QLD	Tablelands Regional Council	1	Road	Bridge Works	Investigation of the bridge in August 2021, recommended a 13.5T load limit and a 5km/h speed limit be imposed (previously 40T load limit), owing to rotten/split timber girders, and termite activity where the girders fix to the abutments. This means empty trucks can still access the quarry at very low speed, but the loaded trucks are not able to legally cross the bridge to exit the site. The 13.5T load limit effectively prohibits quarry cartage operations.	Nov-21	Dec-21	\$120,000.00	\$59,736.00

SA	City of Adelaide	1	Road	Road resurfacing of Chesser Street and pavement surfacing (DuraTherm) upon entrance to Coromandel Place	public roads that operate mainly in a one-way direction. Motorists enter Coromandel Place from Pirie Street, turn right onto French Street, right onto Chesser Street and exit out onto Pirie Street. The Grenfell Street end of both Coromandel Place and Chesser Street has bollards to prevent entering or exiting the precinct. These bollards are removable to allow for two-way vehicle movement under traffic control during special event road closures. This section operates under two-way conditions for motorists parking/unparking and those entering/exiting private property. All three streets have kerbs however the narrowness of these and bin placement forces pedestrians, etc. to use the road. On-street parking consists of 17 x Loading Zones as follows; <ul style="list-style-type: none"> • Coromandel Place consists of two spaces between Pirie and French Streets and five between French and Grenfell Streets, • There is one space on French Street, 	Nov-20	May-21	\$203,129.40	\$88,066.95

SA	City of Port Adelaide Enfield	3	Community	Barker Inlet Tidal Gates Upgrade	Drainage/Other/Improved accessibility to community facilities: The Barker Inlet Wetland receives stormwater from the approximately 50% of the City of Port Adelaide Enfield Council area as well as water from City of Charles Sturt, City of Prospect and City of Salisbury Councils. The wetlands are a crucial piece of infrastructure which provides habitat for flora and fauna, walking paths, bike paths and also provides stormwater flood storage. The tidal gates form an integral part of the sea wall between the Barker Inlet Wetlands and North Arm Creek and allow stormwater out and limit the ingress of seawater. Currently the tidal gates are in extremely poor working condition and require significant upgrade works. Due to the inability to operate the tidal gates the wetlands are currently holding an additional 300mm of water. This has meant that the Northern Connector shared use path and the internal walking paths are often under water and unable to be used. SA	City of Tea Tree Gully	1	Community	Lyons Reserve on Lyons Road – Irrigation The project will include the design, supply and installation of an fully automated overhead rotor sprinkler irrigation system.	The existing manual irrigation system has reached the end of its serviceable life. The reserve is unusable for its intended purpose in its current condition following the introduction of water restrictions in 2007. Watering of the reserve did not resume following the lifting of these restrictions primarily due to the condition of the watering system. SA	Corporation of The City of Unley	1	Community	<p>The project aims to re-activate three existing Council owned Cottages which interface with the Village Green, within the Civic Precinct. The Cottages are to be re-purposed to provide a greater range of business and innovation services to support the local community, and to better activate the central Village Green open space as well as re-establishing 'front gardens' to each of the cottages along Edmund Avenue. The scope of work involves the demolition of blank, aged lean-to's at the rear of each Cottage, with new contemporary extensions which re-orientate to look out onto the Village Green with new DDA access provide into the Cottages. The interface with the Village Green will be enhanced with a new public realm of paving, tree planting, garden beds and furniture to improve pedestrian accessibility, amenity and increased visibility / safety. However, the Precinct lacks a cohesive identity, legibility and a range of services that suit the contemporary needs of our residents. The existing historic cottages are tired, provide limited value to the local community and turn their back onto the surrounding Village Green. The Village Green is an open grassed area, which is underutilised and perceived to be inaccessible to most. Council in collaboration with community representatives, has developed a long term vision for the wider Civic Precinct which seeks to bring new life to the Cottages, to create new 'front door's onto the Village Green, and improve the accessibility, amenity and appeal of the Village Green for the local community.</p>	Jul-21	Jun-22	\$2,280,672.00	\$200,672.00

