

Brett Hedger

Dear Australian Government

RE: Inquiry: the Comprehensive revision of the Telecommunications (Interception and Access) Act 1979.

I am very concerned about internet privacy and do not want my government increasing surveillance and tracking of internet use, I want stronger laws to protect my privacy and keep government and corporations out of my business – I would like you to put in place the International Principles on the Application of Human Rights to Communications Surveillance – which are repeated below and available at <https://en.necessaryandproportionate.org/text>

Thank you

From
