Infrastructure Investment Program - Projects announced since 2018-19 Budget

Figures correct as at 2020-21 Budget

All figures are in \$ million and prepared on a cash basis. Funding profiles represent the current estimate of project start and end date, which is subject to further consultation with states, territories and local governments.

Table does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs, Maintenance projects, or unallocated lines (with the exception of Roads of Strategic Importance corridor funding).

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Other projects may have been amended since Budget. These changes will be reflected in the next Budget update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

The package is expected to include the development of a corridor plan, and individual projects consistent with this plan that are prioritised and agreed between the Australian and ACT governments. Subject to planning outcomes, projects could include upgrades to the Tuggeranong Parkway (including between the Cotter Rd and Glenloch Interchange), improvements to intersections and feeder roads along the corridor (such as the Athlton Drive), or pavement rehabilitation along the Parkway. It will help address congestion areas identified by Infrastructure Australia, with parts of the Tuggeranong Parkway some of the busiest sections of road in the ACT (transporting about 40,000 vehicles a day). 4th May 2021

Mr Simon Atkinson
Secretary
Department of Infrastructure, Transport, Regional Development and Communications
GPO Box 594
CANBERRA ACT 2601

Via email: simon.atkinson@infrastructure.gov.au

Dear Mr Atkinson

I have previously written on behalf of Opposition Senators to request certain information ahead of forthcoming Budget Estimates hearings scheduled for late this month.

As per my request ahead of the March Additional Estimates hearings, I am requesting you provide the requested information but in a different format that I expect will be simpler for your officers to prepare, while still supporting meaningful discussions at Senate Estimates. At the last hearings in March 2021 you indicated you had not had the time to prepare all of the requested material, so I am writing earlier than usual on this occasion in the hope this will allow time to fully comply with my request.

For each of the programs set out below, I would appreciate if a table like the one you provided beginning on page 352 of Part 3 of the documents you tabled on 19 October 2020 could serve as a template for the information to be provided later this month. By way of example, the first page of that table is at Attachment A.

I request the following information be provided both in hard copy and in searchable PDF format at the hearings later this month.

In addition, please provide detail on the funding by program that has been contractually committed, committed but not yet contracted, and any funding that has not yet been allocated.

The tables should also make clear what changes have occurred since the last Estimates hearings, and a list of completed projects for each financial year should also be included, as well as projects scheduled for completion in the 2020-21 financial year.

I would also be grateful if you could provide detail of how funding is allocated by each program for each year over the Forward Estimates, how funding will be distributed (including whether any co-funding arrangements apply), and how recipients have been identified.

- Detail on each of the funded initiatives not already covered above

I also ask that Departmental officials come prepared to answer questions on the progress of individual projects delivered through each Program, including detail of when projects commenced, expenditure to date, reasons for any delays, and expected completion of all funded projects.

Officials should also be sufficiently briefed to expand on the payment of funds to individual groups or companies and the decision-making process surrounding allocation of all funds.

Answering questions by officials

Finally I wish to take this opportunity to again remind you of your obligation, and the obligation of senior officials from your Department, to directly answer questions asked by Senators during Estimates hearings.

Consistent with the resolution of the Senate on [25 June 2014](#):

- there are no areas in connection with the expenditure of public funds where a person has the discretion to withhold details or explanations from the Parliament or its committees unless the Parliament has expressly provided otherwise;
- any claim to withhold information must be on an established ground (noting the Senate Order of 13 May 2009 which sets out the proper process for raising public interest immunity claims);
- the statutory values which Australian Public Service agency heads and employees are required to uphold which include a requirement to be open and accountable; and

- the constitutional framework of checks and balances which places the Parliament in prime position as the agent of accountability.

In relation to Cabinet matters, [Odgers Australian Senate Practice](#) provides the following:

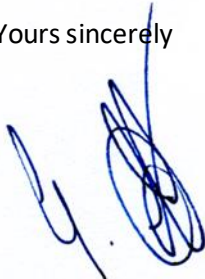

It is accepted that deliberations of the Executive Council and of the cabinet should be able to be conducted in secrecy so as to preserve the freedom of deliberation of those bodies. This ground, however, relates only to disclosure of deliberations. There has been a tendency for governments to claim that anything with a connection to cabinet is confidential. A claim that a document is a cabinet document should not be accepted; as has been made clear in relation to such claims in court proceedings, it has to be established that disclosure of the document would reveal cabinet deliberations. The claim cannot be made simply because a document has the word "cabinet" in or on it.

[Government guidelines for official witnesses before Parliamentary Committees and related matters](#) provide further guidance on the making of public interest immunity related to advice to Government:

4.6.2. The Senate Order of 13 May 2009 made it clear that committees will not accept a claim for public interest immunity based only on the ground that the document in question has not been published, is confidential, or is advice to or internal deliberations of government; a minister must also specify the harm to the public interest that may result from the disclosure of the information or document that has been requested.

I thank you in advance for your cooperation with this request and look forward to your attendance before the committee.

Yours sincerely

<p>Returning Australians Home (Identified as the International Aviation Support in the 2020-2021 PBS).</p> <p>Announced on 4 April 2020. The Government established a network of flights to four key international hubs— London, Los Angeles, Hong Kong and Auckland — for four weeks to help Australians get home. The Federal Government worked with Australia’s two major international airlines, Qantas and Virgin Australia, to establish the network. Supporting these four routes ensured that there was a backbone to global travel options for Australians wanting to come home. <p>Tourism Aviation Network Support (TANS) Announced on 11 March 2021.</p> <p>The Program contributes to the Australian Government's continued economic response to the Coronavirus, providing financial assistance to Australia's tourism and aviation sectors to assist with the impact on the aviation sector from COVID-19. The Program was announced as part of the Tourism and Aviation's Flight Path To Recovery announcement.</p> <p>The objective of the program is to offer 800,000 fares connecting visitors to these tourist-dependent regions over the Program Travel Period. The Program will drive more domestic tourists to travel to nominated tourism regions that have been significantly impacted by the loss of international tourists. This will support jobs and have an economic multiplier effect, as travellers spend money on accommodation, food and activities in these regions.</p> <p>The tickets will be available for purchase under the Program from 1 April to 31 July 2021, to support designated regions and on eligible Regular Public Transport (RPT) air routes, for travel up to and including 30 September 2021.</p>	Nil	NFP	NFP	NFP	<p>To be eligible for TANS, applicants must:</p> <ul style="list-style-type: none"> • have an Australian Business Number (ABN) • be registered for the purposes of GST • have an account with an Australian financial institution • operate scheduled services as Regular Public Transport (RPT) services under an RPT Air Operator's Certificate (AOC) or be able to operate RPT services during the program period • be an airline that operated RPT flights on any interstate, direct route to any of the nominated destinations in Table 1 over the last two years (except where there are no interstate direct routes to the destination, in which case the intra-state, direct routes or the inter-state indirect route would apply); or that announced prior to 11 March 2021 that it would operate such routes during the program period of 1 July to 30 September 2021. • be one of the following entity types: <ul style="list-style-type: none"> o a company incorporated in Australia o an incorporated trustee on behalf of a trust o an Australian local government body o an Australian State/Territory government body o an Aboriginal and/or Torres Strait Islander Corporation registered under the <i>Corporations (Aboriginal and /or Torres Strait Islander) Act 2006</i> 	Nil	NFP

1	Yeppoon Town Centre Smart Precinct Project	Development of the Yeppoon Town Centre Smart Precinct will provide street solar lighting, access to free data, data capture and analytics.	\$197,464	\$200,000	\$397,464	Yeppoon	QLD	Capricornia	17-Nov-17	15-Jan-18	17-Nov-17	Completed
2	Australia's First Heritage City becomes an Australian Future City	This project involved the installation of an Internet of Things platform, a range of smart city applications and digitization projects around council assets, including art collections and archives. The smart city applications delivered included CCTV and lighting at strategic points, parking sensors at the airport, environmental sensors at Sturt Park and Patton park and free wifi in the CBD and Patton Park.	\$342,236	\$605,645	\$947,881	Broken Hill	NSW	Parke	19-Nov-18	30-Nov-18	28-Feb-20	Completed
2	Ballarat is Open - A Platform for Innovation, Data and Collaboration	The City of Ballarat and Federation University Australia Ballarat is Open project will digitally enable Lake Wendouree and Ballarat s creative district and surrounds using the internet of things, communications technologies and data sharing models for smart places, smart environment and smart industries.	\$350,000	\$425,000	\$775,000	Ballarat Central	VIC	Ballarat	19-Nov-18	19-Nov-18	31-Mar-21	Completed
2	Canterbury Bankstown Council Closing the Loop on Waste Project	The project aims to develop a customer-led approach, using technology to tackle waste management issues.	\$1,047,455	\$1,067,455	\$2,114,910	Bankstown	NSW	Blaxland	19-Nov-18	11-Feb-19	31-Jan-21	Completed
2	ChillOUT: Smart Social Spaces Creating Connected Green Places	The Smart Social Spaces project delivered healthy, green and smart built environment 'ChillOUT' hubs as part of the Cool Places Urban Oasis Program. These open-air community spaces include Internet of Things enabled environmental sensors to measure urban heat microclimates, mobile charging stations that integrate with furniture, Wifi access points, and flexible work and rest spaces.	\$380,507	\$498,831	\$879,338	Hurstville	NSW	Banks	19-Nov-18	15-Oct-18	30-Jun-20	Completed
2	City of Palmerston - The Place for People	The City of Palmerston (The Place for People) established an overall Smart City Architecture and frameworks for delivery of smart city applications (including CCTV, smart lighting, public wifi and solar smart benches for charging, smart bins and environmental monitoring). It also established platforms for data management and public engagement.	\$1,000,000	\$1,000,000	\$2,000,000	Palmerston City	NT	Solomon	19-Nov-18	31-Oct-18	31-Mar-21	Completed
2	Community-focused smart technologies to enhance flood resilience	Community-focused smart technologies to enhance flood resilience.	\$300,000	\$300,000	\$600,000	Logan Central	QLD	Rankin	19-Nov-18	01-Nov-18	31-Dec-20	Completed
2	Coogee Smart New Technologies at the Beach	Randwick City Council s Coogee Smart - New Technologies at the Beach project improves beach safety by integrating CCTV safety cameras, crowd analytics software, public WiFi, parking management, better safety information and transport information for the public.	\$299,999	\$500,000	\$799,999	Randwick	NSW	Kingsford Smith	19-Nov-18	19-Nov-18	31-Mar-21	Completed
2	Digitised choice-based letting for the ACT public housing portfolio	The project will design and develop a model of choice-based letting that is suitable for application in an ACT context.	\$668,000	\$757,513	\$1,425,513	Canberra	ACT	Fenner, Canberra, Bean	19-Nov-18	19-Nov-18	30-Sep-20	Completed
2	Flooded Roads Smart Warning System (FRSWS)	The Flooded Roads Smart Warning System (FRSWS) project utilises smart technology to provide both proactive and reactive mechanisms to enhance road safety during flood episodes.	\$247,334	\$250,000	\$497,334	Logan Central	QLD	Rankin	19-Nov-18	08-Oct-18	03-Dec-19	Completed
2	Footscray Smart City for Social Cohesion	The Footscray Smart City for Social Cohesion Project (SC2) is a collaborative initiative that leverages smart technology and open data to deliver community value city activation, safety, economic activity, mobility, and efficiency.	\$347,053	\$391,358	\$738,411	Footscray	VIC	Gellibrand, Maribyrnong	19-Nov-18	15-Oct-18	31-Dec-20	Completed
2	Gawler: Connected Community	The Gawler: Connected Community Project provides the Town of Gawler with the opportunity to deliver better services, more efficient use of infrastructure and improved liveability within Gawler.	\$250,000	\$694,457	\$944,457	Gawler East	SA	Spence	19-Nov-18	09-Oct-18	15-Jun-20	Completed
2	Googong Smart Community: Smart Suburb Blueprint	The Googong Smart Community: Smart Suburbs Blueprint aims to better integrate smart technology into new suburbs through development in Queanbeyan of a smart suburb showcase.	\$1,141,545	\$1,265,000	\$2,406,545	Queanbeyan	NSW	Eden-Monaro	19-Nov-18	08-Oct-18	14-Jun-20	Completed
2	Granville Smart Precinct Pilot Project	The Granville Smart Precinct Pilot project will implement SMART technology solutions to revitalise a precinct and deliver a replicable and scalable model for the delivery of SMART precincts.	\$523,000	\$565,000	\$1,088,000	Merrylands	NSW	Parramatta	19-Nov-18	08-Oct-18	30-Jun-20	Completed
2	Greater Launceston Transformation - Creating our Digital Future	Greater Launceston Transformation - Creating Our Digital Future used open data platforms and innovative smart technology to create a rich digital ecosystem across the region. Elements delivered included a smart traffic system, use of smart data for infrastructure investment and land-use planning, a green travel framework to encourage active transport, an 'Internet of Things' program for schools, digitisation of cultural assets, including those in the Queen Victoria Museum and Art Gallery, and development of extended reality programs.	\$2,904,775	\$3,862,850	\$6,767,625	Launceston	TAS	Bass	19-Nov-18	15-Nov-18	31-Mar-21	Completed
2	Illawarra-Shoalhaven Smart Water Management	The Illawarra-Shoalhaven Smart Water Management project will use smart technology solutions and develop data analytics to respond to stormwater management challenges affecting our communities.	\$478,449	\$626,449	\$1,104,898	Wollongong	NSW	Cunningham	19-Nov-18	15-Mar-19	31-Mar-21	Completed
2	Integrated Smart Parking System: Emerging and Shared Approaches	This project addresses the shortage of public parking in high-demand areas and the impact on congestion and emissions created by drivers searching for parking.	\$400,000	\$400,000	\$800,000	Randwick	NSW	Kingsford Smith	19-Nov-18	19-Nov-18	31-Mar-21	Completed
2	i-Sense Oakleigh: The Smart Connected Precinct	The City of Monash i-Sense Oakleigh: The Smart Connected Precinct project aims to design and build a smart connected precinct that enables the collection of big data and the development of applications and services to improve user experiences, liveability and sustainability.	\$700,000	\$1,035,000	\$1,735,000	Glen Waverley	VIC	Chisholm	19-Nov-18	22-Nov-18	31-Mar-21	Completed
2	Local Government Facilities as a Grid Paralleled Mode Micro-grid	Smart City Council's smart networked micro-grid project in the City of Melville will test and optimise the ability of this approach to significantly improve energy efficiency, energy security and the adoption of renewable energy across distributed local government facilities.	\$546,724	\$550,000	\$1,096,724	Booragoon	WA	Tangney	19-Nov-18	08-Oct-18	31-Oct-20	Completed
2	Maranoa Regional Council SCADA Implementation for Water, Sewerage, Gas	Council will install supervisory control and data acquisition (SCADA) across the region in the water, sewerage and gas services. Base equipment will be installed in Roma (regional centre), with sub stations in the other towns.	\$500,000	\$1,100,000	\$1,600,000	Roma	QLD	Maranoa	19-Nov-18	01-Jul-18	31-Oct-20	Completed
2	Melrose Park: Smart Planning for Climate Responsive Neighbourhoods	The City of Parramatta Council is partnering with UTS and PAYCE to integrate real-time data capture and analysis at the Melrose Park development.	\$571,000	\$571,000	\$1,142,000	Parramatta	NSW	Bennelong	19-Nov-18	19-Nov-18	30-Jun-20	Completed
2	Mid-Western Regional Council (MWRC) Smart Water Meter (SWM) Project	This project will see the installation of smart water meters on properties throughout the Mid-Western Region to enable the collection of hourly and daily water usage data.	\$1,262,618	\$1,542,900	\$2,805,518	Mudgee	NSW	Calare	19-Nov-18	27-Feb-19	30-Jun-20	Completed
2	Mornington Peninsula Smart Parking and Amenities for High Demand Areas	Mornington Peninsula's Smart Shire project will enable sustainable, high liveability standards with economic growth, and effectively manage the environmental impacts of high demand from local communities and tourists on our coastal towns.	\$492,839	\$607,161	\$1,100,000	Rosebud	VIC	Flinders	19-Nov-18	15-Oct-18	30-Jun-20	Completed
2	Northern Melbourne Smart Cities Network, enabling data to drive change	This project will provide an IoT-based Smart Cities network to drive the first steps toward smart cities transformation.	\$520,702	\$899,933	\$1,420,635	South Morang	VIC	Scullin, Wills, Cooper, Jagajaga, Nicholls	19-Nov-18	01-Nov-18	30-Jun-20	Completed