SA	District Council of Robe	3	Combination	Esplanade, Robe	Reconstruction/Off Road carparks/Traffic Improvement/ Improved Accessibility of Community Facilities and Areas: Existing carparks along the Esplanade are short, which means users are standing on the road when unloading and loading vehicles from the rear. This was identified as a risk in the 2020 traffic study. 50 Carparks are being deepened by encroaching 3m into the grass on the Long Beach park. A section of parallel parking is also being realigned to 10 90 degree parks to match the rest. Significant usability, safety improvements will be the result. Carparks can now also accommodate the length of a motorhome.	Jan-22	Mar-22	\$20,000.00	\$20,000.00
SA	District Council of Robe	3	Community	Cooper Street, Robe	Improved Accessibility of Community Facilities and Areas /Bicycle and Walking Paths/ Traffic improvement: Pedestrian access to the Robe Medical Center is not possible from the center of town along footpaths, or from most of the street parking that isn't immediately fronting the facility. A 55m section of block paved footpath along with pram ramps will be installed to provide safe access. Currently people, gophers and other assistance devices walk on the road. SA	District Council of Robe	3	Community	Town Beach - Lake Butler Marina, Robe	Bicycle and Walking Paths/ Improved Accessibility of Community Facilities and Areas/ Resealing: The Foreshore walks in Robe are very popular. At the town beach the existing old and dilapidated path does not reach the main street and public toilets, meaning people who need wheels, or a smooth walking surface can access these areas. A new section of path will be built where it is required (65m) and the old path will be resealed from the new section all the way from the foreshore to Marina entrance (412m) & Marina entrance to Arthur Fennell Way boardwalk (300m) and a (32m) new path from Arthur Fennell Way to boat ramp carpark. These works align with our Disability Access and Inclusion Plan 2020	Jun-22	Sep-22	\$73,000.00	\$73,000.00
SA	District Council of Robe	3	Community	Seafarers Crescent, Robe	Sealing/Bicycle and Walking Paths/ Improved Accessibility of Community Facilities and Areas/ Street lighting equipment: Sealing of the Drain L to Seafarers Crescent walking trail 1,114m long and installation new solar lighting for safety. This popular walking trail has historically been limestone road base and dirt and is responsible for an increasing number of injuries and issues, along with silt and soil erosions in the waterway. Providing a sealed connection from the large, long beach residential area, beaches and parks is a key action in the Disability Access and Inclusion Plan 2020. Currently people who are not fit and able bodied need to walk in the bicycle lanes of the Department of Transports main road to access town. The lack of seal on the path means children, families pushing prams, children on small bikes and people who use disability aids can't enjoy a safe and scenic walk. SA	The Rural City of Murray Bridge	1	Community	The upgrade and revitalisation of the Riverfront has been identified as the most significant and under utilised asset in Murray Bridge with the greatest potential for economic and social benefit. Sturt Reserve is the major Riverfront destination within the Council area and the Reserve's potential is particularly enhanced by its proximity to the Murray River and CBD as well as the beauty of the environment.	The problems being addressed by the project are twofold: to create an immediate economic stimulus for local businesses and to improve community accessibility, safety, and visual amenity of the Murray Bridge's most iconic public reserve. There are pockets without walking paths within Council area where local community does not have safe walking access to surrounding footpath networks for their daily living activities such as shopping and excising. Constructing missing links to connect existing walking path networks can reduce crash risk by separating vehicles and pedestrians.	Feb-21	Apr-21	\$259,875.00	\$250,000.00
SA	Town of Gawler	1	Community	Install shade sails over four playgrounds: Fifth Street, HemaFord Grove, Willaston Nature and Apex Park	At present, there is no protection from sun, UV and wet weather conditions at playgrounds. Children get burns from hot play equipment and from playing in the sun on hot days. The lifespan of play equipment will be reduced with fading and cracking that can happen from sun exposure over time. These issues will be addressed by installing shade sails over playgrounds and it is widely recognised shade provides beneficial outcomes for the community to encourage active play at times when they may not have played due to hot weather conditions. Council has three existing other playgrounds with shade sails over them, and due to these beneficial outcomes, is seeking to expand these over more playgrounds as part of this community infrastructure program. SA	Wattle Range Council	2	Combination	Penola to Coonawarra Walking / Cycling Track	The concept of a walking and cycling trail from Penola to the Coonawarra was developed following investigations into a regional trails network that was completed in 2015. With the increasing awareness of the value of outdoor recreation in relation to health and wellbeing, and the Coonawarra Wine Region being acknowledged as an excellent tourism attraction, the development of a multi-use walking and riding trail would add strongly to the region. A well planned and constructed trail network in this area would cater to a range of users including recreational walkers and runners, cyclists, and tourists wanting to visit wineries and other destinations. The section of trail proposed for development runs for approximately 16km (excluding links to wineries and tourist attractions) from the town of Penola through several vineyards and wineries to Coonawarra. SA	Yorke Peninsula Council	2	Community	Marion Bay Desalination Plant Improvements. 1 Willyama Drive (Plant) & 73 Slow Street (beach well erosion area), Marion Bay. Category: Painting /Improvements to community facilities.	Marion Bay does not have mains water supply and hence a Desalination Plant was built to support residential properties and the caravan park. This project will see desalination plant water quality improvements and measures to address beach well site erosion problems undertaken. The beach well supplies water to the plant and due to seawater level rising and winter storms, beach well infrastructure is now under threat from the ocean; if not addressed flooding of the beach well infrastructure and electrical controls will stop water production. In addition, water quality is shortening hot water infrastructure life to the caravan park and supply network.	Feb-21	Dec-21	\$65,000.00	\$65,000.00

SA	Yorke Peninsula Council	3	Community	Arthurton Main Street beautification. Category: Bicycle and Walking Paths	Arthurton's main street features an impressive sporting complex that hosts a variety of sporting and recreational activities, as well as the fast-growing Arthurton Pop-up Markets, which are this year nominated for our region's Event of the Year. This section of the main street has a sealed footpath, but it does not continue down to where the actual businesses are. The poor condition of the unsealed footpath in this section means visitors often track mud and dirt in to the markets, making a mess of the courts and indoor clubrooms. This project proposes to create a sealed footpath from the current footpath site along to the main street businesses. Arthurton Progress Association, a volunteer group working to improve the town, also plans to beautify the section with some lawn and planter boxes, although that will be funded from the community and not the LRCIP. TAS	Central Coast Council (TAS)	1	Community	Ulverstone Skate Park Redevelopment Major redevelopment of c.1970s existing skate park to provide modern activity hub with the adjacent, new MTB pump'n'jump courses. Includes new 'street' style skate elements, with proper zoned design to allow all-ages and wheelchair access, separate parkour obstacle area, new outdoor ball arena (half-court basketball and futsal), and refurbishment of existing picnic shelter area, including new bicycle parking.	Existing skate park facility is aged (c.1970s) and near end of serviceable life. Current layout and design reflects age, with style and zoning of elements not suitable for all-ages/all-skills use. Current surface and layout is not suitable for wheelchair access and use. Shape and design of some current ramps is not as safe as modern design. Existing ball court is too small (less than 3-point arc) for even casual use. The location is a popular active recreation area, particularly for youth and teen activities. It is adjacent a new mountain bike pump and jump track, at the end of a popular regional coastal parkland with various playgrounds, and only 100m from local surf club and amenities. The redevelopment project will help consolidate the zone as a regional destination for active recreation, particularly among youth and teenagers.	Aug-21	Dec-21	\$570,000.00	\$320,000.00

