

---

Dear Senate Committee,

I like to support Victorian DLP Senator John Madigan's proposed bill which would remove Medicare funding for sex selection abortions.

I was surprised that our Medicare law has a clause in sanctioning sex selection abortions using tax payer's money. I thank him for highlighting this terrible law that need amendment.

As representatives Australian people I encourage you to exercise wisdom to use the tax money wisely where it is needed to save or protect lives not for someone selfishly treat unborn babies like fashion/commodity.

Yours sincerely

Eong Sow