NSW	Bega Valley Shire Council	Phase One	Community Infrastructure	Renewal of the Berrambool footbridge and construction of an off road connecting path	Berrambool sporting complex is one of Council's major sporting facilities and is currently disconnected from the CBD via any means of continual active transport options. There is currently a carpark, skatepark clubhouse and a small footpath network within the sporting facility. There is a footbridge over the creek that is in desperate need for renewal but not connected to a path network. The bridge was built by community volunteers many years ago and is a warranted piece of infrastructure that needs to be renewed. By extending the path network from the existing path along the service lane to the existing path at the Berrambool Sporting complex we will be closing a vital missing link in our active transport network. NSW	City of Canada Bay Council	Phase One	Road	McKinnon Avenue is a local street that links Lyons Road and Great North Road. Lyons Road is a state road while this portion of Great North Road is maintained by Council. This street is used by motorists who is heading east towards Drummoyne to bypass Lyons Road & Great North Road signal during peak hours. Due to the number of vehicles uses this road, pavement has deteriorated over the time and is now due for renewal. The pavement rehabilitation works will include provision of deeplift pavement where required and resurfacing McKinnon Avenue. Under this project, on-street parking bays will be resurfaced on southern side of McKinnon Avenue.	McKinnon Avenue shows signs of pavement deterioration and isolated pavement failures. The project will see a deeper pavement constructed to address the pavement issues and to cater for increase in vehicle traffic as a result of recent development at the north-east corner of Lyons Road & Great North road. NSW	City of Canada Bay Council	Phase One	Road	Tennyson street is a collector street which is located in the suburb of Mortlake. Tennyson Road connects Mortlake and Breakfast Point with rest of Canada Bay LGA. This road is well utilized by means of public transport, vehicle traffic and active transport. Due to the high volume of vehicles that uses this road to get around, pavement has deteriorated over the time and is now due for renewal. The pavement rehabilitation works will include a geotechnical investigation to assist with pavement design and provision of deeplift pavement along Tennyson Road.	Tennyson Road is experiencing pavement failures which is associated with poor sub-grade conditions. The project will see a deeper pavement constructed to address the pavement failures and to cater for increase in buses and residential traffic due to recent substantial development activities. NSW	Dubbo Regional Council	Phase One	Community Infrastructure	Dubbo Aquatic Leisure Centre - Upgrades	The Dubbo Aquatic Leisure Centre (DALC) is a well-loved Community Infrastructure recreation facility, however it is aging facility and is in need of an upgrade. Recent audits of the Centre's security, lighting and pump room facilities, as well as a number of security breaches that have occurred have highlighted major deficiencies in the safety and security of the site. As previous upgrades have been completed in an ad-hoc manner, parts of the existing lighting and security infrastructure are obsolete and do not meet current environmental standards. Lighting: A December 2020 audit of lighting at the DALC highlighted a safety concern for after-hours use of the Centre. At least half of the current floodlights are inoperative and there is no lighting directed at the public car park, staff car park, splash park or waterslide. No lighting exists outside the entrance to the DALC's new foyer and the current floodlights directed at the 50m pool are insufficient for evening events and carnivals. Replacing the existing Metal Halide Flood Lights with LED Flood Lights will reduce the existing energy use by up to 70% and reduce operational costs - every \$100 it costs to run the existing metal halide lights will be reduced to \$30 if replaced by an LED equivalent. Maintenance costs will be significantly reduced as the proposed LED fittings have a three year replacement warranty excluding labour and have a life span of approximately 35,000 hours. NSW	Gilgandra Shire Council	Phase One	Road	Undertaking erosion restoration works, including batter and bed scour protection which will improve stability of the area. This project supports stabilisation of Biddon Creek banks, contributing to natural resource management outcomes. Public safety outcomes will also be achieved through stabilisation of the eroded area, which is encroaching on the power lines located in close proximity to Biddon Creek. The project is in addition to Council's existing work schedule for 2020/21. The proposed expenditure items under the LRCI funding include labour costs and material to complete the works,which are all eligible expenditure items.	Biddon Creek at Biddon is a location where heavy rainfall and flood events cause significant damage to the creek channel. Stabilisation of the area will reduce the potential for recurrent erosion issues to occur. A number of powerlines in close proximity to the creek are also at risk of falling over, creating a safety concern.	Apr-21	Jun-21	\$150,717.00	\$150,717.00
NSW	Gilgandra Shire Council	Phase One	Road	The project involves construction of a concrete causeway over the existing culvert on Doorroombah Road which will support improved road safety outcomes. The proposed works are in addition to Council's existing work plan for 2020/21. This project supports improved road safety outcomes through improved access for road users on an existing unsealed road. Expenditure items under the LRCI funding include labour costs and material to deliver the works which are all eligible expenditure items.	Doorroombah Road is currently unsealed and is impacted during periods of heavy rainfall and prolonged wet weather. The existing culvert is continually being washed away, preventing access for road users. Construction of concrete causeway over the culvert will improve stability of the area, along with improving accessibility, conditions and overall safety for road users. NSW	Gilgandra Shire Council	Phase One	Road	The project involves extending the sealed section to the floodway over Gundy's Creek crossing. The proposed works are in addition to Council's existing work plan for 2020/21. This project supports improved road safety outcomes through improved access for road users during times of wet weather. Expenditure items under the LRCI funding include labour costs and material to deliver the works which are all eligible expenditure items.	Tooraweenah-Mendooran Road is currently unsealed and is impacted during periods of heavy rainfall and prolonged wet weather. Extension of the sealed section to the floodway will prevent longitudinal erosion of the road which is currently occurring in the location and improve stability of the area. Accessibility and overall road condition in the area will also be improved for road users, contributing to overall safety outcomes.	Apr-21	Jun-21	\$60,000.00	\$60,000.00

NSW	Gilgandra Shire Council	Phase One	Road	The project involves construction of a retaining wall at the existing culvert located on the overflow channel at Paddys Creek. This project supports improved road safety outcomes through enhanced stability of the area and road edges. The proposed works are in addition to Council's 2020/21 work plan. Expenditure items under the LRCI funding include labour costs and material to deliver the works which are all eligible expenditure items.	The existing culvert area is regularly washed out during periods of heavy rainfall, impacting the stability of the area, and the ability for landholders to move farm machinery across it. Construction of the retaining wall will improve drainage and stability of the area, along with improving usability and safety for road users.	Apr-21	Jun-21	\$25,000.00	\$25,000.00
NSW	Gilgandra Shire Council	Phase One	Road	The project involves construction of an approach slab to Milpulling Creek to improve stability of the area. The project supports improved road safety outcomes through enhanced access and improved conditions for road users. The proposed works are in addition to Council's 2020/21 work plan. Expenditure items under the LRCI funding include labour costs and material to deliver the works which are all eligible expenditure items.	The existing causeway over the culvert is being eroded, impacting on the stability of the area and creating a traffic hazard. Construction of the approach slab will improve stability of the area, along with improving accessibility, conditions and overall safety for road users.	Apr-21	Jun-21	\$30,000.00	\$30,000.00
NSW	Gilgandra Shire Council	Phase One	Community Infrastructure	The project will deliver Stage 2 upgrades to the Armatree War Memorial Precinct within the Armatree Village. The proposed upgrades include soft landscaping, signage board and lighting at the Big Armatree sculpture, along with pathways linking the key elements within the Precinct. The proposed works are in addition to 2020/21 work plans. Expenditure items under the LRCI funding include labour costs, materials to construct the walkway, establish landscaping, installation of lighting and interpretive signage board which are all eligible expenditure items.	Armatree is a small village located approximately 5km off the Castlereagh Highway, north of Gilgandra. Stage 1 of the upgrades to the War Memorial precinct are nearing completion, which includes development of History Boards and the Big Armatree Sculpture in close proximity to the existing War Memorial. LRCI funding will be used to deliver Stage 2 which addresses the lack of wayfinding signage and connectivity between the precinct elements, ultimately creating a circuit for visitors to engage with and learn about the village and district's history. Community Infrastructure safety and sense of place will also be enhanced through improved lighting and soft landscaping features.	Feb-21	Jun-21	\$72,727.00	\$72,727.00

The upgraded carparking spaces will be located on the northern side of the CHC, where visitors will be able to clearly observe and experience some of the main upgrade features such as the outdoor deck and Aboriginal garden. The proposed LRCI activities are in addition to Council's 2020/21 work plan and will enhance the overall CHC upgrades. The CHC upgrade project will result in improved functionality of the building and exhibition opportunities, incorporation of our Aboriginal Heritage, and improved accessibility and appreciation of the natural surroundings and view of the Castlereagh River.</p> <p>The proposed expenditure items are all eligible under the LRCI funding including:</p> <ul style="list-style-type: none"> * labour costs * material to construct the carparking spaces, establish 	The proposed project will address the inadequate available parking at the CHC and establish linkages between the CHC and Rural Museum as key elements of Gilgandra's Cultural precinct. The existing carpark space will be enhanced considerably, creating designated caravan parking spaces on the western side of the CHC along with car parking spaces on the northern side of the carpark. The CHC and Rural Museum are currently not directly linked, meaning visitors and locals alike are not invited or encouraged to explore past their immediate stopping point. Establishing driveable access and landscaping connecting the two spaces will enhance the general aesthetics and linkages between these two culturally significant facilities. Freedom camping opportunities are currently being explored for Cooee Oval, located between the CHC and Rural Museum, which will enhance the overall opportunities for the Precinct. State	Council/Eligible Funding Recipient	LRCI Phase	Project Category	Description of project and works proposed	Problem being addressed	Date construction commence	Date construction completed	Total project cost	LRCI Program Funding Required
NSW	Oberon Council	Phase One	Road	Carlwood Road rehabilitation This section of Carlwood Road is currently unsealed The project will involve rehabilitation of pavement , drainage and bitumen seal for 1 km at both the east and western end of unsealed section	Carlwood Road is an increasingly busy passenger vehicle route due to recent subdivisions in the area. Increased traffic has lead to deterioration of road service which needs to be rehabilitated.The project will improve road safety along Carlwood Road.	Feb-21	Apr-21	\$380,000.00	\$380,000.00
NSW	Oberon Council	Phase One	Road	Edith Road Road safety improvement to rehablitate approx 100m section of corner and correct pavement crossfall.	Incorrect cambre on curve is a road safety issue. The project will correct super elevation on the southern edge of Edith Road to prevent vehicles running off the road while negotiating the curve. There is a crash history at this site due to incorrect road camber.	Nov-20	Jan-21	\$50,000.00	\$50,000.00
NSW	Oberon Council	Phase One	Road	Ginkin Road update Improvements to curve due to incorrect camber on road	Incorrect camber on curve creates risk of vehicles running off road. There is an accident history at this site	Dec-20	Feb-21	\$50,000.00	\$50,000.00
NSW	Oberon Council	Phase One	Road	Mozart Road Gravel resheet and widen and remove vegetation on a 1500m section at the western end of Mozart Road near Abercrombie Road to improve road safety.	Pavement is in poor condition and road too narrow. Mozart Road will be used for haulage of logs from pine forests in the next few years Mozart Road is on a school bus route.	Sep-20	Nov-20	\$104,500.00	\$104,500.00
NSW	Orange City Council	Phase One	Road	Extension of Southern Feeder Road in Orange NSW from Anson Street to Pinnacle RoadThe construction of the Civil Works component of a 2km section of the Orange Southern Feeder road between Anson Street and Pinnacle Road. The completion of this section will compliment works already completed on stages 1 and 2 of the overall Southern Feeder road route. Some grant funding has been allocated from Restart NSW however civil construction works have been on hold pending the sourcing of additional co contributions.	The Southern Feeder Road Stage 4 (Anson St to Pinnacle Rd) serves as a southern city bypass route that links the Northern Distributor Road and forms a ring road around the City of Orange. The road serves a newly created suburb called Shiralee but its main benefit is in reducing the time travelled going through Orange.	Feb-21	Sep-21	\$8,798,715.00	\$720,809.00
NSW	Parkes Shire Council	Phase One	Community Infrastructure	Woodward Oval Parkes - tennis courts upgrade	All courts now require resurfacing, 6 of them urgently (according to advice from Tennis NSW). Project will provide a safe and fit-for-purpose facility for the local community and visiting players during regional tournaments, sporting and school events, social tennis and local competitions - supporting more than 1000 players. The courts are now too dangerous to use and some have needed to be closed.	Mar-21	Jun-21	\$245,000.00	\$175,000.00
NSW	Parkes Shire Council	Phase One	Community Infrastructure	Spicer Oval Parkes - new lighting	Spicer Oval is currently without any lighting and is unable to host any training at site for rugby in winter or cricket in summer. These sports are now sharing Northparkes Oval with Little Athletics and AFL.	Feb-21	Apr-21	\$526,000.00	\$400,000.00
NSW	Parkes Shire Council	Phase One	Road	Parkes East School - pedestrian safety upgrades	Currently parents are either stopping in the middle of a busy regional road link to drop off and pick up students or causing near misses to park their cars at the edge of the school which is without a proper parking area.	Dec-20	May-21	\$250,000.00	\$250,000.00
NSW	Parkes Shire Council	Phase One	Community Infrastructure	Newell Highway and Rawson Street Parkes - road and footpath repairs	To address flooding concerns with new drainage pit, extend footpath network for accessibility for all community members and pram ramps to assist with crossing the road safely.	Mar-21	Jun-21	\$66,000.00	\$66,000.00
NSW	Parkes Shire Council	Phase One	Community Infrastructure	Peak Hill main street (Caswell Street) - CCTV installation	The CCTV cameras are being installed to address issues of vandalism and anti-social behaviour which has become an increased concern in the CBD of Peak Hill. The cameras will provide increased security for community members and businesses alike.	Jan-21	Jun-21	\$20,000.00	\$20,000.00

NSW	Parkes Shire Council	Phase One	Community Infrastructure	Parkes Shire Council - Coventry Room - cultural space refurbishment	Ongoing need for a dedicated community art space for workshops and the exhibiting of local and travelling exhibitions. At present there is no suitable purpose-built facility in the Parkes Shire that can adequately provide for exhibitions of local artists' work, professional or touring exhibitions, cultural performances, Aboriginal arts and cultural practice or exhibitions, cinema or venue for screenings, programs of community workshops, cultural hub for young people.	Oct-20	Apr-21	\$100,000.00	\$100,000.00
NSW	Parkes Shire Council	Phase One	Community Infrastructure	Parkes Shire Library and Cultural Centre - Wiradjuri Keeping Place	The Parkes Library and Cultural Centre will provide a welcoming and inclusive cultural hub where Indigenous and non-Indigenous groups and individuals can meet and where Wiradjuri cultural expression is visible and celebrated. This project involves curation of a public display of local Aboriginal artefacts, development of digital and print educational materials to detail local Wiradjuri history.	Mar-21	Jun-21	\$35,000.00	\$35,000.00
NSW	Parkes Shire Council	Phase One	Community Infrastructure	Parkes CBD smart pole banners	The traditional banner systems which Council has installed on existing lighting poles in other sections of the street, requires the procurement of a suitably qualified contractor to undertake the changing of the banners each time a new event or campaign is in market. This includes time and cost in the development of traffic management plans, safe work method statements, machinery hire and staff time in terms of procurement and supervision. Because of these time and cost factors (up to \$10,000 annually), along with disruption to commerce on the main street during changeover, Council can only change these promotional banners twice a year.	Jun-21	Jun-21	\$30,000.00	\$30,000.00
NSW	Parkes Shire Council	Phase One	Community Infrastructure	Alectown Cemetery - fencing, memorial wall and seating	There is no current 'fit for purpose' space in which cremated remains can be interned. Meaning that people who choose cremation over burial are unable to be interned within their own community but rather at either the Peak Hill cemetery (to the north) or the Parkes cemetery to the south. The erection of a fence and Memorial Wall will alleviate both issues	Sep-20	Mar-21	\$30,000.00	\$30,000.00
NSW	Parkes Shire Council	Phase One	Community Infrastructure	Henry Parkes Centre repairs	There are a number of areas within the Motor Museum where a gap exists between the wall and the roof. As a result unwanted debris (eg dust and leaf litter) blows into the facility, settling on the vehicles on display and onto the floor. Additionally, there is no a/c in the Motor Museum which, given the extremes of temperature experienced at its location, does nothing to enhance the visitor experience.	Mar-21	Jun-21	\$50,000.00	\$50,000.00
NSW	Parkes Shire Council	Phase One	Community Infrastructure	Rose Street and Coleman Street Parkes - footpath	The new shared pathway will mitigate stormwater damage caused to current walking area which makes it uneven and dangerous. The new pathway will also connect this area to existing pathways to the CBD.	Mar-21	Jun-21	\$35,000.00	\$35,000.00

