## #MyBroadbandvReality

27 February 2014

Survey Responses

Submitted	ID	Location	State or Territory	What type of Broadband connection do you have	What median speed does the My Broadband site give you	What speed do you get in reality	What Mobile Broadband does the My Broadband site say you get?	What Mobile Broadband service do you get in reality?	Comments
20 Feb 14 16:36	R1	Longreach	QLD	Asymmetric Digital Subscriber Line ADSL	16.46	0.68	None	Only 3G	<p>This gizmo is out by a factor of 24x on it's Estimated Speed to Measured Speed.</p> <p>I seriously have to question the underlying assumptions that have been made when developing this gizmo.</p> <p>If it was out by\, say\, 5x-10x I could accept it as an 'estimated speed'.</p> <p>But to be out by 24x indicates to me that these estimates are &amp;quot;Laboratory Conditions with brand spanking new\, 0.5ga copper&amp;quot;,. Sadly\, reality is a copper access network (CAN) that's creaking at the seams and is in dire need of an upgrade.</p>
20 Feb 14 16:38	R2	Cook	ACT	Asymmetric Digital Subscriber Line ADSL	9.3	8.9	Only 3G	Only 3G	Mobile broadband bandwidth drops significantly when\, well\, anybody else (but you) uses it.
20 Feb 14 16:41	R3	Korumburra	VIC	Asymmetric Digital Subscriber Line ADSL	20	4	Only 3G	Other	Mob 2g / edge

Survey Responses

Submitted	ID	Location	State or Territory	What type of Broadband connection do you have	What median speed does the My Broadband site give you	What speed do you get in reality	What Mobile Broadband does the My Broadband site say you get?	What Mobile Broadband service do you get in reality?	Comments
20 Feb 14 16:47	R4	Merrylands	NSW	Hybrid fibre-coaxial HFC	11.46	1.44	3G & 4G c	3G & 4G	I use Telstra Bigpond. (Don't know why) could use ADSL but I live in a very long street and don't want to have to revert back to a 14.4kbs modem.  The copper in my street is totally stuffed. Telstra contractors always around patching it up.

Survey Responses

Submitted	ID	Location	State or Territory	What type of Broadband connection do you have	What median speed does the My Broadband site give you	What speed do you get in reality	What Mobile Broadband does the My Broadband site say you get?	What Mobile Broadband service do you get in reality?	Comments
20 Feb 14 16:59	R5	Metford	NSW	Asymmetric Digital Subscriber Line ADSL	20.0 Mbps	5.8 Mbps	3G & 4G c	3G & 4G	<p>I am approximately 4 Km's from my local Telstra exchange. While my speed is adequate I would certainly like better especially for uploading to cloud based storage services. I feel that the argument has been lost on download speeds when the real problem is upload speed. This will become more evident as services move to the cloud.</p> <p>I was a Telstra technical officer &amp; I am very concerned about the copper network\, it is in poor conditions in many area's. I would have a line fault ever 18 months or so.</p> <p>We want reliable &amp; hogh speed internet not only for residential &amp; business but for he alt\, didtance education\, teleworking to name but a few.</p>

Survey Responses

Submitted	ID	Location	State or Territory	What type of Broadband connection do you have	What median speed does the My Broadband site give you	What speed do you get in reality	What Mobile Broadband does the My Broadband site say you get?	What Mobile Broadband service do you get in reality?	Comments
20 Feb 14 17:00	R6	Yamba	NSW	Hybrid fibre-coaxial HFC	None given	3.44 Mbps	Only 3G	Only 3G	The My Broadband website offered no "Broadband Profile For Your Area" for Yamba on the NSW North Coast.  It merely stated that there was 3G coverage in the area with a mobile downstream speed between 1-20 Mbps and an upstream speed of 3Mbps.  Yamba has no NBN connections.
20 Feb 14 17:03	R7	Evanston Park	SA	Asymmetric Digital Subscriber Line ADSL	5.09Mbps	1.31Mbps	None	3G & 4G	Only use the ADSL usually, although occasionally put the laptop on using 4G. Of course once school is out the ADSL drops down even further.
20 Feb 14 17:06	R8	Mackay	QLD	Asymmetric Digital Subscriber Line ADSL	4.44	7.05	3G & 4G c	None	
20 Feb 14 17:13	R9	Venus Bay	SA	Other	0	1.5	None	Only 3G	I can receive 3G effectively but it is very slow and gets worse during peak times.
20 Feb 14 17:13	R10	Delacombe	VIC	Asymmetric Digital Subscriber Line ADSL	7.08	4.64	3G & 4G c	Only 3G	Can get Telstra 4G. Only 3G on Optus though.
20 Feb 14 17:13	R11	Fremantle	WA	Asymmetric Digital Subscriber Line ADSL	6.8	4	3G & 4G c	Other	
20 Feb 14 17:14	R12	Shenton Park	WA	Asymmetric Digital Subscriber Line ADSL	8.7	4.5	3G & 4G c	Only 3G	

Survey Responses

Submitted	ID	Location	State or Territory	What type of Broadband connection do you have	What median speed does the My Broadband site give you	What speed do you get in reality	What Mobile Broadband does the My Broadband site say you get?	What Mobile Broadband service do you get in reality?	Comments
20 Feb 14 17:14	R13	st andrews	NSW	Asymmetric Digital Subscriber Line ADSL	6.86	6	Only 3G	Only 3G	3g is shit! sloooooooooooooooooow and when there is a lot of traffic on the m5\, it ceases top work.  adsl is good during week\, and goes to shit on the weekends\, especially sunday afternoons  and both are really shit during wet weather
20 Feb 14 17:15	R14	Drouin	VIC	Asymmetric Digital Subscriber Line ADSL	5.09	6	Only 3G	Only 3G	
20 Feb 14 17:17	R15	Burleigh Waters	QLD	Asymmetric Digital Subscriber Line ADSL	14.2	0.37	3G & 4G c	Only 3G	Hope I have filled this in correctly
20 Feb 14 17:18	R16	Hoppers Crossing	VIC	Asymmetric Digital Subscriber Line ADSL	390	390	3G & 4G c	Only 3G	
20 Feb 14 17:20	R17	South Yarra	VIC	Asymmetric Digital Subscriber Line ADSL	21.25	8	3G & 4G c	3G & 4G	My connection has been known to get as low as 500Kbps down and 100Kbps up. This can last for several minutes\, and sometimes hours.  There is often dropped packets\, especially when uploading data.
20 Feb 14 17:21	R18	Buff Point	NSW	Asymmetric Digital Subscriber Line ADSL	19.56	5	3G & 4G c	Only 3G	We lose our connection completely when it rains. Our speed also drops to below 3Mbps during peak periods.. ie 5pm to 10pm

