Infrastructure Investment Program - Projects announced since 2018-19 Budget

Figures and project status correct as at 2022-2023 Budget

All figures are in \$ million and prepared on a cash basis. Funding profiles represent the current estimate of project start and end date, which is subject to further consultation with states, territories and local governments.

Table does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs, Maintenance projects, or unallocated lines (with the exception of Roads of Strategic Importance corridor funding).

Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.

Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Other projects may have been amended since Budget. These changes will be reflected in the next Budget update.

Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

ACT	Athllon Drive Duplication	Investment Roads		2022-23 Budget	93.3	46.7	50	0.0	0.0	10.0	12.2	22.2	44.3	2.3	0.0	0.0	0.0	0.0	0.0	2.3	In Planning	This project will involve the detailed design and duplication of Athllon Drive, between Hindmarsh Drive and Melrose Drive, and between Sulwood Drive and Drakeford Drive. This project will complete the full duplication of Athllon Drive, one of the main north-south arterial roads in Canberra. It will reduce congestion and improve travel times for in excess of 14,000 vehicles that use this road per day, including rapid bus services and nearly 2,000 vehicles per hour in the peak periods. It will also improve safety and address the crash history on this road - with the number of rear-end collisions as a result of the congestion in the corridor.	Bean

The positive commercial growth of the area has attracted higher traffic volumes through the area, resulting in a greater demand for parking and road improvements. These upgrades will improve safety, connectivity and reduce congestion for all road users.	Canberra

The package is expected to include the development of a corridor plan, and individual projects consistent with this plan that are prioritised and agreed between the Australian and ACT governments. Subject to planning outcomes, projects could include upgrades to the Tuggeranong Parkway (including between the Cotter Rd and Glenloch Interchange), improvements to intersections and feeder roads along the corridor (such as the Athllon Drive), or pavement rehabilitation along the Tuggeranong Parkway. It will help address congestion areas identified by Infrastructure Australia, with parts of the Tuggeranong Parkway some of the busiest sections of road in the ACT (transporting about 40,000 vehicles a day). ACT	Kent Street and Novar Street Intersection Upgrades	Investment Roads		2022-23 Budget	6.6	2.8	42	0.0	1.0	1.5	0.3	0.0	2.8	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	In Planning	This project will deliver upgrades to three intersections along Kent Street and Novar Street in Deakin. This includes the signalisation and road upgrades to the following intersections: - Kent Street, Dudley Street, Novar Street and Adelaide Avenue on-ramp; - Kent Street and Adelaide Avenue off-ramp; and - Kent Street and Denison Street. TCCS have identified that improvements on Dudley Street would help alleviate impacts of increased traffic at the Kent/Dudley Streets roundabout. A feasibility study found that in order to add traffic signals to this intersection, two adjacent intersections would also need to have traffic signals added. The efficiency of the signalling system will improve the safety, reliability and efficiency of both the rail and road networks. The upgrade to the Seaford line signals will potentially remove or reduce speed restrictions for trains and automate an at grade pedestrian crossing. This will reduce road closure times and increase the efficiency of the rail operations. This improvement will have a direct improvement at the Hove Level Crossing where rail closure times have already being identified as contributing to road congestion. Implementation works to commence Mid 2022 and be completed mid-2024. Total Project Costs are expected to be \$10 million under a 50:50 arrangement.	Adelaide, Boothby, Hindmarsh

It will also enable and maximise the benefits of Inland Rail by ensuring that Melbourne's freight infrastructure has the capability to efficiently accommodate the Inland Rail service offering of double-stacked 1,800-metre trains and has the capacity to meet the increased rail freight generated by Inland Rail. The project will also create more liveable communities by addressing the conflicting land use between industrial and urban areas, and reducing the freight network's overall impact on the environment. This initial investment includes the option for equity and/or debt funding through an appropriate commercial model. The Australian and Victorian governments are jointly undertaking further planning, design development and delivery of a new Victorian Inland Rail Intermodal Terminal at two potential sites: one at Truganina and the other at Beveridge, as well as its connection to Inland Rail. A decision on the terminal location is subject to further negotiations between the Australian and Victorian governments.	Calwell, Fraser, Gellibrand, Loral, Maribyrnong, McEwen, Wills

The 6 metre wide bridge will provide safe, high-quality infrastructure and encourage more people to ride and walk to and from the city. The Causeway Bridge is one of the busiest connections into the city. It provides an important traffic, walking and bike riding connection between the CBD and East Perth, Heirisson Island and the south-eastern suburbs. The route also links two of the most popular recreational shared paths on the river's north and south foreshores. The existing shared path along the Causeway is no longer meeting the needs of users. The information in this report is based on information reported to the Department as at the time listed on the front of the report. Information is supplied to the Department by partner agencies or Deal partners.

