

Committee Secretary.

I make the following submission for carriage to the Committee.

It is my opinion that the reason the Government and in particular the Minister for Finance ignored the abolition of the CPI for DFRDB and CPS pension adjustments is because they were aware that this inquiry would change the system to a civilianization for defence recipients.

Proposed are 3 Directors without service experience and 2 with e.g. stacked vote.

With a Deficit of \$200B and a monthly interest bill of \$1.8B is it any wonder that veterans miss out.

I believe the Committee should reject the proposal in entirety and recommend it as non viable and detrimental to the veteran community.

Yours Faithfully.

DG Annett