Survey Responses

Submitted	ID	Location	State or Territory	What type of Broadband connection do you have	What median speed does the My Broadband site give you	What speed do you get in reality	What Mobile Broadband does the My Broadband site say you get?	What Mobile Broadband service do you get in reality?	Comments
20 Feb 14 17:22	R19	Penrith	NSW	Asymmetric Digital Subscriber Line ADSL	6.59	2.3	3G & 4G c	Other	I wrote other for Mobile broadband as I do not know. I do not own a mobile phone.
									4G is unusable as it is over-subscribed. There are severe problems with Main Pairs\, Branch Pairs\, & Distribution Pairs out of FSRY exchange.  I've spoken at great length to Telstra & Visionstream techs in the area. Both claim that Telstra have no intention of acting on the Customer Network Improvement (CNI) submissions from technicians.
20 Feb 14 17:24	R20	West Footscray	VIC	Asymmetric Digital Subscriber Line ADSL	6.04	3.8	3G & 4G c	3G & 4G	FYI\, it's sortius.
20 Feb 14 17:25	R21	Middle Swan	WA	Asymmetric Digital Subscriber Line ADSL	5.74	6.53 Mbps	Only 3G	Only 3G	
20 Feb 14 17:25	R22	Ellen Grove	QLD	Asymmetric Digital Subscriber Line ADSL	18.69 Mbps	9.18 Mbps	3G & 4G c	Only 3G	
20 Feb 14 17:26	R23	West Heidelberg	VIC	Asymmetric Digital Subscriber Line ADSL	7.08	2.28	3G & 4G c	3G & 4G	actual DSL speed varies... mostly on how recently it rained from what i can tell.
20 Feb 14 17:27	R24	Maddington	WA	Asymmetric Digital Subscriber Line ADSL	8	4.5	Only 3G	3G & 4G coverage	
20 Feb 14 17:27	R25	Moss Vale	NSW	Asymmetric Digital Subscriber Line ADSL	15.48	8	Only 3G	Only 3G	Assuming it doesn't rain....

Survey Responses

Submitted	ID	Location	State or Territory	What type of Broadband connection do you have	What median speed does the My Broadband site give you	What speed do you get in reality	What Mobile Broadband does the My Broadband site say you get?	What Mobile Broadband service do you get in reality?	Comments
20 Feb 14 17:29	R26	Summer Hill	NSW	Asymmetric Digital Subscriber Line ADSL	18.04	12	3G & 4G c	3G & 4G	Assuming it doesn't rain....again
20 Feb 14 17:29	R27	Melton South	VIC	Asymmetric Digital Subscriber Line ADSL	5.41	3.58	Only 3G	Only 3G	No data on upload speeds. The site is missing a vital half of the information
20 Feb 14 17:29	R28	Melton South	VIC	Fibre to the premises FTTP	2.85	100	Only 3G	3G & 4G	Live in a FTTP only green fields estate\, green box of my area on map is just my estate. Shows "E" for FTTP availability\, and "D" for ADSL which is not available at all (No copper)  <a href="http://lilstevie.geek.nz/assets/MalcolmFolly.jpg">http://lilstevie.geek.nz/assets/MalcolmFolly.jpg</a> shows all
20 Feb 14 17:31	R29	Ormiston	QLD	Asymmetric Digital Subscriber Line ADSL	8	4	Only 3G	3G & 4G	The site says we have HFC in the area\, we do not. There is also no ADSL2 in the area which means the median ADSL speed mentioned on the site is actually 100% of the ADSL theoretical speed - which no one will ever actually achieve\, so the median speed figure can not be true.
20 Feb 14 17:31	R30	Belgrave	VIC	Asymmetric Digital Subscriber Line ADSL	19.56	17	Only 3G	Only 3G	3G drops out a lot. Adsl sync speed varies a lot. I'm 400m from the exchange and the adsl specification says I should get 24mbs!

Survey Responses

Submitted	ID	Location	State or Territory	What type of Broadband connection do you have	What median speed does the My Broadband site give you	What speed do you get in reality	What Mobile Broadband does the My Broadband site say you get?	What Mobile Broadband service do you get in reality?	Comments
20 Feb 14 17:33	R31	Oaklands Park	SA	Asymmetric Digital Subscriber Line ADSL	6.31	6.61	Only 3G	Only 3G	
20 Feb 14 17:34	R32	Rockhampton	QLD	Asymmetric Digital Subscriber Line ADSL	20.80 Mbps	2.88 Mbps	3G & 4G c	Only 3G	
20 Feb 14 17:35	R33	Coolum	QLD	Asymmetric Digital Subscriber Line ADSL	11	4.4	3G & 4G c	None	
20 Feb 14 17:36	R34	Downer	ACT	Asymmetric Digital Subscriber Line ADSL	21.25	4	3G & 4G c	3G & 4G coverage

Submitted	ID	Location	State or Territory	What type of Broadband connection do you have	What median speed does the My Broadband site give you	What speed do you get in reality	What Mobile Broadband does the My Broadband site say you get?	What Mobile Broadband service do you get in reality?	Comments
20 Feb 14 17:37	R35	Kilburn	SA	Asymmetric Digital Subscriber Line ADSL	10.22 Mbps	1.3 Mbps	3G & 4G c	Other	For the last question\, I answered other\, because I only use mobile broadband when I'm away from home. I don't know what mobile broadband service I get in reality.  I have to call out Telstra every few years when I get audible crackling on the landline\, after the patch it up my internet speeds usually improve. A Telstra tech once told me that the junction boxes in my area are held together by duct tape and prayer\, and that he couldn't guarantee what would happen the next time it rained.  Currently\, 3 of my neighbours are without landline service at all due to the heavy rain Adelaide got last week (being repaired today\, apparently). The copper network in my area is badly degraded.
20 Feb 14 17:40	R36	Kanahooka	NSW	Asymmetric Digital Subscriber Line ADSL	8	1.2	3G & 4G c	3G & 4G coverage	
20 Feb 14 17:41	R37	Drouin	VIC	Asymmetric Digital Subscriber Line ADSL	5	7	Only 3G	Only 3G	
20 Feb 14 17:43	R38	Lake haven	NSW	Other	17.5	8 Mbps	3G & 4G c	3G & 4G coverage	