The information contained in this report is correct as at 28 February 2022.

All figures are in \$million.

Some projects may have been amended since Budget and/or may involve funds that are under consideration for movement between financial years. These changes will be reflected in the next update.

Status of Commitments are classified as:

- **Future Project** – the commitment is not planned to commence until some future date.
- **Pre-Planning** – the commitment's planning work has commenced.
- **On Time** – the commitment is running to schedule, including ongoing commitments
- **Completed** – the commitment is complete.
- **On Hold** – the commitment is pending next steps.
- **Discontinued** – the commitment is no longer part of the City Deal.
- **Behind** – the commitment is running behind schedule.
- **Issue** – the commitment has an issue that is preventing progress or completion.

Funding profiles are based on the Department's best estimates reflecting current negotiations with project proponents, and may be subject to change.

Start dates showing July may commence at any time during that financial year.

End dates showing June are expected to be completed during that financial year.

Abbreviations used:

- U/N - under negotiation
- N/A - not applicable

3. Detailed Project Listings

A summary of all projects announced under the Regional Recovery Partnerships is at **Attachment A**. Data is valid as at 31 January 2022.

A detailed project listing for all other regional programs is provided at **Attachment B**. Project data is at 31 January 2022, and includes projects which are:

- Active – includes projects which have commenced, and projects which have been announced but may not have yet commenced;
- Completed - projects which have been completed, including the project completion date where recorded.

BBRF has a number of completed projects where the completion date has not yet been provided by the DISER Grants Hub. There are also instances in other programs where the project completion date has not been recorded for every project.

Assumptions and additional information:

Not all requested data is either captured by the Department, or captured in an easily reportable, reliable and consistent format.

- Package identifier is not relevant to regional programs.
- Commitment is not assigned on a project-by-project basis for regional programs.
- Total Project Cost is not recorded in a way that is able to be reliably reported and is not relevant for all projects/programs.
- Forecast expenditure has not been provided across the forward estimates. Individual projects are constantly subject to project variations, which can be caused by slippages due to external factors (e.g. COVID, bushfires and planning delays), as well as delays experienced by internal issues associated with the grantee themselves. Where projects are multi-stage or have multiple co-funding partners, changes to project expenditure can vary considerably over the life of the project.
- Project description is published on GrantConnect at www.grants.gov.au.
- Electoral Division information is not provided. This information is not relevant to the Department's assessment of projects and does not form part of the Department's advice to government for regional programs. Information relating to the grant recipient's location can be found on GrantConnect at www.grants.gov.au.

4. Local Roads Component of the Financial Assistance Grant paid to Councils

The Local Roads component of the Financial Assistance Grant paid to Councils is contained in **Attachment C**. This table is based on the following principles:

- Financial allocations represent actual cash payments made to councils for the 2020-21 financial year; and
- Allocations in 2021-22 represent cash payments to be made in 2021-22.
- Payment are made to councils in four equal quarterly instalments – August, November, February and May.
- Cash payments in 2020-21 include an advance from 2021-22 that was paid to LGAs on 7 June 2021.

LGA recommendations are only available for the current year or historically. LGA recommendations for the forward estimates are only determined at the beginning of each fiscal year by the state and territory governments.

There are no estimates beyond 2025-26.

Where an amount is shown as "-", no funding is provided. Where an amount is shown as "0.0", a positive amount between \$1 and \$49,999 inclusive is provided.

Figures may not add precisely due to rounding.