NSW	Singleton Council	Phase Two	Community Infrastructure	Civic Administration Building Roof Replacement	Replacement of the roof sheeting, gutters and downpipes on Council administration building, along with investigation of the structural capacity of the existing roof structure to support the future installation of solar panels. The Civic Administration Building was built in 1983. The original roof structure is still in place and has deteriorated due to its age. Recently there have been significant and continual incidents of water ingress during storm events resulting in damage to the ceiling and disruption to Council staff. In addition, Council wishes to pursue renewable energy options to reduce Councils carbon footprint and improve future sustainability. The installation of solar panels onto the administration building roof is currently being investigated.	Jul-21	Oct-21	\$300,000.00	\$300,000.00
NSW	Singleton Council	Phase Two	Community Infrastructure	Baileys Union Park Beautification Project	The beautification of Baileys Union Park is an extension to Stage 2 of the Town Centre Development which is currently being undertaken. It includes the provision of picnic tables and shelters, a drinking fountain, paved walkways, gardens and other landscaping works. The proposed upgrades will address connectivity issues within the area and encourage additional patronage to the town centre. It will also increase amenity through screening off the adjoining industrial zone.	Jul-21	Nov-21	\$440,000.00	\$440,000.00
NSW	Singleton Council	Phase Two	Community Infrastructure	Townhead Park Amenities Replacement	Council adopted the Townhead Park Masterplan in October 2018, which provides a vision for the long-term development and management of the Park. As a response to Community Infrastructure feedback during the exhibition of the Masterplan, it was proposed that the existing public toilets in Townhead Park would be replaced with new toilets. The project entails the demolition of the existing public toilet block located in Townhead park and the construction of new accessible facilities. The existing toilets do not meet current accessibility guidelines, are dated and are not in keeping with the surrounding structures and the high profile nature of the site, being the gateway to the town and a rest stop for visitors	Jul-21	Nov-21	\$270,000.00	\$270,000.00
NSW	Singleton Council	Phase Two	Community Infrastructure	OOSH Building Roof Replacement	The roof sheeting on the OOSH building is to be replaced and improvements be made to the roof structure to prevent ongoing issues. Council's Out of School Hours (OOSH) Building is currently utilised by Hunter Prelude and Singleton Council's OOSH services. The building was constructed in 1984 and is now 36 years old. The original roof structure is still in place and has deteriorated due to its age. In addition, the roof was originally constructed with a low pitch and building extension works have been undertaken, both have impacted on the capacity of the roof to effectively discharge stormwater. As a result there have been significant and continual incidents of water ingress during storm events resulting in damage to the ceiling, flooring and walls and disruption to staff. NSW	Wingecarribee Shire Council	Phase One	Community Infrastructure	Church Road Oval Amenities Building, The Church Road Oval is Council's most utilized soccer field in the district and is used by the 1,600 registered participants to the Highlands Soccer Association. The Church Road Oval Amenities Building Refurbishment project is designed in 2 stages. Stage 1 is currently funded and programmed for delivery in 2020/21 in Council's capital works program. The works commenced in August 2020. Stage 2 is fully designed and shovel ready, but remains unfunded. Stage 2 works include construction of the second story clubhouse, access ramp, provision of awning and conversion of existing public toilets to storage. Should this funding application be successful, it would enable Council to construct the second stage of the amenities building immediately.	Currently there is no indoor training facility on site to facilitate rainy-day training and strategy sessions. The construction of the second story clubhouse will provide an indoor venue for rainy day training. Further, the planned improvements include an access ramp to the first floor, kitchenette and awning. This will provide access to people with disabilities and carers pushing prams. Information as at 20 May 2021.

LRCI Funding Rounds: Phase One- \$500 million for construction by June 2021; Phase two - \$1 billion for construction by December 2021.

Construction on projects can be extended if approved by the department in exceptional circumstances or where LRCI funding is less than 50% of total project cost.

Dates construction commence and dates construction completed are indicative dates advised by eligible funding recipients.

State	Council/Eligible Funding Recipient	LRCI Phase	Project Category	Description of project and works proposed	Problem being addressed	Date construction commence	Date construction completed	Total project cost	LRCI Program Funding Required
QLD	Brisbane City Council	Phase Two	Road	Tooth Avenue, Paddington: Reconstruction	Existing pavement along Tooth Avenue is exhibiting signs of wear and aging. Pavement defects include surface cracking causing depressions in the road surface and localised AC patches failing. The scope of works includes resurfacing of approximately 4,940m2 of existing road surface on Tooth Avenue.	Apr-21	Apr-21	\$185,000.00	\$185,000.00
QLD	Brisbane City Council	Phase Two	Road	St Vincents Road, Banyo: Reconstruction	Existing road surface is showing signs of aging with localised failures. The scope of works includes resurfacing of approximately 7560m2 of existing road surface on St Vincents Road.	Apr-21	Apr-21	\$820,000.00	\$820,000.00
QLD	Brisbane City Council	Phase Two	Road	Pound Drain, Nudgee Road, Nundah: Bridge Works	The existing 12-metre-wide culverts are showing signs of chlorine penetration into the reinforced concrete structure which is an increased risk for the heavy vehicle route on Nudgee Road. The repairs will help to protect the concrete structure and reline the culverts to ensure it meets vehicular loading requirements for the corridor. The scope of works includes repairing and relining of existing culverts to increase strength and life of the asset.	Apr-21	Jun-21	\$2,200,000.00	\$2,200,000.00
QLD	Brisbane City Council	Phase Two	Community Infrastructure	Nudgee Waterhole Reserve – Stage 2: Landscaping Improvements	The Nudgee Waterhole Reserve was impacted as a result of upgrades to the Gateway Motorway North, between 2014-2019, with a portion of land resumed from the Reserve and facilities removed consequently degrading the site and providing poor Community Infrastructure benefit. The site has exceptional aboriginal cultural heritage significance. Works have been planned to rectify the damage to the site. The scope of works includes the upgrade to the existing car park, additional vegetation to buffer noise from the motorway and provide shade to park users, sufficient playground equipment, and engagement with the indigenous Community Infrastructure to create an interactive component to the playground/picnic area to reflect the significance of the site. Given the special environmental and cultural significance of this Reserve, these works need to be undertaken.	Sep-21	Nov-21	\$290,000.00	\$290,000.00

QLD	Croydon Shire Council	Phase One	Community Infrastructure	Croydon Heritage Precinct - upgraded fencing	Croydon's renowned Heritage Precinct is a hot spot tourist attraction comprising of an original Court House, Town Hall, Police Residence and Police Station with Goal House. The buildings are maintained to preserve their historical accuracy and are complimented, at the eastern end, by a traditional white picket fence with working replica lamp posts and original sandstone kerbing. The rear area of the buildings, at the eastern end, are secured with high colourbond fencing which provides privacy for neighbouring residential buildings. Whilst the working replica lamp posts and original sandstone kerbing continues to the western end of the precinct the fence does not. The current western end fencing is dilapidated and does not compliment the existing eastern end fencing which supports the heritage look and feel of these beautiful old buildings, whilst ensuring privacy to the adjoining residences. The western end fence upgrade will promote tourism to the entire precinct whilst completing and preserving the history and heritage of the town of Croydon.	Oct-20	Jun-21	\$145,000.00	\$145,000.00
QLD	Croydon Shire Council	Phase One	Road	Intersection of the Croydon to Richmond Road and Gulf Developmental Road 92B road works	Significance and is 390kms in length, of this, 216 kilometres is located in Croydon Shire. The road is part of the inland road network linking cattle properties to major freight routes on the Landsborough and Flinders Highway and the Gulf Developmental Road, essentially connecting the Gulf of Carpentaria to the Southern Downs Region. Council is committed to the upgrade and maintenance of the Richmond Road and has been proactive in upgrading the road to a seal standard. The intersection of the Richmond Road and the Gulf Developmental Road 92B comprises of a single width (single lane) grid and poses a serious safety hazard to all road users. The upgrade of the grid to a double width (two lanes) at the intersection will improve traffic flow and significantly alleviate road safety issues associated with the current single lane grid. QLD	Fraser Coast Regional Council	Phase One	Community Infrastructure	Urangan Community Centre Expansion	Expansion of the Urangan Community Centre, Hervey Bay to better meet the needs of our residents, allowing for the provision of a cancer recovery 'Wellness Centre'. The Fraser Coast has an aging population with a higher than average incidence of cancer. The opportunities for treatment and support of people in the community is limited. Complementary or integrative care has proven to greatly enhance the quality of life for those experiencing cancer and provide support for their families. The extension of the Urangan Centre will allow for specialist counselling, meditation and mindfulness training, cancer specialist massage, remedial therapies and other types of integrative therapies to be offered to people locally. The extensions of the Urangan Centre will also create another "safe place" in the community for socially isolated, financial disadvantaged and vulnerable members in the community. The mission of the Urangan Centre is to expand to provide a sustainable quality community hub with a focus on wellness and wellbeing. The Urangan Centre will integrate services on the Fraser Coast which compliment existing programs.	Apr-21	Nov-21	\$1,500,000.00	\$1,500,000.00

QLD	Gympie Regional Council	Phase One	Road	Amamoor Creek Road	The section of road experiences a high volume of traffic that travels between the townships of Amamoor and Dagon (471 vpd in 2019). The road is a narrow bitumen sealed road that experiences continual shoulder wear. The existing road seal width is insufficient for two cars to pass forcing vehicles to use the unsealed portion of the carriageway. These factors are amplified when road conditions are adverse erg. rain or heavy fog. Additionally, once a year the road experiences high tourist traffic attending the Gympie Country Music Muster at Amamoor State Forest (2,000-5,000 vpd).	Mar-21	May-21	\$147,000.00	\$147,000.00
QLD	Gympie Regional Council	Phase One	Road	Brooloo Township road works	The township has experienced recent growth. Sections of the road network are currently unsealed and adjacent houses are experiencing increased dust issues due to the additional traffic. A steep section of Henry Street (unsealed) also experiences table drain scouring due to the road grade and limited controls.	May-21	Jun-21	\$335,000.00	\$335,000.00
QLD	Gympie Regional Council	Phase One	Road	Eel Creek Road	A combination of high speeds, high volume, heavy vehicles, narrow road seal width with unsealed shoulders contribute to the factors that cause issues along this section of Eel Creek Road. The existing road seal width is insufficient for two heavy vehicles to pass forcing vehicles to use the unsealed portion of the carriageway. These factors are amplified when road conditions are adverse e.g.. rain or heavy fog.	Jan-21	May-21	\$350,000.00	\$350,000.00
QLD	Gympie Regional Council	Phase One	Community Infrastructure	Excelsior Road Footpath	The section of grassed verge experiences a high volume of foot traffic that goes between bus stop and local shopping centre, to the local Community Centre. A number of users are within motorized wheel chairs and experience issues with the current grassed verge (wet slippery grass, uneven ground). The path will complete a missing link and provide accessible connection along the eastern side of Excelsior Road. The route provides access to the Gympie Community Hub via Dent Lane. A local access advisory committee has previously raised the issue with Council.	Nov-20	Jan-21	\$13,802.00	\$13,802.00
QLD	Gympie Regional Council	Phase One	Community Infrastructure	Mellor Street Footpath	The section of footpath experiences a high volume of foot traffic that goes between the adjacent attractors such as the Town Library, Town Hall, A Childcare Centre and the Gympie Civic Centre. The footpath has significantly deteriorated and is beyond maintenance, requiring a full replacement in concrete.	Dec-20	Jan-21	\$61,000.00	\$61,000.00

QLD	Gympie Regional Council	Phase One	Road	Rocks Road (Pie Creek)	A combination of high speeds, substandard horizontal and vertical curves, inadequate sight distance, narrow road seal width with unsealed shoulders contribute to the factors that cause run off road crashes along this section of Rocks Road. The existing road seal width is insufficient for two cars to pass forcing vehicles to use the unsealed portion of the carriageway. These factors are amplified when road conditions are adverse e.g. rain or heavy fog. Additionally, there are sections where heavily vegetated areas are within the clear zone and also reduce visibility.	Mar-21	May-21	\$455,000.00	\$455,000.00
QLD	Gympie Regional Council	Phase Two	Mixed	Albert Park Touch Carpark Upgrade	Off Road Carpark. Albert Park is home to the Gympie Touch Association among other Community Infrastructure sports groups, and provides direct access to the River to Rail Trail. The existing car park allows for informal car parking, which leads to inefficient use of the available area. This project aims to upgrade the sealed carpark to formalise car parking and provide a more efficient use of the available area.	Jul-21	Dec-21	\$120,000.00	\$120,000.00
QLD	Gympie Regional Council	Phase Two	Road	Excelsior Road - sealing	Excelsior Road beyond Hyne Street is a sealed urban local street servicing several local businesses and provides access to the River to Rail Trail. Insufficient stormwater drainage provisions and poor road construction has resulted in this section of road becoming hazardous to road users, pedestrians, and users of the River to Rail Trail. This project aims to construct a new sealed cul-de-sac to eliminate the aforementioned issues.	Sep-21	Dec-21	\$148,000.00	\$148,000.00
QLD	Gympie Regional Council	Phase Two	Road	Laminex Road - rehabilitation	Laminex Road is a sealed rural local road primarily servicing the Toolara State Forest and Laminex Manufacturing Plant. Sections of the road pavement and surfacing is failing under the heavy vehicle loads experienced by this road, resulting in higher ongoing maintenance costs for Council. This project aims to improve heavy vehicle movements through curve widening, rehabilitation of the failing pavement and surfacing, and reduce ongoing maintenance costs on Laminex Road.	Jul-21	Dec-21	\$98,000.00	\$98,000.00
QLD	Gympie Regional Council	Phase Two	Community Infrastructure	Mellor Street Pathway – rehabilitation	Mellor Street is a key pedestrian link within the Gympie CBD, linking Mary Street with the Gympie Library and Civic Centre and other significant attractions. This project aims to rehabilitate the existing asphalt footpath that has reached the end of its useful life.	Jul-21	Dec-21	\$221,000.00	\$221,000.00
QLD	Gympie Regional Council	Phase Two	Mixed	Pronger Parade / Smith Street Pavement - rehabilitation	Pronger Parade and Smith Street are sealed industrial roads in the Glanmire industrial area. Sections of the kerb and channeling, road pavement, and surfacing are failing, resulting in higher ongoing maintenance costs for Council. This project aims to rehabilitate Pronger Parade and Smith Street to a standard suitable for one of the regions primary industrial areas.	Sep-21	Dec-21	\$441,000.00	\$441,000.00

SA	City of Charles Sturt	Phase One	Community Infrastructure	Renewal of footpaths along NE side of Nicholls Tce (between Alma Terrace, Nicholls Terrace and Emily Street, Woodville, Renewal of footpaths along NE side of Nicholls Tce (between Alma Tce and Elizabeth St), SE side of Alma Tce (between Nicholls Tce and No. 100-104 Alma Tce) and SW side of Emily St (between Elizabeth St and Alma Tce). Extension of existing Shared Use Path along Alma Tce from Nicholls Tce corner to the pedestrian access to Albert Park train station. New landscaping and tree planting along Nicholls Tce and Alma Tce verges.	The suburb of Woodville West is undergoing significant urban renewal as a result of a State Government initiated project to renew an area with a high concentration of social housing into an area with a broad mix of housing types and new public spaces. While the new development is progressing well, Council has received a number of complaints from residents in the interface area with the new development about the quality and appearance of existing assets and the public realm and a desire for Council to invest in the upgrade of these assets to be more consistent and sympathetic to the evolving urban renewal area. This funding presents an opportunity for Council to bring forward some works already identified in our Asset Management Plans and Strategic Plans for delivery within the next 4yrs and action some of the concerns raised by the local Community Infrastructure. SA	City of Holdfast Bay	Phase One	Mixed	Harrow Road / Esplanade Somerton Park It is proposed to support the existing retaining wall by placing rock seawall in front of the retaining wall to match the adjoining seawall. This would then prevent the wall from failing. WE propose to extend the stormwater pipe to the edge of the new rock wall.	The retaining wall / stormwater headwall located between the beach and the Esplanade path and road has been identified as high risk of failure. This would result in loss of a section of the coast path and adjoining road, and potential safety issues for those on the coast path and on the beach.	Mar-21	Jun-21	\$265,000.00	\$250,000.00

