

## **Health Insurance Amendment (Medicare Funding for Certain Types of Abortion) Bill 2013**

I oppose this amendment as a tax payer and an Australian citizen.

Those who wish to terminate a child's life should not be subsidised by the government for such an act. It's immoral and should not be included as a government funded policy of which it can later be relaxed for all types of abortion contributing to a balloon of such acts due to government relaxation and support of this policy.

Regards

Peter Fanous
