer Station Access facility at Maidenwell is located within a road reserve. The Maidenwell Waste Transfer Station is one of the 17 waste facilities that Council operates to accept general refuse from the public. Council has purchased land adjacent to the current facility to design and construct a modern transfer station. On completion of the project, the community benefit (subject of this variation request) is the provision of a safer, designed road and access off the Kingaroy-Cooyar Road to the new community waste facility. Improved traffic signage, coupled with safer ingress and egress lanes to the facility will provide improved sight lines for motorists utilising the waste facility and the Kingaroy-Cooyar road in general. A map showing the location of the proposed modern transfer station and the Kingaroy-Cooyar Road is attached.	Under construction	\$200,000	Sep-24	Apr-25

Under construction	\$70,000	Jan-25	May-25
4	Community	QLD	Isaac Regional Council	Community Hubs St Lawrence and Dysart	Detailed design work for the projects is currently being finalised, but the intent for both the Dysart and St Lawrence locations is to construct and deliver an integrated facility in each of these locations which has: <ul style="list-style-type: none"> - council customer service functions (including QLD Gov agency services in Dysart), - library and children's education services, - youth space, - community meeting space, and - digital installations/videoconferencing booths to enable connection of community to services which cannot be feasibly provided in Dysart or St Lawrence. The project scope entails fit out costs for each facility in existing underutilised or repurposed council buildings – data and technology, furnishings and cabinetry, flooring, painting/wall coverings, signage and the like – to be confirmed by the final design. Improved Accessibility of Community Facilities and Areas - The co-location of these facilities in each town will improve community connectiveness – bringing all community members to a central location to access a range of community services – rather than the current piecemeal location of services across these towns – which in many cases are approaching end of life or requiring significant investment to maintain functionality. <p>The Community Hub model for service delivery revolutionises the touchpoints between community, Council and the wider world – providing a space for business transactions, library and education services, community meeting spaces and access to digital technologies not afforded to our smaller communities generally, all under one roof.</p>	Under construction	\$400,000	Nov-24	May-25

4	Community	QLD	Balonne Shire Council	St George Cultural Centre Audio Visual Upgrade	The upgrade will replace projectors in the main auditorium with display screens, microphones, and speakers with operating panels. This will make it easier for event organisers to operate and enhance performances and presentations. The adjoining Bar Area – Breakout Room will also include audio speakers to provide seamless sound throughout the facility – and onwards to the outdoor garden space. This will enable events/presenters to share their audio across all spaces in the facility that is often used for community events that are held indoor/outdoors. It would also enable performances to recall people following breaks to enter back into the main auditorium. The Cultural Central St George includes a range of meeting and event spaces that benefits the community, supporting recreation, community, education, and business events. The current sound and visual equipment require an upgrade to offer state of the art facilities with quality sound and visual systems. The St George Cultural centre is accessible to the whole community via booking through Council and is utilised regularly for industry conferences, workshops, meetings, training sessions, art and cultural shows, school formal and awards night, annual Mayoral ball, Christmas events, concerts, comedy shows, NAIDOC celebrations etc.	Under construction	\$155,000	Aug-24	Jun-25
4	Community	QLD	Balonne Shire Council	Thallon Playground	Purchase and installation of new Australian Standard play equipment and approved soft fall to the existing playground. The scope does include the removal of the current outdated playground and the used sand. Community consultation and feedback has occurred on the proposed design for the new play equipment with this project being a priority for the community as there are safety concerns for users. Currently, the sand that has been installed as soft fall for the old equipment is not playground certified sand and has become extremely hard causing number of complaints to council, as well as it not being up to the Australian Standards for playground soft fall. 4	Community	QLD	Balonne Shire Council	Hebel Showground Amenities	Supply and install a new permanent amenity block at the Hebel Showgrounds and dispose of the existing old demountable. Project cost includes lighting, plumbing, electrical and full purchase, and installation costs of the new permanent fixed amenities block. Also includes the removal of the expired demountable located near the old bar and a preferred community location installation near the new canteen/bar for accessibility. The Hebel Showground User Group have prioritised an upgrade of the Hebel Showground amenities as their number 1 project/budget priority. The current amenities are estimated to have been built in the 1960's and are no longer compliant to current Australian standards. With the installation of the new amenities, it is envisaged that further community and sporting groups will utilise the facilities at the Hebel Showgrounds. This project will benefit the whole community, as it is currently used for events including camp drafts, rodeos, pony club and the annual community Christmas celebrations.	Under construction	\$250,000	Oct-24	Jun-25
4	Community	QLD	Balonne Shire Council	Mungindi Flood Pole	Installation at the Barwon River of historical flood height indicator showing the years and levels reached during previous flood events. The Mungindi Progress Association have requested the installation of this flood height marker to signify these important historical flood events. Mungindi is a border town; the flood pole will be positioned in a prominent location on the Barwon River. The Mungindi Progress Association aim is to educate the community by providing an informative historic flood height marker, which can be referred to during a significant event enabling the community to consider steps they need to take to prepare, therefore better protecting the community. The design includes a shelter, seating (4 x timber circular), 2 x curved Columbarium walls, paving, landscaping, irrigation, and tree planting x 3 as per the agreed concept design for the site size of 10m x 15m. The Bollon community via consultation have expressed their wish to have the concept design implemented for the Bollon Cemetery, this has also been approved at the Parks and Gardens Committee in December 2023. This implementation of the concept design will provide a compassionate area for those to grieve and reflect on those who have passed on in an aesthetically pleasing space. It will provide a defined accessible pathway suitable for those with mobility issues and add structure to the area which will assist families to navigate the cemetery.	Under construction	\$80,000	Jan-25	Jun-25
4	Community	QLD	Balonne Shire Council	Nindigully Landscaping and Carpark Improvements	To undertake landscaping, installation of picnic settings at the free camping area and supply gravel to improve drainage to the existing parking area and roads as well as grading the road and carpark area. This project will improve the aesthetics appeal of the township and usability to the existing free camping area. It will provide the washed-out areas which were created due to recent heavy rainfall to be filled in and the general parking area levelled out with gravel to provide an improved experience for the general public and community. This project will benefit the whole community of Nindigully and surrounding landholders as the proposed location of works is directly in the heart of the small rural and remote township that consists of 3 streets. The community host regular events including the annual Nindigully pig races, live music, and car rally events etc.	Under construction	\$60,000	Feb-25	Jun-25

4	Community	QLD	Burdekin Shire Council	Millaroo Community Entertainment Precinct	Creation of a raised mound as a community performance space. The project involves removal of part of the existing swimming pool walls, filling with appropriate materials, and landscaping of the site to provide a raised area for entertainment purposes (approximately 1 metre above the surrounding natural ground level). Refurbish the existing swimming pool amenities block to ensure the facilities meet current standards and complete the Council's performance space. Refurbishing of the pool amenities block will include replacement of fixtures and fittings, renewal of external cladding, upgrade of electrical components to meet safety requirements and internal and external painting. These works will ensure that the facilities meet current standards. Re-purposing of the old Millaroo swimming pool site will create a community entertainment precinct to complement the adjoining Millaroo Social Club site. The mound and adjoining space will be used by locals for entertainment purposes including concerts, school awards nights and other social events and gatherings. Since closure of the pool, Council has been working collaboratively with the community on other formal and informal opportunities in the area to provide community benefit for the residents of Millaroo and surrounds. At a meeting on 13 February 2024 including Council staff, elected members and members of the Millaroo community, the proposal outlined above was fully supported. 4	Community	QLD	City of Gold Coast	Federation Walk Littoral Rainforest – Seaworld Drive Main Beach Project Work Category – Landscaping Improvements	The Federation Walk Coastal Reserve Littoral Rainforest project is a key outcome of The Spit Master Plan (May 2019). This funding will provide for the expansion of the irrigation system to an additional 15 hectares of rainforest which requires connection to mains power. It will also contribute to the funding of park management, which includes fencing and boundary security upgrades to protect the rainforest revegetation site from illegal 4WD access and maintenance of internal management tracks along with ecological restoration activities (biodiversity plantings) associated with the establishment of the littoral rainforest. Works will include:- -Expansion of the irrigation system to a further 15 hectares of rainforest. To facilitate this expansion and enhance the sustainability of the project the leasing of the temporary diesel generator will cease, and the pump station infrastructure will be connected to the local electricity grid. To connect to mains power, approximately 350 metres of trenching/undergrounding of power and switchboard upgrades are required. -Significant biodiversity plantings to increase the species richness of the existing mature forest in the south of Federation Walk Coastal Reserve – plantings will be undertaken in areas identified as disturbed and low in species richness (this is the Southern section, approximately 19.5 hectares) -Boundary security upgrades to protect the rainforest revegetation site from illegal 4WD access and will include maintenance of internal management tracks that provide for both nature-based recreation opportunities as well as maintenance of the park and the rainforest project. Existing trail networks within reserve are approximately 5km. The general public will continue to have access to the reserve. Contractors are to provide safety and traffic/pedestrian management plans prior to commencement of works within the reserve to ensure the public have safe access to the reserve during works. Please note that Phase 1 of the LRCI Program helped fund 17 ha out of the 37 ha of the Federation Walk Coastal Reserve Littoral Rainforest with irrigation system and pump station (including early works to enable a future electrical supply and currently supply by a generator). The Littoral Rainforest project will create one of the most iconic natural areas in the city for future generations to enjoy as Federation Walk Coastal Reserve transitions into this critically endangered ecosystem. 4	Community	QLD	North Burnett Regional Council	Counter upgrades for Mundubbera and Biggenden Libraries	Replace customer service counters in libraries with a fit for purpose WHS compliant solution. Customer Service Centres and Libraries in each community were progressively merged into combined centres providing single point of contact for effective and efficient service provision. Mundubbera was the last site to transition to this model in January 2022. The merge of two sites occurred quickly by adding an extra workstation in the library. To date, staff are working in an environment where customers walk freely behind their counter space. This is a safety risk with the increase in Unreasonable Customer Conduct and cash transactions (higher cash during rating periods). This counter design and upgrade is necessary to improve the centre and safety of staff.	Under construction	\$150,000	Feb-25	Jun-25
4	Community	QLD	Northern Peninsula Area Regional Council	Injinoo Road (Stage 2) Shared Cycleway – Nona Creek Bridge and Approaches Portion	Construction of shared cycling and pedestrian infrastructure along Injinoo Road that connects communities of Umagico to Bamaga. This project completes the Injinoo Road route (Injinoo to Bamaga). Problem addressed: Injinoo Road is an 8.0m sealed road with 1.0m shoulders. The road consists of steep high embankments. An off-road shared cycleway will provide safe commuting for NPA residents to travel between the communities of Umagico & Bamaga. Community Benefit: Improve health and fitness of residents. 4	Community	QLD	Pormpuraaw Aboriginal Shire Council	Community Hall Refurbishment Works – Lot 190 Rirranth St, Pormpuraaw QLD 4892 [SP270888]	1. Remove 6 x existing industrial roller doors. 2. Install 6 x new industrial roller doors C2 rated 4350mm high x 4615mm wide with drive motors. 3. Install external lighting to community hall. 4. Refurbishment bathroom amenities. 1. Existing roller doors are an extreme safety issue and only 2 of the 6 roller doors can be manually lifted currently. Injuries have occurred to employees and community members through manual handling of these roller doors. 2. The installation of new roller doors will enable the community hall to be fully functional and be used more regularly for community events and sporting requirements. The new roller doors will also be cyclone rated which will improve the resistance of this building against cyclones. The new roller doors will also have drive motors which enables staff and community members to easily operate the roller doors. 3. Installation of external lights to community hall. Currently there are 2 entry spotlights that cover only 20% of the front entry area of the community hall. The lack of external entrance lighting at the front of the community hall is a safety issue for the community and staff. 4. Refurbishment of bathroom amenities within the community hall are quite aged and require constant repair works.	Under construction	\$112,686	Sep-24	Jun-25
4	Community	QLD	Pormpuraaw Aboriginal Shire Council	Beach Front Ablution Amenities Refurbishment Works – Beach Front Rd (Front of Airport), Pormpuraaw QLD 4892	1. Remove current non-functioning septic tank system at beach front ablution amenities. 2. Install new advanced secondary wastewater treatment system. 3. Replacement of water pipes, toilets, basins & showers in the ablution amenities building. 1. Current unit is continuously failing. The current unit is a safety issue to the community due to the current blockages and overflow of wastewater into the beach front environment. Major health risk to community members due to exposure of untreated wastewater which is pooling at times with community kids seen playing in these pools of water at the beach front which is a common area for community members to gather and undertake fishing and picnic recreational activities. 2. Installation of new advanced secondary wastewater treatment system will ensure that this community facility is accessible and able to be utilised and the community has access to working ablution amenities, rather than constantly locked up due to the continual blockages in the septic system for this facility. 3. Refurbishment of the internal plumbing fixtures will ensure that this community facility is able to be fully utilised and the community has working ablution amenities. Water leaks are continuous which is resulting in water wastage.	Under construction	\$75,000	Sep-24	Jun-25