SA	City of Mount Gambier	Phase One	Community Infrastructure	Review of existing lighting levels across the City of Mount Gambier compared to Australian Standards, including modelling the improvement in lighting that will be achieved through the installation of LED lights.	Improving lighting levels and safety in the streets of the City of Mount Gambier. <ul style="list-style-type: none"> Improved safety due to higher lighting levels provided by LEDs. Council's energy consumption and carbon footprint would therefore be considerably reduced; the incidence of reported Street Lights Out should reduce. This will reduce operating costs; LEDs have a lower lumen depreciation than HID lamps. This means that approaching the end of life a LED output is higher than that of a HID lamp; Disposal and/or recycling or refurbishment of LED luminaires will be more efficient than disposal of lamps containing higher levels of mercury; LED luminaires are smart ready. That is, they can facilitate control systems such as remote reporting (of parameters such as temperature, noise and air quality), control and dimming, should it be required; A variety of existing luminaire and lamp combinations can be replaced with one LED type, with white light, which is the preferred option for P category (minor road) installations; and Some HID light sources (e.g. Low-Pressure Sodium lamps and Mercury Vapour lamps) are no longer available. SA	Corporation of The City of Unley	Phase One	Community Infrastructure	Landscaping of an important walking and cycle corridor, following the	The Mike Turtur is the most popular off-road cycle route for daily commuters into the CBD. Over time, the popularity has placed increased pressure on the path width and its capacity to accommodate increased cyclists and pedestrians. The State Government has chosen to increase the path width to improve the safety and efficiency of the route, between Musgrave Street, Goodwood and King William Road, Wayville. The Bikeway runs parallel to the existing tram corridor and adjoining side and rear fences of residential homes. To enable the construction of a wider path, extensive vegetation clearance is required. Much of the existing planting is old, self-seeded and overgrown, and inappropriate along the bikeway due to sightlines, CPTED, form or seed drop. The LRCI Program allows Council to invest in a new corridor landscaping to improve the safety, amenity and biodiversity for all users, and adjacent residents. A sustainable palette of predominantly native plants will be carefully chosen to ensure long term sightlines are maintained along the corridor, support the Council's long term tree canopy growth targets, and increase local biodiversity. Once established, the Council will take the longer term maintenance responsibility of the bikeway and corridor greening.	Jan-21	Jun-21	\$260,000.00	\$260,000.00

SA	The Berri Barmera Council	Phase One	Community Infrastructure	The revitalisation of Berri's Colin Jennings Apex Park (Apex Park) will incorporate improvements including an upgrade of the previous BMX track to a versatile pump track which can be used by bike riders, skateboarders and scooter riders of all abilities. Complimenting this will be an off-grid solar BBQ shelter and associated amenities so park users can spend extended time enjoying this space and the additional play equipment that will accompany it. Concrete connecting footpaths, that double as a junior scooter track meander through the native vegetation to connect the different zones of the park. Finalising the upgrades is new fencing for the current dog park, bringing the whole area together to deliver a unique and enjoyable public open space that provides positive health and wellbeing opportunities for the Berri and wider Riverland community.	The Berri township does not currently have a suitable community open space that provides adequate facilities for people to connect and enjoy together, while meeting the needs for families that are transport disadvantaged and unable to access other facilities within the district. Additionally, Berri has no free active public facilities for older age groups (pre-teens and teens) such as a skate park. This project will provide a pump track (amongst other infrastructure) which caters for a variety of ages and wheeled users. This is a community facility that is not currently provided by any of the other Riverland Councils and will be a distinctive point of difference for the park. The space currently has ad-hoc infrastructure including; a dog park, two small pieces of playground equipment, asphalt multi-use court and shaded gazebo. The existing layout lacks connectivity between the current facilities which reduces the appeal of the area. By teaming the pump track up with dedicated concrete connecting footpaths, that double as a junior scooter track, provides the safe connectivity required for the individual areas and is the perfect combination for families with children of varying ages. To ensure that the new features of the park are fully maximised, complimentary facilities such as; a fully solar BBQ, solar lighting, seating and drinking fountain will be installed to	Feb-21	Jun-21	\$299,755.00	\$299,755.00

SA	The Rural City of Murray Bridge	Phase One	Community Infrastructure	The upgrade and revitalisation of the Riverfront has been identified as the most significant and under utilised asset in Murray Bridge with the greatest potential for economic and social benefit. Sturt Reserve is the major Riverfront destination within the Council area and the Reserve's potential is particularly enhanced by its proximity to the Murray River and CBD as well as the beauty of the environment.	The problems being addressed by the project are twofold: to create an immediate economic stimulus for local businesses and to improve community accessibility, safety, and visual amenity of the Murray Bridge's most iconic public reserve. SA	Town of Gawler	Phase One	Community Infrastructure	Seven roads within four pockets where there are no walking paths and propose for the construction of new walking paths to link them to surrounding walking path networks.	There are pockets without walking paths within Council area where local Community Infrastructure does not have safe walking access to surrounding footpath networks for their daily living activities such as shopping and exercising. Constructing missing links to connect existing walking path networks can reduce crash risk by separating vehicles and pedestrians.	Feb-21	Jun-21	\$259,875.00	\$250,000.00
SA	Town of Gawler	Phase One	Community Infrastructure	Install shade sails over four playgrounds: Fifth Street, Hemaform Grove, Willaston Nature and Apex Park	At present, there is no protection from sun, UV and wet weather conditions at playgrounds. Children get burns from hot play equipment and from playing in the sun on hot days. The lifespan of play equipment will be reduced with fading and cracking that can happen from sun exposure over time. These issues will be addressed by installing shade sails over playgrounds and it is widely recognised shade provides beneficial outcomes for the Community Infrastructure to encourage active play at times when they may not have played due to hot weather conditions. Council has three existing other playgrounds with shade sails over them, and due to these beneficial outcomes, is seeking to expand these over more playgrounds as part of this Community Infrastructure program. SA	Wattle Range Council	Phase Two	Mixed	Penola to Coonawarra Walking / Cycling Track	The concept of a walking and cycling trail from Penola to the Coonawarra was developed following investigations into a regional trails network that was completed in 2015. With the increasing awareness of the value of outdoor recreation in relation to health and wellbeing, and the Coonawarra Wine Region being acknowledged as an excellent tourism attraction, the development of a multi-use walking and riding trail would add strongly to the region. A well planned and constructed trail network in this area would cater to a range of users including recreational walkers and runners, cyclists, and tourists wanting to visit wineries and other destinations. The section of trail proposed for development runs for approximately 16km (excluding links to wineries and tourist attractions) from the town of Penola through several vineyards and wineries to Coonawarra. Additionally, Naracoorte Lucindale Council is currently developing a 16km connecting the Naracoorte township and the world-heritage listed Naracoorte Caves to strengthen the high-quality visitor experiences offered in the region. This Stage 2 of the project, to link the caves to cabernet via a shared-use rail trail, will be managed directly by the Naracoorte Lucindale Council.	Oct-21	Dec-21	\$800,000.00	\$736,052.00

SA	Yorke Peninsula Council	Phase Two	Community Infrastructure	Warooka Standpipe Upgrade. Section 54 White Hut Road. Ca	Modernisation of standpipe infrastructure to allow for an electronic payment system for water supply. The filling station (standpipe) provides a water supply to those that do not have access to water. The upgraded station will remove the current usage booking system and occurrence of water theft. It is expected usage will increase due to improved ease of access, along with an increase in supply to travellers (who currently are not accessing due to the booking system).	Feb-21	Dec-21	\$55,000.00	\$55,000.00
SA	Yorke Peninsula Council	Phase Two	Road	Patch Sheeting. Bussenschutt Road and Moorowie Station R	The patch sheeting methodology is utilised to remedy small sections of lower use roads. 5 segments (14,400sqkm) of Bussenschutt Road and 3 segments (14,000 sqkm) of Moorowie Station Road will be remedied. The works will improve ridability and minimise hazards for road users. The patch sheeting model also increases the useful life of the road.	Feb-21	Dec-21	\$225,000.00	\$225,000.00
SA	Yorke Peninsula Council	Phase Two	Community Infrastructure	Marion Bay Desalination Plant Improvements. 1 Willyama	Marion Bay does not have mains water supply and hence a Desalination Plant was built to support residential properties and the caravan park. This project will see desalination plant water quality improvements and measures to address beach well site erosion problems undertaken. The beach well supplies water to the plant and due to seawater level rising and winter storms, beach well infrastructure is now under threat from the ocean; if not addressed flooding of the beach well infrastructure and electrical controls will stop water production. In addition, water quality is shortening hot water infrastructure life to the caravan park and supply network.	Feb-21	Dec-21	\$65,000.00	\$65,000.00
SA	Yorke Peninsula Council	Phase Two	Mixed	Coastal Management Strategy Projects. Edithburgh (x2), HD	Implementation of works identified in the Coastal Management Strategy to manage Community Infrastructure access to key coastal locations, including fencing, bush camping toilet amenities, installation of traffic and pedestrian signage, and vehicle and pedestrian access works (such as car park formalisation, and walkway/access upgrades). SA	Yorke Peninsula Council	Phase Two	Road	Spoon Drain Replacement Program. Maitland, Yorketown, St	Replacement of spoon drains. Works involve civil works to remove existing spoon drains and replace with new concrete spoon drains and kerbing. The problem being addressed is the spoon drains have reached their functional capacity and require upgrade to ensure appropriate drainage.	Feb-21	Dec-21	\$225,000.00	\$225,000.00
SA	Yorke Peninsula Council	Phase Two	Community Infrastructure	Black Point Water Supply Storage Tanks. Lot 3014 Black Poin	Removal of old leaking concrete water storage tank and installation of new poly tank and required plumbing. This will address water loss and supply restrictions to the nearby Black Point Community Infrastructure.	Mar-21	Dec-21	\$30,000.00	\$30,000.00
SA	Yorke Peninsula Council	Phase Two	Community Infrastructure	Minlaton Town Hall Maintenance. 57 Main Street Minlaton.	Replacement of gutters and windows at the Town Hall to ensure adequate drainage and management of draughts and light. This will see continuation of Community Infrastructure use of the Town Hall.	Feb-21	Dec-21	\$55,000.00	\$55,000.00
SA	Yorke Peninsula Council	Phase Two	Community Infrastructure	Stansbury Institute Maintenance. 6 Weaver Street, Stansbur	Re-roofing of Stansbury Institute (Town Hall) to ensure no leaks that would impact on the ability of the Community Infrastructure to use the building. TAS	Central Coast Council	Phase One	Community Infrastructure	Ulverstone Skate Park Redevelopment Major redevelopment of c.1970s existing skate park to provide modern activity hub with the adjacent, new MTB pump'n'jump courses. Includes new 'street' style skate elements, with proper zoned design to allow all-ages and wheelchair access, separate parkour obstacle area, new outdoor ball arena (half-court basketball and footsal), and refurbishment of existing picnic shelter area, including new bicycle parking.	Existing skate park facility is aged (c.1970s) and near end of serviceable life. Current layout and design reflects age, with style and zoning of elements not suitable for all-ages/all-skills use. Current surface and layout is not suitable for wheelchair access and use. Shape and design of some current ramps is not as safe as modern design. Existing ball court is too small (less than 3-point arc) for even casual use. The location is a popular active recreation area, particularly for youth and teen activities. It is adjacent a new mountain bike pump and jump track, at the end of a popular regional coastal parkland with various playgrounds, and only 100m from local surf club and amenities. The redevelopment project will help consolidate the zone as a regional destination for active recreation, particularly among youth and teenagers.	May-21	Jun-21	\$570,000.00	\$320,000.00

TAS	Dorset Council	Phase One	Road	Carisbrook Lane Legerwood between the Junction of Tasman Highway and McDougalls Road upgrades to cater for heavy vehicles	The current carriageway is narrow and uneven with areas of pavement failure which creates increasing safety and operator cost issues. The road is classified as 'Heavy Rural' and while it is a gazetted HML/HPV route it does not currently meet the required geometric standards. Carisbrook Lane is used extensively by B-Double and Hi Production Combinations as well as 9 axle Articulated Vehicles transporting close to 200,000T of products into and out of the region. It is also the local school bus route. The prohibitive costs of an upgrade and conflicting demands on resources has meant that short term annual maintenance fixes have been required to be utilized to ensure ongoing safety compliance. This project will enable investment into the much needed longer term solution of a reconstruction and ensure an increased standard of safety for both heavy vehicle operators and the local community. TAS	Hobart City Council	Phase One	Mixed	Queens Domain The project consists of the complete development of a whole new cycleway along with car park and associated infrastructure. The cycleway will be constructed on a steep gradient of land by the side of the old Tas rail line which is currently unused. The project rectifies many ongoing issues/complaints about the surface of the car park and road ways in this area.	The project brings together the "missing link" the missing connection of cycleway between the Regatta grounds car park and the Macquarie point development. Currently the cycleway ends requiring riders and other users to travel through an active car park and thoroughfare to the water. The potential conflict for users currently poses significant risk to public safety. The lack of connectivity to the new cycleway at Macquarie point often causes confusion throughout the cycling community and this is often addressed through our network / stakeholders meetings with cycling groups as a major area for improvement. The project will allow you to enter the cycleway throughout Glenorchy providing a continuous, safe path away from traffic directly into the heart of the Hobart central district. TAS	Waratah-Wynyard Council	Phase One	Mixed	Installation of new virtual fencing to stop Tasmanian Devils (among other animals) crossing the road in the Rocky Cape National Park environmentally sensitive area. Virtual Fencing is an active electronic protection system that alerts animals before crossing the road when a vehicle is approaching between dusk to dawn. It is proven to be extremely effective in preventing wildlife-vehicle collisions in Australia and around the world. The device is triggered by vehicle headlights and emits a buzzing sound and flashing light to warn nearby wildlife of approaching vehicles. The devices are not visually intrusive and are currently used in Tasmanian National Parks such as Cradle Mountain.	Reducing the amount of wildlife killed on council roads is an action in council's recently adopted Integrated Community Environmental Plan and supports the Tas. Govt. Save the Devil Program. Local residents and council have identified an area (approx. 3kms) between Banksia Park and Lake Llewellyn as a hot spot for Devil Road kill.	Nov-20	Dec-20	\$29,000.00	\$29,000.00