NSW	Bega Valley Shire Council	1	Community	Renewal of the Berrambool footbridge and construction of an off road connecting path	Berrambool sporting complex is one of Council's major sporting facilities and is currently disconnected from the CBD via any means of continual active transport options. There is currently a carpark, skate park clubhouse and a small footpath network within the sporting facility. There is a footbridge over the creek that is in desperate need for renewal but not connected to a path network. The bridge was built by community volunteers many years ago and is a warranted piece of infrastructure that needs to be renewed. By extending the path network from the existing path along the service lane to the existing path at the Berrambool Sporting complex we will be closing a vital missing link in our active transport network. NSW	Bogan Shire Council	1	Community	Swimming Pool - Water Slide	Nyngan in western NSW has long hot summers, and like many rural and regional towns there is a lack of recreational options for children and youth. Bogan Shire Council would like to install a slide at the pool to enhance the experience for children and youth and to encourage them outside during the summer. Council installed the stage 1 of a water splash play at the pool in 2019 to cater for very small children to make the pool attractive to young families. This project will comprise stage 2 of that with the purchase and installation of four aquatic water play features which can be attached to existing fittings.	Jan-21	Jul-21	\$200,000.00	\$200,000.00
NSW	Bogan Shire Council	1	Community	Netball Oval - Sealing	Nyngan has no all-weather netball courts which rules it out of hosting competitive games. The five grass courts in town were recently improved with lighting to enable weeknight competition, but the grass surface is slippery in winter, and requires constant maintenance and line marking. Netball is a popular sport in Nyngan, but with no suitable facilities for local competition, the teams must travel 160km to Dubbo to compete.	Mar-21	May-21	\$111,253.00	\$111,253.00
NSW	Bogan Shire Council	1	Community	Upper Bogan River Development	The upper weir area is a popular location for fishing, birdwatching, walking and camping. The site is undeveloped with no amenities. It requires tidying up the existing overgrown vegetation and repairs to the gravel access road. The installation of a toilet block, picnic table, seats, garbage bins and a bird watching platform will make the destination a more attractive and hygienic place for residents and visitors. It will also provide a free of charge option for recreation close to the township.	Feb-21	Nov-21	\$100,000.00	\$100,000.00

NSW	Bogan Shire Council	1	Community	Lower Bogan River Development	Although the Bogan River flows through Nyngan it has not been recognised by previous town planners as a feature for tourists and residents. In recent years Bogan Shire Council has been gradually developing this area, building a pontoon and a pathway. It has been well received and is a popular exercise and meeting area. Council would like to further develop this area to provide more alternatives for recreation and leisure and to capitalise on the Bogan River. It would also add a new tourism opportunity to the Shire. NSW	Bogan Shire Council	1	Community	Frank Smith Oval - Upgrades	Frank Smith Oval is used for senior and junior cricket and touch football in summer and soccer in winter. The main pitch does not have a boundary fence which means for cricket a boundary has to be made from rope or poly pipe before the games. There is currently no all weather shelter at the oval which means players and spectators must sit in their cars or gather under trees in the typically hot summer. There are no existing cricket sight screens on the oval. There is currently no designated pathway through the scrub between the oval and the nearby Dandaloo Street. An all weather designated path will be used as a regular walking track as well as an access route.	Feb-21	Nov-21	\$101,332.00	\$101,332.00

NSW	Dubbo Regional Council	1	Community	Dubbo Aquatic Leisure Centre - Upgrades	The Dubbo Aquatic Leisure Centre (DALC) is a well-loved community recreation facility, however it is aging facility and is in need of an upgrade. Recent audits of the Centre's security, lighting and pump room facilities, as well as a number of security breaches that have occurred have highlighted major deficiencies in the safety and security of the site. As previous upgrades have been completed in an ad-hoc manner, parts of the existing lighting and security infrastructure are obsolete and do not meet current environmental standards. Lighting: A December 2020 audit of lighting at the DALC highlighted a safety concern for after-hours use of the Centre. At least half of the current floodlights are inoperative and there is no lighting directed at the public car park, staff car park, splash park or waterslide. NSW	Gilgandra Shire Council	1	Road	Undertaking erosion restoration works, including batter and bed scour protection which will improve stability of the area. This project supports stabilisation of Biddon Creek banks, contributing to natural resource management outcomes. Public safety outcomes will also be achieved through stabilisation of the eroded area, which is encroaching on the power lines located in close proximity to Biddon Creek. The project is in addition to Council's existing work schedule for 2020/21. The proposed expenditure items under the LRCI funding include labour costs and material to complete the works, which are all eligible expenditure items.	Biddon Creek at Biddon is a location where heavy rainfall and flood events cause significant damage to the creek channel. Stabilisation of the area will reduce the potential for recurrent erosion issues to occur. A number of powerlines in close proximity to the creek are also at risk of falling over, creating a safety concern.	Apr-21	Jun-21	\$150,717.00	\$150,717.00

