

Sir,

Please disallow any changes to current law that allows the territories to be governed by the federal government.

The small population of the territories should not be allowed to dictate policies to the rest of Australia.

I am very much against the territories given power to override the federal authorities and request that this committee not do so.

Please record vehement opposition to this move by the Australian Federation for the Family.

Cordially,

Jack Sonnemann, Dir
Australian Federation for the Family
