Dear Committee Members,

As a not-for-profit community association we really would like to see some reforms. We spend an inordinate amount of time and energy raising funds that detracts from the time we have available for important work we need to do in the community. The laws are a mess, they do not deal with current and modern forms of fundraising and that we **need one national and fit-for-purpose fundraising regime!**

Looking forward to your response.

Yours Sincerely,

Regards,

Tim Parkes