VIC	Baw Baw Shire Council	Phase One	Community Infrastructure	The project will develop an intertown connection for use for pedestrians and cyclists between Erica and Rawson that aligns with Baw Baw Shire's Paths and Trails Strategy. The project will include a granitic sand path approximately 4.7km in length from Henty Street, Erica to Pinnacle Drive, Rawson. The proposed route of this path begins at the intersection of Henty Street and School Road. From here the proposed path follows the East side of School Road/ Moe-Rawson Road, crossing Collins Road and Thomson Valley Road. The proposed route turns East at the intersection with Knotts Siding Road, and runs along the South side of Knotts Siding Road into Rawson via Tyers-Walhalla Road (West side).	The project will achieve the following solutions as identified in Council's Paths and Trails Strategy: - Meet demands for connectivity for pedestrians and cyclists to key public points of interest in the Shire. - Growing demands for new paths and trails to connect our smaller communities. - Providing additional leisure and recreation opportunities to our communities aimed to encourage the Community Infrastructure to stay healthy and increase Community Infrastructure connectedness and participation. - Offer an additional tourism experience for visitors to the region to benefit businesses in communities where tourism is a major contributor to economic output and job creation. VIC	City of Monash	Phase One	Community Infrastructure	The renewal and upgrade to current standard width (3m) of the popular Gardiners Creek Trail shared path. High standard shared path connections provides safety and amenity improvements for both pedestrians and cyclists.	The current narrow path width (2.0-2.5m) is creating conflicts between pedestrians and cyclists, with complaints of crashes and near misses becoming more frequent. This affects the community's perceptions of safety when using on the path.	Feb-21	May-21	\$550,000.00	\$550,000.00
VIC	City of Monash	Phase One	Road	Improve road safety in the local area, a 'Flat-top' road hump is to be installed to slow the speed of traffic down.	There is a length (250m) of road along Lawrence Road between the road hump outside 261 Lawrence Road and the raised T-intersection at Taroona Avenue, which does not have any physical treatment to slow down the traffic speed.	May-21	Jun-21	\$30,000.00	\$30,000.00
VIC	City of Monash	Phase One	Road	To reduce traffic speed and maintain on-street parking along Mackie Road, road cushions are considered appropriate traffic management devices.	Mackie Road has an average daily volume of about 4,600 vehicles and an 85th percentile speed of 56km/h. The complaints about speeding issues are becoming more frequent. The proposed road cushions will encourage motorists to drive slowly.	Jan-21	Feb-21	\$66,000.00	\$66,000.00
VIC	City of Monash	Phase One	Road	A 'Flat-top' style road hump is to be constructed in Palmerston Grove near Chapman Street to address the concerns of traffic speeding through the residential area north of the Atkinson Street car park in Oakleigh.	The proposed flat topped road hump will encourage motorists to drive slowly when entering the residential area and will also deter motorists from entering the residential area searching for a parking space.	Oct-20	Jan-21	\$60,000.00	\$60,000.00
VIC	City of Monash	Phase One	Road	To improve pedestrian and cyclist safety along Park Road in Oakleigh at Scotchmans Creek Trail shared path and to encourage more people to the Oakleigh Recreation Centre, the construction of pedestrian and cyclist priority crossings is proposed.	There is a high pedestrian and cyclist volume along Park Road generated by the Scotchmans Creek Trail and Oakleigh Recreation Centre and it is proposed to highlight and enforce priority for pedestrians and cyclists at suitable locations. These will also improve accessibility in and around these community facilities.	Feb-21	Jun-21	\$100,000.00	\$100,000.00
VIC	City of Monash	Phase Two	Community Infrastructure	Wellington Reserve Mulgrave Recreational Path	Construct an all weather 3metre wide path around the reserve. Whereby, locals are connected throughout the reserve via the 500metre path.	Jun-21	Dec-21	\$284,000.00	\$284,000.00
VIC	City of Monash	Phase Two	Community Infrastructure	Footpath Renewal Program	Annual renewal program for footpaths and shared paths within the municipality in accordance with the Pathway Asset Management Plan. Covid 19 lockdown in Victoria has placed this program behind schedule which impacts on the safety of path users/Community Infrastructure.	Jun-21	Dec-21	\$4,875,884.00	\$575,884.00
VIC	City of Monash	Phase Two	Mixed	Environmental Upgrade Street Lighting Program and New Street Lights	Replace over 3,000 major category street lights with energy efficient LED lighting throughout municipal roads and car parks. Provide additional lighting for pedestrian and cyclist safety in about 100 identified areas.	May-21	Dec-21	\$3,200,000.00	\$2,200,000.00
VIC	City of Monash	Phase Two	Community Infrastructure	Hughesdale Kindergarten Refurbishment	Kindergarten minor refurbishment, including new entrance, meeting space and enclosed veranda works.	Jun-21	Dec-21	\$150,000.00	\$150,000.00
VIC	City of Monash	Phase Two	Community Infrastructure	Lever Street Car Park and Brickmakers Park Improvements	Construction of a permanent asphalt car park in Brickmakers Park off Lever Street, Oakleigh, including pathway from car park to the Oakleigh Recreational Centre (ORC). Additional works within Brickmakers Park include: minor upgrade of landscaping due to works mentioned above, and the reconstruction of a remaining pathway section through the Park. Works being undertaken to improve Community Infrastructure safety and access to ORC.	Jun-21	Dec-21	\$300,000.00	\$300,000.00

VIC	Colac Otway Shire Council	Phase One	Community Infrastructure	Resurfacing two tennis courts and one netball court	The condition of the existing asphalt surface of these courts has reached a point where it is no longer safe to play. There are cracks with weeds and during rainfall, water pools on the surface causing slipperiness and poses a risk to the users. The courts are used by the Apollo Bay Netball club, casual and social tennis players from the townships of Apollo Bay, Skenes Creek and Marengo and visitors to the adjacent camping ground.	Nov-20	Dec-20	\$40,000.00	\$40,000.00
VIC	Colac Otway Shire Council	Phase One	Community Infrastructure	Construct footpath in Birregurra (and associated crossing treatments)	There are currently no all weather connections or dedicated pedestrian crossing points to the train station. This station provides a connection to the major centres of Geelong (45 mins journey) and Colac (30mins journey), and is used as a sustainable transport connection to jobs and services.	Mar-21	Jun-21	\$195,000.00	\$195,000.00
VIC	Colac Otway Shire Council	Phase One	Community Infrastructure	Construction of concrete footpaths in multiple locations	Many key connections that link schools, shopping precincts, tourist destinations, community facilities, open space and off road shared paths do not have existing hard surface, accessible paths on either side of the road. This limits access to recreational and community destinations for many residents and visitors, particularly for the elderly and mobility impaired and in high rainfall areas such as Gellibrand, Lavers Hill and Apollo Bay. VIC	Colac Otway Shire Council	Phase One	Road	Construction of new kerb and channel, and associated drainage	In 2019 Colac Otway Shire adopted a masterplan for Forrest Common Reserve, the main community park servicing the Forrest township. The plan identified that road run-off from Station Street was causing damage to the reserve, particularly the playground and car park. High volumes of stormwater sheet across the reserve carrying debris and spreading playground softfall into the car park, creating slippery surface	Apr-21	Jun-21	\$155,000.00	\$155,000.00
VIC	Colac Otway Shire Council	Phase One	Road	Road repairs at main entry and emergency entry and nearby roundabout at Colac Hospital	The roundabout and section of Connor Street are heavily used for everyday access to Colac Hospital, Bulla Factory, and various medical centres. Repair of this road will improve the safety of the road surface for users, especially ambulances and other medical vehicles entering the hospital and people visiting the various medical services in this area. The asphalt works will also assist in reducing traffic noise for aged care residents and patients who are situated in hospital wards and wings adjacent to this roadway. Undertaking rehabilitation works now will avoid the need for full road reconstruction when the road fails. If a full reconstruction were required it would cause substantial disruption in the area and interrupt hospital access.	Feb-21	Apr-21	\$200,000.00	\$200,000.00

VIC	Colac Otway Shire Council	Phase One	Road	Sealing of 700m of road	The main benefit this project will deliver is improved safety by providing all weather access constructed to a higher standard, for adjoining property owners and other road users in general. It will provide an attractive alternative access route for residents in the Swan Marsh community. It will provide a viable option for heavy vehicle access (milk tankers, stock trucks, quarry vehicles) into and out of the Swan Marsh district. It will provide an attractive alternative access point for emergency responders (Fire Safety Victoria, etc.), both into and away from the Swan Marsh district. Safety at night or in foggy circumstances will be greatly improved through road side delineation, the advantage of a sealed surface, and through the addition of solid edge lines. Routine maintenance of the unsealed surface (maintenance grading) will be substantially reduced – shoulders will still require periodic maintenance.	Mar-21	Jun-21	\$285,000.00	\$285,000.00
VIC	Colac Otway Shire Council	Phase One	Community Infrastructure	Construction of new play space	Residents of the Petjuli Street park catchment do not currently have access to a playground within walking (500m) distance, with the nearest playground being more than a kilometre away. The park is currently undeveloped with some trees and park benches. This development will create a social destination for the many children, families and carers in the area, activities for a range of age groups and access to these facilities with the creation of a hard surface path connecting to the existing footpaths.	Mar-21	Jun-21	\$100,000.00	\$100,000.00
VIC	Colac Otway Shire Council	Phase One	Community Infrastructure	Construction of pedestrian and cycling bridge and paths	In 2016 a pedestrian bridge that forms part of the Barongarook Creek Shared Trail was washed away by flood waters. The bridge connection forms a critical off-road link for users of the Barongarook Creek shared trail and, once completed, will provide a continuous, 1.3 kilometre off-road walking and cycling connection from the Coles on Bromfield Street and the Visitor Information Centre on the corner of Murray and Queen Streets, via picnic/toilet facilities and a recently constructed Traditional Owner memorial space to Lake Colac. If the bridge is not replaced, pedestrians, wheelchair users and cyclists are diverted 360 metres via a car park, up to busy Murray Street (Princes Highway) and must cross at traffic lights and journey along Murray Street to arrive at the continuation of the shared path.	Apr-21	Jun-21	\$390,000.00	\$390,000.00
VIC	Colac Otway Shire Council	Phase One	Road	Installation of speed humps outside school	Speeding vehicles currently pose a safety risk to children accessing the Specialist School in Wilson Street, Colac. Students aged 5-18 with special needs and their carers currently use the crossing daily during school term. Cars and heavy vehicles use this local road as a short-cut between the C155 (Colac-Lavers Hill Road) and Queen Street (north south collector road). The installation of speed humps either side of the crossing aims to slow vehicles and deter heavy vehicles, generally improving pedestrian safety in this area.	Nov-20	Dec-20	\$20,000.00	\$20,000.00

VIC	Corangamite Shire Council	Phase One	Road	This project will seal the truck and long vehicle parking area located opposite the Skipton Roadhouse service station on the Glenelg Highway.	Upgrading an unsealed truck parking area to a sealed parking area will improve the conditions for heavy vehicle drivers exiting the parking area and safety for users of the adjoining highway as well as reduce dust for nearby business and residents.	Feb-21	Feb-21	\$80,000.00	\$80,000.00
VIC	Corangamite Shire Council	Phase One	Community Infrastructure	To replace the existing Estcourt Street public toilet block.	The Estcourt Street public toilet block is in poor condition. It services the main central business area of Terang and has been identified by Council through its asset management plan for removal and replacement. Providing improved public toilets will ensure appropriate amenity for users and equity of access for users.	Feb-21	May-21	\$175,000.00	\$175,000.00
VIC	Corangamite Shire Council	Phase One	Community Infrastructure	This project will provide all abilities access to the War Memorial in Camperdown and streetscape infrastructure upgrades in Finlay Avenue between Pike Street and the War Memorial.	Camperdown's War Memorial does not currently enable all abilities access. For ANZAC Day celebrations, Councils' building team erect a temporary ramp to provide access for those unable to use the existing steps. Renewal of existing infrastructure will also be undertaken.	Apr-21	Jun-21	\$200,000.00	\$200,000.00
VIC	Corangamite Shire Council	Phase One	Community Infrastructure	This project will provide upgrades to infrastructure in Cobden's main streets which have been identified as a priority by the Cobden Community Infrastructure.	Cobden's streetscape requires a refresh. The various works will help to improve the aesthetic of the main street in Cobden whilst addressing safety and access issues identified by the Community Infrastructure.	Feb-21	Jun-21	\$300,000.00	\$300,000.00
VIC	Corangamite Shire Council	Phase One	Road	This project will seal Windham Street which provides access from and to the Skipton Roadhouse service station and is used by heavy vehicles to access the key routes north of Skipton.	Upgrading an unsealed road to a sealed road to improve access to heavy and other vehicles. Windham Street is partly sealed (50m). This will extend the seal along the entire road.	Feb-21	Feb-21	\$50,000.00	\$50,000.00
VIC	Corangamite Shire Council	Phase One	Community Infrastructure	This project will include the replacement of the roof over the two court basketball stadium and minor facility upgrades.	The existing roof is over 20 years old and at the end of its useful life. It is leaking during certain rain and wind events and presents safety risk to participants using the courts, so much so that competition was postponed last season. This project will ensure the safety for players, officials and spectators and have been identified several years ago as a priority by the Committee of Management.	Dec-20	Mar-21	\$120,000.00	\$120,000.00

VIC	Corangamite Shire Council	Phase One	Community Infrastructure	This project will involve the construction of a skatepark in Skipton.	The Skipton Community Infrastructure have identified a Skatepark as a key priority in its Community Infrastructure plan and as a key project highlighted by a petition signed by more than a hundred young people from around Skipton and district. The skate park will provide an important year-round recreational opportunity for young people.	Feb-21	Apr-21	\$160,000.00	\$120,000.00
VIC	Corangamite Shire Council	Phase One	Community Infrastructure	To replace the existing Derrinallum public toilet block.	The Derrinallum public toilet block is in fair condition and has been identified by the Community Infrastructure through its Community Infrastructure plan as requiring either replacement or an upgrade to provide contemporary facilities for visitors and users. Derrinallum is located on the Hamilton Highway and these toilet blocks are heavily used by travellers. Providing improved public toilets will ensure an inviting amenity and encourage people to stop in the town.	Mar-21	Jun-21	\$175,000.00	\$175,000.00
VIC	Corangamite Shire Council	Phase One	Community Infrastructure	This project will see an upgrade to the existing netball infrastructure, including court lighting, shelters and inclusive design changerooms for players, officials and spectators.	The upgrades have been identified as a priority to improve the safety for participants, increase the chances of clubs attracting and retaining participants and to increase access and usage. These works are identified as a priority in the Great South Coast AFL, Netball and Cricket Strategy and are supported by the Recreation Reserve Committee of Management, Cobden Football Netball Club and Cobden Tennis Club. In addition, there is a demand for female facilities at the Cobden Recreation Reserve with the establishment of an under 18's female football team. If funding can be secured through this program, it is expected that there will be an increase in the number of females participating at the reserve. Currently, there are three under 18 female football teams across the Corangamite Shire. The upgrade allows Cobden Recreation Reserve to become a venue for further female teams including the development of female senior sides.	Feb-21	Jun-22	\$600,000.00	\$300,000.00
VIC	Corangamite Shire Council	Phase One	Community Infrastructure	This project will replace bridge structures on the Camperdown Timboon Rail Trail which have been identified as requiring replacement in the recent Management Plan.	The upgrades will improve the safety of all users of the trail.	Oct-20	Jun-21	\$100,000.00	\$50,000.00
VIC	Corangamite Shire Council	Phase One	Community Infrastructure	This project will provide fixed fitness equipment at the existing playground.	This project has been identified as a priority by the Derrinallum Progress Group to provide access to fitness and exercise equipment and encourage a healthy lifestyle as well as boost local economy by incentivising visitors and users to the area.	Dec-20	Feb-21	\$25,000.00	\$20,000.00
VIC	Corangamite Shire Council	Phase One	Community Infrastructure	This project will provide all abilities access to the Camperdown Court House which the local visitor information centre operates within.	The Camperdown Courthouse is leased by a volunteer Community Infrastructure group who provides visitor information services, local art displays and various events and functions. The Court House does not currently provide permanent all abilities access. For those people requiring access a portable ramp is provided on request at a door to the rear of the building to provide access.	Mar-21	Jun-21	\$125,000.00	\$125,000.00