Survey Responses

Submitted	ID	Location	State or Territory	What type of Broadband connection do you have	What median speed does the My Broadband site give you	What speed do you get in reality	What Mobile Broadband does the My Broadband site say you get?	What Mobile Broadband service do you get in reality?	Comments
20 Feb 14 17:43	R39	Morayfield	QLD	Asymmetric Digital Subscriber Line ADSL	16.46	7.2	3G & 4G c	Only 3G	Just like your Broadband Profile Noely), mine is also a big fat zero :(
20 Feb 14 17:45	R40	Wurdong Heights	QLD	Asymmetric Digital Subscriber Line ADSL	2.55	2.81	Only 3G	Only 3G	
20 Feb 14 17:50	R41	Kingsville	VIC	Asymmetric Digital Subscriber Line ADSL	0.81 MB/s	0.81 MB/s	Only 3G	Only 3G	
20 Feb 14 17:58	R42	North Fremantle	WA	Asymmetric Digital Subscriber Line ADSL	6.59Mbps	3.41Mbps	3G & 4G c	3G & 4G	On our iinet plan we should get up to 12Mbps but our 35 year old copper line is degraded and we never get better than 3.7Mbps. The "MyBroadband" speed is an estimation of what we should get in our area. Note: North Fremantle is inner urban suburb not far from the exchange.
20 Feb 14 18:00	R43	Bardwell Valley	QLD	Asymmetric Digital Subscriber Line ADSL	9.3	4.64	3G & 4G c	Only 3G	my ADSL2+ plan is supposed to give me 24Mbps but Internode and Telstra have tested this and confirmed that the problem is DIRECTLY due to the age of the copper wiring.
20 Feb 14 18:00	R44	Somerton Park	SA	Asymmetric Digital Subscriber Line ADSL	13.85	8.63	3G & 4G c	3G & 4G coverage	

Survey Responses

Submitted	ID	Location	State or Territory	What type of Broadband connection do you have	What median speed does the My Broadband site give you	What speed do you get in reality	What Mobile Broadband does the My Broadband site say you get?	What Mobile Broadband service do you get in reality?	Comments
20 Feb 14 18:06	R45	Melbourne Metro	VIC	Asymmetric Digital Subscriber Line ADSL	21.25	14.69	3G & 4G c	3G & 4G	I used a nifty speed test site - <a href="http://www.cnet.com.au/broadband-speedtest/">http://www.cnet.com.au/broadband-speedtest/</a>  Also my speed is SUPPOSED to be 100Mbps according to my connection properties!!!
20 Feb 14 18:06	R46	Mackay	QLD	Asymmetric Digital Subscriber Line ADSL	4.44	7.05	3G & 4G c	None	
20 Feb 14 18:06	R47	Whittlesea	VIC	Asymmetric Digital Subscriber Line ADSL	18.04	2.81	Only 3G	3G & 4G coverage	
20 Feb 14 18:09	R48	Wonthella	WA	Asymmetric Digital Subscriber Line ADSL	22.69	3.09	3G & 4G c	Only 3G	
20 Feb 14 18:11	R49	Point Lookout	QLD	Asymmetric Digital Subscriber Line ADSL	22.97	14.55	Only 3G	Only 3G	Mobile Broadband is limited. Lightning storms\, frequent in summer\, lead to line dropouts and interruptions to service.
20 Feb 14 18:12	R50	central coast	NSW	Asymmetric Digital Subscriber Line ADSL	20	4	Only 3G	Other	supposedly on an ADSL2 plan :(
20 Feb 14 18:12	R51	Glenfield Park	NSW	Asymmetric Digital Subscriber Line ADSL	15	9	3G & 4G c	3G & 4G	I'm under 1km from my exchange
20 Feb 14 18:14	R52	Eastlakes	NSW	Asymmetric Digital Subscriber Line ADSL	17	12.55	3G & 4G c	3G & 4G coverage	
20 Feb 14 18:16	R53	perth	WA	Asymmetric Digital Subscriber Line ADSL	24	16	3G & 4G c	3G & 4G coverage	
20 Feb 14 18:16	R54	George Town	TAS	Fibre to the premises FTTP	25/5	24.5 / 4/5	None	None	Never bothered about mobile BB as I don't need it for now\, so I don't really care ATM.

20 Feb 14 18:17	R55	Narromine	NSW	Other	not available	0.58mbps	Only 3G	Only 3G	I live in the bush and I will be dead before we get real broadband! Ya Think you get 6.0mbps I would love that! even 1.0mbps would be great for now.
20 Feb 14 18:18	R56	Coonabarabran	NSW	Asymmetric Digital Subscriber Line ADSL	17.05 Mbps	15\,38 Mbp	Only 3G	Only 3G	While we get ADSL it's of variable speed\, but the biggest problem we have must be the "last mile" copper wiring -- we have constant dropouts and local issues that really hamper the connection. It drops out regularly and functions poorly in bad weather. I can only imagine what FTTH would do for us...  Locally\, we're a very hilly district\, most people around town can't get ADSL and don't even get much 3G either due to hills. Terrible for regional business. There were plans for a NBN wireless tower here but not sure what its status is now.
20 Feb 14 18:18	R57	Marsfield	NSW	Asymmetric Digital Subscriber Line ADSL	8.13	4.9	3G & 4G c	3G & 4G coverage	
20 Feb 14 18:19	R58	Onkaparinga Hills	SA	Asymmetric Digital Subscriber Line ADSL	7.08Mbps	9Mbps	Only 3G	3G & 4G coverage

20 Feb 14 19:24	R85	South Hobart	TAS	Fibre to the premises FTTP	no speed given for	see above	3G & 4G c	3G & 4G	<p>Note says info based on services available to 312 premises in area. When I was on ADSL2+ I averaged very close to site's ADSL median of 6.59Mbps (2.7 cable kms from exchange). (That speed gets a "D" rating on the site.) Overall is "A" rating.</p> <p>No new ADSL connections permitted when NBN fibre available. My area due to have copper pulled (compulsory switch over) in September. Unsure if new regime has changed any of that.</p> <p>Fibre is strung overhead on existing power poles.</p> <p>I have the 100/40 Mbps service and get actual 95/36 over WiFi most of the time. (Not on older tech however)</p> <p>Mobile is Telstra only for 4G. Optus maybe later this year. Not a priority for them I gather.</p>
20 Feb 14 19:25	R86	Lane Cove	NSW	Asymmetric Digital Subscriber Line ADSL	21.25Mbps	11Mbps	3G & 4G c	Only 3G	Better than most, but still pathetic for a digital economy

20 Feb 14 19:43	R93	Cheltenham	VIC	Hybrid fibre-coaxial HFC	17.05	18.13	Only 3G	3G & 4G	My reality speed is higher than the median speed. I'm happy with what I have at the moment.
20 Feb 14 19:45	R94	Devonport	TAS	Asymmetric Digital Subscriber Line ADSL	7.13	3.42 Mbps	3G & 4G c	Only 3G	Constant dropouts (often hourly) and slowdowns in ADSL. If it rains\, forget it.  Any coverage for mobile phone use is patchy\, often dropping out completely. Data access over mobile... yeah right. Very slow speed on 3G when it actually happens\, when foggy or raining\, forget it (coastal location\, it's often foggy)  It's a disgrace for the cost\, and regional areas NEED the internet to access basic services.
20 Feb 14 19:47	R95	Boondall	QLD	Asymmetric Digital Subscriber Line ADSL	8Mbps	1.88Mbps	Other	Other