NSW	Gilgandra Shire Council	1	Road	The project involves construction of a concrete causeway over the existing culvert on Dooroombah Road which will support improved road safety outcomes. The proposed works are in addition to Council's existing work plan for 2020/21. This project supports improved road safety outcomes through improved access for road users on an existing unsealed road. Expenditure items under the LRCI funding include labour costs and material to deliver the works which are all eligible expenditure items.	Dooroombah Road is currently unsealed and is impacted during periods of heavy rainfall and prolonged wet weather. The existing culvert is continually being washed away, preventing access for road users. Construction of concrete causeway over the culvert will improve stability of the area, along with improving accessibility, conditions and overall safety for road users.	Apr-21	Jun-21	\$90,000.00	\$90,000.00
NSW	Gilgandra Shire Council	1	Community	The project will deliver Stage 2 upgrades to the Armatree War Memorial Precinct within the Armatree Village. The proposed upgrades include soft landscaping, signage board and lighting at the Big Armatree sculpture, along with pathways linking the key elements within the Precinct. The proposed works are in addition to 2020/21 work plans. Expenditure items under the LRCI funding include labour costs, materials to construct the walkway, establish landscaping, installation of lighting and interpretive signage board which are all eligible expenditure items.	Armatree is a small village located approximately 5km off the Castlereagh Highway, north of Gilgandra. Stage 1 of the upgrades to the War Memorial precinct are nearing completion, which includes development of History Boards and the Big Armatree Sculpture in close proximity to the existing War Memorial. LRCI funding will be used to deliver Stage 2 which addresses the lack of wayfinding signage and connectivity between the precinct elements, ultimately creating a circuit for visitors to engage with and learn about the village and district's history. Community safety and sense of place will also be enhanced through improved lighting and soft landscaping features.	Feb-21	Jun-21	\$72,727.00	\$72,727.00

NSW	Gilgandra Shire Council	1	Road	The project involves extending the sealed section to the floodway over Gundy's Creek crossing. The proposed works are in addition to Council's existing work plan for 2020/21. This project supports improved road safety outcomes through improved access for road users during times of wet weather. Expenditure items under the LRCI funding include labour costs and material to deliver the works which are all eligible expenditure items.	Tooraweenah-Mendooran Road is currently unsealed and is impacted during periods of heavy rainfall and prolonged wet weather. Extension of the sealed section to the floodway will prevent longitudinal erosion of the road which is currently occurring in the location and improve stability of the area. Accessibility and overall road condition in the area will also be improved for road users, contributing to overall safety outcomes.	Apr-21	Jun-21	\$60,000.00	\$60,000.00
NSW	Gilgandra Shire Council	1	Road	The project involves construction of a retaining wall at the existing culvert located on the overflow channel at Paddys Creek. This project supports improved road safety outcomes through enhanced stability of the area and road edges. The proposed works are in addition to Council's 2020/21 work plan. Expenditure items under the LRCI funding include labour costs and material to deliver the works which are all eligible expenditure items.	The existing culvert area is regularly washed out during periods of heavy rainfall, impacting the stability of the area, and the ability for landholders to move farm machinery across it. Construction of the retaining wall will improve drainage and stability of the area, along with improving usability and safety for road users.	Apr-21	Jun-21	\$25,000.00	\$25,000.00
NSW	Gilgandra Shire Council	1	Road	The project involves construction of an approach slab to Milpulling Creek to improve stability of the area. The project supports improved road safety outcomes through enhanced access and improved conditions for road users. The proposed works are in addition to Council's 2020/21 work plan. Expenditure items under the LRCI funding include labour costs and material to deliver the works which are all eligible expenditure items.	The existing causeway over the culvert is being eroded, impacting on the stability of the area and creating a traffic hazard. Construction of the approach slab will improve stability of the area, along with improving accessibility, conditions and overall safety for road users.	Apr-21	Jun-21	\$30,000.00	\$30,000.00

