

26 June 2007

Mr W Lee

Dear Walter,

Thank you very much for the information you sent to me concerning the Tasmanian Relationship registration Model and the proposed Victorian legislation.

I support such a model being established here in NSW and I would certainly support legislation to bring it into effect. I agree that all love is equal.

I look forward to the NSW Government introducing similar legislation and I will use all the influence I have to urge my colleagues to support such legislation.

Kindest regards.
