

My name is Diego Rondinone I am an Assessor and I have another 2 assessors working for me;

I have been badly affected by Glaco because I have already paid the wages to [redacted] and [redacted] and I am out of pocket for a lot of money!!!

I was counting with that payment; I didn't receive any payment for the February assessments from GLACO.

My company name is DPR Network and I have invoiced the government directly for the March assessments.

I have also e-mailed DEWA; begging for early payment of the March invoices, that will help me until we know what is going to happen with Glaco, Also; it will help me pay the wages of [redacted] and [redacted] as well.

I can't believe this is happening!!! HELP ME PLEASE !!!!!

I migrated to Australia from Argentina; I came to Australia looking to have a Government able to provide me and my family with organized and well planned policies which will enable me to make long term decision to provide my family with a better future.

It is deeply disappointing to say that my experience since I started dealing with DEWA was far worse compared with the Argentinean Government.

I can not believe this is happening, I never expected something like this.

But I am still hopeful this is only a problem of implementing a program; and the Australian government will implement the necessary changes to rectify and compensate their own citizens which have acted in good faith and deserve to be paid for the work they have done.

I believe in the Australian Politicians and In the Australian Justice.

Please DO NOT DESAPPOINT ME, MY FAMILY AND THOSE WHO WORK FOR ME.

Diego Rondinone