NSW	Lake Macquarie City Council	2	Road	The Weir, Barnsley – replacement bridge Weir Road, Barnsley. Bridge works	The existing Weir Road crossing over Cockle Creek is a single lane, two-way concrete causeway constructed in the 1920's. Barnsley Weir is closed to all traffic and freight vehicles during moderate rainfall events. The alternative route of 13.5km includes a number of signalised intersections and adds considerable travel time and costs to residents and businesses. The proposal is to construct a new bridge to address safety issues regarding the approach on both sides of the creek to the bridge. This plan will provide increased safety and ability for residents to use Weir Road to travel between local centres. The project will improve freight routes in the west of Lake Macquarie, supporting local jobs and underpinning economic growth. It will also enable all in the community to reach their destination safer and sooner.	Jul-21	Dec-21	\$8,600,000.00	\$2,730,744.00

NSW	Moree Plains Shire Council	3	Community	Bank Art Museum Moree (BAMM) 25 Frome Street, Moree, NSW – Improve access and upgrade climate control.	Improvement to Community facility BAMM is located in a century old building with non-compliant access representing a barrier to the less mobile in our community. The climate control in the Museum does not meet modern standards to protect art. The sub-standard climate management also inhibits access to touring art collections. Moree community has less equitable access to collections available to larger centres with appropriate climate control. Improve access and equity for community members and visitors with mobility restrictions. Upgrade climate control in the building to maintain the condition of the existing collection and enable visiting collections that require a higher standard of climate control. NSW	Orange City Council	1	Road	Extension of Southern Feeder Road in Orange NSW from Anson Street to Pinnacle Road. The construction of the Civil Works component of a 2km section of the Orange Southern Feeder road between Anson Street and Pinnacle Road. The completion of this section will compliment works already completed on stages 1 and 2 of the overall Southern Feeder road route. Some grant funding has been allocated from Restart NSW however civil construction works have been on-hold pending the sourcing of additional co contributions.	The Southern Feeder Road Stage 4 (Anson St to Pinnacle Rd) serves as a southern city bypass route that links the Northern Distributor Road and forms a ring road around the City of Orange. The road serves a newly created suburb called Shiralee but its main benefit is in reducing the time travelled going through Orange.	Feb-21	Sep-21	\$14,560,000.00	\$720,809.00
NSW	Orange City Council	2	Road	Southern Feeder Road Stage 4 - Roundabout	Installation of Roundabout and associated Infrastructure within the Southern Feeder Stage 4 and Stage 5 Project.	Dec-21	Jun-22	\$14,530,696.00	\$1,596,422.00
NSW	Parkes Shire Council	1	Community	Woodward Oval Parkes - tennis courts upgrade	All courts now require resurfacing, 6 of them urgently (according to advice from Tennis NSW). Project will provide a safe and fit-for-purpose facility for the local community and visiting players during regional tournaments, sporting and school events, social tennis and local competitions - supporting more than 1000 players. The courts are now too dangerous to use and some have needed to be closed.	Feb-21	Jun-21	\$245,000.00	\$175,000.00
NSW	Parkes Shire Council	1	Community	Spicer Oval Parkes - new lighting	Spicer Oval is currently without any lighting and is unable to host any training at site for rugby in winter or cricket in summer. NSW	Parkes Shire Council	1	Community	Cooke Park - Improvements	Cooke Park is Parkes' premium event Park. One of the challenges that we face during events is if there has been rain the Park can be very wet and we have had to bring in bark chip in the past to allow events to go ahead. Improving the storm water drainage across the park will help alleviate the problem. Additionally the irrigation system in the park is nearly 20 years old, the aging infrastructure is prone to leaks and breakages and is not as water efficient as it could be. Additionally Council is constructing a new Multipurpose stage facility in the Park which will create the opportunity for water to be captured off the roof and reused in the Park. It is timely that Council upgrades the irrigation system to minimise water usage in the park and allow for the preparation of events in the Park (including the Parkes Elvis Festival) but also help with the recovery of the park after events. NSW	Parkes Shire Council	1	Community	Parkes CBD smart pole banners	The traditional banner systems which Council has installed on existing lighting poles in other sections of the street, requires the procurement of a suitably qualified contractor to undertake the changing of the banners each time a new event or campaign is in market. This includes time and cost in the development of traffic management plans, safe work method statements, machinery hire and staff time in terms of procurement and supervision. Because of these time and cost factors (up to \$10,000 annually), along with disruption to commerce on the main street during changeover, Council can only change these promotional banners twice a year. NSW	Parkes Shire Council	1	Community	Alectown Cemetery - fencing, memorial wall and seating	There is no current 'fit for purpose' space in which cremated remains can be interred. Meaning that people who choose cremation over burial are unable to be interred within their own community but rather at either the Peak Hill cemetery (to the north) or the Parkes cemetery to the south. The erection of a fence and Memorial Wall will alleviate both issues	Sep-21	Mar-21	\$30,000.00	\$30,000.00
NSW	Parkes Shire Council	1	Community	Henry Parkes Centre repairs	There are a number of areas within the Motor Museum where a gap exists between the wall and the roof. As a result unwanted debris (eg dust and leaf litter) blows into the facility, settling on the vehicles on display and onto the floor. Additionally, there is no a/c in the Motor Museum which, given the extremes of temperature experienced at its location, does nothing to enhance the visitor experience. NSW	Port Stephens Council	1	Road	School Drive - Rehabilitation	The existing pavement servicing School Drive has reached the end of its useful life. It is now subject to significant failures including major cracking, rutting, edge break and potholes. Much of this is due to the large percentage of heavy vehicle traffic that frequent the industrial area where this road is located. However, the poor pavement strength, in combination with the poor drainage, further add to the problem. By overlaying the road and reshaping the table drains the road will continue to service adjoining businesses and other road users for many years to come.	Nov-20	Jun-22	\$428,679.00	\$300,527.00