20 Feb 14 20:33	R110	Rhodes	NSW	Asymmetric Digital Subscriber Line ADSL	6.59	5	3G & 4G c	3G & 4G	<p>Median speed\, so if accurate\, half the services will be faster than that and half will be slower. The service also says that FTTP is available &amp;quot;in the surrounding area&amp;quot; but this is misleading for me as I'm in an apartment and the NBN goes into nearby apartments but not this one and there's no plan to make it so. That's more relevant to me.</p> <p>ADSL speed comes primarily from cable length to exchange. I'm about 3km from the exchange by cable\, so my DSL speed is a bit pathetic (but it could be worse). Average distance to exchange varies by suburb - there are exchanges every 1km or less all the way up the Pacific Highway\, so anybody in neighbouring suburbs will get very high speed access. On the other hand\, exchanges are sparse in Western Sydney and so many can't get DSL at all.</p> <p>Your problem sounds like water is getting into your local pit. Maybe flooding and certainly exposed joints.</p> <p>Apart from being much faster and more reliable\, the primary benefit</p>

20 Feb 14 21:18	R135	Greenfields	WA	Asymmetric Digital Subscriber Line ADSL	18.69	7.33	Only 3G	3G & 4G	The 4G in the mobile broadband has only *just* happened in the last couple of weeks.  The ADSL peaked\, very briefly at 15 while doing the speed test. My second speed test was 7.05  After searching for the best server\, it drop 5.03! (This was at ~19:15)
20 Feb 14 21:20	R136	O'Connor	ACT	Asymmetric Digital Subscriber Line ADSL	7.08	3.1	3G & 4G c	3G & 4G	Get 4G mobile broadband in some parts of our house\, but the signal is poor
20 Feb 14 21:20	R137	Carrum Downs	VIC	Asymmetric Digital Subscriber Line ADSL	13.85	7.5	Only 3G	Only 3G	
20 Feb 14 21:21	R138	Battery Hill	QLD	Asymmetric Digital Subscriber Line ADSL	8	2	3G & 4G c	3G & 4G	Paying for ADSL 2+ which should give 12-28 Mbps but average line speed is 1.5 - 2.0 Mbps.
20 Feb 14 21:28	R139	Sydney	NSW	Asymmetric Digital Subscriber Line ADSL	22.13	12.96	Other	3G & 4G	MyBroadband site say "4G coverage" only\, but your survey only has an option for "3G & 4G coverage."

Survey Responses

Submitted	ID	Location	State or Territory	What type of Broadband connection do you have	What median speed does the My Broadband site give you	What speed do you get in reality	What Mobile Broadband does the My Broadband site say you get?	What Mobile Broadband service do you get in reality?	Comments
20 Feb 14 21:33	R140	Glenbrook	NSW	Asymmetric Digital Subscriber Line ADSL	7.08	3.4Mbps	3G & 4G c	Only 3G	I have never seen speeds about 4Mbps where I live. I have excellent equipment and service with iiNet.  Everytime it rains heavily my speeds get slower. When the temperature breaks 35 degrees my Internet stops working.
20 Feb 14 21:33	R141	Elderslie	NSW	Asymmetric Digital Subscriber Line ADSL	21.5	1.5	Only 3G	Only 3G	I'm pretty unhappy.
20 Feb 14 21:35	R142	Bathurst	NSW	Asymmetric Digital Subscriber Line ADSL	20.8	2	3G & 4G c	None	ADSL speed is poor at the best of times\, and only gets slower when it rains\, when water gets into the copper phone lines on the street.
20 Feb 14 21:37	R143	Mount Nelson	TAS	Asymmetric Digital Subscriber Line ADSL	22Mbps	0	3G & 4G c	3G & 4G	I get 0 Mbits on ADSL. That site indicates I get ADSL2+\, which is in fact total bullshit\, because the part of my suburb I'm in is on a RIM\, and so at best will get 8Mbps\, and at worst has no ports free (which is my situation\, I waited 2 months before cancelling my useless phone line). So I'm on over subscribed Optus 3G\, which maxes out at about 1 Mbits.

20 Feb 14 22:06	R161	Mount Tarcoola	WA	Asymmetric Digital Subscriber Line ADSL	22.13	11.1	3G & 4G c	Only 3G	I have been told that I should be able to get 16Mb/sec but I've never seen it\, occasionally 12\, but that's a good as it gets. I don't use mobile\, so I'm just going from what others have told me.
20 Feb 14 22:07	R162	Belconnen	ACT	Asymmetric Digital Subscriber Line ADSL	23.98	3.8497	3G & 4G c	Only 3G	
20 Feb 14 22:13	R163	Belrose	NSW	Asymmetric Digital Subscriber Line ADSL	12.12	8.91	3G & 4G c	3G & 4G	Copper lines are in less-than-optimal condition. Telstra techs have reported corrosion of connectors.
20 Feb 14 22:14	R164	Blair Athol	SA	Asymmetric Digital Subscriber Line ADSL	7.08	2.2	3G & 4G c	3G & 4G coverage	
20 Feb 14 22:26	R165	parkdale	VIC	Asymmetric Digital Subscriber Line ADSL	18.04 Mbps	10.37 Mbps	Only 3G	Only 3G	
20 Feb 14 22:44	R166	Jamisontown	NSW	Asymmetric Digital Subscriber Line ADSL	10.22	10.66	3G & 4G c	Only 3G	
20 Feb 14 22:44	R167	Cessnock	NSW	Asymmetric Digital Subscriber Line ADSL	22	5	3G & 4G c	Only 3G	Site says ADSL is available. No ports have been available for at least 5 years. I had to pull a shifty with the Telstra tech to get ADSL at my place.
20 Feb 14 22:45	R168	Scarborough	QLD	Asymmetric Digital Subscriber Line ADSL	16.46	4.99	3G & 4G c	Only 3G	Ridiculous.
20 Feb 14 23:04	R169	Bicton	WA	Asymmetric Digital Subscriber Line ADSL	22.69	4.17	Other	Other	I don't use mobile broadband. The actual speed I quote was measured by Ookla Speedtest.
20 Feb 14 23:04	R170	Gravelly Beach	TAS	Asymmetric Digital Subscriber Line ADSL	11.8	5.8	Only 3G	Only 3G

20 Feb 14 23:56	R179	Ross Creek	VIC	Fixed wireless	4.28	10.7	3G & 4G c	3G & 4G	The 4.28 number is quoted for ADSL. No figure quoted for fixed wireless speed on the My Broadband page. I'm on a plan with a highest speed quoted at 12 Mbps. I can pay more to get 25 Mbps. I was told that because I am rural and too far from the exchange it was hopeless trying to connect to ADSL. Before NBN I was stuck with 3G wireless broadband at \$40 per month\, speed at 1.5 mbps and 3Gig download. Now on NBN Fixed Wireless and pay \$50 per month for 150Gig download. I've had it for 18 months and it is Fabulous !!
21 Feb 14 00:03	R180	McDowall	QLD	Hybrid fibre-coaxial HFC	8Mbps	100Mbps	3G & 4G c	3G & 4G coverage