Stabilisation Works in preparation of installation of concrete floodway extension on Strathgordon Rd at Murray Crossing [Chainage: 175.768] 1. Stabilisation works of road section to prepare road for installation of proposed concrete floodway extensions (which have been proposed in Part B of LRCI Phase 4 Funding. This will eliminate roadway scouring that occurs during every severe flood event. It will improve access from the community to the Peninsula Developmental Road providing a safer passing opportunity for vehicles traveling in dusty conditions. Every wet season flooding reaches levels that completely cut off road access to the community for three to four months per year. It will provide a safer roadway for motorists, minimising the potential for impassable conditions and vehicle damage. It will assist to minimise the time of closure due to rain/flooding events. This will provide better access to health, employment and education and training for the local community. Closure of road-based access results in the community being isolated with goods needing to be delivered by sea or air, which can have significant cost implications. In addition, goods must be freighted in and stored in anticipation of closures during the wet season, which can again incur significant costs, especially with those items that need to be kept refrigerated. 4	Community	QLD	Southern Downs Regional Council	Urban Development Framework - Other	Implementation of selected actions/strategies from the Leyburn and Pratten Urban Design Frameworks (UDFs): <ul style="list-style-type: none"> •Pratten: 1) a basic shade structure with a picnic table in Heritage Park; and 2) Provision of a Drinking foundation, to be located near the water main. •Leyburn: Initial tidy up of the Leyburn Tennis Court area, removal of old tennis court surfaces, replace boundary fencing and position bins, BBQ and shelters, etc, in line with a developed concept plan (with community input). •Plus, project management associated with the above projects. Shaping Southern Downs identified that with population growth, there is a need to manage the environment and distinctive regional landscapes. Residents are attracted to diverse, active and connected communities living in sustainable, well-designed, safe, accessible places with high participation in community life. To achieve this, Council set an action to consult, prepare and develop a number of urban design frameworks (UDF) for the villages and smaller towns aimed at enhancing the liveability of Southern Downs Region. For Pratten, additional shade and picnic tables will increase usability of Heritage Park for both local residents and tourists. Heritage Park is the only open space in Pratten, therefore additional infrastructure will benefit the community, particularly during events which are held in the park, and it will also encourage tourists to stop for a picnic. There is a single shop in Pratten, which is located to the south of this park, therefore this additional infrastructure is in easy walking distance and will provide an option for tourists (and locals) to enjoy the park setting to enjoy their takeaway meal. The inclusion of a drinking fountain provides for an additional amenity for the users of the park, enabling them to extend their stay. For Leyburn, the tidy up and re-development of this prominent community space will improve the streetscape, and provide an attractive open space for the community to meet and socialise, and tourists to enjoy a break. This space is in the main street of town, and located between the shop and CWA hall, which are highly visited areas by both local residents and tourists (Leyburn is quite a popular "Sunday drive" destination). Currently the site is in a state of disrepair, and has limited functionality currently given its state. The former tennis court surface has not been appropriately maintained and therefore doesn't facilitate any recreational use.	Under construction	\$280,000	Jan-24	Jun-25

4	Community	QLD	Winton Shire Council	Neighbourhood Centre Carpark Shade Structure	<ul style="list-style-type: none"> •Site Assessment: Assess the existing sealed carpark in Winton, Queensland, with dimensions approximately 16m x 24m. Given the local climate, consider the extreme summer temperatures that often exceed 40 degrees Celsius, as well as the need for rain protection. •Design and Planning: Develop a shade structure that provides effective coverage from both the intense sun and occasional rain. The design should incorporate materials that are highly UV-resistant to withstand the harsh sunlight and durable enough to manage heavy rains. The structure should be engineered to handle the high temperatures and the potential for strong winds, common in Winton. •Construction: Construct the shade structure with a focus on durability and resilience to the local weather conditions. This includes securely anchoring the structure, installing robust support columns, and ensuring that the shading material is properly tensioned and water-resistant. Consideration should also be given to facilitating proper drainage to prevent water pooling. Problems Addressed: •Extreme Heat and Rain Exposure: The existing carpark is fully exposed to Winton's extreme summer heat, where temperatures can exceed 40 degrees Celsius, as well as occasional rain. This creates discomfort for users and can lead to vehicle damage. <p>Community Benefit:</p> <ul style="list-style-type: none"> •Enhanced Protection and Comfort: The shade structure will offer vital protection from the intense sun and rain, making the carpark more comfortable and usable throughout the year, particularly during the extreme summer months. •Vehicle Preservation: By shielding vehicles from the harsh sunlight and rain, the structure will help prevent heat-related damage, such as fading paint and interior deterioration, and protect against water damage, thus extending the lifespan of vehicles. •Increased Community Engagement: The added comfort and protection are likely to encourage more frequent use of the Neighbourhood Centre and its carpark, promoting greater community involvement and support for local events and activities. Problems Addressed: •Pedestrian Safety: Currently, pedestrians walking to and from the Winton Showgrounds, especially after events, are at risk due to the lack of a designated walking path, which can lead to accidents or injuries. <p>Community Benefit:</p> <ul style="list-style-type: none"> •Enhanced Safety: The new footpath will significantly improve the safety of pedestrians by providing a dedicated route to and from the Showgrounds, reducing the risk of accidents. •Increased Accessibility: The footpath will make it easier and safer for all community members, including those with mobility challenges, to attend events at the Showgrounds. •Community Engagement: By improving access to the Showgrounds, the project will encourage greater participation in events and activities, fostering a stronger sense of community. 4B	Road	QLD	Burdekin Shire Council	Thompson Road Floodway Upgrade	The proposed work consists of the construction of a 25m long x 6.6m wide concrete floodway over new 1200x750 RC box culverts with 100m long bitumen sealed approaches on each side. With each flooding event an unsealed section of Thompson Road suffers loss of materials and scouring which then necessitates closure of the road as it becomes unsafe for travel. Thompson Road is the secondary route to the township of Alva with the main arterial road, Beach Road often being closed due to water over the road in a number of places. Under the Local Resilience Action Plan key hotspots identified after each event are highlighted for works. Thompson Road has been identified and included in the Local Resilience Action Plan. By constructing a concrete floodway over culverts, as well as bitumen approaches, the risk of the road being affected by flooding would be reduced. This in turn would ensure a secondary route to the residents, services and emergency response teams to the township of Alva.	Complete	\$357,780	Dec-23	May-24