NSW	Singleton Council	2	Community	Civic Administration Building Roof Replacement	Replacement of the roof sheeting, gutters and downpipes on Council administration building, along with investigation of the structural capacity of the existing roof structure to support the future installation of solar panels. The Civic Administration Building was built in 1983. The original roof structure is still in place and has deteriorated due to its age. Recently there have been significant and continual incidents of water ingress during storm events resulting in damage to the ceiling and disruption to Council staff. In addition, Council wishes to pursue renewable energy options to reduce Councils carbon footprint and improve future sustainability. The installation of solar panels onto the administration building roof is currently being investigated.	Aug-21	Nov-21	\$450,772.00	\$450,772.00

NSW	Singleton Council	2	Community	Townhead Park Amenities Replacement	Council adopted the Townhead Park Masterplan in October 2018, which provides a vision for the long-term development and management of the Park. As a response to community feedback during the exhibition of the Masterplan, it was proposed that the existing public toilets in Townhead Park would be replaced with new toilets. The project entails the demolition of the existing public toilet block located in Townhead park and the construction of new accessible facilities. The existing toilets do not meet current accessibility guidelines, are dated and are not in keeping with the surrounding structures and the high profile nature of the site, being the gateway to the town and a rest stop for visitors	Dec-21	Feb-22	\$270,000.00	\$270,000.00
NSW	Singleton Council	2	Community	OOSH Building Roof Replacement	The roof sheeting on the OOSH building is to be replaced and improvements be made to the roof structure to prevent ongoing issues. Council's Out of School Hours (OOSH) Building is currently utilised by Hunter Prelude and Singleton Council's OOSH services. The building was constructed in 1984 and is now 36 years old. The original roof structure is still in place and has deteriorated due to its age. In addition, the roof was originally constructed with a low pitch and building extension works have been undertaken, both have impacted on the capacity of the roof to effectively discharge stormwater. As a result there have been significant and continual incidents of water ingress during storm events resulting in damage to the ceiling, flooring and walls and disruption to staff. NSW	Strathfield Municipal Council	2	Community	Amenities and Community Building , Strathfield Park. Homebush Road, Strathfield. Toilet facilities	Community – Toilet facilities Council has invested heavily in development of this park and as a result, patronage has increased significantly. A key feature of the park is the Children’s playground which attracts children and families from the local and inner western Sydney area. Toilets are distant from this area and the need for these creates significant challenges for visitors. Council wishes to support the park users by providing these facilities and including a sheltered area for users.	Mar-21	Feb-22	\$650,000.00	\$550,000.00
NSW	Strathfield Municipal Council	2	Community	Fragrant Garden Strathfield District Park Mitchell Street, Strathfield	Community – Landscaping Improvements Community Infrastructure – other The Strathfield District Park is an area that was formerly a golf course and is being converted to meet the active and passive recreational needs of residents and visitors from surrounding areas. The Park is surrounded by medium and high density housing. To date, the community needs for active recreation are being met through walking and bicycle routes through the park, extensive parkland areas that allow for personal exercise and “workouts” and it is planned that in the future, there will be a number of hard courts constructed for mainly ball sports. The park also adjoins Council’s Golf Driving range that is constantly patronised. In terms of areas for passive recreation such as family gatherings there are extensive lawn and BBQ areas, a feature lake and currently under construction with Federal funding support is an amenities facility that will allow for	Aug-21	Feb-22	\$807,275.00	\$807,275.00