TAS	Dorset Council	1	Road	Carisbrook Lane Legerwood between the Junction of Tasman Highway and McDougalls Road upgrades to cater for heavy vehicles	The current carriageway is narrow and uneven with areas of pavement failure which creates increasing safety and operator cost issues. The road is classified as 'Heavy Rural' and while it is a gazetted HML/HPV route it does not currently meet the required geometric standards. Carisbrook Lane is used extensively by B-Double and Hi Production Combinations as well as 9 axle Articulated Vehicles transporting close to 200,000T of products into and out of the region. It is also the local school bus route. The prohibitive costs of an upgrade and conflicting demands on resources has meant that short term annual maintenance fixes have been required to be utilized to ensure ongoing safety compliance. This project will enable investment into the much needed longer term solution of a reconstruction and ensure an increased standard of safety for both heavy vehicle operators and the local community. TAS	Hobart City Council	1	Community	Queens Domain The project consists of the complete development of a whole new cycleway along with car park and associated infrastructure. The cycleway will be constructed on a steep gradient of land by the side of the old Tas rail line which is currently unused. The project rectifies many ongoing issues/complaints about the surface of the car park and road ways in this area.	The project brings together the "missing link" the missing connection of cycleway between the Regatta grounds car park and the Macquarie point development. Currently the cycleway ends requiring riders and other users to travel through an active car park and thoroughfare to the water. The potential conflict for users currently poses significant risk to public safety. The lack of connectivity to the new cycleway at Macquarie point often causes confusion throughout the cycling community and this is often addressed through our network / stakeholders meetings with cycling groups as a major area for improvement. The project will allow you to enter the cycleway throughout Glenorchy providing a continuous, safe path away from traffic directly into the heart of the Hobart central district. These roads were previously gravel roads and had a first seal applied circa 2017. In accordance with good road construction practice a second seal should be applied to complete the works. This usually takes place some after the initial seal and this work is now overdue to be completed. The roads involved are Old Grassy Road, Cape Wickham Road, Pegarah Road and South Road. A significant difference with this project and other projects undertaken by Council is that it will be utilising external contractors who will bring machinery and workforce to the island. This approach is due to the scale of the works involved and the resulting efficiency that they can achieve with their equipment resources. Also, to attract contractors to the island there has to be a substantial body of works to make it attractive to them at a reasonable price. TAS	Launceston City Council	2	Community	Newnham Bikeway Reserve	Landscaping Improvements - Newnham Reserve contains significant drainage infrastructure and is subject to flooding, erosion and boggy conditions. Headcuts in the waterway and local road flooding present a hazard to community. It is an important pedestrian link for the local high school and the community more broadly. It contains a playground for small children, is a site of industry/ /school revegetation projects and is next to an aged care residence providing pleasant views across the kanamaluka/Tamar estuary. Vegetation is difficult to manage due to boggy conditions, with pathways and bridges now impassable due water and vegetation. There is very limited seating for rest & reflection. The project will decrease downstream flooding, repair erosion, improve habitat and water quality for wetland species, reinstate accessible pathways and bridges, and provide seating for rest opportunities. TAS	Waratah-Wynyard Council	1	Combination	Installation of new virtual fencing to stop Tasmanian Devils (among other animals) crossing the road in the Rocky Cape National Park environmentally sensitive area. Virtual Fencing is an active electronic protection system that alerts animals before crossing the road when a vehicle is approaching between dusk to dawn. It is proven to be extremely effective in preventing wildlife-vehicle collisions in Australia and around the world. The device is triggered by vehicle headlights and emits a buzzing sound and flashing light to warn nearby wildlife of approaching vehicles. The devices are not visually intrusive and are currently used in Tasmanian National Parks such as Cradle Mountain.	Reducing the amount of wildlife killed on council roads is an action in council's recently adopted Integrated Community Environmental Plan and supports the Tas. Govt. Save the Devil Program. Local residents and council have identified an area (approx. 3kms) between Banksia Park and Lake Llewellyn as a hot spot for Devil Road kill.	Nov-20	Dec-20	\$29,000.00	\$21,692.00

VIC	Baw Baw Shire Council	1	Road	Improving access to the new Early Learning Centre co-located at Warragul Primary School by upgrading and sealing the road pavement, improving drainage with new kerb and channel, improved footpaths and car parking in the existing road reserve.	To meet the needs of our rapidly growing community an Early Learning Centred was co-located at Warragul Primary School and the increased traffic has resulted in access and safety issues for parents and children, increased damage to existing unsealed road surface, access and amenity for local residents, and parking challenges. This project is supported by the Council Plan under the following initiatives: - Quality community focused services, facilities and infrastructure to support a growing community - Develop a coordinated approach to the planning and delivery of early years services to support Baw Baw's growing population - Parking provisions are also key to providing a safe and sustainable environment for our communities and residents	Apr-21	Jun-21	\$259,190.00	\$259,190.00
VIC	Baw Baw Shire Council	1	Road	changeover existing inefficient old street lighting in Baw Baw Shire with the most energy efficiency LED Street lighting available currently. The shovel ready program covers the replacement of 1,230 old and inefficient street lights which includes high-pressure sodium vapour and high wattage mercury vapour to the most energy-efficient LED lighting.	The changeover program will generate local employment, improve community safety, reduce impact on our environment and save money for our local community. Energy Efficient street LED lighting are up to 60 percent more energy efficient than traditional high pressure sodium bulbs or mercury vapour and can last 15 to 20 years. LED lights are free of all harsh chemicals and therefore minimise impact on our environment. LED lights are also 100% recyclable and can significantly reduce your carbon footprint. LED street lighting potentially make public transportation easier, as well as improving visibility on roads.	Jan-21	Jun-21	\$645,351.00	\$575,027.00