4B	Road	QLD	Ipswich City Council	Culvert Rehabilitation on Talegalla Road	Replacement of existing culvert and road This part of Talegalla Road is a Rural Sub-arterial road that provides a vital link between the township of Rosewood in the south, to both the Warrego Highway and Marburg to the north. The route enables better connectivity, improved mobility, shorter travel times and improved safety for the road users compared to the alternatives. The proposed culvert replacement will ensure Council can economically maintain a fit for purpose structure that is compliant with the current standards. Council have previously undertaken temporary maintenance repairs to the structure but are unlikely to provide the necessary long term solution to address the global movement and settlement of the structure that is being experienced. Due to the road and culvert asset reaching its end of useful life, the maintenance costs to keep this asset functioning, in an acceptable manner, are increasing and therefore costing the community more each financial year. This culvert and road replacement project will significantly reduce these costs with the only activities being required at this location being the routine inspections of the asset on an annual basis. If these culverts are not replaced over the coming years then the road will have to be closed with motorists having to travel a considerable distance as a detour on lesser standard rural roads. Length of road to be redone is 101m.	Complete	\$671,381	Jul-24	Dec-24
4B	Road	QLD	Lockyer Valley Regional Council	Lockyer Valley Road Reconstruction and Rehabilitation Works	This project is for capital maintenance, reconstruction and rehabilitation works for approximately 9.5km of rural roads located in the Lockyer Valley. Works include overall surface improvements and pavement rehabilitation. Pavement strengthening through use of existing pavement materials or reconstruction, dust sealing of existing surfaces, upgraded drainage and culvert crossings, minor drainage repairs and edge repairs. Sections of Lockyer Valley roads have reached the end of their usable lives and are heavily potholed. Capital maintenance works are required to extend the life of these roads to restore road condition.	Complete	\$534,760	Jul-24	Dec-24
4B	Road	QLD	Moreton Bay Regional Council	Deception Bay - Lipscombe Road / Marine Boulevard - Traffic Signal Upgrade (Traffic Improvement)	The project is located at the intersection of Lipscombe Road and Mariner Boulevard, Deception Bay. The project scope consists of maintenance and renewal of traffic signals at this intersection to address safety and traffic congestion. The objective of the project is to improve safety for all users, reduce and future proof for traffic congestion and delays. There are several existing operational deficiencies, such as safety and congestion. The expected outcome of the project is to renew the traffic signals, including phasing at this intersection. 4B	Road	QLD	Hope Vale Aboriginal Council	Replacement of Traffic Signage for structures and roads Category: Traffic improvement - Works involving traffic calming devices, traffic lights, pedestrian islands, lighting, warning signs and roundabouts	Council intends to replace either the aging traffic signage and bridge load limit signage around the Shire in Manual of Uniform Traffic Control Devices (MUTCD): The primary reference for standardized traffic control devices. Replacing missing or aging traffic signage and bridge load limit signage provides several key benefits to the community, addressing both safety and efficiency concerns: Accident Prevention •Missing or illegible signs lead to confusion and accidents. Proper signage helps drivers understand traffic rules and navigate roads safely. Structural Integrity •Signs indicating bridge load limits prevent overweight vehicles from crossing, reducing the risk of structural damage and potential bridge failure. Legal and Regulatory Compliance: Regulatory Adherence •Ensuring all traffic and bridge signage meets current regulations helps Council avoid fines and legal issues associated with non-compliance. Liability Reduction •Up-to-date and visible signage reduces the risk of accidents and injuries, thereby minimizing legal liabilities for local governments and road authorities. Enhanced Safety •Accurate and visible traffic signs reduce the likelihood of accidents, protecting drivers, passengers, and pedestrians. Emergency Response •Proper signage aids emergency vehicles in navigating roads quickly and safely, improving response times. Economic Benefits •Maintenance Cost Reduction: By preventing damage to bridges from overweight vehicles, proper signage can significantly reduce repair and maintenance costs. By addressing these issues, the replacement of missing or aging signage plays a crucial role in enhancing safety and improving traffic flow.	Under construction	\$36,759	Aug-24	Feb-25
4B	Road	QLD	Maranoa Regional Council	Extensions to various locations on Roma's Kerb and Channel Network	Construct approximately 435 metres of new kerb and channel on unkerbed streets in Roma inline with Council's recently adopted Kerb and Channel Extension Strategy This project will allow to accelerate the delivery of new kerb and channel installation across a number of streets in Roma that currently have no kerb and channel. 4B	Road	QLD	Charters Towers Regional Council	Myola Road Gravel Re-sheeting - SHEETING / RE-SHEETING	Gravel Resheet 7km of Myola Road Myola Road is an Arterial Road under Council's Road Risk Management Policy and therefore, considered a critical route in the road network. This road requires substantial maintenance each year and in the event of an extreme weather event often restricts access to multiple properties from this area of the region due to minimal gravel base over the top of the road's subgrade. Although this road has been under DRFA restoration works, these works do not replenish the recommended depth of gravel required under the Australian Road Research Board or Austroads standards, as these works are to only restore the road to the standard when the damage occurred. This project will replenish a priority local road to the recommended depth of gravel required per the Australian Road Research Board and Austroads standards.	Under construction	\$474,265	Oct-24	Apr-25

The installation of a traffic calming device will significantly benefit the community by enhancing road safety, accessibility, and visual appeal. By slowing down vehicle speeds and reducing traffic-related accidents, it ensures safer streets for pedestrians, cyclists, and drivers alike. Currently, the existing traffic management measures in the area are inadequate, leading to frequent speeding and accidents, posing a risk to all road users. The new device will address these issues, providing a much-needed improvement in safety and quality of life for the community.	Under construction	\$50,000	Sep-24	Jun-25
4B	Road	QLD	Northern Peninsula Area Regional Council	Resealing of Town Streets – Northern Peninsula Area	Resealing of existing sealed roads within the NPA LGA. Existing have deteriorated and require renewal. Two roads to be actioned: 1. Sebasio St, Bamaga oChainage 0 – Ch 220 - Average width 6m - \$26,176.00 oChainage starting at intersection with Sagaukaz Street 2. Atambya, Injinoo oCh 0 – Ch 175 -Average width 7.5m -\$26,176.00 O Chainage starting at northern intersection with Mc Donnel Street By improving the road surface, the project will ensure safer and more reliable transportation for pedestrians, cyclists, and drivers alike. Currently, the condition of the existing roads is inadequate, leading to increased wear and tear on vehicles and higher risks of accidents. This project will address these issues and provide a long-term improvement in the quality of local infrastructure. Furthermore, resealing roads will enhance the community's resilience to natural disasters as well-maintained roads remain usable during disaster events, ensuring that emergency services can operate effectively and that residents can evacuate safely if necessary. 4B	Road	QLD	Porpuraaw Aboriginal Shire Council	Murray Crossing Floodway Extension	<p>1. Installation of concrete floodway extension (2 x 180m² sections) at Murray Crossing 1. The proposed concrete floodway extensions will eliminate roadway scouring that occurs during every severe flood event. It will improve access from the community to the Peninsula Developmental Road providing a safer passing opportunity for vehicles traveling in dusty conditions. Every wet season flooding reaches levels that completely cut off road access to the community for three to four months per year. It will provide a safer roadway for motorists, minimising the potential for impassable conditions and vehicle damage. It will assist to minimise the time of closure due to rain/flooding events. This will provide better access to health, employment and education and training for the local community. Closure of road-based access results in the community being isolated with goods needing to be delivered by sea or air, which can have significant cost implications. In addition, goods must be freighted in and stored in anticipation of closures during the wet season, which can again incur significant costs, especially with those items that need to be kept refrigerated.</p>	Under construction	\$142,442	Sep-24	Jun-25

4B	Road	QLD	Torres Shire Council	Waiben Esplanade Shoulder Sealing	Waiben Esplanade, Thursday Island is the location of the only boat ramp for the island. Subsequently it is heavily utilised by the community for daily commuting from other islands, recreational fishing and cultural hunting. The ramp does not have a sealed car park and vehicles and trailers are parked along the unsealed road shoulder of Waiben Esplanade. During the Dry Season, the dust from the unsealed shoulder causes respiratory issues to nearby residents. During the Wet Season, vehicles and boat trailers get bogged, causing damage to both the vehicles and the road reserve.	Not Started	\$90,150	May-25	Jun-25

4B	Road	QLD	Winton Shire Council	Replace existing culverts at One Mile Creek	<ul style="list-style-type: none"> •Structural Assessment: Address the findings from the last inspection, which revealed significant cracking and displacement of batter protection around the abutments, along with the loss of embankment material from the carriageway. Regular monitoring will be conducted, and the culverts will be placed on a Level 1 and Level 2 bridge inspection program as a priority. •Culvert Replacement: Replace the existing Reinforced Concrete Box Culverts at One Mile Creek on the Winton Jundah Road Ch 13.2km. The replacement will involve the removal of the failing structures and the installation of new, robust culverts. The culverts currently consist of 4 cells, each measuring 2100 x 1670. •Batter Protection and Embankment Stabilisation: Repair and reinforce the batter protection around the abutments to prevent further displacement. Stabilise the embankment to prevent material loss and ensure the integrity of the roadway. •Traffic Management: Implement traffic management measures during the replacement works to ensure the safety of road users and construction personnel. This may include temporary road closures, detours, and clear signage. Problems Addressed: •Structural Failures: The existing culverts are showing early signs of failure, including significant cracking, displacement, and embankment material loss, which pose a risk to road users. Community Benefit: •Enhanced Safety: Replacing the failing culverts will ensure the safety of all road users on the Winton Jundah Road, reducing the risk of accidents due to structural failures. •Continued Accessibility: By addressing the early signs of failure, the project will help maintain the accessibility and usability of the Winton Jundah Road, which is crucial for the local community and economy. 1	Road	SA	City of Adelaide	Road resurfacing of Chesser Street and pavement surfacing (DuraTherm) upon entrance to Coromandel Place	The Historian Precinct consists of three public roads that operate mainly in a one-way direction. Motorists enter Coromandel Place from Pirie Street, turn right onto French Street, right onto Chesser Street and exit out onto Pirie Street. The Grenfell Street end of both Coromandel Place and Chesser Street has bollards to prevent entering or exiting the precinct. These bollards are removable to allow for two-way vehicle movement under traffic control during special event road closures. This section operates under two-way conditions for motorists parking/unparking and those entering/exiting private property. All three streets have kerbs however the narrowness of these and bin placement forces pedestrians, etc. to use the road. On-street parking consists of 17 x Loading Zones as follows; <ul style="list-style-type: none"> • Coromandel Place consists of two spaces between Pirie and French Streets and five between French and Grenfell Streets, • There is one space on French Street, and • Chesser Street consists of five spaces between Grenfell and French Streets and four spaces between French and Pirie Streets. The narrowness of the streets, particularly Chesser, forces motorists manoeuvring around a parked vehicle to mount the kerb which poses a significant risk to pedestrians exiting the properties on the east side between French and Pirie Streets. It is recommended that approval be sought from Department of Planning, Transport and Infrastructure for the introduction of a Shared Use zone. In principle support for the Shared Use zone has already been received. This support is based on ensuring that changes are made to all three streets to ensure that a motorist is aware of the differing environment. These changes are the removal of parking on Coromandel Place and Chesser Street between Pirie and French Streets and installation of planter boxes to create a chicane effect to assist in slowing of motorists. Children get burns from hot play equipment and from playing in the sun on hot days. The lifespan of play equipment will be reduced with fading and cracking that can happen from sun exposure over time. These issues will be addressed by installing shade sails over playgrounds and it is widely recognised shade provides beneficial outcomes for the community to encourage active play at times when they may not have played due to hot weather conditions. Council has three existing other playgrounds with shade sails over them, and due to these beneficial outcomes, is seeking to expand these over more playgrounds as part of this community infrastructure program. 1	Community	SA	The Berri Barmera Council	The revitalisation of Berri's Colin Jennings Apex Park (Apex Park) will incorporate improvements including an upgrade of the previous BMX track to a versatile pump track which can be used by bike riders, skateboarders and scooter riders of all abilities. Complimenting this will be an off-grid solar BBQ shelter and associated amenities so park users can spend extended time enjoying this space and the additional play equipment that will accompany it. Concrete connecting footpaths, that double as a junior scooter track meander through the native vegetation to connect the different zones of the park. Finalising the upgrades is new fencing for the current dog park, bringing the whole area together to deliver a unique and enjoyable public open space that provides positive health and wellbeing opportunities for the Berri and wider Riverland community.	The Berri township does not currently have a suitable community open space that provides adequate facilities for people to connect and enjoy together, while meeting the needs for families that are transport disadvantaged and unable to access other facilities within the district. Additionally, Berri has no free active public facilities for older age groups (pre-teens and teens) such as a skate park. This project will provide a pump track (amongst other infrastructure) which caters for a variety of ages and wheeled users. This is a community facility that is not currently provided by any of the other Riverland Councils and will be a distinctive point of difference for the park. The space currently has ad-hoc infrastructure including; a dog park, two small pieces of playground equipment, asphalt multi-use court and shaded gazebo. The existing layout lacks connectivity between the current facilities which reduces the appeal of the area. By teaming the pump track up with dedicated concrete connecting footpaths, that double as a junior scooter track, provides the safe connectivity required for the individual areas and is the perfect combination for families with children of varying ages. To ensure that the new features of the park are fully maximised, complimentary facilities such as; a fully solar BBQ, solar lighting, seating and drinking fountain will be installed to enable visitors to extend their time and utilise all that the park has to offer leading to enhanced positive health and wellbeing for our residents and other users.. Given that much of the groundwork is already in place within the site, the additional enhancements will enable the Berri Barmera Council to provide a quality green space which offers a range of passive and active opportunities for our community which differ from the traditional playground layout.	Complete	\$299,755	Apr-21	Dec-21