NSW	Strathfield Municipal Council	3	Combination	Connecting Tunnel under Centenary Drive, Arthur Street, Strathfield	The Hudson District Park was formerly a golf course with sections of the park both east and west of Centenary Drive, Strathfield. The eastern section is a land area of 14.1 hectares and is under recreational development at this time. The western section will provide an additional 2 hectares of recreational space that will be a Turpentine Forest setting. The intersecting roadway between the east and west precincts is a major transport link for Sydney and a very daunting situation for any one attempting to cross this roadway, even when they do use traffic light controls. For anyone wishing to move between the two precincts, this barrier creates a clear barrier. In the past, when this was a golf course, a tunnel under the roadway was constructed. It is 40m long, 2.1 m wide and 1.88 m wide. It is in a state of disrepair and is not fit for general public use (uninviting, dark and major drainage issues) and is not accessible for all users. Council is attaching photos of the current tunnel.	Mar-22	Jan-23	\$500,000.00	\$371,216.00

NSW	Wingecarribee Shire Council	1	Community	Eridge Park Netball Courts	The courts are at the end of useful life and are in poor condition with significant cracking present. One court has been closed due to safety concerns, which has reduced Netball's playing courts and is impacting their members. Netball is the leading women's sport in the Southern Highlands comprising of over 420 females in the reduced 2020 competition. To continue another season on minimal court availability could see a downturn in membership and reduces the ability of Southern Highlands Netball Association (SHNA) to hold mini-carnivals that can bring players and monies to the local district. SHNA have part funding to complete the required court renewal through a mixture of grant funding and fundraising by the Association. They have appealed to Council to help fund the shortfall to successfully complete the court renewal immediately.	Dec-20	Feb-21	\$451,000.00	\$80,000.00

QLD	Croydon Shire Council	1	Community	Croydon Heritage Precinct - upgraded fencing	Croydon's renowned Heritage Precinct is a hot spot tourist attraction comprising of an original Court House, Town Hall, Police Residence and Police Station with Goal House. The buildings are maintained to preserve their historical accuracy and are complimented, at the eastern end, by a traditional white picket fence with working replica lamp posts and original sandstone kerbing. The rear area of the buildings, at the eastern end, are secured with high colour bond fencing which provides privacy for neighbouring residential buildings. Whilst the working replica lamp posts and original sandstone kerbing continues to the western end of the precinct the fence does not. The current western end fencing is dilapidated and does not compliment the existing eastern end fencing which supports the heritage look and feel of these beautiful old buildings, whilst ensuring privacy to the adjoining residences. QLD	Croydon Shire Council	1	Road	Intersection of the Croydon to Richmond Road and Gulf Developmental Road 92B road works	Significance and is 390kms in length, of this, 216 kilometres is located in Croydon Shire. The road is part of the inland road network linking cattle properties to major freight routes on the Landsborough and Flinders Highway and the Gulf Developmental Road, essentially connecting the Gulf of Carpentaria to the Southern Downs Region. Council is committed to the upgrade and maintenance of the Richmond Road and has been proactive in upgrading the road to a seal standard. The intersection of the Richmond Road and the Gulf Developmental Road 92B comprises of a single width (single lane) grid and poses a serious safety hazard to all road users. The upgrade of the grid to a double width (two lanes) at the intersection will improve traffic flow and significantly alleviate road safety issues associated with the current single lane grid. QLD	Gympie Regional Council	1	Road	Eel Creek Road	A combination of high speeds, high volume, heavy vehicles, narrow road seal width with unsealed shoulders contribute to the factors that cause issues along this section of Eel Creek Road. The existing road seal width is insufficient for two heavy vehicles to pass forcing vehicles to use the unsealed portion of the carriageway. These factors are amplified when road conditions are adverse e.g.. rain or heavy fog.	Apr-21	May-21	\$350,000.00	\$350,000.00
QLD	Gympie Regional Council	1	Road	Rocks Road (Pie Creek)	A combination of high speeds, substandard horizontal and vertical curves, inadequate sight distance, narrow road seal width with unsealed shoulders contribute to the factors that cause run off road crashes along this section of Rocks Road. The existing road seal width is insufficient for two cars to pass forcing vehicles to use the unsealed portion of the carriageway. These factors are amplified when road conditions are adverse e.g. rain or heavy fog. Additionally, there are sections where heavily vegetated areas are within the clear zone and also reduce visibility.	Mar-21	Jun-21	\$455,000.00	\$455,000.00
QLD	Gympie Regional Council	1	Community	Excelsior Road Footpath	The section of grassed verge experiences a high volume of foot traffic that goes between bus stop and local shopping centre, to the local Community Centre. A number of users are within motorized wheel chairs and experience issues with the current grassed verge (wet slippery grass, uneven ground). The path will complete a missing link and provide accessible connection along the eastern side of Excelsior Road. The route provides access to the Gympie Community Hub via Dent Lane. A local access advisory committee has previously raised the issue with Council.	Nov-20	Apr-21	\$17,491.00	\$17,491.00