21 Feb 14 07:43	R196	Castlemaine	VIC	Asymmetric Digital Subscriber Line ADSL	(Mbps): > 5.09	1.42 Mbps	3G & 4G c	Other	I don't know the Mobile Broadband coverage in my area (No phone) Multiple issues with the Copper over last 10 years\, Telstra gel has corroded the lines and continually causes faults\, which I found out from a friendly Tech who was a contractor and not a company man. My ISP did try to tell me I would bear the cost of any repairs but I sorted that out and Telstra had to pay. I am being charged for ADSL2 but of course is is nothing like that\, often not much better than dialup.
21 Feb 14 07:48	R197	Australia	VIC	Hybrid fibre-coaxial HFC	13.85	39 Mbps	Only 3G	3G & 4G	Whilst it says we have mobile broadband coverage\, I'd have to stand on one leg in the front room with my arm in the air to get it. If my mobile wasn't wirelessly connected to my broadband it wouldn't work much. We run two businesses out of the house and our only option is Optus.
21 Feb 14 08:04	R198	Bundaberg West	QLD	Asymmetric Digital Subscriber Line ADSL	16.46	6.32	3G & 4G c	3G & 4G coverage	Not really an option.

21 Feb 14 08:30	R206	Wonthaggi	VIC	Asymmetric Digital Subscriber Line ADSL	21.25	14.24	Only 3G	3G & 4G	I took the speedtest just then\, rather than using an average. The 14.24 I got at 9:30 on a Friday morning is the fastest I've ever had. If it were Saturday\, it would be more like ten.
21 Feb 14 08:34	R207	Taren Point	NSW	Asymmetric Digital Subscriber Line ADSL	7.13	1.3	Only 3G	3G & 4G	This is a business and the internet connection is terrible. We were able to have slightly faster speeds (4-5 Mbps) but the reliability was shocking so to remain stable we have to suffer through painfully slow speeds which makes even simple things like receiving large email attachments take far longer than it should. The lines appear to be the problem as many discussions with techs and a number of site visits have suggested.
21 Feb 14 08:37	R208	Howrah	TAS	Asymmetric Digital Subscriber Line ADSL	21.56	8.9736Mbp	3G & 4G c	3G & 4G coverage	
21 Feb 14 08:37	R209	Heidelberg	VIC	Asymmetric Digital Subscriber Line ADSL	2.85	2.76	3G & 4G c	3G & 4G	Slow as\, and the reliability is ordinary. Nothing other than mobile available or on the current plan for this immediate area.
21 Feb 14 08:38	R210	Springwood	NSW	Asymmetric Digital Subscriber Line ADSL	8	2	3G & 4G c	Other

21 Feb 14 09:15	R220	Pendle Hill	NSW	Asymmetric Digital Subscriber Line ADSL	20.36	8.88	3G & 4G c	Only 3G	myBroadband "quality" score does not take into account line quality. ADSL connection has dropped out 5 times in 80 minutes this morning.  Alternative is HFC: Optus requires us to switch from business account to residential to get HFC AND they will not allow us to keep existing number when doing so because they're idiots who think HFC is related to FTTP.  Switching to Telstra for HFC requires us to pay more than double what we're currently paying for fixed phone and broadband with much less data allowance.
21 Feb 14 09:15	R221	North Burleigh	QLD	Asymmetric Digital Subscriber Line ADSL	12.76	7.11	3G & 4G c	3G & 4G coverage

21 Feb 14 09:18	R222	Newstead	VIC	Fixed wireless	19.56	13.57	3G & 4G c	Other	I can't comment on 4G coverage as I have no 4G device.  The median ADSL speed quoted by mybroadband\, given my actual address\, would seem to be based on my distance from the exchange.  In reality the ADSL speed was much less - presumably because of the quality of the copper.  The "in reality" speed is NBN Fixed Wireless - should be 25Mbps
21 Feb 14 09:20	R223	Otago	TAS	Asymmetric Digital Subscriber Line ADSL	1.45	1.16	3G & 4G c	Only 3G	
21 Feb 14 09:33	R224	St Georges	SA	Asymmetric Digital Subscriber Line ADSL	20.8	9.5	3G & 4G c	Only 3G	Looks like we are stuck with copper. NBN vision gone! Australia going backwards under Turnbull\, Abbott.
21 Feb 14 09:45	R225	Modbury heights	SA	Asymmetric Digital Subscriber Line ADSL	6.31	4	3G & 4G c	Only 3G

21 Feb 14 13:38	R261	Doncaster East	VIC	Asymmetric Digital Subscriber Line ADSL	9.3	5.4	3G & 4G c	Only 3G	I recently had to change providers - from TPG to Optus - because the TPG connection was no longer stable. Since late December 2013 I had 2-3 days per week where I had NO broadband at all. Optus suggested that this was due to TPG not having their own equipment in exchanges & that Optus did\, which would resolve this issue. It seems to be fine\, so far.
21 Feb 14 13:45	R262	north narrabeen	NSW	Asymmetric Digital Subscriber Line ADSL	21.25	13.95	3G & 4G c	Only 3G	My speed is much greater than it was thanks to a tree falling onto the aerial line in new line in installed underground by Telstra unfortunately from old pit which fills with water whenever it rains . Twice joins replaced in 3 years due to non functioning phone. Blow the down to 1mb whenever it is wet or the 2 o 3 resyncs a day.

21 Feb 14 15:15	R271	Jandakot	WA	Asymmetric Digital Subscriber Line ADSL	8	0.5	Only 3G	Other	<p>cut off from the main exchange by Kwinana Fwy so we are on a sub-exchange or RIM. The backhaul to the main exchange can't cope so although I sync at full 8mbps (Telstra ADSL1 copper only), no ADSL2) throughput is around 0.5 - 1mbps throughout the day and late into the evenings. Speeds only increase to 3-5mbps in the early hours of the morning.</p> <p>I have lived on the same street in 2 different houses for over 6 years\, early on speeds were fine but as broadband take up and usage rose\, it started to get worse and worse. It has been this way for the last 3 years with no backhaul upgrade planned for the area.</p> <p>The RIM in the commercial/industrial area (JKOT:49) only 2 streets away received a Tophat upgrade from Telstra which gives them ADSL2 and includes a significant backhaul upgrade to cope with the higher speeds. The residential area (278 dwellings according to MyBroadband) got nothing.</p> <p>Everyone I have spoken to at my ISP (iiNet/Westnet) and Telstra</p>