1	Community	SA	City of Victor Harbor	Railway Goods Shed Address building access and maintenance issues connected to this publicly available building. Works to include installing a lift, upgrade of toilets, upgrade building insulation and building comfort, adjusting foyer area to support the consolidation of the Visitor Information Centre and SA Whale Centre that improves the visitor experience.	The building has a number of access related issues. Council resolved in mid-July 2020 to consolidate the Visitor Information Centre and SA Whale Centre into one facility to improve operational efficiencies and direct resources into digital and online visitor servicing measures. This decision was not planned for in the 2020/21 budget. This requires a significant upgrade to the building to support the integration. Improvements to building and merger of services will allow Council to invest savings into online destination marketing efforts.	Complete	\$355,740	Dec-20	Mar-22
1	Community	SA	Naracoorte Lucindale Council	Erection of interpretative panels illustrating the Indigenous and European history, and scientific importance of Naracoorte Caves	This project builds on the high-quality visitor experiences offered at Naracoorte Caves, to provide a linkage to Naracoorte township with signage interpreting the natural and cultural landscape. 1	Community	SA	Corporation of The City of Unley	Landscaping of an important walking and cycle corridor, following path widening to be undertaken by the State Government. The works involve vegetation clearance, soil improvements, irrigation and extensive planting of shrub, grasses and ground covers, as well as advanced trees. In addition to the corridor greening, improved way finding signage and upgrade LED path lighting will be installed.	The Mike Turtur is the most popular off-road cycle route for daily commuters into the CBD. Over time, the popularity has placed increased pressure on the path width and its capacity to accommodate increased cyclists and pedestrians. The State Government has chosen to increase the path width to improve the safety and efficiency of the route, between Musgrave Street, Goodwood and King William Road, Wayville. The bikeway runs parallel to the existing tram corridor and adjoining side and rear fences of residential homes. To enable the construction of a wider path, extensive vegetation clearance is required. Much of the existing planting is old, self-seeded and overgrown, and inappropriate along the bikeway due to sightlines, CPTED, form or seed drop. The LRCI Program allows Council to invest in a new corridor landscaping to improve the safety, amenity and biodiversity for all users, and adjacent residents. A sustainable palette of predominantly native plants will be carefully chosen to ensure long-term sightlines are maintained along the corridor, support the Council's long term tree canopy growth targets, and increase local biodiversity. Once established, the Council will take the longer-term maintenance responsibility of the bikeway and corridor greening.	Complete	\$340,054	Feb-21	Jun-22

1	Community	SA	City of Mount Gambier	Review of existing lighting levels across the City of Mount Gambier compared to Australian Standards, including modelling the improvement in lighting that will be achieved through the installation of LED lights.	Improving lighting levels and safety in the streets of the City of Mount Gambier. <ul style="list-style-type: none"> Improved safety due to higher lighting levels provided by LEDs. Council's energy consumption and carbon footprint would therefore be considerably reduced; the incidence of reported Street Lights Out should reduce. This will reduce operating costs; LEDs have a lower lumen depreciation than HID lamps. This means that approaching the end of life a LED output is higher than that of a HID lamp; Disposal and/or recycling or refurbishment of LED luminaires will be more efficient than disposal of lamps containing higher levels of mercury; LED luminaires are smart ready. That is, they can facilitate control systems such as remote reporting (of parameters such as temperature, noise and air quality), control and dimming, should it be required; A variety of existing luminaire and lamp combinations can be replaced with one LED type, with white light, which is the preferred option for P category (minor road) installations; and Some HID light sources (e.g. Low-Pressure Sodium lamps and Mercury Vapour lamps) are no longer available. This requires the replacement of whole luminaires with an alternative replacement. LEDs meet this need 	Complete	\$486,995	May-22	Nov-22

2	Combination	SA	Wattle Range Council	Penola to Coonawarra Walking / Cycling Track	The concept of a walking and cycling trail from Penola to the Coonawarra was developed following investigations into a regional trails network that was completed in 2015. With the increasing awareness of the value of outdoor recreation in relation to health and wellbeing, and the Coonawarra Wine Region being acknowledged as an excellent tourism attraction, the development of a multi-use walking and riding trail would add strongly to the region. A well planned and constructed trail network in this area would cater to a range of users including recreational walkers and runners, cyclists, and tourists wanting to visit wineries and other destinations. The section of trail proposed for development runs for approximately 16km (excluding links to wineries and tourist attractions) from the town of Penola through several vineyards and wineries to Coonawarra. Additionally, Naracoorte Lucindale Council is currently developing a 16km connecting the Naracoorte township and the world-heritage listed Naracoorte Caves to strengthen the high-quality visitor experiences offered in the region. 3	Community	SA	District Council of Robe	Seafarers Crescent, Robe	Sealing/Bicycle and Walking Paths/ Improved Accessibility of Community Facilities and Areas/ Street lighting equipment: Sealing of the Drain L to Seafarers Crescent walking trail 1,114m long and installation new solar lighting for safety. This popular walking trail has historically been limestone road base and dirt and is responsible for an increasing number of injuries and issues, along with silt and soil erosions in the waterway. Providing a sealed connection from the large, long beach residential area, beaches and parks is a key action in the Disability Access and Inclusion Plan 2020. Currently people who are not fit and able bodied need to walk in the bicycle lanes of the Department of Transport's main road to access town. The lack of seal on the path means children, families pushing prams, children on small bikes and people who use disability aids can't enjoy a safe and scenic walk.	Complete	\$230,000	Jun-22	Sep-22

3	Community	SA	Yorke Peninsula Council	Arthurton Main Street beautification. Category: Bicycle and Walking Paths	Arthurton's main street features an impressive sporting complex that hosts a variety of sporting and recreational activities, as well as the fast-growing Arthurton Pop-up Markets, which are this year nominated for our region's Event of the Year. This section of the main street has a sealed footpath, but it does not continue down to where the actual businesses are. The poor condition of the unsealed footpath in this section means visitors often track mud and dirt in to the markets, making a mess of the courts and indoor clubrooms. This project proposes to create a sealed footpath from the current footpath site along to the main street businesses. Arthurton Progress Association, a volunteer group working to improve the town, also plans to beautify the section with some lawn and planter boxes, although that will be funded from the community and not the LRCIP. 3	Community	SA	Yorke Peninsula Council	Marion Bay – User pays system upgrade - Desalination Plant. Category: Painting/Improvements to community facilities	Modernisation of desalination water supply infrastructure to allow for an electronic payment system for water supply. The township does not have a water supply other than rainwater and the desalination plant. The desalination plant provides water to those that do not have access to, or are low on, rainwater. The upgraded system will remove the current usage booking system and occurrence of water theft. It is expected usage will increase due to improved ease of access, along with an increase in supply to travellers (who currently are not accessing due to the booking system).	Complete	\$44,499	May-22	Jun-24
3	Community	SA	Yorke Peninsula Council	Various Southern Yorke Peninsula Water Tower Upgrades. Category: Bicycle and Walking Paths	Installation of recycled plastic interpretive signage near each water tower. These signs will feature information about the individual murals including key aspects relating to each town, and the recovery effort from the '19 bushfires which spawned the mural trail project. The community benefit will be added interest for tourists (increasing the tower visitation experience, with added visitors more likely to result in spending in towns) and preserving local history (background of project/bushfires etc.) for improved community connectedness. The signs will be fixed in place and complement the towers which are our biggest non-coastal tourism drawcard.	Complete	\$3,631	May-22	Jun-24
3	Community	SA	Yorke Peninsula Council	Bulbacowie & Wool Bay -Southern Yorke Peninsula water tower extension project. Category: Painting/Improvements to community facilities	Painting of water tower and tank with murals and associated works that include car parking, pathways, fencing, and signage to extend the Water Tower Mural Trail and offer further tourism benefits. This project will continue Yorke Peninsula Council's Southern Yorke Peninsula Water Tower Mural Trail project. This is community/public art as part of a project that has already proven to bring tourism to the region and boost community pride (https://www.ypct.com.au/news/towering-project-officially-launched and https://www.ypct.com.au/news/tours-of-port-vincent-water-tower-mural-1). The artwork will be viewable to all and help attract visitation to Bulbacowie/Minlacowie as well as Wool Bay. The exact artwork will be dependent upon community consultation and artist EOI concepts, but will continue the theme established by the existing tower and tank murals of showcasing the region and, when possible, the township itself. Please see https://yorke.sa.gov.au/discover/things-to-do/southern-yorke-peninsula-mural-trail-yorke-peninsula-art-trail/ which details the process undertaken to ensure the community directed the artwork concept and how it represents their town/local area. 3	Community	SA	District Council of Coober Pedy	CCTV Hutchison Street (Highway to Drive In)	Closed Circuit TV (CCTV) This project will purchase and install an integrated CCTV system from the Stuart Highway to the Coober Pedy Drive-in, travelling the length of Hutchison Street (main street). Multiple groups across the community (including business, tourism, and residents) have been calling for an upgrade to the current system for a long time. The current CCTV system is faulty and inadequate. A partnership is being developed with SA Police, that will see the CCTV system used in the best way possible, and in accordance with all legal obligations. The project will deliver a sense of safety and security to the community, both locals and visitors alike. Increased safety and security leads to greater economic outcomes for the hospitality and tourism industry within the community and ensures that a more positive word of mouth is shared by visitors on various online platforms. It is essential for a remote community.	Under Construction	\$90,100	Nov-24	Mar-25