VIC	Baw Baw Shire Council	1	Community	The project will develop an intertown connection for use for pedestrians and cyclists between Erica and Rawson that aligns with Baw Baw Shire's Paths and Trails Strategy. The project will include a granitic sand path approximately 4.7km in length from Henty Street, Erica to Pinnacle Drive, Rawson. The proposed route of this path begins at the intersection of Henty Street and School Road. From here the proposed path follows the East side of School Road/ Moe-Rawson Road, crossing Collins Road and Thomson Valley Road. The proposed route turns East at the intersection with Knotts Siding Road, and runs along the South side of Knotts Siding Road into Rawson via Tyers-Walhalla Road (West side).	The project will achieve the following solutions as identified in Council's Paths and Trails Strategy: - Meet demands for connectivity for pedestrians and cyclists to key public points of interest in the Shire. - Growing demands for new paths and trails to connect our smaller communities. - Providing additional leisure and recreation opportunities to our communities aimed to encourage the community to stay healthy and increase community connectedness and participation. - Offer an additional tourism experience for visitors to the region to benefit businesses in communities where tourism is a major contributor to economic output and job creation. VIC	City of Greater Shepparton	2	Community	Victoria Park lake Power Upgrade [NEW PROJECT]	It is proposed to install permanent power supply boxes to the open space area at Victoria Park Lake, Wyndham Street, Shepparton. Costs to Council's Events Team for electrical/generator/electrician services and hire were \$90,094.86 over the past 5 years. This does not include community and private event company costings and having in excess of 18 annually events where they all have to source power, there is a need to address and implement improved infrastructure for availability, consistency, and safety of all users. Having this upgrade in place will also improve the capacity for the location to be marketed appropriately to a broader range of events organisers and companies as this area will have the capacity to deliver event needs without the requirement of temporary infrastructure inclusions, which all come at a cost to either Council or event organisers, thus giving the site improved capabilities and attractiveness for events and reducing the outlay for temporary	Aug-21	Dec-21	\$338,820.00	\$338,820.00

VIC	Colac Otway Shire Council	1	Road	Road repairs at main entry and emergency entry and nearby roundabout at Colac Hospital	The roundabout and section of Connor Street are heavily used for everyday access to Colac Hospital, Bulla Factory, and various medical centres. Repair of this road will improve the safety of the road surface for users, especially ambulances and other medical vehicles entering the hospital and people visiting the various medical services in this area. The asphalt works will also assist in reducing traffic noise for aged care residents and patients who are situated in hospital wards and wings adjacent to this roadway. Undertaking rehabilitation works now will avoid the need for full road reconstruction when the road fails. If a full reconstruction were required it would cause substantial disruption in the area and interrupt hospital access.	Mar-21	Apr-21	\$193,334.00	\$193,334.00

VIC	Colac Otway Shire Council	1	Road	Sealing of 700m of road	The main benefit this project will deliver is improved safety by providing all weather access constructed to a higher standard, for adjoining property owners and other road users in general. It will provide an attractive alternative access route for residents in the Swan Marsh community. It will provide a viable option for heavy vehicle access (milk tankers, stock trucks, quarry vehicles) into and out of the Swan Marsh district. It will provide an attractive alternative access point for emergency responders (Fire Safety Victoria, etc.), both into and away from the Swan Marsh district. Safety at night or in foggy circumstances will be greatly improved through road side delineation, the advantage of a sealed surface, and through the addition of solid edge lines. Routine maintenance of the unsealed surface (maintenance grading) will be substantially reduced – shoulders will still require periodic maintenance.	Mar-21	Dec-21	\$325,000.00	\$325,000.00

VIC	Manningham City Council	1	Community	Ruffey Lake Park is a Council reserve, 66 hectares in area. The proposed works include the sealing of paths between the boardwalk at the main carpark, The Boulevarde public toilets and picnic shelters. Marking of a new DDA parking bay in The Boulevarde off road carpark. Installation of solar powered lights along this path to the toilets. Construction of footpath connections, in several cases to residential park interfaces including Victoria Street and King Street, including associated landscaping and works.	Council is in the process of completing improvements to The Boulevarde public toilet block, to in part achieve DDA compliance. Council commissioned a Building DDA Inspection report for the public toilets and the recommendations included sealing of existing gravel paths to access the toilets, lighting improvements and the provision of an additional DDA compliant parking bay in closer proximity to the toilets. The previous Council project scope was limited to the public toilet improvements. This project also seeks to improve access to Ruffey Lake Park, by providing further pedestrian linkages to abutting streets.	May-21	May-21	\$141,402.00	\$141,402.00

The path rehabilitation works will improve accessibility to the Flora and Fauna Reserve. This network of paths is essential to providing visitors with opportunities to learn and engage with our Indigenous history as well as discouraging visitors from venturing into and disturbing the habitat of the Eltham Copper Butterfly. The path network is used regularly by residents and visitors undertaken informal recreation pursuits such as walking and running. The current state of the path network acts as barrier to access for all of the above listed activities.	Apr-21	May-21	\$60,000.00	\$60,000.00