QLD	Redland City Council	2	Community	FELLMONGER PARK PEDESTRIAN BRIDGE REPLACEMENT, ORMISTON	<p>Improved Accessibility of Community Facilities and Areas</p> <p>Fellmonger Park Ormiston has an existing pedestrian bridge structure which crosses Hilliards Creek and connect Hilliards Park Drive on the northern side of the creek to the southern side of Fellmonger Park and Sturgeon St. A 150mm high pressure water pipeline is suspended from the substructure of the bridge. The bridge is currently in pool condition and is requiring replacement due to Pile and Pier One which has subsided 150mm on the LHS. The bank supporting the Pier has eroded and the concrete footing is not supported. The Pier is mainly supported by Pile Two and connection bolts in the Headstock. There is potential for Pier One to drop further which may damage the water main connected to the underside of the deck.</p>	Aug-21	Dec-21	\$500,000.00	\$500,000.00

QLD	Redland City Council	2	Community	ANITA STREET PEDESTRIAN BRIDGE REPLACEMENT, REDLAND BAY	<p>Improved Accessibility of Community Facilities and Areas</p> <p>The eastern end of Anita Street connects to North Street Redland Bay via a 41.5m long pedestrian bridge structure which crosses Moogurrapum Creek. The bridge provides the only access across Moogurrapum Creek north of Boundary Street and as such provides an important link connecting the areas on the western and eastern sides of Moogurrapum Creek for pedestrians and cyclists.</p> <p>In January 2021, this bridge had a failure in a supporting beam. However, based on preliminary assessment, full replacement of this bridge at this point will be the most cost effective option for this bridge long term due to the external deterioration of bearers which will likely require extensive repair and replacement.</p>	Aug-21	Dec-21	\$800,000.00	\$800,000.00

QLD	Redland City Council	2	Community	GORGE WALK CRITICAL REPAIRS, NORTH STRADBROKE ISLAND	Improved Accessibility of Community Facilities and Areas The project is to undertake emergency repair works of The Gorge Walk located at Point Lookout, North Stradbroke Island which is accessed by the public and is a very popular tourist destination. The Gorge Walk is a large stretch of pathway that includes concrete pathways, timber boardwalk, handrails and stairs with key lookout points along the way. During an extensive rain event in March - April 2021 a section of the embankment washed away and undermined the structure, de-stabilising a section of the boardwalk. Council has undertaken a technical site condition report (including Geotechnical investigations) and have engaged a Contractor to undertake the repairs to the boardwalk, based on the specialist advice. The construction will replace the footings and make safe and reuse the existing timber of the boardwalk. The Project is to commence in October in	Oct-21	Dec-21	\$466,553.25	\$424,117.00