3	Community	SA	Nipapanha Community Aboriginal Corporation	Community Toilet Block Nipapanha Community, Gammon Ranges Road SA 5732	As construction business quote Number 1082. The remote community of Nepabunna does not have easily accessible public toilets for all. A new toilet block will be constructed in the Community area that will enable easy access to the Community in times of need and also the elderly and disabled community members. Because Nepabunna is remote it takes a considerable time for trades people to attend to septic etc issues (eg weeks). This Toilet block will also have a shower cubicle so that if individual houses are affected they still have access to basic facility needs. This also ensures that overcrowding of other community members facilities are not happening and therefore averting knock on septic system overloads and more problems, Housing overcrowding also is responsible for many major human health issues.	Under Construction	\$69,300	Jan-25	Mar-25
3	Community	SA	Mid Murray Council	Cambrai Landfill new cell development	New landfill cell - Other Provision of landfill cell for community use of disposal from kerbside and transfer station product. Increasing life of Council's landfill asset.	Under Construction	\$1,100,000	Sep-23	Apr-25
3	Community	SA	City of Port Adelaide Enfield	Barker Inlet Tidal Gates Upgrade	Drainage/Other/Improved accessibility to community facilities: The Barker Inlet Wetland receives stormwater from the approximately 50% of the City of Port Adelaide Enfield Council area as well as water from City of Charles Sturt, City of Prospect and City of Salisbury Councils. The wetlands are a crucial piece of infrastructure which provides habitat for flora and fauna, walking paths, bike paths and also provides stormwater flood storage. The tidal gates form an integral part of the sea wall between the Barker Inlet Wetlands and North Arm Creek and allow stormwater out and limit the ingress of seawater. Currently the tidal gates are in extremely poor working condition and require significant upgrade works. Due to the inability to operate the tidal gates the wetlands are currently holding an additional 300mm of water. This has meant that the Northern Connector shared use path and the internal walking paths are often under water and unable to be used. With sea levels rising there is also significant concerns that rising water levels will also increase flooding in the commercial/industrial areas of Wingfield and Dry Creek. This project requires the replacement of the dilapidated tidal gates including automation and upgrade of the access ways to ensure the gates can be maintained and operated within work health and safety guidelines. This will ensure better stormwater management and protection of councils infrastructure including bike, pedestrian paths and significant vegetation.	Under Construction	\$2,106,436	Oct-22	Jun-25
3	Community	SA	Yalata Anangu Aboriginal Corporation	Food service window for Yalata Store	The Yalata Store is a community owned and operated store, servicing our community with groceries and takeaway meals. 4	Community	SA	Roxby Downs Council	Sports Precinct Improvement	Install concrete footpath to connect Pump Track, Skatepark, Oval changerooms and Courts - approximately 250m long x 1m wide Improve entrance – update signage for vehicles and pedestrians. Landscaping – update and repair garden bed borders, plant trees and shrubs, remove unsafe trees branches Spectator areas – remove old tables wooden tables and chairs, install new bin enclosures and seatings area. Level gravel walking areas around amenities. Currently there is no direct link between the Roxby Councils Sports precinct, Pump Track, and the Skate Park. For the community to travel between these locations, they must travel through the Town Oval carpark which can get very busy on game and practice days. By building this new link the pedestrians will have a safer and faster route between these hubs and easier. Currently a small driveway used for main oval access is the only access point, in and out for all participants and spectators. During games and training this can be busy, unsafe and congested. Both pedestrians and vehicles must use this entrance and stop at the checkpoint, the entrance is directly off a busy main road. With the addition of a pedestrian walkway and new signage, congestion will be eased at these peak periods. New entry signs for the oval complex will assist the public to identify the complex location including vehicles and pedestrian. Also, improvements to spectator areas and landscaping, cleaning garden beds and removing old outdoor furniture, irrigation and pine borders.	Complete	\$146,865	Mar-24	Dec-24

Access to the block is via a public road and creates potential hazards for users. Council leases part of a privately owned building in Chapel St that contains 2 public conveniences and the lease to these premises expires in 2025. Waste water system is too small for the toilet facility, lighting is poor Increase in size of parking area to accommodate larger vehicles, ie. car and caravans	Under construction	\$767,234	Jul-24	Jun-25
4	Community	SA	SA, Department for Infrastructure and Transport	Outback SA regional and community identity (acknowledging Aboriginal Native Title Groups)	Inter and intra state signage, identification of iconic locations, airports, and Outback townships within the overarching Outback SA brand. In townships to reinforce community identity, improve visual amenity and wayfinding to community facilities. Community pride in their towns and their unique attributes. This project will support the potential for creative and cultural industries, including Aboriginal enterprises, assist in preserving heritage, and contribute to broader outcomes about placemaking in remote communities. The latter will have a direct positive impact on liveability. Consultation with 24 communities in Outback SA about regional and community identity concepts has resulted in overwhelming support for this project. Where appropriate, community signage will also incorporate the language of the local Aboriginal native title group/s.	Under construction	\$804,797	Jun-24	Jun-25
4	Community	SA	SA, Department for Infrastructure and Transport	Andamooka Community Recreation Centre all for use by community groups	Final stage which involves the construction of two sheds and upgrade of one building Shed 1 size: 5m wide x 3m high x 12m long Shed 2 size: 4.5m wide x 3m high x 11m long Electrical work including, trenching and air conditioner install. Andamooka has several community groups that meet regularly. When completed this space will be used for purposes including lapidary (building on the opal industry). Note: The land in which this project takes place is upon unincorporated land. The Outback Communities Authority (OCA) is responsible for the management of the communities in unincorporated lands.	Under construction	\$98,610	Jul-24	Jun-25
4	Community	SA	SA, Department for Infrastructure and Transport	Fowlers Bay Community Hall	Installation of a new solar system, including battery storage, and improved water storage to assist with the transition to net zero. Improved access and activity for the local community at the hall, due to more reliable power and better-quality water, with kitchen and meeting spaces available for events and local social activities. Apart from the obvious benefits of solar to net zero ambitions which the OCA has for its region, diesel power generation will have a negative impact on the community's air quality and water supply, which is currently only from rainwater and a local spring in the sand dunes. Note: The land in which this project takes place is upon unincorporated land. The Outback Communities Authority (OCA) is responsible for the management of the communities in unincorporated lands. 4	Community	SA	SA, Department for Infrastructure and Transport	Parachilna airstrip sheeting	Sheeting of the airstrip and remediation of an area of the airstrip that requires additional metal to deal with an area of sand. The project requires mobilization of equipment to the site, surveying the site, compaction testing, cartage of material to the site. The airstrip will require formation in line with survey to establish drainage and to ensure formation has required cross section and levels before base course material is installed. Safety equipment will then be installed. Providing local residents and the travelling public with access to an airstrip for Royal Flying Doctor Service emergency evacuations. Delivery of this project will also support the State Government's Flinders Ranges World Heritage nomination. With the anticipated up to 2 million additional visitors each year, there will be a growing need for Royal Flying Doctor Services due to a large increase in visitors to the region.	Under construction	\$499,000	Jan-25	Jun-25
4	Combination	SA	SA, Department for Infrastructure and Transport	Andamooka Airstrip	Repair airstrip and 26km of the Borefield Road Loop. Works to be undertaken include installation of airport fencing and gate, repair and construction of the airstrip and drainage works. Safety measures such as signage and runway markings will also be installed. Improved access to Royal Flying Doctor Service regular clinics and emergency health care. The Royal Flying Doctor Service is providing preventative health care, aged care services and allied health services in Andamooka which are highly valued by the local community. With both increasing numbers of older people in Andamooka and families due to mine expansion employment at both Olympic Dam and the new Oak Dam operation, these services are of increasing importance. Upgrading Borefield Road will improve access to the airstrip.	Under construction	\$571,900	Jul-24	Jun-25
4	Community	SA	SA, Department for Infrastructure and Transport	Western Uniting Tigers Lighting Repairs	Replace one light pole and upgrade lamps on three others Enable training on the oval at Penong. 4	Road	SA	Tatiara District Council	Cannawigara Road, shoulder sealing	Reconstruct and seal the shoulders of a 2.7km section of Cannawigara between Siding Road and Darcey Kings Road including a reseal over the existing sealed pavement. The seal width will go from 6.2m to 8.0m. The existing shoulders are in poor condition with edge drop offs causing safety issues for motorists. Undertaking these works will provide a significant safety benefit on a 110km/h road as well as preserve and extend the life of the existing pavement minimising the lifecycle costs and reducing ongoing maintenance. Seal widening works have already been completed up to Siding Road and this project will further extend the sealed shoulders providing a higher standard and safer road.	Under construction	\$260,000	Oct-24	Jun-25
4	Community	SA	Town of Gawler	Dead Man's Pass Reserve	Replacement of the Toilet block and associated amenities, car parking improvements including drainage upgrade and resurfacing and CCTV, at the Dead Man's Pass Reserve Upgrade to Community Recreational Facility Improved Public Convenience, vandal proof automated facility. Security Upgrade to location, Fibre Optic CCTV Coverage for whole of site through installation of 3 new CCTV cameras Improvements to site drainage and carpark surface to facilitate DDA Compliance. The existing rubble surfaced car park is subject to deterioration from exposure to the elements and frequent vehicle movements which detrimentally impacts the surface condition and serviceability. The proposed project will seek to upgrade the car park to provide an asphalt sealed surface treatment providing drainage improvements through improved surface run-off (in conjunction with new pit and pipe drainage infrastructure, minimising potential for surface deterioration), in addition to safety improvements with the provision of an even surface for DDA compliance and formal delineation of parking spaces and circulation areas Remove of Perma pine log fencing and replaced with eco-friendly recycled materials, improve irrigation and additional lawn area. Approximately 292 lineal metres of fencing will be upgraded as part of the project.	Under construction	\$405,562	Jul-24	Jun-25