WA	City of Karratha	1	Combination	Bayly Avenue road and community infrastructure works	Bayly Avenue is essential to providing passenger and freight services to the airport and is the only entrance route to the Airport. If left in its current condition and alignment the road will: 1. Fail in meeting the current and anticipated demand for airport services, including the traffic ability of large fuel tankers that service the airport on a daily basis. 2. Maintenance costs will increase due to failing sealed road surfaces, 3. Public safety will be put at risk as the road's functionality and condition deteriorates and 4. WA	Shire of Bruce Rock	1	Community	Railway Dam, off Bruce Rock East Road - Improvements to water catchment system	The project will improve the water catchment system as well as increase the capacity of the catchment, which will allow us to retain more water during rainfall events. In previous years where poor weather conditions have occurred, Council has had to purchase water to keep our oval and gardens alive. This project will not only save Council funds in the future, but makes our town attractive to tourists, and allows our sporting clubs to still be able to participate in their sporting activities. WA	Shire of Bruce Rock	1	Community	Bruce Rock Caravan Park, Dunstall St - Various upgrades	The existing ablution facility is very old and is well and truly due for an upgrade. When Council investigated costings it was deemed more cost-effective to demolish the current facility and build a new structure rather than renovating. The current facility does not have adequate equal accessibility, which will be rectified in the new building.	Feb-21	Jun-21	\$333,674.00	\$333,674.00
WA	Shire of Bruce Rock	1	Community	Johnson Street, Bruce Rock - Parklet upgrades	Before Council installed the temporary parklets, there were no attractive outdoor seating and dining options on the main street, especially near operating food businesses. The temporary parklets have made our main street more vibrant and have been deemed a great success. The parklets make it obvious to passing travelers that the food businesses are open, and encourage them to stop and spend, which boosts our local economy. Making the parklets permanent will increase all these benefits and ensure we can continue to reap them well into the future.	Apr-21	Oct-21	\$126,003.00	\$126,003.00

The only supermarket in the Bruce Rock town site burnt down as a result of arson in March 2020. The Shire seeks to construct a new supermarket building to ensure residents have access to a secure food supply. This is paramount for vulnerable community members who are unable to travel 40km to the next town for grocery shopping with no support system present. Currently, the Shire are operating a temporary supermarket from the Town Hall, resulting in the hall being unavailable for community events and sporting activities. A retail consultant determined that the Shire of Bruce Rock would be extremely unlikely to attract a retailer to operate a grocery store if the retailer had to also construct a building. The Shire intend to build the supermarket, fit it out, and lease it to an independent retailer. WA	Shire of Carnamah	3	Community	Carnamah Swimming Pool 3 Niven Crescent Carnamah	Construction of shed for storage of chlorine and other chemicals, repairs to pool bowl, provision of BBQ facilities and other improvements. Currently the Shire purchases liquid chlorine in 200L drums which are kept in the existing plant room. The only access to room is across a grassed area which makes it very difficult to handle the drums safely. The Shire proposes to build a shed behind the existing plant room which will allow 1000L shuttles of chlorine to be placed using a fork lift without the need for manual handling. The pool bowl itself appear to be lower on one side that the other resulting in lack of water circulation in that corner. It proposed to lower the drainage channel on that side to rectify this circulation issue. WA	Shire of Jerramungup	3	Community	Fishery Beach Boat Ramp and Jetty Construction	Construction of a 2 new boat ramps and jetty. The ramps and jetty are now more than 25 years old. The jetty is narrow, corrosion of steelwork and damage to fenders and ladders is evident, timber kerbing is subject to marine growth, and numerous concrete ramp units have been displaced with degradation to the running surface. The structures have exceeded their intended design life the jetty does not meet current standards and the ramps are in very poor condition. The predominant benefit of this project is ensuring that Bremer Bay continues to have recreational boat access to its waters. A widened Jetty will provide safer access for the Volunteer Marine Rescue Service to access and egress their boat having noted that it is very difficult to carry a stretcher along the existing jetty. A widened jetty will also provide universal access of which the existing facility currently restricts. WA	Shire of Kondinin	1	Community	Tolland Road, Hyden - Sandpipe Controller	At the moment the Shire has a number of community water sites and unlike all surrounding Shires does not charge for water use. The two water tanks at Tolland Road are currently accessed by connecting straight into the tank for agricultural and emergency purposes. In this current scenario there is no way of tracking who is using the water or how much water is being used each day. By installing a standpipe controller will enable the Shire to monitor the use and user of the water and also establish a user pay system through the swipe cards. WA	Shire of Moora	3	Community	Moora Weir	Moora Water Security, Climate Resilience and Drought Proofing Programme. The project addresses the town's dependency on reducing aquifer supplied water and significant limitations on the availability of secondary water supplies. This involves the construction of a 1-1.5 gegalitre weir to collect seasonal flood water from the Moore River via two sluice gate-controlled channels which direct into the weir, some of the high floor water that passes the town each wet season. The project also involves the redesign of existing storm water mains to capture and direct storm water to the weir via three pumping stations and collector reservoirs. This project will provide the town with greater water certainty – last year, the town's secondary water supply contained 2 days water supply when May rains arrived. The reservoir will reduce demand on the town's aquifer fed water supply.	Feb-22	Mar-23	\$2,000,000.00	\$400,000.00
WA	Shire of Moora	3	Community	Moora Aerodrome, Airstrip Road Moora	Moora Aerodrome Emergency Services & Safety Upgrade. The project addresses a dangerous situation at the town's aerodrome because the current single runway is unsealed, and access to the aerodrome is via the runway threshold. The project also addresses is the region's limited firefighting capacity in what is a region highly prone to bushfires fed by enormous fire loaded crops. Construction involves the sealing of turning and power-up runway nodes, creation of sealed taxiways, hardstands and aprons, the installation of 4x350,000 litre water storage tanks and high-volume pumps, radio navigation and communications equipment and the construction of a cross (second) runway; these works will create a forward operating firefighting base for water bombers operated by the Departments of Fire and Emergency Services, Parks and Wildlife service and Biodiversity and Conservation. WA	Shire of Moora	3	Community	Moora Shire Administrative Complex, Paddy Street, Moora	Early Childhood Development Centre. The project addresses the paucity of specialist early childhood development services in region. Currently, families either travel considerable distances to Perth or relocate from the region to Perth to access specialist services. This project will link major teaching hospitals, specialists and facilities with a regional centre of clinical expertise. The Centre will incorporate a specialist Indigenous child health unit to serve the significant indigenous population of the region. Construction involves the construction of a brand new 55 place childcare centre and a separate early childhood development centre that provides specialist medical and clinical services. The early childhood development centre will be the only facility of its type outside Perth. It will provide specialist services medical and clinical services to address childhood issues such as physical, developmental, behavioural, mental health, hearing, visual, gastrointestinal, orthopaedic and skin disorders. WA	Shire of Sandstone	3	Community	Sandstone Caravan Park extensions	The project would enable the construction of up to three on site units at the Sandstone Caravan Park. As of 31st December our caravan income was 70% greater than the same period last year. A result of people now looking at their own back yard instead of going overseas. In addition to having to turn people away due to no vacancies, council had a number of enquiries regarding onsite accommodation. This project aims to resolve this issue. We envisage that the accommodation will house up to 6 persons which would equate to 1095 persons at 50% occupancy. The benefit to the community is that additional persons in town would help the local economy, without impinging on current accommodation available. This project will be the first stage of a proposed caravan park extension with additional bays being currently planned as stage II. At this stage the \$700,000 is only an indicative figure with council agreeing to fund any requirement over the grant.	Jul-22	Jun-23	\$700,000.00	\$643,584.00