21 Feb 14 18:06	R281	Warrandyte	VIC	Asymmetric Digital Subscriber Line ADSL	12.7	8	Only 3G	Only 3G	<p>I have only been able to get 8 mbps after days of negotiations and appointments with Telstra over several years. Without a fight I would be receiving between 1.7 and 3.5 mbps.</p> <p>At that speed my internet is barely reliable. If there are 2 Apple computers running (connected to the internet), the dropouts, which require full reboot of the modem can occur every 3 minutes on a bad day..... Its fairly stable most business days when there is only one device. For the money I pay this service is insulting and pathetic.</p>
21 Feb 14 18:10	R282	Blue haven	NSW	Asymmetric Digital Subscriber Line ADSL	1.20 mbps	5.59 mbps	3G & 4G c	Only 3G	<p>Screenshot 1: <a href="http://puu.sh/74nWi.png">http://puu.sh/74nWi.png</a> Screenshot 2: <a href="http://puu.sh/74nY5.jpg">http://puu.sh/74nY5.jpg</a> Speedtest: <a href="http://www.speedtest.net/result/3321389961.png">http://www.speedtest.net/result/3321389961.png</a></p> <p>Also, My line has also decayed to the point where when we receive a call our ping goes up by like 300 for like 2 seconds.</p>

21 Feb 14 21:18	R300	Concord West	NSW	Asymmetric Digital Subscriber Line ADSL	19.5	3.5	3G & 4G c	3G & 4G	Under location I wanted to write: might as well be the arse end of nowhere in Internet connectivity terms\, but there wasn't enough room. Seriously\, that speed is a joke\, I could get that speed on the British Telecom installed wifi hotspot which was Outside My Front Door in a suburban street in a market town the UK\, not one of the world's most rapidly expanding metropolises. Yep\, that's British telecom that takes 24 hours not 30 days to connect a telephone line & 3-5 not 30 days to activate an ADSL connection\, British telecom that's actively investing in it's infrastructure because it knows it can bring in revenue. I could go on ad infinitude but I don't thing I need to\, my speed test speaks for itself.

21 Feb 14 23:23	R308	Seville Grove	WA	Asymmetric Digital Subscriber Line ADSL	22.69	13.56	Only 3G	3G & 4G	Yeah great mr broadband the inventor of the internet according to Mr Abbott. My copper doesn't even allow for ADSL2+ because I am on a rim which is like a node and they can't get the technology to fit in the cabinet to give me ADSL2+ so stuck with ADSL thats unreliable. Yeah Australia doesn't need Fiber because it will need to be replace in 30 years but you still haven't answered the question what goes faster than light? LOL. I worked for an ISP so have heard it all about the Telstra infrastructure and how great it is ask the Technicians they are nice people not Telstra management thoe. Thank you
22 Feb 14 07:33	R309	Napolens	VIC	Asymmetric Digital Subscriber Line ADSL	1.99	29Kb	3G & 4G c	Only 3G	
22 Feb 14 08:17	R310	Elizabeth Grove	SA	Asymmetric Digital Subscriber Line ADSL	9.3	3.72	Only 3G	Only 3G	We used to get around 8Mbps\, which is close\, but our speed has randomly cut in half lately. Wouldn't it be great if it were possible to have a last-mile connection with reliable speeds rather than "theoretical maximums" OH WAIT

22 Feb 14 09:36	R319	Oyster Cove	TAS	Other	13.85	5	Only 3G	None	Nobody in my immediate area has ANY fixed line availability - we're satellite only\, and 3G is patchy/non-existent due to hills. But the site classes our overall fixed broadband availability as "A&quot;\, because there's a town in the boundary with ADSL and fixed wireless.
22 Feb 14 09:38	R320	Plympton	SA	Asymmetric Digital Subscriber Line ADSL	16	3	3G & 4G c	3G & 4G	3.5 km from exchange
22 Feb 14 09:47	R321	Edithvale	VIC	Asymmetric Digital Subscriber Line ADSL	12	7.6	Only 3G	3G & 4G	You can get a more accurate picture of Australia's REAL broadband figures by going to speedtest.net - they also break it down by ISP yet Malcolm thinks (and I use that word loosely) that his new joke of a site proves anything other than the LNP are\, once again\, engaged in smoke & mirrors and a thin tissue of lies. Most of the copper in this country is over 30 years old...it begins to degrade exponentially after 15 years; less if the pit isn't weatherproofed and\, let's be honest\, a plastic shopping bag is NOT weatherproofing. Fibre to the house like we were promised\, please.

22 Feb 14 09:51	R322	Bundoora	VIC	Asymmetric Digital Subscriber Line ADSL	19.96	14.28	3G & 4G c	3G & 4G	I tried three speedtests and they all gave me a ballpark of 14. something.  You also might like to know that when I changed from Cable (optus) to iiNet, there are 7 connections back to the exchange. The tech had to split two pairs to get one good pair. because of induced noise into (or other fault) of the two lines of the split pairs.
22 Feb 14 09:52	R323	Sunrise Beach	QLD	Fixed wireless	5.74	3.11	3G & 4G c	3G & 4G coverage	
22 Feb 14 09:54	R324	Maffra	VIC	Asymmetric Digital Subscriber Line ADSL	11.18	6.14	Only 3G	Only 3G	My home phone has never worked without horrendous noise, which all providers blame on someone else and I suspect is the line quality. I also own rural land 8km from my house just outside the town boundary where the map says I have Fixed Wireless availability, however the town of Maffra is excised from the Mobile Broadband area and FTTP/FTTN will likely not be available in the foreseeable future.

22 Feb 14 11:40	R340	eltham north	VIC	Asymmetric Digital Subscriber Line ADSL	1.09mbps	144 mps	Only 3G	Only 3G	Had terrible trouble with my connection for years - from no speed to very slow - my provider sent out 3 Telstra tech's but only the last one - fixed it. They had the pit at the end of the road up and finally he had to go to the substation to make changes - came back to say the wiring was in a dreadful state. Since then everything is fine -for me at least but looking at the my Broadband site for my area I'd say most people around here are not as fortunate and I live in dread of something going wrong again with such an old network - I'm lucky I didn't have to pay for the techs.

22 Feb 14 13:56	R386	Narre warren south	VIC	Asymmetric Digital Subscriber Line ADSL	8	8	Only 3G	Only 3G	While the speed is about correct\, albeit poor. That's not my main concern\, my main concern is that it says I can get HFC\, which I can't\, it gives me a "A" rating for a technology that isn't available to me. I get a "D" rating for the adsl I actually have. Problem is\, because of the incorrect rating of an "A" for something I don't have\, my overall rating for fixed broadband is "B"\, when it should be "D".
22 Feb 14 13:57	R387	Centenary Heights	QLD	Asymmetric Digital Subscriber Line ADSL	18.04 Mbps	11Mbps (Day)	3G & 4G	3G & 4G	Speed fluctuates widely between day (11Mbps) and night (2Mbps).  Thanks for your trouble in compiling this survey.

