

To whom it may concern,

My name is Hannah Rogers I'm a 26 year old nursing student and I currently work for a hospital in Victoria under the state vaccination clinic for the COVID-19 pandemic.

My sister and I both work for the community under state government positions.

Unfortunately for the last two years our Grandfather a 70 year old diabetic has been sitting in the Broadmeadows detention facility with no release date, no visitation and six lockdowns all the while the Australian government intends to deport him under the section 501 law.

I have taken out \$10,000 of my super to contribute to lawyers only to be told "no" by an ex liberal politician how this is fair I cannot understand as liberal were responsible for bringing deportation to light here in Australia.

I Gratefully received support when I reached out to minister Martin Foley who highly supported the release of my pop Mr. Martin Aitchison who we offered to fund the release of and also has a job position to go home too. The governments poor handling of my pop has dramatically devastated my entire family as my grandfather is not a violent man but committed a white collar crime. Sadly if pop were a drug addict he would probably be allowed to stay here and be offered rehabilitation support unfortunately he is nothing but a good hard working loving family man who made a big mistake and has paid his dues serving his 5 year sentence! So you've basically given him now a 7 year sentence with no end date! When we want him home with us! This is unfair and a disgrace!

Not to mention this has cost Australian taxpayers \$2.4 billion since 2014 on Serco security alone. As a taxpayer I would much prefer our money go towards a sustainable future such as easier access to home loans for Australian citizens more grants in areas where we require them and not for job security that is wasted on a family man like my 70 year old grandfather. what a joke.

I would love to feel that Australia is my home and not feel ashamed to be an Australian citizen because my family cannot even be united we are built on a multicultural country with a strong powerful history of convicts even criminal nature towards aboriginal people and you want to tear our family apart? All while the lawyers soak up my \$10,000 and your liberal politician mates are handed extremely powerful positions that are a definite conflict of interest! Perhaps mates shouldn't be allowed to be handed these jobs. Because by you allowing this, you've broken our entire family to the absolute littlest of littlest human being, we are beneath you. Why? This has to stop now. Stop discriminating against New Zealand citizens. Especially you Peter Dutton! If you were my pop and he forgot to declare his million dollar property on his tax return he'd not still be running the country to some degree now in the field of cyber security where we've all become spied on which is another issue all together. He'd be right where my pop is sitting. How is one man allowed different rules to my pop? What makes you better? I'm sorry but you have deeply hurt my feelings and I will forever remember this time you kept my family apart. It's none other than a cowards act.

So my submission is to end immigration once and for fucking all. Free the 501s.

Kind regards,

Hannah Rogers.