WA	Shire of Shark Bay	3	Community	Denham Town beach (Knight Terrace)	Other - Beach accessibility project. Purchase and installation of matting and beach wheelchair to allow beach/water access for those living with a disability. There is currently no access at the Denham Town Beach for wheelchairs. A floating beach wheelchair is a wheelchair that has specialised wheels and large armrests that become stable floatation devices, meaning the wheelchair can be pushed into the water. The Shire has received many requests from our older residents to improve beach access and they currently find it difficult to get to the water (ABS statistics show that 45% of Denham's population is aged 50 or over). This wheelchair will allow those with disability and the elderly to access the water (via the matting which will be installed from the footpath to the water) so older residents and people living with a disability can swim and experience water activities. WA	Shire of Shark Bay	3	Community	Shark Bay Library (Knight Terrace)	Improvement to Community Facilities. Installation of accessible door for Shark Bay Library. The current heavy manual sliding glass door into the public Library is aged and difficult to open, especially for those that are older or frailer (ABS statistics show that 45% of Denham's population is aged 50 or over). This project will see the replacement of that door with an automatic sliding door (with movement sensor) which will allow much easier access for many patrons.	Aug-22	Aug-22	\$25,000.00	\$25,000.00
WA	Shire of Shark Bay	3	Community	Denham Townsite	Installation of five additional fixed cameras and upgrade of aged equipment. Four additional cameras will be installed at critical points along the Denham foreshore to provide complete coverage of the popular main street and beach access areas. One additional camera will also be installed in the 24 hours unstaffed community gym to ensure full coverage for patron safety in all public areas of the gym.	Oct-22	Nov-22	\$50,000.00	\$50,000.00
WA	Shire of Shark Bay	3	Community	Denham Recreation Centre and Town Hall	Phase 2 of the LRCI grants allowed the Shire to install an external electronic entry system to the town Recreation Centre and gym. This has allowed much easier, safer and controlled access (access can be provided via the user's mobile phone) to these facilities. Similar external access is now requested for the Town Hall. Additionally, controlled access is needed on several internal doors within the Recreation Centre (which currently rely on users manually locking them to prevent access by unauthorized persons). Recently a number of items in the community meeting room were damaged after the door was accidentally left unlocked.	Oct-22	Oct-22	\$20,000.00	\$20,000.00

Bridges Renewal Program

Eligible proponents - State, Territory or Local Government Entities.

Scope: All approved projects from Rounds Four (2019) and Round Five (2020) as at 29 March 2022

Caveat: Construction start and end dates are the most recent as provided by the proponent

Program Objectives:

The Bridges Renewal Program funds the upgrade and replacement of bridges to enhance access for local communities and facilitate better vehicle access leading to higher productivity.

Eligible projects include bridge replacements, bridge upgrade proposals including new bridges replacing an existing water crossing.

New project selection:

- Applications initially undergo a four stage process within the Department including: eligibility assessment, merits assessment, input from states and territory road authorities and a quality assurance.

- The Departmental process identifies proposals which are eligible and provide value for Australian Government money. Only eligible proposals are recommended to the Deputy Prime Minister for funding.

- Projects found to represent value for Australian Government funding but located within the Deputy Prime Minister's Electorate are excluded from the list of projects provided to his Office for his approval. Rather, these projects are provided to an alternate Minister within the Infrastructure Portfolio for approval.

Bridges Renewal Program

Eligible proponents - State, Territory or Local Government Entities.