22 Feb 14 14:09	R409	Reynella	SA	Asymmetric Digital Subscriber Line ADSL	22.69Mbps	22-24Mbps	Only 3G	Only 3G	Very surprised that it was as accurate as it was. Mobile broadband is not good but slow 3G is still 3G.  Only reason we get the DSL speeds we do is that after 8 years of crap speeds drop outs and no DSL when it rains I finally managed to get Telstra to replace the copper to the house from the pole over the road.  I must be one of the lucky few with good copper.

22 Feb 14 14:18	R425	Adelaide	SA	Asymmetric Digital Subscriber Line ADSL	20.8	15.09	3G & 4G c	3G & 4G	My premisses are in the heart of Adelaide's advertising and design area, and the copper here is a mess. When ever a new copper service is connected it takes a week or two for the contractors to get the correct line identified. My phone number was ringing on an unknown neighbour's line for a week while they tried to find my socket.  No mention of upload speeds anywhere on the myBroadband site. I only get 0.70Mbps UP compared to 15.09Mbps DOWN. I guess that's what the "asymmetric" in ADSL means. Broadband means both ways. We are 20 years past dial UP, but still Mr Turnbull speaks only of DOWN.
22 Feb 14 14:18	R426	Keperra	QLD	Asymmetric Digital Subscriber Line ADSL	9.79	5.41	3G & 4G c	Only 3G	Weather plays a big part in the speed available on our rather average copper-based ADSL2.

22 Feb 14 14:33	R460	McKellar	ACT	Asymmetric Digital Subscriber Line ADSL	5.09	4.27	3G & 4G c	3G & 4G	Internet speeds in Australia are beyond shit\, I cant believe this Government and their backwards thinking. Download speeds are great and once you pass 20Mbps you might be happy and contempt with what you have current day. Going forward 20Mbps is going to be no where near enough to keep up with the rest of the world in 10 years time. What we need is a world class network with not just excellent download speeds but more importantly upload speeds and frankly FTTN will not achieve this\, the copper network is too far gone. FTTP will set us up for at least a few centuries if we don't destroy the planet or each other before hand.
22 Feb 14 14:34	R461	Lockridge	WA	Asymmetric Digital Subscriber Line ADSL	2.55	1.3	Only 3G	Only 3G	Had to use optus as Telstra had no more ports available. We were on 0.7 Mbps before a tech repaired the line
22 Feb 14 14:34	R462	Tailem Bend	SA	Asymmetric Digital Subscriber Line ADSL	18.4	15	Only 3G	None	outages are a pretty common occurrence especially in summer ... Our copper doesn't like the heat at-least twice per summer a tech has to be sent out to fix something.

22 Feb 14 14:58	R492	Coramba	NSW	Asymmetric Digital Subscriber Line ADSL	23.53	18.5	Only 3G	Only 3G	<p>I'm actually a bit surprised\, but pleasantly so\, at the download speed I get here. MyBroadband says that this area will be covered by fixed wireless and I will try and find out a lot more before bothering to become too excited by the prospect.</p> <p>However\, I would be EXTREMELY interested in FTTP and if aerial fibre is feasible\, I would push for that. After all\, if Victorian era copper wire for power and telephone can be used to reach just about everyone in Australia\, why can't fibre do the same in the 21st century?</p> <p>Anyway\, as far as I can tell\, the copper seems to be OK around here although the area around the exchange is in a very neglected state.</p> <p>Good work!</p> <p>David</p>

22 Feb 14 15:09	R504	Ballajura	WA	Asymmetric Digital Subscriber Line ADSL	6.31	2.5	Only 3G	3G & 4G	Mobile broadband service has improved marginally but still not that great. Before you could only get H+, in some good days you might be one bar of 4g, most days its just average 3g. If there are more users using 3g etc, you can get a lot of drop outs.  ADSL is extremely bad in Ballajura. I pay for one of the best services you can get with iiNet and I only sync at 2.7mbps max. The connection is intermittent, with regular drop outs occurring and when you resync, my speed drops to 1.3 - 0.9mbps and I usually have to wait out the day or maybe even two days before I can resync back to 2.7mbps. I'm paying for up to 24mbps... go figure.
22 Feb 14 15:10	R505	Plympton	SA	Asymmetric Digital Subscriber Line ADSL	16	3	3G & 4G c	Other	Hsdpa internet wireless Internet. Might see 3g if moon is in Venus. 3km line length. Officially no more spare pairs in that bundle so neighbours cant even get pstn telephone.
22 Feb 14 15:14	R506	Warners Bay	NSW	Asymmetric Digital Subscriber Line ADSL	4.11	1.3	3G & 4G c	3G & 4G	Ratings of E which I do believe

22 Feb 14 22:08	R640	Strathpine	QLD	Asymmetric Digital Subscriber Line ADSL	9.79	5.52	3G & 4G c	Only 3G	See <a href="https://forums.whirlpool.net.au/forum-replies.cfm?t=2225394&amp;p=6#r102">https://forums.whirlpool.net.au/forum-replies.cfm?t=2225394&amp;p=6#r102</a>  Hard to believe that the median for my area is 9.79 Mbps when only one connection out of 6 nearby residents to me (according to TPG maps) is getting over 7.5 Mbps\, and that one connection that is over on TPG maps is an anomaly that doesn't make sense given how far away from the Strathpine exchange my area is.  Answered that last question as "Only 3G" because I don't have a 4G capable device and cannot test.
22 Feb 14 22:13	R641	Ringwood	VIC	Hybrid fibre-coaxial HFC	12.67	4.86	Only 3G	Only 3G

23 Feb 14 00:48	R653	Springfield	QLD	Asymmetric Digital Subscriber Line ADSL	8Mbps	1Mbps	Only 3G	Only 3G	have very good access to FTTP. However\, it is wrong in saying that as only a few surrounding suburbs have access. Ours was pulled the moment the election was won by the Liberals. I pay a premium for the only service available to me which is ADSL. I used to get speeds in the region of 4Mbps but over selling of the local network by the service provider means that I now get speeds of 1Mbps on good days yet I continue to pay a premium for a service that continues to get slower each month as more access is sold to the out of date network that can't carry the capacity of users. It's not fair to have to pay for poor service at a premium rate. As a self employed commercial photographer\, I often have to send large digital files over ftp to client servers around the world. The upload time is ridiculously slow and has resulted in the loss of income from overseas based clients as we cannot upload our files fast enough to meet print deadlines of newspapers and magazines all around the world. A truly sad state of affairs - especially for self-employed freelancers like myself who depend on access to good technology - if we pay for the

23 Feb 14 01:01	R654	Gympie	QLD	Asymmetric Digital Subscriber Line ADSL	18.69	13.03	3G & 4G c	3G & 4G	Paying for a 24MBit service... We do ok\, but 2 blockers not represented on that site are:  1. pair gain/RIM technology. We were lucky to get ADSL connected in 2009\, but we can't get a naked ADSL connection. This means we have to pay line rental for the phone\, and are offered smaller quota plans for the same price. Comparatively poor value\, because of poor phone line technology.  2. mobile coverage... is pretty good outside and very patchy in the house. We have tried mobile broadband and it's not reliable enough for regular use.