VIC	Horsham Rural City Council	Phase One	Road	This project will install kerbing and marked parking bays for the sporting precinct in Park Drive (eastern edge of the Racecourse Reserve). This area is increasing in usage, with tennis, netball, fire fighting, skate park, lawn bowls and croquet all played.	The current roadside is un-kerbed, resulting in people parking in inappropriate locations, and damaging the natural drainage in the area.	Mar-21	Jun-21	\$180,000.00	\$180,000.00
VIC	Horsham Rural City Council	Phase One	Road	To replace the existing kerb & channel on both sides of Roberts Ave between Urquhart & McPherson Sts	The kerb and channel in this area is degraded, causing drainage failure and safety issues. This section of street contains a primary school and a childcare centre.	Mar-21	Jun-21	\$156,000.00	\$156,000.00
VIC	Horsham Rural City Council	Phase One	Community Infrastructure	The existing house lighting system in the Town Hall auditorium is defective requiring ongoing maintenance & cost. This project intends to replace the existing system with a modern, industry-standard Plug & Play solution that does not require the use of external electrical contractors.	The existing lighting system is not controllable as per industry standards, is overly complex to operate and does not dim correctly. Touring shows are not able to control lights as required. Drivers and the power distribution rack have partially failed.	Feb-21	Apr-21	\$50,000.00	\$50,000.00
VIC	Horsham Rural City Council	Phase One	Community Infrastructure	Horsham Town Hall was redeveloped in 2016 with the addition of a new theatre auditorium. The room is ideal for un-amplified acoustic events e.g. Melbourne Symphony Orchestra. Motorised adjustable sound banners were included in the initial design but have not been installed due to budget constraints. This project will install the adjustable acoustic banners.	In the original auditorium design banners were used to absorb sound for live amplified performances. Currently the sound reflects off the walls and causes a distortion for patrons and artists on stage who hear the sound coming back at them.	Mar-21	May-21	\$150,000.00	\$150,000.00
VIC	Horsham Rural City Council	Phase One	Community Infrastructure	The Mitre Hall is a focal point for the small rural Community Infrastructure of Mitre, based at the foot of Mt Arapiles. The 100-year-old hall regularly hosts Community Infrastructure events. This project will upgrade the kitchen facilities in this essential Community Infrastructure hub.	Existing kitchen facilities are over 40 years old, and in urgent need of replacement, to provide a hygienic and modern Community Infrastructure asset.	Feb-21	Apr-21	\$40,000.00	\$40,000.00
VIC	Horsham Rural City Council	Phase One	Community Infrastructure	The Taylors Lake Hall is a focal point for the small rural Community Infrastructure of St Helens Plains. The hall regularly hosts Community Infrastructure dinners, trivia nights and music. This project will replace the ceiling in the hall to a safe standard, and upgrade the lighting to energy-efficient LED lighting.	The existing ceiling sheeting in the hall is dislodged and in danger of falling, and the lighting is via old fluorescent tubes. This project will improve energy efficiency.	Feb-21	Apr-21	\$12,000.00	\$12,000.00
VIC	Horsham Rural City Council	Phase One	Community Infrastructure	The Quantong Community Infrastructure Centre is a focal point for the small rural Community Infrastructure of Quantong (population 308). The Community Infrastructure Centre regularly hosts birthdays, funerals and weddings. This project will repair Corella damage to the roof, and install solar power and upgrade to LED lights internally.	The galvanised iron roof has been damaged by Corellas, who pull out the roofing screws. The installation of solar power and LED lights will reduce costs to the local Community Infrastructure who pay for services to the Centre.	Mar-21	May-21	\$20,000.00	\$20,000.00
VIC	Horsham Rural City Council	Phase One	Community Infrastructure	Install solar powered lights in the park.	The park currently has no lighting, and is not illuminated by street lighting. Installation of lighting will improve the safety and amenity of the public space allowing it to be used in the evenings for recreational purposes	Feb-21	Apr-21	\$20,000.00	\$20,000.00
VIC	Horsham Rural City Council	Phase One	Community Infrastructure	Enlarged culvert structure to provide capacity for increased flow in river, and sufficient capacity for fire vehicles, as the site is an existing fire access crossing and a popular walking path which has developed at the western end of Horsham township below the Wimmera River weir.	During periods of environmental releases or other small-medium flows in the Wimmera River, this crossing is inaccessible to pedestrians. A larger capacity culvert will enable the walking loop to be accessed throughout the year	Mar-21	Jun-21	\$80,000.00	\$80,000.00

VIC	Horsham Rural City Council	Phase One	Community Infrastructure	Horsham Town Hall - visitor services digital resources	The Visitor Information Center currently lacks electronic resources and relies heavily on printed brochures and guides. Installation of touch-activated screens, large displays and integrated tablets will allow visitors to get information in their preferred medium. It will allow better presentation and display of regional stories and experiences offering a real-life sample of what visitors can see and do.	Mar-21	Jun-21	\$50,000.00	\$50,000.00
VIC	Horsham Rural City Council	Phase One	Community Infrastructure	The Station Horsham - outdoor Community Infrastructure space landscaping	Currently there are multiple Community Infrastructure spaces which are used by young people however as identified in Council's Youth Strategy there is a need for affordable places and activities for young people aged 15 and older, Aboriginal and Torres Strait Islander young people, and young people who are not involved in sport. The aim is to create a public space which is welcoming to young people, where they can spend time in positive but unstructured activities, and a place that can support after hours recreation activities.	Apr-21	Jun-21	\$189,396.00	\$189,396.00
VIC	Horsham Rural City Council	Phase One	Community Infrastructure	Horsham Botanical Gardens - pathways sealing	The current pathways in botanical gardens are unsealed causing inconvenience to Community Infrastructure and posing potential slip hazard during wet season.	Mar-21	Jun-21	\$100,000.00	\$50,000.00
VIC	Horsham Rural City Council	Phase One	Community Infrastructure	Horsham Town Hall - installation of fly-lines for performance space	The Horsham Town Hall fly-tower has been designed to hold 40 counterweight fly-lines for full functionality. Only 26 Fly-lines were installed during construction due to budget constraints, together with the support structure for the remaining 14 fly-lines. Fly-lines are designed to allow scenery and lighting etc to be hung in exact locations to allow for the artistic design of the show. Because of the limited amount of fly-lines available at present, this becomes problematic during productions.	Mar-21	Jun-21	\$129,250.00	\$100,000.00
VIC	Horsham Rural City Council	Phase One	Road	Natimuk Road Horsham - tree removal and planting	The old sugar-gum trees are dying and pose a safety hazard.	Apr-21	Jun-21	\$75,000.00	\$26,000.00
VIC	Hume City Council	Phase One	Road	Reconstruction of the road between Johnstone Street and Kinniard Street	The road is in need of reconstruction to ensure long-term asset performance and for safe access in and out of residential properties. The project will also provide additional on street car parks to reduce impact on residents from Broadmeadows Hospital overflow parking	Nov-20	Mar-21	\$730,000.00	\$730,000.00
VIC	Hume City Council	Phase One	Road	Reconstruction of the road and upgrade of the underground storm water drainage.	The road is in need of reconstruction to ensure long-term asset performance and for safe access in and out of residential properties	Nov-20	Mar-21	\$920,000.00	\$888,480.00
VIC	Indigo Shire Council	Phase One	Community Infrastructure	Buttson Park - Water Bubblers	Insufficient access to wheelchair friendly drinking fountains in key areas across the Shire.	Jul-20	Jun-21	\$15,000.00	\$15,000.00
VIC	Indigo Shire Council	Phase One	Community Infrastructure	Stanley Street - Footpath	There is only a small dirt walking track between the Indigo Creek Park and the Sports Park which gets very muddy over winter and has hazardous long grass (snake habitat). This new path will create a safe link from the school to the sports park.	Jul-21	Oct-20	\$25,000.00	\$25,000.00
VIC	Indigo Shire Council	Phase One	Road	Blanch Street - Widening	Blanch Street is a vital link between the residential area of town and the Wahgunya sporting precinct. There is no footpath at this crossing creating a dangerous situation with vehicles and pedestrians using the road to cross Sunday Creek.	Aug-20	May-21	\$120,000.00	\$120,000.00

VIC	Manningham City Council	Phase One	Community Infrastructure	Sealing of existing granitic sand carpark with asphalt, construction of kerb and channel and a footpath along the northern boundary, construction of a footpath connection to George Street and linemarking of the carpark including the marking of pedestrian islands between George Street and the proposed northern footpath.	There is no safe, defined pedestrian access path through the carpark to the Athletics Track or for pedestrian visitors entering the site from George Street. The maintenance demand associated with the existing granitic sand carpark pavement is excessive. Under traffic the ride quality of the granitic sand is poor particularly after rain, when large numbers of potholes develop.	Apr-21	Jun-21	\$395,000.00	\$395,000.00
VIC	Manningham City Council	Phase One	Community Infrastructure	Ruffey Lake Park is a Council reserve, 66 hectares in area. The proposed works include the sealing of paths between the boardwalk at the main carpark, The Boulevard public toilets and picnic shelters. Marking of a new DDA parking bay in The Boulevard off road carpark. Installation of solar powered lights along this path to the toilets. Construction of footpath connections, in several cases to residential park interfaces including Victoria Street and King Street, including associated landscaping and works.	Council is in the process of completing improvements to The Boulevard public toilet block, to in part achieve DDA compliance. Council commissioned a Building DDA Inspection report for the public toilets and the recommendations included sealing of existing gravel paths to access the toilets, lighting improvements and the provision of an additional DDA compliant parking bay in closer proximity to the toilets. The previous Council project scope was limited to the public toilet improvements. This project also seeks to improve access to Ruffey Lake Park, by providing further pedestrian linkages to abutting streets.	May-21	May-21	\$141,402.00	\$141,402.00
VIC	Mansfield Shire Council	Phase One	Road	Gravel resheeting of various council roads	The problem addressed is improvement on existing poor road conditions. VIC	Mount Alexander Shire Council	Phase One	Road	Barker Street, Castlemaine, Pedestrian crossing treatment to be determined by Regional Roads Victoria. More details can be provided by mid-August if required.	Barker Street (the Midland Hwy), is a 4 lane hwy that runs through the centre of Castlemaine. There is a 1.8km stretch that links from the town entrance to the CBD. There are no pedestrian crossing points along this section of highway. This section is used by students accessing the only high school in the region, Castlemaine North Primary School (the primary school with the highest enrolments in the Shire), Windarring - an organisation that provides a day care service for adults with a disability, along with connections to Castlemaine Botanical Gardens - the Shire's most used public space for informal recreation. The lack of pedestrian crossing creates a huge risk for residents and is a barrier to those with mobility issues.	May-21	Jun-21	\$500,000.00	\$500,000.00
VIC	Mount Alexander Shire Council	Phase One	Community Infrastructure	Castlemaine Botanical Gardens Flora and Fauna Reserve, Repair to deteriorated path network sections within the Castlemaine Botanical Gardens Flora and Fauna Reserve - an important environmental area of the gardens which is of national significance due to the population of the endangered Eltham Copper Butterfly as well as numerous other local ecological features and examples of our Indigenous heritage.	The path rehabilitation works will improve accessibility to the Flora and Fauna Reserve. This network of paths is essential to providing visitors with opportunities to learn and engage with our Indigenous history as well as discouraging visitors from venturing into and disturbing the habitat of the Eltham Copper Butterfly. The path network is used regularly by residents and visitors undertaken informal recreation pursuits such as walking and running. The current state of the path network acts as barrier to access for all of the above listed activities.	Apr-21	May-21	\$50,000.00	\$50,000.00

VIC	Surf Coast Shire	Phase One	Community Infrastructure	Extension of the 1st Torquay Scouts Building at Spring Creek Reserve Torquay	The extension will provide much needed activity space and storage accessible directly from car park. Works will address OHS and DDA issues with the current building, including toilet facilities. Further, the works will provide a necessary meeting space, improve drainage and increase general storage capacity.	Mar-21	Jun-21	\$367,000.00	\$347,000.00
VIC	Surf Coast Shire	Phase One	Community Infrastructure	Upgrade of existing Playground, Coogoorah Park, Anglesea	Playground is approaching the end of it's useful life. Ongoing minor repairs due to parts of the timber construction failing.	Apr-21	Jun-21	\$295,060.00	\$135,060.00
VIC	Surf Coast Shire	Phase One	Community Infrastructure	Works to include the provision of a multi fitness combination unit, Deans Marsh Reserve - Pennyroyal Valley Rd, Deans Marsh	Deans Marsh Reserve is the hub of community activity with an oval, playground, skate park, tennis courts and buildings providing a range of programs and services. There are several basic pieces of fitness equipment however they don't meet all the needs of the community. This project will provide a key multi fitness combination unit identified by the community as perfect to help them to be more active, more often.	Sep-21	Dec-21	\$18,000.00	\$18,000.00
VIC	Surf Coast Shire	Phase One	Road	The works include rehabilitation, widening and sealing of a road in Winchelsea, Mousley Road between Princess Highway and Alsop Drive in Winchelsea	To provide improved access for commercial vehicles to small businesses	May-21	Oct-21	\$450,000.00	\$350,000.00
VIC	Surf Coast Shire	Phase One	Community Infrastructure	The project includes the development of a BMX Track / Bike Park within Ocean Acres Reserve	Council officers are attending to unauthorised bike trail building in the bushland adjacent to the Ocean Acres Reserve and at other locations in Torquay. This proposal presents an opportunity to engage interested members of the community in the planning, design and ongoing maintenance of a bike park facility in an appropriate open space area. The large area of open space that is the 'drainage basin' holds water in some areas rather than the water draining to where it was intended (into the drainage outlet within the basin) and as a result the space is wet and boggy for close to 6 months of the year.	Feb-21	Mar-21	\$80,000.00	\$80,000.00
VIC	Surf Coast Shire	Phase One	Community Infrastructure	Construct a concrete pathway and seating area that runs between the north and south courts, 1A Geelong Rd, Torquay - Spring Creek Reserve	This project will address issues with the area becoming boggy to walk on and will prevent gravel and mud being transferred onto the playing surface. The project will improve accessibility and safety, and increase the longevity of the court surfaces.	Mar-21	Apr-21	\$31,000.00	\$21,000.00
VIC	Surf Coast Shire	Phase One	Community Infrastructure	Provides a redeveloped outdoor social facility for Winchelsea residents, Barwon River Reserve, 4 Barwon Terrace, Winchelsea	The current Mud Brick Hut is in need of renewing and the gathering spaces are disconnected from the adjacent play space and only accessed from the road via stairs. There is limited space for large gatherings and visibility from the shelter to the play space is impeded. Shade and protection from the elements is also needed. The design aims to create a flexible space for multiple uses and events, to build a greater visual connection to the play space and river below and to provide DDA compliant access and inclusion.	Apr-21	Jun-21	\$135,000.00	\$50,000.00

VIC	Towong Shire Council	Phase One	Community Infrastructure	The construction of concrete and granitic sand walking/cycle paths, Corryong township footpaths along Strezlecki Way	Corryong is a town of approximately 2000 residents. The existing footpath network does not provide the necessary connections to facilitate off road community recreation and exercise opportunities for the community.	Nov-20	Jun-21	\$225,000.00	\$225,000.00
VIC	Towong Shire Council	Phase One	Community Infrastructure	The creation of a wayside stop including furniture and shelter, Murray River Road between Bellbridge and Granya.	Bushfires and Covid-19 have significantly reduced tourism visitation in Towong Shire. The construction of these features along the Murray River Road will see regular wayside stops at features of interest all the way along the 'Great River Road'. Using previous funding wayside stops were created at the Upper Murray end of the shire and this is now an opportunity to finish the remaining sites to tie in with a large promotional campaign for the route to attract tourists back into the area	Jan-21	Jun-21	\$160,000.00	\$160,000.00
VIC	Towong Shire Council	Phase One	Road	Widening of Towong Street East, installation of kerb and stormwater pipes, Towong Street East, Tallangatta	Towong Street East is the primary entrance into Tallangatta from the East. The street is lined with houses and has a large open stormwater drain on the Southern side. The northern side of the road has kerb. This provides a poor first impression of the town and makes this side of the street inaccessible to pedestrians. There is also limited on street residential parking, and requires improvement.	Jan-21	Jun-21	\$481,232.00	\$481,232.00
VIC	Towong Shire Council	Phase One	Road	Installation of a heavy vehicle compliant weighbridge to service the Corryong community	Corryong area generates a significant amount of heavy vehicle traffic that is loaded locally including a saw mill, concrete batching plant and stock trucks. These trucks have no way of knowing if they have exceeded their weight limits until they drive to the Logic Centre at Barnawartha which is over 100km away. There is a history of truck rollovers on the Murray Valley Highway between Corryong and Wodonga enroute to Barnawartha.	Jan-21	Jun-21	\$300,000.00	\$300,000.00
VIC	Towong Shire Council	Phase Two	Community Infrastructure	Bellbridge Walking Track Upgrade, Lake Road: Bicycle and Walking Paths	The Bellbridge Walking Track is planned to be sealed to improve Community Infrastructure safety and outdoor exercise equipment installed along the track. The Bellbridge Walking Track has poor surface condition and does not facilitate safe off road Community Infrastructure recreation and exercise opportunities for the Community Infrastructure.	Feb-21	Jun-21	\$85,000.00	\$85,000.00
VIC	Towong Shire Council	Phase Two	Community Infrastructure	Cudgewa Toilet Block, Main Street: Toilet Blocks	Replacement of the Public Toilet Block at Cudgewa.	Apr-21	Jun-21	\$80,000.00	\$30,000.00
VIC	Towong Shire Council	Phase Two	Community Infrastructure	Eskdale Walking Track, Racecourse and Recreational Reserve : Bicycle and Walking Paths	The Eskdale Walking Path is to be sealed and fenced to improve Community Infrastructure safety. An approximately 1.2km of walking track to be sealed and fenced on both sides through a 200 m section that transects the Eskdale Recreation Reserve. The Eskdale Walking network does not facilitate safe off road Community Infrastructure recreation and exercise opportunities for the Community Infrastructure due to deterioration of the existing granite sand surface and cattle access to sections of the walking track.	Mar-21	Jun-21	\$60,000.00	\$60,000.00