4B	Road	SA	City of Victor Harbor	Island View Crescent stormwater upgrade (part two)	Duplicate stormwater pipes and provide additional inlet pits to increase capacity in underground stormwater system in major events. Part two of the Island View Crescent stormwater upgrade project involves the installation of 60m of 375mm dia. RCP, 50m of 450mm dia. RCP and four new pits to connect the new pipes to the existing system. The equivalent parallel pipes create the required capacity running south within the road reserve of Island View Crescent, upstream of the work undertaken in part 1. The Island View Crescent stormwater upgrade is a high priority stormwater project with a large upstream (and uphill) catchment area that has resulted in surcharge from a pit in Island View Crescent during storm events. During the November 2022 storm event, anecdotal observations were made of pressurised water dislodging the pit lid and discharging into the air at 2m high, flooding the road and inundating surrounding properties. The inundation included the living space of one property - number 18, the owner advised that the home has also suffered internal water damage during a major storm event in 2016. Modelling has identified that the existing system surcharges in storm events of 0.2EY (1 in 5 year) and larger. The project addresses the existing significant choke point in this section of existing underground stormwater network to increase capacity and reduce inundation along Island View Crescent. The project also reduces the risk of flooding for properties in the upstream catchment area by ensuring stormwater can be collected from the road network.	Complete	\$205,198	Oct-23	Jun-24

4B	Road	SA	Renmark Paringa Council	Paringa Town Centre Revitalisation Part B	Upgrade footpath and road crossings on Murtho Road, Paringa to increase the walkability in the Paringa Town Centre. This will involve upgrading 6 pedestrian crossings with protuberances and connectivity to the main street businesses and public facilities. This area has high frequency of vehicle traffic and pedestrians struggle to navigate the town centre safely when needing to cross Murtho Road, Paringa. By installing more delineated pedestrian crossings, pedestrians will be able to walk within the town centre and cross this busy road safely. Vehicle users will also be encouraged to slow down due to the more built environment rather than dominating the road, as they currently do. This project will address this safety concern and continue on the upgrades of the Paringa Town Centre to benefit the community, with a welcoming space to use and enjoy. 4B	Road	SA	District Council of Robe	Rural Road Upgrades	Install 8 culverts at 4 different locations at Baxter’s Hill Road, Mt Benson and scour and erosion control at Parkers Road, Mt Benson The installation of new road culverts at four locations on Baxters Hill Road will assist neighbouring pastoral land to drain effectively and prevent scouring of the existing road surface. Baxters Hill Road currently sits higher than the existing pastoral lands and is blocking the natural flows of drainage of low-lying properties. Parkers Road scour and erosion control is to eliminate erosion during heavy rainfalls as this road has steep inclines and declines, water velocities increase and cause excessive erosion to the road surfaces. This results in washouts and the accumulation of sediment at the low point. This presents a safety issue to road users.	Under construction	\$110,327	Jan-25	Apr-25

4B	Road	SA	Mid Murray Council	Street Lighting (additional)	Improved pedestrian and vehicular visibility at night through efficient street lighting at sites where no street lighting is installed. Installation of LED lights within identified streets where no street lighting is prevalent. Within townships residential growth has occurred and therefore the requirement for a provision of street lighting is an essential requirement to the night time street amenity. -Church Crescent, Palmer -Memorial Drive, Tungkillo Pedestrian access at night time currently restricted by no provision of any street lighting therefore access is extremely minimised through no illuminated vision at night time. Council is replacing an asset to support the transition to Net Zero for Council owned assets.	Under construction	\$10,000	Apr-24	Jun-25
4B	Road	SA	Mid Murray Council	Road upgrade - Keyneton to Moculta Road	Road upgrade and sealing of road carriageway of Mid Murray section (1.35kms) of Keyneton to Moculta Road This road seal project provides a direct link to an area of the Barossa Council where employment and business opportunities are accessed by the Keyneton population. This project has been recognised by both Council's and to date has remained unfunded as a joint project. The Barossa Council is progressing with their larger portion of the road corridor and as a compliment to the two council approach the carriageway will then provide the direct linkage and development of the broader area of Keyneton township. This road corridor has been raised as a concern from the Keyneton community for many years and to achieve this road linkage will assist the Keyneton community in their accessibility throughout the region.	Under construction	\$70,909	Apr-24	Jun-25
4B	Road	SA	The District Council of Mount Barker	Nairne Main Street Upgrade - Stage 2.5	Construction of a complaint pedestrian crossing, including protuberances, central refuge and DDA complaint ramps, tactile and handrails; Vehicle access and safety improvements to existing public off street car park, including new access ramp, resurfacing, and decommissioning of an existing unsafe access ramp; The work will also create a complaint pedestrian crossing from side of the main street to the other, which does not currently exist in the street. Improving vehicle safety and accessibility to an adjoining public off street car park as the current accesses have poor sightlines to oncoming traffic on the main street and of a gradient, that does not meet Australian Standards. 1	Combination	TAS	Waratah-Wynyard Council	Installation of new virtual fencing to stop Tasmanian Devils (among other animals) crossing the road in the Rocky Cape National Park environmentally sensitive area. Virtual Fencing is an active electronic protection system that alerts animals before crossing the road when a vehicle is approaching between dusk to dawn. It is proven to be extremely effective in preventing wildlife-vehicle collisions in Australia and around the world. The device is triggered by vehicle headlights and emits a buzzing sound and flashing light to warn nearby wildlife of approaching vehicles. The devices are not visually intrusive and are currently used in Tasmanian National Parks such as Cradle Mountain.	Reducing the amount of wildlife killed on council roads is an action in council's recently adopted Integrated Community Environmental Plan and supports the Tas. Govt. Save the Devil Program. Phase	Infrastructure type	State	Funding Recipient	Project Name	Project Description	Status	LRCI Funding (approved)	Start date	End date
1	Community	TAS	Hobart City Council	Queens Domain The project consists of the complete development of a whole new cycleway along with car park and associated infrastructure. The cycleway will be constructed on a steep gradient of land by the side of the old Tas rail line which is currently unused. The project rectifies many ongoing issues/complaints about the surface of the car park and road ways in this area.	The project brings together the "missing link" the missing connection of cycleway between the Regatta grounds car park and the Macquarie Point development. Currently the cycleway ends requiring riders and other users to travel through an active car park and thoroughfare to the water. The potential conflict for users currently poses significant risk to public safety. The lack of connectivity to the new cycleway at Macquarie Point often causes confusion throughout the cycling community and this is often addressed through our network / stakeholders' meetings with cycling groups as a major area for improvement. The project will allow you to enter the cycleway throughout Glenorchy providing a continuous, safe path away from traffic directly into the heart of the Hobart central district.	Complete	\$685,131	May-21	Feb-22
1	Community	TAS	Waratah-Wynyard Council	Refurbishment and upgrade of 16 toilet blocks in the municipal area	This component of the project specifically addresses ventilation. 3	Road	TAS	King Island Council	Second Seal Programme	Sealing. The project involves placing the second seal on approximately 13.5 kilometres of road. These roads were previously gravel roads and had a first seal applied circa 2017. In accordance with good road construction practice a second seal should be applied to complete the works. This usually takes place some after the initial seal and this work is now overdue to be completed. The roads involved are Old Grassy Road, Cape Wickham Road and South Road. A significant difference with this project and other projects undertaken by Council is that it will be utilising external contractors who will bring machinery and workforce to the island. This approach is due to the scale of the works involved and the resulting efficiency that they can achieve with their equipment resources. Also, to attract contractors to the island there has to be a substantial body of works to make it attractive to them at a reasonable price. Smaller projects are able to be undertaken by the Council utilising its internal resources	Complete	\$599,062	Mar-22	Apr-22