Scope: All approved projects from Rounds Four (2019) and Round Five (2020) as at 29 March 2022

Caveat: Construction start and end dates are the most recent as provided by the proponent

Program Objectives:

The Bridges Renewal Program funds the upgrade and replacement of bridges to enhance access for local communities and facilitate better vehicle access leading to higher productivity.

Eligible projects include bridge replacements, bridge upgrade proposals including new bridges replacing an existing water crossing.

New project selection:

- Applications initially undergo a four stage process within the Department including: eligibility assessment, merits assessment, input from states and territory road authorities and a quality assurance.
- The Departmental process identifies proposals which are eligible and provide value for Australian Government money. Only eligible proposals are recommended to the Deputy Prime Minister for funding.
- Projects found to represent value for Australian Government funding but located within the Deputy Prime Minister's Electorate are excluded from the list of projects provided to his Office for his approval. Rather, these projects are provided to an alternate Minister within the Infrastructure Portfolio for approval.

Scope: All approved projects from Rounds Four (2019) and Round Five (2020) as at 29 March 2022

Caveat: Construction start and end dates are the most recent as provided by the proponent

Program Objectives:

The Bridges Renewal Program funds the upgrade and replacement of bridges to enhance access for local communities and facilitate better vehicle access leading to higher productivity.

Eligible projects include bridge replacements, bridge upgrade proposals including new bridges replacing an existing water crossing.

New project selection:

- Applications initially undergo a four stage process within the Department including: eligibility assessment, merits assessment, input from states and territory road authorities and a quality assurance.
- The Departmental process identifies proposals which are eligible and provide value for Australian Government money. Only eligible proposals are recommended to the Deputy Prime Minister for funding.
- Projects found to represent value for Australian Government funding but located within the Deputy Prime Minister's Electorate are excluded from the list of projects provided to his Office for his approval. Rather, these projects are provided to an alternate Minister within the Infrastructure Portfolio for approval.

Heavy Vehicle Safety and Productivity Program

Eligible proponents - State, Territory or Local Government Entities

Scope: All approved projects from Rounds Six (2018) and Round Seven (2020) as at 29 March 2022

Caveat: Construction start and end dates are the most recent as provided by the proponent

Program Objectives:

The Heavy Vehicle Safety and Productivity Program funds infrastructure projects that improve the productivity and safety outcomes of heavy vehicle operations across Australia.

Eligible projects include rest areas, parking/decoupling bays, technology trials, road enhancements, livestock vehicle effluent collection and treatment facilities.

New project selection:

- Applications initially undergo a four stage process within the Department including: eligibility assessment, merits assessment, input from states and territory road authorities and a quality assurance.
- The Departmental process identifies proposals which are eligible and provide value for Australian Government money. Only eligible proposals are recommended to the Deputy Prime Minister for funding.
- Projects found to represent value for Australian Government funding but located within the Deputy Prime Minister's Electorate are excluded from the list of projects provided to his Office for his approval. Rather, these projects are provided to an alternate Minister within the Infrastructure Portfolio.

Heavy Vehicle Safety and Productivity Program

Eligible proponents - State, Territory or Local Government Entities

Scope: All approved projects from Rounds Six (2018) and Round Seven (2020) as at 29 March 2022

Caveat: Construction start and end dates are the most recent as provided by the proponent

Program Objectives:

The Heavy Vehicle Safety and Productivity Program funds infrastructure projects that improve the productivity and safety outcomes of heavy vehicle operations across Australia.

Eligible projects include rest areas, parking/decoupling bays, technology trials, road enhancements, livestock vehicle effluent collection and treatment facilities.

New project selection:

- Applications initially undergo a four stage process within the Department including: eligibility assessment, merits assessment, input from states and territory road authorities and a quality assurance.
- The Departmental process identifies proposals which are eligible and provide value for Australian Government money. Only eligible proposals are recommended to the Deputy Prime Minister for funding.
- Projects found to represent value for Australian Government funding but located within the Deputy Prime Minister's Electorate are excluded from the list of projects provided to his Office for his approval. Rather, these projects are provided to an alternate Minister within the Infrastructure Portfolio.

Heavy Vehicle Safety and Productivity Program

Eligible proponents - State, Territory or Local Government Entities

Scope: All approved projects from Rounds Six (2018) and Round Seven (2020) as at 29 March 2022

Caveat: Construction start and end dates are the most recent as provided by the proponent

Program Objectives:

The Heavy Vehicle Safety and Productivity Program funds infrastructure projects that improve the productivity and safety outcomes of heavy vehicle operations across Australia.

Eligible projects include rest areas, parking/decoupling bays, technology trials, road enhancements, livestock vehicle effluent collection and treatment facilities.

New project selection:

- Applications initially undergo a four stage process within the Department including: eligibility assessment, merits assessment, input from states and territory road authorities and a quality assurance.
- The Departmental process identifies proposals which are eligible and provide value for Australian Government money. Only eligible proposals are recommended to the Deputy Prime Minister for funding.
- Projects found to represent value for Australian Government funding but located within the Deputy Prime Minister's Electorate are excluded from the list of projects provided to his Office for his approval. Rather, these projects are provided to an alternate Minister within the Infrastructure Portfolio.

Heavy Vehicle Safety and Productivity Program

Eligible proponents - State, Territory or Local Government Entities

Scope: All approved projects from Rounds Six (2018) and Round Seven (2020) as at 29 March 2022

Caveat: Construction start and end dates are the most recent as provided by the proponent

Program Objectives:

The Heavy Vehicle Safety and Productivity Program funds infrastructure projects that improve the productivity and safety outcomes of heavy vehicle operations across Australia.

Eligible projects include rest areas, parking/decoupling bays, technology trials, road enhancements, livestock vehicle effluent collection and treatment facilities.