VIC	Towong Shire Council	Phase Two	Community Infrastructure	Old Tallangatta Lookout, Murray Valley Highway : Painting/Improvements to Community Infrastructure facilities	The project sees the installation of tourist information boards, promoting local history at the Old Tallangatta Lookout. Existing signs at the lookout are deteriorated and information requires an update to include indigenous history.	Mar-21	Jun-21	\$20,000.00	\$20,000.00
VIC	Towong Shire Council	Phase Two	Community Infrastructure	Shade sail for fish sculpture on Bellbridge Foreshore, Lake Road: Playgrounds and Skate parks	The interactive fish sculpture, installed as part of the Our Bellbridge project, has been a popular play area for children. This project is aimed to construct and install two Shade Sails for the sculpture and the adjacent playground. During summer, the absence of a shade sail at the play area makes the stainless steel fish sculpture excessively hot.	Mar-21	Jun-21	\$30,000.00	\$30,000.00
VIC	Towong Shire Council	Phase Two	Community Infrastructure	Shade sail for Pelican Sculpture on Tallangatta Foreshore: Playgrounds and Skate parks	Installation of 2 Shade Sails at the Tallangatta Foreshore over the Pelican playground. During summer, the absence of a shade sail at the play area causes play equipment to get very hot.	Mar-21	Jun-21	\$30,000.00	\$30,000.00
VIC	Towong Shire Council	Phase Two	Community Infrastructure	Tallangatta Swimming Pool Upgrades, 2A Akuna Ave, Tallangatta VIC 3700: Works to upgrade, repair or maintain sporting ovals, courts, swimming pools etc	The Tallangatta Swimming Pool requires an upgrade to install new features and stabilise water retention. The refurbishment project would include an addition of a new filtration system for the smaller pools, a vinyl liner for all pools and new shade sails. VIC	Wellington Shire Council	Phase One	Community Infrastructure	Rosedale and Maffra Pool - Pool Blanket Installation	Installation of pool blankets will provide multiple benefits. Blankets reduce overnight heat loss and improve bather comfort and appeal. By maintaining water temperature, the pools become more enjoyable to a wider age and range of potential users. Improved stability of water temperature also assists programming – of swim lessons, exercise program and more. Blankets reduce evaporation and water loss when the pools are not in use. Blankets reduce solar degradation of swimming pool water treatment chemicals, thereby reducing the amount of chemical required as well as reducing the volume of chemical that must be transported and stored. VIC	Wellington Shire Council	Phase One	Community Infrastructure	Sale - Flooding Creek Masterplan Implementation	Flooding Creek Masterplan, completed in 2003, identified the opportunity to create an off road linear linking shared path, connecting new residential developments in the north west of Sale, through to the Port of Sale Cultural Hub, Sale Central Business District and Lake Guthridge-Guyatt Parklands. Stage 1 of the Masterplan saw the creation of Flooding Creek (Saleyards) Reserve. This revegetated area is a popular passive recreation space for the community. The expansion of the path network in Saleyard Reserve will provide for greater opportunity for informal recreation and relaxation, while also creating an off road connection to the new shared path along the disused Back Maffra Road. The Back Maffra Road section of the shared path will create a link along Flooding Creek to connect into Ross Street Reserve and the existing shared path network along Cunninghame Street. WA	Shire of Bruce Rock	Phase One	Community Infrastructure	Bruce Rock Caravan Park, Dunstall St - Various upgrades	The existing ablution facility is very old and is well and truly due for an upgrade. When Council investigated costings it was deemed more cost-effective to demolish the current facility and build a new structure rather than renovating. The current facility does not have adequate equal accessibility, which will be rectified in the new building.	Feb-21	Jun-21	\$333,674.00	\$333,674.00
WA	Shire of Bruce Rock	Phase One	Community Infrastructure	Bruce Rock Recreation Centre, Dunstall St - Installation of power	Currently the cricket shed has no power, which has resulted in the local Cricket Club having to use a generator to run equipment including ball machines and lighting for their training sessions, club days, and fixtures night matches. The installation of power will prevent the carting of a generator to the facility each week, and makes the facility more user friendly.	Apr-21	Jun-21	\$4,500.00	\$4,500.00
WA	Shire of Bruce Rock	Phase One	Community Infrastructure	Johnson Street, Bruce Rock - Parklet upgrades	Before Council installed the temporary parklets, there were no attractive outdoor seating and dining options on the main street, especially near operating food businesses. The temporary parklets have made our main street more vibrant and have been deemed a great success. The parklets make it obvious to passing travelers that the food businesses are open, and encourage them to stop and spend, which boosts our local economy. Making the parklets permanent will increase all these benefits and ensure we can continue to reap them well into the future.	Apr-21	Jun-21	\$126,003.00	\$126,003.00

WA	Shire of Kondinin	Phase One	Community Infrastructure	Marshal Street Hyden - roadside landscaping and reticulation	Plant and manage greenery at the approach/entry of the Hyden townsite that will improve the areas aesthetics and help manage roadside water pooling. Green space and shade adjacent to sporting precinct.	Sep-20	Oct-20	\$25,000.00	\$25,000.00
WA	Shire of Kondinin	Phase One	Community Infrastructure	Kondinin, Hyden and Karlgarin - footpaths	Replacement of aged and deteriorated asphalt paths with implementation of current standards for gradients and access ramps. Safety linking aged care and education facilities with other town services.	Oct-20	Mar-21	\$250,000.00	\$250,000.00
WA	Shire of Kondinin	Phase One	Community Infrastructure	Gordon Street Kondinin - toilet block	Current public toilet no longer operable experiencing maintenance and plumbing issues and does not comply with disability standards; also poorly positioned in the middle of the lawn area in the Shire Caravan Park. By locating the new toilet and shower closer to the information bay and travel stop, BBQ, gazebo and historic interpretation will make it much more accessible to the uses including truck drivers and tourists, and will not conflict with the guests at the caravan park who have their own amenities for paying guests.	Mar-21	May-21	\$102,000.00	\$102,000.00
WA	Shire of Kondinin	Phase One	Community Infrastructure	Wave Rock Precinct Hyden - toilet block screening	Since a second toilet block was installed to match increase in demand, the Shire has received regular feedback from visitors to Wave Rock that they feel exposed using these toilets and have suggested installing some screening to offer greater privacy coming in and out of the toilets and to make them more accessible. A screen would also improve the aesthetics of the toilet block and tie in with the older one on site which is screened.	Mar-21	Apr-21	\$6,234.00	\$6,234.00
WA	Shire of Kondinin	Phase One	Community Infrastructure	Tolland Road, Hyden - Sandpipe Controller	At the moment the Shire has a number of Community Infrastructure water sites and unlike all surrounding Shires does not charge for water use. The two water tanks at Tolland Road are currently accessed by connecting straight into the tank for agricultural and emergency purposes. In this current scenario there is no way of tracking who is using the water or how much water is being used each day. By installing a standpipe controller will enable the Shire to monitor the use and user of the water and also establish a user pay system through the swipe cards. This will ensure that the Shire can manage a more equitable water use system accessible to the local Community Infrastructure.	Feb-21	Mar-21	\$30,000.00	\$30,000.00
WA	Shire of Kondinin	Phase Two	Community Infrastructure	IMPROVEMENT TO Community Infrastructure FACILITIES – Corner Aylmore & Hyden-Lake King Road, HYDEN Corner Kondinin Lake Road & Graham Street, KONDININ Corner Bendering Road & Kondinin-Narembeen Road, KONDININ	Installation of 3 x Standpipe Controllers at existing Community Infrastructure water sites to enable the better management and access to the Shire's Community Infrastructure water supplies. State	Council/Eligible Funding Recipient	LRCI Phase	Project Category	Description of project and works proposed	Problem being addressed	Date construction commence	Date construction completed	Total project cost	LRCI Program Funding Required
WA	Shire of Pingelly	Phase Two	Road	Roadside vegetation clearing	General road maintenance. The current roadside vegetation requires an injection of funding over and above the current allocation. The high level of vegetation is resulting in damage to agricultural vehicles and poses significant safety risks to general road users.	Apr-21	Oct-21	\$175,000.00	\$175,000.00
WA	Shire of Pingelly	Phase Two	Community Infrastructure	Town Hall Maintenance and Improvements	Improvements to Community Infrastructure facilities. The Pingelly Town Hall is currently an underutilised asset due to it being not fit for purpose. Improvements to this facility will benefit the whole Community Infrastructure, as this asset will then be able to be utilised as a multipurpose facility.	Feb-21	Oct-21	\$33,549.00	\$33,549.00
WA	Shire of Plantagenet	Phase One	Community Infrastructure	Implement landscape design along Albany Highway, Mount Barker	From Shire of Plantagenet / Main Roads traffic counts (2018-29) only 14% of vehicles travelling along the Albany Highway turn off into the townsite of Mt Barker to visit the numerous retail businesses. There is insufficient signage advertising the Mt Barker CBD which, combined with a general lack of coherent landscaping along the Albany Highway, has made stopping in the town seem less appealing to visitors.	Jul-21	Dec-21	\$421,400.00	\$300,000.00
WA	Shire of Plantagenet	Phase One	Road	Using the current gravel pavement as sub-base add 150mm base course, compact, trim, water bind and 10mm chip seal. Improve roadside drainage (clean and deepen). Replace aged signage and white posts.	Wilson Road is currently a gravel road. Increasing development along its length and on feeder routes have increased traffic volumes to nearly 200 VPD. There is significant development potential in the area. Upgrading and sealing the road will improve light vehicle safety and decrease travel times.	Nov-20	Feb-21	\$303,014.00	\$303,014.00

WA	Shire of Quairading	Phase One	Road	Resheet with gravel, Pannell Road	Base course material has deteriorated to the subgrade level which has exposed rock in pavement area.	Mar-21	Jun-21	\$131,150.00	\$131,150.00
WA	Shire of Quairading	Phase One	Community Infrastructure	1 x 28m lightpole with 3 x LED lights plus underground cabling and modifications to oval lighting switchboards.	Shire is upgrading floodlighting at the Sports Oval to improve training environment for sporting teams. Former poles were unable to provide adequate lighting for training purposes and structural integrity was questionable. Will be replacing former metal halide lighting with LED lighting which is more efficient and environmentally friendly.	Nov-20	Feb-21	\$77,520.00	\$35,000.00
WA	Shire of Quairading	Phase Two	Community Infrastructure	Town Hall / Administration Centre Carpark Upgrade Project	The project consists of the realigning, resurfacing and landscaping of a dated carpark area which will provide improved access to multiple Shire facilities including the Quairading Town Hall, the Shire Administrative Centre and the Shire's Works Depot. It will provide compliant access and parking facilities for individuals with disabilities.	Sep-21	Nov-21	\$328,000.00	\$288,492.00
WA	Shire of Ravensthorpe	Phase One	Community Infrastructure	Beach shelter installation, McCulloch Park, Hopetoun	The shelter will provide a shaded area for people to gather and have shelter for the elements when they are visiting the foreshore. Existing shelter was lost to beach erosion.	Feb-21	Mar-21	\$3,970.00	\$3,970.00

WA	Town of Claremont	Phase One	Community Infrastructure	Claremont Aquatic Centre works Renewal of the Town's aquatic centre disabled change room and toilet facility and the addition of a family change room, improvements to the associated universally accessible access ramp, and the retaining and landscaping of the surrounding garden area.	The existing disabled facilities at the aquatic centre are in a poor condition and require renewal. The original aquatic centre complex was constructed in 1960. The change rooms and toilets that are still in use today were constructed in 1971 without dedicated disabled facilities. Around 2004 a demountable disabled toilet and change room was added to the south of the change rooms with a short access ramp connection provided. Having originally been constructed as a temporary measure, this disabled toilet and change facility is still in use today and is in urgent need of renewal. The disabled access path to this area is also in need of enlargement and improvements. Due to the vertical grades of the site, retaining of the land will be required to accommodate this work. The community facility also lacks a dedicated family change room with some patrons instead using the disabled change room in this capacity. New family change rooms will be added adjacent to the disabled facilities. All proposed renewals and upgrades will be designed to comply with universal access requirements in accordance with the Town's Disability Access and Improvement Plan. Response to Senator Sterle Request dated 4 May 2021

The following information is provided in response to Senator Sterle’s requests contained in his correspondence to the Department on 4 May 2021. This relates to information for Regional Development and Local Government. The response has been broken down into four components:

1. Program Overview and Funding (all data in \$’000’s unless specified)
2. COVID Relief and Recovery Fund - Initiatives
3. Project Listing and Summary (including Attachments A and B)
4. Local Roads Component of grants paid to each Council (including Attachment C)

1. Program Overview and Funding

This component of the Department’s response is addressing the following requests from Senator Sterle:

“Please provide detail on the funding by program that has been contractually committed, committed but not yet contracted, and any funding that has not yet been allocated”.

“I would also be grateful if you could provide detail on how funding is allocated by each program for each year over the Forward Estimates, how funding will be distributed (including whether any co-funding arrangements apply), and how recipients have been identified”.

Community Development Grants Programme (CDG)

The Community Development Grants Programme (CDG) provides funding for projects identified by the Australian Government, including 2013, 2016 and 2019 election commitments, as well as other government priority commitments.

Successive governments have delivered their election commitments through a specific program established for that purpose. The CDG Programme was established in 2013 to deliver the Australian Government’s election commitments and other identified projects for community or regional infrastructure. It is not a competitive grants program. Projects receiving a funding commitment under the CDG Programme are required to undergo a value-with-relevant-money assessment in accordance with published guidelines.

The program guidelines for CDG can be found at the following link:

<https://www.regional.gov.au/regional/programs/community-development-grants.aspx>

Program allocation profile over the life of the program is as below – data as at 31 March 2021.

Building Better Regions Fund (BBRF)

The Australian Government announced \$250 million in the 2021-22 Budget towards a sixth round of the Building Better Regions Fund (BBRF), bringing the total appropriation for this program to \$1.283 billion from 2017-18 to 2024-25.

The BBRF is an open, competitive grants program. BBRF applicants must be a local government body or incorporated not-for-profit organisation.

Round 5 is being delivered like the previous rounds; with Infrastructure Project and Community Investment streams. Under Round 5 there will be:

- \$100 million dedicated to supporting tourism-related infrastructure projects which are focussed on mitigating the economic impacts of the COVID-19 pandemic on a region's tourism industry; and
- The remaining \$100 million will support regional and remote Australia more broadly by funding general infrastructure and community investment projects.

BBRF Round 5 opened for applications on 12 January 2021 and closed on 12 March 2021. There were 1,083 applications received, which are currently under assessment.

The program guidelines for BBRF (rounds 1-5), including co-funding requirements, can be found at the following links - (there is a separate link for each of the Infrastructure Projects and Community Investment streams).

Regional Recovery Partnerships

On 30 September 2020, the Australian Government announced its commitment of \$100 million over two years from 2020-21 to fund the Regional Recovery Partnerships (Partnerships).

The Partnerships will support existing plans and priorities within the regions – seeking to invest in places and priorities other levels of government are also seeking to develop.

The 10 investment regions are: (NSW) the Snowy Mountains, Hunter and Newcastle, and Parkes Regions; (QLD) Cairns and Tropical North Queensland, Gladstone, and Mackay-Isaac-Whitsunday Regions; (TAS) all of Tasmania; (VIC) Gippsland Region; (SA) Kangaroo Island; (WA) South West Region.

A listing of the projects funded through the Partnerships to date is contained at **Attachment A**.

Drought Communities Programme (DCP)

The original DCP commenced in 2015, providing \$34.5 million over four years to 23 LGAs. Each LGA received \$1.5 million for local infrastructure initiatives that provided employment for people whose work opportunities had been impacted by drought. All projects were completed by 30 June 2019. Information regarding these projects can be found on GrantConnect at www.grants.gov.au.

Drought Communities Programme Extension (DCPE)

The Australian Government allocated \$301 million under the Drought Communities Programme (DCP) Extension, with \$297 million committed to support drought-affected agricultural regions and the remaining \$4 million returned to Consolidated Revenue.

Program guidelines provide for the Minister with responsibility for drought to approve Local Government Areas (LGAs) as eligible for the DCP Extension at any time, in consultation with the Prime Minister and Minister for Agriculture (where they are different).

Councils in 180 LGAs impacted by drought are being funded, with the last funding announcement made in January 2020. The program is now closed to new entrants and no further rounds are planned. Projects are to be completed and acquitted by 30 June 2022.

National Stronger Regions Fund (NSRF)

The National Stronger Regions Fund (NSRF) was established in 2014, to deliver priority infrastructure in Australia's regions.

Grants range from \$20,000 to \$10 million and require at least a 50 per cent co-contribution to eligible project expenditure.

The objective of the NSRF is to support economic growth and sustainability in Australia's regions, particularly disadvantaged regions.