23 Feb 14 07:02	R673	Paddington	QLD	Asymmetric Digital Subscriber Line ADSL	18.96	18	3G & 4G c	3G & 4G	The site was fairly accurate for ADSL (although we have drop outs when it rains and our land line is unusable due to cross talk) and we do have good mobile access. The site reckons we have HFC which may be true for the street but it can't be connected due to telco policy as it is a multi dwelling building. We are extremely lucky to be close to our exchange and basically in a straight line with good switch equipment.
23 Feb 14 07:14	R674	Dunorlan	TAS	Asymmetric Digital Subscriber Line ADSL	9	2.5mbps	Only 3G	Other	Bounces all over the place from 3G down to nothing depending on where I stand. Mostly sits at edge (a 2G subset?).  ADSL speeds used to be around 3.5Mbit but in the last 6 months has dropped to varying between 1.8 and 2.5Mbps. No specific fault to report so can't get Telstra to look at it.

23 Feb 14 07:23	R675	Manly	NSW	Asymmetric Digital Subscriber Line ADSL	10.22	7.23	3G & 4G c	3G & 4G	I live in the thick of it - 7 miles from Sydney & a thousand miles from care - so of course I'm getting 3G & 4G. The speed\, however\, is not what it's claimed to be. We used to have cable which seemed faster\, but never tested. Things are certainly slower than even a year ago and since we took up ADSL\, there have been lots of drop outs. Thanks for doing this\, Noely.
23 Feb 14 07:30	R676	Altona Meadows	VIC	Hybrid fibre-coaxial HFC	VIC	Hybrid fibre	Only 3G	Other	The median speed is for ADSL so not relevant to our current download speed of about 18 Mbps on cable. ADSL clearly wasn't an option for us as we live over 4 km from the exchange and the 4.11 Mbps quoted is very likely to be optimistic. We are not unhappy with the download speed we have on cable but our upload speed of 0.5 Mbps kills off the desire to use cloud based services.
23 Feb 14 07:33	R677	EDGE HILL	QLD	Asymmetric Digital Subscriber Line ADSL	18.04	10.8	3G & 4G c	3G & 4G	Adsl drops out when it rains\, varies speed  Site says 4G only...which is limited (speed+ reception)

									And the 3G availability/reliability depends on the weather\, your carrier and which end of the house/street/whatever/wherever you happen to be when you need access. Black spots right through the area. Only 120K's from the Bourke St Mall. Neighbour loses internet when it rains\, has taken his own 'measures' to try to ensure connection. Was told 6 years ago\, by Telstra contractor\, ex Telstra employee\, when having line connected to my house that copper was stuffed then\, minimal maintenance\, needed replacing. Hasn't happened of course.

23 Feb 14 12:35	R719	Mylor	SA	Other		0 Your line sp	None	Only 3G	<p>intermittent. I have to stand in one of two places in my house\, to NOT have dropouts.</p> <p>NONE of the so-called reasons for &amp;quot;Why was there insufficient data for my area?&amp;quot; apply.</p> <p>I am now on an NBN-Guarantee-supplied satellite\, within 30k (MAX) of Adelaide CBD.</p> <p>Mylor exchange area\, fyi</p> <p>Also FYI but do not publish without deleting the Mylor Exchange reference as it will identify the technician ; he advised us in 2010 / 2011 (me and a techy person who came as witness*) that despite him being required to say that I _could_ get broadband (a la one of their then sites AND my enquiry before buying this place) I would not ever get it until copper replaced properly. His reason given is because the box of connections down at the corner is always wet and all he could do (was required to do) was to switch the 3 of us on that paired line every time one of us complained. I still see a technician there fairly frequently but at least _I_ am not dependen ton it any more.</p>

23 Feb 14 13:12	R724	Bexley North	NSW	Asymmetric Digital Subscriber Line ADSL	20.36	15.31	3G & 4G c	3G & 4G	I have absolutely no confidence in the median speeds. 20.36Mbps medium speed is ridiculous for ADSL2+. Maybe a few people very close to the exchange get this. This speed appears to assume that no-one has any issues with the copper in some way from the exchange to the phone socket. At lower speeds\, in a multi-user household\, 5Mbps makes a huge difference. At higher speeds\, 5Mbps is almost irrelevant.  I rate the site D-.

23 Feb 14 14:03	R729	Ebor	NSW	Asymmetric Digital Subscriber Line ADSL	1.1 to 20	D/L 1.31	3G & 4G c	3G & 4G	the speeds we get for upload - 0.22 & download 1.31 make doing business very difficult if not impossible - when our ADSL connection fails there is the usual 1-2 hours on the phone trying to convince Telstra the problem is with their equipment not ours & then it takes them a week to get a tech out to fix their fault. wireless is no better. Telstra have covered themselves by saying they provide 1.1 to 20Mbps for our area & claim "the fastest speed available in your area" - there is a pretty big gap between 1.1 & 20 - our D/L of 1.31 is in their range but completely unsatisfactory for business. NBN supposedly starting 2015 for our area - don't like our chances given what the government is playing at.

23 Feb 14 17:06	R756	Isabella Plains	ACT	Asymmetric Digital Subscriber Line ADSL	7.13Mbps	3.88Mbps	Only 3G	Only 3G	My ADSL is on a "stability profile" since the copper is so bad that the ADSL will drop out even on dry days (when lots of static builds up on the aerial telephone lines). On wet days my ADSL will drop out about two or three times a night.  The 3G coverage is great, but we're with Virgin. Virgin use Optus, but their service appears to be de-prioritised below Optus customers. On busy days I will be lucky to get my Internet banking page to work at all due to the latency (throughput drops to a few kilobits per second average). The busy times are 6pm-1am weeknights, most of Saturday, most of Sunday.

24 Feb 14 11:53	R817	Salé	VIC	Asymmetric Digital Subscriber Line ADSL	21.65Mbps	3.5Mbps	3G & 4G c	3G & 4G	<p>many consultations with Telstra people and knowing as much as I may do about this all (former Electrician with communications experience) is that the 'proposed' speed as indicated by the My Broadband site is indicative of potentiality. What happens in reality is that between here and the exchange I have several 'connections' that will produce all sorts of interference thus dropping my speed right down. When in consultation with Bigpond about this\, they respond with ADSL2+ is usually around 3Mbps to 21Mbps and then suggest that what I'm getting is within the threshold. However what is also highly evident is that if Telstra were to spend the money to upgrade old cabling (including the 2pair line which I have feeding my house)\, then greater speeds would be enabled. Unfortunately\, as a regional Australian who lives in a unprofitable area\, this is never going to happen.</p> <p>i think personally anyway that adsl2+ was always a bandaid solution to what is a broader problem. The internet wasn't designed realistically to be run on</p>
