Re Inquiry into the Energy Efficient Homes Package

I, **LORNA MAY MEARS** of [REDACTED] wish to make a submission to the Senate Standing Committee on Environment, Communications and the Arts.

Under the Home Insulation Program, my husband I engaged the services of [REDACTED] to install ceiling insulation in our home at [REDACTED]. The work was carried out in approximately March 2009, however, the insulation was only installed to about ¾ of our ceiling. In addition to this, [REDACTED] purchased an air conditioner from the Government rebate paid to him, however, it was never installed in our home.

To date, the ceiling insulation has not been completed nor has the air conditioner been installed in our home as we are not in a financial position to have the work completed.

DATED this 6th day of November 2009
