

To the Standing Committee on Rural + Regional Affairs Transport
 Dear Senators, ^{Monday 25 May}
 Subject: Pre Weighing or Post Weighing
 of Livestock, Pre Weighing gives the buyer & Seller
 the weights before auction. Post weighing gives the
 buyer an advantage over the Seller, as he buys on
 estimated weight and this can cost Sellers dearly.
 Subject: Letting up the Farmer & Graziers Direct Meat
 Supply in Victoria, Post 2nd world War, because
 sellers in the old Newmarket yards, were so unhappy
 with prices they received, they turned to their own
 Meat Processing, It had magnificent support
 with the prices to the breeders greatly improved, but
 then it collapsed, not because of lack of supplies,
 The Growers took it up again, and it paid
 good profits, but the same thing happened
 the Growers did not resurrect it. The Sale of British
 meats is another blow to the Meat producers, The
 constitution Rule whereby the Federal Treasurer
 is the one who says sell, or not to sell, Senators
 this needs to be reviewed, and placed in the hands
 of a committee that has connections Australia
 wide, to advise the Govt whether it is in the Best Interest of
 Australia.

"Subject, TPP." Twelve will make up membership from various parts of the world. Page, Hochstetler, May, 7, 2015, Minister Robb, quotes TPP boon for Agriculture. The Weekly Times, May 16th 2015, Tears of TPP by Rob. Harris, writes Australia Exporters may be derailed by Domestic U.S. Politics. Minister for Trade Mr Robb, has drawn criticism along with the TPP, over Secrecy of Negotiations, and the inclusion of provisions allowing companies to sue "foreign" "Governments." A Presidential Candidate for the American Elections, complains of the fact that no one can see it, except a few "Senators." It is your opportunity to report what is contained, in this document, when you look at how the "WTO" acts on our lamb exports, "Australia is so valuable" to allow any control of its exports, "Subject, Biosecurity, Quarantine." It is pleasing to know, that the new, Post Entry Quarantine Facility at Nicklehams Vic. on the outskirts of Melbourne, has begun construction. Biosecurity especially livestock is a concern, when it is known how many "Lethal" diseases there are in the world, at all costs we must protect our meat exports along with all other food exports that we sell all over the world. Please Pay attention to the story on "Human Faeces".

"Subject A" WTO. Control over Australian Imports to
the EU. Figures from an "Elder Smith Manual."
1941. Showed Australia delivered to England.
early days of 2nd world War 200-000 thousand tonnes
of Meat. 12 million tonnes of Wheat 500-000 tonnes
of Flour. In the early 1960's Sir John McEwan
set up an advisory committee to advise him on lamb.
Ron McPherson a stud breeder of Dorset Horns from
Melton Vic, was nominated by the Executive of the
VWVGA, 24 Collins Street Melbourne, now the VFF.
to fill the vacancy, after attending many meetings
the members could ~~not~~ not make out what it
was meant to do, on Resigning from the VWVGA and
moving to Junee NSW, he learnt some years later
that England had joined the EU, and that NZ
had gained 230-000 tonnes of Meat to the EU
from the 1941 figures quoted, Australia
was left with "19-500" tonnes per year, and that if
we exceed this figure the WTO will place an above tariff
on Australia. On his recent visit to Australia the Mayor
London, Mr Boris Johnson made reference to the way
Australia was treated. A note of interest. Woolworths
Countdown Stores NZ Imported Aust Lamb for Christmas
& sold it for \$10-99 per kilo, while NZ Lamb was \$18-49
a kilo. Info source: WA Farm Weekly, Jan 8, 2015

Subject: Chinese to Graze National Park.

Weekly Times, Page 10 April the 1st, 2015.

The lease has been approved for 99 years. It is believed China will build a 28 Storey Hotel, at Teicola along with a Casino, along with a Starstrip, capable of handling an air bus, A 3 Q will be constructed at Dargo High Plains, where the Dim Cattle breed will be flown in to establish a breeding Programme. This along with Indonesian Stations bought for breeding cattle, and other properties Australia wide bought for dairying and animal production, posed a disease threat to Australian livestock breeders of Livestock for food Production, a quote when 600 tonnes of Chinese dirt can be imported at Manure and a goat fast Quarantine, what hope has the livestock industry got especially with breeding herds down in NSW, take for instance a Beef Cow in America, making 4000\$. Senators please be advised that the Gate and Protection efforts Subject: Purity of Animal Food. Recently Coppra Meal was imported by a Beef Feedlot. It was growing underneath with Human Faeces, it killed numerous numbers with Beef Measles. Understand Understand that Wagga Uni was doing an investigation, a Dairy farmer friend of mine was informed by letter not to use Coppra Meal for his dairy cows for milk Production.