New project selection:

- Applications initially undergo a four stage process within the Department including: eligibility assessment, merits assessment, input from states and territory road authorities and a quality assurance.
- The Departmental process identifies proposals which are eligible and provide value for Australian Government money. Only eligible proposals are recommended to the Deputy Prime Minister for funding.
- Projects found to represent value for Australian Government funding but located within the Deputy Prime Minister's Electorate are excluded from the list of projects provided to his Office for his approval. Rather, these projects are provided to an alternate Minister within the Infrastructure Portfolio.

Heavy Vehicle Safety and Productivity Program

Eligible proponents - State, Territory or Local Government Entities

Scope: All approved projects from Rounds Six (2018) and Round Seven (2020) as at 29 March 2022

Caveat: Construction start and end dates are the most recent as provided by the proponent

Program Objectives:

The Heavy Vehicle Safety and Productivity Program funds infrastructure projects that improve the productivity and safety outcomes of heavy vehicle operations across Australia.

Eligible projects include rest areas, parking/decoupling bays, technology trials, road enhancements, livestock vehicle effluent collection and treatment facilities.

New project selection:

- Applications initially undergo a four stage process within the Department including: eligibility assessment, merits assessment, input from states and territory road authorities and a quality assurance.
- The Departmental process identifies proposals which are eligible and provide value for Australian Government money. Only eligible proposals are recommended to the Deputy Prime Minister for funding.
- Projects found to represent value for Australian Government funding but located within the Deputy Prime Minister's Electorate are excluded from the list of projects provided to his Office for his approval. Rather, these projects are provided to an alternate Minister within the Infrastructure Portfolio.

Infrastructure Investment Program - Projects announced since 2018-19 Budget
 Figures and projects correct as at 2022-2023 Budget
 All figures are in \$ million and prepared on a cash basis. Funding profiles represent the current estimate of project start and end date, which is subject to further consultation with states, territories and local governments.
 Table does not list projects in the Roads to Recovery, Black Spot, Heavy Vehicles Safety and Productivity, and Bridges Renewal Programs, Maintenance projects, or unallocated lines (with the exception of Roads of Strategic Importance corridor funding).
 Project planning can commence before a project is announced or otherwise commences as soon as a project is announced. This includes discussions with state transport agencies.
 Some project commitments are being delivered by two different entities. These projects have been split into individual lines. Other projects may have been amended since Budget. These changes will be reflected in the next Budget update.
 Funding profiles may not equate to the total Australian Government funding, the difference is due to funding being expensed in earlier financial years.

This project will complete the full duplication of Athlon Drive, one of the main north-south arterial roads in Canberra. It will reduce congestion and improve travel times for in excess of 14,000 vehicles that use this road per day, including rapid bus services and nearly 2,000 vehicles per hour in the peak periods. It will also improve safety and address the crash history on this road - with the number of rear-end collisions as a result of the congestion in the corridor.	Bean

The positive commercial growth of the area has attracted higher traffic volumes through the area, resulting in a greater demand for parking and road improvements. These upgrades will improve safety, connectivity and reduce congestion for all road users.	Canberra

The package is expected to include the development of a corridor plan, and individual projects consistent with this plan that are prioritised and agreed between the Australian and ACT governments. Subject to planning outcomes, projects could include upgrades to the Tuggeranong Parkway (including between the Cotter Rd and Glenloch Interchange), improvements to intersections and feeder roads along the corridor (such as the Athlon Drive), or pavement rehabilitation along the Tuggeranong Parkway. It will help address congestion areas identified by Infrastructure Australia, with parts of the Tuggeranong Parkway some of the busiest sections of road in the ACT (transporting about 40,000 vehicles a day). It will form part of broader upgrades to the 20 kilometre section of the highway between Jervis Bay Road and Sussex Inlet Road, which is predominantly an undivided road, one lane in each direction, with limited overtaking opportunities and significant increases in traffic volumes during peak tourist periods. This situation has resulted in a poor safety history - with 126 crashes, including five fatal crashes and 42 serious injury crashes, on this section of the highway between 2014 and 2018. These upgrades will provide a safer corridor for all transport users, and support increased capacity and traffic efficiency.	Gilmore

The efficiency of the signalling system will improve the safety, reliability and efficiency of both the rail and road networks. The upgrade to the Seaford line signals will potentially remove or reduce speed restrictions for trains and automate an at grade pedestrian crossing. This will reduce road closure times and increase the efficiency of the rail operations. This improvement will have a direct improvement at the Hove Level Crossing where rail closure times have already been identified as contributing to road congestion. Implementation works to commence mid 2022 and be completed mid-2024. Total Project Costs are expected to be \$10 million under a 50:50 arrangement.	Adelaide, Boothby, Hindmarsh

It will also enable and maximise the benefits of Inland Rail by ensuring that Melbourne's freight infrastructure has the capability to efficiently accommodate the Inland Rail service offering of double-stacked 1,800-metre trains and has the capacity to meet the increased rail freight generated by Inland Rail. The project will also create more liveable communities by addressing the conflicting land use between industrial and urban areas, and reducing the freight network's overall impact on the environment. This initial investment includes the option for equity and/or debt funding through an appropriate commercial model. The Australian and Victorian governments are jointly undertaking further planning, design development and delivery of a new Victorian Inland Rail Intermodal Terminal at two potential sites: one at Truganina and the other at Beveridge, as well as its connection to Inland Rail. A decision on the terminal location is subject to further negotiations between the Australian and Victorian governments.	Calwell, Fraser, Gellibrand, Gorton, Labor, Maribymong, McEwen, Wills