The program guidelines for NSRF, including co-funding requirements, can be found at the following link:

- <https://www.regional.gov.au/regional/programs/national-stronger-regions-fund.aspx>

No further NSRF funding rounds have been conducted.

Regional Jobs and Investment Packages (RJIP)

RJIP was a 2016 election commitment of \$200 million for nine packages to support regional communities to diversify their economies and drive growth. The Australian Government approved a further \$20 million for the Latrobe Valley region as part of a package of Commonwealth assistance following the announcement of the closure of the Hazelwood power station, bringing the total to 10 pilot packages.

The program guidelines for RJIP, including co-funding requirements, can be found at the following link:

- <https://www.regional.gov.au/regional/programs/regional-jobs-investment-package.aspx>

The program opened to applications in May 2017. Program guidelines required the program to end on 30 June 2020.

Regional Deals – Barkly Regional Deal

The Barkly Regional Deal (the Deal), is a \$78.4 million commitment between the Australian Government, the Northern Territory (NT) Government and the Barkly Regional Council (BRC). The Deal was signed on 13 April 2019, with Commonwealth funding commencing from 1 July 2019.

The Deal details 28 economic, social and culture and place-making initiatives that are being delivered over a 10 year period to 2028-29 to address local priorities.

The Australian Government's \$45.4 million investment for the Deal will deliver local priorities identified through extensive community consultation. Funding was announced in the 2019-20 Budget and includes:

- a \$22.4 million measure from the 2019-20 Budget (including a \$8.5 million offset from the National Indigenous Australians Agency (NIAA) portfolio);
- \$7.6 million from the Building Better Regions Fund; and
- a \$15.4 million measure from the 2019-20 Budget to support the weather radar.

3. Detailed Project Listings

A summary of all projects announced under the Regional Recovery Partnerships is at **Attachment A**. Data is valid as at 14 May 2021.

A detailed project listing for all other regional programs is provided at **Attachment B**. Project data is at 31 March 2021, and includes projects which are:

- Active – includes projects which have commenced, and projects which have been announced but may not have yet commenced;
- Completed - projects which have been completed, including the project completion date where recorded.

BBRF has a number of completed projects where the completion date has not yet been provided by the DISER Grants Hub. There are also instances in other programs where the project completion date has not been recorded for every project.

Assumptions and additional information:

Not all requested data is either captured by the department, or captured in an easily reportable, reliable and consistent format.

- Package identifier is not relevant to regional programs.
- Commitment is not assigned on a project-by-project basis for regional programs.
- Total Project Cost is not recorded in a way that is able to be reliably reported and is not relevant for all projects/programs.
- Forecast expenditure has not been provided across the forward estimates. Individual projects are constantly subject to project variations, which can be caused by slippages due to external factors (e.g. COVID, bushfires and planning delays), as well as delays experienced by internal issues associated with the grantee themselves. Where projects are multi-stage or have multiple co-funding partners, changes to project expenditure can vary considerably over the life of the project.
- Project description is published on GrantConnect at www.grants.gov.au.
- Electoral Division information is not provided. This information is not relevant to the Department's assessment of projects and does not form part of the Department's advice to government for regional programs. Information relating to the grant recipient's location can be found on GrantConnect at www.grants.gov.au.

4. Local Roads Component of the Financial Assistance Grant paid to Councils

The Local Roads component of the Financial Assistance Grant paid to Councils is contained in **Attachment C** below. This table is based on the following principles:

- Financial allocations are for the 2020-21 financial year; and
- Allocations include the bring forward from 2021-22 to be paid to LGAs in June 2021.

LGA recommendations are only available for the current year or historically. LGA recommendations for the forward estimates are only determined at the beginning of each fiscal year by the State and Territory governments.

There are no estimates beyond 2024-25.

Where an amount is shown as "-", no funding is provided. Where an amount is shown as "0.0"m, a positive amount between \$1 and \$49,999 inclusive is provided.

Figures may not add precisely due to rounding.

Estimates provided in the 2021-22 Budget reflect estimated entitlements and will be finalised at 30 June 2021 with the Treasurer's Determination. The figures included in the amounts provided to councils represent cash payments for the current year (including the bring forward). Based on the Treasurer's Determination there will be an adjustment in 2021-22 to reflect the final entitlement for 2020-21.

Infrastructure Investment Program - Projects announced since 2018-19 Budget

Figures correct as at 2021-22 Budget

All figures are in \$ million and prepared on a cash basis. Funding profiles represent the current estimate of project start and end date, which is subject to further consultation with states, territories and local governments.

Table does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs, Maintenance projects, or unallocated lines (with the exception of Roads of Strategic Importance corridor funding).

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Other projects may have been amended since Budget. These changes will be reflected in the next Budget update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Information included in the Commitment column reflects the period when the project was first announced.

The package is expected to include the development of a corridor plan, and individual projects consistent with this plan that are prioritised and agreed between the Australian and ACT governments. Subject to planning outcomes, projects could include upgrades to the Tuggeranong Parkway (including between the Cotter Rd and Glenloch Interchange), improvements to intersections and feeder roads along the corridor (such as the Athlon Drive), or pavement rehabilitation along the Parkway. It will help address congestion areas identified by Infrastructure Australia, with parts of the Tuggeranong Parkway some of the busiest sections of road in the ACT (transporting about 40,000 vehicles a day). NSW	Mount Ousley Interchange	Investment Roads		2021-22 Budget	300.0	240.0	5.0	10.0	40.0	58.0	113.0	55.0	24.0	24.0	24.0	0.0	0.0	298.0	In Planning	This project involves the upgrade of the intersection of the Princes Motorway and Mount Ousley Road. The interchange will replace the existing intersection, which is a significant pinch point of the Motorway network, and currently experiences long queues and delays during peak periods. As the primary access point to Wollongong and Port Kembla, issues at this intersection also create significant flow-on effects across the transport network. This project will improve travel times, as well as access to the Wollongong central business district and the University of Wollongong. It will ensure safer access to and from the Motorway to Mount Ousley Road, and improve safety by separating cars and heavy vehicles travelling down Mount Ousley.	Cunningham

It will form part of broader upgrades to the 20 kilometre section of the highway between Jervis Bay Road and Sussex Inlet Road, which is predominantly an undivided road, one lane in each direction, with limited overtaking opportunities and significant increases in traffic volumes during peak tourist periods. This situation has resulted in a poor safety history - with 126 crashes, including five fatal crashes and 42 serious injury crashes, on this section of the highway between 2014 and 2018. These upgrades will provide a safer corridor for all transport users, and support increased capacity and traffic efficiency.	Gilmore

Infrastructure Investment Program - Projects announced since 2018-19 Budget

Figures correct as at 2021-22 Budget

All figures are in \$ million and prepared on a cash basis. Funding profiles represent the current estimate of project start and end date, which is subject to further consultation with states, territories and local governments.

Table does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs, Maintenance projects, or unallocated lines (with the exception of Roads of Strategic Importance corridor funding).

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Other projects may have been amended since Budget. These changes will be reflected in the next Budget update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Information included in the Commitment column reflects the period when the project was first announced.

Infrastructure Investment Program - Projects announced since 2018-19 Budget

Figures correct as at 2021-22 Budget

All figures are in \$ million and prepared on a cash basis. Funding profiles represent the current estimate of project start and end date, which is subject to further consultation with states, territories and local governments.

Table does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs, Maintenance projects, or unallocated lines (with the exception of Roads of Strategic Importance corridor funding).

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Other projects may have been amended since Budget. These changes will be reflected in the next Budget update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Information included in the Commitment column reflects the period when the project was first announced.

Infrastructure Investment Program - Projects announced since 2018-19 Budget

Figures correct as at 2021-22 Budget

All figures are in \$ million and prepared on a cash basis. Funding profiles represent the current estimate of project start and end date, which is subject to further consultation with states, territories and local governments.

Table does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs, Maintenance projects, or unallocated lines (with the exception of Roads of Strategic Importance corridor funding).

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Other projects may have been amended since Budget. These changes will be reflected in the next Budget update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Information included in the Commitment column reflects the period when the project was first announced.

Infrastructure Investment Program - Projects announced since 2018-19 Budget

Figures correct as at 2021-22 Budget

All figures are in \$ million and prepared on a cash basis. Funding profiles represent the current estimate of project start and end date, which is subject to further consultation with states, territories and local governments.

Table does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs, Maintenance projects, or unallocated lines (with the exception of Roads of Strategic Importance corridor funding).

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Other projects may have been amended since Budget. These changes will be reflected in the next Budget update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Information included in the Commitment column reflects the period when the project was first announced.

Infrastructure Investment Program - Projects announced since 2018-19 Budget

Figures correct as at 2021-22 Budget

All figures are in \$ million and prepared on a cash basis. Funding profiles represent the current estimate of project start and end date, which is subject to further consultation with states, territories and local governments.

Table does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs, Maintenance projects, or unallocated lines (with the exception of Roads of Strategic Importance corridor funding).

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Other projects may have been amended since Budget. These changes will be reflected in the next Budget update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Information included in the Commitment column reflects the period when the project was first announced.

Infrastructure Investment Program - Projects announced since 2018-19 Budget

Figures correct as at 2021-22 Budget

All figures are in \$ million and prepared on a cash basis. Funding profiles represent the current estimate of project start and end date, which is subject to further consultation with states, territories and local governments.

Table does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs, Maintenance projects, or unallocated lines (with the exception of Roads of Strategic Importance corridor funding).

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Other projects may have been amended since Budget. These changes will be reflected in the next Budget update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Information included in the Commitment column reflects the period when the project was first announced.

Infrastructure Investment Program - Projects announced since 2018-19 Budget

Figures correct as at 2021-22 Budget

All figures are in \$ million and prepared on a cash basis. Funding profiles represent the current estimate of project start and end date, which is subject to further consultation with states, territories and local governments.

Table does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs, Maintenance projects, or unallocated lines (with the exception of Roads of Strategic Importance corridor funding).

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Other projects may have been amended since Budget. These changes will be reflected in the next Budget update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Information included in the Commitment column reflects the period when the project was first announced.

Infrastructure Investment Program - Projects announced since 2018-19 Budget

Figures correct as at 2021-22 Budget

All figures are in \$ million and prepared on a cash basis. Funding profiles represent the current estimate of project start and end date, which is subject to further consultation with states, territories and local governments.

Table does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs, Maintenance projects, or unallocated lines (with the exception of Roads of Strategic Importance corridor funding).

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Other projects may have been amended since Budget. These changes will be reflected in the next Budget update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Information included in the Commitment column reflects the period when the project was first announced.

VIC	Melbourne Intermodal Terminal – Planning and Development	Investment Rail		2021-22 Budget	123.6	61.8	5.0	15.0	41.8	0.0	61.8	0.0	0.0	0.0	0.0	0.0	0.0	61.8	In Planning	A new intermodal terminal in Melbourne will increase efficiency and capacity of the national and Victorian freight industry by overcoming the constraints of the Dynon precinct and Melbourne's broader freight network. It will also enable and maximise the benefits of Inland Rail by ensuring that Melbourne's freight infrastructure has the capability to efficiently accommodate the Inland Rail service offering of double-stacked 1,800-metre trains and has the capacity to meet the increased rail freight generated by Inland Rail. The project will also create more liveable communities by addressing the conflicting land use between industrial and urban areas, and reducing the freight network's overall impact on the environment. This initial investment includes the option for equity and/or debt funding through an appropriate commercial model. The Australian and Victorian governments are jointly undertaking further planning, design development and delivery of a new Victorian Inland Rail Intermodal Terminal at two potential sites: one at Truganina and the other at Beveridge, as well as its connection to Inland Rail. A decision on the terminal location is subject to further negotiations between the Australian and Victorian governments.	Calwell, Fraser, Gellibrand, Gorton, Maribymong, McEwen, Wills

Infrastructure Investment Program - Projects announced since 2018-19 Budget

Figures correct as at 2021-22 Budget

All figures are in \$ million and prepared on a cash basis. Funding profiles represent the current estimate of project start and end date, which is subject to further consultation with states, territories and local governments.

Table does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs, Maintenance projects, or unallocated lines (with the exception of Roads of Strategic Importance corridor funding).

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Other projects may have been amended since Budget. These changes will be reflected in the next Budget update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Information included in the Commitment column reflects the period when the project was first announced.

It will have an operational throughput capacity of approximately 170,000 to 200,000 twenty-foot equivalent units of shipping containers annually. Whilst the design is still to be finalised, the development is intended to comprise approximately 5 hectares of full container rated hardstand, 900m of train frontage standing room with contingent land for a second rail track, and associated facilities such as dedicated heavy vehicle access to and from the facility, refrigerated container racks, and fire suppression and emergency services infrastructure. The investment will enable a reduction of on-road heavy vehicle movements and associated road congestion by supporting movement of freight by rail within the Perth metropolitan area.	Hasluck

Infrastructure Investment Program - Projects announced since 2018-19 Budget

Figures correct as at 2021-22 Budget

All figures are in \$ million and prepared on a cash basis. Funding profiles represent the current estimate of project start and end date, which is subject to further consultation with states, territories and local governments.

Table does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs, Maintenance projects, or unallocated lines (with the exception of Roads of Strategic Importance corridor funding).

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Other projects may have been amended since Budget. These changes will be reflected in the next Budget update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

Information included in the Commitment column reflects the period when the project was first announced.

Eligible proponents - State, Territory or Local Government Entities

Caveat 1: Construction Start Date and End Dates are based on the most recent advice by the Proponent.

Caveat 2: Projects announced for funding under HVSP Round 7 are available at

https://investment.infrastructure.gov.au/files/heavy_vehicle_safety_and_productivity_programme/HVSP_Round_Seven_Sept20.pdfhttps://investment.infrastructure.gov.au/files/heavy_vehicle_safety_and_productivity_programme/HVSP_Round_Seven_Sept20.pdf

Details of projects in these rounds will appear on this table once all projects are approved.

Program Objectives:

The Heavy Vehicle Safety and Productivity Program funds infrastructure projects that improve the productivity and safety outcomes of heavy vehicle operations across Australia.

Eligible projects include rest Areas, parking/decoupling bays, technology trials, road enhancements, livestock vehicle effluent collection and treatment facilities.

New project selection:

• Applications initially undergo a four stage process within the Department: eligibility assessment, merits assessment, input from states and territory road authorities and a quality assurance.

• The Departmental process identifies proposals which are eligible and value for Australian Government money. Only eligible proposals are recommended to the Deputy Prime Minister for funding.

• Projects found to represent value for Australian Government funding and located within the Deputy Prime Minister's Electorate of Riverina are excluded from the list of projects provided to his Office for his approval. Rather, these projects are provided to another Minister within the Infrastructure Portfolio.

"Black Spot Program As at 21 May 2021"

Eligible proponents - State, Territory or Local Government Entities.

Caveat: Construction Start Date and End Dates are based on the most recent advice by the Proponent.

Program Objectives:

The Black Spot Program provides up to \$2 million per project in Australian Government funding for the treatment of road locations where crashes are occurring or at risk of occurring.

Eligible projects include traffic signals, roundabouts, turning lanes, safety barriers and lighting.

New project selection:

- Nominations for Black Spot locations are invited from state and territory governments, local councils, community groups and associations, road user groups, industry and individuals.
- On receipt of a completed Black Spot nomination form, the relevant state and territory transport agency will examine the nominated site's eligibility.
- Eligible projects are then assessed by a Consultative Panel. Each state and territory have a Consultative Panel. The Panels consists of representatives drawn from community and road user groups, industry, Australian and local government, and state road and transport agencies.
- Only projects that have been recommended for funding by a Consultative Panel are provided to the Deputy Prime Minister for funding approval.

Details of projects in these rounds will appear on this table once all projects are approved.

Program Objectives:

The Bridges Renewal Program funds the upgrade and replacement of bridges to enhance access for local communities and facilitate higher productivity vehicle access.

Eligible projects include bridge replacements, bridge upgrade proposals, new bridges replacing an existing water crossing.

New project selection:

- Applications initially undergo a four stage process within the Department: eligibility assessment, merits assessment, input from states and territory road authorities and a quality assurance.
- The Departmental process identifies proposals which are eligible and value for Australian Government money. Only eligible proposals are recommended to the Deputy Prime Minister for funding.
- Projects found to represent value for Australian Government funding and located within the Deputy Prime Minister's Electorate of Riverina are excluded from the list of projects provided to his Office for his approval. Rather, these projects are provided to another Minister within the Infrastructure Portfolio.
