

SUBMISSION TO THE SENATE INQUIRY INTO RECENT  
ABC PROGRAM DECISIONS

I write in support of further budget  
allocations to ABC RADIO + TELEVISION

The standard of presentation of programs  
has informed and invigorated me from  
when I first began listening to radio 3LO,  
3AR, ABC FM. and relayed programs from  
BBC and RADIO DEUTSCHE WELLE

The announcers, presenters and documentary  
presenters maintain generally high standards.  
Music styles are well catered for +  
I think no other station on the A.M. dial  
brings my favourite blues + jazz.

I understand television programs are expensive  
to produce however the ABC should be  
nurturing new comedies, drama + information  
programs from <sup>young</sup> Australian talent.

If the ABC can't do this, commercial TV  
will only pick up lowest common denominator  
material.

It will develop use of the INTERNET.

Its sensible repeat of good programs  
is acceptable.

I support ABC plans to enhance  
RADIO AUSTRALIA further into ASIA.