3	Community	TAS	Glenorchy City Council	Construction of Montrose Skate Park	This Project has 2 phases, one for design and the second for the construction phase. These additional funds are for the construction phase for a project. The majority of the project is already grant funded, but a shortfall has been created by Covid-19 cost escalations and a poor sub-base. The construction work being carried out in connection with the development of the new skate park located within Montrose Foreshore Community will include: -Initial set out of the area including the confirmation of services. - Excavation and shaping of an area, which will cover approximately 700sqm – this is completely within Council owned land. - Installation of drainage lines which will be connected to various locations / features within the final skate park e.g. the 'bowl' - Importation of structural sub-base material to form a stable base – the present ground has through geotechnical assessment been assessed as unstable. - Following the importation of stabilizing material, a base layer of concrete will be laid, this will form the initial foundation on which the skate park will be constructed. - Form work forming the features as showing in the design along with final connection to drainage system. - Concrete pours and installation of exposed steel elements - Apply the finishing concrete across the site (this is fine grained coating which is designed to withstand the impact of skaters)- The whole of the skate park is then treated with an anti- graffiti coating. - Re-instatement of the surrounding ground / landscaping works. -Addition funds are required to stabilize the area prior to construction – the unstable nature of the site was identified during the geotechnical investigation as part of the design process. 4	Community	TAS	Launceston City Council	Road Safety Centre Stage 3 and 4	Stages 3 and 4 of the upgrade work to the Road Safety Centre encompass the internal fit-out of play-based and educational equipment, a new car park, and improvement lighting and landscaping Structural modifications and refit of the Road Safety Centre was required following impaired structural integrity of the old reservoir concrete retaining wall which is located within a landslip area. Works included reducing embankment weight, modifications to reservoir retaining wall, raising of old reservoir floor, improving localised stormwater management and tree removal to reduce landslip risk and improve structural safety of the road and public educational facility. These works are now complete, and the play-space fit-out, landscaping and car park works are required in order to reopen to the public this much loved community facility.	Complete	\$1,006,930	Mar-24	Aug-24
4	Community	TAS	Southern Midlands Council	Stanley Steet Footpath, Oatlands	New concrete footpath and kerb between High St and Nelson St 280m Formed footpath to improve amenity and safety for pedestrian traffic	Complete	\$75,000	Jan-24	Aug-24
4	Combination	TAS	Break O'Day Council	Scamander Avenue – Pedestrian footpath improvements.	The upgrade of the pedestrian footpath crossovers at road junctions and sections of unformed footpath along Scamander Avenue along a segment length of 600m from Wattle Drive to Campbell Street to enable disability access and generally improve accessibility to community facilities and areas. The upgrade of the current infrastructure to accommodate disability scooters is of high importance to the Council. The lack of suitable pathway infrastructure is forcing these scooters onto the Tasman Highway, creating a conflict with traffic and posing a significant safety risk. The proposed project will not only remove this risk but also greatly improve safety and accessibility for those using disability scooters. By doing so, it will enhance the quality of life for disabled individuals in the community, allowing them to navigate public spaces more easily and safely. Improving accessibility to community facilities and areas not only benefits those with disabilities but also enhances the overall usability of public spaces for all residents, including seniors and families with strollers. This initiative aligns with the principles of inclusive urban design and demonstrates a commitment to creating an environment that caters to the needs of all community members.	Complete	\$70,000	Feb-24	Oct-24
4	Road	TAS	Circular Head Council	Yanns Road Bridge Replacement (Part of project in LRCI part A)	Replace existing bridge with wider structure and widen bridge approaches to improve road safety issues. Also upgrade guard rail and crash terminals to compliant standard. This project is part of a joint project with Department of State Growth to improve the junction of Bass Highway and Yanns Road. Community concerns have been raised after a document near miss occurred involving a school bus that was not able to efficiently and safely navigate the Yanns Road junction due to inadequate junction width. DSG are planning to upgrade and widen the junction and the widening of Council's bridge is necessary to facilitate the required junction widening and safety improvements that are planned. The designed junction width/layout will allow large vehicles to enter and exit Yanns Road without needing to encroach into opposing lanes of traffic, greatly improving the crash risk. The new bridge will also feature much improved crash railing and terminals which will lower the risk of serious injury and death in the event of a vehicle crash.	Complete	\$103,241	Jul-24	Oct-24

4	Community	TAS	Flinders Council	Repair & Install Electronic locking system on community facilities	The proposed enhancements involve installing new door, handles and locks on every entry/door for the following locations: Flinders Island Arts and Entertainment Centre (FAEC), Lady Barron Hall and Community Gym, Council Office, Whitemark Community Gym, and the Works Office. Additionally, the upgrades include software licensing, installation, configuration, and user training. These improvements are aimed at enhancing the accessibility and security of various community facilities. These facilities are integral to the community's wellbeing, serving as venues for physical activities, meetings, social gatherings, and public events. 1. Flexible Facility Use: Community feedback highlights the need for more flexible access to accommodate activities outside standard hours, maximising utility and accessibility for our community members and groups, including emergency services. Introducing a modern access system enhances functionality and security, facilitating a broad range of activities at flexible times while maintaining security. 2. Security Concerns: Facilities like FAEC, Whitemark and Lady Barron Gyms, and Lady Barron Hall are vital for community engagement. Ensuring secure access is essential to protect the venue and equipment from unauthorised use and vandalism, especially during non-operational hours. Enhancing access controls, by implementing a modern FOB system, prevents unauthorised entry, thus safeguarding community assets. This would enable multiple access privileges during community events organised by groups or when emergency services require these spaces for an extended period. 3. Improved Accessibility: Installing sliding doors and electronic accessibility systems removes physical barriers for wheelchair users and those with mobility challenges, promoting inclusivity and equal opportunities for all. 4	Community	TAS	Launceston City Council	St Leonards Memorial Hall - Accessibility Upgrade and Landscaping	Installation of NCC-compliant accessible deck, ramp and landing, and associated landscaping The property was originally constructed a War Memorial Hall building, owned by the Launceston City Council. The building is situated inside the entrance to the St. Leonards sporting precinct. Built circa 1954, the building is largely of original construction, with no additions. The main entrance has a gently sloped paved pathway leading to the front door, however, this does not comply with the current requirements of the National Construction Code (slope >1:14, no handrails). In addition, the hall currently has 2 sets of double doors; one is a fire exit, the other set for access/egress only. Neither set of doors complies with the current requirements of the NCC due to the 'original design' of the concrete landing/stairs & handrail not meeting current code requirements. A fourth access point is available via a single door into/from the Hall Kitchen, again via an old concrete landing/stair external to the building, making access difficult and potentially dangerous. Landscaping is currently patchy grass. The installation of an NCC-compliant accessible deck, ramp and landing will improve access to the building for community use, and bring the building in line with modern accessibility standards. Landscaping will improve the visual amenity of the hall for the St Leonards community.	Complete	\$200,000	Mar-24	Dec-24
4	Community	TAS	Northern Midlands Council	Laycock Street Park, Longford	Implementation of the Laycock Street Park Landscape Concept Plan that includes a children's playground, BBQ, picnic shelter, open lawn area, all fully fenced and landscaped (Work Category: Playgrounds and Skateparks) Provision of a new park incorporating a playground, adjacent to a new subdivision in the steadily growing township of Longford. 4	Community	TAS	Sorell Council	Sorell Train Shed - 47 Cole Street, Sorell, Tasmania 7172.	Install fire exit doors to a heritage-listed train shed and establish a network of pathways and landscaping. The proposed works are different to those completed using LRCI Phase 2 funds. Phase 2 funds were used to enable floor/structural upgrade to meet heritage standards. Increased lobbying and demands from the community resulted in Sorell Council inviting the community to attend a forum to participate in a broad conversation about achieving the vision of a Community Cultural Precinct for Sorell in late 2020. 79 people attended the forum and 43 written submissions were received after the event detailing thoughts and ideas about the Community Cultural Centre. 60 people completed an on-line survey. A central issue that emerged from this included the lack of community space to hold workshops, activities, events and workshops. The area surrounding the Carriage Shed was identified as an ideal place to develop a cultural precinct due to its proximity to public transport, government and civic services. The vision for the cultural precinct is that it will be a place that brings people together to share an interest in and appreciation of Sorell & surrounds through the arts, culture, history and the natural environment together in one place. The Carriage Shed plays an integral role in the plan for the precinct. The community identified they wanted a cultural precinct that would allow them to: •Attend and hold events •Run group workshops •Attend and hold exhibitions •Come together with family, friends and community (markets, food, live music) •Attend performances •Learn about History & Heritage The following community groups have identified interest in utilising the Carriage Shed for exhibitions, activities, events and workshops:	Complete	\$123,890	Jun-24	Jan-25
4	Road	TAS	Break O'Day Council	Alexander Street, Cornwall	Rehabilitation of carriageway over a distance of 1,120m that includes the rehabilitation of road shoulders and supporting roadside stormwater drainage. Alexander Street road infrastructure has aged and is approaching the end of its operational life. The rehabilitation of the Street is a priority project for 2024/2025 financial year. Left unattended this ageing infrastructure may pose safety risks and hinder the smooth flow of traffic. By returning the road to its original standard, not only will road safety for local residents and visitors improve, but it will also enhance the overall experience of commuting to/from Cornwall. 4	Community	TAS	Waratah-Wynyard Council	Camp Creek Walking Track - Stage 1	Construct gravel walking trail (approx. 1.2m width and 570m length) alongside Camp Creek and terminate near rail corridor for further future development. Scope also includes allowance for vegetative rehabilitation. The proposed trail at Camp Creek extends the existing trail network and opens future opportunities to connect a trail to the abandoned rail network near the airport which can then expand to a loop around the Wynyard township. The proposal is in direct alignment with several recommendations from OSSR Council's Open Space, Sport and Recreation Plan and Waterfront Master Plan. Extending Council's walking trails in natural environments improves health and wellbeing for people of all ages and abilities and offers destination activities for tourists	Under construction	\$50,000	Nov-24	Feb-25
4	Road	TAS	Break O'Day Council	St Columba Falls Road ,Pyengana	Shoulder widening over a distance of 1,120m and construction of new road traffic "Give-Way pull off bays" at Bridge 1066 at Georges River and Bridge 1605 at Kohls Creek. Other works includes the fitting of off-bridge crash barriers on the approaches to Bridge 1066. Road shoulder failures. No "give way" pull off bays at existing bridges. Bridge 1066 does not have approach safety barriers fitted. The planned works for shoulder widening and the construction of new road traffic "Give-Way pull off bays" at Bridge 1066 at Georges River and Bridge 1605 at Kohls Creek will improve road safety and traffic flow in these areas. The inclusion of off-bridge crash barriers on the approaches to Bridge 1066 is a proactive measure that can help prevent accidents and protect both motorists and pedestrians. These improvements are of importance to enhance the safety and efficiency of the road network, and ensuring a safer road transport system for all road users. 4	Community	TAS	Waratah-Wynyard Council	Atheneum Hall Waratah - Upgrades	Install new window sashes(24) and doors (4 double sets) The Athenaeum Hall is listed on the Tasmanian Heritage Register. Approval from Heritage Tasmania was obtained to replace the window sashes and doors. These building elements have deteriorated over time and are in poor repair. Due to their condition water is penetrating the building fabric leading to degradation of other building elements. The hall space is heated to protect various displays within. Replacement of the doors and windows sashes will prevent further decay of the building and improve energy efficiency. Replacement window sashes will be double glazed to further mitigate energy loss. The Hall houses the local museum which is currently home for artifacts, historical pieces and art, is available for hire to community and local groups, the hall recent hosted the 150th celebrations for discovery of tin in Tasmania. The large space in the hall is used by community members who gather to work on community projects such as the making of hundreds of handmade poppy's for display on ANZAC Day. 4	Road	TAS	Meander Valley Council	Link Road from Mount Leslie Road to Pitcher Parade	<p>Design and construction for an extension of the existing Mount Leslie Road pavement formation from the intersection with Gordon Place towards Pitcher Parade. The design pavement width will provide for an 8m road width Kerb and channel both sides with a new footpath link. There is currently one road in and out of the Blackstone Heights area.</p> <p>The proposed project will provide alternate access to Blackstone Heights and mitigate some concerns around traffic congestion on Country Club Avenue and in turn on Westbury Road.</p>	Under construction	\$473,338	Nov-24	Jun-25
4	Road	TAS	Meander Valley Council	Church Street, Carrick Footpath	<p>Works include a 1.5m wide concrete footpath for full extent, road widening and kerb extension from Meander Valley Road to No. 6 Church Street, and minor drainage works as required. This is the next stage associated with the Carrick Footpath Strategy which will provide linkages to key community facilities as well as provide passive recreational links. The works will also provide a safer route for vulnerable pedestrians (children and elderly) along Church Street who currently use the road/road shoulder in winter. The works will also prevent parking on the eastern side of the road bend near the intersection of Meander Valley Road providing better sight lines for drivers.</p>	Under construction	\$200,995	Oct-23	Jun-25
4	Community	TAS	Meander Valley Council	Emu Bay Road, Deloraine – Footpath Improvements – Construct	<p>The project deliverable outcome is to construct new footpath including ramp upgrading on the right-hand side along Mole Creek Main Road towards Emu Bay Road roundabout, and to formalise the Emu Bay Road/Emu Bay Side Road – Weston Street intersection by adding new asphalt footpath, pavement widening, traffic signs, line marking etc. The new footpath will provide a link between the existing footpaths at 127 and 139 Emu Bay Road respectively. The new footpath will provide a safe walking path and connection to the town activity centre for existing and new residents in west Deloraine. Footpath encourage community members to walk which has added health benefits</p>	Under construction	\$200,000	Dec-24	Jun-25

4B	Road	TAS	Circular Head Council	Yanns Road Bridge Replacement (Part of project in LRCI Part B)	Replace existing bridge with wider structure and widen bridge approaches to improve road safety issues. Also upgrade guard rail and crash terminals to compliant standard. This project is part of a joint project with Department of State Growth to improve the junction of Bass Highway and Yanns Road. Community concerns have been raised after a document near miss occurred involving a school bus that was not able to efficiently and safely navigate the Yanns Road junction due to inadequate junction width. DSG are planning to upgrade and widen the junction and the widening of Council’s bridge is necessary to facilitate the required junction widening and safety improvements that are planned. The designed junction width/layout will allow large vehicles to enter and exit Yanns Road without needing to encroach into opposing lanes of traffic, greatly improving the crash risk. The new bridge will also feature much improved crash railing and terminals which will lower the risk of serious injury and death in the event of a vehicle crash.	Complete	\$463,327	Jul-24	Oct-24

4B	Road	TAS	Launceston City Council	Lilydale & Golconda Road Safety Improvement Program	- Upgrade existing line marking to audio-tactile markings where appropriate. - Install edge lines in locations currently without and where width allows. - Undertake assessment of appropriate speed limit, and implement changes if warranted and authorised by the Tasmanian Transport Commissioner. - Undertake an assessment of curves and install appropriate curve warning signage. - Install additional hazard warning signage. - Install guide posts to comply with Australian Standard requirements. - Install crash barrier at locations of high risk. Specific sections of the Lilydale Road - Golconda Road corridor to be improved will be finalised during detailed design, and will be based on engineering and safety assessments. It is anticipated that sections, totalling up to 20km, of Lilydale Road - Golconda Road will be improved as part of this program. The Lilydale Road - Golconda Road corridor is rated as a 1-star road under the AusRAP assessment methodology. Under the ANRAM assessment methodology, it is rated as having a VERY HIGH risk of fatal or serious injury crashes. The calibrated ANRAM model estimates that this road corridor will see 5.5 fatal or serious injury crashes over the next 5 years, and is the road corridor with the highest risk rating in our municipality. These mass-action corridor safety improvements are expected to have a significant impact in reducing the number of fatal or serious injury crashes that are likely to occur. 4B	Road	TAS	Break O’Day Council	Ansons Bay Road - Sealing	This is a significant roadwork project on Ansons Bay Road that includes widening and a degree of realignment of the road, improving roadside drainage, and sealing over 1,400 meters of the road. Works with pre-sealing and stormwater works scheduled for November 2024, followed by base preparation and road sealing during February and March 2025. This approach will ensure longevity and quality of the road. Improving the current road segment that is unsealed and has poor alignment is of priority to the Council. The varying road conditions between dry and wet weather can pose elevated safety risks to road users. The proposed project will enhance road safety by providing a more predictable and consistent driving surface through sealing. This will not only make the road safer for all users but also improve the overall driving experience.	Under construction	\$259,969	Nov-24	Mar-25

4B	Road	TAS	Devonport City Council	Coastal Pathway Upgrade - Coles Beach to Don River Bridge	This is a proposed new project. Upgrade of 500m of existing pathway to Shared Path standards, including 700m Shared Path (adjacent the road and carparking area), along with associated kerb, stormwater and landscaping improvements. Expanding the Shared Path network to meet applicable design standards suitable to the user types will improve safety and accessibility in this prominent area within Devonport City on the outer urban fringe linking to the rural living area. The area is highly used by families, visitors and commuters making their way to the Coles Beach area or connecting through to the Regional Coastal Pathway which is completely linked through to Ulverstone. Many visitors come to Devonport each peak tourist season to enjoy the natural landscape and facilities that are on offer in Devonport and the broader region. Visitor safety, access and wayfinding between areas are key improvement goals. Due to the area being high-use, the greatest benefit is separation between the traffic on the road and the types of users that will use the path including, pedestrians, cyclists, families with prams, scooters, mobility assistance devices, etc.	Under construction	\$292,295	Feb-25	May-25

1	Community	VIC	Manningham City Council	Ruffey Lake Park is a Council reserve, 66 hectares in area. The proposed works include the sealing of paths between the boardwalk at the main carpark, The Boulevard public toilets and picnic shelters. Marking of a new DDA parking bay in The Boulevard off road carpark. Installation of solar powered lights along this path to the toilets. Construction of footpath connections, in several cases to residential park interfaces including Victoria Street and King Street, including associated landscaping and works.	Council is in the process of completing improvements to The Boulevard public toilet block, to in part achieve DDA compliance. Council commissioned a Building DDA Inspection report for the public toilets and the recommendations included sealing of existing gravel paths to access the toilets, lighting improvements and the provision of an additional DDA compliant parking bay in closer proximity to the toilets. The previous Council project scope was limited to the public toilet improvements. This project also seeks to improve access to Ruffey Lake Park, by providing further pedestrian linkages to abutting streets.	Complete	\$141,402	May-21	Jun-21

1	Combination	VIC	City of Port Phillip	Rotary Park, St Kilda Foreshore	The playground at Rotary Park was removed during the construction of The Stokehouse restaurant – which used this space as a building site. The playground is in a high tourism visitation area on St Kilda Foreshore, an area that attracts over 2m people each year. The playground is a high priority for reconstruction given there are no other playgrounds in the area. The project has strong support from the community and Rotary Club of St Kilda, who originally created the park and have been advocating for improvements. Upgrading the full park enhances the gateway to the foreshore and creates more usable public space, through improvements to pathways, access points, infrastructure and through safety improvements such as upgrades to lighting. The park has been identified for critical security upgrades to minimise the danger of unauthorised vehicle access to the foreshore.	Complete	\$277,686	Mar-22	Jun-22
1	Community	VIC	Corangamite Shire Council	This project will renew the boardwalk infrastructure on the pedestrian link from Hennessy Street to Morris Street behind the Port Campbell Public Purpose Reserve.	The existing boardwalk is at the end of its useful life and at the stage of requiring ongoing maintenance.	Complete	\$116,133	Apr-21	Jun-22
1	Community	VIC	Corangamite Shire Council	This project will see an upgrade to the existing netball infrastructure, including court lighting, shelters and inclusive design change rooms for players, officials and spectators.	The upgrades have been identified as a priority to improve the safety for participants, increase the chances of clubs attracting and retaining participants and to increase access and usage. These works are identified as a priority in the Great South Coast AFL, Netball and Cricket Strategy and are supported by the Recreation Reserve Committee of Management, Cobden Football Netball Club and Cobden Tennis Club. In addition, there is a demand for female facilities at the Cobden Recreation Reserve with the establishment of an under 18's female football team. If funding can be secured through this program, it is expected that there will be an increase in the number of females participating at the reserve. Currently, there are three under 18 female football teams across the Corangamite Shire. The upgrade allows Cobden Recreation Reserve to become a venue for further female teams including the development of female senior sides.	Complete	\$300,000	Feb-21	Jun-22
1	Community	VIC	Corangamite Shire Council	This project will provide all abilities access to the War Memorial in Camperdown and streetscape infrastructure upgrades in Finlay Avenue between Pike Street and the War Memorial.	Camperdown's War Memorial does not currently enable all abilities access. 1	Road	VIC	Mount Alexander Shire Council	Barker Street, Castlemaine, Pedestrian crossing treatment to be determined by Regional Roads Victoria. More details can be provided by mid-August if required.	Barker Street (the Midland Hwy), is a 4 lane highway that runs through the centre of Castlemaine. There is a 1.8km stretch that links from the town entrance to the CBD. There are no pedestrian crossing points along this section of highway. This section is used by students accessing the only high school in the region, Castlemaine North Primary School (the primary school with the highest enrolments in the Shire), Windarring - an organisation that provides a day care service for adults with a disability, along with connections to Castlemaine Botanical Gardens - the Shire's most used public space for informal recreation. The lack of pedestrian crossing creates a huge risk for residents and is a barrier to those with mobility issues.	Complete	\$500,000	May-21	Jul-22
